Those guidelines recommend that there should be a presumption to copy out the provisions of a Directive except where there is a clear justification for doing otherwise. In the case of the draft Control of Asbestos Regulations, most of the provisions of Directive 2003/18/EC have been copied out. Where this has not been done, it has been for clear and justifiable reasons, such as ensuring a good fit with the way in which health and safety law is framed in Great Britain. This is particularly important in areas where we go beyond the requirements of the Directive, such as licensing.

Paul Holmes: To ask the Secretary of State for Work and Pensions what assessment he has made of the effect of the omission of the words 'without deterioration of non-degraded' from Regulation 3(2)ii of the draft Control of Asbestos Regulations 2006, which transposes Article 3 Paragraph 3 of directive 2003/18/EC, on *(a)* the scope of the directive and *(b)* worker protection. [86623]

Mrs. McGuire: This issue is currently with the Health and Safety Executive (HSE), which is responsible for drawing up draft regulations to implement Directive 2003/18/EC. The regulations will only be submitted to Ministers once the Health and Safety Commission is content with them. HSE's assessment is that the omission of the words "without deterioration of non-degraded" materials from the draft Control of Asbestos Regulations provides greater clarity in the way the directive has been transposed and will in fact contribute to overall increased levels of protection beyond that provided for in the directive for those working with materials containing asbestos.

Paul Holmes: To ask the Secretary of State for Work and Pensions whether he has sought guidance from the European Commission on the UK's proposed wording of the Control of Asbestos Regulations 2006 to implement directive 2003/18/EC. [86624]

Mrs. McGuire: This issue is currently with the Health and Safety Executive (HSE), which is responsible for drawing up draft regulations to implement directive 2003/18/EC. The regulations will only be submitted to Ministers once the Health and Safety Commission is content with them. HSE has not sought guidance as it considers the directive provides a sufficient basis for putting in place clear measures that fully implemented it. Once the regulations are in place, the way in which we have implemented the directive will be considered by the European Commission.

Paul Holmes: To ask the Secretary of State for Work and Pensions what response his Department has made to the correspondence from the European Commission regarding the draft Control of Asbestos Regulations 2006 to transpose directive 2003/18/EC. [86625]

Mrs. McGuire: The UK has received three letters from the European Commission regarding the transposition of directive 2003/18/EC. The first, in April, requested information about the measures the UK had taken to implement the Directive. The UK replied in May, explaining that it had not yet been possible to fully implement the directive, but that it had consulted on proposals. In June, a further letter was received notifying the UK that the Commission considered that it had failed to fulfil its obligations to transpose the directive into national law and inviting observations. On 20 June 2006 the UK received a further letter referring to concerns raised by the Asbestos Removal Contractors Association about the way in the Health and Safety Executive proposes implementing Article 3(3) of directive 2003/18/EC. We will reply to both these letters soon.

Benefit Fraud Hotline

Mr. Ruffley: To ask the Secretary of State for Work and Pensions how many calls were made to the Benefit Fraud Hotline in each year since 1997; and what proportion of such calls led to *(a)* investigation and *(b)* conviction of the individuals named. [73252]

Mr. Plaskitt: The National Benefit Fraud Hotline is very cost effective—last year it cost nearly £1 million to run but identified £21.4 million in recoverable overpayments. Between April 1999 and March 2006, 4,233 people have been convicted as a result of calls made to the National Benefit Fraud Hotline.

Information regarding calls made, and the proportion of such calls that led to investigation and conviction is only available from April 2004. Available information regarding the number of calls actually answered from 1997 is in the table.

	Calls answered	*Referrals for investigation as a proportion of calls answered (Percentage)*	*Convictions as a proportion of calls answered (Percentage)*
1997-98	188,038	Not recorded	Not recorded
1998-99	170,032	Not recorded	Not recorded
1999-00	162,067	49.05	0.20
2000-01	208,201	48.68	0.23
2001-02	205,999	52.99	0.34
2002-03	159,290	56.51	0.44
2003-04	211,054	53.55	0.29
2004-05	199,004	55.22	0.31
2005-06	211,599	72.47	0.34

National Benefit Fraud Hotline and Fraud Information by Sector system.

Benefits (Direct Payment)

Mrs. Curtis-Thomas: To ask the Secretary of State for Work and Pensions what assessment he has made of the impact of fee-paying cash machines on people whose benefits are paid by direct payment. [57017]

Mr. Plaskitt: Direct Payment offers customers more flexibility in how and where they access their money—including making use of the 33,000 free automated teller machines within the LINK network. 96 per cent. of all cash withdrawals from LINK machines are free.

They can also use the 25 or so different bank accounts that are available free of charge over the counter at Post Office branches. There are around 20 million people who could access their bank account free of charge at a Post Office, but only around 10 per cent. (two million) per week actually do so. This is a huge untapped market which could bring vital new income into Post Office branches. DWP will work with Post Office Ltd. and support it in its efforts in increase this market.

The Post Office has confirmed its intention to withdraw from its involvement with third party fee-charging ATM suppliers and has recently announced its plans to install extra free-to-use automated teller machines in its branches.

DWP has undertaken research into customers' experience of, and satisfaction with, Direct Payment. Cash machine charges were not raised as an issue by customers in this research.

Benefits Processing

Mr. Boswell: To ask the Secretary of State for Work and Pensions what progress has been made on the introduction of new processing systems for *(a)* income support and *(b)* jobseeker's allowance; and if he will make a statement. [86038]

Mr. Jim Murphy: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your question asking what progress has been made on the introduction of the new processing systems for (a) income support and (b) job seekers allowance. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

On the progress of the Benefit Delivery Centre roll out programme, I refer you to my reply to your earlier question, (PQ 76509, published in Hansard on Wednesday 28 June 2006, Col 421-422W).

I can also confirm that as Benefit Delivery Centres are rolled out staff will to continue to use the existing IT systems.

I hope this is helpful.

Child Support Agency

Bob Russell: To ask the Secretary of State for Work and Pensions whether employers have the right to reduce the amount of attachment of earnings maintenance payment made by employees instructed to do so by the Child Support Agency. [87412]

Mr. Plaskitt: Where the employee's net income falls below the protected rate, the employer has the right to reduce the amount on a deduction from earnings order.

Chris Huhne: To ask the Secretary of State for Work and Pensions what proportion of families in *(a)* rural and *(b)* non-rural areas who have made claims to the Child Support Agency have received at least one payment in each year since 1997; and if he will make a statement. [85923]

Mr. Plaskitt: The information requested is not available.

Computing Equipment

Mr. Weir: To ask the Secretary of State for Work and Pensions how many *(a)* USB (i) flash drives and (ii) memory sticks, *(b)* compact discs, *(c)* DVD-ROM discs, *(d)* laptop computers, *(e)* external computer hard drives, *(f)* internal computer hard drives and *(g)* desktop computers were purchased for use in his Department in each month since March 2005. [88755]

Mrs. McGuire: It has not been possible to provide all the information in the requested format. The information available is presented in the following table.

Item	*Volume*	*Purchasing period*
USB Flash Drives and Memory Sticks	1,412	March 2005-June 2006[1]
Compact Discs	17,947	March 2005-June 2006
DVD-ROM discs	342	March 2005-June 2006
Laptop computers	430	March 2005-June 2006[2]
External Computer Hard drives	269	March 2005-March 2006[3]
Internal Computer Hard drives	20	March 2005-March 2006[3]
Desktop Computers	381	2March 2005-June 2006[2]

[1] These similar items are counted together
[2] Purchased by DWP or its IT supplier for use by DWP
[3] Information not available April 2006 to date

Correspondence

Sir Michael Spicer: To ask the Secretary of State for Work and Pensions when the Minister of State will reply to the letter of 26 April from the hon. Member for West Worcestershire on pension wind-ups. [78040]

James Purnell *[holding answer 16 June 2006]*: I replied on 30 June, another copy has been sent to the Member's constituency office.

Council Tax Benefit

Mrs. Spelman: To ask the Secretary of State for Work and Pensions how many households in *(a)* England and *(b)* Wales receive 100 per cent. council tax benefit. [86849]

Mr. Plaskitt: As at May 2004, the most recent available information, there were 3,186,000 households in England and 222,000 households in Wales that received a full rebate through council tax benefit. These figures equate to 80 per cent. of English and 84 per cent. of Welsh households that are in receipt of council tax benefit.

Tom Brake: To ask the Secretary of State for Work and Pensions what *(a)* minimum and *(b)* maximum number of pages of the council tax benefit form a person is required to complete to claim the benefit. [87154]

Mr. Plaskitt: Where a person makes a claim for council tax benefit via Jobcentre Plus through the Customer Management System (CMS), or via the pensions service on a pre-populated form alongside pension credit, the minimum requirement is that the person signs the CMS statement or completed form after checking that the information is correct.

In other cases, the minimum is the two-page claim form used in the rapid reclaim process. This process allows those people who have previously been in receipt of council tax benefit and income support or income-based jobseeker's allowance in the last 12 weeks to reclaim benefit under a simplified process where the break in their claim was due to employment and no other circumstances have changed since their last claim.

For a completely new claim for council tax benefit only, the minimum size of the form issued by the department is a three-page form for pensioners who are in receipt of pension credit and have no dependent children or non-dependents living in the household.

We are unable to provide details of the maximum number of pages needed as this would not only depend on the complexities of a person's circumstances, but also depends on the procedures and forms in place within the 408 local authorities who administer council tax benefit.

Jeff Ennis: To ask the Secretary of State for Work and Pensions how many households in *(a)* Barnsley and *(b)* Doncaster receive 100 per cent. council tax benefit. [87585]

Mr. Plaskitt: The information is not available.

Tom Brake: To ask the Secretary of State for Work and Pensions how many *(a)* people, *(b)* senior citizens and *(c)* families are (i) entitled to and (ii) receive council tax benefit in each parliamentary constituency. [88311]

Mr. Plaskitt: The information is not available. Council tax benefit information is not available broken down by parliamentary constituency.

Criminal Offences

Mr. Clegg: To ask the Secretary of State for Work and Pensions how many criminal offences his Department has created by Orders in Council in each year since 1997. [88465]

Mrs. McGuire: None.

CV Writing

David Simpson: To ask the Secretary of State for Work and Pensions what help is available through his Department to people seeking to return to work to assist them in writing a curriculum vitae. [80755]

Mrs. McGuire: Personal advisers provide information, advice and guidance to help people identify, apply for and secure employment. As part of this, they are able to provide help to people on a range of required jobsearch skills, including developing and producing a curriculum vitae (CV).

Particularly disadvantaged people who need additional help can also be referred to Programme Centres which provide more concentrated, in-depth support on the range of jobsearch skills, including CV preparation.

Departmental Budget

Jenny Willott: To ask the Secretary of State for Work and Pensions how much was unallocated in his Department's budget in each year since 1997; and if he will make a statement. [89094]

Mrs. McGuire: The Department for Work and Pensions (DWP) was formed in June 2001 from the Department of Social Security (DSS), the Employment Service (ES) and parts of the former Department for Education & Employment (DFEE). Therefore it is not possible to provide information prior to 2001-02.

All of the Department's funding is allocated over the Spending Review period with the exception of a relatively small Departmental Unallocated Provision (DUP). The Department follows Treasury Public Spending Guidance in maintaining this contingency fund from which unforeseen demands on resources can be met. Amounts carried forward at the end of one year are added to the DUP amounts set aside for the new year from the planning cycle. The amounts set aside for the DUP at the beginning of each year, the amounts expended during the year and the amounts carried forward to the following year are shown in the following table:

£ million

	Unallocated provision at start of year	*Expended during year*	*Provision carried forward at the end of year*
2001-02	56	9	47
2002-03	94	0	94
2003-04	105	103	2
2004-05	100	97	3
2005-06[1]	91	39	52

[1] The figures for 2005-06 are subject to final audit.

Departmental Publications

Mr. Carmichael: To ask the Secretary of State for Work and Pensions if he will list in date order the *(a)* (i) Green and (ii) White Papers and *(b)* written ministerial statements, excluding those on Benefit Fraud Inspectorate reports, which have been produced by his Department since May 1997. [86511]

Mrs. McGuire *[holding answer 19 July 2006]:* The Department for Work and Pensions was formed in June 2001. "Green" and "White Papers" are not defined terms. 66 papers were published within the Command Papers series since June 2001. A detailed list has been placed in the House of Commons Library.

Written ministerial statements were introduced in October 2002. Since then the Department for Work and Pensions have made a total of 274 excluding Benefit Fraud Inspectorate Reports. A detailed list has been placed in the House of Commons Library.

Departmental Staff

Simon Hughes: To ask the Secretary of State for Work and Pensions how many of his Department's employees have been *(a)* dismissed, *(b)* suspended and *(c)* subject to disciplinary action for criminal activity in each year since 1997. [88455]

Mrs. McGuire: The information on the number of Department of Work and Pensions (DWP) employees who have been *(a)* dismissed and *(c)* subject to disciplinary action for criminal activity for the period July 2003 to March 2006 is shown in the following table. No information is available for the period before July 2003.

No information is held on *(b)* the number of DWP employees who have been suspended for criminal activity in each year since 1997.

Number of DWP employees who have been dismissed and subject to disciplinary action for criminal activity

	Dismissed	*Disciplined*
July to December 2003	6	13
January to December 2004	6	43
January to December 2005	10	33
January to March 2006	1	3

Mr. Stephen O'Brien: To ask the Secretary of State for Work and Pensions how many staff in the Department have taken early severance in each of the last 12 months; how many of those have been

re-employed by the Department; and how many of those have been re-employed in the same, or similar roles on (a) open-ended, (b) fixed-term and (c) temporary contacts (i) in England and (ii) at South Cheshire Jobcentre Plus. [88876]

Mrs. McGuire: Information on the number of staff who have taken early release, early severance and early retirement, in each of the last 12 months for which centrally held information is available is in the following table.

The number of staff who have been re-employed on permanent, fixed term and temporary contracts is also in the table but data is not available on the specific roles in which they have been re-employed.

You also asked for the position at South Cheshire Jobcentre Plus. South Cheshire is part of the Cheshire and Warrington District of Jobcentre Plus. Information is not available from centrally held data but information obtained from local records indicate that a total of 26 staff left the District in March and 41 staff in June on early release. Of those who left, nine staff have been re-employed on short term temporary contracts to deal with work prior to centralisation. This approach was considered the most cost effective solution given the short term nature of the staffing requirement and the fact that no additional staff training was required.

		Number of staff re-employed in England		
	Number of staff taking early release in England	*Permanent contracts*	*Fixed term contracts*	*Temporary contracts*
2005				
June	169	1		
July	199	1	1	1
August	30	1		
September	325			
October	218			
November	43	1		1
December	235	1		
2006				
January	150			2
February	92	1		
March	732	1		1
April	218			
May	155			1
Total	2566	13	1	7

Notes
Figures relate to the number of individual staff not full time equivalents
Figures relate to early retirement and early severance

Disability Benefits

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the total departmental expenditure on benefits has been for those who are disabled and unable to work since 1997; and how much of the welfare reform budget has been spent on measures connected with this group. [79985]

Mrs. McGuire *[holding answer 26 June 2006]:* The Information is not available. In the case of Department for Work and Pensions benefits which are not paid in relation to a disability, claimants are not required to classify themselves as being disabled or non-disabled.

Disabled Staff

Mr. Hunt: To ask the Secretary of State for Work and Pensions what proportion of (a) staff and (b) new staff employed since April 2005 in (i) his Department and (ii) each of the agencies for which he has responsibility were registered as disabled. [89034]

Mrs. McGuire: The process of registration as a disabled person was removed by the Disability Discrimination Act 1995. DWP staff are, however, asked on a voluntary basis to state whether they are disabled.

The following table illustrates (a) the proportion of DWP staff that, according to computerised personnel records, have declared their disability status and stated that they are disabled, and (b) the proportion of new staff since 2005 that have declared on their application forms to the Department that they are disabled. The figures are broken down into the individual agencies and the corporate centre.

Agency	*Percentage all staff*	*Percentage new staff since April 2005*
DWP	5.20	6.79
Jobcentre Plus	6.43	6.33
The Pension Service	2.96	6.80
Child Support Agency	2.71	7.14
Disability and Carers Service	5.55	6.17
Debt Management	2.56	3.70
Corporate Centre	3.64	9.19

Escaped Prisoners (Benefits)

David T.C. Davies: To ask the Secretary of State for Work and Pensions what checks are in place to ensure that benefits are not paid to escaped prisoners. [79002]

Mr. Plaskitt *[holding answer 20 June 2006]:* The Department for Work and Pensions (DWP) benefits are not payable to convicted prisoners in custody or released on temporary licence. When a claim is made for an income-related benefit, checks are made of the claimant's recent past history as part of the process to establish entitlement.

Financial Assistance Scheme

Ms Gisela Stuart: To ask the Secretary of State for Work and Pensions pursuant to the Answer of 28th March 2006, *Official Report*, column 945W, on replacement pension costs, what estimate he has made of the annual cost over the next 10 years of administering the Financial Assistance Scheme (a) under the existing rules and (b) assuming (i) full and (ii) partial restoration of the pensions of those covered by the Parliamentary Ombudsman's report. [63866]

James Purnell *[holding answer 18 April 2006]*: The information is as follows:

(a) As the Financial Assistance Scheme has only recently been set up, estimates of the administrative costs over the next 10 years are subject to a degree of uncertainty. Our current estimate is that it will cost around £4.5 million a year up to 2009-10, when we would expect the costs to reduce significantly once the eligibility of all schemes and members has been assessed.

(b) It is difficult to estimate the administration costs of a scheme providing restoration of pensions to all those covered by the parliamentary ombudsman's report. As the scheme might have to mirror the benefit structures for each qualifying pension scheme, it could be significantly more complex than the Financial Assistance Scheme.

For full restoration, we estimate that the one off set up costs might be around £10 million and during the first five years that it might take to assess scheme eligibility and calculate member benefits, the administration costs could be at least £14 million a year. The total costs over the first year or so could therefore be around £20 million.

We cannot provide an estimate for partial restoration as it is unclear what that would involve.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what his latest estimate is of how many people will qualify for support from the Financial Assistance Scheme at *(a)* the 80 per cent. rate, *(b)* the 65 per cent. rate and *(c)* the 50 per cent. rate. [77996]

James Purnell: We estimate that 25,000 people could qualify for support from the Financial Assistance Scheme at the 80 per cent. rate, 9,000 could qualify at the 65 per cent. rate and 6,000 at the 50 per cent. rate.

Health and Safety (Temperatures)

Mr. Laws: To ask the Secretary of State for Work and Pensions (1) what guidance the Health and Safety Executive has issued on the acceptable *(a)* minimum and *(b)* maximum temperatures (i) within offices and (ii) on public transport; [89045]

(2) what guidance the Health and Safety Executive has issued on the acceptable minimum and maximum temperatures. [89046]

Mrs. McGuire: I shall answer both of these questions together.

The Workplace (Health, Safety and Welfare) Regulations 1992 require employers to provide reasonable temperatures in all indoor workplaces, including offices, for their employees. These Regulations are accompanied by an Approved Code of Practice and guidance. HSE recommends a lower temperature of 16 degrees Celsius unless the work involves severe physical effort in which case the temperature should be at least 13 degrees Celsius.

There is no minimum or maximum temperature legally required in the workplace. Establishing either is impractical, as thermal comfort is dependent on a range of environmental and personal factors (e.g. ventilation, humidity, type of work activity being undertaken, clothes worn, and temperature).

Further guidance is available on HSE's website www.hse.gov.uk/temperature/thermal. The website has been designed to provide comprehensive information and a step-by-step approach to help employers and employees manage excessive temperatures in the workplace. There is also HSE guidance for employers entitled "Thermal comfort in the workplace" (HSG 194).

The HSE has issued no specific health and safety guidance on public transport. However, HM Railway Inspectorate, which is now part of the Office of Rail Regulation, does have particular concern that rolling stock and infrastructure failures in deep tunnels can cause more specific health concerns. This is because of the increased temperatures and reduced ventilation that may be encountered by passengers on delayed and overcrowded carriages, especially during summer months. In such cases health and safety law requires employers to put arrangements in place to reduce the risks, but there are infrastructure and technical constraints to improving ventilation on some railways. Railway operators, such as LUL, alert passengers to the risks posed by hot conditions by suggesting that passengers carry a bottle of water and informing passengers of the quickest way of seeking help if taken ill on a train.

In addition, the Department of Health has produced an updated heat-wave plan on 26 May 2006 and new public health information leaflets are available from the Department of Health website: www.dh.gov.uk.

Housing Benefit/Council Tax Benefit

Mr. Salmond: To ask the Secretary of State for Work and Pensions what the costs to local authorities in *(a)* Scotland and *(b)* Great Britain for administering (i) housing benefit and (ii) council tax benefit were in each of the last 10 years for which figures are available. [86971]

Mr. Plaskitt: The information is not available in the format requested. The Department does not collect management information relating to the cost to local authorities of administering housing benefit under the existing national scheme. The available information on the administration subsidy paid to local authorities is in the following table.

Housing Benefit (HB) Council Tax Benefit (CTB) Administration subsidy: Scotland and Great Britain

£ million

	HB	CTB	HB/CTB
1999-2000			
Scotland	8,644,389	7,861,986	16,506,375
Great Britain	87,553,309	72,031,691	159,585,000
2000-01			
Scotland	8,588,591	8,216,713	16,805,304
Great Britain	86,817,329	74,182,671	161,000,000
2001-02			
Scotland	8,868,090	8,639,248	17,507,338
Great Britain	89,735,660	76,264,340	166,000,000

2002-03			
Scotland	8,999,480	8,956,165	17,955,645
Great Britain	91,529,917	78,470,083	170,000,000
2003-04[1]			
Scotland	18,761,705	17,825,973	36,587,678
Great Britain	189,533,660	158,466,340	348,000,000
2004-05[2]			
Scotland	21,238,664	18,372,505	39,611,169
	—	—	3,544,030
Great Britain	200,329,846	163,351,154	363,681,000
	—	—	30,400,000
2005-06[2]			
Scotland	21,992,689	18,946,117	40,938,806
	—	—	2,895,239
Great Britain	209,609,053	172,171,947	381,781,000
	—	—	27,000,000
2006-07[3]			
Scotland	—	—	57,367,265
Great Britain	—	—	554,999,999

[1] From 2003-04, the Department for Work and Pensions (DWP) distributed 100 per cent. of HB/CTB administration subsidy. Prior to 2003-04 distribution was shared 50 per cent by DWP, and 50 per cent. between the then Office of the Deputy Prime Minister, the National Assembly for Wales and the Scottish Executive.

[2] 2004-05 and 2005-06 figures include separate identifiable amounts allocated in recognition of the costs to local authorities of administering HB/CTB claims which include pension credit and tax credits.

[3] From 2006-07 HB/CTB administration subsidy which includes funding for programme protection activities is announced as a single annual figure.

Identity Fraud (Training)

Mr. Evans: To ask the Secretary of State for Work and Pensions what internal training courses on tackling identity fraud are provided to departmental staff who have access to members of the public's personal information. [86644]

Mr. Plaskitt: I refer the hon. Member to the Written Answer I gave the hon. Member for Hemel Hempstead (Mike Penning) on 16 February 2006, *Official Report*, column 2438W.

Incapacity Benefit

Mr. Paice: To ask the Secretary of State for Work and Pensions how many individuals in *(a)* South East Cambridgeshire constituency, *(b)* Cambridgeshire and *(c)* the Eastern region claimed (i) short-term and (ii) long-term incapacity benefit in each of the last five years. [88850]

Mrs. McGuire: The information is in the table.

Incapacity benefit (IB) and severe disablement allowance (SDA) claimants each November 2001 to 2005, by geographical area and rate

	All IB/SDA	IBST(L)	IBST(H)	IBLT	IBCO	SDA
South East Cambridgeshire constituency						
2005	2,480	140	100	1,100	740	410
2004	2,450	130	110	1,110	680	420
2003	2,390	110	90	1,130	610	450
2002	2,330	110	130	1,080	550	460
2001	2,290	110	120	1,040	500	510
Cambridge city council						
2005	3,470	130	120	1,360	1,500	350
2004	3,360	130	120	1,320	1,430	370

DWP Information Directorate: Work and Pensions Longitudinal Study

Income Statistics

Mr. Boris Johnson: To ask the Secretary of State for Work and Pensions what percentage of households in the UK had an income of *(a)* £22,009 or less, *(b)* £22,010 to £32,744 and *(c)* £32,745 or more in 2005-06. [83159]

Mr. Jim Murphy: The income information for 2005-06 is not available. Fully processed income data for 2005-06 will not be available until March 2007, following the publication of Households Below Average Income 2005/06.

IT Contracts

Dr. Cable: To ask the Secretary of State for Work and Pensions what the *(a)* start date, *(b)* original planned completion date, *(c)* current expected completion date, *(d)* planned cost and *(e)* actual cost was of the upgrade from Windows 2000 to EP in his Department; and if he will make a statement. [88587]

Mrs. McGuire: The Department's project to upgrade to Windows XP started in August 2004. Rollout commenced in June 2005 with an expected completion date of December 2005 at a planned cost of £12.673 million. The project completed in February 2006 with a final cost of £12.276 million.

Job Outcome Target

Danny Alexander: To ask the Secretary of State for Work and Pensions what monitoring he has undertaken of the Job Outcome Target; and if he will make a statement. [87540]

Mr. Jim Murphy: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 25 July 2006:

The Secretary of State has asked me to reply to your question asking what monitoring he has undertaken of the Job Outcome Target. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Following a pilot which ran from January 2005 to March 2006 in seven Jobcentre Plus Districts, the Job Outcome Target was introduced nationally in April 2006. Job Outcomes are measured by matching information on employment starts provided by Her Majesty's Revenue and Customs (HMRC) with information held on Jobcentre Plus systems.

As part of the pilot we monitored performance and conducted research into the operation of the target. Two reports have been published and are in the Library ('Evaluation of the Job Outcome Target Pilots: quantitative study. Final Report' Authors: Frankham et al. Ref No 316 and 'Evaluation of the Job Outcome Target Pilots: Findings from the Qualitative Study' Authors: Johnson et al. Ref No 302). The national implementation incorporated findings from this research. Further research is underway to examine activity in the pilots one year after implementation and to incorporate best practise on a national basis. We expect findings from this research to be published after February 2007.

I hope this is helpful.

Jobcentre Plus

Jim Cousins: To ask the Secretary of State for Work and Pensions what the costs were of services from private sector security companies at Jobcentre Plus in each year from 2001-02; and what the estimated costs are in 2006-07. [86566]

Mr. Jim Murphy: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus Lesley Strathie. I have asked her to provide my hon. Friend with the information requested.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your question asking what the costs were of services from private sector security companies at Jobcentre Plus in each year from 2001-02; and what the estimated costs are in 2006-07. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Security services for Jobcentre Plus are included in the services provided by Land Securities Trillium through its facilities management contract with the Department for Work and Pensions and are not charged separately.

Learning for Adults Programme

Mr. Hunt: To ask the Secretary of State for Work and Pensions what his Department's planned spending is on the work-based learning for adults programme for *(a)* 2006-07 and *(b)* 2007-08; and if he will make a statement. [80158]

Mr. Jim Murphy: Planned spend on Work Based Learning for Adults (WBLA) is £23 million in 2006-07 and £14 million in 2007-08.

Funding for occupational training and basic skills courses provided outside the new deal programmes ended on 31 March 2006. For 2006-07, £9 million is being provided to cover training for customers who started WBLA courses prior to 31 March 2006, and £14 million is being provided for training allowances for jobseekers voluntarily taking up Learning and Skills Council (LSC) basic skills provision. In 2007-08, £14 million will again be provided for training allowances for customers voluntarily taking up LSC basic skills provision.

Training to address basic skills needs and work focused training continues to be available through the new deal programme. The mandatory new deal programmes contain a formal training element tailored to meet individual needs, and people participating in voluntary new deals can also take up training opportunities and access training through the Learning and Skills Council, or through other local agreements.

Work continues between Department for Work and Pensions, Department for Education and Skills, Jobcentre Plus and the LSC to develop proposals for a new LSC supported Basic Skills programme for Jobcentre Plus customers for introduction in September 2007.

Means Testing

Mr. Amess: To ask the Secretary of State for Work and Pensions which benefits are subject to a means test; and which were so subject in *(a)* January 1997 and *(b)* July 1997. [87317]

Mr. Plaskitt: The income-related benefits, income support, income-based jobseeker's allowance, housing benefit and council tax benefit were all introduced prior to 1997 and they remain income-related.

Minimum income guarantee replaced income support for pensioners from 1999 until it was, in turn, replaced by pension credit in October 2003.

Carers

Mark Williams: To ask the Secretary of State for Work and Pensions (1) if he will raise the level of carer's allowance to the amount which would be received by a person working an average week being paid the National Minimum wage; and if he will make a statement; [86350]

(2) what steps he is taking to reduce poverty among carers. [86351]

Mrs. McGuire: Carer's allowance is an income-maintenance benefit for carers who are not in full-time work and regularly provide substantial care, of at least 35 hours a week, to a severely disabled person receiving attendance allowance or the equivalent rates of the disability living allowance care component. Carers receiving carer's allowance can have earnings, net of a range of expenses, including the cost of alternative care for either the severely disabled person or a child under 16 years of age while the carer is at work, of up to the national insurance lower earnings limit, currently £84 per week, net of certain expenses. This limit and the weekly rate of carer's allowance are increased each year to maintain their value. We have no plans to increase carer's allowance to the level of the national minimum wage.

Special help is available for lower-income carers entitled to carer's allowance through the carer premium in the income-related benefits and the additional amount for carers in pension credit. In 2002 we increased the carer premium by £10 per week over and above annual increases to reflect movements in the Retail Price Index, and set the rate of the additional amount in pension credit at the same level. Currently, carers can receive up to £26.35 per week more from these benefits than other recipients. More than 181,000 pension credit recipients, 210,000 income support recipients and 3,000 income-based jobseeker's allowance recipients are receiving this extra help.

Analysis of the Family Resources Survey and Households Below Average Incomes datasets indicates

that carers, including those receiving carer's allowance, [redacted] more likely to be in poverty[1] than the general population.

[1] Defined as income below 60 per cent. of median household income (before housing costs).

National Insurance Numbers

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what changes have been made since 5 May 2005 to the requirements for applicants for National Insurance numbers to produce original documents. [82606]

Mr. Plaskitt: Original documents are required in all circumstances. This position has not changed since 5 May 2005.

Mr. Evennett: To ask the Secretary of State for Work and Pensions what checks are carried out on people applying for National Insurance numbers; and if he will make a statement. [72632]

Mr. Plaskitt: Adults who apply for a National Insurance number (NINO) are subject to a comprehensive range of checks throughout the NINO application process.

The Department then follows a robust process to verify the individual's identity, including a face-to-face interview designed to build up a picture of the individual's circumstances; document examination checks to ensure the authenticity of any documentary evidence provided in support of the application; and corroborative checks with third parties (including other Government Departments) to verify information supplied during the interview.

Only when Jobcentre Plus is satisfied as to the individual's identity will a NINO be allocated.

Occupational Pensions

Mr. Salmond: To ask the Secretary of State for Work and Pensions what EU regulatory requirements apply to the activities and supervision of institutions for occupational retirement provision. [88910]

James Purnell: The requirements of EU Directive 2003/41/EC on the activities and supervision of institutions for occupational retirement provision, which was adopted by the member states on 3 June 2003, apply to the activities and supervision of institutions for occupational retirement provision.

Mr. Salmond: To ask the Secretary of State for Work and Pensions what representations his Department plans to send to the Committee of European Insurance and Occupational Pensions Supervisors 2006 Conference. [88911]

James Purnell: The Department for Work and Pensions will be represented at the Committee of European Insurance and Occupational Pensions Supervisors 2006 Conference by senior members of staff from the Pensions Regulator. The Pensions Regulator is a non-departmental public body responsible for the supervision of work-based pension schemes within the UK, and usually represents the UK at the regular meetings of the Committee of European Insurance and Occupational Pensions Supervisors. The Department works closely with the Pensions Regulator to ensure that the interests of UK pension scheme members are appropriately represented at these meetings.

Pathways to Work

Lynne Jones: To ask the Secretary of State for Work and Pensions if he will make it his policy to issue guidance to encourage the public sector to employ people with mental illnesses, in line with the relevant recommendation by the Work and Pensions Committee in its report on incapacity benefit and Pathways to Work. [82828]

Mrs. McGuire: The Department is host to the Office for Disability Issues, which was launched on 1 December 2005 to take forward the Government's strategy for improving the life chances of disabled people. One element of this work will be to oversee the effective implementation of the Disability Equality Duty, which requires all public bodies to actively promote equality of disabled people, including people with mental illnesses. The Office for Disability Issues is working in partnership with the Disability Rights Commission to support and encourage government departments to commit to meaningful actions that will improve their policies and services and realise the potential of their diverse workforces.

In addition the Disability Rights Commission has produced a series of Codes of Practice, assisting people and organisations to understand their rights and duties under the Disability Discrimination Act. The Codes give practical guidance, including illustrative examples covering a wide range of impairments, on how to prevent discrimination against disabled people. The Codes have been produced following wide-ranging consultation by the Disability Rights Commission to ensure they are appropriate for the users. The Commission has also produced a range of guidance leaflets and other information to help improve awareness and understanding of rights and requirements under the Act.

Pension Credit

Mr. Paice: To ask the Secretary of State for Work and Pensions how many residents in *(a)* South East Cambridgeshire constituency, *(b)* Cambridgeshire and *(c)* the Eastern region receive pension credit. [88817]

James Purnell: The information is in the following table.

Individual beneficiaries in South East Cambridgeshire constituency, Cambridgeshire county council and the East of England, February 2006

	Individual beneficiaries[a]
South East Cambridgeshire	4,550
Cambridgeshire	24,030
East of England	274,190

Notes
1. These figures are early estimates. The preferred data source for figures supplied by DWP is the Work and Pensions Longitudinal Study (WPLS). However, the figures provided are the latest available figures which are taken from the QMS scan at 17 February 2006. These are adjusted using the historical relationship between WPLS and GMS data to give an estimate of the final WPLS figure.
2. The number of individual beneficiaries is rounded to the nearest 10.
3. Parliamentary constituency, Government Office Region and county council are assigned by matching postcodes against the relevant postcode directory.
4. The number of individual beneficiaries includes both claimants and their partners.
Source
DWP 100 per cent. data from the Generalised Matching Service (QMS) Pension Credit scan taken as at 17 February 2006.

Pension Funds (Winding Up)

Jenny Willott: To ask the Secretary of State for Work and Pensions what the total amount of assets was in pension funds that started to wind up before 6 April 2005 with insufficient funds to cover their pension entitlements before annuities were purchased; and if he will make a statement. [89091]

James Purnell: This information is not available.

Pension Schemes

Dr. Cable: To ask the Secretary of State for Work and Pensions what steps he is taking to encourage the implementation of auto-enrolment pension schemes. [88687]

James Purnell: The Government have published research findings which show the effectiveness of automatic enrolment as a technique for improving levels of pension saving.

In July 2005 the Government published technical guidance for the pensions and financial services industries on how to operate automatic enrolment techniques within the current legal framework governing personal pensions. The Government are at present exploring whether it can develop similar guidance for employers, in order to encourage the use of automatic enrolment into occupational pension schemes.

In its Second Report, the Pensions Commission recommended that all employees should be automatically enrolled into funded pension saving but with the right to opt out, and with a modest compulsory employer contribution. In the White Paper Security in retirement: towards a new pensions system the Government made it clear that it accepted the Pensions Commission's recommendation. The Government will introduce legislation requiring employers to automatically enrol their employees into either good quality occupational schemes or personal accounts.

Pensioners (Poverty/Council Tax Assistance)

Mr. Kemp: To ask the Secretary of State for Work and Pensions how many and what percentage of pensioners in the *(a)* Houghton and Washington East constituency and *(b)* Sunderland city council area have been lifted out of poverty since 1997. [87366]

James Purnell: Specific information regarding low income for Great Britain is available in "Households Below Average Income (HBAI) 1994/95-2004/05", available in the Library. The main source for HBAI is the Family Resources Survey. "Pensioner Poverty" in the context of this question is taken to be the standard measurement, i.e. people over state pension age living in a household with income below 60 per cent. of the Great Britain median.

The data source does not allow us to provide robust estimates below a regional level. Therefore, estimates for Houghton and Washington East constituency and Sunderland city council are not available. Since 1996-97, around 50,000 people over state pension age in the North East have been lifted out of poverty after housing costs have been taken into account, or around 10,000 before housing costs have been taken into account. This represents 12 per cent. after housing costs, or 3 per cent. before housing costs.

Mr. Kemp: To ask the Secretary of State for Work and Pensions how many and what percentage of pensioners in the *(a)* Houghton and Washington East constituency and *(b)* Sunderland city council area have received the £200 payment to assist with council tax in 2005-06. [87367]

James Purnell: Information that is available is in the table below. It is not possible to provide the percentage of pensioners in the Houghton and Washington East constituency who have received the £200 payment because the information is not available by parliamentary constituency.

		Payments made	*Percentage of people aged 65 or over*
Houghton and Washington East constituency	2005-06	9,350	n/a
Sunderland local authority	2005-06	29,800	65.7

Notes
1. Figures are rounded to the nearest 10 and refer only to the main payment run for the £200 payment to help with Council Tax bills, so they do not include the late payment run figures. The final figures will be available shortly and placed in the Library.
2. Percentage figures have been calculated using mid year population estimates of men and women aged 65 and over, which are not available by Parliamentary Constituency.
Source
DWP Information Directorate and Office for National Statistics and General Register Office, Scotland (Mid year population estimates).

Pensions

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions if he will estimate the number of pensioners who will have an income, through the basic state pension and state second pension, before the addition of means tested benefits, that is higher than the basic state pension level and lower than the savings credit lower threshold in *(a)* 2010, *(b)* 2020, *(c)* 2030, *(d)* 2040 and *(e)* 2050 under the proposals in the White Paper Security in Retirement, Towards a New Pensions System. [78003]

James Purnell: The following table gives the information requested under our reforms, where more

people will be getting state pensions based on their national insurance records, and there will be a more generous basic state pension due to the restoration of the earnings link. This provides a solid foundation for private saving. Incentives are further enhanced by reducing the growth of the savings credit.

Table 1: Pensioners with gross retirement pensions between the level of a full basic state pension and the savings credit threshold under the White Paper reform proposals

	Number of pensioners
2010	900,000
2020	1,500,000
2030	1,700,000
2040	1,800,000
2050	1,500,000

Notes:
1. The estimates are subject to wide margins of uncertainty because they rely on very long-term projections of state pension accruals by individual pensioners.
2. Gross retirement pension is defined here as basic state pension plus gross additional pension i.e. that which has accrued from both contracted-in rights and contracted-out equivalent rights.
3. The projections assume: continued earnings uprating of the standard guarantee credit; the savings credit maximum is uprated by earnings from 2008 and then by prices from 2015; earnings uprating of the basic state pension from 2012; measures to improve coverage of the basic state pension described in the White Paper.
4. The projections are rounded to the nearest 50,000.

Source:
DWP microsimulation modelling and DWP administrative data

Mr. Weir: To ask the Secretary of State for Work and Pensions what guidelines for co-operation between supervisors in regulating cross-border pension activity have been agreed with other EU states on a multilateral basis. [88606]

James Purnell: The guidelines for co-operation between supervisors in regulating cross-border pension activity are contained within the "Protocol relating to the collaboration of the relevant competent authorities of the member states of the European Union in particular in the application of the Directive 2003/41/EC of the European Parliament and of the Council of 3 June 2003 on the activities and supervision of Institutions for Occupational Retirement Provision operating cross-border". The protocol was adopted by the supervisory authorities of all the EU member states on 22 February 2006. For the UK, the relevant authority is the Pensions Regulator, a non-departmental public body responsible for the supervision of work-based pension schemes within the UK.

Mr. Weir: To ask the Secretary of State for Work and Pensions what authorisation and approval is required if a pension scheme wishes to engage in cross-border activity with other EU member states. [88607]

James Purnell: If a pension scheme wishes to engage in cross-border activity with other EU states, it must first be authorised (a general authorisation to accept contributions from European employers) and then approved (approval with regard to a specific European employer) by the Pensions Regulator. The specific procedure which schemes must follow is detailed in sections 287-289 of the Pensions Act 2004. The documentation schemes are required to produce in order to be authorised and approved is contained within the Occupational Pension Schemes (Cross-border Activities) Regulations 2005 (SI 2005/3381). Further guidance on making applications for authorisation and approval to operate cross-border can be obtained via the Pensions Regulator website: www.thepensionsregulator.gov.uk/trustees/crossBorder/index.aspx

Pensions White Paper

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what definition he uses of 'the long term' on page 110 of the White Paper 'Security in Retirement, Towards a New Pensions System'. [77994]

James Purnell: Expenditure projections in the White Paper "Security in retirement: towards a new pensions system" assume that the standard Guarantee Credit is uprated by earnings throughout the period to 2050.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions if he will estimate the savings that will be realised from the reforms to *(a)* the state second pension and *(b)* savings credit under the proposals in the White Paper "Security in Retirement: Towards a New Pensions System" in each year from 2008 to 2050. [78002]

James Purnell: The White Paper "Security in Retirement: Towards a New Pensions System" presents a coherent, interlinked and comprehensive package of reforms. As such it can be misleading to consider the impact of an individual measure in isolation. Each component needs to be considered alongside the other reforms introduced.

Under our reforms, more people will be getting state pensions based on their national insurance records, and there will be a more generous basic state pension due to the restoration of the earnings link. This provides a solid foundation for private saving. Incentives are further enhanced by reducing the growth of the savings credit.

The White Paper also contains measures to simplify the state second pension, whereby it will gradually become a flat-rate top-up to the basic state pension. Access to the state second pension will be widened, as more workers, carers and parents start to become entitled.

The following tables contain information on the additional costs arising due to the proposed reforms to the state second pension and to the savings credit as set out in the White Paper.

Table 1 shows additional projected state second pension expenditure following reform, compared to previous policy—where it would have become flat-rate by around 2056, credits were available to those caring for children aged under six, and the ability to contract out into DC schemes continues.

The second column shows the extra cost which would be incident if the state second pension did not become flat-rate in accrual by 2030.

Table 1: Cost of state second pension reforms

£ billion, in 2006-07 price terms

	Total cost of state second pension reforms	*Further costs if accelerated flat-rating excluded*
2008	0.0	0.0

2018	0.1	0.0
2019	0.1	0.0
2020	0.2	0.0
2021	0.3	0.0
2022	0.4	0.0
2023	0.5	0.0
2024	0.6	0.0
2025	0.7	0.0
2026	0.9	0.0
2027	1.1	0.0
2028	1.3	0.0
2029	1.5	0.0
2030	1.8	0.0
2031	2.1	0.0
2032	2.4	0.0
2033	2.8	0.0
2034	3.2	0.0
2035	3.6	0.0
2036	4.0	0.1
2037	4.3	0.1
2038	4.7	0.1
2039	4.9	0.1
2040	5.2	0.1
2041	5.4	0.1
2042	5.7	0.2
2043	5.9	0.2
2044	6.2	0.2
2045	6.5	0.2
2046	6.8	0.3
2047	7.1	0.3
2048	7.4	0.3
2049	7.7	0.4
2050	8.0	0.4

Table 2 shows the additional cost under the proposed pension credit reforms, compared to the baseline assumption that the guarantee credit is earnings uprated until 2008 (the Government's previously announced intention), and price uprated thereafter.

The White Paper package means that everyone should have the opportunity to save on the basis of a firm foundation from the state, with confidence that they will see the benefits from their private saving. Earnings-linking the basic state pension, and arresting the spread of the savings credit up the income distribution by uprating the maximum with earnings from 2008 and with prices from 2015, are important elements in that package. The second column shows the extra costs which would be incident if these reforms to the savings credit were excluded.

Table 2: Cost of pension credit reforms

£ billion, in 2006-07 price terms

Notes
1. Estimates of additional expenditure are consistent with the policy detail set out in the White Paper. Costs are net of all income-related benefits (pension credit, housing benefit and council tax benefit).
2. Costs or savings presented are based on long-term projections of United Kingdom benefit spend, consistent with the Budget report 2006.
3. Table 1, "Cost of state second pension reforms", includes, in the first column, accelerating the flat-rate of accruals, improving coverage, and the abolition of contracting-out for defined contribution pension schemes. Contracting out rebate effects are excluded. Cost of state second pension are net of all income-related benefits (pension credit, housing benefit and council tax benefit).
4. The second column of table 1 includes the additional costs which would be incident if the accelerated flat-rating of accruals were excluded.
5. Table 2, "Cost of pension credit reforms" includes, in the first column, uprating the guarantee credit by earnings from 2008, and uprating the savings credit maximum by earnings from 2008 and then by prices from 2015. It excludes changes to pension credit as a consequence of earnings uprating the basic state pension.
6. The second column in table 2, headed "Further costs if savings credit reforms excluded", includes costs which would be incident in the absence of the direct reforms to savings credit.
7. Figures exclude the effect of personal accounts.
8. Figures exclude the effects on expenditure on the state second pension and on pension credit arising from increases in the state pension age as set out in the White Paper.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions if he will place in the Library the data which supports the figures given in figure 9 of the White Paper "Security in retirement, towards a new pensions system" for each year between 2020 and 2050. [78005]

James Purnell: The information requested has been placed in the Library.

Post Office Card Account

Mr. Stewart Jackson: To ask the Secretary of State for Work and Pensions what consultations his Department has undertaken with Postwatch East of England on pilot schemes for the migration of Post Office card account holders to banking facilities in the eastern region; and if he will make a statement. [55264]

Mr. Plaskitt: DWP officials have met Postwatch a number of times in the past to discuss the direct payment of benefits and pensions. Government funding for the Post Office card account will continue until March 2010 as always planned. This was provided for in the Post Office card account contract agreed by DWP and Post Office Limited in March 2002. An abridged version of the contract has been placed in the Library. The details of the contract were not discussed with Postwatch.

My officials met with officials from the national Postwatch organisation on 27 January 2006 and had a constructive discussion about our future strategy for paying benefits and pensions, including our small-scale pilots. A summary report of the pilot findings has now been placed in the Library. My officials have been in regular contact with Postwatch since that meeting, including attending meetings at Postwatch's Counters Advisory Group.

Mr. Leech: To ask the Secretary of State for Work and Pensions what consultations took place with *(a)* Royal Mail, *(b)* Postwatch and *(c)* the National Federation of Sub-Postmasters before the Government announced that the post office card account contract would not be renewed after 2010. [58866]

Mr. Plaskitt: The post office card account contract is a finite contract, which ends in March 2010. There was never any expectation that it would be renewed.

We have been discussing our wider payments strategy with Post Office Ltd. since the summer of 2005. Our aim is to help them retain as much business as possible. The first meeting was instigated by David Mills, the former Chief Executive of Post Office Ltd. The meetings have covered a number of issues, including the DWP pilots which ran from mid-February to mid-March. We continue to have regular meetings with Post Office Ltd. at official level and, where appropriate, Ministers will also meet them. It is important that the Government and Post Office Ltd. work constructively together in the best interests of our joint customers.

DWP officials have met with Postwatch and the National Federation of Sub-postmasters a number of times in the past to discuss the direct payment of benefits and pensions and will continue to meet them in the future. We did not undertake any specific consultation with either about the post office card account contract. The Government will fulfil their contractual obligations and continue to provide funding for the post office card account until March 2010 as always planned.

Mr. Dunne: To ask the Secretary of State for Work and Pensions whether the Pensions Service is entitled to withdraw payment of *(a)* pensions and *(b)* pension credits by means of the post office card account without the consent of the card account holder. [65883]

Mr. Plaskitt: The post office card account is a Post Office Ltd. banking product and is treated in the same way as other bank and building society accounts.

It is an important principle of social security legislation that the Secretary of State does not require the consent of the person entitled to any benefit to change the way in which that benefit is paid. This helps DWP to deal efficiently with a wide range of circumstances that may arise.

In practice, we respect the customer's wishes and pay their benefit into the account of their choice.

Poverty

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what his latest estimate is of the number and proportion of *(a)* women pensioners and *(b)* disabled people living on (a) less than 60 per cent. of contemporary median income and (b) less than 60 per cent. of contemporary mean income in each year since 1997. [78007]

Mr. Jim Murphy: These data are from Households Below Average Income (HBAI). The main source for HBAI is the Family Resources Survey (FRS). The

estimates are shown Before and After Housing Costs for the years 1996-97 to 2004-05.

The following tables show the numbers and proportions of women pensioners and disabled people, living in households with incomes below the 60 per cent. threshold of (a) the contemporary median and (b) the contemporary mean.

As requested, both median and mean estimates have been supplied for this PQ. The threshold of 60 per cent. of median household income is the most commonly used in reporting trends in low income. This is an internationally recognised measure and has been used for many years. The presence of relatively small numbers of individuals with very high incomes results in a skewed distribution and a large difference between the overall GB mean and the GB median.

Table 1: Women pensioners living in households with less than 60 per cent. Contemporary median income—Great Britain

	Number BHC (Million)	Proportion BHC (Percentage)	Number AHC (Million)	Proportion AHC (Percentage)
1996-97	1.5	23	1.9	30
1997-98	1.5	24	1.9	29

Remploy

Mr. Byers: To ask the Secretary of State for Work and Pensions when approval was given for the Chief Operating Officer of Remploy to take on additional or external commitments as *(a)* a member of the Competition Commission's Reporting Panel, *(b)* a member of the Foster Review of further education and *(c)* a company secretary of Hill Executive Action Ltd.; and who has responsibility for approving such commitments. [80392]

Mrs. McGuire: During 2005 approval was given by Remploy for the Chief Operating Officer to be a member of the Competition Commission's Reporting Panel and a member of the Foster Review of further education. The Chief Operating Officer's commitments as Company Secretary of Hill Executive do not have any impact on her role as Chief Operating Officer and, as such, do not require approval by Remploy.

Approval for additional or external commitments must be given by either the Chairman or the Chief Executive of Remploy.

Shrewsbury Senior Citizens Forum

Daniel Kawczynski: To ask the Secretary of State for Work and Pensions if he will give a Government grant to help Shrewsbury Senior Citizens Forum run their association. [74332]

James Purnell: Senior citizens' forums are independent of Government and responsible for financing themselves as such we have no plans to offer a Government grant to Shrewsbury Senior Citizens' Forum.

Sure Start Maternity Grant

Jeff Ennis: To ask the Secretary of State for Work and Pensions how many women in *(a)* Barnsley and *(b)* Doncaster have received the Sure Start maternity grant since 2001. [88383]

Mr. Plaskitt: The information is not available in the format requested. Such information as is available is in the following tables.

Sure Start Maternity Grants for South East Yorkshire Social Fund District

	Number of awards
2001-02	2,360
2002-03	2,690
2003-04 to 30 April	180

Sure Start Maternity Grants for area covered by Barnsley and Rotherham Jobcentre Plus District

	Number of awards
2003-04 from 1 May	2,220
2004-05	2,320
2005-06	2,250

Sure Start Maternity Grants for area covered by Barnsley and Rotherham Jobcentre Plus District and Sheffield Jobcentre Plus District

	Number of awards
2004-05	4,930
2005-06	4,780
2006-07 to 30 June	1,200

Sure Start Maternity Grants for area covered by the interim Doncaster District

	Number of awards
2003-04 1 to 31 May	130

Sure Start Maternity Grants for area covered by Doncaster Jobcentre Plus District

	Number of awards
2003-04 from 1 June	1,550
2004-05	1,760
2005-06	1,770
2006-07 to 30 June	450

Notes:
1. Data are only available by Jobcentre Plus District, and, before Jobcentre Plus Districts were used for the administration of the social fund, by social fund district.
2. Barnsley and Doncaster both used to be part of South East Yorkshire Social Fund District. In May 2003, Barnsley became part of the new Barnsley and Rotherham Jobcentre Plus District and Doncaster became part of the interim Doncaster District. In June 2003, the Doncaster Jobcentre Plus District was formed by removing the Isle of Axholme from the interim Doncaster District. Although Barnsley and Rotherham Jobcentre Plus District and Doncaster Jobcentre Plus District merged on 1 April 2005, they continued as separate districts for Social Fund purposes.
3. In April 2006, Barnsley and Rotherham Jobcentre Plus District was merged with Sheffield Jobcentre Plus District to form Yorkshire and Humberside Social Fund, S. Yorkshire District. The third table allows comparison between data for 2006-07 and earlier years.
4. Different tables thus refer to different areas and so data in one table are not comparable with data in another.
5. Figures are for all awards, irrespective of whether the award was made to the mother or her partner.
6. Some women will have received more than one Sure Start Maternity Grant since 2001-02.
7. Figures have been rounded to the nearest 10.

DWP Social Fund Policy, Budget and Management Information System

Unemployment

Mr. Kemp: To ask the Secretary of State for Work and Pensions how many and what percentage of people in the *(a)* Houghton and Washington East constituency and *(b)* Sunderland city council area were unemployed in each year since 1997; and what estimate he has made of change in the total amount paid in benefits due to the change in employment levels over the period. [87370]

Mr. Plaskitt: The information is not available in the format requested. Information on the number of people in receipt of jobseeker's allowance in the Houghton and Washington East constituency and Sunderland city council area is in the table, together with the proportion of the working-age population for the local authority; no proportion of population is available for constituencies.

JSA claimants in Houghton and Washington East parliamentary constituency and Sunderland local authority area: June 1997 to June 2006

As at June each year	*Houghton and Washington East PC*	*Sunderland LA claimants*	*Sunderland LA percentage population*
1997	2,603	10,777	6.1
1998	2,254	9,488	5.4
1999	2,475	9,532	5.5
2000	2,180	8,695	5.0
2001	2,056	7,611	4.4
2002	1,823	6,891	4.0
2003	1,667	6,250	3.5
2004	1,300	5,128	2.9
2005	1,256	5,278	3.0
2006	1,474	6,048	3.4

Notes:
1. Jobseeker's Allowance figures are un-rounded and percentages rounded to one decimal place.
2. Jobseeker's Allowance figures are not seasonally adjusted.

Source:
Count of unemployment-related benefits, Jobcentre Plus computer systems (including clerically held cases). ONS Mid-year population estimates.

The change in expenditure for jobseeker's allowance in Great Britain between 1996-97 and 2005-06 is in the following table.

Jobseeker's allowance expenditure in Great Britain (real terms 2006-07 prices)

	1996-97 (out-turn)	£ million 2005-06 (estimated outturn)
Jobseeker's Allowance (contributory)	421	500
Jobseeker's Allowance (income based)	2,320	1,844

Veterans (Incapacity Benefit)

Mr. Harper: To ask the Secretary of State for Work and Pensions what assessment he has made of the number of veterans on incapacity benefit due to *(a)* mental health conditions and *(b)* physical conditions. [86996]

Mrs. McGuire: The information is not available. No record is kept on the incapacity benefit system of a claimant's employer or former employer.

Volunteers

John Hemming: To ask the Secretary of State for Work and Pensions if the Government will change the benefits rules to allow volunteers on benefits to be paid the cost of lunch. [85432]

Mr. Plaskitt: When considering entitlement to means-tested benefits all income should be taken into account. To not do so would set an inappropriate precedent and represent unequal treatment within the income rules. If an organisation provides a lunch to a volunteer, benefit entitlement is not affected. However, we are aware of and listening to the concerns that have been raised. The Department is looking at this issue as part of a wider examination of the way the benefit system works.

Warm Front

Mr. Laws: To ask the Secretary of State for Work and Pensions what discussions he has had with the Department for Environment, Food and Rural Affairs in respect of the warm front scheme; and whether the Department passes information to the warm front team regarding individuals' benefit entitlements. [89048]

James Purnell: The Department for Work and Pensions (DWP) is committed to working with others to reduce fuel poverty, particularly among vulnerable groups such as pensioners. This includes working with other Government Departments, for example Department for Environment, Food and Rural Affairs (DEFRA) and with the Warm Front scheme manager.

Since June 2005, The Pension Service has been co-operating with the Eaga partnership, the largest administrator of energy efficiency schemes in the UK and the provider of the Warm Front Scheme, on behalf of DEFRA.

Pensioners who contact Eaga for help under the Warm Front Scheme but who are not receiving a benefit that would enable them to qualify for help, for example pension credit, are offered a comprehensive benefit entitlement check.

Where Eaga identifies potential entitlement to pension credit, the pensioner's details are passed, with the pensioner's consent, to The Pension Service. The pensioner is then contacted by The Pension Service and where entitlement to pension credit is confirmed, benefit is put into payment. The Pension Service informs Eaga of this and Eaga are able to implement the help available under the Warm Front Scheme.

As well as contributing in a practical way to the attack on fuel poverty in pensioner households and simplifying matters for pensioners, the partnership between The Pension Service and Eaga supports the development of options for delivering more integrated, flexible and efficient services to pensioners.

The initiative is well in accord with DWP's Link-Age programme which exists to improve access for older people to information about the services available and the help provided.

Way Forward Programme

Anne Main: To ask the Secretary of State for Work and Pensions what the timetable is for the roll out of the Way Forward programme in delivery of benefits to cancer patients. [86716]

Mrs. McGuire: The Government believe that good benefit advice should be available to everyone whatever their disability to enable them to make informed decisions about possible entitlement to benefit. The Department goes to great lengths to ensure that people are aware of the benefits that are available and how to claim them. While we have no plans to roll out a programme of benefit delivery specifically for cancer patients, we and the Department of Health are working closely with organisations such as Macmillan Cancer Support to improve the way benefit advice is delivered to all patients.

Welfare Reform Bill

Mrs. Spelman: To ask the Secretary of State for Work and Pensions what new obligations the Welfare Reform Bill will place on local authorities; and whether they will be compensated under the Department for Communities and Local Government's New Burdens principle. [86842]

Mr. Plaskitt: The overall reform strategy for housing benefit continues to focus on streamlining policy rules and working with local authorities to improve local authority administration of housing and council tax benefit. We do not believe that the measures included in the Welfare Reform Bill present any significant additional obligations or burdens on local authorities.

Winter Fuel Allowance

Mr. Kemp: To ask the Secretary of State for Work and Pensions how many and what percentage of people in the *(a)* Houghton and Washington East constituency and *(b)* Sunderland City Council area have received the winter allowance for pensioners in each year since it was introduced. [87368]

James Purnell: Information that is available in is the following tables. Information relating to the 1997-99 winters is not available.

It is not possible to provide the percentage of pensioners in the Houghton and Washington East constituency who have received the Winter Fuel Payment because the information is not available by parliamentary constituency.

Houghton and Washington East constituency

	Number of payments made
1999-2000	14,270
2000-01	16,130
2001-02	16,230
2002-03	16,430
2003-04	16,640
2004-05	16,310
2005-06	16,310

Sunderland local authority

	Number of payments made	*Percentage of people 60 years or over*
1999-2000	49,000	83.9
2000-01	54,580	91.8
2001-02	54,500	93.7
2002-03	54,600	94.2
2003-04	54,810	93.2
2004-05	53,340	90.2
2005-06	53,330	90.2

Notes:
1. Figures are rounded to the nearest 10.
2. Population figures are mid year estimates of people aged 60 plus and are not available by Parliamentary Constituency.
3. Figures for 2005-2006 refer only the main payment run so they do not include the late payment run figures. The final figures will be available shortly and placed in the Library.

Sarah Teather: To ask the Secretary of State for Work and Pensions how many pensioners claimed winter fuel allowance in each London borough in the last 12 months. [87502]

James Purnell: The number of people aged 60 or over who received a winter fuel payment in each London borough for winter 2005-06 is provided as follows:

London GOR	*Number of individuals receiving a winter fuel payment in winter 2005-06*
Inner London—West	
Camden	25,610
City of London	1,110
Hammersmith and Fulham	19,560
Kensington and Chelsea	19,130
Wandsworth	33,760
Westminster	25,910
Inner London—East	
Hackney	21,260
Haringey	26,820
Islington	21,910
Lambeth	29,190
Lewisham	32,590
Newham	25,140
Southwark	27,850
Tower Hamlets	20,590
Outer London—East and North East	
Barking and Dagenham	24,840
Bexley	43,890
Enfield	45,650
Greenwich	31,750
Havering	49,030
Redbridge	39,590
Waltham Forest	31,120
Outer London—South	
Bromley	62,170
Croydon	53,180
Kingston upon Thames	23,720
Merton	27,790
Sutton	32,520
Outer London—West and North West	
Barnet	53,450
Brent	36,900
Ealing	42,120
Harrow	37,680
Hillingdon	41,690
Hounslow	31,200
Richmond upon Thames	29,420

Notes:
1. Figures are rounded to the nearest 10.
2. Local Authorities are assigned by matching postcodes against the relevant ONS postcode directory.
3. These figures refer only to the main payment run so they do not include the late payment run figures. Final figures will be available shortly and placed in the Library.

Source:
Information Directorate, 100 per cent. Sample.

Mr. Waterson: To ask the Secretary of State for Work and Pensions if he will estimate the cost of extending the Winter Fuel Payment Scheme to disabled people under 60 years. [87678]

James Purnell: The estimated annual cost of extending the winter fuel payment to disabled people aged below 60 years who are in receipt of either the middle or higher rate care component or the higher rate mobility component of disability living allowance is £280 million for 2005-06.

Worklessness

Mrs. Ellman: To ask the Secretary of State for Work and Pensions what consultations he has undertaken to address worklessness in Liverpool, Riverside; and if he will make a statement. [86290]

Mr. Jim Murphy *[holding answer 18 July 2006]:* Tackling the problems created by worklessness is central to meeting our aim of increasing prosperity and reducing poverty and social exclusion. We have recently written to 45 local authorities, including Liverpool, to request expressions of interest (EOI) for our Cities Strategy which will bring public, private and voluntary sectors together into a concerted local programme to improve the way support for jobless people is co-ordinated and delivered. We are now considering all the EOIs and will be announcing successful pathfinder areas shortly.

In Liverpool, Riverside, we are working with the local authority, as well as the voluntary, community and private sectors to deliver initiatives to tackle worklessness. These include 'Step Closer 2 Work' which is a programme to help those in receipt of incapacity benefits move closer to the labour market and the 'Diversity and Social Inclusion Project' which aims to reduce worklessness by the provision of training and work experience. I was able to see some of the excellent work being done to tackle worklessness when I visited Liverpool Riverside last month. This included meeting the team running 'Streets Ahead' which is a city wide initiative delivered by a number of partner agencies, aimed at helping disadvantaged people into work.

In Liverpool, we undertook consultations with key partners around the introduction of our Pathways to Work programme, which has already shown significant success in getting people off incapacity benefits and into employment and was rolled out in Liverpool in April. Private and voluntary sector providers deliver and support a number of different programmes within our Pathways to Work pilots.

In Liverpool, we hold bi-monthly meetings which are attended by a range of partners, including Liverpool city council and Connexions. The meetings focus on addressing the educational, training and employment needs of local workless residents, including those in Liverpool, Riverside.

COMMUNITIES AND LOCAL GOVERNMENT

Academic Research

Mr. Hands: To ask the Secretary of State for Communities and Local Government what funding her Department is providing to academic institutions to conduct research, broken down by project. [88399]

Angela E. Smith: Details of research projects commissioned by the DCLG are available from our Research Management Database (RMD) at http://www.rmd.communities.gov.uk. This includes information about the contractors and the cost of each individual project.

Advertising

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the timetable is for the revision of outdoor advertising planning regulations. [83098]

Yvette Cooper: We published the draft Control of Advertisements Regulations for consultation on 24 July.

Arson

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government how many incidents of arson there were in each London borough in each of the last five years. [88664]

Angela E. Smith: I refer the hon. Member to the answer given on 24 July 2006 (UIN 86836).

Casinos

Mr. Moss: To ask the Secretary of State for Communities and Local Government what previous connection Professor Stephen Crow of the Casino Advisory Panel has had with the Department in the past. [84485]

Yvette Cooper: Between 1988 and his retirement in 1994, Stephen Crow was the Chief Planning Inspector of the Planning Inspectorate. Prior to his appointment as Chief Planning Inspector he was a field Inspector determining planning appeals and other casework. Since his retirement he has acted as independent chairperson of Examinations in Public into the following:

Regional Planning Guidance for the South-East (RPG 9) —June 1999

Shropshire, Telford & Wrekin Structure Plan—Jan 2001

Devon Joint Structure Plan—June 2003

Cornwall Structure Plan—July 2003

Nottingham and Nottinghamshire Joint Structure Plan—June 2004

NW Regional Spatial Strategy amendments— November 2004

In undertaking Structure Plan examinations, the chair reported to the local authority concerned, not the Secretary of State.

He also did research work on Completion Notices for DTLR in 2001.

Civil Servants (Expenses)

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government, pursuant to the answer to the hon. Member for Brentwood and Ongar of 27 June 2006, *Official Report*, column 289W, on civil servants (expenses), how much of the expenditure on temporary overnight accommodation in London by civil servants was incurred on accommodation for civil servants in the Deputy Prime Minister's private office. [82953]

Angela E. Smith: Information is not collected in the form requested and could only be provided at disproportionate cost.

Community Land Trusts

Mr. Todd: To ask the Secretary of State for Communities and Local Government what research her Department *(a)* is conducting and *(b)* has commissioned into the use of community land trusts. [85875]

Yvette Cooper: The Housing Corporation has funded research on community land trusts:

It funded a research report published in 2003 by the New Economics Foundation and CDS Co-operatives;

It part-funded research by Community Finance Solutions of Salford university published by the Countryside Agency in 2005; and

It also announced on 22 June 2006 that it was providing £120,000 for practical research on pilot community land trusts by Community Finance Solutions.

English Partnerships is also currently developing a pilot community land trust to deliver affordable housing on public sector land at Castles Green, Stroud.

Conservation Areas

Mr. Hands: To ask the Secretary of State for Communities and Local Government how many designated conservation areas there are in England. [88080]

Yvette Cooper: This information is not held centrally.

Council Tax

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the Valuation Office Agency's *(a)* photography best practice guide and *(b)* COVO manual mentioned in clause 3.7.11, of Section 2 of the VOA's Council Tax Manual. [86788]

Dawn Primarolo: I have been asked to reply.

The *(a)* best practice guide and *(b)* COVU manual mentioned in section 2, part 3.7.11, of the Valuation Office Agency's Council Tax Manual are internal technical instructions on use of the agency's digital photography application and how, when and where to store digital photographs on the agency's central database to ensure overall system performance is not affected. It is not appropriate to place these documents in the Library.

Departmental Contracts

Mr. Hands: To ask the Secretary of State for Communities and Local Government what contracts her Department and its predecessors have entered into with *(a)* Infoterra Ltd. and *(b)* BlueSky International Ltd. since 1997. [88082]

Angela E. Smith: The Department for Communities and Local Government (DCLG) and its predecessors has let the following contracts with Infoterra since 1997:

National Land Use Database Pilots 1 & 2: Creation of Urban and Rural Baseline Datasets;

National Land Use Database: County Demonstrator; and

Generalised Land Use Database: Pilot Phase.

DCLG has not let any contracts with Bluesky International Ltd.

Departmental Staff

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government, pursuant to the answer to the hon. Member for Brentwood and Ongar of 27 June 2006, *Official Report*, column 290W, on departmental staff, which Government Department will take over the use of the vacated office space at 26 Whitehall once her civil servants are relocated to Eland House. [82956]

Angela E. Smith: Current plans are for the Department for Communities and Local Government to continue using 26 Whitehall as accommodation until the Department's occupancy agreement with the Cabinet Office comes to an end in March 2008. At present it is planned that staff moved from Eland Road to free accommodation for DCLG ministers and civil servants from 26 Whitehall will backfill the vacated office space.

Empty Dwellings

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what mechanism her Department has initiated for estimating the number of empty dwelling management orders issued by councils and property tribunals. [85712]

Yvette Cooper: Local authorities are required to keep a register of all management orders made by them under the powers in the Housing Act 2004, including any empty dwelling management orders. The information must be made available for public inspection.

All applications from local housing authorities to make interim empty dwelling management orders must be authorised by a Residential Property Tribunal. The Residential Property Tribunal Service will record and publish on its website the decisions that the tribunals take. The Department will monitor this information.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the letter sent by her Department to local authorities on empty dwelling management orders and mentioned in her Department's press statement of 13 July issuing guidance on the procedures to be followed when taking control of a private sector home following the death of the owner. [86779]

Yvette Cooper: Copies of the letter dated 6 July from Baroness Andrews to local authority chief executives have been placed in the Library.

Sir Michael Spicer: To ask the Secretary of State for Communities and Local Government what her policy is on empty private sector housing. [83823]

Yvette Cooper *[holding answer 10 July 2006]:* There are over half a million empty private sector homes in England. More than half of these remain empty for longer than six months and a significant proportion are

abandoned for years. Empty homes can quickly fall into disrepair and the longer they remain empty the more likely it is that they will become derelict and prohibitively expensive to bring back into use. Empty homes can create significant problems for local authorities, the police and fire services. They blight the homes of neighbouring residents, are vulnerable to squatters, vandals, drug-dealers and arsonists, are bad for the environment and restrict housing opportunities available to people in areas of high housing demand.

Our policy response is to promote effective empty homes strategies by local authorities that emphasise opportunities to work with property owners to find solutions that allow their properties to be brought back into use. We encourage local authorities to offer incentives ranging from advice on selling and letting property to grants and leasing arrangements. We have also introduced a range of fiscal incentive for owners of empty properties through VAT, capital allowances and council tax.

We consider that local authorities must, as a last resort, have access to effective enforcement procedures for long term empty properties where voluntary measures have been declined and owners cannot demonstrate that they intend to bring their properties back into use. Local authorities have access to compulsory purchase procedures to deal with empty homes and may enforce the sale of properties on which they have carried out works. We have recently introduced Empty Dwelling Management Orders as an alternative solution that protects the rights of property owners.

We work closely with the Empty Homes Agency, which is an independent charitable organisation that seeks to find effective solutions to the problems posed by empty homes. The Agency works closely with local authorities and has recently published guidance on setting effective empty homes strategies.

Fire Prevention

Mr. Hands: To ask the Secretary of State for Communities and Local Government what targets the Government have set for fire authorities in relation to fire prevention. [88073]

Angela E. Smith: The Government's Public Service Agreement (PSA) contains two targets for the Fire and Rescue Service (FRS) in England. The first is to reduce the number of accidental fire-related deaths in the home by 20 per cent. averaged over the 11-year period to March 2010 compared with the average recorded in the five-year period to March 1999—with a floor element that no local authority fire brigade will have a fatality rate more than 1.25 times the national average by March 2010. The second target is to reduce by 10 per cent. the number of deliberate fires by 31 March 2010 from the 2001-02 baseline figure.

The FRS is making good progress towards achieving this target. Latest provisional figures show that there were 216 deaths in the 12 months to 30 September 2005, 53 fewer then in the previous 12 months. This represents a fall of 20 per cent. At present five FRAs have more than 1.25 times the number of fatalities in the home than the national average. Deliberate primary fires have also fallen in the latest 12 months, 67,900 were recorded. This is 28 per cent. below the 2010 PSA target of 94,000.

Fire Service

Mr. Hands: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Brentwood and Ongar of 16 May 2006, *Official Report*, column 924W, on the Fire Service, what estimate the Government have made of the number of armed forces personnel who have been trained to operate fire services appliances and equipment. [88252]

Angela E. Smith: If the Government agree to the provision of emergency cover, the most readily available units are diverted from armed forces tasks and trained to operate fire service appliances and equipment prior to their deployment. There are no armed forces personnel on permanent standby or permanently trained to provide emergency fire cover.

Mr. Hands: To ask the Secretary of State for Communities and Local Government what assessment she has made of the merits of no-strike clauses in firefighters' contracts; and if she will make a statement. [88322]

Angela E. Smith: Contracts of employment are a matter for individual fire and rescue authorities and pay and conditions of uniformed employees in the fire and rescue service are a matter for the National Joint Council for Local Authority Fire and Rescue Services.

First-time Buyers

Andrew Rosindell: To ask the Secretary of State for Communities and Local Government what programmes there are to assist first-time buyers in London. [83132]

Yvette Cooper: The HomeBuy scheme has three products available, based on equity sharing, which can help first time buyers to get a first step on the housing ladder. Social HomeBuy enables tenants of participating local authorities and housing associations to buy a share in the property in which they live; Open Market HomeBuy enables purchasers to buy a property on the open market with the help of an equity loan; and New Build HomeBuy, which includes the First Time Buyers' Initiative, will enable purchasers to buy a share in a newly built property with public subsidy or on public sector land.

The First Time Buyers' Initiative is being developed by English Partnerships to deliver up to 15,000 new affordable homes across England by 2010 utilising public land where possible. About 4,500 of these homes will be in London, including up to 1,500 homes provided through the London Wide Initiative on publicly owned brownfield sites.

In addition, eligible social tenants in London may also be helped to buy their rented home at a discount through the right to buy and right to acquire schemes.

We are investing over £415 million in the Homebuy scheme in London through the Housing Corporation's

Affordable Housing Programme in London for 2006-08. This will deliver some 6,000 New Build HomeBuy homes, 740 Social HomeBuy sales and 5,000 Open Market HomeBuy sales.

Housing

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what guidance her Department and its predecessors have given the Planning Inspectorate since May 1997 on residential development on gardens. [86783]

Yvette Cooper: Planning Inspectors make judgments in the context of published policy and guidance. Since 1997, this would have included PPG3 and associated guidance carried forward from the previous administration and subsequent revisions to PPG3 and associated guidance since then.

Rosie Cooper: To ask the Secretary of State for Communities and Local Government how many houses have been built in West Lancashire in the last five years. [83646]

Yvette Cooper: The numbers of new build completions reported for West Lancashire since 2001-02 are in the following table.

	New build completions
2001-02	274
2002-03	411
2003-04	256
2004-05	422
2005-06	143
Total	1,506

Mr. Spring: To ask the Secretary of State for Communities and Local Government what funding is available for temporary to permanent housing initiatives in the 2006 to 2008 National Affordable Housing Programme in West Suffolk. [82717]

Yvette Cooper: At present no funds have been made available in Suffolk for temporary to permanent housing initiatives through the Affordable Housing Programme 2006-08.

The Department for Communities and Local Government (DLCG) supports innovative schemes which provide settled housing solutions for households in temporary accommodation. Where these schemes offer value for money but require capital investment DCLG would encourage regional housing boards to support bids for Affordable Housing Programme funding.

Affordable housing schemes in Suffolk have been allocated £23.4 million through the Housing Corporation's Affordable Housing Programme for 2006-08.

Mr. Spring: To ask the Secretary of State for Communities and Local Government how many houses in West Suffolk have had improvements under the Decent Homes Standard scheme; and what the cost of such improvements has been. [85543]

Yvette Cooper: Both St. Edmundsbury borough council and Forrest Heath district council have transferred all of their housing stock to registered social landlords (RSL's), in 2002 and 2004 respectively. At the point of transfer Forest Heath (King's Forrest RSL) reported 30 non-decent homes and St. Edmundsbury (Havering Housing Partnership) reported 2,795.

At April 2005 Kings Forest RSL reported 0 non-decent homes and Havering Housing Partnership reported 11.

As RSLs are independent, largely self-financing, bodies, we do not hold data on the costs of this work.

Mr. Crabb: To ask the Secretary of State for Communities and Local Government what restrictions apply to the sale to tenants of housing association homes built as a result of housing association grants. [85675]

Yvette Cooper: The information is as follows.

The Right to Acquire is a scheme that enables eligible tenants of registered social landlords to buy the home they currently rent. It applies to property built or purchased with public funds, or transferred by a local authority after 1 April 1997. A number of restrictions apply, and we set under part V of the Housing Act 1985 as amended by the Housing Act 2004, the Housing (Right to Acquire) Regulations 1997, or under one of the Housing (Right to Acquire or Enfranchisement) (Designated Rural Areas) Orders 1997.

Exemptions from RTA include:

properties in areas designated as rural by the Secretary of State. These are generally small rural settlements where the population is 3,000 or fewer and where replacing the social housing sold would not be possible.

properties where the landlord has insufficient legal interest ie where the property is a house, a lease with a term less than 21 years and for a flat, a lease with a term less than 50 years;

the landlord is a co-operative housing association;

properties let in connection with employment;

properties designed with special features for letting to people with physical disabilities. To gain exemption the property should be one of a group of properties normally let to people with physical disabilities and a social service or special facility is provided close by wholly or partly to assist the tenants;

properties with special facilities let to tenants who are suffering or have suffered from a mental disorder. As above the property must be one of a group of properties and a social service or special facility must be provided close by wholly or partly to assist the tenants;

properties which are one of a group of properties which it is the practice of the landlord to keep for occupation by persons who have special needs and require intensive housing assistance and such intensive housing assistance is provided either directly or indirectly by the landlord;

properties let to persons of pensionable age. Such properties must be one of a group of properties let to the elderly and have special facilities consisting of or including a resident warden, a non-resident warden with a calling facility and a common room close by;

properties held on Crown tenancies;

properties where the attributable loan debt is equal to or greater that its current market value;

properties that are due to be demolished within 24 months of an RSL serving a final demolition notice, and having followed the prescribed notification process as contained in s182 of the Housing Act 2004.

The above list is not exhaustive, applicants should contact their landlord to ascertain whether their property qualifies.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what steps the Government have taken to promote the conversion of space above shops into residential use since 1997. [85691]

Yvette Cooper: We have consistently promoted reuse of empty properties including opportunities to convert unoccupied space above shops. We introduced a specific tax incentive for flats above shops conversions in Budget 2001 and have worked with the British Property Federation and other property industry stakeholders to identify barriers that prevent more unoccupied space above shops from being converted.

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government how many vacant homes there are in each London borough; and if she will make a statement. [85954]

Yvette Cooper: The following vacant dwellings were reported by each London borough as at October 2005:

Borough	*Total vacant homes*
Barking and Dagenham	1,906
Barnet	3,767
Bexley	2,157
Brent	2,762
Bromley	3,741
Camden	2,895
City of London	123
Croydon	4,376
Ealing	2,971
Enfield	4,301
Greenwich	3,295
Hackney	3,626
Hammersmith and Fulham	2,588
Haringey	1,678
Harrow	1,378
Havering	2,636
Hillingdon	2,302
Hounslow	1,865
Islington	1,970
Kensington and Chelsea	2,901
Kingston upon Thames	1,913
Lambeth	3,015
Lewisham	1,590
Merton	2,085
Newham	3,138
Redbridge	2,276
Richmond upon Thames	1,966
Southwark	2,723
Sutton	2,643
Tower Hamlets	2,081
Waltham Forest	1,924
Wandsworth	3,044
Westminster	3,914
London	85,550

Source: Council Tax Base 1 (CTB1) returns.

These figures are for all vacant dwellings, including dwellings that have been empty for less than six months, some for less than one month.

Mr. Ellwood: To ask the Secretary of State for Communities and Local Government how many dwellings there were in Bournemouth in *(a)* 1997 and *(b)* the latest year for which figures are available. [86326]

Yvette Cooper: Bournemouth district council have reported the following number of dwellings:

April 1997—73,841

October 2005—80,274

Source:

Housing Strategy Statistical Appendix (HSSA) and Council Tax Base 1 (CTB1) return to DCLG

Jeff Ennis: To ask the Secretary of State for Communities and Local Government how many vacant homes there are in *(a)* Barnsley and *(b)* Doncaster. [86383]

Yvette Cooper: Barnsley district council and Doncaster district council have reported the following vacant dwellings as in October 2005:

Barnsley—3,616

Doncaster—5,336

Source:

Council Tax Base 1 (CTB1) return to DCLG

Mr. Harper: To ask the Secretary of State for Communities and Local Government what recent discussions *(a)* she, *(b)* her Ministers and *(c)* her officials have had with the Ministry of Defence on local connection for the purpose of entitlement to social housing. [86450]

Yvette Cooper: There have as yet been no discussions between the Secretary of State and her Ministers and the Ministry of Defence on this issue. However, there are ongoing discussions between the two Departments at official level.

Mr. Rogerson: To ask the Secretary of State for Communities and Local Government how many empty homes there were in each local authority in England in each year since 1997. [87262]

Yvette Cooper *[holding answer 24 July 2006]:* A table showing the number of vacant dwellings as reported by each local authority in England, in each year from 1997 to 2005, has been placed in the Library of the House. The figures presented are for all vacant dwellings, including dwellings that have been empty for less than six months, some for less than one month.

James Duddridge: To ask the Secretary of State for Communities and Local Government how many new homes have been built on *(a)* brownfield and *(b)* greenfield land in (i) Rochford district council area, (ii) Southend-on-Sea borough council and (iii) Rochford and Southend East constituency in each year since 1997. [84250]

Yvette Cooper: Estimates for Rochford district council and Southend-on-Sea borough council are as follows:

Rochford district council

	New dwellings		
	Number	*Percentage on brownfield*	*Percentage on greenfield*
1997	303	39	61
1998	358	37	63
1999	384	59	41
2000	173	57	43
2001	182	57	43
2002	139	63	37
2003	174	52	48
2004	99	45	55

Southend-on-Sea borough council

	New dwellings		
	Number	*Percentage on brownfield*	*Percentage on greenfield*
1997	154	99	1
1998	187	79	21
1999	153	95	5
2000	152	97	3
2001	122	72	28
2002	128	100	0
2003	120	93	7
2004	260	100	0

The numbers of new dwellings estimates are from completions figures supplied by the local authorities. Proportions on brownfield and greenfield land are from the Department's Land Use Change Statistics. The figures do not include conversions. Information for the constituency, which cuts across local authority boundaries, is not available.

James Duddridge: To ask the Secretary of State for Communities and Local Government how many homes there were in *(a)* Rochford District Council area, *(b)* Southend-on-Sea Borough Council and *(c)* Rochford and Southend East constituency in each year since 1997. [84251]

Yvette Cooper: Since 1997 Rochford district council and Southend-on-Sea borough council have reported the following dwellings:

	Rochford	*Southend on Sea*
April		
1997	31,511	74,481
1998	31,649	74,772
1999	31,963	74,828
2000	32,132	75,115
2001	32,291	75,231
October		
2002	33,276	75,513
2003	33,446	75,718
2004	33,508	75,978
2005	33,580	76,529

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assessment she has made of the likely effect of the Housing Act 2004 on the operation of the right to buy; and if she will make a statement. [85692]

Yvette Cooper: The changes made by the Housing Act 2004 to the right to buy scheme were designed to tackle profiteering by tenants and by property developers, and to restore the scheme's focus on long-term home ownership and the building of stable communities.

In particular, the Act discourages tenants from buying their homes at a discount in the knowledge that they will receive full market value compensation because the properties are scheduled for demolition. It also discourages them from selling on quickly to companies, which thereby acquire properties at discounted prices. The Act benefits tenants by requiring social landlords to provide them with more information about the costs of home ownership, including the costs of maintenance.

It is up to each social landlord to fulfil the requirements of the legislation, in the light of local circumstances.

Mr. Andrew Smith: To ask the Secretary of State for Communities and Local Government how *(a)* tenants and *(b)* the public can assess the relative performance of housing associations; and if she will make a statement. [86168]

Yvette Cooper *[holding answer 20 July 2006]:* There are a number of ways in which tenants and the public can gain information on the performance of RSLs. An annual Housing Corporation Assessment (HCA) is published for each RSL with over 250 homes. This gives an overview of performance and a rating in respect of the RSL's performance in areas of governance, management, financial viability and where relevant, development. The Corporation also publishes performance indicator data for RSLs with over 250 homes and an Operating Costs Index which allows comparison to be made between the costs of similar organisations. Additionally, the Audit Commission which is responsible for the inspection of RSLs publishes a report on the performance of individual RSLs, including the award of a star rating.

RSLs will also have individual arrangements in place for reporting to their own tenants.

Liverpool Regeneration

Mrs. Ellman: To ask the Secretary of State for Communities and Local Government what funding she has made available for regeneration in Liverpool, Riverside since 1997. [86294]

Mr. Woolas: We do not hold the total figures of regeneration spend for the Riverside constituency since 1997. The following table details regeneration funding spent or allocated from which Riverside has benefited. For some budgets, it is not possible to disaggregate to ward and constituency boundaries.

Type of funding	*Period*	*Area allocated*	*Amount (£ million)*
Neighbourhood Renewal Fund	2001-02 to 2005-06	Riverside	26.4
	2006-07 to 2007-08[1]	Riverside	14
Single Regeneration Budget	2000 to 2007-08	City Centre[2]	[3]25
Housing Market Renewal Initiative Merseyside (Liverpool allocation only)	2003-04	Liverpool	2.7
	2004-05		17
	2005-06		28
	2006-07		26.7
	2007-08		29.8
New Deal for Communities (NDC)	2000-01 to 2009-10	Riverside	[4]31
Objective 1 Liverpool City Council	2000 to 2006	City Centre	43
Liverpool Neighbourhood Regeneration Programme	2000 to 2006	Riverside	[5]3.4
		Riverside	[6]6.7

[1] Forecast.
[2] Includes part of Riverside.
[3] Not fully allocated at present.
[4] Estimate.
[5] Schemes commissioned.
[6] Schemes currently in development.

In addition to the aforementioned funding, considerable amounts of funding have been made available from English Partnerships, the North West Development Agency and other sources. However it is not possible to identify funding which has gone specifically towards regeneration in the Riverside constituency as this information is not held at constituency level. Riverside will also have benefited from projects funded through objective 1 delivered across Merseyside, for example by the Learning and Skills Council, Business Link and Merseyside Special Investment Fund.

Local Government

Mr. Laws: To ask the Secretary of State for Communities and Local Government what proportion of funds in each local government pension scheme is invested in socially responsible investment funds. [88892]

Mr. Woolas: This information is not held centrally and could be provided only at disproportionate cost. Individual Local Government Pension Scheme fund authorities in England and Wales can provide specific figures for their funds.

Local Government Reorganisation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assessment the Government has made of the merits of cancelling the *(a)* 2007 and *(b)* 2008 local elections to facilitate local government reorganisation in two-tier areas. [86787]

Mr. Woolas: We have already confirmed that we expect and intend the 2007 and 2008 elections to go ahead. The details of our approach to restructuring will be set out in the forthcoming White Paper which will be published shortly after the summer recess.

Ordnance Survey

Mr. Hands: To ask the Secretary of State for Communities and Local Government what maximum or highest resolution of aerial photography Ordnance Survey holds for parts of England. [87347]

Angela E. Smith: The highest resolution aerial imagery held by Ordnance Survey is for those urban areas of England mapped at 1:1250 scale and is at 15cm resolution.

Mr. Hands: To ask the Secretary of State for Communities and Local Government what progress has been made with Ordnance Survey's Digital National Framework; and if she will make a statement. [88084]

Angela E. Smith: The Digital National Framework (DNF) is an industry standard for integrating and sharing business and geographic information from multiple sources. It is supported by Ordnance Survey and a number of other organisations. DNF is directed and overseen by an Expert Group which has over 40 members from the public and private sectors and academia. The Group has produced a "road map" to achieve its aims and is actively working on most elements of this. All progress is reported on the DNF website at www.dnf.org. The majority of recent effort has been directed at creating a framework for unique identifiers.

Planning

Mr. Hands: To ask the Secretary of State for Communities and Local Government (1) whether Planning Gain Supplement will be levied on developments by *(a)* local authorities and *(b)* housing associations; [88392]

(2) whether Planning Gain Supplement will be levied on home extensions; [88394]

(3) if the Government will take into account Planning Gain Supplement revenues in the calculations for the distribution of *(a)* local and *(b)* regional grant allocations. [88398]

John Healey: The Government consulted on their proposals for Planning-gain Supplement (PGS), including on scope, in their consultation paper published alongside the 2005 pre-Budget report. As set out in the paper, the Government propose that home improvements should be excluded from PGS. In Budget 2006, the Government stated that PGS revenues would be separate from the local government funding settlement to serve as an incentive to support growth. Further announcements will be made by the end of the year.

Mr. Drew: To ask the Secretary of State for Communities and Local Government for what reasons parish and town councils are required to conduct all their deliberations on planning applications in public; and if she will make a statement. [83259]

Yvette Cooper: Unless the matter is confidential, parish and town councils are required to conduct their deliberations on planning applications in public in the interests of transparency and accountability.

Mr. Drew: To ask the Secretary of State for Communities and Local Government what recent discussions she has had with Kate Barker on further changes to the planning system. [84158]

Yvette Cooper: My right hon. Friend had an introductory meeting with Kate Barker last month to discuss the review of land use planning that Kate Barker is currently conducting on behalf of the Government. I have also met Kate Barker on several occasions over the past eight months to discuss progress on her review.

Kate Barker has now published her Interim Report, which the Government have welcomed. We look forward to seeing her recommendations later in the year on the further changes we need to make to build on the recent reform of the planning system.

Planning Policy Guidance Note 3

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether the 2000 edition of Planning Policy Guidance Note 3 (PPG) applies in Wales; and whether draft PPG3 is intended to apply in Wales. [87023]

Yvette Cooper: The planning system in Wales is the responsibility of the Welsh Assembly, which has its own planning policy framework governed by an overarching document—Planning Policy Wales (PPW), which was first published in March 2002. This is supported by a range of technical advice notes, similar to our guidance and statements.

Planning Guidance on Housing in Wales has recently been updated through the issuing of a Ministerial Interim Planning Policy Statement (June 2006) and the publication of TANs 1 (Joint Housing Land Availability Studies) and 2 (Planning and Affordable Housing) in June 2006.

English planning guidance and planning policy statements can be used as material considerations in determining Welsh planning applications and appeals, where the Welsh policy framework does not cover the particular points in question.

Right to Buy

Chris Huhne: To ask the Secretary of State for Communities and Local Government how many homes have been purchased under the right to buy scheme in *(a)* rural and *(b)* non-rural areas in each year since 1997, expressed (i) in absolute terms, (ii) per 1,000 population and (iii) per 1,000 households; and if she will make a statement. [84967]

Yvette Cooper: The numbers of right-to-buy sales in rural and urban local authorities are tabulated as follows. The number of right-to-buy sales is expressed in absolute terms and as the number of sales per 1,000 people and 1,000 households. Data for earlier years could be obtained only at disproportionate cost. The number of right-to-buy sales is as reported by local authorities and no adjustment is made for missing data.

	Total	*Per 1,000 population*	*Per 1,000 households*
Right-to-buy sales in rural local authorities			
1998-99	10,469	0.59	1.4
1999-2000	13,737	0.77	1.9
2000-01	12,474	0.70	1.7
2001-02	11,991	0.67	1.6
2002-03	14,288	0.79	1.9
2003-04	13,681	0.75	1.8
2004-05	9,121	0.50	1.2
Right-to-buy sales in urban local authorities			
1998-99	23,951	0.77	1.9
1999-2000	28,930	0.93	2.3
2000-01	36,422	1.17	2.8
2001-02	36,793	1.17	2.8
2002-03	45,610	1.44	3.5
2003-04	53,825	1.70	4.1
2004-05	39,068	1.23	2.9

Source:
Quarterly returns (P1B) from local authorities to the Department for Communities and Local Government, Office for National Statistics population estimates, DCLG household estimates.

Local authorities have been classified as rural or urban according to definitions given by the Department for Environment, Food and Rural Affairs. For further information on the DEFRA classification please see:

http://statistics.defra.gov.uk/esg/rural_resd/rural_definition.asp

Rosie Cooper: To ask the Secretary of State for Communities and Local Government how many right-to-buy completions there were in West Lancashire in each year since 1996-97. [83551]

Yvette Cooper: The number of right-to-buy completions in West Lancashire in each year since 1996-97 can be found on the Department for Communities and Local Government's website at:

http://www.odpm.gov.uk/pub/383/Table648Excel545Kb_id1156383.xls

Search Fees

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what amendments the Government have made to *(a)* regulations and *(b)* legislation relating to local authority search fees since 1997. [70609]

Yvette Cooper: The following amendments have been made to regulations and legislation relating to local authority fees for local land charge services since 1997.

(a) Regulations

Statutory Instrument 1998 No. 1190 - The Local Land Charges (Amendment) Rules 1998

These rules specified the fees payable for local land charge services with effect from 1 June 1998.

Statutory Instrument 2003 No. 2502 - The Local Land Charges (Amendment) Rules 2003.

These rules specified the fees payable for local land charge services with effect from 3 November 2003.

Statutory Instrument 2004 No. 3044 - The National Assembly for Wales (Transfer of Function) Order 2004.

This Order transfers the Lord Chancellor's power, with the consent of the Treasury, for setting fees for local land charge services in Wales to the National Assembly for Wales.

(b) Primary Legislation

The Constitutional Reform Act 2005, schedule 4, paragraphs 82 to 85.

This Act amends the Local Land Charges Act 1975. The amendments provide for the transfer to registering authorities in England, of the Lord Chancellor's power, with the consent of the Treasury, for setting fees for local land charge services, other than fees for personal searches, in England.

These amendments were brought into force by the Constitutional Reform Act 2005 (Commencement No. 5) Order 2006, (SI 2006 No. 1014) on 3 April 2006. The effect of the commencement order was modified by the Constitutional Reform Act 2005 (Supplementary Provisions) Order 2006, (SI 2006 No. 1693). This Order provides that from 3 April 2006 until 31 March 2007 the fees specified by registering authorities in England under section 13A Local Land Charges Act 1975 shall be those that were applicable immediately prior to 3 April 2006.

No amendments have been made to regulations relating to fees for other local authority search services since 1997.

The Office of Fair Trading made a number of recommendations to improve the operation of the property search market which we are working with other government departments to address.

Security Passes

Mr. Hands: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Brentwood and Ongar, of 16 May 2006, *Official Report*, column 928W, on security passes, how many security passes were issued by the Office of the Deputy Prime Minister in each previous year of its existence. [88248]

Angela E. Smith: The Office of the Deputy Prime Minister was created on 29 May 2002. The total number of new and replacement permanent building passes issued for staff, contractors and consultants working in the London HQ buildings for each year since then up to the end of March 2005 is as follows:

	Passes
May 2002 to March 2003	1,394
April 2003 to March 2004	1,593
April 2004 to March 2005	1,375

Thames Gateway

Mr. Hancock: To ask the Secretary of State for Communities and Local Government what publicly owned land in Kent has to be released to facilitate the implementation of the Thames Gateway project; and what the timetable is for that release. [83698]

Yvette Cooper: A number of publicly owned assets are being released for development throughout the Kent part of the Thames Gateway. Government have contributed to the acquisition and reclamation costs for some of these sites from the Thames Gateway expenditure programme. Other sites are already owned by private sector landownwers and developers. All of these sites will play a crucial role in meeting aspirations for new housing and jobs.

The pace at which these sites will come forward for development depends partly on the planning process and partly on the market. In some cases this has already started. For example, the 264 acre 'Bridge' development in Dartford is being developed in a joint venture between Dartford council and ProLogis developers. Elsewhere at Rochester Riverside in Medway, DCLG is funding Medway council and the South East of England Development Agency to create a development platform on their land for future release for development—at least some of which is likely to be marketed within the next 12 months. Investment partners are also currently being sought elsewhere in Medway to help bring major reclaimed sites now into development.

All development on public and privately owned sites is subject to the planning process in the normal way. In Kent Thames Gateway this will be informed by the preparation of Local Development Frameworks in Dartford, Gravesham, Medway and Swale.

Mr. Hancock: To ask the Secretary of State for Communities and Local Government what assessment has been made of the socio economic benefits from the release of *(a)* publicly owned and *(b)* Government controlled land in Kent to facilitate the Thames Gateway plans; and if she will make a statement. [85298]

Yvette Cooper: The economic and social benefits from the release of public owned land for development will be set out in each individual development brief, area masterplan, sustainability assessment, design code and other local strategies that are part of the planning process and subject to a public consultation process. These economic and social benefits will be considered prior to disposal of these assets, as part of planning

applications and as part of subsequent local planning decisions. In addition, individual organisations also approve their public investment through their relevant appraisal processes, which need to meet HMT 'Green Book' appraisal standards.

DEPUTY PRIME MINISTER

Anschutz Entertainment Group

Mr. Swire: To ask the Deputy Prime Minister which *(a)* officials and *(b)* representatives of Anschutz Entertainment Group and *(c)* other parties with an interest in the millennium dome site were present at meetings during his trip to the US in July 2005. [84704]

The Deputy Prime Minister *[holding answer 12 July 2006]:* I refer the hon. Member to my letter of 4 July 2006, a copy of which is appended to the Memorandum from the Parliamentary Commissioner for Standards to the Standards and Privileges Committee published on 21 July 2006.

Cantxx

Mr. Wallace: To ask the Deputy Prime Minister whether he has received official hospitality from Cantxx Ventures Ltd. and Cantxx UK and its associated companies in the last four years. [85271]

The Deputy Prime Minister: Hospitality received by Ministers is declared in the Register of Members' Interests as is appropriate.

Gifts

Mr. Swire: To ask the Deputy Prime Minister if he will list the gifts he has received whilst abroad on Government business. [86030]

The Deputy Prime Minister: The Government publish an annual list of gifts received by Ministers valued at more than £140. Information relating to 2005-06 was published on 24 July 2006.

ISO 14001

Chris Huhne: To ask the Deputy Prime Minister whether his Office *(a)* is committed to the achievement of environmental management to ISO14001 standard and *(b)* has been externally certified as in compliance with that standard; and if he will make a statement. [81582]

The Deputy Prime Minister: Environmental Management Systems in my office are operated to the ISO 14001 standard.

Millennium Dome

Mr. Swire: To ask the Deputy Prime Minister what role and responsibilities he has in relation to *(a)* the millennium dome and *(b)* the surrounding land. [85771]

The Deputy Prime Minister: None.

Ministerial Travel

Mrs. Spelman: To ask the Deputy Prime Minister how much was spent on *(a)* domestic flights and *(b)* rail fares for his travel in an official capacity in 2005-06. [85558]

The Deputy Prime Minister: All ministerial travel is undertaken in accordance with the 'Ministerial Code' and 'Travel by Ministers', copies of which are available in the Library of the House. Since 1999, the Government have published on an annual basis a list of all overseas visits by Cabinet Ministers costing in excess of £500. Information relating to 2005-06 was published on 24 July 2006.

Mr. Swire: To ask the Deputy Prime Minister if he will list the hospitality he has received while abroad since 1997. [88221]

The Deputy Prime Minister: Hospitality received by Ministers is declared in the Register of Members' interests as is appropriate.

Official Visit

Mr. Swire: To ask the Deputy Prime Minister what the itinerary was for his visit to the United States in July 2005; and what the cost of *(a)* his and *(b)* his accompanying officials travel was for each part thereof. [84917]

The Deputy Prime Minister *[holding answer 13 July 2006]:* For details of my itinerary, I refer the hon. Member to the letter I wrote on 4 July 2006, a copy of which is appended to the Memorandum from the Parliamentary Commissioner for Standards to the Standards and Privileges Committee, published on 21 July 2006. Since 1999, the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year and total costs of all ministerial overseas travel. Information relating to 2005-06 was published on 24 July 2006.

Post Offices

Joan Walley: To ask the Deputy Prime Minister what his responsibilities are in relation to Government policy on post offices; what recent work he has undertaken in respect of this responsibility; and what meetings he has attended within the past two months relating to post offices. [88625]

The Deputy Prime Minister: Responsibility for policy on post offices rests with the Department for Trade and Industry. I chair the Ministerial Committee on the Post Office Network (MISC33). The terms of reference of the Committee are 'to consider issues relating to the future of the Post Office network'. I am therefore responsible for ensuring the Government take a coordinated approach to issues relating to the Post Office network. Information relating to the proceedings of Cabinet Committees, including when they meet, is generally not disclosed as to do so could harm the frankness and candour of internal discussion.

SOLICITOR-GENERAL

Advertising Campaigns

Lynne Featherstone: To ask the Solicitor-General what advertising campaigns the Department has run between 2000 and June 2004; and what the *(a)* date and *(b)* cost was of each. [87056]

The Solicitor-General: I am informed that none of my Departments ran advertising campaigns during 2000 and June 2004.

Crown Prosecution Service

Richard Ottaway: To ask the Solicitor-General if he will make a statement on the 2006 performance assessment of the Crown Prosecution Service, South Sector. [83928]

The Solicitor-General: CPS London South Sector was created in October 2003. The first HMCPSI Overall Performance Assessment report on the Sector covered 2004-05 and the Sector was rated 'Fair'. This assessment reflected a significant improvement on previous performance. Since then the performance of the Sector has continued to improve against key national targets.

Extradition

Mr. Clegg: To ask the Solicitor-General how many representations he has received on the US-UK Extradition Treaty in 2006. [88326]

The Solicitor-General: I have received 124 representations specifically on the UK-US Extradition Treaty and numerous other representations on extradition issues more generally.

Questionnaires

Mr. Amess: To ask the Solicitor-General how many *(a)* questionnaires, *(b)* statistical inquiries and *(c)* investigations have been carried out wholly or partly at public expense on behalf of or by the Law Officers' Departments or public bodies for which he is responsible in each year since 1997; and what the (i) nature, (ii) purpose and (iii) cost was in each case. [83172]

The Solicitor-General: I am answering on behalf of the all of the Law Officers Departments, the information requested could be provided only at disproportionate cost, except the Treasury Solicitor's Department.

The Treasury Solicitor's Department has, since 2002, undertaken an annual client satisfaction survey. Its purpose is to enable better understanding of clients' views about the services provided to them by the Department and to identify ways to improve that service. The cost of these surveys is predominantly the time spent by TSol staff in administering and recording this information and is estimated at 3,000 per annum. Client satisfaction ratings are among the Service Delivery Agreement (SDA) targets agreed with the Attorney General.

INTERNATIONAL DEVELOPMENT

Afghanistan

Mr. Burstow: To ask the Secretary of State for International Development what resources he has committed to support the health infrastructure reconstruction of Afghanistan over the next three years. [88896]

Hilary Benn: DFID does not contribute to Afghanistan's Health Sector bilaterally, but through funding of the Afghan Reconstruction Trust Fund (ARTF), which helps fund the Government's recurrent costs. DFID has channelled £135 million through this since 2002. The ARTF covers much of the Government's wage bill, including the salaries of doctors and nurses. DFID has recently announced a further three year commitment to the ARTF which will fund the salaries of these key workers. Other donors such as the United States Agency for International Development (USAID), the World Bank and the European Community take the lead in the health sector. DFID continues to support efforts to improve health services through multilateral funding.

Mr. Burstow: To ask the Secretary of State for International Development what steps he is taking to *(a)* encourage and facilitate the safe return of and *(b)* provide support for Afghan health workers who wish to return to Afghanistan. [88897]

Hilary Benn: DFID does not work bilaterally in the health sector. DFID does contribute to the Afghanistan Reconstruction Trust Fund; one of the activities financed through this trust fund is the Afghanistan Expatriate Programme which enables the return of qualified Afghans to assist in reconstruction and capacity building.

Mr. Burstow: To ask the Secretary of State for International Development what recent discussions he has had with the Afghan authorities on the provision of mental health services. [88898]

Hilary Benn: DFID officials have had no recent discussions with Afghan authorities on the provision of mental health services. The European Commission, 19 per cent. of whose funding is provided by DFID, supports a basic health package which includes the provision of mental health services.

Mr. Burstow: To ask the Secretary of State for International Development what steps he is taking to support the Afghan authorities in the provision of *(a)* comprehensive maternal and neonatal services, *(b)* midwifery and nursing training and *(c)* training for community health workers. [88899]

Hilary Benn: DFID supports the health sector in Afghanistan through the Afghanistan Reconstruction Trust Fund rather than bilaterally. The UK also provides 19 per cent. of the European Commission's €1 billion of development assistance pledged to Afghanistan between 2002-07. A large part of this funding goes towards developing Afghanistan's health sector, specifically to provide a basic package of health

services to all Afghans, including maternal and newborn health; child health and immunisation; and nutrition.

Recruiting, training and deploying health care workers (especially women) are real challenges, especially in rural areas. The absence of female health workers is being addressed by the World Health Organisation, which is running a variety of health courses to boost the number of skilled birth attendants, nurses and midwives.

Aid Programmes

Susan Kramer: To ask the Secretary of State for International Development pursuant to his oral answer of 10 May 2006, *Official Report*, column 297, on HIV/AIDS, what safeguards are in place to ensure that aid programmes are not used as a tool for sexual exploitation. [89128]

Mr. Thomas: Following the work of a taskforce led by UNICEF in 2002, a UN code of conduct for protection from sexual abuse was drawn up. This code now forms part of the terms and conditions of employment within the UN and all UN staff members are therefore bound by it. Local organisations contracted by the UN also have to sign up to this code. DFID has incorporated the same code into its own terms and conditions of employment.

Following the recent report by the Save the Children Fund (SCF) on the exploitation of children in Liberia, DFID immediately organised a meeting with senior SCF staff to learn more about the accusations. DFID has subsequently raised these concerns with its operational partners to seek clarification from them on how their past and on-going operations have sought to prevent or address this problem. Safeguards for the prevention of sexual exploitation are now routinely part of DFID's appraisal of proposals for humanitarian operations.

DFID has recently published a new humanitarian policy and we are reviewing our funding guidelines and procedures. This will include consideration of how we can continue to best incorporate the UN code of practice.

Criminal Offences

Mr. Clegg: To ask the Secretary of State for International Development how many criminal offences his Department has created by Orders in Council in each year since 1997. [88470]

Hilary Benn: None.

Developing Countries

Andrew George: To ask the Secretary of State for International Development if he will take steps *(a)* to co-ordinate and *(b)* to implement an integrated approach across Departments to deal with climate change and poverty reduction in developing countries. [87472]

Hilary Benn: Informal working groups communicate regularly on climate change to ensure that all Departments have an opportunity to contribute to policy-making. Ministerial oversight is provided by the Ministerial Committee on Energy and Environment (EE) which is chaired by the Prime Minister.

The Department for the Environment and Rural Affairs (DEFRA) has overall responsibility for climate change policy including tackling the causes of climate change, working to find ways to adapt to unavoidable climate change impacts, promoting effective science to inform policy, leading on international climate change negotiations, promoting energy efficiency, reducing emissions from industry and business, developing alternatives to fossil fuels and encouraging the protection and enhancement of carbon sinks. The Cabinet Office contributes to policy development and provides co-ordination mechanisms at senior official level.

The Foreign and Commonwealth Office (FCO) contributes foreign policy perspectives and analysis. The FCO's staff overseas maintains regular contact with host governments in order to analyse and report on countries' climate change policies and priorities, and to lobby for UK positions. The Department for Trade and Industry (DTI)'s role is to consider all aspects of climate change that impact on the energy and business sectors. This includes ensuring that that the competitiveness of industry is maintained and that issues affecting security of energy supply, energy prices and competitive energy markets are taken into account. Her Majesty's Treasury is involved across the whole range of business. The Chancellor has initiated a major review of the economics of climate change, headed by Sir Nick Stern.

DFID takes the lead on ensuring effective integration of international development objectives into Her Majesty's Government policy. We have seconded two people to the Stern Review. We are helping developing countries adapt to unavoidable climate change impacts. We are working with the multilateral development banks to increase public and private investment in energy efficiency and lower carbon technologies. The UK Government's Development White Paper highlights climate change as one of the key challenges facing development, and sets out how the UK Government as a whole intends to address this challenge.

Andrew George: To ask the Secretary of State for International Development what support his Department gives to *(a)* farmers and *(b)* fishermen in developing countries to understand and achieve standards demanded by western consumer markets. [88616]

Mr. Thomas: My right hon. Friend the Secretary of State for International Development (DFID), launched DFID's agriculture policy in December 2005. This makes a commitment to work in partnership with the food industry to ensure that poor farmers in developing countries can access markets. DFID is working with supermarkets, standard setters and exporters to improve opportunities for farmers in developing countries to participate in international supply chains. We are also supporting work in Africa to support small farmer certification to supermarket standards. For example in Kenya, DFID has supported export horticultural development to the tune of

£872,000 over the past three years. Much of these funds are spent assisting smallholders to cope with the process and cost of compliance with supermarket standards.

DFID is also committed to working in partnership with international standard-setting organisations to ensure that new product standards are based on assessments of risk and are not attempts to protect markets. We support developing countries to participate in formal standard-setting procedures. DFID has contributed £950,000 to the Standards and Trade Development Facility (STDF) housed in the World Trade Organisation. STDF is a multi-donor funded programme that assists developing countries in improving their expertise and capacity to analyse and implement international sanitary and phytosanitary standards (SPS).

DFID also supports the work of the European Commission's Directorate General (DG) for Trade. In 2006, the DG for Trade will provide €1.7 million to support developing countries to meet food safety standards and export their products to the European Union (EU). This provides jobs, economic growth and raises standards in developing countries.

DFID recognises the importance of European markets to the fishing sectors of many developing countries and is an active proponent of greater coherence between EU fisheries trade and development policies. We encourage the EU to ensure that there is fair access to EU markets for developing countries and that resources are made available to help these countries develop capacity in standard setting, quality control and certification.

DFID funded research programmes have supported the development of processing technologies for developing country fishermen. Currently we are funding a regional programme in Southern Africa that is supporting local fishing industries to develop the knowledge, skills and capacity to meet EU market requirements.

More direct support to small-scale fishers, whose marketing needs are arguably greater than other groups within the sector, is also available through a £30 million EU programme of support to developing countries' fisheries sectors, which the UK supports. DFID also supports the activities of the United Nations Food and Agriculture Organisation (FAO) which plays an important role in the setting and implementation of policies relating to international standards and trade in fisheries products.

Andrew George: To ask the Secretary of State for International Development what assessment his Department has made of the effectiveness of his Department's support to improve teachers' wages in developing countries. [88618]

Mr. Thomas: The 2006 Education for All Global Monitoring Report states that salaries for teachers remain problematic. It reports that in Latin America, teacher salaries fail to attract the best candidates. However, some countries are trying to improve teachers' status. In China, salaries have been increased and a National Teachers Education Network established.

The UK's commitment to provide approximately £8.5 billion of support to education in developing countries over the next 10 years, will provide predictable funding against which poor country governments can prepare ambitious sector plans to achieve the education goals. Our support will help in the development and implementation of 10 year plans, which will increase investment in schools, including recruiting and training more teachers. The status of teachers will be important in improving the quality of education.

Andrew George: To ask the Secretary of State for International Development what funding his Department has *(a)* pledged, *(b)* committed and *(c)* spent on support for developing countries to plan for natural disasters. [88620]

Mr. Thomas: Much of DFID's support for disaster risk reduction and support to developing countries to plan for future disasters is integrated into wider development programmes so it is not possible to identify the exact amount allocated to this work.

We are committed to allocating 10 per cent. of the funding provided by DFID in response to each major natural disaster to prepare for and mitigate the impact of future disasters where this can be done effectively. We pledged £7.5 million to the Indian Ocean region following the 2004 tsunami and £5.8 million to Pakistan following the earthquake for disaster risk reduction programmes.

DFID is also providing significant contributions to the disaster risk reduction programmes of our multilateral partners. In 2005, we committed £12.5 million to international non-governmental organisations and £3.5 million to the International Federation of the Red Cross and Red Crescent for disaster risk reduction work at the community level in Africa and Asia. The UK is the largest contributor of un-earmarked funds to the United Nations International Strategy for Disaster Reduction at £1 million per year. In 2006, DFID committed over £4 million to the World Bank to help developing country governments incorporate disaster risk into Poverty Reduction Strategies, and £3 million to the ProVention Consortium.

Equal Opportunities

Andrew George: To ask the Secretary of State for International Development what measures his Department will take to ensure that policies outlined in the White Paper will *(a)* deliver equal employment opportunities for women, *(b)* uphold equal pay and labour standards for women, *(c)* advance equal property rights for women and *(d)* endorse women's equal access to microfinance. [88619]

Hilary Benn: Gender discrimination is not only unjust but is an impediment to sustainable economic development and achievement of the Millennium Development Goals. The policy paper "Poverty Elimination and the Empowerment of Women" sets out the Government's commitment to supporting gender equality and to ensuring that women are able to play a full role in economic life. In the White Paper, "Eliminating World Poverty: making governance work for the poor", published earlier this month, the

Government re-affirmed its intention to give priority to work in support of gender equality and women's rights in its development assistance. DFID is currently in the process of developing more detailed plans on how this commitment will be taken forward across the Department's operations. These plans should be completed by the end of the year; they will include work looking at the linkages between gender equality and economic growth.

Fast Track Initiative

Andrew George: To ask the Secretary of State for International Development how much aid for education his Department has provided under the Fast Track Initiative; and what plans he has to increase the amount. [88615]

Mr. Thomas: The UK is supporting the Fast Track Initiative (FTI) as part of our overall approach to accelerate progress towards quality primary education for all children by 2015. My right hon. Friend, the Secretary of State for International Development, recently announced an additional UK contribution of £100 million to the FTI Catalytic Fund, bringing our total support to £150 million. Our contribution over the next two years will cover nearly a quarter of the funding gap in the FTI.

In addition, the UK is calling for other donors, especially G8 countries, to increase their support for an expanded FTI. We have urged other G8 countries to increase their support to education within the FTI framework, either directly through the FTI Catalytic Fund or by increasing their support for education in FTI endorsed countries.

FIFA World Cup

Mr. Hands: To ask the Secretary of State for International Development which matches *(a)* he and *(b)* his departmental colleagues attended at the FIFA World Cup 2006 in Germany in their Ministerial capacity; at what cost to public funds; and with what contribution from third party organisations. [83598]

Hilary Benn: Neither myself, nor my hon. Friend the Parliamentary Under Secretary of State for International Development attended any FIFA World Cup 2006 matches in Germany in our Ministerial capacity.

Genetic Use Restriction Technologies

Mr. Meacher: To ask the Secretary of State for International Development (1) if he will commission an assessment of the impact of Genetic Use Restriction Technologies on *(a)* free access to genetic resources and *(b)* the food security and livelihoods of small scale farmers in developing countries; [88421]

(2) what assistance he has made available to support and enhance capacity building in developing countries to enable them to make decisions concerning the introduction of GM crops containing Genetic Use Restriction Technologies; [88422]

(3) what criteria will be used to determine that the conditions for the safe and beneficial use of Genetic Use Restriction Technologies in developing countries have been validated; and who will make that decision. [88423]

Mr. Thomas: DFID takes genetic modification in crops and foods and its potential impacts on poor people, including small-scale farmers, in developing countries very seriously. Our approach is based on the principle that the livelihoods and health of poor people and of their environment is of primary concern. We recognise that GM technology in itself will not solve the problem of world hunger. We consider that biotechnology, including gene technology, if managed responsibly and applied to those crops on which the poor rely, has the potential to make a contribution to development and poverty reduction.

The parties to the Convention on Biological Diversity (CBD) decided in 2000, that there should be a precautionary approach to their use while research into the possible impacts of these technologies was carried out. Parties at the CBD meeting in March this year reaffirmed this decision. Parties were also encouraged to continue to undertake further research on the impacts of GURTs and to share information from these studies and address capacity building for decision making in developing countries. As a party to the CBD, the UK Government will continually study research into the possible impact of GURTs. DFID is willing to consider funding assessments of the impact of Genetic Use Restriction Technologies on small scale farmers.

Recognising that there are both potential benefits and risks associated with gene technologies and GM crops, developing countries should be able to make their own informed choices. To this end, DFID has worked with the Department for the Environment and Rural Affairs (DEFRA), other HMG Departments and the international community to establish the Cartagena Protocol on Biosafety, under the CBD. The protocol adopts a strong precautionary approach and aims to ensure that countries are provided with the information necessary to make informed decisions before agreeing to the import of genetically modified organisms. It also facilitates the exchange of information on living modified organisms and assists countries in the implementation of the protocol. This means that importing countries are able to make a decision to avoid or minimise potential adverse effects of GM organisms, even if there is a lack of scientific certainty on the extent of such potential adverse effects. We are working to ensure developing countries have the capacity to make informed decisions on these issues for themselves, for example by providing core support to regional African research bodies which are building capacity in biotechnology safety and regulation in their regions.

It is for each party to the Convention on Biological Diversity to assess whether appropriate scientific data is available in relation to the field testing of products incorporating Genetic Use Restriction Technologies and to take decisions accordingly. The Cartagena Protocol on Biosafety seeks to provide the means for developing countries to make such decisions.

Mr. Meacher: To ask the Secretary of State for International Development what research projects the Government have *(a)* undertaken and *(b)* funded on appropriate scientific data for the field testing of products incorporating Genetic Use Restriction Technologies. [88424]

Mr. Thomas: The Government have not undertaken or funded any research projects specifically on the scientific data for the field testing of products incorporating Genetic Use Restriction Technologies (GURTs).

Middle East (Project Funding)

Andrew George: To ask the Secretary of State for International Development which infrastructure projects funded by *(a)* the EU and *(b)* the UK have been destroyed by Israeli forces in Gaza in recent months. [87464]

Hilary Benn: Because of military activity, aid agencies currently face difficulty assessing the extent of damage to facilities in the Gaza Strip. However, initial reports from northern Gaza indicate that four schools and one clinic provided for Palestinian refugees through the United Nations Relief and Works Agency (UNRWA) have sustained heavy damage. 57 empty food containers leased by UNRWA have also been damaged at a cost of £31,000. The European Community and EU member states collectively provide more than half of UNRWA's core funding and two of the damaged schools were specifically financed from European Community funds.

The main entrance bridge to Beit Hanun was partially destroyed by an Israeli air strike on 9 July. The bridge was built in 2004 with £205,000 in funding from the European Community.

Ministerial Meetings

Mr. Weir: To ask the Secretary of State for International Development when he last met the Scottish First Minister; and what subjects were discussed. [88748]

Hilary Benn: I last met with the Scottish First Minister on the 23 June in Edinburgh. We discussed the Scottish Parliament's Co-Operation Agreement with Malawi and the work DFID is undertaking in the health sector. The discussion also covered the capacity building work the Scottish Parliament is doing with the Malawi Parliament.

Ministerial Offices

Sarah Teather: To ask the Secretary of State for International Development how many times his ministerial office has been decorated in each of the last five years. [87644]

Mr. Thomas: Ministerial offices were redecorated as part of the refurbishment of the building prior to DFID moving in, in 2001. They have not been redecorated since.

Official Visits

David Simpson: To ask the Secretary of State for International Development on how many occasions he has visited each region in an official capacity in the last 12 months. [84005]

Hilary Benn: In the last 12 months I have visited Wales twice and Scotland three times. I have not made any visits to Northern Ireland. I have also made a number of visits to different parts of England.

Palestine

Dr. Starkey: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of the Temporary International Mechanism in addressing the humanitarian crisis in Gaza; what representations he has received on the effectiveness of the mechanism from British aid agencies working in the Occupied Territories; and what concerns they have expressed. [88492]

Hilary Benn: The Temporary International Mechanism, designed to help provide for Palestinians' basic needs, is providing vital assistance to the people of the Gaza Strip at this difficult time. Since 11 July, the mechanism has provided fuel for back-up generators at hospitals, health centres, water supply pumps and sanitation facilities. This has enabled equipment to continue operating during power cuts after Gaza's only power station was damaged in an Israeli attack.

DFID is in regular contact with British aid organisations regarding the Occupied Palestinian Territories. In these discussions, several agencies have expressed concern that the Temporary International Mechanism does not provide support through the Palestinian Authority. Some agencies have also said that the range of areas covered by the mechanism should be wider than health, utilities and basic social support. The Government's view is that the mechanism has already proved its ability to ensure that basic services continue in very difficult circumstances in Gaza. Further support to ensure the continuation of essential health services throughout the Occupied Palestinian Territories is expected to begin shortly. The Government will keep the mechanism, and the best ways for supporting the Palestinian people, under close review.

Dr. Starkey: To ask the Secretary of State for International Development (1) which British *(a)* aid agencies and *(b)* other British organisations have made representations to his Department on the suspension of British aid to the Palestinian Authority; and which (i) supported and (ii) opposed the suspension of aid; [88493]

(2) what discussions his Department has had with British aid agencies working in Occupied Palestine on the suspension of direct British aid to the Palestinian Authority. [88494]

Hilary Benn: DFID is in regular contact with British aid organisations about the Occupied Palestinian Territories. Since Hamas' victory in the Palestinian Legislative Council elections in January, we have had meetings with representatives of Welfare Association, World Vision, Oxfam, Christian Aid, Interpal, War on Want, Medical Aid for Palestinians and Save the Children.

The agencies attending these meetings all shared the Government's concern about the humanitarian situation and shared our view that humanitarian support to the Palestinian people should continue. The agencies also expressed concern that direct aid to the Palestinian Authority should not be suspended. We explained the UK Government's commitment to do all we can to support the Palestinian people. We also explained that DFID could not support a government when that government was committed to violence, terrorism and the destruction of Israel.

Parliamentary Questions

Mr. Amess: To ask the Secretary of State for International Development how many parliamentary questions tabled to his Department were awaiting a reply on 10 July 2006; which of those had been waiting longer than *(a)* two and *(b)* three weeks for a reply; and what the reason for the delay was in each case. [85208]

Mr. Thomas: No questions tabled to DFID were still awaiting a reply as of 10 July. As of that date, 3,153 parliamentary questions had been tabled to DFID during the current parliamentary Session.

The Department endeavours to ensure that Members receive a substantive response to their named day question on the named day and also to provide answers to ordinary written questions within a working week of being tabled.

Security Passes

Simon Hughes: To ask the Secretary of State for International Development how many security passes have been reported *(a)* lost and *(b)* stolen by staff in his Department in each year since February 2004. [88554]

Mr. Thomas: The number of passes lost and stolen since February 2004 is as follows:

	Lost	*Stolen*
February 2004-January 2005	30	0
February 2005-January 2006	50	5
February 2006 to date	25	0

Statutory Instruments

Mr. Amess: To ask the Secretary of State for International Development on what occasions a statutory instrument sponsored by his Department has been reported by the Joint Committee on Statutory Instruments as defective since October 2005. [85190]

Hilary Benn: None.

Reports from the Joint Committee on Statutory Instruments contain full details of the statutory instruments which they have reported.

Sudan

Andrew George: To ask the Secretary of State for International Development what assessment he has made of whether international donors have met pledges to provide aid in Darfur. [88613]

Hilary Benn: The current UN appeal seeks $801 million (mostly for humanitarian assistance) for Darfur to cover the period up to 31 December 2006. So far, $345 million has been pledged by donors, and the bulk of these pledges have been met. A significant element of the £49 million provided by DFID to the Common Humanitarian Fund, covering the whole of Sudan, will be channelled to Darfur.

The signing of the Darfur Peace Agreement in May has enabled work to begin on identifying the region's longer-term recovery and development needs. An assessment team is currently in Darfur, and will present a report to donors at a conference due to be held in The Hague later in the year. Donors will be able to pledge further financial support at this meeting.

Tropical Storm Bilis

Mark Simmonds: To ask the Secretary of State for International Development what assessment he has made of the impact on developing countries in the region of tropical storm Bilis. [88415]

Mr. Thomas: DFID has been monitoring the situation closely, and has been prepared to respond if necessary. There has not been any request for international assistance and needs are being met by the affected countries' governments and local response arrangements.

Tsunamis

Andrew George: To ask the Secretary of State for International Development what steps his Department has taken to assist countries affected by the tsunami in the Indian Ocean in December 2005 in preparations to minimise the damage of future tsunamis. [88791]

Mr. Thomas: Following the tsunami in December 2004, DFID set aside £7.5 million of its humanitarian assistance to support disaster risk reduction (DRR) activities in the affected region.

DFID is currently considering:

support to DRR capacity building in Indonesia and Sri Lanka;

support to the UN-International Strategy for Disaster Reduction and UNESCO/Intergovernmental Oceanographic Commission co-ordinated Indian Ocean Tsunami Early Warning System (IO-TEWS) programme and

support to efforts by the UN Framework Convention on Climate Change to strengthen capacity in climate change adaptation planning in Asia.

UK Aid Expenditure

Mr. Stephen O'Brien: To ask the Secretary of State for International Development what the UK aid expenditure was on *(a)* acute diarrhoeal illness, *(b)* acute lower respiratory infections, *(c)* child health, *(d)* HIV/AIDS, *(e)* malaria, *(f)* poor nutrition, *(g)* reproductive and maternal health, *(h)* tuberculosis and *(i)* vaccine preventable diseases in (i) 2004-05 and (ii) 2005-06; and what such spending is estimated to be for (A) 2006-07 and (B) 2007-08. [88372]

Mr. Thomas: It is not possible, to disaggregate UK aid expenditure by disease category or sub-sectors areas such as child health or reproductive and maternal

health. DFID uses a range of different aid instruments to assist developing countries implement their national health plans. UK support ranges from direct budget support to funding delivered through multilateral agencies such as the World Health Organisation (WHO) and UNICEF.

The focus of DFID's work in health is to help countries strengthen their health systems to prevent and mitigate the impact of ill health including communicable diseases. Functioning systems are crucial for effectively tackling diarrhoeal diseases, pneumonia and vaccine preventable disease epidemics as well as HIV, TB and malaria and to deliver child and reproductive health services. With country partners DFID monitors improvements in health outcomes (e.g. reduced child mortality rates) or outputs (more children immunised against measles and fewer cases and deaths) rather than inputs targeting individual diseases. The exception is AIDS, where DFID does monitor spend against a government commitment to spend at least £1.5 billion over the three years 2005-06 to 2007-08.

DFID's overall bilateral spend on the health sector was £363 million in 2004-05 through our country, regional and research programmes. We also provide general Poverty Reduction Budget Support to several developing countries to help build basic services. Some of this funding goes on health services, but is not captured within our sector specific spending figures which therefore somewhat underestimate our overall bilateral contribution to improving health in developing countries. In addition to our bilateral assistance we provided a further £110 million in 2004-05 for health through multilateral assistance including to the WHO and other UN agencies.

We are also supporting a number of innovative financing mechanisms to increase resources to tackle communicable diseases. For example, the International Finance Facility for Immunisation will raise an additional £4 billion from a number of donors for vaccines for the Global Alliance on Vaccines and Immunisations and help support the development of new vaccines for communicable diseases that can be prevented.

The specific spend on communicable diseases, other than AIDS, in 2004-05 was £80 million (out of the £363 million). Recording AIDS-specific expenditure requires careful analysis because there are a range of sectors which have an impact on the epidemic, including health, education, social development and good governance. There are also a range of instruments used to channel AIDS-related development spending. DFID has been working with the Joint United Nations Programme of HIV/AIDS (UNAIDS) and others to review and improve these expenditure calculations. While refinements to the methodology are still in progress DFID has reported a provisional bilateral expenditure of £350 million on AIDS for the period 2004-05.

Expenditure data for 2005-06 by sector will not be released until the autumn and expenditure forecasts for 2006-07 and 2007-08 will be subject to the direction of DFID country programming in response to the 2006 White Paper and the revised Health Strategy under preparation.

World Food Programme (Kenya)

Mr. Drew: To ask the Secretary of State for International Development if he will take urgent steps to tackle the situation facing the World Food Programme in Kenya; and if he will make a statement. [88265]

Hilary Benn: We share the World Food Programme's assessment that despite improved rains, food security remains poor among some communities in particular in northern and eastern Kenya—the same areas affected by drought in 2005. In many parts of northern Kenya rains were again below normal and drought conditions persist, resulting in continuing humanitarian needs in these areas. Rates of acute malnutrition remain very high—well above the emergency threshold.

The UK is the second largest bilateral donor in the response (after the US). The UK's total contribution in response to the drought in Kenya since December 2005 is £22.2 million spent on food aid, water supplies and emergency health. Of this, £12.5 million has been channelled through the World Food Programme (WFP). I am considering further contributions and at the same time urging other donors to make contributions.

DFID is also working with the Government of Kenya and others to tackle the underlying causes of the persistent food crises affecting Kenya. The Government of Kenya with our support is developing a hunger safety net programme that aims to tackle chronic hunger in the long term.

CULTURE, MEDIA AND SPORT

Arts Council (Jazz Funding)

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to the oral Answer to the hon. Member for Waveney (Mr. Blizzard) of 24 April 2006, *Official Report*, column 351, on Arts Council (Jazz Funding), what assessment her Department has made of the impact of the rescheduling of jazz music on Smooth FM on the listenership of that genre; and if she will make a statement. [89097]

Mr. Lammy: Such an assessment does not fall within the remit of my Department.

Community Development Fund

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what plans she has to extend the Community Development Fund beyond its initial three year period. [88893]

Mr. Caborn: £60 million was available for the Community Club Development Programme in the three-year period 2003-06. An additional £40 million is available for the period 2006-08.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much has been allocated in grants from the Community Development Fund; and which sports have received an allocation. [88894]

Mr. Caborn: £60.1 million has been committed to date to the support of 1,018 sports facilities projects through the Community Club Development Programme (CCDP).

Sports benefiting from CCDP in the period 2003-06 include: cricket, football, tennis, rugby football league, rugby football union, netball, rowing, swimming, badminton, cycling, canoeing, gymnastics, judo, basketball, hockey, and table tennis. A further three sports will be eligible to receive CCDP from 2006/07: boxing, golf and squash.

Departmental Staff (Sickness Absence)

David Simpson: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 5 June 2006, *Official Report*, column 131W, on Departmental Staff, how many staff in her Department have had two or more periods of sick leave of less than five days in two or more of the last three years. [84029]

Mr. Lammy: My department had 89 members of staff who had two or more periods of sick leave of less than five working days in two or more of the last three years.

Digital Switchover

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what guidance she has issued on digital switchover for landlords and local authorities; and if she will include information on integrated reception systems in future guidance to landlords. [87822]

Mr. Woodward: We wrote to all local authorities, registered social landlords and a number of representative bodies, including those representing private sector landlords and house builders in June 2004 alerting them to Digital Switchover. We wrote again to local authorities in January 2006. An electronic version of both letters is available on www.digitaltelevision.gov.uk, a copy of each has been placed in the Library.

In 2005 we published "Digital Switchover: A Good Practice Briefing Special" in association with the Chartered Institute of Housing replacing an earlier booklet published by DCMS in December 2001. The Good Practice Briefing describes the implications of digital switchover for private and social sector landlords giving clear, objective advice on the various options available including integrated reception systems. It has been circulated widely to housing sector professionals by DCMS and the Chartered Institute of Housing, by other housing representative bodies and by Digital UK. An electronic version is available on www.digitaltelevision.gov.uk. I am arranging for copies to be placed in the Libraries of both Houses.

Disabled Staff

Danny Alexander: To ask the Secretary of State for Culture, Media and Sport how much was paid to her Department from the Access to Work Scheme for adjustments for disabled staff in the last year for which figures are available; from what budget she plans to meet the costs of reasonable adjustments for disabled staff following withdrawal of Access to Work funding for central Government departments; and if she will make a statement. [89008]

Mr. Lammy: The Department for Culture, Media and Sport was paid £7,603.90 from the Access to Work scheme in the 05-06 financial year. Following withdrawal of Access to Work funding for central Government departments, the cost of reasonable adjustments for disabled staff will be met centrally by the Department.

Fishing Licences

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how many fishing licences were granted in *(a)* London and *(b)* each London borough in each year since 1997. [87253]

Mr. Bradshaw: I have been asked to reply.

Rod fishing licences are issued by the Environment Agency.

Historically, the agency has not analysed sales of these licences by Government Office Region or by borough. However, there were 41,584 rod licence holders resident in London in 2005. Some of these will have purchased more than one licence.

London Olympics

Lyn Brown: To ask the Secretary of State for Culture, Media and Sport what training is being provided to enable local people to gain access to construction jobs created by the Olympic developments; what steps she has taken to encourage contractors to provide *(a)* jobs and *(b)* apprenticeships for local people; and if she will make a statement. [88210]

Mr. Caborn: ConstructionSkills, the Sector Skills Council for the construction industry, has established a special team—Constructing London 2012—to deliver locally available construction skills to build the Olympic and Paralympic infrastructure. It will work with partners to recruit and train local people, ensuring that building the infrastructure provides sustainable skills and job opportunities for people resident in east London through a range of newly targeted initiatives. A detailed Plan is currently being developed.

The Construction National Skills Academy, due to be launched during the last quarter of 2006 will have a significant impact on developing construction skills for the Olympic infrastructure, and other London-based construction projects. One of its first on-site centres is likely to be in the Thames Gateway/ Olympics area.

The London 2012 Employment and Skills Taskforce (LEST) was commissioned by the Mayor

and Government to produce an action plan aimed at helping Londoners benefit from the jobs and skills opportunities created by the London Games. This will be finalised in the autumn but Jobcentre Plus has already placed 15 people into jobs at the Olympic site and are discussing a further 200 vacancies with the two contractors so far engaged. These should arise over the next 12 to 18 months.

The Olympic Delivery Authority's draft Procurement Policy sets out the overall framework and values guiding the ODA and its Delivery Partner's approach to procurement The draft Policy states the ODA's commitment to requiring its contractors and subcontractors to operate with a commitment to a competent workforce, and its desire to work with the appropriate sector skills councils to provide a legacy of a trained and motivated workforce for the future.

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what steps are being taken to redirect sewerage services at the site of the Olympic Park and the Lea Valley area during the Olympic and Paralympic Games. [88510]

Mr. Caborn: DEFRA are currently leading work to consider options for intercepting intermittent sewage discharges into the Thames, including developing a package of measures to protect the Olympic Park when the Olympic and Paralympic Games take place in 2012.

Online Gambling

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport (1) what action the Government can take against online gambling companies permitted by the whitelist to advertise in the UK who breach the licensing objectives of the Gambling Act 2005; and if she will make a statement; [89130]

(2) what criteria will be used to establish the whitelist of countries overseas from which online gambling establishments based in their jurisdiction may advertise in the UK; and if she will make a statement. [89131]

Mr. Caborn: Section 331 of the Gambling Act prohibits any gambling operator based outside the European Economic Area or Gibraltar from advertising in the UK unless a specific exemption has been made for that jurisdiction under sub-section 331(4). My Department will begin consulting on the criteria for making an exemption shortly.

Should it become apparent that gambling regulation by a jurisdiction which has been specified under sub-section 331(4) of the Act is failing to meet the standards set by the Gambling Act, the Secretary of the State has the power to remove this exemption.

Swimming Pools

Lynne Featherstone: To ask the Secretary of State for Culture, Media and Sport how many chlorinated public swimming pools there were in each *(a)* London borough and *(b)* constituency in each of the last five years; and if she will make a statement. [87330]

Mr. Caborn: We do not hold specific information on numbers of chlorinated public swimming pools. However, the numbers of public swimming pools by London borough in each of the last five years is shown in the following table. The ISRM advise that all pools must provide some form of residual disinfection in the pool water to protect bathers against the risk of cross-infection. The UK is not alone in using chlorine for this purpose. It is probably the most effective disinfectant in water and this is the reason it is used throughout the world, not only in swimming pools, but also in drinking water supplies. However, many swimming pools do use supplementary forms of treatment to enhance the disinfection process, such as ozone and UV.

		Of which "x" built in				
London borough	*Total number of pools*	*2001*	*2002*	*2003*	*2004*	*2005*

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how many swimming pools there were in each London borough in each year from 1998 to 2004. [87414]

Mr. Caborn: We do not hold the requested information on the number of pools in each London borough from 1998-2003.

However, we do have a figure for the numbers of pools in each London borough for 2004 through the Active Places database. This information is shown in the table. The information includes swimming pools provided by public and private operators.

Number of pools by London borough in 2004

	Total
Barking and Dagenham	8
Barnet	22
Bexley	11
Brent	8
Bromley	27

Number of pools by London borough in 2004

UK School Games

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what evaluation procedures are planned in respect of the delivery of the UK School Games by the Youth Sports Trust; and if she will make a statement. [88895]

Mr. Caborn: The selection of an operator to organise the UK School Games for 2006 and for 2007-11, and the subsequent grant of National Lottery money was a matter for the Millennium Commission. In my capacity as Chair of the Commission, I will write to you on this matter and arrange for copies of my reply to be placed in the Libraries of both Houses in due course.

DUCHY OF LANCASTER

Civil Contingencies Act

Mr. Walker: To ask the Chancellor of the Duchy of Lancaster how many local authorities have complied fully with the obligations contained in the Civil Contingencies Act 2004; and if she will make a statement. [87902]

Edward Miliband: Part 1 of the Civil Contingencies Act 2004 establishes a statutory framework for civil protection arrangements at the local level. Responders were given a six-month implementation period to put arrangements in place before the bulk of the duties came fully into force on 14 November 2005. The Act sets out clear roles and responsibilities for local responders (including local authorities) establishing a basis for effective performance assessment.

The performance of responders against the requirements set out in the Act is assessed through their existing mainstream performance assessment

frameworks. English local authorities' performance is assessed by the Audit Commission through the comprehensive performance assessment (CPA) process. The performance of local authorities in Wales is assessed by the Wales Audit Office.

The Scottish Executive is responsible for making regulations and issuing guidance, under the Act, to local authorities in Scotland. In Northern Ireland, local authorities are subject to the non-statutory 'Northern Ireland Civil Contingencies Framework'.

Deputy Prime Minister

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster what the total cost was of the Deputy Prime Minister's *(a)* private office and *(b)* Central Policy Group within the Cabinet Office in 2001-02. [83030]

Hilary Armstrong: Support arrangements for Ministers include Private Secretaries, Special Advisers and Parliamentary Branch. The costs of individual Ministers' private offices are not separately identifiable, on my department's accounting system, from the overall support costs.

The total support costs for all Cabinet Office Ministers in 2001-02 were £2,180,503. This period includes the General Election held in June 2001 and the machinery of government changes which followed. The total cost therefore includes support for three Ministers' offices to June 2001, and the Deputy Prime Minister and four additional ministers (one of whom, the Minister without Portfolio, was unpaid) following the General Election. These figures are therefore not representative of the typical annual running costs of Ministers' private offices.

In addition to this, the total cost in 2001-02 of the Central Policy Group, from its foundation following the 2001 General Election, was £490,932.

Both figures include staff pay costs and general office expenditure such as staff travel costs, IT related spend and office equipment costs.

IT Contracts

Mr. Weir: To ask the Chancellor of the Duchy of Lancaster what the value was of each IT contract awarded by the Prime Minister's Office in each of the last five years; and who the contractor was in each case. [88980]

Mr. McFadden: The Prime Minister's Office is an integral part of the Cabinet Office. The information for the Department cannot be produced in the form requested without incurring disproportionate cost. However, I refer the hon. Member to the reply I gave to the hon. Member for Eastleigh (Chris Huhne) on 6 June 2006, *Official Report*, column 545W.

Mr. Weir: To ask the Chancellor of the Duchy of Lancaster which IT contracts awarded by the Prime Minister's Office in each of the last five years have been abandoned; and what the value was in each case. [88981]

Mr. McFadden: I refer the hon. member to the answer given to my right hon. Friend the Member for Oldham, West and Royton (Mr. Meacher) on 5 October 2005, *Official Report*, column 2773W, and the pursuant reply on 2 February 2006, *Official Report*, column 667W.

Official Residence

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster what plans the Government have for the two empty official residences at Admiralty house; and what the estimated *(a)* capital and *(b)* rental value is of each of the two flats. [86897]

Hilary Armstrong: There is currently one flat vacant at Admiralty house. A decision on its allocation will be taken in due course.

For information on the capital and rental value of the property, I refer the hon. Member to the answer given to the hon. Member for North East Hertfordshire (Oliver Heald) on 24 January 2005, *Official Report*, column 136W.

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster how much the Office of the Deputy Prime Minister paid to the Cabinet Office for the official residence of Deputy Prime Minister in Admiralty House in 2005-06 *(a)* in total and *(b)* to cover the cost of (i) rent, (ii) security, (iii) utilities, (iv) facilities management and (v) general maintenance. [85664]

Edward Miliband: The Office of the Deputy Prime Minister paid £173,268 to the Cabinet Office in 2005-06 to cover the cost of rent, security, utilities, facilities management and general maintenance for the official residence of the Deputy Prime Minister in Admiralty House.

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster how many full-time equivalent staff provide maintenance to the Deputy Prime Minister's official residence under the Cabinet Office contract for the maintenance of Admiralty House. [85665]

Edward Miliband: Admiralty House is one of a number of buildings in London covered by the Cabinet Office's Total Facilities Management contract. Maintenance of all buildings is carried out by a team of 11 engineers, and agency and specialist sub-contractors as required, in accordance with the Output Specification. There are no engineers specifically dedicated to the maintenance of the Deputy Prime Minister's official residence in Admiralty House.

Post Offices

Mr. Davey: To ask the Chancellor of the Duchy of Lancaster when the Deputy Prime Minister will be chairing the first meeting of the Cabinet Committee on Post Offices; and if she will make a statement. [88330]

Hilary Armstrong: Information relating to the proceedings of Cabinet Committees, including when they meet, is generally not disclosed as to do so could harm the frankness and candour of internal discussion.

A list of Cabinet Committees, including the membership and terms of reference of the Ministerial Committee on the Post Office Network (MISC33), is available in the Library for the reference of Members.

Year of the Volunteer

Mr. Andrew Turner: To ask the Chancellor of the Duchy of Lancaster how the £7 million allocated by the Chancellor to the Year of the Volunteer was spent; and what the measurable outcomes of the funding were. [83471]

Edward Miliband *[holding answer 10 July 2006]:* Grants totalling £7.1 million for the England-wide Year of the Volunteer 2005 were made by the Home Office directly to organisations in the Voluntary and Community Sector, who were responsible for the delivery of the Year. The table shows how much grant was paid to each organisation, and for what purpose. The Year of the Volunteer involved over 3,000 events across the country, 12 themed months promoting different types of volunteering and a very significant media campaign to raise awareness of volunteering overall. An independent Delivery Review, conducted by GFK NOP Social Research and published in April, showed that over a quarter of all adults in England were aware of the year, over 2.2 billion minutes were pledged by the public for volunteering (well exceeding the 1 billion minutes target) and over a third of a million people visited the website. The Year brought together new partners to promote volunteering, including contributions of an additional £2 million worth of free media. The third sector, private sector and Government have built on the success of the year with initiatives such as the continuation of Environmental Volunteering Month in May, and a new Volunteering for All Programme.

Grants made by the Home Office during the Year of the Volunteer 2005

Home Office investment into YV05	*Purpose of Grant*	*Amount invested by the Home Office (£)*
Community Service Volunteers	Principal Voluntary Sector partner delivering a range of activities, events, promotional materials and press and media coverage	1,000,000
Community Service Volunteers	To deliver a government employee volunteering scheme	500,000
Volunteering England	Principal Voluntary Sector partner working with a consortium to deliver a range of activities, events, promotional materials and press and media coverage	1,000,000
Volunteering England	To increase the capacity of local volunteer centres throughout England	3,000,000
Volunteering England	Small grants programme for other stakeholders who can contribute to achieving the objectives of YOV 2005	250,000
Marketing/Communications Support	Research and branding, publicity, partnership marketing and the YOV 2005 website www.yearofthevolunteer.org	250,000
Website and YOV 2005 evaluation support	To develop and enhance www.yearofthevolunteer.org and manage project evaluation	100,000
Media Trust	For high-profile, multi-media consumer marketing campaign which aims to supercharge the year, raise awareness of volunteering and drive registrations of new volunteers.	1,000,000
Total		7,100,000

SCOTLAND

Departmental Publications

Mr. Amess: To ask the Secretary of State for Scotland if he will list in date order the *(a)* Green and *(b)* White Papers produced by his Department since October 2005. [81647]

David Cairns: The Scotland Office published one Command Paper between October 2005 to date: Command No. 6834 Departmental Report, published on 24 May 2006.

Mr. Amess: To ask the Secretary of State for Scotland if he will list the unnumbered command papers produced by his Department in each session since 1976; how *(a)* hon. Members and *(b)* members of the public can (i) inspect and (ii) obtain copies; and if he will make a statement. [81650]

David Cairns: The Scotland Office was established on 1 July 1999.

Documents which are laid before Parliament as Unnumbered Command Papers are generally restricted to Explanatory Notes to Treaties, Explanatory Memorandum to Statutory Instruments and some Treasury Minutes. All other documents are published in the Numbered Command Papers series.

Copies of the Office's Explanatory Memoranda to Statutory Instruments are, as is the usual practice, made available via the Vote Office.

Disabled Staff

Danny Alexander: To ask the Secretary of State for Scotland how much was paid to his Department from the Access to Work Scheme for adjustments for disabled staff in the last year for which figures are available; from what budget he plans to meet the costs

of reasonable adjustments for disabled staff following withdrawal of Access to Work funding for central Government departments; and if he will make a statement. [89004]

David Cairns: The Scotland Office has received no funding under this scheme.

Information Technology

Mr. Weir: To ask the Secretary of State for Scotland how many *(a)* USB (i) flash drives and (ii) memory sticks, *(b)* compact discs, *(c)* DVD-ROM discs, *(d)* laptop computers, *(e)* external computers hard drives, *(f)* internal computer hard drives and *(g)* desktop computers were purchased for use in his Department in each month since March 2005. [88763]

David Cairns: The Scotland Office does not collect this information in the form requested.

Mr. Weir: To ask the Secretary of State for Scotland (1) what the value was of each IT contract awarded by his Department in each of the last five years; and who the contractor was in each case; [88976]

(2) which IT contracts awarded by his Department in each of the last five years have been abandoned; and what the value was in each case. [88979]

David Cairns: I refer the hon. Member to the Answer I gave to the hon. Member for Eastleigh (Chris Huhne) on 4 July 2006, *Official Report*, column 939W.

Parliamentary Questions

Mr. Amess: To ask the Secretary of State for Scotland how many parliamentary questions tabled to his Department were awaiting a reply on 10th July 2006; which of those had been waiting longer than *(a)* two and *(b)* three weeks for a reply; and what the reason for the delay was in each case. [85195]

David Cairns: As at 25 July, one outstanding Scotland Office parliamentary question remained to be answered. It is an 'ordinary' written reply for 24 July and will be answered at the earliest opportunity.

Questionnaires

Mr. Amess: To ask the Secretary of State for Scotland how many *(a)* questionnaires, *(b)* statistical inquiries and *(c)* investigations have been carried out, wholly or partly at public expense on behalf of or by his Department in each year since 1997; and what the (i) nature, (ii) purpose and (iii) cost was of each. [83162]

David Cairns: The Scotland Office was established in July 1999 and has executive responsibility for the conduct of elections to the Scottish Parliament and the handling of legislation under the Scotland Act 1998. To date, this Office has not issued any questionnaires or carried out statistical inquiries or investigations.

Statutory Instruments

Mr. Amess: To ask the Secretary of State for Scotland on what occasions a statutory instrument sponsored by his Department has been reported by the Joint Committee on Statutory Instruments as defective since October 2005. [85177]

David Cairns: Reports from the Joint Committee on Statutory Instruments contain full details of the statutory instruments which they have reported.

LEADER OF THE HOUSE

Northern Ireland Members

David Simpson: To ask the Leader of the House if he will bring forward proposals to impose the same financial penalties on any hon. Members from Northern Ireland constituencies who do not take their seats as will be imposed upon members of the Northern Ireland Assembly with effect from 25 November 2006. [88338]

Mr. Straw: There are no plans to impose financial penalties on Members representing Northern Ireland constituencies who do not take their seats. The Northern Ireland Act 2006 provides for the dissolution of the Northern Ireland Assembly and the indefinite postponement of the next Assembly elections if an Executive has not been formed by 25 November 2005. In these circumstances, it would not be appropriate for members of the Northern Ireland Assembly to continue to receive salaries and allowances.

Parliamentary Questions

Mr. Harper: To ask the Leader of the House how many parliamentary questions tabled and due for answer were still awaiting a substantive reply at 25 July 2006. [87957]

Mr. Straw: None.

Anne Main: To ask the Leader of the House if he will take steps to ensure that the drafting of answers to parliamentary questions in Government Departments is undertaken by officials with direct responsibility for the subject matter. [88783]

Mr. Straw: However they are drafted, Ministers are responsible for answers given.

Departments must ensure that the answers to questions abide by the terms of the Ministerial Code and the guidance issued in respect of the accuracy of answers.

I therefore have no plans to issue guidance on the administrative arrangements for the preparation of answers to parliamentary questions, which must remain a matter for each Minister and his or her Department.

HOUSE OF COMMONS COMMISSION

Accommodation

Mr. Dismore: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answer of 17 July 2006, *Official Report*, column 8W, on accommodation, why the houses are structurally unsuitable for use as offices. [87140]

Nick Harvey: The houses are unsuitable for use as offices because the floor loading capacity is inadequate, there is limited fire protection with no secondary means of escape and there are no facilities for disabled access. The buildings are also tall and narrow, resulting in limited accommodation on each floor. It is furthermore unlikely that the necessary listed building consent would be given for the extensive physical alterations which would be required for conversion to office use.

Mail Delivery

Mr. Hancock: To ask the hon. Member for North Devon, representing the House of Commons Commission what recent research the Commission has *(a)* commissioned and *(b)* evaluated on the length of time it takes for mail to reach hon. Members' and hon. Members' staffs offices after arriving on the Palace of Westminster estate; and if he will make a statement. [88184]

Nick Harvey: After mail arrives at the Palace of Westminster it is delivered to Members offices' within the parliamentary estate on the day it arrives. Alternatively it is forwarded by the Royal Mail Special Delivery service to constituency offices to arrive the next working day by 1 pm. The next day service is guaranteed and is tracked and traced throughout its entire journey.

Passholders

Mr. Andrew Turner: To ask the hon. Member for North Devon, representing the House of Commons Commission how many passholders are non-UK citizens, broken down by nationality. [87303]

Nick Harvey: 280 House of Commons passholders are non-UK citizens, covering over 90 nationalities, including dual and multiple nationalities. 71 of these are UK citizens with other nationalities. Hon. Members are not included, because they are not required to complete a pass application form. A full list of nationalities and the numbers for each nationality has been placed in the Library of the House.

Recycled Waste

Sarah Teather: To ask the hon. Member for North Devon, representing the House of Commons Commission how much waste generated by the House was recycled in each year since 1997, broken down by category of waste. [87630]

Nick Harvey: Data on waste began to be collected in April 2002 and no data are available prior to this date. The annual waste data from April 2002 to March 2006 are given in the table.

Annual total waste from 2002-03 to 2005-06

	2002-03		*2003-04*		*2004-05*		*2005-06*	
	Total (kg)	*Percentage of waste recycled*	*Total (kg)*	*Percentage of waste recycled*	*Total (kg)*	*Percentage of waste recycled*	*Total (kg)*	*Percentage of waste recycled*
Paper and Cardboard	390,390	13.0	379,080	16.3	393,615	20.5	539,578	24.0
Glass	252,850	8.4	173,100	7.5	152,800	8.0	182,760	8.1
Metal	45,700	1.5	50,420	2.2	6,120	0.3	77,620	3.5
Oil	8,030	0.3	4,140	0.2	6,360	0.3	12,212	0.5
Fluorescent Tubes	702	0.0	553	0.0	757	0.0	1,276	0.1
Sodium Lamps	1,016	0.0	393	0.0	880	0.0	1,284	0.1
Light Fittings	38	0.0	270	0.0	0	0.0	0	0.0
Other Items	0	0.0	360	0.0	705	0.0	6,631	0.3
Waste not recycled	2,068,220	—	1,710,570	—	1,355,272	—	1,430,319	—
Annual total	2,766,946	25.3	2,318,886	26.2	1,916,509	29.3	2,251,680	36.5

Note: All total figures are in kilograms. 1,000 kilograms = 1 tonne.

Smoking

David Taylor: To ask the hon. Member for North Devon, representing the House of Commons Commission what recent discussions he has had with House authorities on the implementation of Smokefree Regulations in the Palace of Westminster in 2007; and if he will make a statement. [87420]

Nick Harvey: I understand that the Administration Committee has had a preliminary discussion about the application of the principles of the smoking provisions in the Health Bill to the parliamentary estate, and that

it will consider the matter further in the autumn in the light of the draft regulations recently published by the Department of Health. The Commission awaits the Administration Committee's advice.

St. David's Day

Mark Williams: To ask the hon. Member for North Devon, representing the House of Commons Commission whether the Refreshment Department plans to *(a)* hold a Welsh Cheese Week and *(b)* serve Welsh dishes and products in the cafeterias and Members' Dining Room at Westminster on St. David's Day in 2007; and if he will make a statement. [88855]

Nick Harvey: The Refreshment Department does not usually mount food promotions to coincide with all the national saints' days of the countries making up the UK, but normally celebrates at least one of them each year. Regional food promotions may also be mounted at other times of the year. No decision has yet been taken on such promotions in 2007.

Written Answers to Questions

The following answers were received between Wednesday 26 July and Friday 1 September 2006

COMMUNITIES AND LOCAL GOVERNMENT

Advertising Campaigns

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government what advertising campaigns the Department ran between 2000 and June 2004; and what the *(a)* date and *(b)* cost was of each. [87066]

Meg Munn: The Department for Communities and Local Government was established on 12 March 2006 and its predecessor, the Office of the Deputy Prime Minister, was established on 29 May 2002. Advertising figures before that can be provided only at disproportionate cost.

In 2002-03 the advertising spend was £3.4 million on fire safety running throughout the year.

In 2003-04 the advertising spend was £4.4 million of this sum—£2.9 million was spent on fire safety running in September, February and March and £1.5 million was spent on Elected Regional Assemblies running in June and July.

Arm's Length Management

Mr. Hands: To ask the Secretary of State for Communities and Local Government what plans she has to reform arm's length management organisations. [88223]

Yvette Cooper: The review of Arms Length Management Organisations (ALMOs) and a statement, "From Decent Homes to Sustainable Communities" were published on 7 June. The documents examined how ALMOs could build on the success of their delivery of decent homes and set out the Department's view on the long-term future of ALMOs within the broader social housing context. The statement invites views on the emerging initiatives and ideas raised in the documents by 15 September 2006.

Mr. Rogerson: To ask the Secretary of State for Communities and Local Government what the average rents were in council-owned housing stock in each local authority in each year since 1990, including where the management of the stock has been transferred to an arm's length management organisation. [83375]

Yvette Cooper: A table showing average local authority rents for the years 1995-96 to 2004-05 inclusive has been placed in the House Library. Information for earlier years is available only at disproportionate cost.

Ballpoint Pens

Mr. Hands: To ask the Secretary of State for Communities and Local Government how much the Office of the Deputy Prime Minister spent on ballpoint pens with Office of the Deputy Prime Minister branding; and how many were ordered. [88400]

Meg Munn: The then Office of the Deputy Prime Minister spent a total of £3,450 on 20,000 ballpoint pens with Office of the Deputy Prime Minister branding.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much the Office of the Deputy Prime Minister spent in the last 12 months on pens marked with the "Office of the Deputy Prime Minister" title. [86935]

Meg Munn: The then Office of the Deputy Prime Minister spent £1,900 on pens marked with "Office of the Deputy Prime Minister" in the 12 months to the 5 May 2006.

Brownfield Land

Bob Russell: To ask the Secretary of State for Communities and Local Government what her definition is of brownfield land for planning purposes; and if she will make a statement. [86163]

Yvette Cooper *[holding answer 18 July 2006]:* The definition for brownfield land is currently set out in Annexe C to Planning Policy Guidance Note 3 —Housing. This says that:

"Previously-developed land is that which is or was occupied by a permanent structure (excluding agricultural or forestry buildings), and associated fixed surface infrastructure[1]. The definition covers the curtilage of the development[2]. Previously-developed land may occur in both built-up and rural settings. The definition includes defence buildings and land used for mineral extraction and waste disposal[3] where provision for restoration has not been made through development control procedures[4].

The definition excludes land and buildings that are currently in use for agricultural or forestry purposes, and land in built-up areas which has not been developed previously (e.g. parks, recreation grounds, and allotments—even though these areas may contain certain urban features such as paths, pavilions and other buildings). Also excluded is land that was previously developed but where the remains of any structure or activity have blended into the landscape in the process of time (to the extent that it can reasonably be considered as part of the natural surroundings), and where there is a clear reason that could outweigh the re-use of the site—such as its contribution to nature conservation—or it has subsequently been put to an amenity use and cannot be regarded as requiring redevelopment."

The definition is based on the Land Use Change Statistics classification (LUCS) introduced in 1985.

In December last year we published draft PPS 3, which is designed to update planning for housing policy. Annexe A of draft PPS 3 proposes some clarificatory changes to the definition of previously developed land. We are currently considering representations that were received to the consultation on draft PPS3, and are due to publish final PPS 3 later in the year.

Cantxx

Mr. Wallace: To ask the Secretary of State for Communities and Local Government whether *(a)* she has and *(b)* Ministers in her Department have received official hospitality from Cantxx Ventures Ltd. and Cantxx UK and its associated companies in the last four years. [85273]

Meg Munn: Neither the Secretary of State for Communities and Local Government, or any Minister in her Department has received official hospitality from Cantxx Ventures Ltd. or Cantxx UK or its associated companies.

Conservation Areas

Jeff Ennis: To ask the Secretary of State for Communities and Local Government how many designated conservation areas there are in *(a)* Barnsley and *(b)* Doncaster. [88378]

Yvette Cooper: The Government do not hold this information centrally. However I understand from the local planning authority that Barnsley has recorded 18 conservation areas and that Doncaster has recorded 46.

Criminal Offences

Mr. Clegg: To ask the Secretary of State for Communities and Local Government how many criminal offences her Department has created by Orders in Council in each year since 1997. [88478]

Angela E. Smith: There have been no criminal offences created in Orders in Council for which the Department for Communities and Local Government is responsible since DCLG was created in May 2006. Nor were any criminal offences created in Orders in Council by its predecessor, the Office of the Deputy Prime Minister, since 2002. It would involve a disproportionate cost to provide details in respect of predecessor Departments for the period before 2002.

Departmental Finance

Andrew George: To ask the Secretary of State for Communities and Local Government what the projected budgets are for each area-based initiative which receives funding from her Department for *(a)* 2006-07, *(b)* 2007-08 and *(c)* 2008-09, broken down by (i) region and (ii) county. [87526]

Mr. Woolas: The Department for Communities and Local Government (DCLG) was established on 5 May 2006 following the machinery of government changes.

The table following sets out the projected budgets by region for the area based initiative programmes sponsored by the former Office of the Deputy Prime Minister which are now administered by DCLG.

The Department does not hold county level data for the full suite of area-based programmes.

The 2008-09 budget allocations will be set following the outcome of the comprehensive spending review 2007.

There is also a budget of £17.7 million in 2006-07 and in 2007-08 for the coalfields regeneration trust, for which a regional breakdown is not currently available.

In addition there is a central support budget of £6.5 million in 2006-07 and a provisional budget of £5.6 million in 2007-08 for new deal for communities.

Andrew George: To ask the Secretary of State for Communities and Local Government how much was *(a)* originally budgeted for 2005-06, *(b)* not spent in 2005-06, *(c)* carried forward to 2006-07 and *(d)* budgeted for 2006-07 for each area-based initiative for which her Department is responsible. [87527]

Mr. Woolas: The Department for Communities and Local Government (DCLG) was established on 5 May 2006 following the machinery of government changes.

The following table sets out the data for the area-based initiative programmes sponsored by the former Office of the Deputy Prime Minister, which are now administered by DCLG.

£ million

Programme	Budget 2005-06 (a)	Under spend on budget 2005-06 (b)	End year flexibility carried on 2005-06 underspend (c)	Budget 2006-07 (d)

Total	198.9	201.6

There was also an expenditure of £17.7 million in 2004-05 and £20.7 million in 2005-06 for the coalfields regeneration trust, for which the regional breakdown is not currently available.

In addition, there was a central support expenditure of £9.7 million in 2004-05 and £6 million in 2005-06 for the new deal for communities programme.

Departmental Staff

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many full-time equivalent staff worked in the private office of the Deputy Prime Minister in 2005-06. [83079]

Angela E. Smith: For information relating to 2005-06, I refer the hon. Member to the answer given by my hon. Friend the then Under-Secretary of State at the Office of the Deputy Prime Minister, the hon. Member for Poplar and Canning Town (Jim Fitzpatrick) on 8 February 2006, *Official Report*, column 1245W.

Disabled Staff

Danny Alexander: To ask the Secretary of State for Communities and Local Government how much was paid to her Department from the access to work scheme for adjustments for disabled staff in the last year for which figures are available; from what budget she plans to meet the costs of reasonable adjustments for disabled staff following withdrawal of access to work funding for central Government Departments; and if she will make a statement. [89015]

Meg Munn: The Department for Communities and Local Government (DCLG) was established on 5 May 2006. Staff now working within DCLG were formerly employed in the Office of the Deputy Prime Minister (ODPM), the Department of Trade and Industry (DTI), and the Home Office.

In 2005-06, £9,278 was paid to the Office of the Deputy Prime Minister from the access to work scheme. To date in 2006-07, no access to work funding has been paid out to this Department, although applications for funds totalling £10,662 have been made. The costs of future reasonable adjustments will be met from departmental resources.

The Office of Disability Issues (ODI) will also be monitoring the overall situation to ensure that there is no detriment to current and future employees who are disabled.

Environmental Regulations

Norman Baker: To ask the Secretary of State for Communities and Local Government what regulatory simplification proposals her Department has received in relation to environmental regulations since the start of the initiative; which stakeholders have been consulted on each proposal; and if she will make a statement. [81029]

Angela E. Smith: The Department for Communities and Local Government have received no simplification proposals in relation to environmental regulations. The Government are continuing to engage with a wide range of stakeholders from the private, public and voluntary sectors as part of a radical programme of reform to reduce unnecessary and burdensome regulation. The Government welcome suggestions from stakeholders for regulatory simplification.

Fire Control Project

John McDonnell: To ask the Secretary of State for Communities and Local Government how much the Department and its predecessors spent on external consultants on the fire control project in each year during the period May 2002 to March 2006. [86801]

Angela E. Smith: Consultants provide a wide range of specialist services and skills to the project. Among the staff they provide are project managers, lawyers, IT specialists, accountants, architects, building engineers, and experts in the property market and in security and resilience. Staff with these skills are not readily available in the civil service.

The following table[1] gives the information requested:

[1] The figures are stated net of reimbursements and exclude costs from within the public sector.

	£
2002-03	0
2003-04	1,524,833
2004-05	9,055,656
2005-06[1]	11,702,057

[1] At the end of 2005-06 the Department clarified its policy in relation to VAT and this resulted in a significant charge to expenditure of VAT that had previously been treated as recoverable.

Fire Service

Mr. Hands: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Brentwood and Ongar (Mr. Pickles) of 16 May 2006, *Official Report*, column 924W, on the fire service, whether armed forces personnel would be required to cross picket lines in the event of a fire strike to collect fire appliances and equipment in order to provide emergency fire and rescue cover. [88251]

Meg Munn: No.

Mr. Laws: To ask the Secretary of State for Communities and Local Government how many firemen *(a)* retired and *(b)* retired on the grounds of ill health, broken down by type of ill health, in each year since 1997. [88442]

Angela E. Smith *[holding answer 25 July 2006]*: The available information is set out in the following tables:

Firefighter retirements in England (whole-time and retained duty system)

	Total retirements	*Of which: ill health retirements*
1998-99	1,306	690
1999-2000	1,294	625
2000-01	1,276	634
2001-02	1,296	497
2002-03	1,529	587
2003-04	1,260	531
2004-05	1,476	348

Type of ill health retirement

(Percentage)

	2001-02	*2002-03*	*2003-04*	*2004-05*

Fire and Rescue Service returns to DCLG

John McDonnell: To ask the Secretary of State for Communities and Local Government what the staffing costs, excluding administrative costs, of its fire service group were in the last five years for which figures are available. [86802]

Angela E. Smith: Since 2002 responsibility for fire services within my Department has been restructured several times and historical figures are not available in the form requested. In 2005-06 the fire service directorate was merged with the civil resilience directorate. The staffing costs (includes pay, temporary agency staff and secondees) for the combined directorate in 2005-06 was £18.5 million.

Fires

Mr. Burstow: To ask the Secretary of State for Communities and Local Government how many *(a)* accidental and *(b)* non-accidental fires were recorded in each London borough in 2005. [88959]

Angela E. Smith: Information provided by the London Fire and Emergency Planning Authority (LFEPA) is tabulated as follows:

Fires attended by the London Fire Brigade in 2005

	Accidental	*Non-accidental*
Barking	655	1,117
Barnet	628	611
Bexley	661	803
Brent	620	447
Bromley	632	1,145
Camden	706	363
City	90	4
Croydon	642	768
Ealing	732	618
Enfield	712	758

Home Condition Reports/Information Packs

Mr. Drew: To ask the Secretary of State for Communities and Local Government what plans she has to issue a format for home condition reports which will standardise that content within home information reports. [85138]

Yvette Cooper: On 14 June 2006, the Department for Communities and Local Government published the standards for certification schemes which set out the form of the Home Condition Report. These can be found on the DCLG website at www.communities.gov.uk. The standards also set out the inspection and reporting requirements that home inspectors must observe.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what advice the information commissioner has provided in relation to the register of home condition reports. [83063]

Yvette Cooper: The Department for Communities and Local Government has had various discussions with the Information Commissioner's office about the home condition report register, and access to it, to ensure that the arrangements comply with data protection and privacy standards.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the timetable is for the publication of further *(a)* guidance and *(b)* circulars on home information packs. [83234]

Yvette Cooper: We expect to set out further information on the dry run and the next steps for market led roll-out of home condition reports with home information packs in the autumn. Further guidance for consumers will follow after that.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether a home information pack will be needed to sell a *(a)* park home and *(b)* mobile home. [85715]

Yvette Cooper: A home information pack will not be required for a park home or mobile home.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what estimate she has made of the average income of a qualified, full-time home inspector. [83042]

Yvette Cooper: The cost of a home condition report will be set by the market. The current cost of a mid-level survey is around £400 plus VAT. A home inspector's income will generally depend on how many inspections they carry out and on the size of the property.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government in what circumstances home inspectors *(a)* may and *(b)* will take photographs as part of their inspection of a property. [83048]

Yvette Cooper: The home condition report does not include photographs. However, the home inspector may, subject to obtaining the home owner's permission, take photographs during the course of an inspection to supplement the site notes which will form the basis of their preparation of the home condition report. This is the current practice of surveyors when undertaking home surveys.

Homelessness

David Taylor: To ask the Secretary of State for Communities and Local Government what plans there are to offer greater protection from homelessness to people living in properties left in trust; and if she will make a statement. [82710]

Yvette Cooper: All trusts must use the properties held by them in accordance with the terms of their trusteeship and these may preclude them from acting in a way that is any different from any commercial landlord. Therefore, like all other tenants, those they let to must rely on the terms of their tenancy agreements.

Mr. Kemp: To ask the Secretary of State for Communities and Local Government how many and what percentage of people in the *(a)* Houghton and Washington, East constituency and *(b)* Sunderland city council area were (i) homeless and (ii) on Sunderland city council's housing waiting list in each year since 1997. [87371]

Yvette Cooper: (i) Information about local authorities' actions under homelessness legislation, which is collected in respect of households rather than persons, is collected quarterly and at local authority level. The parliamentary constituency of Houghton and Washington, East falls entirely within the Sunderland local authority.

The number of households accepted as eligible for assistance, unintentionally homeless and in priority need for each year since 1997-98, and the number of households in temporary accommodation arranged by local authorities under homelessness legislation as at 31 March of each year since 1998, is tabled for the Sunderland local authority. The percentage of total number of households in temporary accommodation is also included.

The duty owed to a person accepted as eligible for assistance, unintentionally homeless and in priority need is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available. As an alternative to the provision of temporary accommodation, some authorities arrange for households to remain in their current accommodation (homeless at home), until a settled solution becomes available.

Information is also collected on the number of people who sleep rough—that is, those who are literally roofless on a single night—and these are also presented in the table.

Number of households in Sunderland (1) accepted as homeless[1] and (2) placed in temporary accommodation, (3) the proportion of total households in temporary accommodation, and (4) the number of rough sleepers

	[1]Number households accepted as homeless	Number of households in TA (31 March snapshot)	[2]Percentage of households in TA/total households	Number of rough sleepers, people, (June estimate)
1997-98	597	72	0.06	n/a
1998-99	632	278	0.2	n/a
1999-2000	n/a	n/a	n/a	0
2000-01	735	880	0.7	0
2001-02	690	1,179	1.0	0
2002-03	791	12	0.01	0
2003-04	894	12	0.01	0
2004-05	597	15	0.01	0
2005-06	593	9	0.01	0

[1] Households found to be eligible for assistance, unintentionally homeless and falling within a priority need group, and consequently owed a main homelessness duty by the local authority.
[2] Based on mid-year estimates of household population.
Sources:
ODPM P1E homelessness returns (quarterly) and HSSA returns (annual)

(ii) Information about housing waiting lists is not collected at constituency level. I refer the hon. Member to the answer given to the hon. Member for Newcastle-upon-Tyne, Central dated 7 November 2005, *Official Report*, columns 1114-16W, in which the number of households on the housing waiting list for Sunderland local authority, and the percentage of total households in the Sunderland local authority area were presented.

Housing

Mr. Clifton-Brown: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 26 June 2006, *Official Report*, columns 139-40W, on house sales, when the Department expects the baseline research to be completed. [82726]

Yvette Cooper: The baseline study on the home buying and selling process will be reporting later on this year.

Mr. Ellwood: To ask the Secretary of State for Communities and Local Government what percentage of homes were built on brownfield sites in *(a)* Bournemouth and *(b)* Dorset (i) between 1997 and 2003 and (ii) since 2003. [86690]

Yvette Cooper: The information available is from the Department's land use change statistics. The estimated percentage of new dwellings built on brownfield land are shown in the following table:

	Bournemouth	Percentage Dorset
1997-2003	94	65
2004	100	67

Damian Green: To ask the Secretary of State for Communities and Local Government what steps she has taken to ensure that new houses built under the sustainable communities programme meet high standards of energy efficiency; and if she will make a statement. [85884]

Meg Munn: The Government are committed to improving energy efficiency standards in all housing. The new buildings regulations part L 2006, taken together with changes to strengthen the building regulations in 2002 and 2005, will improve energy efficiency standards by 40 per cent. from pre-April 2002 levels. The new draft code for sustainable homes will also raise the environmental standard of housing further and will signal the future direction of building regulations.

To achieve the higher levels of housing growth set out in the sustainable communities plan we recognise that new homes must be built in a sustainable way to reduce their environmental impact and carbon footprint. We have already committed around £400 million to the development of the three growth areas and £850 million for the Thames Gateway up to March 2008. This is to deliver on all aspects of a sustainable community, including environmental performance.

Hugh Bayley: To ask the Secretary of State for Communities and Local Government what the average *(a)* cost is of private homes for sale and *(b)* monthly rental is for (i) private homes and (ii) social homes for rent divided by the average net household income of (A) all working age households and (B) households headed by people aged 25 to 40 years in (1) England, (2) Yorkshire and the Humber and (3) each housing local authority area in Yorkshire and the Humber. [87133]

Yvette Cooper *[holding answer 25 July 2006]:* The information is as follows:

(a) Average property prices for the period April 2004 to March 2005 were as follows. More recent prices are available but this period has been chosen for consistency with the answer to part *(b)* for which 2004-05 is the most recent available.

	Average (£)
England	185,312
Yorkshire and Humber	131,718
Local authority area	
Barnsley	106,571
Bradford	112,525
Calderdale	118,801
Craven	182,800
Doncaster	113,026
East Riding of Yorks	148,033
Hambleton	214,700
Harrogate	226,686
Kingston upon Hull	68,965
Kirklees	124,167
Leeds	147,899
North East Lincolnshire	96,670
North Lincolnshire	119,548
Richmondshire	181,443
Rotherham	110,679
Ryedale	200,997
Scarborough	148,377
Selby	167,160
Sheffield	131,689
Wakefield	122,868
York	176,441

Source: Land Registry

(b) For 2004-05, the average net rent expressed as a percent of average disposable income is set out in the following table for:

private renters and social renters;

household reference persons of (i) working age and (ii) aged between 25 and 39;

England and Yorkshire & Humber.

Equivalent figures for individual local authorities are not available.

Average net rent expressed as a percentage of average disposable income, 2004-05

	Private renters	Percentage Social renters
England		
HRP[1] of working age[2]	28	12
HRP[1] between 25 and 39	26	11
Yorkshire and Humber		
HRP[1] of working age[2]	20	10
HRP[1] between 25 and 39	17	10

[1] HRP stands for Household Reference Person (formerly Head of Household)

[2] Working age is 16-64 for male HRPs and 16-59 for female HRPs

Notes:

1. All rents and incomes have been derived from DWP's Family Resources Survey for 2004-05.
2. Disposable income (equivalent to "net income") equals gross income less deductions for income tax and National Insurance contributions.
3. The income measure used was the joint disposable income of the HRP plus partner (if any) and not "household income". This is because, whilst there might be other income earners in the household, the HRP and spouse alone will generally have responsibility for paying the rent—so their joint income was considered to be the more appropriate income measure.
4. The rents used in the calculations were the average rents net of housing benefit (as opposed to gross rents). Net rents were considered more appropriate for comparison with disposable incomes.

Source:

Department for Work & Pensions: Family Resources Survey, 2004-05

Mr. Greg Knight: To ask the Secretary of State for Communities and Local Government what assessment she has made of the number of families in temporary accommodation in each region for each year since 2001; and if she will make a statement. [87438]

Yvette Cooper *[holding answer 24 July 2006]:* Information reported each quarter by local authorities about their activities under homelessness legislation includes the number of households in temporary accommodation on the last day of the quarter and, since 2002, separately identifies those that include dependent children or a pregnant woman.

The duty owed to a person accepted as eligible for assistance, unintentionally homeless and in priority need is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available.

The total number of households in temporary accommodation (as arranged by local authorities) as at 31 March in each year since 2001, and the number of these with dependent children or an expectant mother since 2002, in each region of England are presented in the following table.

Households in temporary accommodation[1] arranged by local authorities, by Government office region

	2000-01	*2001-02*		*2002-03*	
	All households	*All households*	*o.w families*	*All households*	*o.w families*

[1] Households in accommodation arranged by local authorities awaiting allocation of a settled home following acceptance of a main duty

Source:
DCLG P1E Homelessness returns (quarterly)

Mr. Hands: To ask the Secretary of State for Communities and Local Government what the data sources are for her Department's house price index. [88086]

Meg Munn: The Department for Communities and Local Government's monthly house price index is a weighted average of prices for a standard mix of dwellings. Dwelling prices come from mortgage completion data from the regulated mortgage survey of the Council of Mortgage Lenders and BankSearch.

The index is "mix-adjusted" to allow for the fact that different houses are sold in different periods and is achieved partly by fitting a model. The variables in the model include two variables that define similar areas. One is a classification of local authorities into clusters derived by the Office for National Statistics and the other neighbourhood type based on postcode data produced by CACI Ltd. (ACORN). In addition weightings in the "mix-adjustment" are based on transaction data, partly based on data from the Land Registry and partly on past data from the mortgage survey.

Dr. Cable: To ask the Secretary of State for Communities and Local Government what percentage of the total housing stock is key worker housing. [88701]

Yvette Cooper: As at mid year 2004 the estimated total amount of housing stock in England was 21,613,000 dwellings.

In recent years the Government have funded a number of schemes to offer specific housing assistance to key workers in areas experiencing recruitment and retention difficulties: from April 2001 to March 2006, over 22,000 homes for key workers have been provided through the starter home initiative (SHI) and key worker living (KWL) programmes. These include both new homes and provision of equity loans to support purchase of existing homes.

In addition, certain local authorities will make provision in the planning system for a proportion of new homes to be affordable housing for key worker groups based on specific local needs. We do not hold such information centrally.

Dr. Cable: To ask the Secretary of State for Communities and Local Government how many key worker homes have been built in each region in each of the last five years. [88702]

Yvette Cooper: In recent years the Government have funded a number of schemes to offer specific housing assistance to key workers in areas experiencing recruitment and retention difficulties: from April 2001 to March 2006, over 22,000 homes for key workers have been provided through the starter home initiative (SHI) and key worker living (KWL) programmes. These include both new homes and provision of equity loans to support purchase of existing homes.

The following table details the number of new build homes provided for key workers through SHI and KWL over the past five years. 2005-06 completions are provisional until the Housing Corporation end of year processes are finalised:

	2001-02	*2002-03*	*2003-04*	*2004-05*	*[1]2005-06*	
London	0	0	41	228	771	1,040
South East	0	16	144	1,282	1,208	2,650
East	0	21	5	100	261	387
South West	0	20	14	0	0	34
	0	57	204	1,610	2,240	4,111

[1] Provisional

In addition, certain local authorities will make provision in the planning system for a proportion of new homes to be affordable housing for key worker groups based on specific local needs. We do not hold such information centrally.

Simon Hughes: To ask the Secretary of State for Communities and Local Government how many *(a)* council, *(b)* other registered social landlord and *(c)* private homes have been built in each London borough since 1997. [88714]

Meg Munn: A table showing the number of new build dwellings as reported by the Housing Corporation and each local authority in London, in each year from 1997-98 to 2004-05, has been placed in the Library of the House. The figures presented are for completed new dwellings and are broken down by tenure.

Tim Farron: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the main obstacles to the building of affordable housing in rural areas. [88857]

Yvette Cooper: In July 2005 my Department and the Department for the Environment, Food and Rural Affairs set up the Affordable Rural Housing Commission to inquire into the scale, nature and implications of the shortage of affordable housing for rural communities in England and to make recommendations to address unmet need.

The Commission reported in May 2006 setting out its findings, including barriers to the supply of affordable housing in rural areas. The Government aim to respond constructively to the agenda it has set using a range of channels and mechanisms, including the forthcoming comprehensive spending review.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the written ministerial statement of 5 July 2006, *Official Report*, column 39WS, on the Housing Act 2004, why the guidance to local authorities was not published on her departmental website on 6 July. [85449]

Yvette Cooper: The guidance note on empty dwelling management orders was available on request on Thursday 6 July and was subsequently posted on the Department for Communities and Local Government website on Monday 10 July.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) how many properties have been *(a)* bought and *(b)* part-bought under the social homebuy scheme; [83096]

(2) how many *(a)* local authorities and *(b)* housing associations are offering the social homebuy scheme. [83097]

Meg Munn: The social homebuy scheme became available in April 2006 and provides a new opportunity for tenants of participating local authorities and housing associations to purchase a share in their home. The scheme is currently being offered by 42 housing associations and one local authority. My officials are in discussions with other local authorities which have expressed an interest in social homebuy. The Housing Corporation plans to hold a further bidding round in the autumn to enable more housing associations to participate.

To date, there has been one completed sale in the housing association sector. The purchaser bought outright with the available discount. More sales are expected shortly. Although a number of local authority tenants have applied to buy shares in their homes, no sales have yet been completed.

Mr. Rogerson: To ask the Secretary of State for Communities and Local Government how much she has allocated to *(a)* Newham's Local Space initiative, *(b)* Ealing's Safe Haven partnership and *(c)* L&Q Housing Trust's HILS programme; what targets were set for these programmes for the number of families in temporary accommodation to be provided with settled homes; how many families in temporary accommodation have been provided with settled homes through each programme; and if she will make a statement. [86704]

Yvette Cooper *[holding answer 25 July 2006]:* The London borough of Newham created a registered

social landlord called Local Space to acquire properties to be leased to the council for temporary occupation. Local Space received a social housing grant allocation from the Housing Corporation in 2005-06 totalling £25 million over two years to acquire a minimum of 1,000 properties.

Ealing's Safe Haven London, a charity specially established for the purpose, is to acquire houses and flats over a two-year period, including some new build stock and lease them back to the council under an arrangement which provides for the transfer of the properties to a housing association at expiry of the lease. The project does not benefit from a Housing Corporation grant, or any other grant. To date 50 properties have been purchased and occupied.

The London and Quadrant Housing Trust (LQHT) homelessness initiative leasing scheme (HILS) is a programme which commenced in 2003-04, administered by the Housing Corporation and was designed to help eliminate the use of bed-and-breakfast accommodation as temporary housing. Its remit was to deliver 500 units at a cost of £17.5 million.

The trust has delivered 401 units in agreed local authority areas, which they have leased back to the local authority for a period of 10 years. The local authority nominates households who would otherwise be housed in bed and breakfast to be accommodated in these units.

Building on these initiatives, £30 million will be made available through an extra homes pilot in London to help families move from temporary accommodation into settled homes. Detailed guidance on submitting proposals for this pilot will be issued later in the year.

Hugh Bayley: To ask the Secretary of State for Communities and Local Government how many local authority and housing association homes were *(a)* sold, *(b)* demolished and *(c)* added to the public sector rented housing stock in each housing local authority area in Yorkshire and the Humber in each year since 1996-97. [87132]

Yvette Cooper *[holding answer 25 July 2006]:* The numbers of local authority (LA) dwellings sold in each year since 1998-99 are published on the Department for Communities and Local Government website:

http://www.communities.gov.uk/pub/383/Table648Excel545Kb_id1156383.xls

Information on years prior to those shown is not readily available. The numbers of registered social landlord (RSL) social rent dwellings sold in each year since 1997-98 are shown in table A.

The numbers of social units for rent (LA & RSL) demolished in Yorkshire and the Humber as reported by local authorities in each year from 2000-01 to 2004-05 are shown in table B. Information for years prior to those shown is not readily available.

Public sector social units for rent are provided with funding from central Government and through planning agreements (S106) between councils and developers. For the number provided with Government funding in each year I refer the hon. Member to the answer given to the hon. Member for Yeovil Mr. Laws on 21 March 2006, *Official Report*, column 279W. For the numbers of social units for rent provided without any government funding through section 106 planning agreements please see table C. Information is available only for the years shown.

Source: Returns from local authorities to the Department for Communities and Local Government (HSSA).

Mr. Drew: To ask the Secretary of State for Communities and Local Government what the time scale is for the introduction of choice-based lettings; what the results were of the pilot projects; and how she expects the policy to operate in rural areas, where there is a shortage of social housing. [87226]

Meg Munn: The Government have set a target for all local authorities to operate choice-based lettings by 2010; and an interim target of 25 per cent. of local authorities by 2005. As at April 2005 some 27 per cent. of local authorities said that they offered choice-based lettings.

The report of the evaluation of the pilot schemes was published in May 2004, and showed that they were successful in achieving their aim of establishing more open systems that are seen to offer customers choice. They also did not appear to disadvantage vulnerable households, who continue to access a significant proportion of vacant properties and often bid successfully for the most popular, and led to improvements in housing management performance with, for example, re-let times reducing substantially in some areas.

Choice-based lettings schemes have already been operating for some time in a number of rural areas including Cornwall, Herefordshire and Wiltshire.

Mr. Drew: To ask the Secretary of State for Communities and Local Government what information facilities will be made available to ensure that tenants have knowledge of stock availability under the introduction of choice-based lettings. [87227]

Yvette Cooper: Choice-based lettings schemes use a variety of media to advertise available vacancies, including websites, newspapers, free sheets, property shops and telephone services. Adverts will include brief details about the property and may include details about the area. In addition, schemes will usually publish feedback information for each advertised property that has been let, such as the number of bids received and the priority level of successful applicants, to help home seekers make judgments about which properties to bid for in future.

The transparency that choice-based letting schemes offer means that the amount, location and type of all stock available should be made easily available for home seekers.

IT Contracts

Mr. Weir: To ask the Secretary of State for Communities and Local Government what the value was of each IT contract awarded by her Department and its predecessor was in each of the last five years; and who the contractor was in each case. [88994]

Angela E. Smith: This information is not held centrally and can be provided only at disproportionate cost.

Mr. Weir: To ask the Secretary of State for Communities and Local Government which IT contracts awarded by her Department in each of the last five years have been abandoned; and what the value was in each case. [88995]

Meg Munn: Since May 2002 no strategically important IT contracts have been abandoned by the Department for Communities and Local Government. Information prior to the inception of the Office of the Deputy Prime Minister (May 2002) is not readily available.

Judicial Reviews

Mr. Amess: To ask the Secretary of State for Communities and Local Government on what occasions an *(a)* individual and *(b)* organisation has applied for a judicial review of decisions of her Department in each year since 1997; and what the outcome was of each case where proceedings have been completed. [80470]

Meg Munn: The information requested is not held centrally and could be provided only by disproportionate cost.

Key Workers

Dr. Cable: To ask the Secretary of State for Communities and Local Government what percentage of people under 30 are categorised as key workers, broken down by region. [88703]

Yvette Cooper: We do not hold data on the percentage of people under 30 years who are categorised as key workers. This information is held by key worker employers.

A full list of eligible key worker employers for the key worker living programme can be found in Annexe B of the capital funding guide on the Housing Corporation website www.housingcorp.gov.uk.

Life Expectancy

Paul Rowen: To ask the Secretary of State for Communities and Local Government what steps her Department is taking to tackle low life expectancy in areas of deprivation. [87009]

Mr. Woolas *[holding answer 20 July 2006]:* My Department has a specific role in improving health in deprived areas through a range of policies and programmes which impact on the determinants of health. We have been supporting and investing in these areas since 2001, through the neighbourhood renewal fund. Local strategic partnerships are responsible for allocating these resources on local priorities to tackle inequalities, and most have prioritised specific funding to improve health, or funding aimed at tackling some of the wider determinants of ill health.

Local Government

Ms Keeble: To ask the Secretary of State for Communities and Local Government how much was spent on peer mentors for local authority members in *(a)* the second quarter of 2005-06, *(b)* the third quarter of 2005-06 and *(c)* the first quarter of 2006-07, broken down by local authority. [86140]

Mr. Woolas: The information requested is not available and could be collected only at disproportionate cost.

Mr. Hands: To ask the Secretary of State for Communities and Local Government what guidance her Department has given local authorities on whether they should have a cabinet member with a specific public health brief. [88067]

Mr. Woolas: No such guidance has been issued.

Simon Hughes: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the merits of integrating the delivery of street cleansing, waste collection, waste disposal and waste planning by local authorities; and if she will make a statement. [88720]

Mr. Bradshaw: I have been asked to reply.

DEFRA has not assessed in detail the merits of integrating these services. However, we are aware of a number of studies which show that where waste collection and waste disposal are split between two tiers of local government, there can be real benefits in authorities working together to deliver an integrated waste service. For example, a recent report by the Innovation Forum, a group of excellent rated authorities, highlights the benefits of joint working on waste in two-tier areas, citing possible efficiency savings of up to £150 million nationally.

Our consultation on the waste strategy review stresses the need for joint working between authorities, integrating strategy development and spatial planning. The Government are considering further how we can facilitate joint working by authorities.

Partnership working is one of the ways local authorities can realise the £300 million of efficiency savings identified in the Gershon review from waste and street cleansing during the period 2005 to 2008.

The Department for Communities and Local Government strategic partnering taskforce's final report, published in 2004, said that strategic partnerships are one of the main service delivery options available to local authorities in their quest for efficient and effective high quality services.

Luton Town Football Club

Mrs. Dorries: To ask the Secretary of State for Communities and Local Government what discussions her Department and its predecessor has had within the last 12 months with *(a)* representatives of the board of Luton Town Football Club, *(b)* the chief executive of Luton Town Football Club, *(c)* representatives of Luton borough council, *(d)* representatives of South Bedfordshire district council, *(e)* representatives of Bedfordshire county council, *(f)* representatives of the East of England development agency and *(g)* representatives of the East of England regional assembly regarding the proposal to relocate Luton Town Football Club; what representations have been received from each; and if she will make a statement. [88091]

Meg Munn *[holding answer 24 July 2006]:* The Department for Communities and Local Government and its predecessor have received no representations from the organisations identified in the question. Luton borough council, and neighbouring authorities, have briefed the Government office on the proposal but no advice was sought, nor any offered. As the application may be referred to the Secretary of State for her consideration, it would be inappropriate to comment on the merits of the proposal.

Millennium Dome

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether *(a)* the Deputy Prime Minister and *(b)* another Minister within the former Department decided whether or not to call in the Meridian Delta/AEG planning application for the millennium dome to Greenwich borough council. [84502]

Yvette Cooper *[Holding answer 11 July 2006]:* I took the decision to leave the planning application to Greenwich borough council to determine.

Ministerial Meetings

Mr. Weir: To ask the Secretary of State for Communities and Local Government when she last met her Scottish counterpart; and what subjects were discussed. [88772]

Angela E. Smith: The Secretary of State last spoke to her Scottish counterpart, Malcolm Chisholm MSP, on 12 June 2006. They discussed a range of issues of mutual interest.

National Land

Mr. Hands: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the effect of Ordnance Survey's MasterMap products on the commercial and financial viability of the National Land and Property Gazetteer. [88089]

Mr. Woolas: No assessment has been made.

Mr. Hands: To ask the Secretary of State for Communities and Local Government (1) what the estimated total cost is of the National Land Use Database; [88402]

(2) if she will make a statement on the *(a)* status and *(b)* introduction of the National Land Use Database. [88407]

Meg Munn: There are two projects under the National Land Use Database heading. One is the National Land Use Database of Previously-Developed Land (NLUD-PDL). This was launched in 1998 and has been an annual survey since 2001. The latest report is on the Department's website at: www.communities.gov.uk/embedded_object.asp?id=1147698.

The other is the Full National Land Use Database, also known as NLUD-Baseline. This would show land use and, separately, land cover for all land parcels in England. The Department for Communities and Local Government has funded developmental work, a report on which is on the Department's website at: www.communities.gov.uk/embedded_object.asp?id=1161713.

At present there are no plans to implement the full database. A simplified version, the Generalised Land Use Database has, however, been created and is available on the website at: www.communities.gov.uk/embedded_object.asp?id=1146084.

NLUD-PDL is run jointly by the Department and English Partnerships. English Partnerships carries out the data collection at a cost of £250,000 a year. It is not known what the cost of Full NLUD would be. This would depend on the outcome of competitive tendering, the scope of the database and the potential for cost recovery through sales. As stated, however, there are no plans to implement Full NLUD.

New Growths Points Programme

Mr. Hands: To ask the Secretary of State for Communities and Local Government if she will make a statement on the new growth points programme; and where the development will be located. [88395]

Yvette Cooper: I refer the hon. Member to the written statement on the new growth points programme which I made on 20 June.

The new growth points programme is aimed at areas of high demand that are additional to and outside the existing growth areas, which include London.

Oil-fired Equipment

Mr. Drew: To ask the Secretary of State for Communities and Local Government what plans she has to raise standards for installation and servicing of oil-fired equipment. [85122]

Angela E. Smith: My Department is responsible for the installation of oil fired equipment through the building regulations which set standards for safety and energy efficiency. Safety improvements were introduced in April 2002 and additional changes introduced in April 2005 mean that from April 2007 more energy efficient condensing oil boilers will normally be required.

To improve compliance my Department is working to attract more installers into approved competent persons schemes which demand reasonable standards of expertise and enable the self-certification of compliance.

Environmental issues are becoming more important however and the Government are looking to see how better maintenance could be achieved in the future.

Servicing is a matter for equipment owners but to assist in this the building regulations require that chimneys and flues should be labelled with their safe performance limits and oil tanks should be labelled with advice on dealing with spills. My Department also produces a leaflet for householders encouraging routine servicing of combustion appliances and flues to avoid the dangers that can otherwise arise.

Olympic Delivery Authority Partner

Mr. Don Foster: To ask the Secretary of State for Communities and Local Government when *(a)* Ministers and *(b)* officials in her Department have held meetings with representatives of companies or consortia on the shortlist for the contract as the Olympic Delivery Authority deliver partner; which (i) Ministers and (ii) companies or consortia partners attended each meeting; what the location was of each meeting; what was discussed at each meeting; and if she will make a statement. [88228]

Angela E. Smith *[holding answer 24 July 2006]:* Department for Communities and Local Government officials have regular meetings with developers and housing companies in order to take forward the government's regeneration agenda but no meetings have taken place with any of the companies or consortia regarding contracts for the Olympic Delivery Authority partner.

Ordnance Survey

Robert Key: To ask the Secretary of State for Communities and Local Government what the grounds for non-compliance were in the bid by the Ordnance Survey to supply geographical information to the Government. [87015]

Mr. Woolas *[holding answer 24 July 2006]:* The procurement process for the replacement pan-Government agreement is not yet complete.

Mr. Hands: To ask the Secretary of State for Communities and Local Government what plans the Government have to review the pan-Government agreement with Ordnance Survey. [87349]

Mr. Woolas: The Department for Communities and Local Government (DCLG) has undertaken a competitive procurement for the replacement of the existing pan-Government agreement with Ordnance Survey. DCLG is currently consulting with pan-Government agreement members on the procurement and on future arrangements for the provision of geographic information to Government.

Mr. Hands: To ask the Secretary of State for Communities and Local Government what contracts Ordnance Survey has entered into with *(a)* Infoterra Limited and *(b)* BlueSky International Limited since 1997; and for what purpose. [88403]

Angela E. Smith: Since 1997, Ordnance Survey has entered into the following contracts with Infoterra Limited:

Imagery supply contract for the supply of digital imagery of England for the OS MasterMap imagery layer. This contract is with Infoterra as a partner in the joint venture company UK Perspectives.

Imagery hosting contract for the edge matching and colour balancing of imagery, hosting services and supply of data to customers.

Ordnance Survey has not entered into any direct contract with BlueSky International Limited.

Mr. Hands: To ask the Secretary of State for Communities and Local Government what *(a)* information and *(b)* products Ordnance Survey has provided to the Valuation Office Agency in the last five years. [88404]

Angela E. Smith: The Valuation Office Agency is a signatory to the pan-Government agreement and has licensed access to coverage of Great Britain of the following Ordnance Survey datasets:

Large Scale Detailed Mapping
OS MasterMap Topographic Layer
OS MasterMap Integrated Transport Network Layer
OS MasterMap Address Layer
Land-Line
1:10000 Scale Raster
Small Scale Mapping
1:25000 Scale Colour Raster
1:50000 Scale Colour Raster
1:250000 Scale Colour Raster
Strategi
Meridian 2
Location Mapping
MiniScale
Address Referencing
Address-Point
Code-Point and Code-Point with polygons
Roads
OSCAR Asset-Manager
OSCAR Traffic Manager
Boundary Data
Boundary-Line
Height Data
Land-Form Profile

Mr. Hands: To ask the Secretary of State for Communities and Local Government how many satellite photographs Ordnance Survey *(a)* took and *(b)* purchased from external suppliers in each of the last five years. [88405]

Angela E. Smith: Ordnance Survey has not taken any satellite photographs in the last five years nor has it used satellite photography for production purposes.

However, it has evaluated the potential of satellite imagery to meet future business needs. This includes an assessment of data from the Quickbird, Ikonos and Spot 5 high resolution satellites for potential use in change detection and feature extraction applications.

Parks Funding

Mr. Hands: To ask the Secretary of State for Communities and Local Government what guidance she has issued to local authorities on the prioritisation of funding for parks. [88304]

Mr. Woolas: Public parks and green spaces are primarily funded by local authorities through unhypothecated formula grant. Central Government do not dictate how much should be spent by each local authority on their parks; this is clearly a matter for them to determine in line with local priorities.

We have made more money available for parks over the past five years, through revenue support, the liveability fund, and the safer and stronger communities fund. We have also provided support to local authorities to improve the quality of their parks through the CABE space-enabling scheme and the how to programme.

The quality of urban parks has improved since 2000, as recognised by the recent NAO report, 'Enhancing Urban Green Spaces'. We remain committed to supporting local authorities to deliver quality parks and green spaces through our cleaner, safer, greener communities programme.

Planning Delivery Grant

Mr. Hands: To ask the Secretary of State for Communities and Local Government what plans she has to change the methodology for the allocation of planning delivery grant. [88076]

Meg Munn: I refer the hon. Gentleman to the statement titled 'Housing and Planning Delivery Grant' which was made to the House on 24 July. This statement announced the launch of a consultation on proposals for a new housing and planning delivery grant and the proposed criteria for allocations for the final year of the current planning delivery grant. The document entitled 'Housing and Planning Delivery Grant Consultation Paper' and the corresponding document 'Planning Delivery Grant 2007/08: Proposed Allocations Criteria' are available in the Libraries of the House.

Post Office

Mr. Andrew Turner: To ask the Secretary of State for Communities and Local Government pursuant to her answer of 17 July 2006, *Official Report*, column 127W, on Post Office network services (1) what activity required to answer the question most contributed to her estimate of disproportionate cost; [87565]

(2) what services her Department makes available through the Post Office network. [87566]

Meg Munn: The Department for Communities and Local Government currently lets no contracts with Post Office Ltd. or Post Office Counters Ltd. Our principal predecessor Department—the Office of the Deputy Prime Minister—was established in 2002 and made one transaction with Post Office Ltd. during that year.

As was indicated in the earlier answer, the information requested in the hon. Member's original question is not held centrally. Our judgment is that it would entail disproportionate cost to check with individual teams across the Department and its associated public bodies for the period and range of activity covered by the original question.

Questionnaires

Mr. Amess: To ask the Secretary of State for Communities and Local Government how many *(a)* questionnaires, *(b)* statistical inquiries and *(c)* investigations have been carried out wholly or partly at public expense on behalf of or by her Department or public bodies for which she is responsible in each year since 1997; and what the (i) nature, (ii) purpose and (iii) cost was of each. [83193]

Angela E. Smith: The information requested could be collated centrally only at disproportionate cost.

Renewable Energy Generators

Mr. Drew: To ask the Secretary of State for Communities and Local Government what additional scope she plans to give to individual households under the planning system to install renewable energy generators in houses. [84159]

Angela E. Smith: Works carried out inside a house do not generally require planning permission. Whether external work would be permitted without a planning consent would depend on the type of microgeneration technology proposed and the particular circumstances of the case. The Government have announced a review of this area in response to concerns that the current legislation as to what is allowed without planning permission is both too restrictive and too vague. We want far more microgeneration to be classified as permitted development and we plan to consult on the detail of the proposals for change later this year.

Right to Buy

Bob Russell: To ask the Secretary of State for Communities and Local Government if she will suspend the right to buy in areas where demand for affordable rented housing exceeds the availability of such properties; and if she will make a statement. [86960]

Yvette Cooper: The Government support the principle of right to buy and have no plans to change the scheme in that way. The Government are introducing social home buy so that more tenants can have the chance to buy a share of their home.

Sexual Orientation Regulations

Andrew Selous: To ask the Secretary of State for Communities and Local Government whether the sexual orientation regulations will require *(a)* Anglican Churches and *(b)* Churches of other denominations to perform civil partnership services in their churches; whether the regulations will apply to teaching in Sunday schools; and if she will make a statement. [87621]

Meg Munn: *[holding answer 24 July 2006]* A consultation on proposals to prohibit sexual orientation discrimination in the provision of goods, facilities and services through regulations to be made under part 3 of the Equality Act closed on 5 June. The consultation made clear that the Government considers that it is very important that the application of these regulations to religious activities should be clearly defined and understood and proposed that activities closely linked to religious observance or practices that arise from the basic doctrines of a faith should be exempted from the regulations. The proposed exemption for religious organisations will be available to both Anglican Churches and Churches of other denominations and we are currently considering what activities should be covered by the exemption in the light of the consultation findings.

A civil partnership cannot be registered on religious premises. Registering a civil partnership is an entirely secular process and the Civil Partnership Act prohibits any religious service from taking place during the registration.

Sheree Dodd

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 11 July 2006, *Official Report*, column 1759W, on Sheree Dodd, what recruitment process was undertaken to fill the vacancy of interim head of news. [86893]

Meg Munn: The directorate of communication approached Sheree Dodd to work as an interim head of news for the Department for Communities and Local Government while a full Civil Service recruitment process was completed. This was a short-term role and required a person with expertise and recent knowledge of Whitehall. Sheree Dodd was approached as she had previously filled a similar role for another Government Department. Sheree Dodd's employment as the Department for Communities and Local Government head of news has now terminated and the permanent post has been filled following a Whitehall competition.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 11 July 2006, *Official Report*, column 1759W, on Sheree Dodd, on what pay scale Sheree Dodd is paid. [86894]

Meg Munn: The terms of contracts between the Department for Communities and Local Government and individuals are private matters.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 11 July 2006, *Official Report*, column 1759W, on Sheree Dodd, whether Sheree Dodd *(a)* has provided and *(b)* continues to provide press support to the Deputy Prime Minister since the changes to the machinery of government. [86895]

Meg Munn: The information is as follows.

(a) The Department for Communities and Local Government (DCLG) press office provided interim support to the Deputy Prime Minister's press office until the recent machinery of government changes were completed. As interim DCLG head of news during that period, Sheree Dodd occasionally provided support to the Deputy Prime Minister's press office.

(b) Sheree Dodd is no longer head of news at the DCLG.

Thames Gateway Partnership

James Duddridge: To ask the Secretary of State for Communities and Local Government if she will publish the minutes of the meeting on 28 February 2006 between officials in the Office of the Deputy Prime Minister and organisations from the Thames Gateway partnership; what the *(a)* name and *(b)* job title was of each person attending; and what organisation each represented. [86042]

Yvette Cooper: No meeting of the Thames Gateway strategic partnership took place on 28 February 2006. However, a meeting of the Thames Gateway Kent Partnership took place, at which the Department for Communities and Local Government (then the Office of the Deputy Prime Minister) attended.

The draft minutes of this meeting will be placed in the Library and the names, titles and organisations of those who attended are as tabled:

Name	*Representing*	*Title/organisation*
Mr. Rob Bennett	Thames Gateway Kent Partnership (TGKP) (Chair)	Director, BBP Regeneration
Cllr Andrew Bowles	Swale Forward (Vice Chair)	Leader, Swale Borough Council
Cllr John Burden	Kent Thameside Delivery Board	Leader, Gravesham Borough Council
Cllr Rodney Chambers	Medway Renaissance Partnership	Leader, Medway Council
Cllr Mrs. Jane Chitty	Medway Council	Councillor, Medway Council
Mr. Paul Clark	Member of Parliament	Member of Parliament
Mr. Barry Clout	Medway Renaissance Partnership	Executive Officer, Kent Council for Voluntary Youth Service

Name	Representing	Title/organisation
Mr. Christopher Crook	Medway Renaissance Partnership (representing Alan Cherry)	Managing Director, Countryside Properties
Cllr John Davies	Kent County Council (representing Graham Gibbens)	Councillor, Kent County Council
Mr. Paul Hudson	South East England Development Agency	Director of Development and Infrastructure, SEEDA
Cllr Tony Martin	Kent Thameside Delivery Board	Councillor, Dartford Borough Council
Mr. Peter Southcombe	North Kent Community Forum	Chair, North Kent Community Forum
Ms Christine White	Swale Forward	Director, Swale Volunteer and Community Development Centre
Observers		
Mr. Harvey Bradshaw	Environment Agency	Kent Area Manager, Environment Agency
Mr. Gwyn Drake	Highways Agency	Divisional Director, Highways Agency
Mr. Ben Stoneman	ODPM (now DCLG)	North Kent Programme Manager, Thames Gateway Delivery Unit
Also present		
Ms Judith Armitt	Medway Council	Chief Executive, Medway Council
Mr. Mark Bilsborough	Swale Borough Council	Chief Executive, Swale Borough Council
Mr. Padraig Herlihy	Sport England South East	Head of Strategic Planning and Partnerships, Sport England South East
Mr. Alex Homfray	Culture Thames Gateway North Kent	Cultural Co-Coordinator, Culture Thames Gateway North Kent
Mr. David Liston-Jones	TGKP	Chief Executive, Thames Gateway Kent Partnership
Mr. Greg MacDonald	Swale Forward	Programme Director, Swale Forward
Mr. Pete Raine	Kent County Council	Director of Strategic Planning, Kent County Council
Miss Linda Searle	TGKP	Personal Assistant, TGKP
Mr. David Tuck	Genecon	Partner, Genecon
Mr. Michael Ward	Kent Thameside Delivery Board	Chief Executive, Kent Thameside Delivery Board
Mr. Alan Watkins	Press	Reporter, Kent Messenger
Mr. Jim Wintour	Gravesham Borough Council	Managing Director, Gravesham Borough Council

Urban and Economic Development Group

Mr. Hands: To ask the Secretary of State for Communities and Local Government how much funding her Department and its predecessors have provided to the urban and economic development group since 1997; and for what purposes. [88071]

Mr. Woolas: Since 1997, the Department for Communities and Local Government and its predecessors have paid a total of £488,000 to the Urban and Economic Development Group (URBED) Ltd. for a number of research consultancy projects. These have included:

(i) Living Places: Urban Renaissance in the South East—a guide to best practice in urban renaissance in towns and cities in south east England;

(ii) Changing Places Project—to disseminate examples of good practice in urban renaissance by setting up and maintaining a website of case studies and holding symposia/ workshops on urban renaissance themes;

(iii) Towns and Cities: Partners in Urban Renaissance—to explore the different challenges and lessons learnt from delivering urban renaissance in 24 partner towns and cities;

(iv) Assessing Urban Housing Capacity—a guide to better practice to accompany Planning Policy Guidance 3: Housing;

(v) Strategies for Smaller Centres—to provide examples of town centre renaissance for inclusion in forthcoming better practice guidance to accompany Planning Policy Statement 6: Planning for Town Centres.

Valuation Office Agency

Mr. Hands: To ask the Secretary of State for Communities and Local Government what *(a)* locality definitions and *(b)* neighbourhood adjustment factors are used in the Valuation Office Agency's automated valuation model. [88393]

Mr. Woolas: A "locality", within the Valuation Office Agency's (VOA) automated valuation model is a contiguous geographic space or area within which the dwellings are considered to be subject to the same or similar market forces. Localities have been defined (or delineated) by experienced chartered surveyors employed within the VOA using their market and valuation knowledge.

Locality adjustment factors are used in regression to establish relative differences among localities (the term "neighbourhood" was initially used to describe what the VOA now calls localities). The locality adjustment factor is a logarithmic variable applied to each of approximately 10,000 localities. Every locality has a locality adjustment factor derived from the average value, and average size, of dwellings in the locality at a required point in time.

Mr. Hands: To ask the Secretary of State for Communities and Local Government what the multiple regression formula used as part of the Valuation Office Agency's Automated valuation model is; and what each variable in the model is. [88396]

Mr. Woolas: The Valuation Office Agency's (VOA) automated valuation model (AVM) is designed to use sales to determine the relationship between sale price and property attributes, so that it may subsequently be used to predict property values from recorded property attribute data. The agency's multiple regression models have a log linear structure and the calibrated multiple regression formula looks like this:

$$Ln(Y) = a + b_1X_1 + b_2X_2 + b_3X_3 \ldots$$

Where:

Y = Property price

Ln = Natural logarithm

$X_{1,2,3}$ = Property attribute 1,2,3 etc

$b_{1,2,3}$ = Coefficient 1,2,3 etc

a = Constant

Variables in the model are derived from the property attribute data and will differ by billing authority area. Details of variables could be provided only at disproportionate cost.

Mr. Hands: To ask the Secretary of State for Communities and Local Government how many value significant codes are available for capture electronically by the Valuation Office Agency for council tax liability purposes. [88401]

Mr. Woolas: Value significant codes are used by the Valuation Office agency to support decisions on banding. The agency does not have any responsibility for liability, which is a function of local government. For further detail I refer the hon. Member to the reply given on 9 January 2006, *Official Report*, column 274W to the hon. Member for Meriden (Mrs. Spelman) and the reply given on 26 April 2006, *Official Report*, column 1171W to the hon. Member for Brentwood and Ongar (Mr. Pickles).

Mr. Hands: To ask the Secretary of State for Communities and Local Government what access the Valuation Office Agency has to the national land use database. [88406]

Mr. Woolas: None

Mr. Hands: To ask the Secretary of State for Communities and Local Government how many times the joint Valuation Office Agency and Local Government Association steering group have met. [88408]

Mr. Woolas: The joint Valuation Office Agency and Local Government Association steering group has met on 11 occasions, between May 2001 and June 2005, largely to discuss the preparations for the 2005 non-domestic rating revaluation.

Voluntary and Community Sector

Mr. Hands: To ask the Secretary of State for Communities and Local Government what funding the Office of the Deputy Prime Minister gave to the Association for Research in the Voluntary and Community Sector in each year since 1997; and what plans her Department has to provide funding. [88079]

Mr. Woolas: No funding was made centrally by the Office of the Deputy Prime Minister to the Association for Research in the Voluntary and Community Sector (ARVCS). We have no current plans to provide funding to ARVCS in future.

DEFENCE

Active Duty (Deployment)

Mr. Harper: To ask the Secretary of State for Defence how many and what proportion of service personnel were deployed on active duty in *(a)* January and *(b)* July of each year since 1976. [85213]

Mr. Watson: The most current figures collected from manual records show that on 11 July 2006 the deployment of UK service personnel on operations overseas was:

Service	*Number of personnel deployed*
All Services	15,170
Naval Service	1,760
Army	11,240
RAF	2,180

Notes:

1. Data are rounded to the nearest 10 to prevent disclosure of sensitive information.
2. Figures include mobilised reservists.

Figures for the number of deployed UK service personnel are not available in a consistent time series; however, percentages of service personnel undertaking operations and other military tasks are published in the Ministry of Defence annual report and accounts.

Figures from 2001-02 to 2005-06 are shown in the following tables, which have been extracted from each annual report. Summary information for 1998-99 and 1999-2000 was published in the respective Ministry of Defence performance reports (CM4520, CM5000), copies of which are available in the Library of the House. This information was not compiled on a comparable basis to those set out as follows.

Quarterly information for years predating the 1998 strategic defence review is not held centrally.

The figures given as follows report the percentage of regular armed forces undertaking operations and other military tasks. These figures are quarterly averages and are calculated by comparing the number of personnel undertaking operations and other military tasksagainst the total strength of the armed forces. Figures for 2005-06 are collated using a different methodology and are therefore not comparable.

Percentage of regular armed forces undertaking operations and other military tasks[1] during 2005-06[2,3]

Percentage

	April to June	July to September	October to December	January to March
Naval Service	11.6	9.3	12.1	13.5
Army	21.0	22.0	22.8	25.1
RAF	13.3	11.9	12.3	13.4

[1] Includes activities such as nuclear deterrence, military aid to the Civil Authorities and to the Civil Powers in Northern Ireland, integrity of UK waters and airspace, defence and security of the overseas territories and of the Cyprus sovereign base areas and defence relations, alliances and support to wider British interests.
[2] These figures are quarterly averages and reflect the burden of activity imposed by the operations and military tasks undertaken by each service. Figures are based on man-day equivalents.
[3] Percentages include personnel in preparation for and recovering from operations (e.g. in the case of the Army it takes account of those on pre-operational training and post-operational leave).

Percentage of trained strength of regular forces deployed on operations and other military tasks[1] during 2004-05[2,3]

Percentage

	April to June	July to September	October to December	January to March
Naval Service	16.8	13.2	13.3	11.6
Army	23.7	22.1	21.4	21.2
RAF	11.8	12.0	13.5	13.4

[1] Includes activities such as nuclear deterrence, military aid to the Civil Authorities and to the Civil Powers in Northern Ireland, integrity of UK waters and airspace, defence and security of the overseas territories and of the Cyprus sovereign base areas and Defence relations, alliances and support to wider British interests.
[2] These figures are quarterly averages and reflect the burden of activity imposed by the operations and military tasks undertaken by each service. Figures are based on man-day equivalents.
[3] Percentages exclude those either preparing for, or recovering from, deployments.

Percentage of trained strength of regular forces deployed on operations and other military tasks[1] during 2003-04[2,3]

Percentage

	April to June	July to September	October to December	January to March
Naval Service	18.7	12.8	14.0	17.7
Army	46.9	23.2	22.9	22.6
RAF	16.5	13.0	12.9	12.1

[1] Includes activities such as nuclear deterrence, military aid to the Civil Authorities and to the Civil Powers in Northern Ireland, integrity of UK waters and airspace, defence and security of the overseas territories and of the Cyprus sovereign base areas and Defence relations, alliances and support to wider British interests.
[2] These figures are quarterly averages and reflect the burden of activity imposed by the operations and military tasks undertaken by each service. Figures are based on man-day equivalents.
[3] Percentages exclude those either preparing for, or recovering from, deployments.

Percentage of trained strength of regular forces deployed on operations and other military tasks[1] during 2002-03[2,3]

Percentage

	April to June	July to September	October to December	January to March
Naval Service	17.5	13.0	16.5	28.5
Army	24.6	23.9	32.5	55.6
RAF	12.6	10.9	19.1	21.8

[1] Includes activities such as nuclear deterrence, military aid to the Civil Authorities and to the Civil Powers in Northern Ireland, integrity of UK waters and airspace, defence and security of the overseas territories and of the Cyprus sovereign base areas and Defence relations, alliances and support to wider British interests.
[2] These figures are quarterly averages and reflect the burden of activity imposed by the operations and military tasks undertaken by each service. Figures are based on man-day equivalents.
[3] Percentages exclude those either preparing for, or recovering from, deployments.

Percentage of trained strength of regular forces deployed on operations and other military tasks[1] during 2001-02[2,3,4]

Percentage

	April to June	July to September	October to December	January to March
Naval Service	9.5	8.4	16.7	15.7
Army	21.8	25.6	26.3	23.9
RAF	11.9	12.2	13.6	13.1

[1] Includes activities such as nuclear deterrence, military aid to the Civil Authorities and to the Civil Powers in Northern Ireland, integrity of UK waters and airspace, defence and security of the overseas territories and of the Cyprus sovereign base areas and Defence relations, alliances and support to wider British interests.
[2] These figures are quarterly averages and reflect the burden of activity imposed by the operations and military tasks undertaken by each service. Figures are based on man-day equivalents.
[3] 2001-02 figures include personnel on Exercise SAIF SAREEA II.
[4] Percentages exclude those either preparing for, or recovering from, deployments.

Aerial Photography

Mr. Hands: To ask the Secretary of State for Defence whether the security services have access to high-resolution *(a)* aerial and *(b)* satellite photography of domestic English properties and English landscapes. [88411]

Des Browne: I am withholding this information as it relates to bodies dealing with security matters.

Afghanistan

Mr. Wallace: To ask the Secretary of State for Defence what the minimum time is for notification to units designated for tours of Afghanistan that they are earmarked to serve in *(a)* 16th Air Assault Brigade and *(b)* other posts in theatre. [81995]

Des Browne: Units can generally expect to receive at least six months' warning, and individual augmentees 90 days' warning, for operational tours, including Afghanistan. However, the size and shape offerees required in any operational theatre is kept under review, and adjusted as appropriate. There will therefore be occasions when units or individuals are required to deploy at much shorter notice.

Mr. Harper: To ask the Secretary of State for Defence what discussions he has had with *(a)* his counterparts in other NATO countries, *(b)* the NATO Secretary-General and *(c)* his counterparts in other non-NATO countries on force generation for deployment in Helmand province, Afghanistan in the last three months; what the outcome of these discussions has been to date; whether they are ongoing; and if he will make a statement. [82863]

Des Browne *[holding answer 6 July 2006]:* As a result of the NATO force generation process held in 2005 and 2006, Denmark and Estonia have already deployed forces to Helmand province alongside the UK as part of the NATO-led international security assistance force (ISAF).

I continue to have regular discussions with the NATO Secretary-General, NATO allies and with other ISAF troop contributing nations on force generation for ISAF, including, where appropriate, for Helmand province. These discussions include bilateral meetings and the regular meetings of NATO Defence Ministers, the last of which took place on 8 June.

Nick Harvey: To ask the Secretary of State for Defence what assessment was made of the *(a)* strength and *(b)* fighting capability of (i) Taliban and (ii) other illegal armed groups prior to the announcement of further troop deployment on 26th January 2006. [83929]

Des Browne: The Government's view then, as now, was that the Taliban and other illegally armed groups do not pose a long-term strategic threat to Afghanistan, though they do represent a significant impediment to the country's near-term reconstruction, particularly in the south. That is why we have deployed a substantial number of UK forces to enable the expansion of the NATO-led international security assistance force into that area.

Nick Harvey: To ask the Secretary of State for Defence what assessment he has made of the level of support for armed groups in Helmand from *(a)* Iran and *(b)* Pakistan. [84899]

Des Browne: We have no credible evidence of direct support by the Pakistan or Iranian Governments to insurgents in Helmand province in Afghanistan. There is, however, some indication that armed groups in Helmand receive support from sympathisers and associates in neighbouring countries.

Mr. Harper: To ask the Secretary of State for Defence pursuant to the oral statement of 10 July 2006, *Official Report*, columns 1131-48, on Afghanistan (troop levels), how many combat personnel will be deployed as part of the additional deployment to Helmand province; and when they will arrive. [85561]

Des Browne: The majority of the additional forces that I announced on 10 July 2006, *Official Report*, columns 1131-35W, are deploying to maintain momentum on reconstruction activity or to provide associated support to that task. Around 260 personnel will be dedicated to force protection or security tasks.

Ammunition

Mr. Liddell-Grainger: To ask the Secretary of State for Defence how many live shells and bombs have been used by UK forces in the last three years. [55287]

Mr. Ingram: The information requested is not held centrally and could only be provided at disproportionate cost.

Annington Homes

Bob Russell: To ask the Secretary of State for Defence how many homes have been sold by the Ministry of Defence to Annington Homes *(a)* in England and *(b)* at Colchester in the last five years. [86337]

Mr. Watson: In 1996, the Ministry of Defence sold and leased back 57,428 houses in England and Wales to Annington Homes Limited (AHL). A provision of the 1996 sale agreement is that when MOD terminates the leasehold interest in properties it no longer requires, it also completes the freehold transfer of the properties to AHL. Since April 2001, just over 5,300 properties have been handed back to AHL in England and Wales, including 255 properties in Colchester.

Anti-Armour Missile Systems

Nick Harvey: To ask the Secretary of State for Defence whether the *(a)* Brimstone and *(b)* Maverick anti-armour missile system meets in full the RAF's anti-armour requirements. [87835]

Mr. Ingram: Our anti-armour requirements are met by a range of air and land systems and are not defined by service. The RAF's contribution to meeting this requirement is currently offered by Brimstone on Tornado GR4; Maverick on Harrier GR7; and the RBL755 and BL755 bombs on Jaguar GR3a, Harrier GR7 and Tornado GR4.

Armed Forces (Fit for Task)

Mr. Harper: To ask the Secretary of State for Defence what percentage of *(a)* Army, *(b)* Royal Navy and *(c)* Royal Air Force personnel were fit for task in every year since 2003. [86997]

Mr. Ingram: The fit for task figure provides a quarterly measure of all trained personnel that are considered medically fit for the task they were posted to their ship/unit/station to perform. It is the balance of the trained strength that is not medically downgraded. It is important to note, however, that the majority of medically downgraded personnel remain fit enough to work in some other capacity. For example, for the first quarter of year 2006-07 whereas 94.5 per cent. 83.7 per cent. and 90.2 per cent. of Royal Navy, Army and RAF personnel respectively were fit for task, only approximately 0.5 per cent. in each Service were considered unfit for any military duties. The remainder were not fully fit for task, but still fit to work in some other capacity.

Figures up to and including 1 April 2005 were collated centrally by the Defence Analytical Services Agency (DASA) and give a snapshot of the situation on the first day of each quarter. Since April 2005, the figures have been obtained directly from the three single services and give a snapshot of the situation at one point in time during each quarter. This will usually be a snapshot at the end of each quarter, but the exact reporting date can vary between each service.

The following tables show the percentage of trained regular[1] personnel in each service that were not medically downgraded in each quarter since January 2003.

Service	1 January 2003	1 April 2003	1 July 2003	1 October 2003
Royal Navy	92.3	92.3	92.0	91.9
Army[2]	88.1	87.8	87.5	87.2
RAF	91.9	91.5	90.8	90.9

Source:
DASA (Tri-Service)

Service	1 January 2004	1 April 2004	1 July 2004	1 October 2004
Royal Navy	91.6	91.2	90.8	91.2
Army[2]	86.8	86.4	85.9	85.4
RAF	91.2	91.1	91.2	91.0

Source:
DASA (Tri-Service)

Service	1 January 2005	1 April 2005
Royal Navy	91.1	91.1
Army[2]	84.9	84.3
RAF	90.9	90.8

Source:
DASA (Tri-Service)

Service	Q1 2005-06	Q2 2005-06	Q3 2005-06	Q4 2005-06
Royal Navy	92.8	93.7	92.9	94.8
Army	85.1	84.7	84.4	84.2
RAF	90.7	90.6	90.3	90.2

DMSD

Assets Disposal

Mr. Harper: To ask the Secretary of State for Defence pursuant to "Releasing the resources to meet the challenge ahead", Cm 6889, what assets he has identified for disposal. [86937]

Des Browne: The value for money work conducted by the Ministry of Defence as part of the comprehensive spending review included an initial assessment of additional assets which could be disposed of in the spending review 2004 period (such as the sale of estate in Greater London and of surplus assets linked to redevelopment of Aldershot and Salisbury plain barracks). It also included a broad assessment of the overall value of assets which may become available for disposal in the period 2008-09 to 2010-11. These preliminary assumptions will be refined as part of comprehensive spending review implementation work.

British Troops (Afghanistan)

Miss McIntosh: To ask the Secretary of State for Defence what recent representations he has received on the cost to families of posting parcels to British troops based in Afghanistan; and if he will provide free postage for small parcels to troops in Afghanistan from their families. [87092]

Mr. Watson: Recent representations received from hon. Members and members of the public regarding the cost of posting parcels to operational theatres this year are summarised in the following table:

	Parliamentary questions	Ministerial correspondence	Treat official correspondence	Total
January	—	4	4	8
February	—	4	0	4
March	—	4	4	8
April	—	4	1	5
May	—	6	8	14
June	—	7	4	11

Free postage for small parcels to service personnel was a temporary feature of the initial deployment of HM forces to Iraq in 2003 which ceased on 8 April 2004 when it was deemed that the complete operational welfare package (which includes access to the expeditionary forces institute (the deployable retail and leisure arm of the NAAFI)) was available.

Deployment to Afghanistan was part of a long-planned NATO deployment in which operational welfare provision was considered in detail. As a result, those deployed in Afghanistan are in receipt of welfare facilities comparable to other operational theatres worldwide; to provide a free parcel service to those in Afghanistan would not be equitable and would be divisive. Commanders in the theatre of operations do not regard a free postal packet scheme as a priority and would prefer to see available welfare money spent on facilities in theatre.

As a result of a review in 2005, it was agreed that a free parcel scheme would be provided at Christmas for a short period of approximately four weeks to all overseas operational theatres. An announcement regarding dates for 2006 will be published in the autumn.

Capita Group

Chris Grayling: To ask the Secretary of State for Defence what meetings *(a)* he and *(b)* Ministers in his Department have held with directors and senior

executives of (i) Capita Group plc and (ii) its subsidiaries since 1 January 2004; and whether (A) Capita Group plc and (B) its subsidiaries have provided input (1) in writing and (2) in person to policy discussions in his Department since 1 January 2004. [61088]

Mr. Ingram: No Defence Minister has held a meeting with representatives from Capita Group plc and its subsidiaries since 1 January 2004. The information on input to policy discussions with officials is not held centrally and can only be provided at disproportionate cost.

Civil Contingencies Reaction Forces

Mr. Harper: To ask the Secretary of State for Defence what the current actual strength is of each of the civil contingencies reaction forces. [87698]

Des Browne: Detailed figures for civil contingency reaction forces are not routinely collated. The current strength of the Territorial Army is 32,000, from which the civil contingency reaction forces are mainly drawn.

Mr. Harper: To ask the Secretary of State for Defence how many personnel from the volunteer reserves are committed to the civil contingencies reaction force in addition to their normal role. [87701]

Des Browne: All personnel who volunteer to participate in a civil contingency reaction force are also committed to undertake other reserves tasks. Personnel who volunteer undertake an additional five days training annually.

Mr. Harper: To ask the Secretary of State for Defence how many volunteer reserves who are committed to the civil contingencies reaction forces are deployed overseas. [87702]

Des Browne: In the event that individual volunteers are deployed on operations overseas they become unavailable for civil contingencies reaction forces duties and another volunteer is sought to fill the vacancy. In this way the operational capability of the civil contingency reaction force is not compromised.

Mr. Harper: To ask the Secretary of State for Defence how many additional personnel have been recruited to the civil contingencies reaction forces; and what the target figure is in the next 12 months. [87703]

Des Browne: Reservists are not specifically recruited into a civil contingencies reaction forces. Individuals are recruited into the reserves, and the civil contingency reaction forces is then manned from the reserves. Each force has a target strength of 500 personnel; there are no plans to change this.

There are currently 14 Territorial Army infantry battalions with civil contingency reaction force roles, providing a maximum of 7,000 personnel. The number of infantry battalions with such as role will reduce to 13 in April 2007, in line with the future army structure.

Claims for Compensation

Mr. Dismore: To ask the Secretary of State for Defence how many claims for compensation for dismissal from the armed forces on grounds of sexuality were made *(a)* before the European Court of Human Rights ruling on 19 October 2002 and *(b)* after 19 December 2003; of the claims in each category (i) how many resulted in a payment of compensation, (ii) what the (A) highest and (B) average payment was and (iii) how many remain outstanding; how many of the claims made after 19 December 2003 have been refused due to the date of application; and if he will make a statement. [88300]

Mr. Watson *[holding answer 25 July 2006]:* 153 claims for compensation were made prior to 19 October 2002, with two claims submitted after 19 December 2003. Of those claims submitted prior to 19 October 2002, 38 have been settled, the highest award being £147,875, with an average award of £35,598.00. 62 of these claims remain outstanding. Both the claims received after 19 December 2003 have been refused on the grounds of their late application.

Combined Services Detained Interrogation Centre

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 24 April 2006, *Official Report*, column 896W, on the combined services detained interrogation centre, when he expects to be able to write to the hon. Member for Portsmouth South. [88236]

Mr. Ingram: The work required to find information about the combined services detailed interrogation centre has taken time as we have wished to provide as complete an answer as possible from the surviving records. I have now written to the hon. Member and a copy of the letter will be placed in the Library of the House.

Command Papers

Mr. Amess: To ask the Secretary of State for Defence if he will list the unnumbered Command Papers produced by his Department in each Session since 1976; by what means *(a)* hon. Members and *(b)* members of the public can (i) inspect and (ii) obtain copies; and if he will make a statement. [81288]

Mr. Watson: Documents which are laid before Parliament as unnumbered Command Papers are generally restricted to explanatory notes to treaties, explanatory memorandum to statutory instruments and some Treasury minutes. All other documents are published in the numbered Command Papers series.

A complete list of unnumbered Command Papers can only be produced at disproportionate cost.

Copies of all unnumbered Command Papers are made available via the Vote Office.

Criminal Offences

Mr. Clegg: To ask the Secretary of State for Defence how many criminal offences his Department has created by Orders in Council in each year since 1997. [88475]

Mr. Watson: None.

Dartmoor National Park (Firing Ranges)

Mr. Steen: To ask the Secretary of State for Defence pursuant to his answer of 13 June 2006, *Official Report*, column 1232W, on Dartmoor national park (firing ranges), when he will write to the hon. Member for Totnes. [86441]

Mr. Watson: I will write to the hon. Member shortly.

Defence Establishments

Mr. Alan Reid: To ask the Secretary of State for Defence which defence establishments have been closed during the last three years; and how much financial assistance his Department provided in the surrounding area after the closure to support *(a)* economic development, *(b)* training, *(c)* environmental improvements and *(d)* other purposes in each case. [86703]

Mr. Watson: *[holding answer 20 July 2006]:* The Department has disposed of a large number of sites over the past three years. I will write to the right hon. Member with the answer and place a copy in the Library of the House.

It is not the policy of the Ministry of Defence to provide financial assistance for areas affected by the closure of Defence establishments. Other Departments have responsibility for providing direct financial support for economic development regionally or to communities. However, the Department does work closely with the local authority and other stakeholders, amongst others English Partnerships, regional development agencies, and in Scotland the Scottish Executive, the enterprise bodies and the Welsh Assembly in Wales to consider the most appropriate future use when disposing of surplus sites.

Defence Export Services Organisation

Dr. Cable: To ask the Secretary of State for Defence what the budget is for the Defence Export Services Organisation in 2006-07. [88685]

Mr. Ingram: Provision of £15 million has been made for the net operating costs of the Defence Export Services Organisation in 2006-07.

Defence Information Infrastructure Project

Mr. Hancock: To ask the Secretary of State for Defence what assessment he has made of the effect on his Department's budget of the additional monies which have been allocated to *(a)* EDS and *(b)* others for the defence information infrastructure project; and if he will make a statement. [85297]

Mr. Watson: A range of changes to the defence information infrastructure (future) programme have taken place since contract award for increment 1 to the Atlas consortium in March 2005, as allowed for under the provisions of the contract. These changes are not expected to have any effect on the defence budget.

Defence Logistics Organisation/Procurement Agency

Mr. Harper: To ask the Secretary of State for Defence what his assessment is of the impact on costs of the merger of the Defence Logistics Organisation and the Defence Procurement Agency. [86991]

Des Browne: The merger of the Defence Logistics Organisation and the Defence Procurement Agency will be subject to further detailed work over the coming months. However, it is not expected that the merger itself will involve significant additional costs beyond those arising from the proposal to collocate elements of the two organisations.

Defence Medical Services

Dr. Murrison: To ask the Secretary of State for Defence whether he has sufficient *(a)* regular and *(b)* reserve medical officers to support current operations; what shortages of defence medical service health care professionals there are, broken down by speciality; and if he will make a statement. [84483]

Nick Harvey: To ask the Secretary of State for Defence what the staffing levels against establishment are for service *(a)* medical and *(b)* dental officers. [87171]

Mr. Watson: The following table shows the current staffing level against establishment and requirement for service medical and dental officers:

	Cadre	
	Medical Officer	*Dental Officer*
Establishment	810	290
Current Manning	490	260
SDR Requirement	970	270
DMC Requirement	640	240

Note:
Figures above 100 have been rounded to the nearest 10. *Source:* DMSD

The figures show establishment and manning levels as at 1 April 2006, and include some specialists working in headquarters posts not directly related to their specialism.

The "Current Manning" figures show the tri-service trained strengths in both cadres.

"Establishment" is the listing of an individual unit's funded appointments/posts. It is different to the "Requirement", which are those posts necessary to support defence planning assumptions.

To date the Defence Medical Services (DMS) have met all operational requirements placed on them. Medical support to deployed operations is absolutely vital and there is no question of British forces deploying on military operations without the appropriate medical support.

It is important to note that the overall DMS manning requirement covers a much broader spectrum than just medical support to operations, since it includes all the personnel involved in the delivery of medical services to the non-deployed armed forces as well.

DMS manning requirement figures were initially drawn up as a consequence of the strategic defence review (SDR). These remain the official, formally endorsed figures. Since then, however, overall defence planning assumptions have changed and DMS manning requirement figures have evolved. In order to support the defence planning assumptions contained within defence strategic guidance 03, the defence medical capability (DMC) phase 2 study was carried out. The DMC study has produced interim revised DMS manning requirement figures which more accurately reflect defence planning assumptions and have thus overtaken the SDR figures. Elements of these interim manning requirements have previously been released, prior to a new definitive set of figures (as set out in my predecessor's answer to the hon. Member for Forest of Dean (Mr. Harper) on 9 February 2006, *Official Report*, column 1402W.

Work is ongoing to establish the overall requirement, with the overall requirement expected to decrease, although increases are expected within some individual specialties. I anticipate that new endorsed DMS manning requirement figures will be available later this year.

It is acknowledged that currently there are manpower shortages across the DMS, especially in some key specialties. The following tables show the manning levels as at April 2006 in the key shortage specialties for Medical Officers and Nurses (requirement figures shown are the SDK figures and the DMC figures):

	Requirement		
Medical Officer Specialty	*SDR*	*DMC*	*Current manning*
General Medical Practice	460	270	260
Anaesthetics	120	76	48
General Surgery	41	36	18
Emergency Medicine	29	23	13
Psychiatry	26	31	13

Notes:
Figures above 100 have been rounded to the nearest 10. Figures include some specialists working out of speciality in headquarter posts.
Source:
DMSD

	Requirement		
Nursing Specialty	*SDR*	*DMC*	*Current manning*
Emergency Medicine	130	150	67
Intensive Care	210	190	68
Operating Theatre	81	72	51
Registered Mental Health	110	150	97

Notes:
Figures above 100 have been rounded to the nearest 10. Figures include some specialists working out of specialty in headquarter posts.

DMSD

Mr. Harper: To ask the Secretary of State for Defence pursuant to the answer of 12 July 2006, *Official Report*, column 1879W, on Defence Medical Services, if he will make a statement on the Ministry of Defence hospital unit concept to which he refers. [86492]

Mr. Watson: The process to close military hospitals began in 1994 because they no longer had sufficient patient volume and case mix to develop and maintain the skills of our medical personnel. To meet this training need we have established Ministry of Defence hospital units (MDHUs) located within NHS hospitals at Derriford, Frimley Park, Peterborough, Portsmouth and Northallerton, and the Royal Centre for Defence Medicine within the University Hospital Birmingham Foundation Trust (UHBFT) in Birmingham.

The integration throughout the NHS trusts of service personnel in those specialisms which are required on deployed operations enables Defence Medical Services staff to take advantage of NHS expertise and to maintain their own clinical skills in an active, up-to-date environment. Additionally, treating Service patients within the NHS trusts which host MDHUs provides the most effective means of giving the UK armed forces benefit from the latest advances in medical treatment and the recent investments in NHS facilities.

In the last two years, enhanced command and control structures have been introduced. Each MDHU now has a dedicated command team. This has improved administrative, business and training functionality and enables clinical staff to concentrate on honing their professional skills, both medical and military. Although service staff work in a NHS environment, military ethos is maintained through regular collective events. Military uniform is worn by all command and serving administrative staff and also by clinical staff, except where duties require specific clinical dress. Clinical staff have their working time apportioned between "Trust Protected Time" and "Military Protected Time". The former guarantees sufficient clinical exposure to maintain standards, while the latter ensures that service operational and training requirements are met.

Departmental Papers

Mr. Amess: To ask the Secretary of State for Defence if he will list in date order *(a)* Green and *(b)* White Papers produced by his Department since October 2005. [81285]

Mr. Watson: Since October 2005 the MOD has published one White Paper, "The Defence Industrial Strategy".

Departmental Staff (Fraud)

Simon Hughes: To ask the Secretary of State for Defence how many staff members in his Department have been *(a)* prosecuted and *(b)* convicted following fraud charges since 1997. [88447]

Mr. Watson: Reported cases of suspected fraud, theft and irregularity are currently recorded centrally on a summary basis only and it cannot be assumed that criminal proceedings have or will be applied in every case. The provision of information on prosecutions and convictions for fraud involving MOD Crown servants over the period specified could thus be provided only at disproportionate cost.

Deployments

Dr. Fox: To ask the Secretary of State for Defence what deployments are being undertaken by the armed forces; and how many personnel are deployed thereon. [84568]

Mr. Ingram: On 21 June 2006 the military operations being undertaken by the UK armed forces together with the number of personnel deployed on each operation were as follows:

Operation	*Number of personnel deployed*
TELIC	10,060
HERRICK	4,555
OCULUS	830
UN Operations	
TOSCA	280
BARONET	5
PERCIVAL	5
SEQUESTER	[1]—
DALMIN	[1]—
MOTTO	[1]—

[1] fewer than five.

Note.
Figures have been rounded to the nearest five.

Figures include personnel deployed to the following locations:

OP TELIC: Iraq, Qatar, Bahrain, Oman, Kuwait and USA, plus personnel deployed on ships in the Gulf region.

OP HERRICK: Afghanistan

OP OCULUS: Bosnia and Kosovo

OP TOSCA: Cyprus

OP BARONET: Georgia

OP PERCIVAL: Democratic Republic of Congo

OP SEQUESTER: Liberia

OP DALMIN: Sudan

OP MOTTO: Sierra Leone

Data are based on personnel reports collated manually from operational deployments, and may not include all current operations. Figures include UK regular forces, reserve forces and MOD civilian personnel.

Deposited Papers

Mr. Amess: To ask the Secretary of State for Defence if he will list the deposited papers placed in the Library by his Department since 2000; and when they were published. [8289]

Mr. Watson: I refer the hon. Member to the answer given by my right hon. Friend, the Leader of the House, on Monday 3 July 2006, *Official Report*, column 729W.

Detached Duty

Mr. Harper: To ask the Secretary of State for Defence what the *(a)* average, *(b)* highest and *(c)* lowest number of days detached duty over the last 12 months was for each of the Royal Air Force pinch point trades identified in his Department's annual report and accounts 2005-06. [87035]

Mr. Watson: Separated service information for the period 1 April 2005 to 31 March 2006 is shown in the table[1].

The table shows all types of detachment including operational deployments (formed and non formed units). South Atlantic deployments and pre-deployment training, routine tasks, formal staff visits, non operational unestablished commitments such as the Royal International Air Tattoo and routine career training not associated with a planned operational deployment. Separated service for the RAF is only reported for absence of three or more consecutive nights.

	Average days	*Highest days*	*Lowest days*
Junior Officer Pilots	55	215	3
Weapons System Operators (Air load Masters)	60	215	3
Weapons System Operators (Linguists)	95	190	3
Operations Support (Fighter Controller)	50	205	3
Operations Support (Provost Security)	50	260	3
Medical Officers	65	260	3
Princess Mary RAF Nursing Service	50	185	3

[1] These figures are derived from information available as at 6 March 2006. The remainder of the data for the month of March is incomplete due to the introduction of the Joint Personnel Administration System on 1 April 2006.

Disability Access

David Simpson: To ask the Secretary of State for Defence whether any building in his Department falls short of disability access regulations. [73091]

Mr. Watson: Within the Ministry of Defence access requirements can vary between buildings, dependent on their use, occupancy and following a risk assessment. This Department acts within the disability regulations and Part M building regulations. Government Departments are subject to the Disability Discrimination Act 1995 which requires them to make reasonable access arrangements for disabled people.

Factors such as the practicability of making an adjustment to premises and the extent to which these overcome the difficulties faced by disabled people may be taken into account in determining what is reasonable.

Commanding officers and heads of establishments are responsible for defence establishments and carry out risk assessments in line with departmental guidance to ensure compliance with the Disability Discrimination Act and other relevant regulations.

Disabled Staff

Danny Alexander: To ask the Secretary of State for Defence how much was paid to his Department from the access to work scheme for adjustments for disabled staff in the last year for which figures are available; from what budget he plans to meet the costs of reasonable adjustments for disabled staff following withdrawal of access to work funding for central Government departments; and if he will make a statement. [89019]

Mr. Watson: Although the Ministry of Defence makes full use of Access to Work in assessing the needs of its disabled staff for reasonable adjustments in the workplace, it does not collect the numbers of disabled staff receiving adaptations and equipment paid for by access to work nor do we keep a central record of the associated costs for such reasonable adjustments.

The MOD currently funds all reasonable adjustments from a budget held centrally. This budget will be disaggregated to the MoD's business units with effect from April 2007. They will be responsible for funding all reasonable adjustments in the workplace in their areas.

Disarmament

Paul Flynn: To ask the Secretary of State for Defence if he will place *(a)* in the Library and *(b)* on his Department's website a copy of the presentation made by the Atomic Weapons Establishment to the 2005 nuclear non-proliferation treaty review conference on verification aspects of disarmament, referred to in paragraph 59 of his Department's annual report and accounts for 2005-06, HC1394. [86904]

Des Browne: The presentation to the 2005 nuclear non-proliferation treaty review conference related to the UK working paper on the Atomic Weapons Establishment's research into the verification aspects of nuclear disarmament. Following the review conference in May last year, it has been available on the FCO website (www.fco.gov.uk). I have now made it available on the MOD website (www.mod.uk) and will arrange for it to be placed in the Library of the House.

Engagements

Dr. Julian Lewis: To ask the Secretary of State for Defence if he will list the official visits made to major units and bases of the *(a)* Royal Navy, *(b)* Army and *(c)* Royal Air Force in each of the past three years by Ministers holding non-Defence portfolios. [56583]

Mr. Watson *[holding answer 6 March 2006]:* The information is not held centrally and could only be obtained at a disproportionate cost.

Equipment (Unaccounted)

Nick Harvey: To ask the Secretary of State for Defence what *(a)* weapons, *(b)* ammunition and *(c)* equipment could not be accounted for in each year since 2000. [64249]

Mr. Ingram: The information requested is not held centrally and could be obtained only at disproportionate cost.

Ethiopia

Mr. Drew: To ask the Secretary of State for Defence (1) whether modifications made to airframes of Ethiopian MiG fighters undertaken by Hunting Engineering prior to the Eritrea-Ethiopian conflict of 1998 to 2000 required the approval of his Department; what discussions took place between *(a)* his Department and *(b)* the Defence Advanced Research Projects Agency and (i) Hunting Engineering and (ii) the Ethiopian Government on this contract; and what the purpose of the modifications were; [65534]

(2) when he expects to answer Question 65534, on Ethiopian MiG fighters, tabled by the hon. Member for Stroud on 20 April. [84394]

Mr. Ingram: Available records for the period before the conflict between Ethiopia and Eritrea indicate that an official of the Defence Export Services Organisation (DESO) was briefed in December 1996 on the requirement of the Ethiopian Air Force to upgrade its MiG21 aircraft. Records indicate that DESO made arrangements for Ethiopian officials to visit the Defence Evaluation and Research Agency (DERA) and Hunting Engineering (now Insys) in March 1997. Subsequently, DERA won contracts for project management advice on the upgrade programme. We have found no evidence of discussions involving the Defence Advanced Research Projects Agency of the US Government. Nor have we found any record of actions by Hunting Engineering connected with the programme for which the approval of the Ministry of Defence was required.

Far East Civilian Internees

Mr. Andrew Smith: To ask the Secretary of State for Defence what progress has been made by the working group on the introduction of the 20-year residence criterion for the settlements for second world war far east civilian internees; and if he will make a statement. [85463]

Mr. Watson: I announced the agreement and implementation of the detailed rules for the new 20-year residence criterion for the ex-gratia payment scheme for former far east prisoners of war and civilian internees on 26 June 2006, *Official Report*, column 9. A copy of the detailed rules has been placed in the Library of the House. The Veterans Agency is presently writing to applicants who they are aware may qualify and the Association of British Civilian Internees Far East Region has agreed to highlight the implementation of the new criterion through their newsletter. In view of the age of those who may be eligible, we are working to consider applications as quickly as possible, and I am pleased to say that the first payment was made on the day of the announcement.

Helicopters

Dr. Fox: To ask the Secretary of State for Defence how many helicopters were in service with the *(a)* Army Air Corps, *(b)* Royal Navy and *(c)* Royal Air Force in each year since 1997. [84804]

Mr. Ingram: The number of Army Air Corps, Royal Navy and Royal Air Force in each year since 1997 is shown in the following table:

	Army Air Corps	*Royal Navy*	*Royal Air Force*	*Total*
1997-98	308	108	123	539
1998-99	300	107	144	551
1999-2000	288	113	146	547
2000-01	269	117	162	548
2001-02	262	181	161	604
2002-03	293	192	158	643
2003-04	308	193	158	659
2004-05	304	188	158	650
2005-06	310	212	157	679

Hospitals

Peter Viggers: To ask the Secretary of State for Defence what plans his Department has for facilities for afloat primary casualty receiving capabilities. [72581]

Mr. Watson *[holding answer 25 May 2006]*: RFA Argus is designated as the primary casualty reception ship. We are considering options for the future provision of afloat medical capability.

ICT Training

Mr. Harper: To ask the Secretary of State for Defence how many army recruits have undergone basic information and communications technology training in each year since 2001. [87700]

Mr. Watson: On enlistment, Army recruits join a Phase 1 training establishment and undertake an intensive 14-week period of basic training. During this period of basic training, there is no formal IT training provided.

Junior entry (JE) recruits at the Army Foundation College (AFC) undertake a 42-week course and IT training forms part of their vocational education leading to the award of a foundation modern apprenticeship. From financial year 2001-02 to 2005-06 5,080[1] JE soldiers completed their training at the AFC. This figure also includes those JE soldiers who passed through the Army Technical Foundation College Arborfield prior to its merger with the AFC in September 2004.

At those Phase 2 training establishments where trainees are required to have a comprehensive understanding of IT, such as the Defence College of Communications and Information Systems, soldiers receive appropriate IT training for them to be able to operate the Army's increasingly complex weapons and communication systems.

[1] Rounded to the nearest 10.

Injured British Servicemen (Treatment)

Nick Harvey: To ask the Secretary of State for Defence how many British troops were aero-medically evacuated from Iraq by US forces for treatment at US facilities in Ramstein, Germany in each of the last 12 months. [82052]

Mr. Ingram: In the last 12 months nine UK soldiers have been aero-medically evacuated from Baghdad to Ramstein by US forces.

All of them were subsequently returned to the United Kingdom and are included in our current TELIC Aeromed reporting published on the Ministry of Defence website.

International Anti-terror Exercise

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will make a statement on the Stepnoy Orel-2006 (Steppe Eagle) international anti-terror exercise; and what *(a)* UK and *(b)* international forces were involved. [54406]

Mr. Ingram: Exercise Steppe Eagle takes place annually, and focuses on increasing interoperability between Kazakh and UK—and, therefore, NATO—forces, in the realm of peace support operations. The exercise involves the deployment of a UK infantry company to Kazakhstan for joint training.

This year's exercise is due to take place at the beginning of September, and will comprise:

155 personnel from the 4th Battalion of The Duke of Lancaster's Regiment;

120 personnel from the Airmobile Forces of Kazakhstan.

Military officers from the United States, Turkey and Kyrgyzstan took an observer role in last year's Steppe Eagle. This year, 22 personnel from the United States will take part in the exercise itself, and there will again be Turkish observers.

Iraq

Dr. Kumar: To ask the Secretary of State for Defence what assessment he has made of the impact of British troops stationed in Iraq on threats to UK security. [82763]

Des Browne: The Ministry of Defence does not make assessments of the impact of UK military deployments on UK security. The Home Office is responsible for assessing threats to the UK. As the Prime Minister and the Foreign Secretary have said, the UK was a target for international terrorism before Iraq. Over the last 12 years there have been terrorist attacks in over 36 countries, not all of whom have been involved in—or even supported—military action in Iraq. There is no excuse or justification for terrorism and we cannot let our foreign policy be dictated by it. The establishment of a stable, democratic Iraq, enjoying the rule of law, will be our and Iraq's best defence against terrorism.

Mr. Moore: To ask the Secretary of State for Defence how many attacks on multi-national forces were recorded in the Iraqi provinces of *(a)* Al Basrah,

(b) Al Muthanna, *(c)* Dhi Qar and *(d)* Maysan in June 2006. [85618]

Des Browne: The following table sets out the number of attacks recorded against multi-national Forces in each province of multi-national division (south east) in June 2006.

Province	*Number of Attacks*
Al Muthanna	3
Basrah	38
Dhi Qar	2
Maysan	18

Danny Alexander: To ask the Secretary of State for Defence what estimate he has made of the number of people injured or killed in Iraq in the last 12 months for *(a)* wearing shorts, *(b)* wearing jeans, *(c)* wearing hair gels and similar products, *(d)* not wearing a hijab, *(e)* having a goatee beard, *(f)* wearing a necklace and *(g)* using a cell phone in public. [88540]

Dr. Howells: I have been asked to reply.

In recent months there has been an increase in the level of violence against some ethnic, religious and social groups in Iraq to which the Government of Iraq, with the backing of the multi-national forces in Iraq, have responded by tightening their security regime. Clearly, we condemn the use of violence against any groups but we do not compile statistics of such attacks. Among other things we are working with the Ministry of Human Rights to develop its capacity so that it can promote the fundamental concepts of inclusiveness that will help overcome any social movement against particular minority groups.

Danny Alexander: To ask the Secretary of State for Defence what assessment he has made of the extent of Turkish military activity in northern Iraq in the last 12 months; and if he will make a statement. [88542]

Des Browne: Turkey has maintained a limited number of troops in northern Iraq since the late 1990s. Coalition forces are aware of their presence. We are not aware of any of these troops being engaged in offensive operations in the last 12 months.

Sandra Osborne: To ask the Secretary of State for Defence what the average waiting time is for the issue of Iraq medals from when the application is received at the medal office on behalf of personnel who have completed the 30-day qualifying period. [86474]

Mr. Watson: The average waiting time for the issue of the Iraq medal is two months.

IT Contracts

Mr. Weir: To ask the Secretary of State for Defence (1) which IT contracts awarded by his Department in each of the last five years have been abandoned; and what the value was in each case; [88999]

(2) what the value was of each IT contract awarded by his Department in each of the last five years; and who the contractor was in each case; [88998]

(3) how many *(a)* USB (i) flash drives and (ii) memory sticks, *(b)* compact discs, *(c)* DVD-ROM discs, *(d)* laptop computers, *(e)* external computers hard drives, *(f)* internal computer hard drives and *(g)* desktop computers were purchased for use in his Department in each month since March 2005. [88769]

Mr. Watson: The information requested is not held centrally and could be provided only at disproportionate cost.

Joint Personnel Administration

Nick Harvey: To ask the Secretary of State for Defence what the average response time has been for joint personnel administration pay claims since the system was implemented. [88101]

Mr. Watson: The average time to pay claims into the banking system for short-term allowances claimed through the joint personnel administration system i-expenses tool is some 14 working days, although performance has improved steadily such that the July average is below five working days. Some claims do take longer than average to resolve when authorisation by the claimant's superior officer is required.

Nick Harvey: To ask the Secretary of State for Defence (1) what measures he has taken to address data errors transferred from legacy systems to the joint personnel administration system; [88102]

(2) what steps have been taken to minimise input errors in the operation of the joint personnel administration system. [88103]

Mr. Watson: Much of the RAF data were transferred from legacy systems to JPA by a team of RAF clerks to ensure that data input was effectively controlled. Wherever possible, data are input by using lists of values contained in drop-down menus which reduces the opportunity to input data incorrectly. Free text boxes are used in only a handful of scenarios where drop-down menus are deemed to be inappropriate. Where errors have been identified in data transferred from legacy systems the individual is encouraged to amend the details either through the self-service facility or though unit HR staff. Improved training packages for users are currently being developed.

Nick Harvey: To ask the Secretary of State for Defence what the average response time has been to complaints made through the i-query service for the joint personnel administration system since the system was implemented. [88104]

Mr. Watson: Currently 71 per cent. of joint personnel administrative telephone inquiries, (currently about 5,000 per week) are dealt with at first call. Up until 21 July 2006, the average response time to inquiries made via the web based i-support tool or by telephone, which could not be dealt with immediately, was 11.5 days. This compares with the customer charter target of 10 working days. The software tool which tracks queries does not distinguish between verbal and i-support queries.

Nick Harvey: To ask the Secretary of State for Defence whether he expects the armed forces personnel administration agency to meet the key targets for delivery of joint personnel administration. [88160]

Mr. Watson: The key target to roll-out joint personnel administration to the Royal Air Force by the end of March 2006 has already been met. I expect the key target for financial year 2005-06 to roll out to the Royal Navy and the Army by October 2006 and March 2007 respectively to be achieved.

The key target for the inquiry centre during financial year 2005-06 is for 75 per cent. of queries to be answered at the first call. While the initial volume of calls and early telephony problems have contributed to a current response rate of 71 per cent. for joint personnel administrative queries, I expect that the target will be met by the end of the financial year.

Nick Harvey: To ask the Secretary of State for Defence how much has been spent on joint personnel administration; and what the overall costs of the programme are expected to be. [88161]

Mr. Watson: As at 30 June 2006, £124.6 million had been spent on joint personnel administration. Based upon current forecasts, the overall cost of the programme is expected to be some £163.2 million. (The impact of adjustments to the programme to ensure alignment with the availability of defence information infrastructure is currently being assessed, but is likely to increase the forecast).

Nick Harvey: To ask the Secretary of State for Defence how many RAF personnel have been *(a)* overpaid and *(b)* underpaid under the joint personnel administration system since March 2006. [88163]

Mr. Watson: The number of RAF personnel who have experienced over and underpayments under the joint personnel administration system are set out as follows:

Month	*Overpayments*	*Underpayments*
April 2006	4,647	1,992
May 2006	400	775
June 2006	227	258
July 2006	94	75

Nick Harvey: To ask the Secretary of State for Defence how many full-time staff are employed on the joint personnel administration helpdesk. [88164]

Mr. Watson: Eighty four full-time equivalent staff (82 full-time and four part-time) are employed within the Enquiry Centre to cover the peak periods of enquiries from Royal Air Force personnel. Plans are well advanced to augment this number for the roll out of joint personnel administration to the Royal Navy.

Kosovo

Nick Harvey: To ask the Secretary of State for Defence how many designated dangerous areas the Kosovo protection corps cleared in each year since 2003; how many of the areas contained *(a)* cluster munitions and *(b)* BL-755 cluster munitions; how many designated dangerous areas remain to be cleared; and how many known locations of ordnance contamination remain to be cleared in Kosovo which are not within designated dangerous areas. [87834]

Des Browne *[holding answer 24 July 2006]:* The UK does not hold this information directly. Munitions clearance activity in Kosovo is monitored by the United Nations through their administrative mission in Kosovo as well as the UN Mine Action Service.

Lebanon

Andrew Rosindell: To ask the Secretary of State for Defence whether the British evacuation force in Lebanon will offer assistance to other countries that wish to evacuate their citizens. [88918]

Des Browne: The UK has already offered assistance to other countries that wished to evacuate their citizens from Lebanon; the UK has assisted with the evacuation of some 4,500 people, from over 50 different nations.

Mambas

Mr. Paterson: To ask the Secretary of State for Defence (1) whether he has carried out an evaluation of the use of Mambas formerly owned by his Department operated by Blackwater Security Consulting in Baghdad for personnel protection; and if he will make a statement; [83592]

(2) whether any *(a)* Foreign Office and *(b)* other UK officials have been transported in Mambas operated by Blackwater Security Consulting in Iraq; and whether this form of transport has been assessed as offering sufficient protection when travelling in areas where there is a risk of exposure to insurgent attack; [83593]

(3) what assessment his Department has carried out of the vulnerability of Mambas operated by Blackwater Security Consulting in Baghdad to attack by improvised explosive device; and whether any lessons learned will be applied to enhancing force protection for British troops in *(a)* Iraq and *(b)* Afghanistan. [83594]

Mr. Ingram: To my knowledge, no Foreign Office or other UK Government personnel have been transported in Mambas operated by Blackwater Consulting in Baghdad, though records may not cover such detail and the possibility cannot be excluded.

We have not carried out a specific evaluation of the use of Mambas by Blackwater Security Consulting in Baghdad for personnel protection, nor have we carried out a specific assessment of their vulnerability to improvised explosive device (IED) attack.

We do, though, make regular assessments of the threats facing UK forces (including that from IEDs) and of the potential vehicles available from manufacturers around the world that might help us defeat those threats. We use these assessments to keep our force protection measures, including tactics, techniques and procedures and equipment, under constant review.

On 26 June my right hon. Friend the Secretary of State for Defence informed the House that the Ministry of Defence was urgently reviewing the options for protected patrol vehicles, with a view to identifying what else could be done as quickly as possible and in the longer term. The RG-31, a more modern vehicle derived from the Mamba family, was considered, alongside a number of alternatives. On 24 July 2006, *Official Report*, column 75WS, he announced the results of the review.

We do not comment on the relative protection of our vehicles, or those used by our Allies, as to do so would prejudice the safety of our and our allies' personnel. The additional vehicles announced by the Secretary of State on 24 July will provide more options for commanders to use as they see fit to best meet the mission and counter the threat.

Military Aircraft

Andrew Rosindell: To ask the Secretary of State for Defence whether he plans to *(a)* procure more helicopters for and *(b)* employ more pilots in the Army. [88807]

Mr. Ingram: The future rotorcraft capability programme is considering how best to structure our helicopter fleets for the future. As part of this, we announced in January a capability sustainment programme for the upgrading of the Royal Navy's Merlin helicopters. We also announced in June an order for 70 new Future Lynx helicopters for use by the Royal Navy and Army.

There is currently no plan to increase the number of pilots in the Army.

Military Vehicles

Mr. Hancock: To ask the Secretary of State for Defence (1) what recent research he has *(a)* commissioned and *(b)* evaluated on the effectiveness of the Snatch Land Rover in protecting troops in (i) Iraq and (ii) Afghanistan; and if he will make a statement; [81600]

(2) what plans he has *(a)* to upgrade and *(b)* to replace Snatch Land Rovers operated by the Army in (i) Iraq and (ii) Afghanistan; and if he will make a statement. [81601]

Andrew Rosindell: To ask the Secretary of State for Defence (1) if he will estimate the cost of replacing the Snatch Land Rover used by the British Army with the RG-31; [83107]

(2) what plans he has to replace the Snatch Land Rover with another form of transport for the British Army. [83108]

Mr. Paterson: To ask the Secretary of State for Defence whether he will purchase a quantity of BAE Land Systems RG-31s for deployment in Iraq and Afghanistan to provide enhanced protection for Army patrols pending a longer-term review of more suitable vehicles. [82516]

Mr. Watson: I refer the hon. Members to the Statement my right hon. Friend the Secretary of State for Defence made on 24 July 2006, *Official Report*, columns 74-76WS. As he announced, the review recommended we buy around 100 Forces Protection Inc. Cougar, in addition to increasing the number of VECTOR vehicles being procured, and uparmouring and upgrading further FV430 vehicles. The Cougar is the vehicle best able to meet our requirement. It will provide an additional option for commanders to use as they see fit to best meet the mission and counter the threat. It will not replace the SNATCH land rover which will remain the most appropriate vehicle for some tasks.

Mr. Paterson: To ask the Secretary of State for Defence (1) what evaluation his Department has carried out of the *(a)* ADI Bushmaster Infantry Mobility Vehicle and *(b)* BAE systems Iraqi Light Armoured Vehicle in respect of the protection afforded from improvised explosive devices and other explosive devices; and how these vehicles compare with the Armoured Pinzgauer on order for British troops in Afghanistan; [82520]

(2) whether his Department has evaluated the potential role of the Force Protection Inc. Buffalo Mine Clearance Vehicle in operations in Southern Iraq; and what assessment he has made of the possible role these vehicles have in developing proactive measures to reduce the improvised explosive devices threat to British Army patrols in the region; [82521]

(3) what level of protection is afforded from mines and other explosive devices by the BAE Systems/OMC RG-31 when exploded *(a)* under any wheel and *(b)* under the cabin; and how this compares with the protection afforded by the Iveco Panther FCLV; [82522]

(4) what evaluations have been carried out by his Department of the BAE Systems Scarab Armoured Patrol Vehicle; and what level of protection is afforded by this vehicle from mines and other explosive devices when exploded *(a)* under any wheel and *(b)* under the cabin; [82523]

(5) whether his Department has carried out an evaluation of the protection offered by the US Navy Ultra concept vehicle project from the threat of *(a)* improvised explosive devices and *(b)* rocket-propelled grenade 7s. [82568]

Mr. Watson: I refer the hon. Member to the statement my right hon. Friend the Defence Secretary gave on 24 July 2006, *Official Report*, column 75WS. Among other vehicles, the review considered the BAES OMC RG-31, the ADI Bushmaster, the US Ultra Armoured Patrol concept vehicle and the Force Protection Inc Buffalo. As the Defence Secretary announced, the review recommended that we buy around 100 Force Protection Inc Cougar as the vehicle best able to meet our requirements.

In light of the review, it was also announced that we will be increasing the number of VECTOR vehicles being procured (a Pinzgauer-based protected patrol vehicle) to supplement SNATCH. We will be up-armouring and upgrading a further 70 FV430 vehicles beyond those already on order. To safeguard our and our allies' troops we do not comment on the detail of our vehicles' protection levels. However, the

need to provide enhanced protection against the key threats currently faced in Iraq and Afghanistan was a key factor in our decisions.

The BAES Scarab Armoured Patrol Vehicle was evaluated during the competition for the PANTHER Command and Liaison vehicle but was unsuccessful in that competition.

Ministerial Hospital Visits

John Penrose: To ask the Secretary of State for Defence how many visits by Cabinet colleagues to soldiers in hospital as a result of injuries sustained in overseas missions his Department facilitated in 2006. [87973]

Des Browne: The Ministry of Defence facilitates visits by the Prime Minister to soldiers injured on operations. These are treated as private occasions and we do not release details of such visits.

The MOD facilitated a visit by the Secretary of State for Health (Ms Hewitt) to injured soldiers at the Royal Centre for Defence Medicine in Birmingham in June 2006. This was part of a wider visit to Selly Oak NHS hospital.

The MOD has not facilitated any such visits by other Cabinet colleagues in 2006.

Nuclear Deterrents

Lynne Jones: To ask the Secretary of State for Defence pursuant to the memorandum on the UK's strategic nuclear deterrent provided by his Department to the Defence Committee in November 2005, whether his Department's *(a)* Ministers and *(b)* officials are in a position to agree to the Defence Committee's request for them to give evidence to their inquiry, "The Future of the UK's Strategic Nuclear Deterrent: The Strategic Context". [61294]

Des Browne: The Ministry of Defence has done all it can support the work of the Defence Committee on the future of the strategic nuclear deterrent. We produced an initial memorandum, which was published on 20 January 2006. My predecessor also discussed this issue with the Defence Committee in some detail on 1 November 2005, as did I during my oral evidence session on 11 July this year. We have provided a detailed and substantive response to the Committee's first report, which was published on 26 July this year, and also made arrangements for the Committee to visit key nuclear establishments over the summer recess. We will continue to do all that we can to support future inquiries by the Committee in this area.

Joan Walley: To ask the Secretary of State for Defence what requests he has received to give evidence to the Defence Committee on Trident replacement; and if he will make a statement. [65318]

Des Browne: We have received three requests from the House of Commons Defence Committee for information and evidence on the future of the UK's strategic nuclear deterrent. In response, we produced an initial memorandum, which was published on 20 January 2006. My predecessor also discussed this issue with the Defence Committee in some detail on 1 November 2005, as did I during my introductory session on 11 July this year. We have provided a detailed and substantive response to the Committee's first report, which was published on 26 July this year, and will continue to do all that we can to support future inquiries by the Committee in this area.

No decisions on any replacement for Trident have yet been taken, either in principle or in detail, but these will be taken later this year.

Official Visits

David Simpson: To ask the Secretary of State for Defence on how many occasions he has visited each region in an official capacity in the last 12 months. [84024]

Des Browne: The number of visits to the regions by Defence Ministers between 1 July 2005 and 10 July 2006 are shown in the following table:

	Secretary of State	*Minister for the Armed Forces*	*Minister for Defence Procurement*	*Under-Secretary of State*
South East	3	5	5	6
London	3	6	2	7
South West	5	6	12	2
East of England	1	1	1	3
West Midlands	1	0	2	7
East Midlands	0	—	2	1
Yorkshire and the Humber	0	1	0	2
North West	0	0	2	4
North East	0	0	0	0

Ordnance Expenditure

Mr. Llwyd: To ask the Secretary of State for Defence how much was spent on ordnance in *(a)* 2004 and *(b)* 2005. [73125]

Mr. Ingram *[holding answer 24 May 2006]*: The total spend in financial years 2004-05 and 2005-06 by the Defence Logistics Organisation on general munitions was £228 million and £199 million respectively.

Overseas Operations

Andrew Rosindell: To ask the Secretary of State for Defence what percentage of the British armed forces is serving on operations overseas. [83115]

Mr. Ingram: I refer the hon. Member to the answer I gave on 18 July 2006, *Official Report*, columns 350-52W.

Phone Cards

Mr. Iain Wright: To ask the Secretary of State for Defence if he will *(a)* increase the value and *(b)* extend the time of phone cards issued to armed forces personnel stationed overseas. [75905]

Mr. Ingram: As part of the operational welfare package, personnel serving on operations overseas are allowed 20 minutes of free telephone calls each week to anyone anywhere in the world. The financial allowance for people serving in non-operational locations overseas includes an element that is intended to cover the difference between the cost of 20 minutes of telephone calls in their location and the cost in UK.

Publicly funded telephone calls are only one component of both the operational welfare package and the calculation of local overseas allowance. While accepting that more time would be welcome, there is a balance to be struck against expenditure on other elements of support. The complete operational welfare package has recently been reviewed and the operational commanders do not see a need to re-balance it.

Piracy

Mr. Harper: To ask the Secretary of State for Defence how many seaborne attacks by armed gangs there were *(a)* in the Persian gulf, *(b)* in the vicinity of Umm Qast and *(c)* near the Basra oil terminal in (i) 2004, (ii) 2005 and (iii) 2006. [87704]

Mr. Ingram: I am unable to answer the question in the format requested. However, coalition statistics on the number of maritime criminal incidents that occurred in the north Arabian gulf in 2005 and 2006 are set out in the following table. Information relating to the number of incidents in 2004 is not held.

	Year	
Month	*2005*	*2006*
January	1	5
February	0	5
March	2	10
April	0	12
May	3	11
June	3	7
July	10	4
August	10	—
September	10	—
October	5	—
November	9	—
December	15	—

Procurement

Nick Harvey: To ask the Secretary of State for Defence whether defence integrity pacts are applied to all defence procurements. [88106]

Mr. Ingram: The Ministry of Defence has encountered a relatively low number of cases of corruption in relation to the volume and value of its contractual activity. The MOD does not use defence integrity pacts as an anti-corruption device because it considers that its existing, well established processes have served it well (see the 'Guideline for Industry—Code of Procurement Ethics' and the Defence Condition 520—'Corrupt Gifts and Payments of Commission', both available through the commercial toolkit at www.ams.mod.uk).

Public Appointments

Mr. Amess: To ask the Secretary of State for Defence how many public appointments are within his patronage; what *(a)* salary and *(b)* other emoluments are attached to each; and what the comparable figures were in (i) 1976, (ii) 1986 and (iii) 1996. [83186]

Mr. Watson: The Ministry of Defence sponsors 32 public bodies: six executive non-departmental public bodies; 24 advisory non-departmental public bodies; one public corporation and one independent monitoring board. In total, these Bodies comprise 424 public appointments. These 32 public bodies include the Defence Nuclear Safety Committee which was formed in 1999 and the Central Advisory Committee on War Pensions, plus 13 War Pension Committees, which moved over to the Ministry of Defence from what is now the Department for Work and Pensions in 2001.

Details of the public appointments to the public bodies sponsored by the Ministry of Defence can be found in 'Public Bodies', copies of which are in the Library of the House. 'Public Bodies' has been published annually since 1980 and the most recent edition provides figures for 2005. Each edition of 'Public Bodies' contains details on the number of public appointments and remuneration details for that particular year. Comparable information for 1976 in respect of Ministry of Defence could be provided only at disproportionate cost.

Between 1980 and 2001 'Public Bodies' published remuneration figures for both chairs and members of public bodies. This practice ceased in 2002 when the remuneration figures for Members were not included in the publication. The most recent details of remuneration for chairs (as at 31 March 2005) is published in 'Public Bodies'. Details are set out below in respect of the eight Ministry of Defence public bodies who remunerate its members; the remaining 24 do not.

Advisory Group on Medical Countermeasures

Member: £210 per meeting

Animal Welfare Advisory Committee

Member: £200 per day

Armed Forces Pay Review Body

Member: £300 per meeting/visit

Defence Nuclear Safety Committee

Member: £210 per day

Defence Scientific Advisory Council

Deputy Chair: £265 per day

Member: £210 per day

Nuclear Research Advisory Council

Member: £210 per day

Review Board for Government Contracts

Member: £7,370 per annum

Oil and Pipelines Agency

Member: £7,500 per annum

No public appointments to bodies sponsored by the Ministry of Defence attract emoluments beyond the remuneration referred to above.

QinetiQ

Mr. Gerald Howarth: To ask the Secretary of State for Defence what representations and warranties his Department has given to the QinetiQ joint bookrunners in the underwriting agreement; and if he will place a copy of the agreement in the Library. [47268]

Mr. Ingram: The Ministry of Defence gave certain limited warranties and representations to the joint bookrunners in the underwriting agreement. These were normal for a transaction such as the QinetiQ IPO. Broadly, they related to:

(i) the MOD's ownership of the shares;

(ii) the MOD's ability, as a matter of law, to sell the shares and to perform its other legal obligations in relation to the process;

(iii) the accuracy of certain prospectus statements relating to the policies, plans, views or expectations of the MOD, or to the terms of specific arrangements between the MOD and QinetiQ.

The Underwriting Agreement is a commercially confidential agreement and I am therefore unable to place a copy in the Library. However, a detailed summary of its key terms appears on pages 300-303 of the QinetiQ prospectus, a copy of which was placed in the Library of the House on 26 January.

Questionnaires

Mr. Amess: To ask the Secretary of State for Defence how many *(a)* questionnaires, *(b)* statistical inquiries and *(c)* investigations have been carried out wholly or partly at public expense on behalf of or by his Department or public bodies for which he is responsible in each year since 1997; and what the (i) nature, (ii) purpose and (iii) cost was of each. [83187]

Mr. Watson: This information is not held centrally and could be provided only at disproportionate cost.

Regma Biotechnologies

Andrew Mackinlay: To ask the Secretary of State for Defence on what basis and on whose authority Regma Biotechnologies was allowed *(a)* access to facilities and *(b)* to set up a laboratory at Porton Down; and if he will make a statement. [88366]

Des Browne *[holding answer 25 July 2006]:* Regma Biotechnologies was founded in December 1999 and commenced a three-year tenancy on the Porton Down science park on 17 July 2000.

The Porton Down science park was founded in October 1997 as a result of the defence diversification White Paper of November 1998. The aim was to work in partnership with other local research and development organisations to promote Porton Down, and to act as an incubator unit for small start-up biotechnology companies by allowing them access to the support infrastructure. The tenancy agreement with Regma was the same as for any other small start-up biotechnology company.

Andrew Mackinlay: To ask the Secretary of State for Defence on how many occasions Wouter Basson has been given access to Porton Down to visit Regma Biotechnologies; and if he will make a statement. [88367]

Des Browne *[holding answer 25 July 2006]:* Wouter Basson has not been given access to Porton Down to visit Regma Biotechnologies.

Reservists

Nick Harvey: To ask the Secretary of State for Defence how many Army reservists have been deployed on active service overseas in each of the last 10 years; and what proportion of the total number of Army reserve forces that figure represented in each year. [88105]

Mr. Watson: Numbers and percentages of regular and volunteer Army reservists mobilised each year since 1995 are shown in the following table:

	Reserves mobilised			*Proportion of reserve forces*		
	Regular	*TA*	*Total*[1]	*Regular*	*TA*	*Total*[2]
1995	240	450	690	0.5	0.9	0.7
1996	320	1,160	1,480	0.7	2.2	1.6
1997	230	650	880	0.6	1.3	1.0
1998	280	620	910	0.8	1.3	1.1
1999	340	840	1,180	1.0	2.1	1.6
2000	270	520	790	0.8	1.4	1.1
2001	300	620	920	0.9	1.8	1.3
2002	240	680	920	0.7	2.0	1.4
2003	150	8,220	8,370	0.5	25.1	13.1
2004	120	2,370	2,490	0.4	7.5	4.0
2005	50	1,300	1,350	0.2	4.1	2.1

[1] Total number of regular and volunteer (TA) reserves mobilised by 31 December of that year.

[2] Percentage of reserves mobilised as a proportion of the total strength of regular and volunteer (TA) reserve forces, excluding full-time reserve service (FTRS), non-regular permanent staff (NPRS) and officer training corps (OTC).

Note:

Figures have been rounded to the nearest 10, numbers ending in '5' have been rounded to the nearest multiple of 20 to prevent systematic bias. The sum of the parts may not therefore equal the total.

It is not possible to identify from central sources the exact number of mobilised reservists who deployed overseas. The table shows all mobilised reservists, irrespective of their deployment.

Science Applications International Corporation

Norman Baker: To ask the Secretary of State for Defence (1) what the total value was of contracts entered into by his Department with Science Applications International Corporation in each year since 1997; and if he will make a statement; [87569]

(2) what meetings took place between *(a)* Ministers and *(b)* officials of his Department and representatives of Science Applications International Corporation between January 2003 and December 2004. [87570]

Mr. Ingram: This information is not held centrally and could be provided only at disproportionate cost.

Scottish First Minister

Mr. Weir: To ask the Secretary of State for Defence when he last met the Scottish First Minister; and what subjects were discussed. [88775]

Mr. Watson: Ministers have regular dialogues with ministerial colleagues in the Scottish Executive, discussing a wide range of issues of mutual interest. It is not our practice to disclose details of such meetings.

Security Passes

Simon Hughes: To ask the Secretary of State for Defence how many security passes have been reported *(a)* lost and *(b)* stolen by staff in his Department by year since February 2004. [88563]

Mr. Watson: In the Ministry of Defence, all service personnel are issued with a service identity card, which is also used as a security pass to confirm identity for site access purposes. The following number of service identity cards have been reported as either lost or stolen since February 2004:

	Total
February to December 2004	10,266
January to December 2005	7,849
January to June 2006	4,616

It is not possible, without disproportionate effort, to separate the figures into sub-totals for those lost and stolen, due to the way the data are collated by the agency responsible for identity card production. Identity cards carry a photograph of the holder and have other features that inhibit their fraudulent replication.

MOD civilians are not routinely issued with identity cards, but provided with a site-specific security pass. Like the service identity card, the security pass carries a photograph and other features to inhibit fraudulent replication; unlike the service identity card the security pass is not readily identifiable as associated with the MOD. While the loss or theft of civilian security passes is reported at unit/establishment level, statistics are not collated centrally and therefore details of totals lost or stolen could be provided only at disproportionate cost.

Service Personnel

Willie Rennie: To ask the Secretary of State for Defence, how many service personnel recruited in Dunfermline and West Fife are serving in *(a)* Iraq and *(b)* Afghanistan. [88704]

Mr. Watson: This information is not held centrally and cannot be collated without incurring disproportionate cost.

Tim Loughton: To ask the Secretary of State for Defence (1) how many service personnel serving in Iraq have been diagnosed with a mental health condition since British forces were committed to the country; [88042]

(2) how many service personnel who have served in Iraq have been invalided out of the forces on grounds of mental illness; [88043]

(3) how many service personnel are receiving treatment for mental illness in *(a)* independent, *(b)* NHS and *(c)* Ministry of Defence medical establishments. [88044]

Mr. Watson: It can be difficult to determine the underlying causes of some mental health problems, some of which could be caused by a combination of other life events that occurred before or after service in any operational theatre.

A total of 1,541 personnel were referred to the Ministry of Defence departments of community mental health (DCMH) with possible mental health problems and subsequently identified as having a psychiatric disorder related to their service in Iraq in the years 2003 to 2005.

The following table shows the total number of personnel admitted for any cause under the agreement MOD has with the Priory Group for mental health in-patient care. The numbers are not specific to deployment on Operation Telic in the Iraq region:

Date from	*Date to*	*Number admitted*
1 December 2003	31 March 2004	58
1 April 2004	31 March 2005	321
1 April 2005	31 March 2006	351
1 April 2006	30 June 2006	71
Total		801

In 2003 and 2004, the following number of personnel were discharged from each Service due to mental and behavioural disorders:

Service	*Total discharged*[1]	*No. of those who had previously been deployed on Operation TELIC*[2]
Navy	62	5
Army	202	18
RAF	88	4

[1] These figures update those provided in a previous answer dated 21 July 2005, *Official Report*, column 2117W.
[2] This does not imply that discharge was directly or solely attributable to Operation TELIC.

The number of current and former service personnel treated by the NHS for mental health conditions since the beginning of the operation in Iraq is not known. Similarly, details of personnel who have been discharged as a result of a mental health condition that can be attributed specifically to service in Iraq and whose continued medical care has therefore been transferred to the NHS is not held centrally and to obtain it would require the examination of the individual medical records of every patient. These can only be viewed for non-clinical reasons with the express consent of the individual concerned, to protect patient confidentiality. To seek permission, and then to extract the information from the records, could be provided only at disproportionate cost.

Service Records

Susan Kramer: To ask the Secretary of State for Defence how many applications for release of service records from the second world war his Department has received since 1997; and how many such applications have been successful. [89083]

Mr. Watson: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Susan Kramer: To ask the Secretary of State for Defence what measures are in place to ensure consistency in decision making when considering whether to release service records following an application under the Freedom of Information Act 2000. [89106]

Mr. Watson: The Royal Navy, Army and Royal Air Force personnel staffs who answer such requests work to the same guidance and criteria in discharging MOD's duty to process personal data fairly and in accordance with the Freedom of Information Act. Key issues include whether the subject of the record is alive; whether the next of kin are making or are aware of the request; and the precise nature of the information held and requested. This inevitably involves case by case consideration of often complex circumstances. A number of reports of apparently inconsistent outcomes have led officials to launch a review with the aim of providing more detailed guidance on the release of information from service records. I will write to the hon. Member when that work is complete, which I expect to be before the end of the year.

Soldiers' Pensions

Willie Rennie: To ask the Secretary of State for Defence what average annual pension payment was received by Gurkhas in each year since 1997. [88795]

Mr. Watson: This information is not held and could be provided only at disproportionate cost.

Willie Rennie: To ask the Secretary of State for Defence what average annual pension payment was received by retired British soldiers in each year since 1997. [88796]

Mr. Watson: This information is not held and could be provided only at disproportionate cost.

Willie Rennie: To ask the Secretary of State for Defence what estimate his Department has made of the average total pension payments received by *(a)* a Gurkha soldier and *(b)* a retired British soldier during his lifetime. [88797]

Mr. Watson: This information is not held and could be provided only at disproportionate cost.

Staff Surveys

David Simpson: To ask the Secretary of State for Defence how many staff surveys have been conducted in his Department in each of the last three years. [70819]

Mr. Watson: Details of survey research conducted by the Ministry of Defence and its agencies are not held centrally and could be provided only at disproportionate cost.

Submarine Operations

Mr. Harper: To ask the Secretary of State for Defence what the *(a)* average, *(b)* highest and *(c)* lowest proportion of time was which submarine personnel spent on operations in the last three years. [87020]

Mr. Watson: The proportion of time that fleet submarines (SSNs) not in refit have spent away from their base ports on operations over the past three years is as follows:

Highest: 43 per cent.

Lowest: 6 per cent.

Average: 33.5 per cent.

The proportion of time submarine personnel spent on operations over the past three years will not exceed this range.

Submarine Sales (Canada)

Mr. Weir: To ask the Secretary of State for Defence whether the UK Government have paid any reparation to the Canadian Government following the fire aboard the HMCS Chicoutimi and the subsequent rescue mission. [88705]

Mr. Watson: No. The Board of Enquiry convened by Canada into the HMCS Chicoutimi incident attached no blame to the UK Government.

Mr. Weir: To ask the Secretary of State for Defence whether the UK Government have paid any reparation to the Canadian Government in relation to the four Upholder class submarines that were found to be damaged upon delivery to the Canadian Forces Maritime Command. [88706]

Mr. Watson: No. The four upholder class submarines were not damaged when they were handed over to, and accepted by, Canada.

Sudan

Andrew George: To ask the Secretary of State for Defence what assessment he has made of the merits of UK troops making up part of the proposed UN force in Sudan. [88614]

Des Browne: Her Majesty's Government welcomed the signing on 5 May 2006 of the Darfur peace agreement by the Government of Sudan and the Minni Minawi faction of the Sudan Liberation Movement/Army. We are urging all partners to support fully the implementation of the agreement, and the strengthening of the African mission in Sudan (AMIS) to meet the tasks contained within it.

To date, the UK has committed £52 million in financial support to AMIS. Additionally, through the European Union and at the request of the African Union, the MOD has provided two military advisers.

Separately, the UK has provided three staff officers, including the chief of staff, to the UN Mission in Sudan (UNMIS), mandated to support the implementation of the north-south comprehensive peace agreement.

If approved, UNMIS could be expanded to assume peacekeeping responsibilities in Darfur, taking over from AMIS. In preparation, and at the request of the UN, the MOD has deployed one military officer to the department of peace keeping operations in New York to assist with planning support.

We have no plans to deploy any further military personnel to Sudan.

Surface Ship Support

Mr. Gerald Howarth: To ask the Secretary of State for Defence what progress his Department has made in *(a)* exploring alternative contracting arrangements and *(b)* establishing the way ahead for contracting for surface ship support. [86661]

Mr. Ingram: A review of surface ship support arrangements concluded that the best way of achieving a sustainable, efficient and affordable surface ship support market for the future would be through the formation of an alliance. This was announced on 14 February 2006 and we are now working to take this forward. Agreement was reached in principle shortly after the announcement with the prospective Surface Ship Support Alliance (SSSA) partners (Devonport Management Ltd., Babcock International Group and Fleet Support Ltd.) on the work-share for the autumn 2006 upkeep packages. These packages of work will not be contracted under the yet-to-be-agreed alliance umbrella, but will instead form part of an initial test of principle for the alliance concept. Subject to affordability and this work continuing to offer best value when set against the Department's other priorities, it is intended to enter into contracts within the next few months.

Surplus Military Equipment

Mr. Heathcoat-Amory: To ask the Secretary of State for Defence whether the regulations relating to the disposal of drop tanks fitted to surplus military aircraft have been amended since 2000. [88741]

Mr. Ingram: No.

Mr. Heathcoat-Amory: To ask the Secretary of State for Defence what military aircraft have been disposed of since 1999; and what action was taken to de-militarise the unit in each case. [88742]

Mr. Ingram: Surplus aircraft sold by the Disposal Services Agency since 1999 are set out in the following table.

In accordance with current regulations all aircraft are declassified prior to disposal and have their weapon systems removed. The precise action followed will vary case-by-case.

	Number
Jet Provost	19
Jetstream	13
Schleicher Valiant Glider	4
BAC1-11	1
BAE 146	1
Buccaneer	6
Bulldog	107
Chipmunk	5
Canberra	5
Gnat	1
HS125	1
Harrier	44
Hunter	13
Jaguar	32
Schempp-Hirth Janus-C	1
Gazelle	65
Lynx	6
Sioux	2
Wessex	24
Whirlwind	5
VC10	2
Tornado	35
Puma	1
Hercules	4
Sea King	1
Viking Glider	4
Phantom	16
Scout	1
Hawk	1
Meteor	1
Andover	1
Tucano	2

This does not include aircraft disposed of as scrap.

Mr. Heathcoat-Amory: To ask the Secretary of State for Defence what information he has received on the extent to which surplus military equipment disposed of to non-governmental purchasers has been *(a)* exported and *(b)* used in hostilities overseas. [88743]

Mr. Ingram: None.

Mr. Heathcoat-Amory: To ask the Secretary of State for Defence if he will publish the rules relating to the disposal of military equipment to non-Government purchasers. [88744]

Mr. Ingram: The Ministry of Defence disposes of a wide range of surplus military equipment and extensive rules and regulations govern the disposal of specific items. There is no single set of general rules relating to the disposal of equipment to non-government purchasers.

It is, however, departmental policy that the contract of sale for any item will include terms and conditions covering re-use and eventual disposal as appropriate. All sensitive equipment is routinely demilitarised before sale, and any equipment that cannot be sold is disposed of or recycled in an environmentally sound manner. In addition, there are many types of military equipment that are not sold to the public as a matter of policy.

Mr. Heathcoat-Amory: To ask the Secretary of State for Defence whether he maintains a register of non-governmental buyers of surplus military equipment. [88745]

Mr. Ingram: No.

Unfinished Projects

Andrew Rosindell: To ask the Secretary of State for Defence if he will list projects undertaken in the last eight years at a cost of over £1 million which were not completed. [27622]

Mr. Ingram: This information is not held centrally and could be provided only at disproportionate cost.

University Air Squadrons

Mr. Bone: To ask the Secretary of State for Defence if he will take steps to ensure that there is no reduction in the number of university air squadrons and the level of flying training they provide. [87246]

Mr. Watson: There is no intention to reduce the number of university air squadrons. The hon. Member will be aware that a study has recently been commissioned to determine the optimum number and preferred locations of university air squadrons' air experience flights, which deliver their flying training.

UN Security Council Résolution 1325

Mr. Hancock: To ask the Secretary of State for Defence what plans he has to implement UN Security Council resolution 1325 on women, peace and security; and if he will make a statement. [88350]

Des Browne: I refer the hon. Member to the answer my right hon. Friend the Minister of State (Mr. Ingram) gave to the hon. Member for Plymouth, Sutton (Linda Gilroy) on 7 June 2006, *Official Report*, columns 627-28W.

Veterans

Mr. Harper: To ask the Secretary of State for Defence pursuant to the written answer of 19 July 2006, *Official Report*, column 506W, on veterans, what percentage of service leavers used the career Transition partnership upon leaving each of the armed services in the last period for which figures are available. [89021]

Mr. Watson: The percentage of service leavers using the career transition partnership varies from year to year, but for those discharged during the last year 2005-06, the take-up was 94.1 per cent. The equivalent figures for the previous four years are: 74.8 per cent in 2001-02; 86.5 per cent. in 2002-03; 79.6 per cent. in 2003-04 and 84.6 per cent. in 2004-05. Percentages by individual service are not available, since statistics have been collected on a tri-service basis that reflects the philosophy of delivering a common high quality resettlement provision to members of all three armed services.

Mr. Harper: To ask the Secretary of State for Defence pursuant to the written answer of 19 July 2006, *Official Report*, column 506W, on veterans, what the employment rates were for veterans *(a)* one month, *(b)* six months and *(c)* one year after leaving each of the services, broken down by age cohort in the last period for which figures are available. [89022]

Mr. Watson: Not all personnel who leave the armed forces want to continue to work. Of those service leavers who discharged in 2005 after using the career transition partnership (CTP) to prepare themselves for future employment and who have provided feedback on their post-discharge working status, nearly 57 per cent. had found employment on or before their final day of military service, and a further 13 per cent. within one month of discharge. Since CTP contract performance-related recording began in April 2000, about 95 per cent. of service leavers who accessed CTP support and wanted to work after departure from the armed forces were employed within six months of their discharge.

In keeping with the philosophy of providing a high quality resettlement service to all entitled military personnel who will be entering a common civilian job market, post-discharge employment success statistics are not maintained on leavers by service or age cohort. Also, no statistics are held on the civilian employment status of veterans beyond the six-months post-discharge point.

DUCHY OF LANCASTER

Criminal Offences

Mr. Clegg: To ask the Chancellor of the Duchy of Lancaster how many criminal offences her Department has created by Orders in Council in each year since 1997. [88479]

Hilary Armstrong: According to available records, none.

Departmental-issued Credit Cards

Mr. Hayes: To ask the Chancellor of the Duchy of Lancaster whether the Cabinet Office issues guidance to departments on civil servants making personal use of departmental-issued credit cards; and if she will make a statement. [87601]

Hilary Armstrong: No. Individual Departments issue guidance to their staff on the use of their corporate credit cards.

The Cabinet Office's guidance to its own staff makes clear that the Cabinet Office's corporate credit cards cannot be used for private purposes. The guidance also makes clear that misuse is a disciplinary offence.

Deputy Prime Minister

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster how many civil servants in the Cabinet Office provide support to the Deputy Prime Minister. [85667]

Hilary Armstrong: The Cabinet Secretariat, which is part of the Cabinet Office, provides support to the Deputy Prime Minister, as it does to Chairs of all Cabinet Committees The Cabinet Office Communication Group has developed the Deputy Prime Minister's website through its own web content management system at no external cost. It has also provided occasional support to the Deputy Prime Minister's press office to cover leave arrangements.

The Cabinet Office parliamentary Branch supports the Deputy Prime Minister's office in the handling of its parliamentary business.

In addition the Department's infrastructure division provides some support services for the Deputy Prime Minister and his office since they are still based in a building which is managed by the Cabinet Office.

Disabled Staff

Mr. Hunt: To ask the Chancellor of the Duchy of Lancaster what proportion of senior civil service staff are registered as disabled. [88889]

Hilary Armstrong: 2.8 per cent. of senior civil servants have declared that they are disabled (as at October 2005). Disability monitoring is conducted on a voluntary basis. We are working to improve representation of disabled people at senior levels and are committed to achieving our target of 3.2 per cent. disabled staff in the senior civil service by 2008.

Outsourcing

Mr. Gauke: To ask the Chancellor of the Duchy of Lancaster what her policy is on the civil service outsourcing administrative functions overseas. [81416]

Mr. McFadden: There is no central policy to outsource administrative functions overseas. It is up to individual Departments and agencies to decide what best meets their business needs.

CONSTITUTIONAL AFFAIRS

Community Safety Partnerships

Mr. Walter: To ask the Minister of State, Department for Constitutional Affairs what provision there is for potential employees of community safety partnerships to declare whether they have any history of being a party to domestic violence. [82082]

Mr. McNulty *[holding answer 29 June 2006]:* I have been asked to reply.

Unless the individual in question will be working with children or vulnerable adults, or will be working in one of the occupations (e.g. teachers) that requires such disclosure, there are no centrally mandated provisions for potential employees to declare whether or not they may have been party to domestic violence. Where an individual does fall into one of these categories details of previous convictions, cautions, reprimands and warning that are held on the police national computer are disclosable. In the event the person will be regularly caring for, training, or otherwise responsible for a young or vulnerable person then it may be appropriate to disclose information held by the police, but only where it would be proportionate and relevant.

Computing Equipment

Mr. Weir: To ask the Minister of State, Department for Constitutional Affairs how many *(a)* USB (i) flash drives and (ii) memory sticks, *(b)* compact discs, *(c)* DVD-ROM discs, *(d)* laptop computers, *(e)* external computer hard drives, *(f)* internal computer hard drives and *(g)* desktop computers were purchased for use in her Department in each month since March 2005. [88757]

Bridget Prentice: My Department purchased 12,758 desktop computers and 1,773 laptops during the period April 2005-June 2006. My Department does not hold central records for all other items requested and figures could be obtained only at disproportionate cost.

Councillors

Chris Ruane: To ask the Minister of State, Department for Constitutional Affairs what the average councillor to elector ratio was in the *(a)* richest and *(b)* poorest council wards in (i) Wales, (ii) Scotland, (iii) England and (iv) Northern Ireland in the most recent year for which figures are available. [87732]

Mr. Woolas: I have been asked to reply.

Local government councillor:elector ratios are a matter for the Electoral Commission in England, the Secretary of State for Northern Ireland, and the devolved administrations in Wales and Scotland.

We are not able to provide information in the form of the richest and poorest wards. However the Indices of Deprivation published by each country provide details of the most deprived areas for England, Wales, Scotland and Northern Ireland. They are based on a geography generally small than wards (Super Output areas or Data Zones in Scotland) and measure deprivation not affluence. For England, using 2004 Indices, the most deprived area is in Breckfield ward, Liverpool and the least deprived In Oakley and North Waltham ward, Basingstoke and Deane.

Chris Ruane: To ask the Minister of State, Department for Constitutional Affairs what the recommended ratio of councillor to electors is in *(a)* Wales, *(b)* Scotland, *(c)* England and *(d)* Northern Ireland. [87748]

Mr. Woolas *[holding answer 24 July 2006]:* I have been asked to reply.

Local government councillor:elector ratios are a matter for the Electoral Commission in England, the Secretary of State for Northern Ireland, and the devolved administrations in Wales and Scotland.

Chris Ruane: To ask the Minister of State, Department for Constitutional Affairs which 100 wards had the *(a)* highest and *(b)* lowest elector to councillor ratio in (i) Wales, (ii) England, (iii) Scotland and (iv) Northern Ireland in the most recent year for which figures are available. [87749]

Mr. Woolas *[holding answer 24 July 2006]:* I have been asked to reply.

Local government councillor:elector ratios are a matter for the Electoral Commission in England, the Secretary of State for Northern Ireland, and the devolved administrations in Wales and Scotland.

Courts Service

Mr. Chope: To ask the Minister of State, Department for Constitutional Affairs if she will defer the proposed restructuring of the Courts Service in Dorset, Gloucestershire and Wiltshire to take account of the new policy relating to restructuring of police forces. [87758]

Ms Harman: It is the intention of HM Courts Service to proceed with the restructuring of its administrative and courts boards areas, including Dorset, Gloucestershire and Wiltshire, by April 2007 and as agreed by the Lord Chancellor.

Criminal Offences

Mr. Clegg: To ask the Minister of State, Department for Constitutional Affairs how many criminal offences her Department has created by Orders in Council in each year since 1997. [88477]

Vera Baird: The information requested is not collected and to obtain it would incur a disproportionate cost.

Custody Plus

Simon Hughes: To ask the Minister of State, Department for Constitutional Affairs by which date the Government plan fully to implement proposals for Custody Plus. [88711]

Mr. Sutcliffe: I have been asked to reply.

In the Review of the Criminal Justice System published on 20 July we said that Custody Plus will not go ahead in autumn 2006 as previously planned. We shall not implement Custody Plus until we are satisfied that sufficient resources are available to allow this to proceed.

Deaf Services

Mrs. Gillan: To ask the Minister of State, Department for Constitutional Affairs what plans she has to protect the professional title of people qualified to work as language service professionals for deaf people. [86914]

Bill Rammell: I have been asked to reply as the Minister responsible for Further Education and Higher Education.

There is no recognised "professional title" for people working as language service professionals for deaf people. The Council for the Advancement of Communication with Deaf People (CACDP) is the registration body for professional British Sign Language/English Interpreters (for England, Wales and Northern Ireland) and UK wide for Lipspeakers, Speech to Text Reporters and Deafblind Manual Interpreters. For service providers who wish to obtain support for deaf people to access their services, CACDP produces a directory of registered interpreters and other language service professionals. The Government have no plans to regulate in this area.

Departmental Staff

Simon Hughes: To ask the Minister of State, Department for Constitutional Affairs how many of her Department's employees have been *(a)* dismissed, *(b)* suspended and *(c)* subject to disciplinary action for criminal activity in each year since 1997. [88456]

Bridget Prentice: Figures are available only to show those who were dismissed following disciplinary proceedings for gross misconduct resulting from involvement in criminal activity, since June 2003, as follows:

	Number
2003	1
2004	1
2005	2
2006	2

Figures are not available to show the numbers of employees who were suspended, although suspension would usually follow a charge of gross misconduct and has been mandatory in this type of case since April 2005.

Simon Hughes: To ask the Minister of State, Department for Constitutional Affairs how many staff members in her Department have been *(a)* prosecuted and *(b)* convicted following fraud charges since 1997. [88443]

Bridget Prentice: Information prior to June 2003 was not collected. Since June 2003, statistics have been collected showing those dismissed for gross misconduct and these would include those prosecuted and convicted of fraud. These statistics show that no staff have been dismissed as a result of a prosecution or conviction of fraud.

Disabled Staff

Danny Alexander: To ask the Minister of State, Department for Constitutional Affairs how much was paid to her Department from the Access to Work Scheme for adjustments for disabled staff in the last year for which figures are available; from what budget she plans to meet the costs of reasonable adjustments for disabled staff following withdrawal of Access to Work funding for central Government Departments; and if she will make a statement. [89012]

Vera Baird: The DCA has a team of dedicated local disability advisers, based in the regions, who assist in ensuring that the required reasonable adjustments, including specialist equipment and support, for people with disabilities are provided.

It is not possible to confirm the precise contributions made to the Department under the Access to Work Scheme over the last year without incurring disproportionate costs, as there is no central record held within DCA.

With effect from 1 October 2006, with the withdrawal of funding by Access to Work to employees of Central Government Departments, the DCA intends to continue its responsibility for financing and supporting any required reasonable adjustments for its own employees from the relevant budgets of DCA's internal service providers.

The Office of Disability Issues (ODI) will be monitoring the situation to ensure that there is no detriment to current and future employees who are disabled.

Hutton Inquiry

Norman Baker: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 14 June 2006, *Official Report*, column 1268W, on the Hutton Inquiry, on what basis the Lord Chancellor decided that the formal powers of the Tribunals and Inquiries Act 1921 were not necessary; and how and when it was made clear to Lord Hutton that he could ask for more powers. [80203]

Ms Harman: The Lord Chancellor decided that the formal powers of the Tribunals and Inquiries Act 1921 were not necessary in order to allow the inquiry to proceed quickly. It was made clear to Lord Hutton when he was appointed that he could ask for more powers.

IT Contracts

Mr. Weir: To ask the Minister of State, Department for Constitutional Affairs what the value was of each IT contract awarded by her Department in each of the last five years; and who the contractor was in each case. [89001]

Bridget Prentice: My Department holds IT contracts with Fujitsu Services; Sound Technologies Ltd. (STL); Accenture; Cable and Wireless; Oracle; and Microsoft.

The value of each contract is as follows:

Fujitsu Services (magistrates courts IT systems) in 2002 for £232 million over 8.5 years;

STL (magistrates courts IT systems) in 2003 for £38.5 million;

Accenture (magistrates courts IT systems) in 2003 for £36 million;

Cable and Wireless (for web-hosting) in 2002 for £1.5 million. Current value is £2.5 million because of increase to capacity to host additional services;

Oracle (providing licensing for staff to use Oracle software products). Total expenditure since 2003, when the contract was awarded, is £9.7 million;

Microsoft (Enterprise Licensing Agreement for all Microsoft products used within the Department as well as future versions released during contract period) in 2006 for £8.072 million over three years.

Mr. Weir: To ask the Minister of State, Department for Constitutional Affairs which IT contracts awarded by her Department in each of the last five years have been abandoned; and what the value was in each case. [89002]

Vera Baird: There have been no IT contracts abandoned by my Department in the last five years.

Magistrates

Dr. Vis: To ask the Minister of State, Department for Constitutional Affairs what measures are in place to monitor the sentencing practices of individual magistrates to ensure that they do not discriminate against black and minority ethnic people. [68124]

Mr. Sutcliffe: I have been asked to reply

The Home Office's five-year strategy for protecting the public and reducing reoffending, published in February 2006, outlined the commitment to work with judges, magistrates and other agencies to improve the quality of recording of ethnic monitoring data. This information will be used to ensure all those involved use that data to take action to ensure that black and minority ethnic offenders are being treated fairly by the system.

The Department for Constitutional Affairs has no specific measures to monitor the sentencing practices of individual magistrates. However, the Judicial Studies Board (JSB) through a variety of mechanisms ensures that diversity is addressed at all stages of a magistrate's development to ensure that they do not discriminate against black and minority ethnic people. The Magistrates National Training Initiative competence framework contains a number of knowledge and performance elements requiring magistrates to demonstrate an understanding of

"diversity and fair treatment issues, including the use of non-discriminatory language"

and magistrates are regularly appraised against these competences.

Simon Hughes: To ask the Minister of State, Department for Constitutional Affairs how many and what percentage of magistrates recruited in each year since 1997 were *(a)* women, *(b)* black or from another ethnic minority, *(c)* registered disabled and *(d)* under 30 in each Courts Service region in (i) Wales and (ii) England. [88505]

Ms Harman: The tables provide a breakdown. Figures are provided subject to:

Information on disability is not available. This has been collected systematically for approximately 18 months for new applicants only, and is therefore incomplete.

We collect information on magistrates' age in the bands under 40, 40 to 49, 50 to 59 and 60 to 69. Figures for those that were under 40 are not available for the years up to 2004.

The figures are not broken down by area because figures less than five are not quoted following established Government statistics guidelines for protecting the confidentiality of data subjects.

		BME		Female	
	Total number of appointees	Number	Percentage	Number	Percentage
1997[1]	1,682	110	6.53	852	50.65
1998[1]	1,573	95	6.03	809	51.43
1999[1]	1,609	105	6.52	793	49.28
2000[1]	1,743	133	7.63	859	49.28
2001[2]	1,618	137	8.46	784	48.45
2002[2]	1,786	148	8.29	859	48.1
2003[2]	1,623	132	8.1	785	48.4

[1] Figures as at 1 January each year.
[2] Figures as at 31 March each year.

		BME		Female		Age under 40	
	Total number of appointees	Number	Percentage	Number	Percentage	Number	Percentage
2004[1]	1,768	155	8.34	829	46.9	273	15.4
2005[1]	1,766	143	8.1	857	48.5	277	15.69
2006[1]	2,212	225	10.18	1080	48.83	336	15.19

[1] Figures as at 31 March each year.

Ministerial Meetings

Mr. Weir: To ask the Minister of State, Department for Constitutional Affairs when the Secretary of State last met the Scottish First Minister; and what subjects were discussed. [88773]

Vera Baird: Ministers have regular dialogues with ministerial colleagues in the Scottish Executive, discussing a wide range of issues of mutual interest. It is not our practice to disclose details of such meetings.

New Courts

Simon Hughes: To ask the Minister of State, Department for Constitutional Affairs which *(a)* magistrates courts, *(b)* Crown courts and *(c)* county courts have opened since 1995 in each parliamentary constituency. [88506]

Ms Harman: The following courts have been opened since 1995:

(a) Magistrates courts

	Year opened	Parliamentary constituency
Nottingham	1995	Nottingham South
Bromley	1996	Bromley and Chislehurst
Mansfield	1996	Mansfield
West London	1998	Hammersmith and Fulham
Hereford	2001	Hereford
Kidderminster	2001	Wyre Forest
Beverley	2001	Beverley and Holderness
Bridlington	2001	East Yorkshire
Worcester	2002	Worcester
Southampton	2002	Southampton, Itchen
Hull	2002	Kingston-upon-Hull West and Hessle
Haverford West	2003	Preseli Pembrokeshire
Redditch	2003	Redditch
Manchester City	2004	Manchester Central
Derby	2004	Derby North
Chesterfield	2004	Chesterfield
Warwick	2004	Nuneaton
North Somerset (Worle)	2006	Weston-super-mare

(b) Crown courts

	Year opened	Parliamentary constituency
Sheffield	1995	Sheffield Central
Kingston-upon-Thames	1997	Kingston and Surbiton
Reading	1997	Reading East
Ipswich	2004	Ipswich
Cambridge	2004	Cambridge

(c) Combined courts (Crown and County)

	Year opened	Parliamentary constituency
Canterbury	1995	Canterbury
Bournemouth	1996	Bournemouth East
Basildon	1996	Basildon
Exeter	2004	Exeter

(d) County courts

	Year opened	Parliamentary constituency
Yeovil	1995	Yeovil
Conwy and Colwyn	1995	Clwyd West
Torquay and Newton Abbott	1995	Torbay
Oldham	1997	Oldham West and Royton
Sheffield (family)	2004	Sheffield Central
Cambridge	2006	Cambridge
Liverpool Civil Justice Centre	2006	Liverpool Riverside
Shoreditch and Clerkenwell	2006	Islington South and Finsbury

Questionnaires

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs how many

(a) questionnaires, *(b)* statistical inquiries and *(c)* investigations have been carried out wholly or partly at public expense on behalf of or by her Department or public bodies for which she is responsible in each year since 1997; and what the (i) nature, (ii) purpose and (iii) cost was of each. [83189]

Bridget Prentice: This information is not held centrally and can be provided only at disproportionate cost.

HOME DEPARTMENT

"From Improvement to Transformation"

Mrs. Gillan: To ask the Secretary of State for the Home Department what steps he will take to ensure that the new non-executive directors identified under proposals in the document "From Improvement to Transformation" include representatives from Wales. [88259]

Mr. Byrne *[holding answer 24 July 2006]:* We are seeking non-executive directors who will add value to the Department by offering external advice and expertise in association with independence of thought to inform the decision-making process. To ensure openness, transparency and selection on merit, our non-executive director vacancies are being filled through open competition and we have welcomed applications from any candidate with the right mix of skills and experience, which includes an understanding of the sectors in which the Home Office operates.

Abduction Prosecutions

Mr. Burstow: To ask the Secretary of State for the Home Department how many people were prosecuted for abduction in London in 2004 in each London borough, broken down by *(a)* sex, *(b)* age and *(c)* nationality. [88508]

Mr. McNulty: Information on the number of defendants proceeded against and found guilty in courts in London for offences of abduction in 2004 are provided in the following table, broken down as requested. Data on the nationality of people convicted of an offence is not held centrally. This is because there is currently no legal obligation on people who are suspected, charged or convicted to declare their nationality and no sanction against them if they refuse to co-operate or they declare a nationality falsely. In a written ministerial statement of 19 July 2006, *Official Report*, column 29WS my hon. Friend the Minister for Immigration, Citizenship and Nationality (Mr. Byrne) set out the progress the Department is making to address this problem.

Number of defendants proceeded against in magistrates courts and found guilty at all courts in London for abduction offences[1] by age, sex and London court area, 2004[2,3,4]

	Male

[1] Includes offences related to 'abduction of children' and general abduction offences.
[2] These data are provided on the principal offence basis.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces and courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[4] There were no reported cases of abduction in City of London courts.

Air Miles

David Simpson: To ask the Secretary of State for the Home Department how many free air miles have been earned by senior civil servants in his Department in each of the last three years; and how they were used. [72881]

Mr. Byrne: The information requested could be provided only at disproportionate cost. Senior civil servants' travel is conducted in accordance with the Home Office guidance which makes clear that Air Miles should be used only for official purposes or else foregone. However, if it is impracticable to use the benefits for Government travel, there is no objection to senior civil servants donating them to charity if this is permissible under the terms of the airline's scheme and the charity is one chosen by the airline.

Actual Bodily Harm

Mr. Waterson: To ask the Secretary of State for the Home Department in how many cases of actual bodily harm were police cautions imposed in each of the last five years; and what proportion of such cases were first offences. [82525]

Mr. McNulty: Data on the number of people cautioned for offences relating to actual bodily harm (which covers minor injuries such as grazes, scratches and minor bruising), in England and Wales from 2000 to 2004, can be found in the following table. Information on whether or not such cases were first offences is not held centrally.

Number of persons cautioned for offences relating to actual bodily harm, in England and Wales[1,2], 2000-04

Statute	Offence description	2000	2001	2002	2003	2004
Offences against the Person Act 1861 Sec 47 (in part).	Assaults occasioning actual bodily harm (malicious wounding).	12,283	11,963	15,663	20,268	25,538
Offences Against the Person Act 1861 S47 as amended by the Crime and Disorder Act 1998 S29(1)(b) and (2).	Racially or religiously aggravated ABH[3].	85	72	110	129	169
Total		12,368	12,035	15,773	20,397	25,707

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces and other agencies. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] This includes the following offences: racially aggravated malicious wounding or inflicting grievous bodily harm, religiously aggravated ABH and racially or religiously aggravated ABH.

Office for Criminal Justice Reform

Alcohol Misuse Enforcement Campaign

Lynne Featherstone: To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of the Alcohol Misuse Enforcement Campaign; and if he will make a statement. [88649]

Mr. McNulty: The fourth national Alcohol Misuse Enforcement Campaign (AMEC 4) ran from 8 May to 8 June. The results from this campaign will be released shortly. Previous AMECs have been shown to be very effective in dealing with alcohol-fuelled crime and disorder, including town-centre violence and under-age sales of alcohol. Early indications are that AMEC4 saw the highest-yet level of activity by the police and trading standards officers. One of the purposes of AMEC4 was to set the tone of acceptable behaviour during the World Cup competition, and the relatively low level of disorder seen during the competition is testimony to its effectiveness.

Antisocial Behaviour

Chris Ruane: To ask the Secretary of State for the Home Department how many times *(a)* antisocial behaviour orders, *(b)* acceptable behaviour contracts, *(c)* warnings, *(d)* individual support plans, *(e)* action plan orders, *(f)* child safety orders, *(g)* referral orders, *(h)* parenting orders, *(i)* parenting contracts, *(j)* local child curfew schemes, *(k)* dispersal powers, *(l)* fixed penalty notices for disorderly behaviour, *(m)* detention and training orders, *(n)* seizure of vehicles used antisocially, *(o)* closure of licensed premises, *(p)* confiscation of alcohol from young people and *(q)* designated public places orders have been used in (i) each local authority and (ii) each police authority, broken down by basic command unit, in each region of England and Wales in each year since the introduction of the powers. [83766]

Mr. McNulty: Figures reported to the Home Office on *(a)* antisocial behaviour orders, *(b)* acceptable behaviour contracts, *(c)* final warnings, *(d)* individual support plans, *(e)* action plan orders, *(f)* child safety orders, *(g)* referral orders, *(h)* parenting orders, *(i)* parenting contracts, *(j)* local child curfew schemes, *(k)* dispersal powers, *(l)* fixed penalty notices for disorderly behaviour, *(m)* detention and training orders, and *(q)* designated public places orders by individual petty sessional area or police authority basic command unit are small and their accuracy cannot be guaranteed. However, information is available, either for England and Wales or at a local level or can be found on the web, as follows:

(a) Antisocial behaviour orders. A table giving a breakdown by the criminal justice system area and local government authority area in which prohibitions are imposed within antisocial behaviour orders is available on the Crime Reduction website at:http://www.crimereduction.gov.uk/asbos2(1a)sept05.xls. This table gives data by year since ASBOs were introduced up to 30 September 2005 (latest available).

(b) Acceptable behaviour contracts. The data are not available in the form requested. However, for the last two years the Home Office Anti-social Behaviour Unit has carried out a survey of Crime and Disorder Reduction Partnerships in England and Community safety Partnerships in Wales asking about their actions taken to tackle antisocial behaviour. From those who responded to the surveys the results are as follows:

Acceptable behaviour contracts

	Number
1 October 2003 to 30 September 2004	5,094
1 October 2004 to 30 September 2005	8,654

(c) Final warnings. Data on the number of final warnings given to juveniles are in Criminal statistics, Table 3B and available via the following web link: http://www.homeoffice.gov.uk/rds/crimstats04.html.

(d) Individual support plans. Data on individual support plans are not collected centrally, but seven individual support orders were made at magistrates courts, as reported to the Home Office by the Court Service, from 1 April 2004 to 31 December 2004 and 24 from January 2005 to 30 September 2005 (latest available).

(e), *(g)* and *(m)* Action plan orders, referral orders and detention and training orders. Tables S3.2A and S3.4A of Volume three of the Criminal Statistics Supplementary Tables show for magistrates courts and the Crown court respectively, the number of persons sentenced for indictable offences to action plan orders, referral orders and detention and training orders by

police force area. These can be found on the Home Office website at: http://www.homeoffice.gov.uk/rds/pdfs05/cs2004vol3pt2.xls and http://www.homeoffice.gov.uk/rds/pdfs05/cs2004vol3pt4.xls.

(f) Child safety orders. Two child safety orders were made during piloting in 1999 and two more were reported during 2003. New arrangements for the collection of historic and ongoing statistics about child safety orders are being considered in conjunction with the Department for Constitutional Affairs.

(h) Parenting orders. Parenting orders were piloted between 30 Sept 1998 and 31 March 2000 during which period 284 parenting orders were made of which 174 were made during criminal proceedings for offences committed by the child or young person but data showing the breakdown by area are not available. Parenting orders were commenced in England and Wales in June 2000. The Youth Justice Board (the YJB) collects the number of parenting orders by youth offending team area as reported to it by youth offending teams. (Table 1) which highlights the number of parenting orders made in England and Wales April 2000-March 2004 will be placed in the Library.

(i) Parenting contracts. The YJB collects the number of parenting contracts related to youth offending or antisocial behaviour by youth offending team area as reported to it by youth offending teams. Table 2 which highlights the number of Parenting Contracts made in England and Wales April 2000-March 2004 will be placed in the Library.

(j) Local child curfew schemes. No applications have been made to the Home Secretary for the approval of local child curfew schemes.

(k) Dispersal orders. Information about the use of dispersal powers can be found in the document "Tackling Anti-Social Behaviour: The Story So Far and The Move to Respect" on the Respect website at: http://www.respect.gov.uk/whats-being-done/Respect_Tackling_anti-social_behaviour_the_story_so_far_and_the_move_to_Respect.pdf

(l) Penalty notices for disorder. Data on the number of Penalty Notices for Disorder issued in 2004 broken down by police force area can be found at the following web link: http://www.homeoffice.gov.uk/rds/spnd.html.

(q) Designated public place orders. Information on the number of designated public places orders that have been introduced in each local authority area can be found at the following web link: www.crimereduction.gov.uk/alcoholorders01.htm.

We have started a programme of work in the Home Office looking at the quality of existing data and how this might be improved.

Statistics on *(n)* seizure of vehicles used anti-socially, *(o)* closure of licensed premises and *(p)* confiscation of alcohol from young people are not collected by the Home Office.

Note

Although care is taken in collating and analysing the returns used to compile these figures, the data are of necessity subject to the inaccuracies inherent in any large-scale recording system. These data have been extracted from large administrative data systems generated by the courts, police forces and other organisations. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department what advice is given to the national probation service on requests by accredited media for the release of visual images of those on whom an antisocial behaviour order is served; and if he will make a statement. [55614]

Mr. Sutcliffe *[holding answer 6 March 2006]:* A key part of each crime and disorder reduction partnership's (CDRP) antisocial behaviour strategy is promoting the community's awareness of actions taken to tackle specific problems. This includes ensuring that victims, witnesses and the community are aware of any ASBOs in force in their area. Publicity also helps the community to police such orders, acts as a deterrent to other potential offenders, and increases public confidence that local agencies are able to deal effectively with this type of problem. Publicity has to be proportionate to the achievement of these objectives, and is therefore the norm, not the exception.

CDRPs have access to guidance about ASBO publicity on the www.together website, which reflects the judgment given in R. (on application of Stanley, Marshall and Kelly) *v.* Commissioner of Police for the Metropolis and chief executive of London borough of Brent (2004) EWHC 2229 (admin), commonly referred to as Stanley *v.* Brent.

Mr. Clegg: To ask the Secretary of State for the Home Department pursuant to the answer of 19 July 2006, *Official Report*, column 537W, on antisocial behaviour orders, how many antisocial behaviour orders have been breached in each criminal justice area in each year since their introduction. [88391]

John Reid: Antisocial behaviour orders (ASBO) breach data are currently available for the period 1 June 2000 to 31 December 2003. Available information by Criminal Justice System (CJS) area is given in the following table. More up to date data are being validated before publication and will be published in due course.

Number of antisocial behaviour orders (ASBOs) breached as reported to the Home Office from 1 June 2000 to 31 December 2003

CJS area	Number of ASBOs breached
Avon and Somerset	17
Bedfordshire	12
Cambridgeshire	8
Cheshire	15
Cleveland	17
Cumbria	17
Derbyshire	11
Devon and Cornwall	8
Dorset	2
Durham	26
Essex	2
Gloucestershire	5
Greater London	46
Greater Manchester	138
Hampshire	20
Hertfordshire	9
Humberside	10
Kent	7
Lancashire	37
Leicestershire	4

Number of antisocial behaviour orders (ASBOs) breached as reported to the Home Office from 1 June 2000 to 31 December 2003

CJS area	Number of ASBOs breached
Lincolnshire	5
Merseyside	22
Norfolk	11
Northamptonshire	1
Northumbria	15
North Yorkshire	8
Nottinghamshire	13
South Yorkshire	24
Staffordshire	15
Suffolk	9
Surrey	4
Sussex	18
Thames Valley	8
Warwickshire	14
West Mercia	48
West Midlands	81
West Yorkshire	49
Wiltshire	3
England	759
Dyfed Powys	5
Gwent	5
North Wales	11
South Wales	13
Wales	34
Total England and Wales	793

[1] Breaches are counted in this table on a persons basis, i.e. multiple breaches (occurring at the same time), or where the order has been breached on more than one occasion, are all counted as one breach.

Note:
Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Mr. Sheerman: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued by Kirklees council in each year since their introduction. [88636]

Mr. McNulty: Antisocial behaviour orders are issued by the courts. Relevant authorities may apply for an order to be issued at the magistrates court, acting in its civil capacity, or the county court, where there are existing proceedings. The available information is given in the table.

Number of ASBOs issued at all courts, as reported to the Home Office by the Court Service, where prohibitions have been imposed in Kirklees metropolitan council local government authority area, by applicant, where applicable[1], and period, from 1 June 2000[2] up to 30 September 2005 (latest available)

	Kirklees metropolitan council	West Yorkshire police	Order on conviction[3]	Total
1 June 2000 to 31 December 2000				
2001	4	—	—	4
2002	3	2	—	5
2003	11	—	1	12
2004	6	—	17	23
1 January 2005 to 30 September 2005	9	—	8	17
Total	33	2	26	61

[1] Applicant details are collected on those orders issued in the civil courts on application.
[2] From commencement (1 April 1999) to 31 May 2000 data were collected on aggregate numbers only by police force area.
[3] Following introduction of the Police Reform Act (2002) ASBOs are available to the courts following conviction of a criminal offence.

Note:
Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Simon Hughes: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued since their introduction; how many have been breached; and how many breaches have resulted in a custodial sentence. [88718]

Mr. McNulty: From commencement, 1 April 1999 to 30 September 2005 (latest available) the number of antisocial behavior orders (ASBOs) issued within England and Wales was 7,356.

ASBO breach data only ever cover breach proceedings where there has been a conviction. Those data are currently available for the period 1 June 2000 to 31 December 2003 for ASBOs issued since 1 June 2000. During this period, of the 793 persons convicted for breaching their ASBO, on one or more occasions, 186 received a custodial sentence for breach of ASBO only.

More up to date breach data are being validated before publication and will be published in due course.

Mr. Flello: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued by *(a)* Stoke-on-Trent, *(b)* Birmingham and *(c)* Nottingham city council in each of the last three years. [82303]

Mr. McNulty: Antisocial behaviour orders are issued by the courts. Relevant authorities may apply for an order to be issued at the magistrates court, acting in its civil capacity, or the county court, where there are existing proceedings. The available information is given in the table.

Number of ASBOs issued at all courts, as reported to the Home Office by the Court Service, where prohibitions have been imposed in specified local government authority (lga) areas, by applicant, where applicable[1], and period

Lga area/type of applicant	*2003*	*2004*	*2005[2]*	*Total*
Stoke-on-Trent City council	8	21	20	49
of which				
Local authority applicant	—	2	3	5
Other applicant	—	2	—	2
Order on conviction	8	17	17	42
Birmingham city council	25	72	76	173
of which				
Local authority applicant	2	10	23	35
Other applicant	4	1	3	8
Order on conviction	19	61	50	130
Nottingham city council	9	48	50	107
of which				
Local authority applicant	2	1	19	22
Other applicant				
Order on conviction	7	47	31	85

[1] Applicant details are collected on those orders issued in the civil courts on application.
[2] From 1 January to 30 September 2005 (latest available).

Sarah Teather: To ask the Secretary of State for the Home Department how many antisocial behaviour orders were issued in each London borough in each of the last five years to *(a)* under 12 year olds, *(b)* 12 year olds, *(c)* 13 year olds, *(d)* 14 year olds, *(e)* 15 year olds, *(f)* 16 year olds, *(g)* 17 year olds and *(h)* 18 years and over, broken down by *(i)* sex and (ii) ethnicity. [87706]

Mr. McNulty: The information requested is given in the table, a copy of which will be placed in the Library. Ethnicity is not collected centrally as part of the data collection of antisocial behaviour orders issued.

Counter-terrorism

Mr. Holloway: To ask the Secretary of State for the Home Department what assessment he has made of his Department's progress in implementing the 12-point anti-terrorism plan announced by the Prime Minister on 5 August 2005. [54923]

Mr. McNulty: I refer the hon. Member to the written ministerial statement which I made on 15 December 2005, *Official Report*, column 167-171WS which gave a full progress report on the 12-point plan outlined by my right hon. Friend the Prime Minister on 5 August 2005.

There has been significant progress in the period since 15 December 2005. A Memorandum of Understanding has been signed with Lebanon and the Terrorism and the Immigration, Asylum and Nationality Bills, which will enable us to give effect to a number of elements of the plan, are well advanced in their parliamentary passage.

As indicated in my written ministerial statement, a further comprehensive report on progress will be given before the summer recess

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what plans his Department has implemented to prevent a future terrorist attack in the UK. [74265]

Mr. McNulty: The Government's counter terrorism strategy—known as CONTEST—was published on 10 July and explains the framework we have implemented to prevent a future terrorist attack in the UK. The Government are necessarily limited in what they can say about our counter-terrorism measures but the publication does give information about specific initiatives where it is possible to do so.

The strategy is wide-ranging involving the whole of Government, international partners and agencies, including the police and intelligence agencies and our citizens in the UK from all communities. It is structured around four principal strands which are closely linked and together form an integrated and balanced approach. The strands focus on preventing terrorism through tackling the radicalisation of individuals; pursuing terrorists by disrupting their operations; protecting the UK's key assets at home and abroad; and ensuring that the UK is prepared to deal with the consequences of a terrorist attack.

Application Registration Cards

Damian Green: To ask the Secretary of State for the Home Department how many people given conditional temporary admissions to the UK had their Application Registration Card removed because of failure to meet the specified conditions between 1 January and 30 June. [85346]

Mr. Byrne: Current policy is that an ARC should only be taken from an applicant upon a grant of leave, prior to removal, or where there are grounds to suspect that the card has been falsified. Data on impounded Application Registration Cards (ARC) are not routinely kept.

Approved Premises

Mr. Dismore: To ask the Secretary of State for the Home Department how many approved premises there are in England and Wales; and how many places there are in such premises. [87793]

Mr. Sutcliffe: There are 104 Approved Premises in England and Wales. On 28 February, the latest date for which figures are available, 2,273 bed spaces were approved by the Secretary of State under Section 9 of the Criminal Justice and Court Services Act 2000 for use by residents.

Mr. Garnier: To ask the Secretary of State for the Home Department how many bail hostels there are in England and Wales; where they are located; and what

his Department's criteria are for admission as a resident by *(a)* offenders and *(b)* defendants on remand. [88812]

Mr. Sutcliffe *[holding answer 25 July 2006]*: There are 104 Approved Premises (formerly known as bail and probation hostels) located throughout England and Wales.

Under section 9 of the Criminal Justice and Court Services Act 2000, Approved Premises may admit defendants on bail in criminal proceedings, offenders serving community sentences and offenders on post-custodial licences. In addition, with the approval of the Secretary of State, some voluntary residents may be accommodated for public protection, supervision or treatment reasons.

Mr. Garnier: To ask the Secretary of State for the Home Department how many residents there are at the Ryecroft Bail Hostel, Gloucester; what offences have been committed by each; how many are on *(a)* life sentence licence and *(b)* other post-custody licences having committed offences of (i) murder or manslaughter and (ii) rape or other sexual offences against (A) adults and (B) children; how many are on the sex offenders' register; how many are on tags or curfews; how many supervising staff are employed at the hostel; what their qualifications are; and what discussions he and his officials have had and on which dates with (1) their counterparts from the Department for Education and Skills, (2) hon. Members and (3) members and officials of (x) Gloucester city council and (y) Gloucestershire county council about the residents of the hostel. [88813]

Mr. McNulty: Ryecroft is approved by the Secretary of State to accommodate a maximum of 16 residents. Actual occupancy will vary on a day to day basis. Statistical information about the type of offences committed by offenders residing at an approved premises and the licence conditions to which they are subject at any one time is not collected centrally. Certain offenders are placed in approved premises, where they can be closely monitored by offender managers and by staff in approved premises. Since offenders are managed locally, it is appropriate that local offender managers should have comprehensive information on offenders, including the type of offence they have committed. Information about the numbers of staff at individual approved premises and their qualifications is not collected by the Home Office.

A meeting to discuss proposals to vary the admissions criteria at Ryecroft approved premises was held in August 2005. This was attended by the local MP, a Home Office official and representatives of the Gloucestershire probation area. The latter have had ongoing discussions about the proposals with representatives of the city and county councils.

Arabic Interpreters

Lynne Featherstone: To ask the Secretary of State for the Home Department how many Arabic interpreters are available to the police, broken down by police authority area. [86812]

Mr. McNulty: We do not hold information on the supply of interpreters in particular languages to individual police forces. Code C issued under the Police and Criminal Evidence Act 1984 states (at paragraph 13.1) that chief officers of police are responsible for ensuring appropriate arrangements are in place for people who cannot speak English and provides that interpreters should be drawn from the National Register of Public Service Interpreters. There exists more detailed national guidance regarding interpreters in the criminal justice system and this is currently under review by the Office for Criminal Justice Reform, with the Association of Chief Police Officers and other interested parties. The National Register of Public Service Interpreters is maintained by a not-for-profit limited company, which is a subsidiary of the Chartered Institute of Linguists. I understand that there are 120 Arabic interpreters on the current Register and that many of these are available to work in more than one police area.

Arrests (Firearm Smuggling)

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people have been arrested for attempting to smuggle a firearm into the UK in each of the last five years; and what average sentence was imposed on those convicted. [86790]

Mr. Sutcliffe: Information on arrests collected centrally in England and Wales is based on persons arrested for "notifiable" offences by main offence group only and does not identify individual offences.

It is not possible to identify from the Home Office Court Proceedings Database (which relates to England and Wales) the offence of attempting to smuggle a firearm into the country.

Information relating to Northern Ireland and Scotland is a matter for the Northern Ireland Office and the Scottish Executive respectively.

Assaults

David Davis: To ask the Secretary of State for the Home Department how many attacks there have been on *(a)* prison officers and *(b)* probation officers in each (i) prison and (ii) probation service area in each of the last five years. [89149]

John Reid: The following table details the number of assaults on staff by prisoners for the last five years as reported on the central incident reporting system for prisons in England and Wales. It is not possible to differentiate the grades of staff assaulted from these central records. There are no central records on the number of assaults that take place on probation officers in probation service areas.

Number of assaults on staff by prisoners for the last five years in prisons in England and Wales

	Prisoner on prison staff assaults
2001	2,468
2002	2,587
2003	2,604
2004	2,887
2005	3,209
Total	13,755

Asylum/Immigration

Mr. Love: To ask the Secretary of State for the Home Department what *(a)* essential needs and *(b)* minimum weekly costs of unsuccessful asylum seekers his Department is required to meet; and if he will make a statement. [64109]

Mr. McNulty: Destitute unsuccessful asylum seeking families with minor dependants normally continue to receive support under section 95 of the Immigration and Asylum Act 1999. The average cost of section 95 support, including accommodation and subsistence, from un-audited April 2005 to November 2005 financial information, is estimated at £141 per person per week. Other destitute unsuccessful asylum applicants who meet the eligibility criteria may be supported under section four of the Immigration and Asylum Act 1999. Support is normally provided in self-catering accommodation with vouchers provided for the purchase of food and essential toiletries. The average cost of section four support for the period April 2005 to November 2005 is estimated at £129 per person per week.

Norman Baker: To ask the Secretary of State for the Home Department how many Russian nationals have been granted political asylum since 1 January 2005; and how many of them *(a)* were facing criminal charges in Russia and *(b)* have been subject to requests for extradition by the Russian authorities. [84172]

Mr. Byrne *[holding answer 10 July 2006]:* 25 (rounded to the nearest five) Russian nationals have been granted asylum between 1 January 2005 and 31 March 2006. According to management information figures, four of those have also been the subjects of requests by the Russian Federation for extradition.

Martin Linton: To ask the Secretary of State for the Home Department what the average cost of processing an asylum application, including support, is according to the most recently available figures. [84812]

Mr. Byrne: The most recently audited figure for the average cost of processing an asylum application in the Immigration and Nationality Directorate, including support, is £3,050. This figure represents the average cost for asylum screening and initial decision but excludes legal aid and is derived from the National Audit Office report "Improving the Speed and Quality of Asylum Decisions", HC535 Session 2003-04, publication date 23 June 2004.

Jeremy Corbyn: To ask the Secretary of State for the Home Department how many asylum applications were received from Somalia in each of the last five years; how many have been in 2006-07; how many of these have been (i) approved, (ii) rejected and (iii) not determined; and how many Somali people have been returned under immigration law. [85003]

Mr. Byrne *[holding answer 17 July 2006]:* Available information on asylum applications, initial decisions, appeals and removals for nationals of Somalia are published quarterly and annually. Copies of these publications are available from the Library and from the Home Office Research, Development and Statistics website at http://www.homeoffice.gov.uk/rds/immigration1.html. The next publication covering the second quarter of 2006 will be published on the 22 August 2006.

David T.C. Davies: To ask the Secretary of State for the Home Department what the daily food budget is per person for asylum seekers in asylum seeker detention centres. [85101]

Mr. Byrne: The average daily cost of detaining a person in an immigration removal centre is £116. This includes the cost of providing three meals a day for each detainee.

Jim Cousins: To ask the Secretary of State for the Home Department how many asylum seekers whose cases failed had an address in the city of Newcastle upon Tyne at the point of failure in each year from 2000 to 2005. [86567]

Mr. Byrne: Available statistics on the location of asylum seekers in the UK are linked to the available information on the support that the asylum seeker receives. The numbers of asylum seekers supported by the National Asylum Support Service (NASS) are published on a quarterly and annual basis, broken down by local authority. Data on asylum seekers supported by NASS broken down by parliamentary constituency are also available from the Library of the House.

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department how many asylum applications were received from *(a)* Sierra Leone, *(b)* Indonesia, *(c)* the Democratic Republic of Congo and *(d)* Angola in each of last five years; how many have been received from each country in 2006-07; how many have (i) been approved, (ii) been rejected and (iii) not been determined in each case; and how many people from each country have been returned under immigration law. [86884]

Mr. Byrne *[holding answer 24 July 2006]:* The information requested is not available. Information on asylum applications, initial decisions, appeals and removals by nationality are published quarterly and annually. Copies of these publications are available from the Library of the House and from the Home Office Research, Development and Statistics website at http://www.homeoffice.gov.uk/rds/immigration1.html. The next publication covering the second quarter of 2006 will be published on the 22 August 2006.

Greg Clark: To ask the Secretary of State for the Home Department how many removals of failed asylum applicants have been made in the last *(a)* one, *(b)* three and *(c)* 12 months. [85747]

Mr. Byrne *[holding answer 14 July 2006]:* Information relating to the number of removals of asylum applicants is available from the Quarterly Asylum Statistics bulletin published in May 2006. At present the latest figures available correspond to the first quarter of 2006. Statistics on immigration and asylum, including the Quarterly Asylum bulletin,

are available on the Home Office's Research, Development and Statistics website at: http://www.homeoffice.gov.uk/rds/immigration1.html

Greg Clark: To ask the Secretary of State for the Home Department what the difference has been between the number of failed asylum seekers removed and the number of new applications for asylum in each of the last 12 months. [85749]

Mr. Byrne *[holding answer 14 July 2006]:* Information on the number of failed asylum seekers removed and the number of new applications for asylum has been published as part of the public performance target: removing more failed asylum seekers than new anticipated unfounded applications. Copies of this report are available at the IND website: http://www.ind.homeoffice.gov.uk/6353/aboutus/tippingpointsresults.pdf

Greg Clark: To ask the Secretary of State for the Home Department whether any person granted family indefinite leave to remain since October 2003 had at the time of approval *(a)* a criminal conviction and *(b)* been the subject of (i) an antisocial behaviour order and (ii) a sex offender order. [85750]

Mr. Byrne *[holding answer 14 July 2006]:* I am advised that from the Immigration and Nationality Directorate internal records we are aware that we have, due to the exceptional nature of their cases indefinite leave to remain was granted to three families, where the applicant had an unspent criminal conviction for a recordable offence. None of these people were the subject of an antisocial behaviour or a sex offender order. In addition, four cases involving unspent convictions for non-recordable offences were also granted on a discretionary basis due to exceptional circumstances.

Greg Clark: To ask the Secretary of State for the Home Department how many people have been granted family indefinite leave to remain (ILR) in each *(a)* month, *(b)* quarter and *(c)* year since the family ILR exercise began. [85751]

Mr. Byrne *[holding answer 14 July 2006]:* Information on the Family ILR Exercise is published quarterly and annually. Copies are available from the Library and on the Home Office Research Development and Statistics Directorate website at:

<http://www.homeoffice.gov.uk/rds/immigration1.html>

Month	*Indefinite leave to enter (ILE)*	*Indefinite leave to remain (ILR)*	*Grand total*
2004			
January	5	60	65

Mr. Lancaster: To ask the Secretary of State for the Home Department how many former members of the armed forces from *(a)* Commonwealth and *(b)* other countries subsequently applied to become British citizens in each year since 1997. [85805]

Mr. Byrne: An applicant's former or current occupation is not separately recorded and these statistics could be obtained only at disproportionate cost.

Damian Green: To ask the Secretary of State for the Home Department what estimate he has made of the number of asylum seekers who are not complying with reporting requirements to the Immigration and Nationality Directorate. [85865]

Mr. Byrne: Since April 2005 we have been monitoring the level of compliance with reporting requirements. Individuals who are placed on a reporting restriction are required to report at a reporting centre or a police station at regular intervals. This interval will vary from a daily reporting event up to reporting each month depending upon individual circumstances. Information we have indicates that four out of five of all planned reporting events in 2005-06 took place.

Mr. Clegg: To ask the Secretary of State for the Home Department how many detainees held under immigration powers are on hunger strike in each institution. [85397]

John Reid: We record detainees who have refused to eat the meals provided. Records indicate that on 12 July there were three detainees who had refused to take the meals provided for three days or more. I am advised that one person is detained at Colnbrook and two are detained at Harmondsworth. All three are taking fluids and two are known to be buying food from the centre's shop.

Mr. Walter: To ask the Secretary of State for the Home Department how many children have been detained for 21 days or more in immigration detention centres in each of the last 10 years. [75518]

Mr. Byrne: Period statistics covering October to December 2005 have been published in the latest Quarterly Asylum bulletin. Published editions of this bulletin and other information on immigration and asylum are available on the Home Office's Research Development and Statistics website at: http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Amess: To ask the Secretary of State for the Home Department if he will make a statement on the operation of Regulation *(a)* 364, *(b)* 365, *(c)* 366, *(d)* 367 and *(e)* 368 of the Immigration Rules; what recent representations he has received about the operation of rules; and whether he plans to amend these rules. [70361]

Mr. Byrne: In all cases the Immigration Rules (paragraph 364) require that the Secretary of State will take into account all relevant factors, including those listed in paragraph 364, known to him before a decision to deport is taken.

Where a spouse, civil partner, or dependent child under the age of 18 of a person who is or has been deported are themselves liable to deportation, the case must, in addition, be considered in accordance with the requirements of paragraphs 365-68 of the Immigration Rules.

On 19 July my right hon. Friend the Home Secretary laid a statement of change to the Immigration Rules. This amends paragraph 364 of the rules to set out that where an individual is liable to deportation the presumption will be that the public interest requires deportation. While the Secretary of State will consider all relevant factors in deciding whether this presumption is outweighed in any particular case it will only be in exceptional circumstances that the public interest will be outweighed in a case where it would not be contrary to our international obligations to deport.

Paragraphs 365 to 368 of the rules, which relate to spouses, civil partners and children of persons against whom a deportation order has been made, are not being substantively amended at this time but paragraph 367 is being amended to reflect the changes to paragraph 364.

My right hon. Friend the Home Secretary also reported to the House on the progress of the eight priority areas for management action to improve the way the Department deals with the deportation of foreign national prisoners. We will keep the Immigration Rules relating to deportation under review in the light of that work.

David Davis: To ask the Secretary of State for the Home Department how many Immigration Service staff were employed at UK *(a)* seaports and *(b)* airports in each of the last five years. [87297]

John Reid: Overall, numbers of Border Control staff have risen.

In 2001 the figure for full-time equivalent immigration control staff was 1,830.2, in 2002 the figure was 2,194, in 2003 the figure was 2,322.7, in 2004 the figure was 2,474.7, in 2005 the figure was 2,501.4 and in 2006 the figure is currently 3,594.6.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many prosecutions have been made under the Immigration, Asylum and Nationality Act 2006. [88653]

Mr. Sutcliffe: Information on prosecutions is taken from the court proceedings database held by the Office for Criminal Justice Reform. The most recent year for which data are available is 2004. Data for 2005 will be available in the autumn of 2006, and data for 2006 will be available in the autumn of 2007.

Some sections of the Immigration, Asylum and Nationality Act 2006 came into force in June this year and the other sections are being progressively commenced over time. Information on prosecutions under the Immigration, Asylum and Nationality Act 2006 is therefore not yet available.

Mr. Mullin: To ask the Secretary of State for the Home Department who the Ministers with responsibility for immigration and asylum have been since May 1997; and what responsibilities each Minister had. [73802]

Mr. McNulty: Information on the Ministers that had responsibility for Immigration and Asylum since May 1997 is provided in the attached table. A publication called the List of Ministerial Responsibilities which provides details of departmental and ministerial responsibilities and contact details for Minister's offices is available on line at: http://www.cabinetoffice.gov.uk/ministerial_responsibilities/index.asp

Responsibility for Immigration and Asylum

	1997
Mike O'Brien: May 1997 to July 1999	Immigration and nationality;
	community relations;
	Passport agency; and also deals with House of Commons business on constitutional issues.
	1998 (October) - 1999
	immigration and nationality;
	asylum;
	community relations; and
	Passport agency.
Mrs Barbara Roche: July 1999 to June 2001	Immigration and asylum;
	Nationality;
	Passport Agency; and EU matters.
Jeff Rooker: June 2001 to May 2002	Responsible for all Home Office business in the House of Lords.
	Immigration and asylum;
	Nationality;
	Work Permits; and
	Passport Agency.
Ms Beverley Hughes: May 2002-2004	Citizenship;
	Immigration; and
	Community Cohesion.
	2003 (July)
	Nationality, Immigration and Asylum, including work permits;
	Nationality, including coherent citizenship and inward migration policies;
	UK Passport Agency;
	Identity Cards;
	Counter-terrorism and resilience;
	Strategic oversight of policy on civil renewal; and
	Responsibility for women's issues.
Des Browne: April 2004 to May 2005	Nationality, Immigration and Asylum, including work permits;
	Nationality, including coherent citizenship and inward migration policies;
	People trafficking; and UK Passport Agency and identity cards.
Tony McNulty: 2005-06	Immigration;
	Asylum; and
	Nationality, naturalisation and citizenship.
Liam Byrne: May 2006	Nationality, naturalisation and citizenship;
	Immigration;
	Asylum.
	He also has cross-departmental responsibility for delivery.

David Davis: To ask the Secretary of State for the Home Department what plans he has to change the management structure in the Immigration and Nationality Directorate. [77402]

Mr. Byrne: As part of the fundamental review of the Immigration and Nationality Directorate currently underway we are further considering the future management structure of the organisation. Ministers reported their findings on 25 July. The report can be found at www.homeoffice.gov.uk.

Automatic Gait Recognition Technology

Mr. Greg Knight: To ask the Secretary of State for the Home Department what assessment he has made of the *(a)* reliability and *(b)* effectiveness of automatic gait recognition technology in tackling crime; if he will make resources available to make this technology more widely available to the police; and if he will make a statement. [85960]

Mr. McNulty *[holding answer 18 July 2006]:* The Home Office continues to explore the application of new authentication and identification technologies through the Biometric Centre of Expertise at the Home Office Scientific Development Branch. The Centre has tracked research in this field and has been in discussion with the National Offender Management Service on potential applications for gait recognition.

Gait recognition is one of a group of biometric technologies which are predominantly behavioural in character, in contrast with the mainly physiologically determined technologies such as facial recognition, fingerprint identification and iris biometrics, where there is more performance data and a longer history of research, development and deployment. Work on development of robust solutions using gait recognition is relatively recent and the Home Office is aware that one of the premier centres of research in the field is in the UK at Southampton University. It is recognised that automatic gait recognition has potential to support systems that protect the public, but this technology needs further development and validation before it can be considered for deployment on a routine basis.

Biometric Cards

Damian Green: To ask the Secretary of State for the Home Department (1) how many immigrants had been issued with a biometric card under the RepARC system on 30 April; [75777]

(2) by what date he expects all immigrants reporting to centres using the RepARC system to be issued with a biometric card; [75781]

(3) what the average time taken was to process biometric cards given to immigrants using the RepARC system; and if he will make a statement. [75778]

Joan Ryan: I hope that, as the subject matter of the above questions are closely linked, it will be helpful if I deal with them in one reply. The Reporting Application Registration Card (RepARC) Project was introduced in 2004 to create an automated link between compliance with reporting restrictions attached to temporary admission and access to asylum support payments. All asylum applicants are issued with an Application Registration Card (ARC), which is a biometric card containing fingerprint data and is also used as the method of collection for asylum support payments. In the RepARC system, ARCs are electronically revalidated at reporting events. Such events take 3-4 minutes including the process of checking identity and revalidation. Failure to report on two consecutive occasions leads to expiry of the card, and presentation of an expired card at a post office leads to denial of asylum support payments. This supports our policy of having in place a link between compliance with all aspects of the asylum process and access to support. If payment is suspended as described above, the remedy for the applicant is to resume reporting. If this does not happen, the case is referred to enforcement officers to locate the applicant; formal discontinuation of support may follow after eight weeks. Rollout of the RepARC process to all 11 IND reporting centres commenced in October 2005, in conjunction with the implementation of section 69 of the Nationality, Immigration and Asylum Act 2002 (the payment of travel expenses for reporting). Key external stakeholders have been kept fully informed of the rollout timetable, which has so far delivered the system to the reporting centres in Manchester, Liverpool, Leeds, Croydon, Glasgow, Solihull and two London centres. Rollout to the remaining reporting centres (north London, North Shields and Folkestone) will be complete by 31 July 2006, by which date it is expected that all NASS-supported applicants reporting to these sites will be reporting with an ARC. Non NASS-supported applicants are not covered by the RepARC scheme, although all asylum applicants are issued with ARCs. As of 30 April, 4250 asylum seekers with biometric ARCS, the total of all NASS supported asylum seekers who report to RepARC-enabled centres, were reporting within the RepARC system. Non NASS-supported applicants do not fall within the RepARC system but are still issued with ARCs, which are frequently used at reporting events to verify identity.

British Crime Survey

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people participated in the 2005-06 British Crime Survey. [88539]

Mr. McNulty: The British Crime Survey comprises a core sample of the general population of adults resident in private households in England and Wales and separate boost samples of young people (aged 16 to 24 years) and adults from black and minority ethnic groups.

Between April 2005 and March 2006, 47,796 adults were interviewed as part of the core sample, 2,259 as part of the youth boost sample and 3,176 as part of the BME boost sample; giving a total of 53,231 adults interviewed.

British Sign Language

Mrs. Gillan: To ask the Secretary of State for the Home Department what guidelines are laid down by his Department to govern the procedures for accessing British Sign Language interpreters and lipspeakers on a 24 hour basis for deaf people requiring assistance at police stations. [86913]

Mr. McNulty: Code C issued under the Police and Criminal Evidence Act 1984 states (at paragraph 13.1) that chief officers of police are responsible for ensuring appropriate arrangements are in place for people who are deaf. The Code provides that sign language interpreters should be drawn from the Council for the Advancement of Communication with Deaf People Directory of British Sign Language/English Interpreters. The Code also makes it clear that if a person appears to be deaf or there is doubt about their hearing or speaking ability, they must not be interviewed in the absence of an interpreter unless they agree in writing to being interviewed without one. There exists more detailed national guidance regarding interpreters in the criminal justice system and that is currently under review by the Office for Criminal Justice Reform, with the Association of Chief Police Officers and other interested parties.

Burglars (Custodial Sentences)

David Davis: To ask the Secretary of State for the Home Department how many and what proportion of burglars convicted for a third offence received a custodial sentence in the most recent year for which information is available; and what the average length of sentence was for those sentenced to custody. [89150]

John Reid: This is a complex piece of analysis last undertaken in 2005 for Parliamentary Question 216331 the results of which are repeated as follows. Since then, the main data source for criminal information has changed from the Offenders Index to the Police National Computer. No similar sample or programs are currently available for us to conduct more up to date analysis. The table gives the numbers sentenced for their third burglary offence. The numbers are for a four week period in 2001, derived from the Offenders Index. The figures include attempted burglaries, as it is not possible to distinguish between an actual and attempted burglary on the Offenders Index.

Burglars convicted for their third offence (by type of burglary)

	[1] *Burglary in a dwelling*	[2] *Burglary not in a dwelling*
Number sentenced (for the third offence)	99	89
Number sentenced to custody	75	42
Proportion sentenced to custody (%)	76	47

Burglars convicted for their third offence (by type of burglary)

	[1] *Burglary in a dwelling*	[2] *Burglary not in a dwelling*
Average sentence length (months)	17.7	10

[1] Includes only previous convictions for burglary in a dwelling. Please note that definition and coverage is different from s111 of the Powers of Criminal Courts (Sentencing) Act 2000.
[2] Includes only previous convictions for burglary not in a dwelling

Thermal Imaging

Mr. Greg Knight: To ask the Secretary of State for the Home Department what assessment he has made of the merits of thermal imaging cameras *(a)* in the detection of cannabis factories and *(b)* in detecting other crimes; whether he plans to ensure that this equipment is available to all police forces; and if he will make a statement. [85997]

Joan Ryan: No scientific assessment has been made by HOSDB of the merits of using thermal imaging cameras for the detection of cannabis factories. The ability to detect cannabis factories was first recognised in the 1990s with the introduction of thermal imaging equipment to police air support craft. Small hand-held thermal imagers have more recently become available to the UK law enforcement community leading to the recent increase in ground use.

In detecting other crimes, assessments are being made of the technology for detecting prison escape and breaches of security barriers. Assessments are being made of the technology in a variety of other circumstances, however revealing the exact nature of the offences or the results could compromise the effectiveness of the technique. No formal scientific assessment has been made for detecting property crimes (e.g. vehicle theft, burglary) but these are frequently detected by the use of thermal imaging equipment from police operated aircraft and helicopters.

The vast majority of police forces in England and Wales have access to an air support unit and these are all fitted with thermal imaging technology. No formal purchasing arrangement is in place for police forces to procure hand-held thermal imagers and thermal imaging equipment is still perceived as an expensive technology by the service (typically £6,000 to £8,000 per unit).

The Home Office Scientific Development Branch owns five different types (over twenty items) of thermal imager, which can be used for a variety of activities including the detection of cannabis factories. These are available to all police forces in England and Wales to borrow free-of-charge for specific operations.

Cash Handling Centres

Mr. Spellar: To ask the Secretary of State for the Home Department pursuant to the answer of 27 March 2006, *Official Report*, column 743W, on cash handling centres, what assessment he has made of whether appropriate action was taken following 20 December 2004 to review security arrangements at major cash handling centres in England and Wales. [63582]

Mr. McNulty: The annual National Threat Assessment (NTA) prepared by National Criminal Intelligence Service (NCIS) in conjunction with other police forces, provides the intelligence which allows cash handling centres to review, with police forces, the appropriateness of their security arrangements.

The last published assessment by NCIS for the period 2004-05 to 2005-06 took account of major incidents over the past year and concluded that this did not amount to an overall increased level of risk at this time. Officials are continuing to work with the private security industry to identify ways to update and disseminate good practice.

CCTV

Robert Key: To ask the Secretary of State for the Home Department what *(a)* grants and *(b)* other sources of revenue are available to install and maintain CCTV surveillance cameras in small towns and villages in rural England; and if he will make a statement. [81119]

Mr. McNulty: Between 1999 and 2003, major investment was made in CCTV through the Crime Reduction Programme (CRP). A total of £170 million of Home Office capital funding was made available to local authorities following a bidding round. Through this, more than 680 CCTV schemes were installed in town centres. The end of the Crime Reduction Programme signalled the end of a dedicated central funding regime for CCTV. After the conclusion of the CRP, crime reduction funding moved to a structure that saw it being directly allocated to local Crime and Disorder Reduction Partnerships (CDRPs) and Basic Command Units to enable them to tackle local crime priorities using a number of interventions including CCTV.

In 2006-07 the Safer Stronger Communities Fund, totalling at least £220 million is available to Local Area Partnerships including local authorities and CDRPs who can decide, from within this envelope, how much to allocate to the installation of CCTV.

Child Sex Offences

Annette Brooke: To ask the Secretary of State for the Home Department how many perpetrators of child abuse are known to his Department, broken down by age group; and how many in each age group have received treatment for their offending. [82375]

Mr. Sutcliffe *[holding answer 3 July 2006]:* There is no specific offence of child abuse. It is not possible to identify the number of offences of assault and harassment offences which were committed against children. There are, however, a number of offences specifically relating to child victims for which data are available from the Court Proceedings Database held by the Office for Criminal Justice Reform. The number of defendants found guilty of these offences in 2004 is provided in the following table. Information on whether these offenders are receiving treatment is not centrally collected, however the current target is for 1,240 sex offenders to complete treatment in custody and a further 1,200 to complete treatment in the community during 2006-07.

Number of defendants found guilty of offences related to child abuse, by age group of offender England and Wales 2004[1,2]

Offence class and principal statute	*Offence description*	*10 to 17*	*18 to 20*	*21 and over*	*All ages*

Sexual Offences Act 2003 S26 (1eii,2-4b)	Inciting a female child family member to engage in sexual activity—offender aged 18 or over at time of offence and victim under 13—no penetration	—	—	1	1
Abuse of trust—sexual offences					
Sexual Offences Act 2003 S16(1ei,2-5)	Abuse of a position of trust: Sexual activity with a female child. (Offender is aged 18 or over and victim is 13 to 17)	—	—	3	3
Miscellaneous sexual offences					
Sexual Offences Act 2003 S15	Meeting a female child following sexual grooming etc. (offender is aged 18 or over and victim is under 16)	—	—	3	3

[1] These data are provided on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Grant Shapps: To ask the Secretary of State for the Home Department how many living persons have been convicted of child sex offences under *(a)* the Sexual Offences Act 1956 in the last 30 years and *(b)* part one of the Sexual Offences Act 2003. [82218]

Mr. Sutcliffe: It is not possible to identify the number of living persons convicted of child sex offences. The Court Proceedings Database held by the Office for Criminal Justice Reform holds information about convictions but it does not hold information about whether or not the offender is still alive.

Clean Neighbourhoods and Environment Act

Margaret Moran: To ask the Secretary of State for the Home Department how many fixed penalty notices have been issued by Luton council under the Clean Neighbourhoods and Environment Act 2005. [56548]

Mr. McNulty: The powers under the Clean Neighbourhoods and Environment Act 2005 commenced in April this year. Data on the number of fixed penalties issued by local authorities in England will not be collected until the end of the financial year.

Colombia

Mr. Hancock: To ask the Secretary of State for the Home Department on whose authority decisions are made about the *(a)* deployment and *(b)* nature of duties of (i) police and (ii) Serious Organised Crime Agency staff deployed to Colombia; and if he will make a statement. [88185]

Mr. Coaker: The operational deployment of SOCA staff is a matter for the Director General.

Mr. Hancock: To ask the Secretary of State for the Home Department what the total cost was of the Serious Organised Crime Agency's operations in Colombia in 2006; what the projected budget is for 2007; and if he will make a statement. [88186]

Mr. Coaker: This is an operational matter for the Director General of SOCA.

Mr. Hancock: To ask the Secretary of State for the Home Department pursuant to the answer of 13 July 2006, *Official Report*, column 2020W, on Colombia, what instructions were given to British police officers prior to secondment to Colombia with regards to the limits of their work in that country. [88235]

Mr. McNulty: Police officers from forces in England and Wales who travel overseas to provide advice and assistance to an international organisation or other body engaged in policing activities must be authorised to do so by the Home Secretary under section 26 of the Police Act 1996. No such authorisations have been issued in 2006 for officers to deploy to Colombia.

Mr. Hancock: To ask the Secretary of State for the Home Department what comments his Department has made regarding the deployment of UK police officers in Colombia to *(a) The Guardian* newspaper and *(b) The Observer* newspaper. [88238]

Mr. McNulty: None.

Mr. Hancock: To ask the Secretary of State for the Home Department on what basis the Serious Organised Crime Agency staff are deployed in Colombia; and what the consequent liability for their activities in that country is for the Government. [88351]

Mr. Coaker: SOCA staff are deployed overseas on the basis of an assessment of the harm posed to the UK from serious organised crime in that region, and on an understanding of where the best opportunities lie for tackling that harm. Such deployment is with the full knowledge of the host Government. SOCA staff deployed overseas have diplomatic accreditation and are therefore entitled to immunity from criminal, and within certain limited exceptions, jurisdictions of the receiving state.

Communications Officers

David Davis: To ask the Secretary of State for the Home Department how many communications officers were employed on 1 July 2006 by *(a)* the Home Office and *(b)* the Immigration and Nationality Directorate. [88148]

John Reid: There are 204 employees within Communications Directorate, 95 of whom are GCN (Government Communications Network) staff.

As at February 2006 there were 84 posts (81 full time equivalents when taking into account part time working patterns) within Immigration and Nationality Directorate where staff were dedicated to undertaking communications roles. This figure includes but is not limited to press officers.

Community Call for Action

Mrs. Spelman: To ask the Secretary of State for the Home Department what resources will be provided to *(a)* local councils and *(b)* local councillors to implement the Community Call for Action. [83018]

Mr. McNulty: I refer the hon. Member to the Regulatory Impact Assessment for the Community Call for Action available on the Home Office website at: http://police.homeoffice.gov.uk/news-and-publications/publication/police-reform/2006-01-17-Community_Call_f1.pdf

Community Cohesion

Lynne Featherstone: To ask the Secretary of State for the Home Department why there has been slippage in reducing race inequalities and building community cohesion in relation to Strategic Objective PSA7. [88668]

Meg Munn: I have been asked to reply.

Perceptions of discrimination by key public services

The public service agreement examines an aggregate target; it seeks to decrease the percentage of BME people who believe that *one or more* of the eight key public services (the five criminal justice system agencies (Police Service, Prison Service, Courts, CPS and Probation), local GPs, local schools and council housing / housing associations) would discriminate against them and the percentage of BME people feeling they would be treated worse than people of other races by *one or more* of eight public service organisations has remained unchanged since 2001.

These data are disappointing but it is positive to note that individually perceptions of discrimination among BME people across the range of key public services have fallen since 2001, with the exception of council housing/housing associations where the figure remains the same.

We are keen to learn what the key factors are which influence people's views of prejudice and have commissioned research into the drivers of perception which will report this autumn. We are hopeful that final report from this research will enhance our knowledge in this area and our ability to assess what more might be done.

Perceptions of discrimination in the labour market

On the labour market side, HOCS 2005 provided the first milestone since the 2003 baseline. Although there is no significant change on 2003, movement is in the right direction for one of the elements (refused a job). The percentage of people perceiving that they have been discriminated against because of their race when applying for a promotion did not change significantly although it has not moved positively in the direction we would have hoped.

We recognise the need to address issues of progression in the work place for ethnic minorities The CRE's new "Code of Practice on Racial Equality in Employment" took effect from 6 April and will help business to promote diversity, by providing case studies, best practice and other practical guidance. In addition, the Ethnic Minority Employment Task Force, led by my hon. Friend the Minister for Employment and Welfare Reform is coordinating work to improve employment chances for ethnic minorities.

Perceptions of community cohesion

As the data for this element of the target were only baselined in the Citizenship Survey 2005, there is no current slippage here.

General

A perceptions based target, this objective is extremely challenging. It requires not just working towards ensuring that the experiences that people have are fair and can be seen to be fair, but also tackling the inequalities which still exist for many groups and being open about the progress we are making and the work which remains to be done.

This work is a long term objective and the impact that any progress made has on changing perceptions broadly, may take time to be seen in the data collected for this PSA. The PSA forms part of the Government's strategy to increase race equality and community

cohesion, "Improving Opportunity, Strengthening Society", and the first annual progress report on this will be published this summer.

Convicted Irish Nationals

Stephen Pound: To ask the Secretary of State for the Home Department what consultation took place before the decision was authorised to deport lifelong UK resident Irish nationals who have completed prison sentences. [75167]

Mr. Byrne: Under section 7 of the Immigration Act 1971, Irish citizens who were ordinarily resident in the United Kingdom on 1 January 1973 (the date of the coming into force of the that Act) and who have been ordinarily resident five years prior to a court recommendation or decision to make a deportation order are exempt from deportation. Those Irish nationals who do not fall into this category may be removed under the Immigration (European Economic Area) Regulations 2006 if it is decided that removal is justified on the grounds of public policy, public security or public health.

Stephen Pound: To ask the Secretary of State for the Home Department what rights of appeal exist for Irish nationals under notification of imminent removal to Ireland on completion of prison sentences. [75171]

Mr. Byrne: Under the Immigration (European Economic Area) Regulations 2006, Irish nationals have an in-country right of appeal against a decision to remove them.

Corporate Hospitality

David Simpson: To ask the Secretary of State for the Home Department on how many occasions he has accepted corporate hospitality in the last 12 months. [67523]

Mr. McNulty: Paragraph 5.28 of the Ministerial Code sets out the rules on the registration of hospitality.

Mr. Wallace: To ask the Secretary of State for the Home Department what corporate hospitality Ministers in his Department have received in each month since January 2004. [73674]

Mr. McNulty: Paragraph 5.28 of the Ministerial Code sets out the rules on the registration of hospitality.

Correspondence

Clare Short: To ask the Secretary of State for the Home Department when he will reply to the letter from the right hon. Member for Birmingham, Ladywood, of 12 January regarding UK policy on returning asylum seekers to Zimbabwe on behalf of Dr. Margaret Sherratt (acknowledgement reference 185435/05). [29147]

Mr. McNulty: My hon. Friend the former Parliamentary Under-Secretary of State for Immigration, Citizenship and Nationality replied on 1 December 2005.

Mr. Lidington: To ask the Secretary of State for the Home Department when he will reply to the letter of 1 March from the hon. Member for Aylesbury about the case of Mr. N.T.H. of Aylesbury (Home Office reference P417261, LR1875033114 and B6093/6). [86003]

Mr. Byrne *[holding answer 17 July 2006]:* The Director General of the immigration and nationality directorate replied to the hon. Member's letter on 20 July 2006.

Clare Short: To ask the Secretary of State for the Home Department when the immigration and nationality directorate will reply to the letter of 10 May 2006 from the right hon. Member for Birmingham, Ladywood on behalf of Sylvia Cumberbatch (Home Office reference C1145804, acknowledgment reference B1228116). [87159]

Mr. Byrne: The immigration and nationality directorate wrote to my right hon. Friend on 24 July 2006.

Credit Cards

David Simpson: To ask the Secretary of State for the Home Department if he will assess the merits of placing a limit on the number of credit cards an individual may own at one time. [73019]

Mr. Coaker: Most consumers use credit in a productive and prudent way, however a small minority of individuals show signs of financial distress. The Government needs to strike the right balance between enabling a competitive consumer credit market, and protecting those at risk of over-indebtedness. It is the Government's view that the amount an individual can borrow is a matter between the individual and the lender concerned. Government, however, are working with lenders to promote responsible lending through increased data sharing and industry codes of practice.

Crime and Disorder Act

Mr. Amess: To ask the Secretary of State for the Home Department if he will make a statement on the operation of the Crime and Disorder Act 1998; if he will list the statutory instruments that have been made under this Act; and what recent representations he has received on the operation of the Act. [82558]

Mr. McNulty: The Crime and Disorder Act 1998 contained a wide range of different measures designed to improve the protection of the public and the operation of the criminal justice system. Some of the main areas included the establishment of crime reduction partnership arrangements, the introduction

of antisocial behaviour orders and of sex offender orders, the establishment of the Youth Justice Board, sentencing for both adults and juveniles, the establishment of the Sentencing Advisory Panel and the creation of specific racially aggravated offences. Although the measures in the Act have worked well, we have kept them under review and in the light of experience and of specific reviews we have made a number of changes to further improve them. In particular we have strengthened and improved upon the arrangements for antisocial behaviour orders and have built upon sex offender orders to create sexual offences prevention orders; we have extended racially aggravated offences to include religious aggravation; we have reviewed the whole of the sentencing framework for adults and introduced new arrangements in the Criminal Justice Act 2003; the youth justice arrangements have also been reviewed and proposals for change published in March 2004; and we have reviewed the partnership arrangements, with proposals for change being introduced in the Police and Justice Bill while others are subject to further consultation. The Government attaches a very high priority to public protection, the reduction of crime and to ensuring that the criminal justice system works effectively. We set out, in our document 'Rebalancing the Criminal Justice System in favour of the Law Abiding Majority', which we published on 20 July, further proposals for improvements across a range of areas. Representations are made from time to time in relation to individual provisions in the Act. The statutory instruments made under the Act are in the following list.

Orders made under the Crime and Disorder Act 1998

S5

Crime and Disorder Act 1998 (Responsible Authorities) Order 2005, SI 2005/1789.

Crime and Disorder Act 1998 (Responsible Authorities) (No 2) Order 2005, SI 2005/3343

Crime and Disorder Strategies (Prescribed Descriptions) (England) Order 2004, SI 2004/118, as amended by SI 2004/696, SI 2004/865

Crime and Disorder Strategies (Prescribed Descriptions) Order 1998, SI 1998/2452, as amended by SI 1998/2513. SI 1999/483, SI 2000/300, SI 2004/118 (revoking the Order in relation to England), SI 2005/617

S41

Youth Justice Board for England and Wales Order 2000, SI 2000/1160.

S116

Secure Training Order (Transitory Provisions) Order 1998, SI 1998/1928.

S121 (Commencement orders)

Crime and Disorder Act 1998 (Commencement No 1) Order 1998, SI 1998/1883.

Crime and Disorder Act 1998 (Commencement No 2 and Transitional Provisions) Order 1998, SI 1998/2327.

Crime and Disorder Act 1998 (Commencement No 2 and Transitional Provisions) (Amendment) Order 1998, SI 1998/2412.

Crime and Disorder Act 1998 (Commencement No 2 and Transitional Provisions) (Amendment) (No 2) Order 1998, SI 1998/2906.

Crime and Disorder Act 1998 (Commencement No 3 and Appointed Day) Order 1998, SI 1998/3263.

Crime and Disorder Act 1998 (Commencement No 4) Order 1999, SI 1999/1279.

Crime and Disorder Act 1998 (Commencement No 5) Order 1999, SI 1999/2976.

Crime and Disorder Act 1998 (Commencement No 6) Order 1999, SI 1999/3426.

Crime and Disorder Act 1998 (Commencement No 7) Order 2000, SI 2000/924.

Crime and Disorder Act 1998 (Commencement No 8) Order 2000, SI 2000/3283.

Crime Reduction Initiatives

Lynne Featherstone: To ask the Secretary of State for the Home Department what vehicle crime reduction initiatives the Home Office has participated in since 1997; and if he will make a statement. [88644]

Mr. McNulty: The Home Office established the Vehicle Crime Reduction Action Team (VCRAT) in September 1998 to develop and oversee implementation of a strategy to reduce vehicle crime. The strategy was published in 1999 and contributed to the reduction of 1,780,000 incidents of vehicle crime (51 per cent.) estimated by the British Crime Survey between 1997 and interviews in 2005-06. The main initiatives the Home Office has participated in since 1997 have included: supporting improved vehicle security through publication of security guidance documents aimed at manufacturers and publication of Car and Bike Theft Indices; spreading good practice, for example through the vehicle crime toolkit on the website www.crimereduction.gov.uk; improving car park security through support for the Safer Parking Scheme (owned by the Association of Chief Police Officers and managed by the British Parking Association).

This includes financial support amounting to £1,409,000 over the period 2001-02 to 2005-06; making the motor salvage industry subject to statutory regulation under powers contained in the Vehicles (Crime) Act 2001; and raising motorists' awareness of the steps they can take to prevent themselves becoming victims of car crime through national communications campaigns (with funding of £28.6 million over the period 1999-2000 to 2005-06) and other communications initiatives.

Crime Statistics

Chris Huhne: To ask the Secretary of State for the Home Department how many crimes were recorded in *(a)* England and Wales, *(b)* Eastleigh borough, *(c)* Hampshire, *(d)* Portsmouth and *(e)* Southampton involving (i) knives, (ii) guns and (iii) other offensive weapons in each year since 1995. [84662]

Mr. Coaker: Available data for firearms offences (excluding air weapons) relate only to police force area. Information for England and Wales and Hampshire is given in the following tables.

Although the homicide figures record where a sharp or blunt instrument has been used, it is not possible to identify from recorded crime statistics whether other crimes involve the use of a knife or other offensive weapon.

The National Crime Recording Standard was introduced in April 2002. Because of this figures before and after that date are not directly comparable.

Table (A): Crimes recorded by the police in which firearms (excluding air weapons) were reported to have been used,1995 to 2001-02

	England and Wales	*Hampshire*
1995	5,866	39
1996	6,063	48
1997	4,904	29
1998-99[1]	5,209	38
1999-2000	6,843	52
2000-01[2]	7,470	49
2001-02	10,023	58

[1] There was a change in counting rules for recorded crime on 1 April 1998.

[2] Numbers of some recorded crimes may have been inflated by some police forces implementing the principles of the National Crime Recording Standard before 1 April 2002.

Table (B): Crimes recorded by the police in which firearms (excluding air weapons) were reported to have been used, 2002-03 to 2004-05

	England and Wales	*Hampshire*
2002-03[1]	10,248	97
2003-04	10,338	130
2004-05	10,964	148

[1] The National Crime Recording Standard was introduced in April 2002. Because of this figures before and after that date are not directly comparable.

Mr. Kemp: To ask the Secretary of State for the Home Department how many crimes were recorded in each year since 1997 in *(a)* Houghton and Washington East constituency and *(b)* the Sunderland city council area. [87362]

Mr. McNulty: Information for the Houghton and Washington East constituency is not available centrally. The available information relates to the Sunderland Crime and Disorder Reduction Partnership (CDRP) area and is given in the tables. Data were collected at CDRP level for six key offences only for 1999 and for all crime from 2000-01.

Table 1: Recorded offences in the Sunderland Crime and Disorder Reduction Partnership area, 1999-2000 to 2001-02

	Number of offences
1999-2000	n/a
2001-01	30,407
2001-02	33,259

n/a = not available

Table 2: Recorded offences in the Sunderland Crime and Disorder Reduction Partnership area, 2002-03 to 2005-06

	Number of offences
2002-03	38,196
2003-04	34,612
2004-05	30,447
2005-06	28,429

Note:
The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Sarah Teather: To ask the Secretary of State for the Home Department how many *(a)* burglaries and *(b)* robberies there were in Brent in each year since 1997. [87711]

Mr. McNulty: Brent is a Crime and Disorder Reduction Partnership (CDRP) area. Data at CDRP level are only available from 1999-2000 and the available information is given in the following tables.

Table 1: Recorded offences of burglary and robbery in Brent, 1999-2000 to 2001-02

	Burglary	*Robbery*
1999-2000	3,320	2,014
2000-01	4,441	1,941
2001-02	4,099	2,359

Notes:
1. Figures for 1999-2000 are for domestic burglaries only.
2. Expanded offence coverage and revised counting rules came into effect on 1 April 1998. The figures in this table are therefore not directly comparable with those for earlier years.

Table 2: Recorded offences of burglary and robbery in Brent, 2002-03 to 2005-06

	Burglary	*Robbery*
2002-03	3,859	1,795
2003-04	4,062	1,807
2004-05	3,987	2,084
2005-06	3,904	2,355

Note:
The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many *(a)* arrests, *(b)* charges and *(c)* convictions for (i) sexual offences and (ii) theft of cars there have been in each of the last five years. [88655]

Mr. McNulty: Information requested on arrests for sexual offences can be found in the annual Home Office Statistical Bulletin, Arrests for Recorded Crime (notifiable offences) and the Operation of Certain Police Powers under PACE, England and Wales—Table AA refers. Copies are available from the Library.

The information requested on arrests for theft of cars is not available centrally. Information on arrests is

based on persons arrested for recorded crime "notifiable" offences by main offence group (i.e. theft and handling stolen goods, sexual offences, violence against the person and burglary etc.) and therefore does not identify individual offences.

Data on charges are not held centrally. However data from the Court Proceedings database held by the Office for Criminal Justice Reform on the number of defendants prosecuted at magistrates court, and convicted of (i) sexual and (ii) theft of cars offences in England and Wales, 2000 to 2004, are contained in the following table.

2004 data show the inclusion of a new list of offences brought under the Sexual Offences Act 2003, which came into effect on 1 May 2004.

Statistics for 2005 court proceedings will be available in the autumn of 2006.

Number of defendants prosecuted at magistrates court and found guilty at all courts for sexual offences[1], England and Wales, 2000 to 2004[2, 3]

	Prosecuted	*Guilty*
2000	7,141	3,894
2001	8,424	4,043
2002	9,102	4,384
2003	9,121	4,355
2004[4]	9,579	4,785

[1] This includes Sexual Offences Act 1956, Mental Health Act 1959, Sexual Offences Act 2003, Offences Against the Person Act 1861 s.57, Sex Offenders Act 1997 s.3(1) (a) and (b), Indecency with Children Act 1960 s.1.

[2] These data are provided on the principal offence basis.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] 2004 data show the inclusion of a new list of offences brought under the Sexual Offences Act 2003, which came into effect on 1 May 2004.

Source:
Office for Criminal Justice Reform.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many offences have been brought to justice in each of the last five years. [88659]

Mr. Sutcliffe: The information requested is contained in Chapter 5 of "Criminal Statistics 2004" which can be found at: http://www.homeoffice.gov.uk/rds/pdfs05/hosb1905.pdf

Table 5.1 on page 96 gives figures for the number of offences brought to justice in England and Wales between 1998/99 and 2004/05. The Departmental Report for 2005-06 has just been published, please use the following link; http://www.homeoffice.gov.uk/documents/annual-report-06.pdf?view=Binary

The provisional offences brought to justice figures for 2005 can be found on page 29, and reference is also made on pages 28, 75 and 94.

Figures for 2005-06 will be published in the autumn of 2006.

Lynne Featherstone: (1) To ask the Secretary of State for the Home Department, (1) how many convictions for *(a)* murder, *(b)* rape, *(c)* sexual assault, *(d)* manslaughter and *(e)* robbery have been (i) overturned, (ii) reduced and (iii) increased after appeal in each of the last five years; [88500]

(2) how many convictions for *(a)* murder, *(b)* rape, *(c)* sexual assault, *(d)* manslaughter and *(e)* robbery have been overturned in the last three years; and in how many cases of each type the sentence was reduced. [88665]

Ms Harman: I have been asked to reply.

The following table sets out, for the past five years, the number of conviction appeals allowed, sentence appeals allowed and references by the Attorney General where the Court of Appeal Criminal Division decided to increase the sentence following review.

All figures relate to cases where the named offence (including inchoate offences) was the main offence under consideration by the Court. However, some results may reflect circumstances where the court also reviewed other offences committed by the same applicant.

	2000	*2001*	*2002*	*2003*	*2004*	*2005*
Murder						
Conviction appeal allowed[1]	15	17	20	31	28	20
Sentence appeal allowed[2]	—	—	—	—	16	49
Sentence increased following review	0	1	2	2	2	1
Manslaughter						
Conviction appeal allowed[1]	4	1	5	3	5	5
Sentence appeal allowed[2]	20	22	28	33	17	24
Sentence increased following review	1	4	3	3	1	1
Rape						
Conviction appeal allowed[2]	28	21	26	23	35	18
Sentence appeal allowed[2]	40	39	28	37	42	53
Sentence increased following review	4	2	7	10	2	4
Robbery						
Conviction appeal allowed[1]	23	16	7	19	26	14

	2000	2001	2002	2003	2004	2005
Sentence appeal allowed[1]	113	109	125	172	159	130
Sentence increased following review	11	11	16	14	9	11
Sexual assault[3]						
Conviction appeal allowed[1]	22	19	24	25	28	26
Sentence appeal allowed[2]	77	71	78	117	80	77
Sentence increased following review	5	7	6	14	10	4

[1] Includes cases where a retrial was ordered or where any aspect of the appeal was allowed.
[2] Includes all cases where there was any reduction to sentence, including reduction in tariff or to a non-custodial element.
[3] Includes indecent assault but not convictions for similar offences assault by penetration, indecency with a child.

Mr. Clegg: To ask the Secretary of State for the Home Department how many people were arrested in the last year for which figures are available. [88945]

John Reid: Number of persons arrested for recorded crime (notifiable offences) during 2004-05 (latest available) is 1.35 million.

Mr. Burstow: To ask the Secretary of State for the Home Department how many people were convicted of *(a)* drunkenness, *(b)* driving after consuming alcohol or taking drugs and *(c)* causing death by dangerous driving when under the influence of drink or drugs in each year since 2003 in (i) England, (ii) each region and (iii) each London borough. [88957]

Mr. Sutcliffe: Data from the court proceedings database held by the Office for Criminal Justice Reform, on the number of people convicted of *(a)* drunkenness, *(b)* driving after consuming alcohol or taking drugs and *(c)* causing death by careless driving when under the influence of drink or drugs (i) England, (ii) each region and (iii) each London Court Area from 2003 to 2004 can be found in the following tables, a copy of which I will place in the House Library. Note that the offence stated in part (iii) of the question relates to 'careless' driving rather than 'dangerous' driving. Because regional boundaries and court area boundaries differ slightly, totals for London may differ between tables when both breakdowns are used.

Court proceeding statistics for 2005 will be available in the autumn of 2006.

In addition to this, the penalty notice for disorder (PND) scheme was brought into effect in all police forces in England and Wales in 2004. Under the scheme the police are able to issue persons committing specified minor offences including being drunk in a highway and drunk and disorderly, with a fixed penalty notice. No admission of guilt is required and payment of the penalty discharges all liability for the offence. Data on the number of PNDs issued for these offences in each police force area in England in 2004 and 2005 (provisional) can also be found in the following tables. It is not possible to identify the number of PNDs which were issued in each London borough as the data are not collected at that level of detail centrally.

Number of persons convicted at all courts for offences relating to 'drunkenness' and 'drunkenness with aggravation' by region, England 2003 to 2004[1, 2, 3]

	Drunkenness, simple		Drunkenness, with aggravation	
Region	*2003*	*2004*	*2003*	*2004*
North East	88	94	4,553	4,437
North West	149	106	5,174	3,130
Yorkshire and Humberside	222	166	2,670	1,625
East Midlands	78	64	1,233	960
West Midlands	123	132	1,029	1,128
East of England	293	242	1,434	1,138
London	210	162	2,141	1,055
South East	486	418	3,661	2,791
South West	350	290	1,998	1,286
England	1,999	1,674	23,893	17,550

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete.
However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces.
As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] Includes the offence of "drunk and disorderly" [Criminal Justice Act 1967 Sec.91] and other miscellaneous offences of drunkenness with aggravation.
Drunkenness, simple includes offences under S.12 Licensing Act 1872, Sporting Events (Control of Alcohol etc) Act 1985 SS.1(4), 1A(4), 2.(2) and S.12 Criminal Justice & Police Act 2001

Criminal Assets

Lynne Featherstone: To ask the Secretary of State for the Home Department what value of criminal assets were recovered in each of the last five years. [88654]

Mr. Coaker: The information requested is set out in the Table.

Recovered criminal assets (England, Wales and Northern Ireland)

	Total recovered (£ million)
2001-02	25.2
2002-03	47.0
2003-04	54.5
2004-05	84.4
2005-06	96.8

Lynne Featherstone: To ask the Secretary of State for the Home Department what sums from recovered criminal assets were allocated to police forces in each of the last five years. [88660]

Mr. McNulty: The allocation of recovered criminal assets to police forces was first introduced in 2004-05 under a new incentive scheme. A total of £13 million was distributed to police forces in England, Wales and Northern Ireland on the basis each force's asset recovery performance in that year. A further £26 million was allocated to forces on the basis of performance in 2005-06.

Criminal Justice Boards

Lynne Featherstone: To ask the Secretary of State for the Home Department what targets have been set for local criminal justice boards. [88661]

Mr. Sutcliffe: The targets that the Lord Chancellor, the Attorney-General and I have agreed with local criminal justice boards (LCJBs) for 2006-07 are set out in the Criminal Justice System Business Plan 2006-07. Each LCJB has targets to: improve confidence in the CJS; increase victim and witness satisfaction; bring more offences to justice; improve the enforcement of fines, failure to appear warrants, community penalties and confiscation orders; and meet the Persistent Young Offender pledge. The CJS Business Plan 2006-07 can be accessed at http://www.cjsonline.gov.uk/downloads/application/pdf/CJSpercent20Businesspercent20Planpercent202006-7.pdf

Criminal Justice IT Programme

Mr. Bellingham: To ask the Secretary of State for the Home Department if he will make a statement on the operation of the criminal justice IT programme. [58652]

Mr. Sutcliffe: The organisations that make up the Criminal Justice System use a variety of information systems designed to meet their local needs, but which were not originally designed to share information with colleagues working in other criminal justice organisations.

This is why, in response to the "Justice for All" Government White Paper, the Criminal Justice System Information Technology (CJS IT) programme was established in 2002 with the following vision: "By March 31 2008, anyone involved in the CJS—users of it or people working within it—should have access from any browser enabled device, to a seamless, coherent set of computer systems and information to cover the breadth of their dealings".

The overall cost of the CJS IT programme, across both SR2002 and SR2004, is £1.95 billion. This funding is ring-fenced, with spending controlled by five key-holders: the Home Secretary, the Attorney-General, the Lord Chancellor, the Minister with responsibility for the CJS and the Director of Criminal Justice IT (CJIT).

The programme sits under its own NCJB (National Criminal Justice Board) Sub-Group, chaired by the Minister with responsibility for the CJS—a role that

has been delegated to me—dedicated to tracking progress and assisting in the resolution of cross-cutting issues.

The programme also reports to the Operational Board of the Office for Criminal Justice Reform—a cross-departmental organisation that supports all criminal justice agencies in working together to provide an improved service to the public and which reports on an equal basis to the Home Office, Department for Constitutional Affairs and Law Officers' Department.

Criminal Justice IT (CJIT), which was created to co-ordinate the CJS IT programme, is working with the criminal justice organisations to identify and implement ways to join up the individual processes, systems and services.

CJIT has developed a set of key tools, techniques and repeatable processes to ensure successful delivery of this large-scale IT programme, many of which are creating best practice. These include evidence-based CJS IT portfolio prioritisation/investment appraisal, active benefits realisation, performance management, and full open, factual and transparent reporting to all stakeholders.

Expenditure and deliverables for the CJS IT programme are approved annually by the five key-holders and monthly progress reports are provided to various governance bodies (including the Operational Board of the Office for Criminal Justice Reform) and key stakeholders (including Her Majesty's Treasury).

Criminal Records Bureau

Keith Vaz: To ask the Secretary of State for the Home Department how many applications were made to the Criminal Records Bureau for *(a)* enhanced and *(b)* standard checks in the last year for which figures are available. [48697]

Joan Ryan: I refer my right hon. Friend to the answer given on 8 February 2006, *Official Report*, column 1268W. In 2005, the Bureau received 293,615 standard disclosures and 2,443,207 enhanced disclosures.

Mr. Frank Field: To ask the Secretary of State for the Home Department how long on average an applicant to the Criminal Records Bureau in *(a)* November 2005 and *(b)* February 2006 waited for a reply. [88623]

Joan Ryan: I refer my right hon. Friend to my written answer of 6 July 2006, *Official Report*, column 1325W.

Custody

Chris Ruane: To ask the Secretary of State for the Home Department what the *(a)* name, *(b)* age, *(c)* date, and *(d)* place of death was of each child and young adult that died in custody in each of the last 30 years. [86207]

Mr. Sutcliffe: As publishing such details can cause distress to the families of those bereaved by a death in custody, I will write separately to the hon. Member with the information available.

Mr. Clegg: To ask the Secretary of State for the Home Department what additional resources have been made available to the Probation Service to implement Custody Plus under the Criminal Justice Act 2003. [88487]

John Reid: In the Review of the Criminal Justice System published on 20 July we said that Custody Plus will not go ahead in autumn 2006 as previously planned.

Preparatory work for Custody Plus was not accounted for separately from funding provided for the implementation of other sentencing provisions in the Criminal Justice Act 2003.

Lembit Öpik: To ask the Secretary of State for the Home Department how many custody suites there are in each constituency in Wales; where they are located; and if he will make a statement. [89023]

Mr. McNulty: This is an operational matter for chief constables.

Constituency	*Location*

Damages

Mr. Hayes: To ask the Secretary of State for the Home Department pursuant to his answer of 3 July 2006, *Official Report*, column 875W, on damages, what the cost is of obtaining the information requested; how many of his Department's lawyers worked on such cases of damages against his Department in the last period for which figures are available; how damages payments are accounted for in his Department's accounts; what steps he takes to minimise future claims; which Minister is responsible for monitoring such claims; and if he will make a statement. [87734]

Mr. Byrne: No central record is kept by either the Home Department or the Treasury Solicitors department of the number of cases in which damages were paid or what the total sum paid out was. This information could be obtained only by searching through some 10,000 transaction sheets and then identifying the damages elements of these payments. This would involve a disproportionate cost. Detailed figures are not kept on how many lawyers are or have been involved in claims against the Home Office. Such information could be obtained only at disproportionate cost. The way that damages payments are accounted for in the departmental accounts is seen in section 29, Losses and Special Payments, of the annual Resource Accounts. Also in the 2004-05 accounts there is a record in section 25, Contingent Liabilities, concerning the claims for compensation received by the Criminal Records Bureau. Ministers take responsibility for their own areas. Therefore ministerial responsibility for claims against the Home Office will depend on the particular area of the Department that the claim is made against.

Data Sharing

Mrs. Spelman: To ask the Secretary of State for the Home Department what plans the Government have *(a)* to link and *(b)* to enable data-sharing between the Children's Information Sharing Index and the National Identity Register. [86847]

Joan Ryan: The National Identity Register will not be linked to the Children's Information Sharing Index, nor are there plans for data-sharing between them.

Defendants' Anonymity

Ben Chapman: To ask the Secretary of State for the Home Department what recent representations he has received regarding anonymity for defendants in certain cases. [87942]

Mr. Sutcliffe: As of 25 July we had received seven items of correspondence since the beginning of this year, all of which concern defendant anonymity in sexual offences cases.

Departmental Contracts

Mr. Weir: To ask the Secretary of State for the Home Department (1) what the value was of *(a)* public opinion research and *(b)* public relations contracts awarded by his Department in 2004-05 in (i) each (A) nation and (B) region of the UK and (ii) London; [35945]

(2) what the *(a)* subject matter and *(b)* dates were of opinion survey research undertaken by the Department and its agencies in the last 12 months; if he will place copies of the results of each survey in the Library; which companies were used in conducting the research; and how much each was paid. [14815]

Mr. McNulty: The Home Office undertakes a wide range of research activities that support the development of information-led policy, including surveys of public opinion that consider Home Office issues and its related areas of responsibility. The Department commissions such work only when it is justified by the specific needs of a particular policy or programme and when this is the most economic, efficient and effective way to achieve the purpose. Consulting and informing the public helps inform both policy formulation and the delivery of better quality public services. A table showing the available information on the subject matter of market and opinion research undertaken in 2004-05 has been placed in the Library. Where this is for a specific region this has been indicated in the table, otherwise the coverage is for England and Wales (except for immigration topics). Information on the costs of individual market and opinion research projects is not held centrally and could be obtained only at disproportionate cost. The Home Office has used external public relations companies to help deliver messages and advice to the public in press and magazines as part of integrated communication campaigns, often with a local focus. Campaigns include Year of the Volunteer, Holocaust Memorial Day, Sexual Offences Act, Crime and Anti Social Behaviour. A table showing spend on a monthly basis between September 2004 and October 2005 has also been placed in the Library.

Table to be placed in the House of Commons Library

Table—market and opinion research commissioned by the Home Office in 2004-05.

A number of market and opinion research projects were ongoing in 2004-05 and were included in the table that was placed in the House of Commons Library in answer to the PQ from the hon. Member for Twickenham (Dr. Cable), *Official Report*, 28 January 2004, column 441W.

In addition, market and opinion research has been undertaken on the following subject matter in 2004-05

1. The Experiences of victims and witnesses;
2. Criminal Justice System Stakeholder Opinions;
3. Quarterly monitoring of volunteering;
4. Barriers and Motivations—Citizen Governance;
5. Organisational discrimination;
6. Expectations and experiences of victims and offenders;
7. Policing Reassurance;
8. Opinions of the use of Community Support Officers;
9. People's perception of the Licensing Act;
10. Prisoners employment issues;
11. Perceptions and Experiences of the North West Offender management Pathways (North West only);
12. Forensic science issues.

In addition the Home Office's communications directorate conduct market research to help develop and evaluate public information campaigns. The research is not peer reviewed and therefore has not been considered appropriate for 'official' publication.

Market research quantitative studies for campaign evaluations commissioned by the Home Office communication directorate are as follows:

Surveys of opinions of Holocaust Memorial Day/Year of Volunteer/Rights and Responsibilities;

Crime Reduction issues;

Vehicle Crime/Police tracking;

Drugs FRANK campaigns and Cannabis;

Police reform and internal issues;

Single Emergency Number;

Identity Cards;

Community cohesion;

Immigration

Research, Development and Statistics Directorate Projects

All published RDS research is available on the Home Office website at www.homeoffice.gov.uk/rds/pubsintro1.html.

All Youth Justice Board surveys are available on the YJB website at www.youth-justice-board. gov.uk/publications.

Table: Amount spent by the Home Office on external media relations during the period from September 2004 to October 2005

	£
September 2004	73,420
October 2004	88,660
November 2004	106,341.70
December 2004	106,324.36
January 2005	162,806.40
February 2005	160,023.11
March 2005	195,283.87
April 2005	91,574.60
May 2005	86,525.90
June 2005	85,455
July 2005	91,135
August 2005	101,828
September 2005	104,630
October 2005	103,005

Departmental Costs

Mr. Salmond: To ask the Secretary of State for the Home Department what the *(a)* salary bill was and *(b)* administrative costs were for his Department in (i) each (A) nation and (B) region of the UK and (ii) London in 2004-05. [35872]

Mr. Byrne: The total 2004-05 administration salary bill for the Department was £401 million, while total net 2004-05 administration costs came to £567 million. The Department does not monitor administrative costs by individual nation, or region or identify that incurred in London separately. The Department does however, monitor total identifiable expenditure on services, by function, country and region and this is set out in the 2006 Departmental Report (Cm 6818).

Mr. Redwood: To ask the Secretary of State for the Home Department what the total cost was of *(a)* ministerial salaries and private offices and *(b)* the three top tiers of officials and their offices in his Department in 2005-06. [67455]

Mr. Byrne: The total cost of ministerial salaries and private offices and the top three tiers and their offices in the Home Office in 2005-06 form part of the departmental resource accounts. When finalised, I will write to the right hon. Member with the information he requests.

Departmental Credit Card

David Simpson: To ask the Secretary of State for the Home Department what facility is available for senior civil servants in his Department to use credit cards supplied by the Department. [72880]

Mr. Byrne: There are no special purchasing card arrangements specifically for senior civil servants. However, the Department has adopted OGCbuying.solutions pre-tendered national frameworks for the Government Procurement Card (GPC) and Government Fuel Card facilities in line with best practice.

Departmental Databases (Security)

Mr. Clegg: To ask the Secretary of State for the Home Department how many *(a)* suspected and *(b)* confirmed security breaches of databases controlled by his Department occurred in each of the last five years. [88496]

John Reid: All incidents listed are confirmed security breaches. No areas have reported suspected security breaches.

	Incidents
2001-02	1
2002-03	1
2003-04	—
2004-05	1
2005-06	2

Departmental Expenditure

Mr. Francois: To ask the Secretary of State for the Home Department how much has been spent in each year since 1997 by his Department on salaries paid to civil servants. [41588]

Mr. Byrne: I am advised that since 2002-03 the Department has published Resource Accounts, detailing gross salaries for the Home Department, which cover the core Department, Immigration and Nationality Directorate, HM Prison Service, UK Passport Service and Criminal Records Bureau. Non-departmental public bodies and other public bodies are not included. The gross salary costs from resource accounts, for the last three available financial years, are in the following table. The costs comprise wages and salaries, social security costs and pension costs. These figures are taken from the Home Office resource accounts 2004-05, published on 31 January 2006.

	£000
2004-05	2,728,309
2003-04	485,861
2002-03	2,239,197

Note:
Figures for previous financial years are not available on the same basis.

Departmental Finance

Pete Wishart: To ask the Secretary of State for the Home Department what the annual expenditure on training and development by *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) Executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland was in each of the last three financial years; and what the planned expenditure is for 2005-06. [39977]

Mr. Byrne: The information in the following table has been extracted from the accounting systems of the Home Office and its sponsored bodies. Actual data are shown for the years 2002-03 to 2004-05 with a forecast of out-turn shown for 2005-06. These costs do not cover activities such as mentoring and desk-side training, or the cost of IT training which is bought as part of a PFI arrangement.

It is not possible to produce an analysis of spend by region as the information is not held in this way in the accounting systems of all the bodies covered by this reply.

£000

Department, Agency, NPPB Etc.	*Out-turn*			*Forecast*
	2002-03	*2003-04*	*2004-05*	*2005-06*
Core Home Office	[1]73,200	17,745	[2]74,752	25,585
Executive Agencies	25,342	24,753	24,688	31,565
Non Ministerial Departments	424	[3]1,248	1,909	2,184
Non Departmental Public Bodies	83,292	[4]112,488	104,483	108,578
Public Corporation	3,142	3,136	3,450	[5]2,164
Other Public Body	42,600	[6]59,299	66,944	[7]52,047
Grand Total	228,234	218,914	276,529	227,863

[1] This includes £54,827,000 that was spent on training the police in the use of DNA.
[2] £47,531,000 was spent on the police training reform.
[3] From this year expenditure by the Assets Recovery Agency is included.
[4] The main reason of the increase is that Centrex's recruitment was slow for 2002-03 and there was a substantial increase in their 2003-04 budget.
[5] The expenditure is from 1 April to 4 December 2005 when the Forensic Science Service ceased to be a trading fund and became a private limited company wholly owned by the Government.
[6] There were increased numbers of trainee probation officers and from 2003-04 their university fees could be accounted for separately.
[7] The year-by-year changes in expenditure reflect changes in the number of trainee probation officers.

Departmental Grants

Mr. Spellar: To ask the Secretary of State for the Home Department which organisations received grants or other income from his Department in the last 12 months, broken down by amount. [88931]

Mr. McNulty: The Home Office is currently preparing its 2005-06 accounts for audit. Information on grant payments will be contained within the published Home Office Resource Accounts.

Departmental IT

Chris Huhne: To ask the Secretary of State for the Home Department what the *(a)* originally estimated, *(b)* most recently estimated and *(c)* outturn cost was in each of the five largest information technology contracts agreed with outside suppliers over the last five years. [71763]

Mr. Byrne: Details of the five largest information technology contracts agreed by the Department inclusive of its executive agencies over the last five

years are as shown. The outturn costs show sums actually paid under the contract during its lifetime, or so far paid for ongoing contracts.

£ million

Contract	Original estimated value	Most recent estimated value	Outturn cost
Criminal Records Bureau PFP Agreement: Capita	400	400	[1]195.2
NOMS Offender Management National Infrastructure (OMNI): Steria	250	250	[2]—
IND Procurement of Infrastructure, Development and Support (IPIDS): Atos	[3]—	[4]—	[1]37
NPD STEPS: Steria	84.8	[5]—	[6]95
CIS Exchange and Hosting, Fujitsu	17.5	26	[1]8.5

[1] To date.
[2] Nil to date.
[3] £200 over six years from November 2004.
[4] Estimate currently unchanged. [5] Ended 31 December 2005. [6] Complete.

Departmental Organisation

John Hemming: To ask the Secretary of State for the Home Department if he will instruct his officials to develop a criminal justice, immigration and mental health flow chart to identify the different routes that offenders follow and to assist in identifying and resolving gaps in the system. [83893]

Mr. Sutcliffe: As my right hon. Friend the Home Secretary made clear in his written statement of 23 May 2006, *Official Report*, columns 78-81WS, there have never been systematic arrangements in place for collecting information on the nationality of mentally disordered offenders, referring them to the Immigration and Nationality Directorate and considering them for deportation. He has tasked officials to construct arrangements for considering deportation where appropriate for people in this group taking account of their very specific circumstances. This work is ongoing and as part of this, appropriate pathways are being developed for the management of mentally disordered offenders.

Departmental Pay and Pensions

Mr. Benton: To ask the Secretary of State for the Home Department how many of his Department's Pay and Pensions Service staff *(a)* are attending and *(b)* are due to attend the Dale Carnegie training courses, broken down by grade. [84732]

Mr. Byrne: The Investment in Teamworking Programme is run on behalf of HOPPS by Dale Carnegie Training. The programme is compulsory for all HOPPS staff. HOPPS is spilt in to three business areas; Pay Service, Pensions Service and Business Support Section. Staff from Pay Service and Business Support have either already attended the programme or have been allocated to the next round of sessions which begin on 20 July.Staff from Pensions Service will be allocated places on the Programme in the autumn. The breakdown of past and anticipated future attendance is as follows.

Grade	Attended	Due to attend
Administrative Assistant	9	21
SGB1	1	0
Typist	0	1
Administrative Officer	40	79
Executive Officer	31	39
Higher Executive Officer	11	21
Senior Executive Officer	6	8
Grade seven	0	3

Mr. Rob Wilson: To ask the Secretary of State for the Home Department if he will estimate the pension liability of his Department over the next 30 years. [75278]

Mr. Byrne: I refer the hon. Member to Her Majesty's Treasury technical Note, which was placed in the Library following an oral statement in Parliament by the then Chief Secretary to the Treasury on 2 March 2006, *Official Report*, columns 388-90.

Pension liabilities are not estimated for individual departments, but are estimated for individual pension schemes. The breakdown of liabilities for individual schemes is shown in Table 1 of the technical Note.

Departmental Publications

Mr. Amess: To ask the Secretary of State for the Home Department if he will list in date order *(a)* Green and *(b)* White Papers produced by his Department since October 2005. [81310]

Mr. McNulty: The information requested is in the following table.

Green and White Papers produced since October 2005

Title	Date issued
Preventing Extremism Together—Places of Worship	6 October 2005
Restructuring Probation to Reduce Re-offending	20 October 2005
Control of Immigration: Statistics United Kingdom 2004 (Cm 6690)	22 November 2005
Rebuilding Lives—Supporting Victims of Crime (Cm 6705)	7 December 2005
Bribery—Reform of the Prevention of Corruption Acts and SFO Powers in Cases of Bribery of Foreign Officials	8 December 2005
Statistics of Scientific Procedures on Living Animals: Great Britain 2004 (Cm 6713)	8 December 2005
Home Office Targets Autumn Performance Report 2005 (Cm 6707)	19 December 2005
Tackling Human Trafficking—Consultation on Proposals for a UK Action Plan	5 January 2006
A Five Year Strategy for Protecting the Public and Reducing Re-Offending (Cm 6717)	9 February 2006
New Code of Professional Standards for Police Officers	27 February 2006
A Points-Based System: Making Migration Work for Britain (Cm 6741)	7 March 2006
Government Reply to the First Joint Report from the Home Affairs and Work and Pensions Committees, Session 2005-06, on the Draft Corporate Manslaughter Bill (Cm 6755)	8 March 2006
Prison Service Pay Review Body—Fifth Report on England and Wales 2006 (Cm 6745)	31 March 2006
Countering International Terrorism: The United Kingdom's Strategy (Cm 6888)	10 July 2006
New Powers Against Organised and Financial Crime (Cm 6875)	17 July 2006

Green and White Papers produced since October 2005

Title	*Date issued*
Prisons and Probation Ombudsman for England and Wales Annual Report 2005-2006 (Cm 6873)	18 July 2006
Home Office Departmental Report 2006 (Cm 6818)	20 July 2006
Statistics of Scientific Procedures on Living Animals: Great Britain 2005 (Cm 6877)	24 July 2006
Control of Immigration: Statistics United Kingdom 2005 (Cm 6904)	22 August 2006

Mr. Amess: To ask the Secretary of State for the Home Department if he will list the unnumbered Command papers produced by his Department in each session since 1976; by what means *(a)* hon. Members and *(b)* members of the public can (i) inspect and (ii) obtain copies; and if he will make a statement. [81320]

Mr. Byrne: I refer the hon. Member to the reply given by my Department on 18 July 2005. No unnumbered Command Papers have been produced since the end of June 2005 although the Department has published a number of departmental publications as well as several numbered Command Papers through TSO. The list on the website of the Office of Public Sector Information (OPSI), www.opsi.gov.uk, of Command Papers from 2001 onwards continues to be updated and allows searching by Department or numerically. All Command Papers presented to the House are recorded in the Commons Journal and are available in the Library of the House.

Departmental publications that are still in print in paper form may be obtained through the Home Office public inquiry unit. TSO bookshops sell Command Papers and other priced publications. The Home Office website www.homeoffice.gov.uk provides access to many recent publications in electronic formats.

Copies of most Home Office departmental publications since 1976 have been sent to the deposit libraries under the legislation in force at the time and will be available to hon. Members and the public in accordance with the conditions of use of each library. Many public library authorities are able to obtain copies of Home Office publications that they do not already stock through long-established inter-lending arrangements.

Departmental Report

Lynne Featherstone: To ask the Secretary of State for the Home Department pursuant to the Home Office 2006 Departmental Report, how the £97 million of criminal assets was distributed. [88651]

Mr. Coaker: £26 million was allocated to police forces under the police asset recovery incentive scheme. £9.1 million was allocated to the Crown Prosecution Service for proceeds of crime work. £13.5 million was provided to increase front line asset recovery capacity and activity, including £9.4 million for five multi-agency Regional Asset Recovery Teams. A further £2.6 million was made available to fund additional financial investigators in police forces. In addition, £1.5 million was used to fund a Confiscation Enforcement Task Force. The remainder was used by the Home Office in recognition of its broader responsibility for crime reduction, and contributing towards delivery of our crime and community safety objectives.

Departmental Staff

Mr. Jeremy Browne: To ask the Secretary of State for the Home Department how many staff in his Department at *(a)* executive officer level or equivalent and *(b)* higher executive officer level or equivalent are employed on temporary contracts. [59911]

Mr. Byrne: The available figures are in the following table.

	Executive officer level on temporary contracts	*Higher executive officer level or equivalent on temporary contracts*
Immigration and Nationality Department (includes Immigration Officers)		
Casual	12	19
Agency	75	37
Other	2	26
Core (including National Offenders Managements HQ)		
Casual	10	16
Agency	70	25
Other	14	[1]44
HM Prison Service		
Casual	63	20
Agency	26	4
UK Passport Agency	13	31
Total	285	222

[1] The definition of temporary contract which has been used is the ONS 'non-permanent' category and includes staff on fixed term appointments.

David Simpson: To ask the Secretary of State for the Home Department how many and what percentage of staff in his Department are making additional voluntary contributions to their pension. [73022]

Mr. Byrne: A total of 552 Home Office staff currently contribute to Additional Voluntary Contribution (AVC) schemes to supplement their Civil Service Pension. This represents 0.65 per cent. of all employees on the Home Office payroll.

Dr. Cable: To ask the Secretary of State for the Home Department how many people, and at what grades, are employed in his Department to work on criminal justice aspects of drugs and alcohol misuse. [83923]

Mr. Byrne: I refer the hon. Member to the reply given on 15 March 2006, *Official Report*, column 308W.

The breakdown by grade is set out in the following table. These are the most recent available data and differ from the information provided in March.

Grades	Drugs	Alcohol
Senior Civil Service	6	0
Grade 6	10	3
Grade 7	29	5
Senior Executive Officer	27	2
Higher Executive Officer	28	2
Executive Officer	26	2
Administrative Officer	22	0
Administrative Assistant	1	0
Senior Personal Secretary	1	0
Personal Secretary	6	1
Grade not recorded centrally[1]	7	0
June 2006	164	15
February 2006[2]	181	15

[1] Staff joining recently or in transit.
[2] Figure used in 15 March PQ difference is due to time.

Lynne Featherstone: To ask the Secretary of State for the Home Department what proportion of senior managers within the *(a)* Serious Organised Crime Agency, *(b)* National Offender Management Service, *(c)* Immigration and Nationality Directorate, *(d)* Identity and Passport Service, *(e)* Criminal Records Bureau and *(f)* Forensic Science Service are (i) female and (ii) male; and if he will make a statement. [88648]

Mr. Byrne: The available figures are set out in the table. The definitions of senior management differs in some areas and figures are for Senior Civil Service grades except for the Prison Service, and Serious Organised Crime Agency where they list senior managers at Grade seven and above, and for Criminal Records Bureau which list their senior managers at Senior Executive Officer and above. Data is at 30 June 2006 except for National Offender Management Service staff in HQ and for the Immigration and Nationality Directorate which is for 31 March 2006. In addition the data for the National Probation Service was only available as at the end of 2005. As a result it has not been possible to provide a consistent figure for the total staff in NOMS. Forensic Science Service ceased to be a Home Office Agency and became a government limited company (Govco) in December 2006. Its figures are for the five SCS equivalent staff.

	Percentage	
	Female	Male
(a) Serious Organised Crime Agency	10.61	89.87
(b) National Offender Management Service (NOMS) comprising:		
HM Prison Service	31.80	68.19
National Probation Service	16.67	83.33
NOMS HQ	34.48	65.5
(c) Immigration and Nationality Directorate	32.56	67.44
(d) Identity and Passport Service	40	60
(e) Criminal Records Bureau	46	47
(f) Forensic Science Service	0	100

Mr. Clegg: To ask the Secretary of State for the Home Department how many staff vacancies there are in *(a)* the probation service, *(b)* the Prison Service and *(c)* the immigration and nationality directorate. [88951]

John Reid: The number of staff vacancies for the probation service, the Prison Service and the immigration and nationality directorate are detailed as follows.

(a) In the probation service on the 31 March 2006 there were 977.32 full-time equivalent (FTE) active vacancies in the NPS, and active vacancies accounted for 5.30 per cent. of the available posts in the organisation.

(b) In the Prison Service on 30 June 2006 within the public sector Prison Service there was a variation of 874 between operational staffing requirement and staffing availability. Staffing availability includes the contribution made by officers working contract supplementary hours and agency workers as well as permanent and casual members of staff.

(c) In the immigration and nationality directorate there is no precise figure for vacancies, the level of which will vary depending on a number of factors including volumes of business, forecasts of future staff turnover and assessments of affordability. As an indication, the difference between the number of staff in post at the end of March and the planned average strength for 2006-07 was around 400.

Departmental Website

Judy Mallaber: To ask the Secretary of State for the Home Department when his Department's website was last updated to make it more user-friendly; and if the Department will take steps to ensure that audio-visual material is used in addition to text. [88386]

Mr. Byrne: The Home Office website was redeveloped throughout 2005 and a more user-friendly version was published in October that year, aimed specifically at the general public. The new site was developed according to principles of user-centred design and was recognised in a recent independent report published by Porter & Precedent as being the best of the 32 UK public sector websites they assessed. Particular praise was given to the accessible, user-friendly site design and navigation. The Home Office will publish audio-visual material on the site if it is appropriate to do so and if there is relevant material. Audio-visual content is already published on some parts of the Home Office website.

Deportation

Andrew Rosindell: To ask the Secretary of State for the Home Department what the average cost was of deportation evaluations of foreign prisoners carried out by his Department in the latest period for which figures are available. [70100]

Mr. Byrne: This information is not available other than at disproportionate cost.

Stephen Pound: To ask the Secretary of State for the Home Department what account is taken of whether Irish nationals have been resident in the UK from birth when considering cases for deportation from the UK to Ireland. [75388]

Mr. Byrne: Under section 7 of the Immigration Act 1971, Irish citizens who were ordinarily resident in the

United Kingdom on 1 January 1973 (the date of the coming into force of the that Act) and who have been ordinarily resident five years prior to a court recommendation or decision to make a deportation order are exempt from deportation. Those Irish nationals who do not fall into this category may be removed under the Immigration (European Economic Area) Regulations 2006 if it is decided that removal is justified on the grounds of public policy, public security or public health.

Mr. Wallace: To ask the Secretary of State for the Home Department how many people were deported from the UK in each year since 1997, broken down by nationality. [73675]

Mr. Byrne: The total number of deportations from the UK broken down by nationality is not available.

The Immigration and Nationality Directorate is currently putting in place new processes to improve its data collection systems for the future in this area.

Detection Rates

David Davis: To ask the Secretary of State for the Home Department what the detection rate was in 2005-06 for *(a)* theft and handling stolen goods, *(b)* fraud and forgery, *(c)* criminal damage, *(d)* violence against the person, *(e)* sexual offences, *(f)* robbery and *(g)* all violent crime calculated by the methodology used to calculate the figures presented in Table 7.03 of Crime in England and Wales 2004-05. [89151]

John Reid: The information requested is given in the following table:

Overall detection rates for crime in England and Wales 2005-06

Offence group	*Percentage detected*
Theft and handling stolen goods	18
Fraud and forgery	29
Criminal damage	15
Violence against the person	54
Sexual offences	35
Robbery	18
All violent crime	50

DNA Database

Mr. Clegg: To ask the Secretary of State for the Home Department how many DNA profiles are held of individuals who are *(a)* under 16, *(b)* 16 to 18, *(c)* 19 to 21 and *(d)* over 21 years, broken down by police force area. [86528]

John Reid: The information requested for the police forces in England and Wales is shown in the following table. The figures given are the number of DNA subject sample profiles held on the National DNA Database as at 18 July 2006 and not the number of individuals. Some individuals may have more than one profile on the Database due to replicate sampling. It is estimated that the current level of replication on the Database is about 10 per cent.

Number of DNA subject profiles on the National DNA Database

Force	*Under 16s*	*16-18*	*19 to 21*	*Over 21 years*
Avon and Somerset	2,272	3,202	5,088	61,488

Grand Total		3,181,460		

Domestic Violence

Lynne Featherstone: To ask the Secretary of State for the Home Department how many arrests for domestic violence have been made in each *(a)* London borough

and *(b)* constituency in each of the last five years, broken down by the offender's (i) age and (ii) ethnic origin; and if he will make a statement. [82958]

Mr. Coaker: The Metropolitan Police Service (MPS) collect data at London borough level on domestic violence-related arrests broken down by offender's age and ethnicity (see tables). The MPS do not collect data at constituency level. The data demonstrates a steady increase in domestic violence-related arrests by the MPS. This is in line with the Home Office's objectives of increasing the reporting of domestic violence and police pro-activity in responding to domestic violence.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many *(a)* arrests and *(b)* convictions there have been for domestic violence in each London borough in each of the last 10 years. [87305]

Mr. Coaker: The number of arrests for domestic violence in each London borough is only available from 2001-02. The total number of domestic violence arrests for each London borough are contained in the following table. The data demonstrate a steady increase in domestic violence-related arrests by the MPS. This is in line with the Home Office's objectives of increasing the reporting of domestic violence and police proactivity in responding to domestic violence. The CPS does not hold a historical record of domestic violence data for each London borough. The following data are for the number of domestic violence convictions as a proportion of domestic violence prosecutions in the jurisdiction of the London courts. 2005-06—2,503 convictions (51.7 per cent. of prosecutions). 2004-05—1,365 convictions (48.6 per cent. of prosecutions). Comparable figures are not held for years prior to 2004-05.

Persons accused of domestic violence broken down by borough and age range

Mr. Burstow: To ask the Secretary of State for the Home Department pursuant to the answer of 29 November 2005, *Official Report*, column 438W, on domestic violence, if he will publish the *(a)* 2004 and *(b)* 2005 results on victimisation. [88513]

Mr. Sutcliffe: The British Crime Survey (BCS) measures victimisation against adults living in private households in England and Wales. Domestic violence is included as part of the survey's core measure of violent crime. The results from the 2004-05 and 2005-06 BCS surveys have been published in the Home Office Statistical Bulletins 11/05 "Crime in England and Wales 2004-05" and 12/06 "Crime in England and Wales 2005-06". The BCS also includes a self-completion module of questions on interpersonal violence; this covers domestic violence, sexual assault and stalking. The module was included in the 2004-05 and 2005-06 surveys. The results from the 2004-05 survey were published in May 2006, in Home Office Online Report 12/06. It is currently planned that the results from the 2005-06 survey will be published early 2007.The results from the 2004 Offending, Crime and Justice Survey, which includes general data on the nature of personal victimisation of young people aged 10 to 25, were published on the 24 November 2005, in the Home Office Statistical Bulletin 20/05 "Young people and crime: findings from the 2004 Offending,

Crime and Justice Survey, Appendix D". It is currently planned that the results from the 2005 survey will be published late 2006.

Mr. Burstow: To ask the Secretary of State for the Home Department pursuant to the answer of 3 November 2005, *Official Report*, columns 1252-53W, on domestic violence, what findings were made by the most recent frequency surveys conducted to gauge the level of interpersonal violence experienced by *(a)* children and *(b)* adults over 60 years. [88522]

Mr. Sutcliffe: The British Crime Survey (BCS) measures victimisation against adults living in private households in England and Wales. Domestic violence is included as part of the survey's core measure of violent crime. The results from the 2005-06 BCS were published on 20 July 2006 in the Home Office Statistical Bulletin 12/06 "Crime in England and Wales 2005-06". The risks of victimisation by age and sex for all violence and domestic violence based on the 2005-06 BCS are included in the following table. The BCS also includes a self-completion module of questions on interpersonal violence; this covers domestic violence, sexual assault and stalking. The module was included in the 2004-05 and 2005-06 surveys. The results from the 2004-05 survey were published in May 2006, in Home Office Online Report 12/06. However, the results only cover those aged from 16 to 59 for methodological reasons. The results from the 2004 Offending, Crime and Justice Survey, which includes general data on victimisation of young people aged 10 to 25, were published on 24 November 2005, in the Home Office Statistical Bulletin 20/05 "Young people and crime: findings from the 2004 Offending, Crime and Justice Survey, Appendix D". It is currently planned that the results from the 2005 survey will be published late 2006.

Drivers (Drugs)

Mr. Chope: To ask the Secretary of State for the Home Department what recent assessment he has made of the effectiveness of field impairment tests in identifying drivers with illegal drugs in their bodies. [87484]

Mr. McNulty: The drug driving offence under the Road Traffic Act 1988 is that of driving whilst unfit through a drug. Field impairment tests are intended to help an assessment of whether a driver is impaired and whether that impairment might be due to alcohol or a drug. Whether the drug is a controlled substance or obtained legally on prescription or over the counter is not relevant to the offence. There is no offence if the driver has a drug in his body but his driving ability is not impaired. We understand from the police that the tests are useful in making such an assessment. If impairment is suggested and it appears a drug may be responsible, the driver can be required to provide a specimen of blood or urine for laboratory analysis.

Mr. Chope: To ask the Secretary of State for the Home Department if he will make a statement about the use and effectiveness of roadside drugalysers. [87487]

Mr. McNulty: Under s 6C (1)(b) of the Road Traffic Act 1988 as amended, a device used to test a driver for the presence of a drug in his body has to be of a type approved by the Secretary of State. There are at present no devices which have received type approval. International research has suggested that such drug screening devices as are currently available commercially are not suitable for type approval for the purposes of the Act.

Drug Intervention Programme

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on the results of the pilots in five areas of the Drug Interventions Programme. [26657]

Mr. Coaker: The hon. Member originally raised this question on 7 November 2005. Given that there were no pilots in any "five areas of the Drug Interventions Programme" it was agreed that the question would be withdrawn and re-tabled. The re-tabled question was answered on 6 February 2006 and I refer the hon. Member to the answer I gave on 6 February 2006, *Official Report*, column 937W.

I am now pleased to give the hon. Member the latest position on numbers into treatment. Since the introduction of the Drug Interventions Programme (DIP) in April 2003, over 48,000 drug misusing offenders have entered treatment through DIP (May 2006). We are on track to achieve the overall target of 1,000 offenders a week into treatment by 2008 and we exceeded the interim (March 2005) target by 54 per cent.

Drug Strategies

Mr. Clegg: To ask the Secretary of State for the Home Department what plans his Department has made for the review of the *(a)* UK and *(b)* UN drug strategies in 2008; and if he will make a statement. [85395]

Mr. McNulty: The Government's Drug Strategy is delivering tangible improvements in communities across the country. The Drug Harm Index, which measures a range of harms caused by drug misuse, shows a 24 per cent. reduction since the introduction of the updated Drug Strategy in 2002.

In advance of 2008, a full review will be undertaken to inform the next stage of the Strategy. Departments delivering the Drug Strategy are currently participating in the comprehensive and in-depth value for money programme led by HMT as part of the preparations for the Comprehensive Review 2007, due to report next year.

With its European Union partners, the Government are seeking to ensure that the 10-year plan of action, established by the 1988 United Nations General Assembly Special Session on Drugs, is evaluated rigorously and realistically, through the best available scientific and statistical evidence; and that the results of the evaluation will lay firm foundations for realistic future UN strategies against illicit drugs.

Decisions made on the future direction and form of the post-2008 strategies will be communicated to all partners and stakeholders at the earliest opportunity.

Drug Use

Mr. Garnier: To ask the Secretary of State for the Home Department when he will publish the findings and evidence contained in the study into the prevalence of drug use across the 149 drug action team areas commissioned by his Department from the Centre for Research into Drug Misuse at Glasgow University in partnership with the University of Manchester. [88811]

Mr. Coaker *[holding answer 25 July 2006]:* A publication date for this report has not been finalised yet. We intend to publish this in one collated volume with a number of other related drugs research studies.

Drugs

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people have been convicted of possession with intent to supply *(a)* cannabis, *(b)* ecstasy, *(c)* cocaine, *(d)* crack cocaine and *(e)* heroin in each London borough in each of the last five years. [85950]

Mr. Coaker: Available data relate to court proceedings within London's City and Metropolitan police areas between 2000 and 2004. Information cannot be broken down to London borough level.

Table A: Persons found guilty for possession with intent to supply[2] drug offences[1], City of London police force area,2000 to 2004

Drug type	2000	2001	2002	2003	2004
Cannabis[3]	0	1	3	3	0
Ecstasy	1	2	4	6	1
Cocaine	0	1	1	7	4
Crack	0	0	0	0	0
Heroin	0	1	3	0	0

[1] Excludes operations dealt with by HM Revenue and Customs.
[2] As an offence can involve more than one drug type, columns cannot be added together to produce sub-totals or totals.
[3] On 29 January 2004 cannabis was re-classified from being a class B to a class C drug.

Table B: Persons found guilty for possession with intent to supply drug offences[1], Metropolitan police area, 2000 to 2004

Drug type	2000	2001	2002	2003	2004
Cannabis 3	333	350	352	362	295
Ecstasy	127	119	105	116	81
Cocaine	133	208	218	221	246
Crack	68	82	89	118	107
Heroin	130	170	154	213	179

[1] Excludes operations dealt with by HM Revenue and Customs.

Mr. Clegg: To ask the Secretary of State for the Home Department how many *(a)* x-ray and *(b)* ultrasound scanners are in use by the police for dealing with those suspected of possessing class A drugs. [88950]

John Reid: Section 5 of the Drugs Act 2005 gave police forces in England and Wales the power to require a person believed to have swallowed a class A drug to undergo an x-ray or ultrasound scan in certain circumstances. The provision was commenced on 1 January 2006. Such a procedure may only be carried out by a suitably qualified person, and only at a hospital, a registered medical practitioner's surgery, or some other place used for medical purposes. It follows that no scanners are used solely by the police or solely for this purpose.

Drunk and Disorderly Offences

Chris Huhne: To ask the Secretary of State for the Home Department how many *(a)* adult and *(b)* under-age offenders were found guilty of (i) drunken and disorderly behaviour and (ii) drunken and aggravated behaviour providing figures in (A) rural and (B) non-rural areas in (1) absolute terms and (2) per 1,000 population in each year since 1997; and if he will make a statement. [84631]

Mr. Sutcliffe: From data held by the Office for Criminal Justice Reform, it is not possible to identify convictions in rural and non-rural areas separately as this information is not collected.

Early Release

Dr. Julian Lewis: To ask the Secretary of State for the Home Department how many prisoners have been released under the early release scheme in each year since its introduction; and what assessment he has made of the scheme's effect on demand for prison places. [88849]

Mr. Sutcliffe: Under the Criminal Justice Act 1991, those sentenced to determinate sentences of four years or more are eligible for parole halfway through their sentence. If parole is not granted then release occurs at the two-thirds point of the sentence (or at a subsequent parole review if earlier). Numbers of prisoners recommended for parole are shown at table 10.4 of the offender management caseload statistics 2004, a copy of which can be found in the Library.

Prisoners sentenced to determinate terms of under four years under the 1991 Act are generally released automatically at the halfway point of their sentence.

The Home Detention Curfew scheme (HDC) has been in operation since January 1999. Subject to

meeting the eligibility criteria and passing a careful risk assessment, prisoners serving sentences of between three months and less than four years may be released up to four and a half months (135 days) early from prison subject to an electronically monitored curfew normally between 7pm and 7am. Although not its primary purpose, HDC plays an important role in managing the prison population by reducing overcrowding at the same time as improving resettlement opportunities for less serious offenders. Information on the numbers of prisoners released under Home Detention Curfew (HDC), can be found in tables 10.3 in the offender management caseload statistics 2004.

The figures provided in the tables referred to have been drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large-scale recording system, and so is not necessarily accurate to the last whole number.

The Criminal Justice Act 2003 introduced new arrangements for prison sentences. They apply only to offences committed on or after 4 April 2005. A new indeterminate public protection sentence was introduced. Those offenders judged to be dangerous, and who have committed serious sexual or violent offences, can be kept in prison until the Parole Board judges it is safe to release them. If they have committed less serious offences they may serve a determinate sentence followed by an extended period on licence after release of up to eight years for sexual offences and five years for violent offences. Other determinate sentence prisoners will be released automatically at the half-way point of their sentence.

At any one time about 2,700 people—who would otherwise be filling prison places—are serving the last part of their sentence on HDC. The other early release arrangements described above inform projections of the prison population. Projections to 2011 have been produced for a range of scenarios and are published in Home Office statistical bulletin 10/05, a copy of which is available in the House of Commons Library. Further projections will be published shortly.

Mr. Maude: To ask the Secretary of State for the Home Department what monitoring procedures are in place for prisoners released before their sentence expiry date. [70162]

Mr. Sutcliffe: Prisoners sentenced to a determinate sentence of 12 months or over who fall to be released under the provisions of the Criminal Justice Act 1991 are subject to probation supervision from the point at which they are released until their licence expiry date (which will extend up until the three-quarter point of their sentence). Prisoners recalled during that period are re-released at the discretion of the Parole Board and are normally subject to further probation supervision until the expiry of their sentence. Prisoners sentenced to a determinate sentence of 12 months or over under the provisions of the Criminal Justice Act 2003 are subject to probation supervision from the point of release until the expiry of the sentence. Prisoners sentenced to an extended sentence are subject to probation supervision for the normal licence period as well as the extension period of the sentence. All prisoners subject to probation supervision are required to report to their supervising officer and may be required to live where directed and to comply with a range of other licence conditions which assist the Probation Service to monitor their behaviour in the community. Failure to comply can result in the offender's licence being revoked and the offender's being returned to custody. Determinate sentence prisoners serving a sentence of three months or over but less than four years may be released up to 135 days before their automatic release date on the home detention curfew scheme. These prisoners are subject to an electronically monitored curfew and liable to recall if they breach the terms of the curfew. Young offenders (those aged under 22 years upon their release) who are serving a sentence of less than 12 months and who fall to be released under the Criminal Justice Act 1991 receive a period of statutory supervision upon their release, which runs for three months (or until the offender reaches 22 years of age).

ECAA Switching Cases

Mr. Leigh: To ask the Secretary of State for the Home Department how many applications for the right of establishment in business under EU association agreements in ECAA switching cases were submitted using standard-form business plans identical or materially similar to those submitted by other such applicants. [86270]

Mr. Byrne: Information in the form requested is not available and could be obtained only at a disproportionate cost.

Mr. Leigh: To ask the Secretary of State for the Home Department whether *(a)* he and *(b)* his Department are aware of any applications for the right of establishment in business under EU association agreements in ECAA switching cases having been granted in error between 1 June 2003 and 30 April 2004. [86271]

Mr. Byrne: The report by Ken Sutton published on 17 June 2004, found that there was clear evidence that the ECAA category had been exploited and that applications were granted to some individuals who were unlikely to have been able to demonstrate that they could sustain themselves in business.

Mr. Leigh: To ask the Secretary of State for the Home Department how many applications for the right of establishment in business under EU association agreements in ECAA switching cases were refused between 1 June 2003 and 30 April 2004, broken down by *(a)* reason for refusal and *(b)* nationality of the applicant. [86272]

Mr. Byrne: Between 1 June 2003 and 30 April 2004 1,006 applications for the right of establishment in business under EU association agreements in ECAA switching cases were refused. A breakdown of the nationalities of the refused applicants is given in the following table. There is no facility on the Management Information System to produce a breakdown of reasons for refusal.

Country of origin	Number
Bulgaria	36
Czech Republic	4
Estonia	7
Federal Republic of Yugoslavia	1
Hungary	1
Latvia	72
Lithuania	184
Moldova	1
Poland	617
Romania	58
Russia	2
Slovakia	5
Turkey	13
Ukraine	5
Grand total	1,006

Notes:
This information has not been quality assured, and is not a National Statistic. It should be treated as provisional management information and may be subject to change.

Effective Trial Management Programme

Lynne Featherstone: To ask the Secretary of State for the Home Department if he will make a statement on the effective trial management programme. [88663]

Mr. Sutcliffe: The primary aim of the effective trial management programme is to reduce the number of ineffective trials by improving case preparation and progression from point of charge through to trial or earlier conclusion. By increasing the certainty of trial or hearing dates, the programme aims to bring more offences to justice and improve public confidence in the criminal justice system, particularly that of victims and witnesses. Effective trial management formed part of the wider criminal case management programme aimed at improving the end-to-end process, and which included the setting up of 165 Witness Support Units under the No Witness No Justice project, and the roll-out of the new charging scheme.

Implementation of the effective trial management programme, together with the other two elements of the wider criminal case management programme, has been completed in all criminal justice areas across England and Wales. The indications are that reductions in headline ineffective trial rates have been achieved. Stakeholder confidence and satisfaction in the changes remains high, with effective trial management being a priority at local and national level.

Emergency Planning Exercises

Mr. Holloway: To ask the Secretary of State for the Home Department what emergency planning exercises *(a)* his Department and *(b)* public bodies for which he is responsible have carried out in the last six months. [54937]

Mr. McNulty: The Home Office leads the National Counter Terrorism Exercise Programme which is designed to test the preparedness of the police to respond to major terrorist incidents and to drive improvements to counter terrorist contingency planning within Government Departments. As part of this the Home Office runs three national exercises each year as well as up to 12 table-top exercises.

Two full scale national counter terrorism exercises and nine table-top exercises were held between September 2005 and August 2006.

Individual police forces also run their own counter terrorism and other civil contingencies exercises at local level. Details of these exercises are not held centrally.

In addition, the Home Office also carries out business continuity planning, disaster management and other contingency planning in order to ensure that its business can continue in the event of an incident that might otherwise affect its ability to function normally. Home Office Headquarters has not exercised these plans between September 2005 and August 2006. Details of emergency planning exercises held in individual immigration offices, immigration detention centres, immigration ports, prisons and other offices falling within the Home Office's remit, are not held centrally.

Employment Discrimination (Criminal Records Checks)

John McDonnell: To ask the Secretary of State for the Home Department what the result has been of his Department's consideration of the merits of establishing an independent licensing authority to tackle employment discrimination related to criminal records checks. [51405]

Mr. Sutcliffe: The setting up of a central register of ex-offenders was a key recommendation of Sir Michael Bichard's report into those working with children and vulnerable adults. This particular area of policy is led by the Department for Education and Skills (DfES).

After considering all the options very carefully, including a licensing route, DfES introduced the Safeguarding Vulnerable Groups Bill in February 2006. This seeks to enact agreed proposals to establish a new central Vetting and Barring Scheme to ensure all those seeking jobs that give significant access to children or vulnerable adults are properly vetted. This approach has been consulted upon and endorsed by Sir Michael Bichard.

Engagements

Mr. Gale: To ask the Secretary of State for the Home Department when he expects to be in a position to indicate to the hon. Member for North Thanet what discussions he held with representatives of The News of the World during the four weeks preceding 26 June 2006 in answer to question 79809. [87757]

Mr. McNulty *[holding answer 24 July 2006]:* The Home Secretary replied to the hon. Member on 25 July 2006, *Official Report*, column 1333W.

Entry Points

David Davis: To ask the Secretary of State for the Home Department what the points of entry are into the United Kingdom. [87298]

John Reid: There are many potential entry points to the UK including small air and sea ports, marinas and

airfields. There are 35 air, sea and rail points of entry in the UK and in juxtaposed locations, which, by virtue of the nature and frequency of traffic and the numbers of passengers requiring leave to enter the port, have immigration official presence 24 hours a day or during operating hours. Other small points of entry are attended to cover scheduled services, or on a risk assessed basis, or in response to specific intelligence. The names of these points of entry cannot be disclosed as this could provide information of value to those seeking to circumvent immigration controls, thereby prejudicing the prevention and detection of immigration offences.

European Arrest Warrants

Lynne Featherstone: To ask the Secretary of State for the Home Department pursuant to the letter dated 22 January 2006 from the Parliamentary Under-Secretary of State for the Home Department to the Chairman of Sub-Committee E of the House of Lords European Union Committee, what the title was of each case in 2005 where European arrest warrants were discharged by the UK courts for passage of time considerations; which court discharged each case; and what the length of time which had passed was in each case. [86414]

Joan Ryan: There were four cases discharged due to the passage of time in the UK in 2005. Three of these were dealt with by Bow Street magistrates court, which deals with all extradition requests in England and Wales, and one by the Edinburgh sheriffs court. Additionally, one case was discharged in 2005 but the case was not formally confirmed until 2006, when an appeal against the decision was withdrawn and one was discharged for two reasons, the secondary reason being passage of time. Both these cases were also dealt with by Bow Street magistrates court. The cases were: Teresa Restas, where the alleged offences took place in 1985 and the European arrest warrant (EAW) was issued in 2005. Rafal Darek, where the alleged offences took place in 1995 and the EAW was issued in 2004. Ronaldas Pakstas, where the alleged offences took place in 1998 and the EAW was issued in 2004 Richard Rockiki (Scottish case) where the alleged offences took place in 1986 and the EAW was issued in 2004. The case where the appeal was withdrawn in 2006 was Peter Lewis, where the alleged offences took place in 1996 and the EAW was issued in 2004. The case discharged principally for another reason was Ravnik Bojan, where the alleged offences took place in 1992 and the EAW was issued in 2005.

Extradition

Mr. Davey: To ask the Secretary of State for the Home Department, how many US citizens have been extradited from the UK since 1997; and how many UK citizens have been extradited from the US since 1997. [89193]

Mr. McNulty: Neither the UK or US keep a permanent central record of the nationalities of those extradited between the two countries, because both countries have always been prepared to consider the extradition of its own citizens.

Statistical information is only available since 1998.

The figures do not include Scotland and Northern Ireland who have devolved powers to make or grant requests.

Total extradited (of all nationalities) to the US from England and Wales

	Number
1998	7
1999	7
2000	9
2001	8
2002	12
2003	6
2004	8
2005	13
2006 (to 21 July)	11

Note:
The 2006 figure includes one person who is counted once but was returned to the US on two requests (both under the 1989 Act and 2003 Act for separate offences in two different States).

Total extradited (of all nationalities) from the US to England and Wales:

	Number
1998	5
1999	2
2000	2
2001	3
2002	3
2003	2
2004	4
2005	1
2006 (to 21 July)	1

Mr. Boris Johnson: To ask the Secretary of State for the Home Department how many requests for extradition *(a)* were received in 2005 and *(b)* have been received in 2006 from each of the countries that were the subject of the Part two Territories Designation Order 2003. [86761]

Joan Ryan: The figures for those countries which were designated under the Extradition Act 2003 (Designation of Part two Territories) Order 2003, and which made requests under the Extradition Act 2003 during the periods in question, are given in the table. The figures do not include requests made to Ministers in Scotland and Northern Ireland, who have devolved powers to make or grant requests.

Part two Territories	*(a) 2005*	*(b) 2006 (to 18 July 2006)*
Albania	2	4
Armenia	—	1
Australia	3	4
Azerbaijan	1	—
Canada	3	1
Croatia	2	2
Czech Republic[1]	1	—
Georgia	1	—
Germany[1]	1	—
Hong Kong SAR	—	1
India	4	—
Israel	2	—
Italy[1]	3	—
Mauritius	1	—

Part two Territories	(a) 2005	(b) 2006 (to 18 July 2006)
Norway	1	—
Romania	14	2
Russian Federation	5	4
Switzerland	—	2
Trinidad and Tobago	—	2
Turkey	1	2
USA	8	9

[1] Upon joining the European Arrest Warrant mechanism, these countries were re-designated as Part one Territories on the following dates: Czech Republic and Germany: 1 March 2005; France: 27 July 2004; Italy: 28 July 2005.

Extremism/Islamaphobia

Ms Abbott: To ask the Secretary of State for the Home Department what progress has been made in setting up a national forum against *(a)* extremism and *(b)* Islamophobia as proposed in response to the 7 July bombings. [71940]

Meg Munn *[holding answer 19 May 2006]:* I have been asked to reply.

Six regional forums are to be created, led by key individuals and bringing together members of local Muslim communities, law enforcement and public service agencies to discuss how to tackle extremism and Islamophobia in their area. The forums will provide a safe space for sharing views and developing new thinking and action plans for dealing with extremism. The first three forums have taken place in Leicester (18 June), Redbridge (24 June), and Dudley (3 July). A further three are planned before November.

A national forum against extremism has been formed by 12 Muslim organisations; they plan to hold a conference in the autumn.

False Passports/Identity Documents

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people have been arrested in England and Wales for possession of *(a)* a false passport and *(b)* other false identity documents in each of the last five years. [86809]

Joan Ryan: Information on arrests collected centrally in England and Wales is based on persons arrested for "notifiable" offences by main offence group only and does not identify individual offences.

Firearms

Andrew Rosindell: To ask the Secretary of State for the Home Department what estimate he has made of the number of illegal firearms in circulation; what steps he is taking to reduce the number; and if he will make a statement. [89031]

Mr. McNulty: There are no reliable estimates of the number of prohibited firearms in circulation.

We are taking action in a variety of ways to take illegal firearms off the streets:

we have introduced a five-year minimum sentence for possession of a prohibited firearm and are tightening legislation in the Violent Crime Reduction Bill with a new offence of using someone to mind a weapon;

we support dedicated and intelligence-led police enforcement operations focusing on gun crime, including the seizure of firearms, such as Operation Trident;

HM Revenue and Customs conduct operations to detect and seize illegal weapons. We also support community work aimed at helping young people who may be at risk of involvement in gun crime through the Connected Fund.

Foreign Criminals

David Davis: To ask the Secretary of State for the Home Department (1) how many foreign mentally-disordered individuals held in special hospitals under mental health legislation were released without notification to the immigration and nationality directorate in *(a)* the last six months, *(b)* the last 12 months and *(c)* the last five years; [77405]

(2) how many foreign mentally-disordered individuals held in special hospitals under mental health legislation have been released without being considered for deportation in *(a)* the last six months, *(b)* the last 12 months and *(c)* the last five years. [77406]

John Reid: The information requested is not currently held centrally.

David Davis: To ask the Secretary of State for the Home Department how many foreign national offenders have been served with deportation orders in each year since 1999. [68731]

John Reid: Up until 2002, published information is available on the total number of persons against whom enforcement action was initiated, including deportation action, in the Control of Immigration: Statistics United Kingdom Command Paper. Published editions of this Command Paper and other information on immigration and asylum are available on the Home Office's Research Development and Statistics website at: http://www.homeoffice.gov.uk/rds/immigration1.html

Information on deportation action was not available for 2003 due to data quality issues in this area. Information for 2004 has been published (as at the listed website) provisionally and may be revised in the 2005 Control of Immigration: Statistics United Kingdom Command Paper publication.

The immigration and nationality directorate is currently putting in place new processes to improve its data collection systems for the future in this area.

Mr. Hayes: To ask the Secretary of State for the Home Department whether private finance initiative schemes have been used for handling the deportation of foreign national criminals since 1997. [68747]

Mr. Byrne: I can advise the hon. Member that no private finance initiative schemes have been used for handling the deportation of foreign national criminals since 1997.

Mr. Hayes: To ask the Secretary of State for the Home Department what the cost has been of *(a)*

back-processing and *(b)* locating of foreign national prisoners released without processing for deportation; how many personnel have been deployed on these tasks; and from which other sections they have been reassigned. [68767]

Mr. Byrne: The total cost of the operation to track and detain foreign criminals is not currently available because work on the 1,013 cases released without consideration of deportation is still ongoing.

The immigration and nationality directorate's criminal casework directorate is overseeing work, staffed with over 400 full-time equivalent staff of which some are on loan on a short and long-term basis from other areas of the immigration and nationality directorate as recruitment takes place. These staff have come from a range of operational areas. Risks to business delivery associated with loaning staff to the criminal casework directorate are being closely managed.

IND is also working closely with a number of other Government Departments in locating and dealing with these individuals, in particular the police who have jointly led the intelligence gathering operation to locate these individuals.

Anne Main: To ask the Secretary of State for the Home Department pursuant to the answers of 29 June 2006, *Official Report,* columns 641-2W, on foreign criminals, where in the written statement of 29 June 2006, *Official Report,* columns 18-19WS, on deportation and removal of foreign nationals, or in the letter from the director-general of the immigration and nationality department to the Chairman of the Home Affairs Committee the information sought in Question numbers 67390 and 67391 is to be found. [85900]

Mr. Byrne *[holding answer 17 July 2006]:* The immigration and nationality directorate (IND) director general's letter of 29 June provided a comprehensive breakdown at that time on the 1,013 foreign national prisoners released without deportation consideration. The information was collated centrally and quality assured by the Department and is the most accurate and robust data currently available to the Department on these individuals.

My right hon. Friend the Home Secretary will be writing shortly to the hon. Member to address the particular point she raised with him on 17 July 2006, *Official Report,* column 3W, regarding sex offenders in oral questions to the Home Department.

Mr. Carmichael: To ask the Secretary of State for the Home Department in how many cases when a deportation notice has been served the Home Secretary has exercised his powers to grant bail pending termination of the appeal in each of the last three years. [86049]

Mr. Byrne: The Department does not collate information in the format requested and it could be produced in the format requested only at disproportionate cost.

Anne Main: To ask the Secretary of State for the Home Department pursuant to the answer of 29 June 2006, *Official Report,* columns 641-42W, on foreign criminals, what procedures are in place in his Department to ensure that a ministerial answer to a parliamentary question addresses the terms of the question asked. [87754]

Mr. Byrne: The hon. Member is entitled to ask a pursuant question for further clarification or detail. I am already aware that the hon. Member has tabled a pursuant question regarding the answers given on 29 June 2006 to her questions.

Damian Green: To ask the Secretary of State for the Home Department what estimate he has made of the cost to his Department of activities associated with the tracking and detention of the 1,023 foreign criminals released without consideration for deportation. [73526]

Mr. Byrne: The total cost of the operation to track and detain foreign criminals is not currently available because work on the 1,013 cases released without consideration of deportation is still ongoing.

Ms Abbott: To ask the Secretary of State for the Home Department whether the nationality of prisoners is routinely recorded on their files; and if he will make a statement. [67473]

Mr. Sutcliffe: Yes. This information is routinely recorded on both the computerised Local Inmate Database and on the prisoner's core paper file. Where it cannot be recorded on the day of reception, it will normally be added shortly after as part of the reception process. In a written ministerial statement of 19 July 2006, *Official Report,* column 29WS my hon. Friend the Member for Birmingham, Hodge Hill (Mr. Byrne) set out the progress the Department is making to address the fact that there is currently no requirement in law for the detainee to provide details of their identity or nationality.

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department, (1) how many foreign nationals there are in prison in England and Wales with each type of immigration status; and what percentage of the total number of foreign nationals in prison this represents in each case; [67557]

(2) how many foreign nationals there were in prisons in England and Wales in each year since 1996; [67558]

(3) how many foreign nationals are in prisons in England and Wales, broken down by sex. [71824]

Mr. Byrne *[holding answer 2 May 2006]:* Available information for the years 1996 to 2005 on the number of foreign nationals held in prison establishments in England and Wales, broken down by sex, is given in table 8.4 and 8.4a of Offender Management Caseload Statistics 2004, which can be found at www.homeoffice.gov.uk/rds/omcs.html

Mr. Hayes: To ask the Secretary of State for the Home Department (1) how many people granted asylum in the UK in the last 10 years committed criminal offences which attracted *(a)* custodial and *(b)* non-custodial sentences in each year since 1997, broken down by country of origin; [68883]

(2) how many people given indefinite leave to remain in the UK within the last 10 years committed criminal offences which attracted *(a)* custodial and *(b)* non-custodial sentences in each year since 1997; [68916]

(3) how many illegal immigrants have been convicted of criminal offences which attracted *(a)* custodial and *(b)* non-custodial sentences in each year since 1997. [68917]

Mr. Byrne: The information requested is not available centrally as details relating to the immigration status of persons sentenced does not form part of the Home Office Court Proceedings Database. Neither does the immigration and nationality directorate hold information centrally on offences committed by or convictions and sentences imposed on persons falling within these categories.

Keith Vaz: To ask the Secretary of State for the Home Department how many foreign national prisoners were imprisoned in each year between 1999 and 2005; and what the average time spent in prison was by these prisoners. [69537]

Mr. Byrne: Information for the years 1999 to 2005 on the number of foreign nationals held in prison establishments in England and Wales is given in table 8.4 and 8.4a of Offender Management Caseload Statistics 2004. Information on the average time served in prison establishments of foreign nationals discharged from determinate sentences is given in the following table.

These figures have been drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large-scale recording system.

Average time served in prison (including remand time) in months of foreign national prisoners discharged from prison from determinate sentences on completion of sentence or on licence

Year of discharge	*Number of prisoners*
1999	9.9
2000	10.2
2001	10.2
2002	10.0
2003	10.4
2004	10.7
2005	9.3

Keith Vaz: To ask the Secretary of State for the Home Department what research his Department has carried out on the rates of recidivism among foreign national prisoners. [69540]

Mr. Sutcliffe: The Home Office has not conducted any specific research into reoffending amongst foreign national prisoners. Reoffending rates for discharged prisoners are published annually. These include foreign national prisoners (unless marked as deported upon release from custody) but separate figures are not available for this group. The latest figures can be found in 'Adult reoffending: results from the 2002 cohort'. Home Office Statistical Bulletin 25/05'. This is available on the Home Office's website: http://www.homeoffice.gov.uk/rds/hosbpubs1.html. The report shows the reoffending rate of offenders released from prison for 2002 and 2000.

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department how many non-British citizens are serving prison sentences in England and Wales. [69599]

Mr. Byrne: Information on the number of foreign national prisoners serving an immediate custodial sentence in prison establishments in England and Wales is given in table 8.28 of the web tables of Offender Management Caseload Statistics 2004, available at the following address: http://www.homeoffice.gov.uk/rds/omcs.html

Mr. Carswell: To ask the Secretary of State for the Home Department what the total cost has been of the operation to *(a)* trace, *(b)* track, *(c)* detain and *(d)* conduct surveillance on foreign prisoners released without due deportation review process. [71208]

Mr. Byrne: The total cost of the operation to track and detain foreign criminals is not currently available because work on the 1,013 cases released without consideration of deportation is still ongoing.

Mr. Andrew Turner: To ask the Secretary of State for the Home Department when he will reply to question *(a)* 67587, on foreign prisoners, tabled by the hon. Member for the Isle of Wight on 26 April and *(b)* 67931, on prisoners released on licence, tabled on 27 April. [82663]

Mr. McNulty *[holding answer 4 July 2006]:* The hon. Member for Birmingham, Hodge Hill (Mr. Byrne) replied to *(a)* on 29 June 2006, *Official Report*, column 645W. The hon. Member for Bradford, South (Mr. Sutcliffe) replied to *(b)* on 18 July 2006, *Official Report*, column 414W.

Greg Mulholland: To ask the Secretary of State for the Home Department how many of those foreign nationals eligible for deportation following the end of their prison sentence who have remained in the country have been in receipt of state benefits in the period following their release; and if he will make a statement. [75497]

Mr. Byrne *[holding answer 7 June 2006]:* The information requested is not collected centrally and therefore would be available only at a disproportionate cost.

Mr. Wallace: To ask the Secretary of State for the Home Department how many former foreign prisoners are claiming asylum, broken down by country of origin. [73602]

Mr. Byrne: The information requested is not collected centrally and would require an examination of individual case files at disproportionate cost.

Fox Hunting

Mr. Swire: To ask the Secretary of State for the Home Department what powers *(a)* Scottish police forces operating close to the border have to enforce the fox hunting ban in England and *(b)* English police forces operating close to the border have to enforce the fox hunting ban in Scotland. [88220]

Mr. McNulty: Section 98 of the Police Act 1996 enables aid to be provided between police forces in the different jurisdictions within the United Kingdom. While providing mutual aid a constable is under the direction and control of the receiving force and has the powers and privileges of a constable in the receiving force.

Where cross-border aid provisions are not in effect part 10 of the Criminal Justice and Public Order Act 1994 provides police constables from one jurisdiction with the following enforcement powers in other jurisdictions in the UK:

Section 140 provides that where a constable in one jurisdiction has a power to arrest a person for an offence committed in their jurisdiction an officer from another jurisdiction who is present there has the same power of arrest in the jurisdiction where the offence was committed.

Section 137 provides that where a person suspected of committing an offence in one jurisdiction is in another jurisdiction an officer from the jurisdiction where the offence was committed has the power to arrest the suspect in the other jurisdiction.

The issue of mutual aid or the exercise of cross-border powers is an operational matter for the individual Chief Officers concerned.

Mr. Swire: To ask the Secretary of State for the Home Department what guidance he has given to English constabularies on supporting constabularies in Scotland in enforcing the fox hunting ban. [88514]

Mr. McNulty: None. This is an operational matter for Chief Officers.

Gambling

Mr. Clegg: To ask the Secretary of State for the Home Department how many people have been prosecuted for gambling offences in each of the last five years. [88495]

John Reid: Data from the Court Proceedings Database held by the Office for Criminal Justice Reform on the number of defendants proceeded against at magistrates' courts for offences related to gambling, in England and Wales 2000-04 are provided in the following table. Because of the large range of offences included, data have been provided at offence class level, divided between summary and indictable gambling offences. Data for 2005 will be available in the autumn.

Number of defendants proceeded against at magistrates' courts for offences related to illegal gambling, England and Wales, 2000-04[1,2]

	Betting, gaming and lotteries offences	
	Indictable offences	*Summary offences*
2000	19	13
2001	13	37
2002	10	35
2003	12	10
2004	14	5

[1] These data are provided on the principal offence basis

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces and courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Note:
Includes offences related to gaming regulations, amusements, unlicensed gambling and national lottery offences.

Gun Crime

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* shotguns, *(b)* rifles and (c) handguns were stolen in (i) Southend-on-Sea, (ii) Essex, (iii) Hertfordshire, (iv) the Metropolitan Police area of London, (v) City of London Police area and (vi) England and Wales in each year since 1986; and how many were subsequently recovered and returned to the owner. [82557]

Mr. McNulty: Information on firearms stolen, subsequently recovered and returned to the owner is not collected centrally. Data on stolen weapons for England and Wales are given from 1986 to 2004-05. Breakdowns of these weapons by police force area are not available centrally for years up to and including 1998-99; therefore force level data are given only from 1999-2000 to 2004-05. There was a 52 per cent. decrease in the reported number of shotguns misappropriated in England and Wales in 2004-05 (403) compared to 1986 (842), a 32 per cent. increase in the number of rifles (140 and 106 respectively) and a 55 per cent. decrease in the number of handguns (81 and 181 respectively). There was little fluctuation in the numbers of misappropriated shotguns, rifles and handguns recorded by police in Essex, Hertfordshire and City of London between 1999-2000 and 2004-05. Although the numbers recorded by the Metropolitan Police were also relatively small, there were large percentage decreases for misappropriations of each of these weapon types: 62 per cent. decrease in the number of shotguns (from 29 in 1999-2000 to 11 in 2004-05); 100 per cent. decrease in rifles (from 33 to 0 respectively); 97 per cent. decrease in handguns (from 61 to two respectively).

Firearms Misappropriated[1] *in Crimes Recorded by the Police*

	Essex Police Force		
	Shotguns	*Rifles*	*Handguns*
1999-2000	10	0	2
2000-01	2	1	0
2001-02	11	8	1
2002-03	5	0	1
2003-04	11	0	0
2004-05	7	0	0

Hertfordshire Police Force

	Shotguns	Rifles	Handguns
1999-2000	10	0	2

2002-03	462	129	85
2003-04	397	130	96
2004-05	403	140	81

[1] Misappropriated is defined as stolen, obtained by fraud or forgery etc., or handled dishonestly.
[2] For years up to 1994,more than one firearm may have been misappropriated in each offence.
[3] From 1995, the figures relate to the number of firearms misappropriated.

Hezbollah

Mr. Amess: To ask the Secretary of State for the Home Department if he will introduce legislation to make it unlawful *(a)* to fundraise and *(b)* to provide support for the Hezbollah terrorist organisation; and if he will make a statement. [87214]

Mr. McNulty: The military wing of Hezbollah, the External Security Organisation, was proscribed as a terrorist organisation in the UK in February 2001. Under the proscription powers it is unlawful in the UK to be a member of Hezbollah's External Security Organisation, to fund it, recruit for it or support it in any way.

HMP Dartmoor

Annette Brooke: To ask the Secretary of State for the Home Department how much was spent on programmes addressing reoffending at HMP Dartmoor provided by *(a)* the voluntary sector and *(b)* the prison service in 2005-06. [88340]

Mr. Sutcliffe: The Prison Service spent £1,210,000 on intervention programmes at Dartmoor in 2005-06. The amount spent by the voluntary sector is not known and is a matter for the voluntary sector.

Annette Brooke: To ask the Secretary of State for the Home Department what assessment he has made of the Inner Change programme at HMP Dartmoor; and if he will make a statement. [88341]

Mr. Sutcliffe: The programme was introduced as a pilot only. Following a review under Prison Service Order 4350 (Effective Regimes Interventions) the programme is currently being withdrawn. The Review Panel identified a range of concerns, the most significant being the poor quality of the manuals, which did not demonstrate a structured and coherent programme, a lack of consistency and clarity about the primary aims of the programme, a lack of understanding and appropriate sensitivity to the diversity agenda of HM Prison Service, and an absence of protocols for the management of the mentor system, making it unsafe.

Home Detention Curfews

Dr. Vis: To ask the Secretary of State for the Home Department what assessment he has made of the reasons for the decline in the use of home detention curfews during the first five months of 2006 compared with the same period in 2005 and 2004. [87229]

Mr. Sutcliffe: We are aware that the number of prisoners released on HOC has fallen since 2004 and we are monitoring the situation. We aim to release all eligible prisoners who pass the risk assessment but public safety will not be compromised; prisoners who are considered to present a risk to the public will not be released on HOC. Officials are investigating the reasons for the decreasing numbers of prisoners released on HOC. The factors that may contribute to the numbers released on HOC are complex and more work needs to be done to analyse the available information.

Human Rights Legislation

Mr. Cash: To ask the Secretary of State for the Home Department whether he has received recent advice on the effects on the functions of his Department of human rights legislation. [78424]

Mr. Sutcliffe *[holding answer 19 June 2006]:* The recently published document "Rebalancing the criminal justice system in favour of the law-abiding majority" reflected the results of a review carried out inside Government, informed by experience and research and by consultation with the frontline on how the Human Rights Act impacts on the criminal justice system. This revealed that the Human Rights Act provides a powerful framework to protect the rights of individuals but secure a proper balance with the safety of the law-abiding majority. It gives effect in UK law to the provisions of the European Convention on Human Rights to which we have been bound for over half a century.

The document stated that where the European Court of Human Rights in Strasbourg interprets the Convention in a way which prevents the proper application of this balance (in particular the 1996 Chahal case where the Court found the UK Government could not consider the protection as a balancing factor when arguing the case for the deportation of a dangerous person) we will work with European partners to challenge this.

The review also identified the need to do more to ensure that the Human Rights Act is not misinterpreted to prevent action to protect the public. In the light of recent cases such as the tragic murder of Naomi Bryant the Government are conducting a thorough review of how police, probation, parole and prison service balance public protection and individual and collective rights. If necessary we will legislate to ensure that public protection is given priority. In other cases, the review identified instances where organisations are over-cautious in their interpretation of competing rights. To combat this, we will make better practical advice available to practitioners on how rights should be balanced between offenders and the wider community and create an advice service to allow front-line practitioners to obtain fast online access to relevant legal resources.

We will also institute a routine process of review through a scrutiny panel (made up of practitioners and lawyers) reporting to the National Criminal Justice Board (which includes relevant CJS Ministers) which will scrutinise the application of rights and ensure that the approach to administration is robust and fair and propose further changes to the law and guidance where it detects problems or imbalances.

Human Trafficking

Mr. Vara: To ask the Secretary of State for the Home Department how many people were *(a)* arrested, *(b)* prosecuted and *(c)* found guilty of offences related to human trafficking, in each of the last five years. [78808]

Mr. Coaker *[holding answer 20 June 2006]:* Reflex, the multi-agency taskforce set up to deal with organised immigration crime, reported the following arrests for human trafficking. The figures that they have available on the number of arrests for trafficking are as follows:

	Number
2004-05	102
2005-06	n/a

n/a = Not available.

Following the commencement of dedicated trafficking offences in 2004 the convictions are as follows:

	Conviction
2004	3
2005	23
2006 (To date)	3

Prior to the introduction of this dedicated legislation there was only one conviction for a trafficking offence under the Immigration Act 1971.

Operation Pentameter, a multi-agency initiative aimed at tackling the trafficking of human beings for sexual exploitation, was recently co-ordinated across the whole of the UK involving all 55 police forces and a number of NGOs. This has led to 232 arrests and 134 people charged for trafficking-related offences to date.

Mr. Steen: To ask the Secretary of State for the Home Department what organisations *(a)* he has consulted and *(b)* he plans to consult (i) as part of the public consultation on human trafficking and (ii) prior to the publication of the Action Plan to Combat Human Trafficking. [79230]

Mr. Coaker *[holding answer 21 June 2006]:* The consultation document "Tackling Human Trafficking - Consultation on Proposals for a UK Action Plan" was published on 5 January 2006 and concluded on 5 April 2006. The document was placed on the Home Office website and over 1,400 copies were sent to stakeholders including police, non-governmental organisations, charities, trade unions, judiciary, local councils and other Government Departments.

A summary of responses report to the consultation was published on 21 June 2006. A list of the 206 respondents to the consultation can be found at Annex A of that report and can also be found on the Home Office website.

The responses to the consultation will be considered in the course of developing the UK Action Plan to combat human trafficking. Further consultation with key stakeholders may be required prior to publication of the Action Plan in order to take forward suggestions made in the consultation process.

Kerry McCarthy: To ask the Secretary of State for the Home Department what assessment he has made of the practical implications of the European Convention on Trafficking Human Beings in making his decision on whether to ratify the convention. [80403]

Mr. Coaker: The UK is currently considering whether to sign the Council of Europe Convention on Action against Human Trafficking.

In July last year a questionnaire was issued seeking information about the methods of support in place in other European Union (EU) countries. The responses to that questionnaire are now being analysed for evidence on how the automatic granting of reflection periods and residence permits to those presenting as victims of trafficking are operating in other European transit or destination countries where they have been introduced.

A case-by-case approach, as operated in the United Kingdom, does not appear to be less effective at offering targeted support, than these new approaches.

The Government are examining how the convention's approach could best be harmonised with effective immigration controls. They are also considering responses to the recent consultation paper on a proposed UK Action Plan on trafficking in humans

Lynne Featherstone: To ask the Secretary of State for the Home Department how many incidents of trafficking of children aged under 10 years into the UK have been recorded in each of the last five years. [87308]

Mr. Coaker: Information related to the number of incidents of trafficked children into the UK, under the age of 10 years, in each of the past five years is not available. As yet there are no centrally collated data on the numbers of trafficked victims into the country.

Andrew Rosindell: To ask the Secretary of State for the Home Department how many people have been arrested for human trafficking offences since 1997; and if he will make a statement. [89029]

Mr. Coaker: The crime of trafficking in human beings was put on the statute book by this Government by the Sexual Offences Act 2003, the Criminal Justice (Scotland) Act 2003, and the Asylum and Immigration (Treatment of Claimants) Act 2004. The following figures cover the period since the introduction of the relevant Acts. There were 102 arrests for human trafficking offences under Reflex-funded operations in the year 2004-05. The figures for arrests under Reflex-funded operations in the period 2005-06 are not yet available. However, the recent Operation Pentameter led to 232 arrests of people for trafficking or trafficking-related offences.

Identity Cards

Mr. Clegg: To ask the Secretary of State for the Home Department what assessment he has made of the environmental impact of producing identity cards; and if he will make a statement. [88948]

Joan Ryan: No assessment has been undertaken as it is not yet appropriate to make decisions regarding for example the materials and manufacturing processes which will be used to produce the cards. Any future regulatory impact assessments on the introduction of identity cards will include an assessment of environmental costs and benefits.

Lembit Öpik: To ask the Secretary of State for the Home Department how much the Government have spent on developing the identity cards scheme; and if he will make a statement. [89025]

Joan Ryan: Since the start of the financial year 2003-04, £46.4 million has been spent in total on the identity cards scheme up to the end of May 2006.

Identity Fraud

Mr. Evans: To ask the Secretary of State for the Home Department what assessment he has made of whether the risk of identity fraud to the general public has changed since July 2005. [86648]

Joan Ryan: The Home Office works with the police and law enforcement agencies, including the Serious Organised Crime Agency, other Government Departments and the private sector to consider intelligence, information, surveys, and statistics which provide an indication of the scale of the problem of identity fraud. Evidence from CIFAS—the UK's Fraud Prevention Service—and our updated estimate of the cost of identity fraud to the UK economy, suggest that the problem has grown in recent years, but data covering the timeframe of this question are not yet available.

Tony Baldry: To ask the Secretary of State for the Home Department pursuant to the answer of 16 January 2006, *Official Report*, column 1116W, to the right hon. Member for Edinburgh, East (Dr. Strang), on identity fraud, what assessment he has made of the reasons for the fall in the number of detected fraudulent passport applications made using a deceased person's details. [88933]

Joan Ryan: In the view of the Identity and Passport Service (IPS) there are two principal factors for the reduction in the number of recorded cases of passport applications made in the identities of deceased persons detected. The figures for the number of passport applications detected in which a deceased identity has been used are a combination of infant and adult death cases. The IPS received the infant death data from July 2001 in a number of tranches. Retrospective checks of the index of passports issued using this data identified a number of passports issued in the identities of deceased children. These retrospective checks significantly increased the number of cases of deceased identity fraud detected and confirmed between 2001 and 2004. Since then the rate of detection is based on the number of new fraudulent applications being detected. Secondly, since IPS started using this data 184 people have been arrested for making fraudulent passport applications. 82 of these people have been convicted of offences and 34 deported. Although deterrence is very difficult to measure, it is likely that this success has deterred other criminals from submitting applications in the identities of deceased persons.

Gregory Barker: To ask the Secretary of State for the Home Department what recent discussions he has had with EU governments on co-operation on identity fraud. [89107]

Joan Ryan: The Government are concerned about identity fraud and there is ongoing activity within the EU and the G8 about security of travel documents and borders that will contribute to combating the problem. This includes the work at EU level on enhancing the security of travel and identity documents, such as ePassports (also known as biometric passports) that we began issuing in March 2006. The use of biometric information to link a person to a passport helps to detect counterfeit or manipulated documents and it confirms the identity of the individual.

The G8 Lyon-Roma group has undertaken a number of projects aimed at reducing document abuse. This included a commitment, which has been implemented, to submit data on lost and stolen passports to Interpol. A best practices paper on processing travellers who present lost, stolen or cancelled travel documents has also been approved and transmitted to the International Civil Aviation Organisation.

Illegal Drug Use

Chris Huhne: To ask the Secretary of State for the Home Department what assessment his Department has made of illegal drug use in *(a)* non-rural and *(b)* rural areas among those aged (i) over 18 and (ii) under 18 years in (A) absolute terms and (B) per 1,000 population; and if he will make a statement. [84629]

Mr. Coaker: Figures from the British Crime Survey 2003-04 show that use of any illicit drug in the past year was reported by 148 per 1,000 adults aged 16 to 59 residing in inner-city areas, 127 per 1,000 of those in urban areas and 99 per 1,000 in rural areas in England and Wales.

Figures for illegal drug use in rural and non-rural areas in absolute terms and specifically for under and over 18s are not available.

Illegal Immigrants

Mr. Hayes: To ask the Secretary of State for the Home Department how many foreign nationals have been *(a)* arrested and *(b)* cautioned by the police since 1997; how many of these were found subsequently to be illegal immigrants; and how many were deported. [71442]

Mr. Byrne: The information requested is not collated centrally and could be provided only at disproportionate cost.

Mr. Hayes: To ask the Secretary of State for the Home Department how many foreign nationals have been given non-custodial sentences since 1997; how many have been found to be illegal immigrants; and how many were deported. [71443]

Mr. Byrne: The information requested is not collated centrally and could be provided only at disproportionate cost.

Mark Hunter: To ask the Secretary of State for the Home Department if he will make a statement on his policy on an amnesty for illegal immigrants. [86709]

Mr. Byrne: The Government have already made clear that they have no plans for an amnesty for illegal immigrants.

Illegal Money Lending

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people have been *(a)* charged with and *(b)* convicted of illegal money lending in each of the last five years. [80838]

Mr. Coaker: Data for the number of people charged for illegal money lending are not held centrally.

Data from the courts proceedings database held by the Office for Criminal Justice Reform show that the number of people convicted under the Consumer Credit Act 1974 Section 39 in 2000 was six, in 2001 was seven, in 2002 was three, in 2003 was two, and in 2004 was four.

Court proceedings data for 2005 will be available in autumn 2006.

Mr. Spring: To ask the Secretary of State for the Home Department how many people have been *(a)* charged with and *(b)* convicted of illegal money lending in Suffolk in each of the past five years. [85546]

Mr. McNulty: Data for the number of people charged for illegal money lending are not held centrally.

Data from the court proceedings database held by the Office for Criminal Justice Reform show that there were no convictions under the Consumer Credit Act 1974 Section 39 in the Suffolk police force area between 2000 and 2004. However, in England and Wales in 2000 there were six convictions, in 2001 there were seven, in 2002 there were three, in 2003 there were two, and in 2004 there were four.

Court proceedings data for 2005 will be available in autumn of 2006.

Imams and Mosques Advisory Council

Ms Abbott: To ask the Secretary of State for the Home Department what progress has been made with proposals to set up a national advisory council of imams and mosques. [71938]

Meg Munn *[holding answer 18 May 2006]:* I have been asked to reply.

The Mosques and Imams National Advisory Board (MINAB) was set up with the aim of providing central guidance and support to Mosques and Imams in the UK. This new body is intended to represent all Muslim traditions and schools of thought.

The first stage of creating MINAB was a national consultation, led by Lord Ahmed, which sought views on issues such as the accreditation of Imams, better governance of mosques and interfaith activity. The next stage, the actual setting up of MINAB, has been led by a steering group comprising representatives from the British Muslim Forum, Muslim Council of Britain, Muslim Association of Britain and the Al-Khoei Foundation.

A press conference was held on 27 June which launched MINAB and set out its implementation strategy to deliver it as a working entity. At this press conference, the Advisory Board launched a good practice guide which sets out principles and procedures Mosques and Imams should follow to effectively lead their communities.

Immigration and Nationality Directorate

Mr. Lidington: To ask the Secretary of State for the Home Department if he will make a statement on the functions and caseload of the immigration and nationality directorate's work-in-progress hold. [61153]

Mr. Byrne *[holding answer 27 March 2006]:* Immigration and nationality directorate's work-in-progress hold is at Beddington Cross, which is designed to temporarily store case files.

My right hon. Friend the Home Secretary set out in his statement of 19 July the caseload of IND, including files held at Beddington Cross.

Mr. Lidington: To ask the Secretary of State for the Home Department what the location is of the immigration and nationality directorate's work-in-progress hold. [61154]

Mr. Byrne *[holding answer 27 March 2006]:* The immigration and nationality directorate's work-in-progress hold is located at Beddington Cross near Croydon.

Mr. Lidington: To ask the Secretary of State for the Home Department how many staff work at the immigration and nationality directorate's work-in-progress hold. [61155]

Mr. Byrne: IND's work-in-progress hold at Beddinton Cross, near Croydon, is a storage facility, and is staffed by 28 Home Office staff and 69 contractor staff.

Mr. Lidington: To ask the Secretary of State for the Home Department how many *(a)* casual and *(b)* temporary staff were recruited to the Immigration and Nationality Directorate in each of the last three financial years. [76462]

Mr. Byrne: The number of *(a)* casual and *(b)* temporary staff, who have been appointed to the Immigration and Nationality Directorate in each of the last three financial years, is shown in the following table.

Financial year	*Casual*	*Temporary (agency)*
2003-04	n/a	873
2004-05	181	1,603
2005-06	261	2,125

n/a = not available

Note:

These figures have been drawn from manual records kept in the Immigration and Nationality Directorate.

David Davis: To ask the Secretary of State for the Home Department how many foreign nationals are employed by the Immigration and Nationality Directorate. [77119]

Mr. McNulty: Under the terms of the Aliens' Employment Act 1955, the Immigration and Nationality Department currently employs no foreign nationals.

Damian Green: To ask the Secretary of State for the Home Department how much was spent by the Enforcement and Removals Directorate of the Immigration and Nationality Directorate on the use of police cells in each police authority area in *(a)* 2004 and *(b)* 2005. [85347]

Mr. Byrne: Spend by each police authority area is shown in the following table for the financial years 2004-05 and 2005-06. The figures are presented in accordance with Resource Accounting and Budgeting and include accruals.

£

Police authority	*Expenditure 2004-05*	*2005-06*
Avon and Somerset Authority	56,514	159,617
Bedfordshire Police	47,786	22,173
British Transport	—	11,618
Cambridgeshire Police	139,403	101,171
Cheshire Police	9,125	103,849
Cleveland Police	501	201,513
Cumbria Police	169	1,161
Derbyshire Police	4,323	0
Devon and Cornwall Constabulary	100,069	135,735
Dorset Police	236,939	95,247
Dumfries and Galloway Council	485	5,729
Dyfed Powys Police	48,294	43,461
Essex Police Authority	408,450	96,394
Gloucestershire Police	47,491	30,035
Grampian Joint Police	17,979	12,893
Greater Manchester Police	202,215	186,900
Gwent Police Authority	3,125	54,710
Hampshire Constabulary	201,823	199,139
Hertfordshire Police	19,516	47,336
Humberside Police	79,577	63,001
Kent Police Authority	428,692	613,515
Lancashire Police	5,400	55,361

West Midlands Police	213,672	123,612
West Yorkshire Police	68,763	233,800
Wiltshire Constabulary	35,297	82,326
Total	9,381,165	7,812,138

Damian Green: To ask the Secretary of State for the Home Department pursuant to the Best Practice recommendations made on page 59 of the Review of Resourcing and Management of Immigration Enforcement Final Report 2004, what improvements his Department has made to people aspects in the Immigration and Nationality Directorate. [85348]

Mr. Byrne: Since the publication of the Review of Resourcing and Management of Immigration Enforcement Final Report in September 2004 the Enforcement and Removals Directorate has implemented several changes, including:

All staff are involved in business planning to encourage 'buy in' to targets

Performance is monitored against targets and cascaded down throughout the Directorate

Training on Performance Management is available and encouraged to all staff from SEO and above

The Department is committed to building a culture where high performance is delivered, recognised and rewarded.

Damian Green: To ask the Secretary of State for the Home Department pursuant to the Best Practice recommendation made on page 58 of the Review of Resourcing and Management of Immigration Enforcement Final Report 2004, what improvements his Department has made to Immigration and Nationality Directorate data collection. [85349]

Mr. Byrne: Since the publication of the Review of Resourcing and Management of Immigration Enforcement Final Report in September 2004 the Enforcement and Removals Directorate has implemented several changes, including:

Improving data quality on our main management information databases by 11 per cent.

Reducing the number of locally created and held databases. Where appropriate incorporating their functionality into the main Immigration Nationality Directorate central Case Information Database (CID).

Damian Green: To ask the Secretary of State for the Home Department which of the recommendations made in the Review of Resourcing and Management of Immigration Final Report 2004 his Department has implemented; what the time scale is for implementing each of the remaining recommendations; and if he will make a statement. [85350]

Mr. Byrne: The Review of Resourcing and Management of Immigration Enforcement report made 20 recommendations. 19 are now considered to be complete, part of IND policy or no longer relevant.

Damian Green: To ask the Secretary of State for the Home Department pursuant to the Best Practice recommendations made on page 60 of the Review of Resourcing and Management of Immigration Enforcement Final Report 2004, what improvements his Department has made to performance management processes in the Immigration and Nationality Directorate. [85371]

Mr. Byrne: Since the publication of the Review of Resourcing and Management of Immigration Enforcement Final Report in September 2004 the Enforcement and Removals Directorate has implemented several changes, including:

Implementation of a Performance Management Framework

Linking the setting of removals targets to Local Enforcement Office (LEO) budgets

Introduction of electronic duty rostering system for all operational staff

Standardising performance reporting schedules and the introduction of an operational performance league table

Conducting a programme of quality assurance visits to Local Enforcement Offices

Information Technology

Norman Baker: To ask the Secretary of State for the Home Department whether *(a)* his Department, *(b)* MI5 and *(c)* the Metropolitan Police (i) uses and (ii) has used (A) TeraText and (B) Latent Semantic Indexing programmes. [87622]

Mr. Byrne *[holding answer 24 July 2006]:* MI5 neither confirm nor deny their use of TeraText and Latent Semantic Indexing programmes. The Metropolitan Police does not use either of these programmes. Home Office Corporate Services report that they use Latent Semantic Indexing in Meridio as part of the Electronic Document Record Management Project. None of the other constituent parts of the Home Office uses either of these programmes.

Mrs. Dean: To ask the Secretary of State for the Home Department whether the Nomis, Visor, CRAMS and OASys IT systems are compatible. [88307]

Mr. Sutcliffe: The C-NOMIS, CRAMS, VISOR and OASys IT systems are compatible from business, user and technical perspectives. They provide complementary support for the management of offenders now and for the future. C-NOMIS is planned to replace the CRAMS case management system (which dates back to the mid-1990s) and is needed to support end-to-end offender management. Data are shared electronically between some of these systems already. Data sharing is planned to be extended as part of the development of C-NOMIS. All these systems operate according to the requirements of GSI, the government secure intranet, which provides common standards for infrastructure and security.

International Migration

Mr. Andrew Turner: To ask the Secretary of State for the Home Department what *(a)* mechanisms are in place and *(b)* methodology is employed to assess the impact of international migration on (i) cultural and community cohesion, (ii) housing demand and (iii) the economy, wage-levels and unemployment when determining *(A)* his policy on immigration and *(B)* the accepted number of migrants to this country. [85905]

Mr. Byrne *[holding answer 17 July 2006]:* The Government set no target figure for the number of migrants to Britain, but shapes their policies regarding admission to the country on the basis of their international and humanitarian obligations and of the interests of the nation. In doing so they do not rely on any single mechanism or methodology, but draw on a wide range of statistical and other data to reach their assessments.

Internet Child Safety

Judy Mallaber: To ask the Secretary of State for the Home Department if he will move the information on his Department's website on internet child safety away from the section marked 'police' into a section where it can easily be found by those seeking information. [88385]

Mr. McNulty: The main Home Office website for the public—www.homeoffice.gov.uk—was redeveloped in October 2005. The information published on it follows a design and navigational structure that was heavily tested on actual public users of the website, who helped dictate its user-friendly structure. Indeed the main Home Office website was recognised in a recent independent report published by Precedent Communications as being the best of the 32 UK public sector websites they assessed.

The main information on child protection on the internet is held in the 'police' area of the site as most of it is aimed at practitioners. But, in addition to this the information aimed at the general public is cross-referred on the main site. Under the top-level navigational title 'Crime & victims', there is a section that describes what government is doing to reduce crime (which has a page dedicated specifically to internet crime) and another section that describes what members of the public can do to prevent crime (which in turn has a page on how to stay safe online).

In both of these cases there is a wealth of useful information about how to keep children safe online, as well as a link under 'Related Documents' to a document called 'Guidance on how to search safely'.

Also, using terms such as 'child protection' or 'internet safety' in the Home Office site search will readily find this key information.

In addition about 70 per cent. of traffic to most websites comes from Google and other search engines, so someone interested in child safety online is very likely to type a set of keywords to find what they are looking for. If that person is very distinctly interested in the guidance issued by the Home Office on child safety online, and typed 'internet child safety, Home Office' into Google, the ThinkUKnow website and the Home Office Child Protection pages on the police website are the first two entries delivered.

Invest to Save Funding

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department what assistance his Department plans to afford to officials of local authorities who are in receipt of Invest to Save funding prior to the withdrawal of that funding to ensure the continuation of projects supported by it; and if he will make a statement. [83821]

Mr. Byrne *[holding answer 10 July 2006]:* The Home Secretary has no plans to make a statement on Invest to Save Budget (ISB) funding. The ISB exists to provide funding to help innovative projects get off the ground. ISB funding is explicitly time-limited and is not intended to sustain a project over the long term.

IT Systems

Mr. Drew: To ask the Secretary of State for the Home Department whether *(a)* VISOR, *(b)* Exhibit, *(c)* Libra and *(d)* other Home Office IT systems are accessible to disabled staff and those who regularly use assistive technology. [24448]

Mr. Byrne: ViSOR (Violent Offender and Sex Offender Register) user interface has been favourably assessed by accessibility consultants, particularly with regard to its suitability for use with screen reading software. Both xhibit (exchanging Hearing Information By Internet Technology) and Libra are Department for Constitutional Affairs (DCA) IT systems.

Justice and Home Affairs Meeting

Mr. Brady: To ask the Secretary of State for the Home Department what the agenda is for the Justice and Home Affairs Ministers' meeting on 1 and 2 June; and if he will make a statement. [69449]

Joan Ryan *[holding answer 8 May 2006]:* The agenda for the JHA Council meeting on 1 and 2 June is set out as follows. A letter was sent to the chair of the European Scrutiny Committee on the 1 June, in order for the information to reach Parliament in a timely manner. The text of the letter is also set as follows.

2732nd Meeting of the Council Of The European Union (Justice and Home Affairs)

1. Adoption of the provisional agenda.

2. Approval of the list of "A" items.

3. Proposal for a Council Framework Decision on the European Evidence Warrant (EEW) for obtaining objects, documents and data for use in proceedings in criminal matters.

4. Draft Framework Decision on the application of the principle of mutual recognition to judgments in criminal matters imposing custodial sentences or measures involving deprivation of liberty for the purpose of their enforcement in the European Union.

5. Proposal for a Council Framework Decision on certain procedural rights in criminal proceedings throughout the European Union.

6. Proposal for a Regulation of the European Parliament and of the Council establishing a European Parliament and of the Council establishing a European Small Claims Procedure.

7. Draft Council Decision concerning arrangements for cooperation between Asset Recovery Offices of the Member States.

8. Intelligence-led law enforcement - Council conclusions setting the EU priorities for the fight against organised crime based on OCTA.

9. Counter-Terrorism: - Report on the implementation of the EU-Counter-Terrorism Strategy/Action Plan and the EU Strategy on Radicalisation and Recruitment

10. Future of Europol.

11. JHA External relations (a) Ministerial Conference on the "Role of internal security in relations between the EU and its neighbours" (4-5 May 2006, Vienna) (b) Action Oriented Papers Western Balkans and Afghanistan (c) EU-US JHA Ministerial Troika (3 May 2006, Vienna) (d) Meeting between the EU presidency, the Russian Federation and the United States of America at Ministerial level on a Tripartite Cooperation in the field of Justice and Home Affairs, four May 2006 - "Vienna Initiative".

12. Follow-up to Hampton Court: Implementation of priority actions in the area of migration. - Information from the Commission'.

13. A.O.B – Security arrangements in relation with World Cup Football Championships and other major sports events in the margins of the Council—Meeting of the Mixed Committee at Ministerial Level.

1. Level. Adoption of the provisional agenda

2. SIS II - Proposal for a Regulation of the European Parliament and of the Council on the establishment, operation and use of the second generation Schengen information system (SIS II).

3. Common Visa Application Centres - Presentation by the Commission.

4. A.O.B

"I thought that it would be useful if I were to outline what I expect to be discussed at the JHA Council on 1 and 2 June. While the Home Secretary would normally make a written statement to the House, due to the timing of recess and the Council, and to make this most useful to you, I preferred to write after the pre-Council COREPER. There will, of course, be a written statement on discussion at the Council after recess. Due to other commitments, the Home Secretary will not be attending the Council, but Baroness Ashton, the Attorney General, Lord Goldsmith, and I will be representing the UK. There will be a debate on the future of Europol with the presidency seeking to agree Council conclusions. While we are supportive of the Conclusions and in making Europol's legal instrument more flexible, we believe there is a need to consider the implications of changing the legal instrument before taking a final decision. The presidency will seek to reach a general approach on the European Evidence Warrant. Several issues remain to be resolved, including the terms of the ground for refusal based on territoriality and the concerns of those who wish to clarify the scope of the offences for which dual criminality will not apply. We are supportive of the presidency's proposals on the territoriality clause, which would allow us to refuse an EEW where the conduct concerned took place in this country and would be legal here. The UK does not share the concern of those who wish to provide clarification in the Framework Decision of the offences for which dual criminality will not apply but we are hopeful that a solution can be reached based on compromise proposals from the presidency. There will be discussion on the Framework Decision for the Mutual Recognition of Custodial Sentences within the EU. The presidency has put forward a proposal for the circumstances in which a prisoner could be transferred without his or the executing State's consent. The Government accepts the proposal, and believes that the prisoner's consent should not be required where the prisoner was to be transferred to the State in which he had his normal permanent residence. This has clear benefits for prisoners being able to serve sentences close to their communities and families and should have an impact in terms of likelihood to re-offend. There is likely to be a political discussion on the presidency proposal for a framework. Decision on certain procedural rights. The UK would like to continue discussion and at this stage and not to close down any options for taking forward the work. The UK continues to place a strong emphasis on practical measures to benefit citizens. The presidency intends to invite Council to agree the General Approach to the proposed Regulation establishing a European Small Claims procedure. This text will provide improved and cost-effective access to justice for European citizens in small claims across borders and is an initiative which the Government has welcomed. The presidency will be seeking to achieve agreement on the Draft Conclusions on the Organised Crime Threat Assessment (OCTA). This is the first annual OCTA, which replaces the Organised Crime Situation Report. The UK welcomes the first annual OCTA and supports the priorities as currently drafted. There will be a report on the implementation of the EU Counter Terrorism Strategy/Action Plan. We expect the presidency to reach a general approach on the Council Decision on Asset Recovery Offices. The UK negotiated changes in relation to civil recovery proceedings, so that the initiative relates both to confiscation and civil recovery cases. The UK supports measures to strengthen international cooperation concerning the recovery of the proceeds of crime. The Austrian presidency will be seeking to agree a general approach on the New Financial Frameworks general funding programme "Security and Safeguarding Liberties" and to one specific programme within the general programme on "Fundamental Rights and Justice". The UK welcomes the presidency's efforts to secure agreement and considers the texts now represent a good basis for future funding activity. In the mixed committee formation, there will be a presentation on Common Visa Application Centres. Finally, there will be a political discussion on the outstanding issues on the regulation on the second generation Schengen Information System (SIS II) and the presidency will be hoping to resolve these. The UK does not participate in this Regulation. However we feel the text needs to be more explicit on access for asylum authorities. In the margins there will be presentations on reinforcing the EU emergency and crisis response capacities and the May 2006 external relations ministerial conference in Vienna and Sweden will raise security arrangements in relation to the World Cup and the list of safe countries for the purposes of asylum."

Kashmir

Mr. Hancock: To ask the Secretary of State for the Home Department what recent research he has *(a)* commissioned and *(b)* evaluated on the amount of money leaving the UK to fund terrorist groups in Kashmir, with particular reference to the activities of Lashkar-e-Taiba; and if he will make a statement. [88187]

Mr. McNulty: The Government do not comment on specific intelligence and security matters. Lashkar-e-Taiba (LeT) were proscribed in 2001 and are one of a number of organisations whose activities are routinely monitored by the Security Service and law enforcement agencies.

Knives

Harry Cohen: To ask the Secretary of State for the Home Department how many knives were handed in during the recent amnesty in *(a)* Waltham Forest, *(b)* Redbridge, *(c)* London and *(d)* in total. [87697]

Mr. Coaker: Figures for the knife amnesty which ran from 24 May to 30 June have been collated by police force area. The total number of items surrendered in London to the Metropolitan police and City of London police was 9,205. On figures recorded by police forces, the total handed in in England and Wales was 89,864.

Andrew Rosindell: To ask the Secretary of State for the Home Department what estimate he has made of the number of illegal knives in circulation after the knife amnesty; and if he will make a statement. [88922]

Mr. McNulty: There are no reliable estimates for the number of knives or offensive weapons in circulation. Knives have many legitimate purposes and, with a few exceptions, can be purchased legally. It is an offence to carry an article with a blade or point in a public place without good reason.

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps he is taking to reduce the number of illegal knives in circulation. [88923]

Mr. McNulty: We held a nationwide knife amnesty from 24 May to the end of June during which just under 90,000 items were surrendered to police forces in England and Wales. Following the amnesty, many forces are focusing on enforcement operations, targeting those who carry knives without good reason. Operation Shield, run by the British Transport Police, continues to operate at mainline and underground stations using search technology to detect people carrying weapons on the transport network. Police, in conjunction with Trading Standards officers, have also carried out test purchase operations to identify retailers who are not abiding by the law and selling knives to young people under 16.

In addition, we are tightening legislation through the Violent Crime Reduction Bill, with new powers for Head Teachers to search pupils for knives, a new offence of using someone to mind a weapon and an increase in the age at which someone can be sold a knife from 16 to 18. We have also announced that we will increase the maximum sentence for carrying a knife in a public place without good reason from two to four years.

We are also supporting organisations such as Be Safe, which provide in-school training to young people on the dangers of carrying knives. Through our Connected Fund, we support small community-based organisations working on gun crime, knife crime and gangs issues. The fund is currently running its fifth round, with a closing date for bids of 4 August 2006.

Laptop Document Theft

Mr. Hayes: To ask the Secretary of State for the Home Department how many documents on laptops within the possession of *(a)* Ministers and *(b)* officials have been stolen since 1997. [69520]

Mr. Byrne: It is not possible to determine how many documents may have been taken from Home Office laptop computers reported as stolen or lost since 1997, but none of these were in the possession of Home Office Ministers.

To minimise the risk of document theft, laptop computers containing sensitive Home Office material are encrypted in accordance with UK Government security requirements.

Life Sentences

Mr. Iain Wright: To ask the Secretary of State for the Home Department if he will limit the ability of people who pleaded guilty to murder and receive life sentences to appeal against such sentences. [40411]

Mr. Sutcliffe: No. There is no right of appeal against a life sentence imposed following a conviction for murder because this is a mandatory sentence. However, it is appropriate that there should be a right of appeal against life sentence tariffs in murder cases because they are imposed by the court, according to what it thinks is appropriate taking into account the seriousness of the offence, on the basis of its assessment of the facts of the individual case.

Magistrates Courts

Mr. Amess: To ask the Secretary of State for the Home Department if he will make a statement on the operation of section 19 of the Magistrates Courts Act 1980. [64591]

Mr. Sutcliffe: Section 19 of the Magistrates Courts Act 1980 makes provision for the manner in which magistrates courts are to decide whether offences that are triable either way should be tried summarily or on indictment. It will be slightly modified when the new allocation arrangements in Schedule three to the Criminal Justice Act 2003 are brought into force.

Male Rape

Lynne Featherstone: To ask the Secretary of State for the Home Department how many convictions there have been for the non-consensual sexual penetration of a male in each of the last five years. [86330]

Mr. Coaker: Data from the court proceedings database held by the Office for Criminal Justice Reform on the number of defendants convicted at all courts for offences relating to non-consensual sexual penetration of a male, in England and Wales, for 2001 to 2004 are contained in the following table. 2004 data shows the inclusion of a new list of offences brought under the Sexual Offences Act 2003, which came into effect on 1 May 2004. 2000 data are not being provided as prior to the implementation of the Sexual Offences (Amendment) Act 2000 which commenced on 8 January 2001, the offence of buggery (under s.12 of the Sexual Offences Act 1956 as subsequently amended) would have included instances of consensual as well as non-consensual acts. Statistics for 2005 court proceedings will be available in the autumn of 2006.

Number of defendants convicted at all courts for offences relating to non-consensual sexual penetration of a male in England and Wales, 2001 to 2004[1,2]

	Years[3]			
Offence description	*2001*	*2002*	*2003*	*2004*
Buggery or attempted buggery by a male of a male. Assault on a male by penetration. Rape of a male aged under 16[4]	120	94	78	95

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete.
However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3,4] Data for 2001 to 2003 include offences from the following principal statutes:
Sexual Offences Act 1956 (amended by the following amendments: Criminal Justice and Public Order Act 1994, and the Sexual Offences Act 2000), and Sexual Offences Act 2003.
Data for 2004 include a list of new offences under the Sexual Offences Act 2003.
Source:
RDS—Office for Criminal Justice Reform

Malicious Damage Act 1861

Mr. Amess: To ask the Secretary of State for the Home Department, how many *(a)* males and *(b)* females in England and Wales were (i) prosecuted for and (ii) convicted of offences under sections (A) 35 and (B) 36 of the Malicious Damage Act 1861 in 2005. [89700]

Mr. McNulty: The information requested is currently unavailable. Data for 2005 will be available in the autumn.

Mental Health

Chris Ruane: To ask the Secretary of State for the Home Department how many forensic psychiatrists per 100,000 population are available to assess the mental state of individuals taken into custody in each police authority area. [77115]

Caroline Flint: I have been asked to reply.

This information is not collected centrally. At 30 September 2005, there were 239 forensic psychiatrists working in the national health service in England.

Ministerial Meetings

Mr. Garnier: To ask the Secretary of State for the Home Department when *(a)* he and *(b)* his Ministers have (i) met and (ii) had telephone conversations with the editors of the national press to discuss Home Office policy since January 2006; and where the meetings took place. [80643]

Mr. McNulty: Ministers have meetings with the media from time to time and this includes discussions with various national press representatives.

Ministerial Posts

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what criteria he used in making the decision to transfer the Minister of State for Immigration, Citizenship and Nationality to another post in his Department. [74432]

John Reid: I am responsible for deciding which Minister covers which policy areas within his team. I held discussions with my ministerial team and decided on this division of work.

Ministerial Visits

Mr. Amess: To ask the Secretary of State for the Home Department which drug rehabilitation centres Ministers in his Department have visited in each year since 1997; and for what purposes. [63060]

Mr. Coaker: This information can be provided only at disproportionate cost.

David Simpson: To ask the Secretary of State for the Home Department on how many occasions *(a)* civil servants and *(b)* special advisers in his Department have stayed overnight in (i) five star, (ii) four star and (iii) three star hotels on foreign visits in each of the last three years. [68964]

Mr. Byrne: The answer could be given only at disproportionate cost.

David Simpson: To ask the Secretary of State for the Home Department what the total cost was of overnight accommodation for *(a)* civil servants and *(b)* special advisers in his Department staying overnight in (i) mainland Great Britain, (ii) Northern Ireland, (iii) the Republic of Ireland and (iv) other countries in each of the last three years. [68965]

Mr. Byrne: The answer could be obtained only at disproportionate cost.

David Simpson: To ask the Secretary of State for the Home Department what discounts are available in relation to hotel accommodation used by *(a)* civil servants and *(b)* special advisers in his Department. [68966]

Mr. Byrne: There is no single percentage discount figure available on hotel bookings. The Home Office, through its appointed contractor, negotiates rates for individual hotels or hotel chains subject to city location. All hotels offer their standard rate (the rack rate) which will then be discounted either to a Government rate available to all individuals carrying out work on behalf of the Home Office or other public sector bodies or, subject to there being sufficient volume room usage, special rates for individual departments. Generally the Home Office achieve savings on average of 30 per cent. on standard rates.

Mobile Phones

Mr. Hoyle: To ask the Secretary of State for the Home Department how many drivers have been prosecuted for using mobile telephones while driving since the new laws restricting mobile telephone use while driving were introduced. [86122]

Mr. Sutcliffe: Available information taken from the Court Proceedings database held by the Office for Criminal Justice Reform for the years 2003 to 2004 (latest available) is given in the table.

2005 data will be available early in 2007.

Proceedings at magistrates courts for the offence of use of hand held mobile phone while driving[1], England and Wales, 2003 to 2004

	Number of offences
2003	1
2004	789

[1] Offences under the Road Vehicles (Construction and Use) Regulations 1986, Regulations 110 (1), 110 (2) and 110 (3) introduced 1 December 2003. *Source:* Court Proceedings Database.

Sarah Teather: To ask the Secretary of State for the Home Department how many mobile telephone thefts there were in Brent in each year since 1997. [87341]

Mr. McNulty: The information requested is not collected centrally.

Motoring Offences

Mr. Amess: To ask the Secretary of State for the Home Department how many drivers were *(a)* prosecuted for and *(b)* convicted of driving without insurance in each year since 1980. [85144]

Mr. McNulty: Available information from 1980-2004 (latest available) for the offence of using a motor vehicle uninsured against third party risks, is given in the table.

Proceedings at magistrates courts and findings of guilt at all courts for the offence of using a motor vehicle uninsured against third party risks[1]—England and Wales, 1980-2004

	Total proceedings	Number of offences Findings of guilt
1980	n/a	[2]164,613
1981	n/a	[2]172,688
1982	n/a	[2]191,842
1983	n/a	[2]242,858
1984	241,462	194,378
1985	242,651	193,604
1986	245,287	190,269
1987	270,915	200,309
1988	294,966	208,568
1989	304,432	208,010
1990	317,797	209,476
1991	364,035	225,910
1992	404,492	246,054
1993	446,568	281,136
1994	446,559	286,252
1995	441,241	283,141
1996	415,015	267,932
1997	396,912	257,689
1998	390,074	256,974
1999	393,469	234,830
2000	391,659	264,574
2001	388,297	266,757
2002	410,963	289,064
2003	447,267	323,374
2004	441,819	322,816

n/a = data not available

[1] Offence under the Road Traffic Act 1988 s. 143 (2)

[2] Magistrates courts only.

Note:

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Mr. de Menezes

Mr. Lansley: To ask the Secretary of State for the Home Department when he expects the report by the Independent Police Complaints Commission of its investigations into the death of Mr. de Menezes in London on 22 July 2005 and the conduct of the Metropolitan Police to be published. [84724]

Mr. McNulty: Publication of the outcome of the Independent Police Complaints Commission (IPCC) investigations into the events surrounding the fatal shooting of Mr. Jean Charles de Menezes is a matter for the IPCC as the independent body which carried out the investigations.

Mr. John Peach

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department what correspondence he has received from Mr. John Peach, a constituent of the hon. Member for Peterborough and leader of Peterborough city council; and if he will make a statement. [81685]

Mr. McNulty *[holding answer 4 July 2006]:* The Department's correspondence tracking system records that one piece of correspondence was received from Councillor Peach, dated 23 June 2006. This letter was addressed to the Home Secretary, Dr. John Reid and it chased a response to a letter dated 27 April 2006, addressed to the then Home Secretary, Charles Clarke. The Department has been unable to find a record of the 27 April letter. Councillor Peach was sent an acknowledgement to his letter on 3 July 2006 and a final response on 15 August 2006.

Mrs. Gelly Makamurie

Tony Baldry: To ask the Secretary of State for the Home Department when Mrs. Gelly Makamurie, reference M1170992, will be notified on her application for indefinite leave to remain. [86988]

Mr. Byrne: The immigration and nationality directorate wrote to Mrs. Makamurie on 19 July 2006 informing her of the outcome of her application for further leave to remain in the United Kingdom.

Murder

Mr. Carswell: To ask the Secretary of State for the Home Department how many people have been convicted of murder in each of the last eight years. [76350]

Mr. Sutcliffe: The information requested is provided in the table. The reasons for the fluctuations in the number of convictions are complex. 2004 had the largest number of convictions, but also a significantly higher proportion of successful prosecutions than any of the relevant years, with one exception.

Number of persons convicted of murder at all courts, England and Wales, 1997-2004[1]

	Found guilty
1997	275
1998	256
1999	252
2000	261
2001	285
2002	324
2003	277
2004	361

[1] These data are provided on the principal offence basis.

Mr. Amess: To ask the Secretary of State for the Home Department on how many occasions in each of the last 25 years convicted murderers released from *(a)* psychiatric institutions and *(b)* prisons have committed murders after release; and if he will make a statement. [82559]

Mr. Sutcliffe: The information available centrally relates to homicides recorded by the police in England and Wales, and shows numbers of suspects convicted of these homicides after release or termination of sentence for a previous homicide conviction. The following table provides this information for each year since 1980. It is not possible to distinguish between sentences served in psychiatric institutions and prisons.

Suspects convicted of homicide after release or termination of sentence for previous homicide conviction[1]

Year offence initially recorded	*Number of suspects*
1980	1
1981	3
1982	2
1983	3
1984	4
1985	3
1986	3
1987	1
1988	4
1989	4
1990	6
1991	2
1992	6
1993	2
1994	2
1995	6
1996	1
1997	1
1997-98	1
1998-99	1
1999-2000	5
2000-01	1
2001-02	0
2002-03	1
2003-04	1
2004-05	1

[1] As at 28 November 2005; figures are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available.

Narcotics Production

Tony Baldry: To ask the Secretary of State for the Home Department pursuant to his letter to the hon. Member for Cambridgeshire South East dated 10 July 2006 on Home Office interpretation of the United Nations Single Convention on Narcotic Drugs of 1961, whether the UK would continue to be self-sufficient in narcotics production were manufacturers of oxycodone hydrochloride formulations to relocate production to another EU country; how loss of self-sufficiency would effect *(a)* jobs, *(b)* the balance of payments and *(c)* continuity of supply of opiate-based analgesics within the UK; and if he will make a statement. [88321]

Mr. Coaker: It is not possible accurately to predict the development of the pharmaceutical narcotics industry in the UK in relation to oxycodone. There are many variables which would determine the future situation. These include, for example, the choice of territory, obtaining approvals from Governments abroad, the development of a production facility and downstream marketing arrangements.

Mr. Moss: To ask the Secretary of State for the Home Department for what reasons pharmaceutical manufacturers of opiate-based analgesic medicines are limited in the sources of imported raw materials from overseas manufacturers; and if he will make a statement. [88824]

Mr. Coaker: In common with other major opiate manufacturing countries, the United Kingdom does not permit importation of such base material drugs domestically manufactured and readily available. This policy is in furtherance of the aims of the United Nations Single Convention on Narcotic Drugs, 1961 to limit international supply to what is necessary for countries' medical needs. It is adjusted to take account of treaty obligations on overseas trade with the European Union and the European Economic Association only.

National Offender Management Service

Dr. Evan Harris: To ask the Secretary of State for the Home Department whether he has consulted *(a)* police organisations and *(b)* police authorities on (i) plans to change probation boundaries and (ii) regionalisation. [50056]

Mr. Sutcliffe: In October 2005 the Home Office published a consultation document, Restructuring Probation to Reduce Re-offending, which set out proposals to give to the Secretary of State the statutory duty to make arrangements with others to provide probation services and to replace probation boards with probation trusts as the public sector providers with whom he may contract. 748 written responses were received, including some from the police, and a summary was set out in Working with Probation to Protect the Public and Reduce Re-offending which was published in March. There are no current plans to change the boundaries of probation areas.

Mr. Gerrard: To ask the Secretary of State for the Home Department what the cost is of administering regional offender managers and their offices within the National Offender Management structure in 2006-07. [88004]

Mr. Sutcliffe: The delegated budget for the 10 Regional Offender Managers' offices for 2006-07 is £11,780,682 (this includes contracted prisons controllers' costs of £2.5 million). This is divided between the ROMs according to profiles reflecting the differing needs and requirements of each region, and covers office staff and management costs.

Mr. Gerrard: To ask the Secretary of State for the Home Department how many individuals are employed by *(a)* the National Offender Management Service and *(b)* each Regional Offender Manager. [88007]

Mr. Sutcliffe: The National Offender Management Service consists of National Offender Management Service (NOMS) HQ, Her Majesty's Prison Service and the National Probation Service.

NOMS HQ employs 1,375.7 full-time equivalents.

Her Majesty's Prison Service employs 47,637 full-time equivalents.

The National Probation Service employs 21,061.4 full-time equivalents.

The NOMS HQ total includes the staff of the Regional Offender Managers. Broken down by region, the totals for each office are:

	Number
East Midlands	19
North East	9
South East	11
Wales	13
Yorkshire and Humberside	8
London	9
North West	9
South West	9
West Midlands	7
Central support	2

Mr. Gerrard: To ask the Secretary of State for the Home Department whether legislation is required to allow Regional Offender Managers to contest probation work. [88008]

Mr. Sutcliffe: Currently, the statutory duty to make arrangements for the provision of probation services rests exclusively with the local probation board. Legislation is needed to enable Regional Offender Managers to commission services directly from providers other than the board.

Mrs. Dean: To ask the Secretary of State for the Home Department which IT systems *(a)* are used and *(b)* are planned to be used for the National Probation Service. [88306]

Mr. Sutcliffe: The information requested is as follows:

(a) The following national IT systems are currently used:

1. Case Management—CRAMS, DELIUS, ICMS, IOSS, CATO;
2. Offender Assessment—OASys;
3. Accredited Programs—IAPS;
4. Email—Lotus Notes Mail;
5. Intranet—EPIC;
6. Resource Planning—WMT;
7. Violent and Serious Offender Register—VISOR; and
8. Crown Courts Links—EXHIBIT.

(b) For the foreseeable future the above systems are planned to continue in use subject to the following exceptions.

1. Case Management—C-NOMIS will replace items one and three above to support end-to-end offender management;
2. Offender Assessment—A replacement OASys system is planned to integrate with C-NOMIS; and
3. Magistrates Courts Links—use of LIBRA is planned.

Mr. Clegg: To ask the Secretary of State for the Home Department what additional funds have been made available during the last two financial years to the National Offender Management Service to run Prolific Persistent Offender Programmes. [88483]

John Reid: The responsibility for delivering the Prolific and Other Priority Offenders (PPO) programme rests with the Crime and Disorder Reduction Partnerships (CDRPs). The Programme announced by the Prime Minister in March 2004, firmly placed the onus on CDRPs to prioritise locally targeted groups of problematic offenders within existing resources to reduce their offending behaviour. We have made no commitments for additional funding, centrally. The work of NOMS is key to this strategy to ensure that PPOs are prioritised under the seven National Reducing Re-offending Action Plan pathways for the effective resettlement and rehabilitation activity.

Mr. Clegg: To ask the Secretary of State for the Home Department what percentage of offenders in each probation area in England and Wales have been allocated to *(a)* Tier 1, *(b)* Tier 2, *(c)* Tier 3 and *(d)* Tier 4 under the Offender Management Model. [88484]

John Reid: Complete information on the number of offenders falling within each supervision tier is not currently available.

National Insurance Numbers

Mr. Spellar: To ask the Secretary of State for the Home Department pursuant to the answer of 10 July 2006, from the Under-Secretary of State for Work and Pensions, my hon. Friend the Member for Stirling (Mrs. McGuire), *Official Report*, column 1579W, on national insurance numbers, what action was taken in the cases notified to the immigration and nationality directorate. [85610]

Mr. Byrne: Cases are referred, by the Department for Work and Pensions National Identity Fraud Unit (NIFU), to a central point of contact within the Immigration Service (IS) for onward transmission to local IS intelligence units for assessment and, where appropriate, action.

National Probation Directorate

Mr. Dismore: To ask the Secretary of State for the Home Department what plans he has for the future of the National Probation Directorate; what assessment he has made of the implications of those plans for staffing levels; and if he will make a statement. [87791]

Mr. Sutcliffe: The National Probation Directorate (NPD) continues to play a role in protecting the public and helping to reduce re-offending. Any reorganisation within the National Offender Management Service (NOMS) will seek to ensure these vital functions are continued. Due consideration will be given to the impact on staffing levels from any reorganisation within NOMS. This would include the effects of the Home Office Headcount Exercise.

Natural Environment and Rural Communities Act

Mr. Clegg: To ask the Secretary of State for the Home Department how many people have been *(a)* arrested for, *(b)* charged with and *(c)* convicted of an offence under the Natural Environment and Rural Communities Act 2006. [88942]

John Reid: The information requested on arrests is not available within my Department. Information on arrests held by the Office for Criminal Justice Reform is based on persons arrested for recorded crime "notifiable offences" by main offence group (i.e. sexual offences, theft and handling stolen goods, violence against the person, burglary etc.) only.

The Court Proceedings database held by the Office for Criminal Justice Reform does not hold information with regard to charging. The Natural Environment and Rural Communities Act 2006 only came into force during 2006, so data prior to this year are not applicable. Convictions data for 2006 will be available in the autumn of 2007.

Network of Buddhist Organisations

Mr. Hancock: To ask the Secretary of State for the Home Department, pursuant to his Department's list of organisations consulted on religious issues, what assessment he has made of the extent to which the Network of Buddhist Organisations is representative of that faith's adherents; and if he will make a statement. [85303]

Mr. Byrne: The Home Office has made no such assessment. The Network of Buddhist Organisations is one of the Buddhist organisations that the Home Office consults with.

New Criminal Offences

Mr. Clegg: To ask the Secretary of State for the Home Department if he will list the criminal offences created by the *(a)* Crime (International Co-operation) Act 2003, *(b)* Anti-Social Behaviour Act 2003 and *(c)* Female Genital Mutilation Act 2003. [86529]

John Reid: The following table lists the criminal offences created by these Acts:

	Criminal offence
Crime (International Co-operation) Act 2003	
Section 34(1)	Failure by a financial institution to comply with a requirement imposed under a customer information order.
Section 34(3)	False statement made by a financial institution in purported compliance with a customer information order.
Section 39(1) and 39(3)	The above two offences in Scotland.
Section 42	Disclosure by an institution or its employees of specified facts about a financial investigation.
Section 63(6)	Failing to deliver a driving licence and its counterpart to the Secretary of State when required to do so under subsection (1).
Section 64(6)	The above offence in Northern Ireland.
Section 79(2)	Inserts two new Northern Ireland offences into the Road Traffic Act 1988 relating to disabilities
Section 81	Inserts two offences into the Data Protection Act (section 54A of that Act) relating to the inspection of overseas information systems.
Section 89	Creates three offences in the Criminal Law (Consolidation) (Scotland) Act regarding false monetary instruments. Section 88 has similar effect in relation to England and Wales by expanding existing offences in the Forgery and Counterfeiting Act 1981.
Anti-social Behaviour Act 2003	
Section 4(1) Section 4(2)(a), (b) and (c)	Four offences relating to premises subject to a closure notice.
Section 32(2)	Knowingly contravening a dispersal direction.
Section 37(1) and 39(3)	Not new offences as such, but they expand the list of weapons for possession offences under the Firearms Act 1968.
Section 40(4)	Opening noisy premises in contravention of a closure notice.
Section 54(1)	Sale of aerosol paint container to a person under the age of 16.

	Criminal offence
Section 58(6)	Inserts a new offence into the Criminal Justice and Public Order Act 1994 relating to attendance at a rave.
Section 61	Inserts two new offences into the Criminal Justice and Public Order Act 1994 relating to trespassing.
Section 74(7)	Intentionally obstructing a person acting in the exercise of powers of entry for the purposes of complaints and appeals.
Section 75(1), (9) and (10)	Failure to comply with a remedial notice. Failure to comply with an order to comply with a remedial notice. A further failure to comply with such an order.
Section 77(9)	Obstruction of a person exercising powers to enter land
The Female Genital Mutilation Act 2003	
Section 1	Offence of female genital mutilation.
Section 2	Offence of assisting a girl to mutilate her own genitalia.
Section 3	Offence of assisting a non-UK person to mutilate overseas a girl's genitalia.

Nigerian Citizens

Damian Green: To ask the Secretary of State for the Home Department (1) what his estimate is of the number of Nigerian citizens in the UK who have overstayed on a visitor's visa; [85351]

(2) how many Nigerian citizens holding visitors' visas were in the UK on 30 June 2006. [85352]

Mr. Byrne: Since embarkation controls were dismantled in 1994, information on the number of Nigerian citizens in the UK who have overstayed on a visitor's visa is not available. Foreign nationals who visit the UK are not required to inform the authorities when they leave the country. It is not possible to obtain the figures of Nigerian citizens who arrive in the UK with a visitor's visa. Scheduled to commence in 2008, the e-Borders programme will strengthen and modernise our border control including providing an electronic record of all those entering and leaving the UK.

Non-emergency Telephone Numbers

Lynne Featherstone: To ask the Secretary of State for the Home Department what assessment he has made of the trial of the 101 non-emergency telephone number in Cardiff; and whether he plans to implement the scheme throughout England and Wales. [87306]

Mr. McNulty: An evaluation of the introduction in Cardiff on 2 June 2006 of the single non-emergency number, 101, as well as ongoing performance and quality monitoring, are currently under way. Information from these assessments and from four other first wave areas will inform the strategy for future implementation.

Nuisance Neighbours

Mr. Sheerman: To ask the Secretary of State for the Home Department what steps his Department is taking to assist local authorities in dealing with nuisance neighbours. [88635]

Mr. McNulty: The Home Office along with the Department for Communities and Local Government is developing the Respect agenda to assist local authorities in dealing with nuisance neighbours. The Respect Action Plan recognises the important role social landlords play in tackling antisocial behaviour, including local housing authorities. We have provided local authorities in their housing role with a wide range of tools and powers to tackle antisocial behaviour, including injunctive powers, demoted tenancies, antisocial behaviour orders (ASBOs) and acceptable behaviour contracts (ABCs). We have encouraged and supported them through the Together campaign in delivering preventative approaches, providing support to victims and witnesses, and taking enforcement action.

As part of the Respect programme we will also intervene with highly problematic families that account for a disproportionate amount of antisocial behaviour. We will also establish Family Intervention Projects in 50 areas by the end of 2006 to address the causes of their behaviour, alongside supervision and enforcement tools to provide them with the incentives to change. In some communities, we know that there are premises which are a constant focus for antisocial behaviour and we will be consulting on a new power to allow the closure of any residential or licensed premises for a set period, regardless of tenure, that is causing significant, persistent and serious nuisance to local communities.

The Department for Environment, Food and Rural Affairs has also introduced a number of extra powers for local authorities to deal with nuisance neighbours under the Clean Neighbourhoods and Environment Act 2005. The statutory nuisance regime can already be used to deal with noise.

Office for Criminal Justice Reform

Mrs. Gillan: To ask the Secretary of State for the Home Department who is responsible for representing Welsh interests on the board of the Office for Criminal Justice Reform. [88176]

Mr. Sutcliffe *[holding answer 24 July 2006]:* The National Criminal Justice Board is the key high-level forum in which the services and departments reporting to the Home Secretary, the Secretary of State for Constitutional Affairs, and the Attorney-General, come together to exercise joint leadership over the criminal justice system. Its membership comprises those persons with executive responsibility to deliver key public service agreements and other high-level goals namely, senior and junior Ministers of the three CJS departments, heads of services, other key officials, and representatives of some key external stakeholders (Association of Police Authorities, Association of Chief Officers of Police, Metropolitan Police and the Criminal Justice Council). Members are collectively responsible for Welsh interests. In addition, the four Local Criminal Justice Boards in Wales are sponsored by members of the NCJB.

Off-licence Alcohol Sales

Mr. Burstow: To ask the Secretary of State for the Home Department how many prosecutions there have been for off-licence alcohol sales to people *(a)* already under the influence of alcohol and *(b)* under the age of 18 years in the last year for which figures are available, broken down by region; and if he will make a statement. [81689]

Mr. Coaker: It is not possible to identify the number of prosecutions there have been for off-licence alcohol sales to people already under the influence of alcohol or under the age of 18 as the data held by the Office for Criminal Justice Reform do not identify those offences that have taken place in an off licence. However, data for the number of defendants prosecuted for certain offences relating to alcohol can be found in the following table.

Penalty Notices for Disorder have been available to the police for the offences of the sale of alcohol *(a)* to a drunken person and *(b)* to a person under the age of 18 since 1 November 2004, although data held by the Office for Criminal Justice Reform do not identify those offences that have taken place in an off licence. The following table shows 2004 PND data for *(a)* selling alcohol to a person under 18. However there were no PNDs issued for *(b)* Sale of alcohol to a drunken person in 2004. The table also shows provisional 2005 PND data for both *(a)* and *(b)*.

Penalty notices for disorder (PNDs) issued by police force area and offence, all ages, 2004

Operation Pentameter

Mr. Steen: To ask the Secretary of State for the Home Department pursuant to his answer of 10 July 2006, *Official Report*, columns 1670-71W, on Operation Pentameter, to which countries the three minors have been repatriated; from which countries the other minors originate; how long he expects them to be in the care of social services; and if he will make a statement. [85722]

Mr. Coaker *[holding answer 14 July 2006]:* The three minors identified in Operation Pentameter as having been repatriated were from Latvia, Lithuania and Estonia. The other minors identified were from Burundi, Cameroon, Sudan, Guinea, Ivory Coast and Kenya.

The length of time that the victims will be in the care of the local authority will be determined by an assessment of any ongoing risk of harm they face and their continuing need for care and support while they remain in this country.

Organised Crime

Lynne Featherstone: To ask the Secretary of State for the Home Department how many investigations into organised crime groups have been undertaken by *(a)* the Serious Organised Crime Agency and *(b)* other police organisations in each of the last five years. [88498]

Mr. Coaker: The Serious Organised Crime Agency (SOCA) is not a police organisation. It is an intelligence-led agency with law enforcement powers and harm reduction responsibilities. SOCA undertakes a range of operational activity in order to fulfil its functions as defined in sections two and three of the Serious Organised Crime and Police Act 2005. As SOCA came into being only on 1 April 2006, there are no figures available for the current year. Figures for other police forces are not collated nationally.

Oxfordshire Coroner

Norman Baker: To ask the Secretary of State for the Home Department what meetings were held between *(a)* Ministers and *(b)* officials from his Department and the Oxfordshire Coroner between 17 July 2003 and 31 March 2004. [85520]

Mr. Byrne *[holding answer 13 July 2006]:* No meeting occurred between the Oxfordshire Coroner and a Minister of the Home Office within the time period specified. It is not possible, within the limits on reasonable costs, to determine whether any official within the Home Office met with the Coroner. The Oxfordshire Coroner, does not believe there were any meetings with officials of the Home Office, other than the Coroners Unit (now within the Department for Constitutional Affairs), within the period specified.

Oxycodone Hydrochloride

Tony Baldry: To ask the Secretary of State for the Home Department how much oxycodone hydrochloride raw material was produced in the UK in each year since 1997; who produced it; and what estimate he has made of UK demand for oxycodone hydrochloride raw material in each year since 1997. [73804]

Mr. Coaker: The information currently available is in the following tables.

Production figures represent domestic demand and stock. The only UK manufacturer of oxycodone is Macfarlan Smith Ltd.

Production of oxycodone hydrochloride

	Kilos
2000	1650.62
2001	2631.4
2002	4716.29
2003	5213.33
2004	8428.89
2005	12086

Estimates

	Kilos
2002	60
2003	80
2004	90
2005	90
2006	400

Parenting Orders

John Cummings: To ask the Secretary of State for the Home Department how many parenting orders have been issued in Easington constituency; and how many have been breached in the last two years. [42701]

Mr. Sutcliffe: Youth offending teams (YOTs) report to the Youth Justice Board the number of parenting orders related youth offending or antisocial behaviour broken down by YOT area. 36 parenting orders were made in County Durham YOT area during the year April 2004 to March 2005 and 15 during April 2005 to March 2006, which are the latest available data.

The Department for Education and Skills has collected data on parenting orders in cases of non-attendance and exclusion from school since September 2004. This data are collected at local authority level. For the Durham local authority area, in which the Easington constituency lies, no parenting orders were reported between September 2004 and 31 December 2005, which is the latest period for which data are available.

The data reported to the Home Office on breaches of parenting orders have not been given because their accuracy cannot be guaranteed. Although care is taken in collating and analysing the returns used to compile such figures, the data are of necessity subject to the inaccuracies inherent in any large-scale recording system. We have started a programme of work in the Home Office looking at the quality of existing data on court sentencing and how this might be improved.

Mr. Ruffley: To ask the Secretary of State for the Home Department how many parenting orders have been made in each year since they were introduced, and how many have been breached in each year, broken down by local authority area. [84912]

Mr. McNulty: Parenting orders were piloted between 30 September 1998 and 31 March 2000, during which period 284 parenting orders were made but data showing the breakdown by area are not available. Parenting orders were commenced in England and Wales in June 2000.

The Youth Justice Board (YJB) has since 2000 collected the number of parenting orders by youth offending team area, as reported to it by youth offending teams including education-related orders where the YOT has been involved. A copy of a table showing the numbers of parenting orders related to youth offending or other civil orders and those related to non attendance of children at school which were made between 2000 and March 2004, has been placed in the House Libraries (Table A). The YJB is currently reviewing the numbers of parenting orders for the period 2004-05 and 2005-06. I will write to the hon. Member when the reviewed figures are available.

Since September 2004, the Department for Education and Skills has collected data on the number of parenting orders in England related to non-attendance of children at school and exclusion from school at local authority level. Between 1 September 2004 and 31 December 2005 local authorities in England did not report any applications to the courts for parenting orders in the case of exclusions. A copy of the table showing the numbers of parenting orders made following truancy prosecution between 1 September 2004 and 31 December 2005 has been placed in the House Libraries (Table B). Data for the period 1 January 2006 to 21 April 2006 will be available in September. The Welsh Assembly Government do not collect numbers of parenting orders for truancy or exclusion in Wales.

The figures reported to the Home Office on breaches of parenting orders have not been given because their accuracy cannot be guaranteed. Although care is taken in collating and analysing the returns used to compile such figures, the data are of necessity subject to the inaccuracies inherent in any large-scale recording system. RDS have started a programme of work in the Home Office looking at the quality of existing data on court sentencing and how this might be improved.

Parliamentary Questions

David T.C. Davies: To ask the Secretary of State for the Home Department how many parliamentary questions tabled in the last 12 months for answer by him on a named day *(a)* were transferred and *(b)* received a substantive answer (i) on the day named and (ii) after the day named. [49875]

Mr. McNulty: Departments aim to ensure that Members receive a substantive response to their named day question on the named day and to endeavour to answer ordinary written questions within a working week of being tabled. Unfortunately, this is not always possible but this Department makes every effort to achieve these timescales.

It is not possible to provide a breakdown of the number of transfers in respect of named day questions. The information on the number of named day parliamentary questions asked that received substantive answers, for the period 18 May 2005 to 30 April 2006, is as follows:

Parliamentary questions answered on the day named: 165;

Parliamentary questions answered after the day named: 634.

David T.C. Davies: To ask the Secretary of State for the Home Department how many ordinary written parliamentary questions tabled for answer by him in the last 12 months have been answered *(a)* within 14 days, *(b)* between 14 and 28 days, *(c)* between 28 days and two months and *(d)* in excess of two months after the date of tabling; and if he will make a statement. [49900]

Mr. McNulty: Departments aim to ensure that Members receive a substantive response to their named day question on the named day and to endeavour to answer ordinary written questions within a working week of being tabled. Unfortunately, this is not always possible but this Department makes every effort to achieve these timescales.

Information in respect of answering times for parliamentary questions, for the period 18 May 2005 to 30 April 2006, is provided in the attached table.

	Number	*Percentage*
Less than 14 days	5,653	76
15 to 28 days	548	7
29 to 60 days	405	5
Over 61 days	807	11
Total	7,413	

Grant Shapps: To ask the Secretary of State for the Home Department when he will answer Question 49028 on DNA samples, tabled on 1 February 2006 by the hon. Member for Welwyn Hatfield. [56716]

Mr. McNulty: My right hon. Friend the Member for Salford (Hazel Blears), replied to the hon. Member on 2 May 2006, *Official Report*, column 1408W.

Mr. Andrew Turner: To ask the Secretary of State for the Home Department when he will provide a substantive reply to Question *(a)* 59554 on security staff and *(b)* 61672 on election literature, tabled by the hon. Member for the Isle of Wight. [67930]

Mr. McNulty *[holding answer 4 May 2006]:* My hon. Friend, Parliamentary Under-Secretary for Police and Justice, the Member for Gedling, replied to the hon. Member on, *(a)* 21 June *Official Report*, column 2013W.

I replied to the hon. Member, *(b)* on 2 May, *Official Report*, column 1410W.

Mr. Andrew Turner: To ask the Secretary of State for the Home Department how many questions to him for written answer had on 25 May not received a reply within *(a)* five, *(b)* 10 and *(c)* 20 parliamentary days of being tabled; and how many named day questions had not on that date received a substantive reply (i) by the named day and (ii) within (A) 10 and (B) 20 days of being tabled. [74149]

Mr. McNulty *[holding answer 5 June 2006]:*

I have placed the information that you requested within the following table.

	All PQs
Within five days	46
6 to10 days	8
11 to 20 days	9
over 21 days	32
Total	95

	Named days
on the day	3
2 to 10 days	2
11 to 20 days	1
over 21 days	7
Total	13

Mr. Jeremy Browne: To ask the Secretary of State for the Home Department when he will answer Question 71379, tabled by the hon. Member for Taunton on 11 May, on police restructuring in the South West. [80122]

Mr. McNulty: I replied to the hon. Member on 27 June 2006, *Official Report*, column 273W.

Mr. Salmond: To ask the Secretary of State for the Home Department when he will answer Question *(a)* 74091 and *(b)* 74299, on fingerprint evidence, tabled by the hon. Member for Banff and Buchan for answer on 25 May. [81464]

Joan Ryan *[holding answer 3 July 2006]:* I replied to the hon. Member on *(a)* 24 July 2006, *Official Report*, column 1180W and *(b)* 17 July 2006, *Official Report*, column 76W.

Mr. Amess: To ask the Secretary of State for the Home Department how many parliamentary questions tabled to his Department were awaiting a reply on 10 July 2006; which of those had been waiting longer than *(a)* two and *(b)* three weeks for a reply; and what the reason for the delay was in each case. [85207]

Mr. McNulty: The information requested is provided in the following table. To provide the reason for the delay in individual cases would incur disproportionate costs.

Overall	*PQs*
14-20 days	405
Over 21 days	171
Total	576

Anne Main: To ask the Secretary of State for the Home Department if he will draw to the attention of all those in his Department concerned with parliamentary questions the passage in Erskine May's Parliamentary Practice, 23rd edition, page 342, relating to the timing of answers to Questions. [85901]

Mr. McNulty *[holding answer 17 July 2006]:* My right hon. Friend, the Home Secretary is fully aware of the passage in Erskine May (page 342) that stresses the importance that Ministers should endeavour to answer such ordinary written questions within a working week of being tabled. He has instructed me, as Minister of State, to take strategic and operational oversight of all parliamentary affairs—including parliamentary questions. He has also written to the Speaker on 14 July 2006, stating that by 9 October the Department should be in a position to provide timely replies to Members' parliamentary questions. I have communicated this message to all officials within his Department.

Mr. Steen: To ask the Secretary of State for the Home Department when he will provide a substantive answer to Question 80658 tabled on 27 June by the hon. Member for Totnes on Operation Pentameter. [86442]

Mr. Coaker *[holding answer 17 July 2006]:* I replied to the hon. Member on 19 July 2006, *Official Report*, column 556W.

Mr. Steen: To ask the Secretary of State for the Home Department when he will provide a substantive answer to Question 78812 tabled on 20 June by the hon. Member for Totnes on child trafficking. [86444]

Mr. Coaker *[holding answer 17 July 2006]:* I replied to the hon. Member on 13 July 2006, *Official Report*, column 2028W.

Peter Luff: To ask the Secretary of State for the Home Department how many written questions to his Department remain unanswered at 25 July 2006 for *(a)* between two and four weeks, *(b)* between four and six weeks, *(c)* between six and eight weeks and *(d)* more than eight weeks; and how many in each category were tabled for named day answer. [87922]

Mr. McNulty *[holding answer for 25 July2006]:* Details of the number of unanswered parliamentary questions, as of 25 July 2006, are contained in the following table:

	PQs	*Named days*
2 to 4 weeks	129	30
4 to 6 weeks	57	15
6 to 8 weeks	75	10
over 8 weeks	283	43
Total	544	98

Anne Main: To ask the Secretary of State for the Home Department (1) whether in his Department there is a parliamentary question answering unit separate from branches dealing directly with matters for which his Department has responsibility; [88782]

(2) whether the drafting of replies to parliamentary questions in his Department is undertaken by officials with day-to-day responsibility for the subject matter of the question. [88275]

Mr. McNulty: The Home Office ensures that its answers to questions abide by the terms of the Ministerial Code and the guidance issued in respect of the accuracy of answers. Ministers remain responsible for the answers given and seek the advice of relevant policy officials where required.

Parole Board

Mr. Clegg: To ask the Secretary of State for the Home Department how many individuals were released on licence where the parole board decision was not unanimous in the 2005-06 financial year. [88481]

John Reid: Currently, any decision by a majority of the members of a parole board panel is legally the decision of the panel as a whole. No statistics are kept by the board as to whether decisions are taken unanimously or by a majority. The Government believe that the interests of public protection now demand that all such decisions should be taken unanimously and will bring forward legislation to this effect when parliamentary time allows.

Paroled Prisoners

Mr. Hayes: To ask the Secretary of State for the Home Department what the rate of recidivism was amongst paroled prisoners in each of the last five years, broken down by length of sentence served by those paroled. [87573]

Mr. Sutcliffe: The information requested is not available. The most recent information on the re-offending of adults in England and Wales was published in December as "Adult Re-offending: Results from the 2002 Cohort, Home Office Statistical Bulletin 25/05". The report is available online at:

http://www.homeoffice.gov.uk/rds/pdfs05/hosb2505.pdf

Passports

Mr. David Hamilton: To ask the Secretary of State for the Home Department whether he plans to extend free passports to British citizens born after 2 September 1929 when they reach their 75 birthday. [55405]

Joan Ryan: I refer to the reply I gave on 15 May 2006, *Official Report*, column 650W, in response to a question from the hon. member for East Londonderry.

The decision to give free passports for those born on or before 2 September 1929 was announced on 19 May 2004. This was a special concession intended to recognise the sacrifices made by adults of the world war II generation, whether in the services or on the home front. It would therefore not be appropriate, and there are no plans, to extend the scheme by reducing the qualifying age.

Mr. Gregory Campbell: To ask the Secretary of State for the Home Department pursuant to the answer of 28 June 2006, *Official Report*, column 514W, on passports, whether he plans to make UK passport facilities available to people in the Irish Republic on the same basis as Irish Passport applicants have in Northern Ireland. [82880]

Joan Ryan: I have no plans to change the current arrangements whereby British citizens can obtain UK passports from the Identity and Passport Service (IPS) only while present in the UK. British citizens resident in the Irish Republic are welcome to make appointments to apply in person at any IPS office, including Belfast, when present in the UK. The services available in this way are the same-day premium service or the one-week fast track service. Applications by post from British citizens resident in the Irish Republic must be made to the British embassy in Dublin.

Mr. Gregory Campbell: To ask the Secretary of State for the Home Department how many people applied for UK passports between 2000 and 2004 using a current address in the Irish Republic. [82881]

Joan Ryan: The number of passports issued by the British embassy in Dublin was as follows:

Financial year	*Total passports issued*
2000-01	7,315
2001-02	8,109
2002-03	9,582
2003-04	10,024
2004-05	10,893

In addition an unknown number of British citizens resident in the Irish Republic would, during visits to the UK, have used the Premium or Fast Track services available by applying in person to an Identity and Passport Service office, including Belfast. Records of passport applications are not kept in a way that would enable this number to be ascertained.

Mr. Scott: To ask the Secretary of State for the Home Department how many passports has been reported *(a)* lost and *(b)* stolen in each of the past five years. [87892]

Joan Ryan: The Identity and Passport Service processed the following reports of *(a)* lost, *(b)* theft and *(c)* other, of a passport in each of the past five calendar years:

	Lost	*Stolen*	*Other*[1]	*Total*
2001	—	—	—	[2]148,230
2002	—	—	—	[2]166,358
2003	—	—	—	[2]184,301
2004	212,745	50,737	11,558	275,040
2005	230,011	45,709	11,268	286,988
2006[3]	136,765	22,133	6,597	165,495

[1] Includes passports reported as damaged or destroyed.
[2] Combined total.
[3] Current figures.

Mr. Clegg: To ask the Secretary of State for the Home Department how many passport applications were received in each of the last 12 months. [88949]

John Reid: The number of passport applications processed by Identity and Passport Service for the last 12 months are as follows:

Month	*Intake*
July 2005	624,000
August 2005	503,000
September 2005	429,000
October 2005	356,000
November 2005	405,000
December 2005	283,000
January 2006	542,000
February 2006	586,000
March 2006	725,000
April 2006	607,000
May 2006	735,000
June 2006	704,000
Total	6,499,000

Penalties and Warrants (Enforcement)

Lynne Featherstone: To ask the Secretary of State for the Home Department what average time taken was for enforcement of *(a)* community penalties and *(b)* warrants, as referred to in the Home Office Departmental Report 2006 in each of the last five years. [88537]

Mr. Sutcliffe: The information is as follows.

(a) The Home Office Departmental Report 2006 refers to the average time taken from failure to comply with a community penalty to resolution of the case, measured in working days. Data on this have only been centrally collected since October 2005, so it is not possible to provide data for the last five years. In March 2006 (the date referred to in the Home Office Departmental Report 2006), the average time taken was 43 days. This is a new data collection and some early problems are still being resolved.

(b) Data on the average time taken to enforce warrants are not held centrally.

Penalty Notices

Lynne Featherstone: To ask the Secretary of State for the Home Department how many *(a)* fixed penalty notices and *(b)* penalty notices have been issued in each year since 1997. [88657]

Mr. McNulty: Penalty Notices for Disorder (PND) were piloted in four police forces for 12 months from August 2002 being rolled out to all police forces in England and Wales during 2003-4 financial year, under the provisions of the Criminal Justice and Police Act 2001. Further information on the Penalty Notices for Disorder scheme and information on where data from the pilot can be obtained can be accessed via the following website:

linkhttp://www.homeoffice.gov.uk/rds/pdfs05/rdsolr3505.pdf

Data from the PND database held by the Office for Criminal Justice Reform shows that, in 2004, there were 63,639 Penalty Notices for Disorder issued and provisional data for 2005 show there were 142,625 Penalty Notices for Disorder issued in that year. Provisional data for 2006 will be available when 2005 data have been published.

The Office for Criminal Justice Reform also collects information that identifies the number of motoring offences fixed penalty notices issued.

Available information on motoring offences fixed penalty notices issued can be found within the Home Office publication, 'Offences relating to motor vehicles England and Wales, Supplementary tables' (latest available, 2004). Copies are available in the Library and can also be accessed on the Home Office Research Development and Statistics (RDS) website at:

http://www.homeoffice.gov.uk/rds/index.htm

2005 data will be available early in 2007.

Under the Road Traffic Act 1991, Decriminalised Parking Enforcement (DPE) powers allow local authorities to take over responsibility for enforcing parking contraventions from the police. 2003 and 2004 data on penalty charge notices (PCNs) from individual local authorities operating Decriminalised Parking Enforcement can also be found in the above mentioned publication.

People Trafficking

Mr. Jeremy Browne: To ask the Secretary of State for the Home Department how many people have been convicted of offences related to human trafficking in each year since 1997. [74858]

Mr. Coaker: Following the commencement of dedicated trafficking offences in 2004 the convictions are as follows:

	Conviction
2004	3
2005	23
2006 (To date)	3

Prior to the introduction of this dedicated legislation there was only one conviction for a trafficking offence under the Immigration Act 1971.

Perverting the Course of Justice (Punishments)

Mr. Amess: To ask the Secretary of State for the Home Department if he will make a statement on the punishments available for those found guilty of *(a)* attempting to pervert and *(b)* perverting the course of justice. [64700]

Mr. Sutcliffe: Perverting the course of justice and attempting to pervert the course of justice are common law offences for which there is no statutory maximum. The full range of penalties is therefore available. Custodial sentences of up to eight years have been imposed in recent cases. Sentences average around eight months.

Police

Dr. Kumar: To ask the Secretary of State for the Home Department how many police officers have been *(a)* killed, *(b)* sexually assaulted and *(c)* physically assaulted while on duty in (i) England, (ii) the North East and (iii) the Tees Valley in each year since 1997. [71092]

Mr. McNulty: The available information is provided in the table. Figures on police assaults are collected by degree of injury which includes death, serious injury and minor or no injury. Figures on those sexually assaulted are not collected centrally.

Figures are available by police force area only.

Table 1: Assaults on police officers by degree of assault in England (1997-2005)

As at 31 March:	*Fatal assaults*	*Serious assaults*	*Other assaults*	*Total*
1997	0	872	13,780	14,652
1998	1	815	12,027	12,843
1999	0	311	11,458	11,769
2000	1	290	11,846	12,137
2001	1	326	10,977	[1]11,442
2002	1	393	9,799	[1]11,631
2003	4	253	10,761	[1]12,916
2004	1	231	9,984	[1]11,732
2005[2]	0	216	8,648	[1]10,210

[1] Some forces were unable to provide a breakdown on the degree of assault so have been included in the overall total only

[2] In 2005, the Metropolitan police were unable to separate assaults on police officers and police staff and are therefore excluded from the total. As at 31 March 2005, there were 2,614 total assaults on both police officers and police staff.

Table 2: Assaults on police officers by degree of assault in Cleveland (1997-2005)

As at 31 March:	*Fatal assaults*	*Serious assaults*	*Other assaults*	*Total*
1997	0	1	103	104
1998	0	1	75	76
1999	0	1	73	74
2000	0	0	13	13
2001	0	0	342	342
2002	0	44	214	258
2003	0	0	59	59
2004	0	0	63	63
2005	0	0	59	59

Table 3: Assaults on police officers by degree of assault in Northumbria (1997-2005)

As at 31 March:	*Fatal assaults*	*Serious assaults*	*Other assaults*	*Total*
1997	0	17	637	654
1998	0	173	325	498
1999	0	29	405	434
2000	0	20	493	513
2001	0	29	501	530

Table 3: Assaults on police officers by degree of assault in Northumbria (1997-2005)

As at 31 March:	Fatal assaults	Serious assaults	Other assaults	Total
2002	0	37	501	538
2003	0	0	691	691
2004	0	0	37 [1]	37 [1]
2005	0	25	205	230

[1] The force have confirmed that the low figures in 2004 are due to a change in the way in which accidents and assaults were recorded.

Table 4: Assaults on police officers by degree of assault in Durham (1997-2005)

As at 31 March:	Fatal assaults	Serious assaults	Other assaults	Total
1997	0	4	180	184
1998	0	3	167	170
1999	0	5	245	250
2000	0	3	218	221
2001	0	0	291	291
2002	0	3	301	304
2003	0	1	240	241
2004	0	2	216	218
2005	0	3	132	135

David Davis: To ask the Secretary of State for the Home Department (1) what average percentage of time police officers spent *(a)* on the beat and *(b)* on patrol in each of the last five years; [74588]

(2) what percentage of their time on average police officers spent completing paperwork in each of the last five years; [74587]

(3) what research his Department has conducted on the amount of time police officers spend *(a)* on patrol and *(b)* completing paperwork; what the conclusions were; and if he will make a statement. [74591]

John Reid: The Government introduced a measure in 2003 to record the amount of time that police officers spend on frontline duties in order to help to maximise the time spent on their core roles of preventing and reducing crime. More police officer time was spent on front line duties in 2004-05 (64.1 per cent.) than in 2003-04 (63.6 per cent.) and we are determined to see this improvement continue, with police authorities setting robust targets for improvement. The Home Office expects that the police service can increase this to a national average of around 72 per cent. in 2008. This will be a gain in time on frontline duties equivalent to an extra 12,000 police officers. These frontline duties include providing a visible patrolling presence in communities—a role which has been greatly enhanced by the creation of Police Community Support Officers, whose core function it is to provide high visibility reassurance policing to local communities, primarily on foot patrol. The Government have also been working with the Association of Chief Police Officers since 2002 to reduce the burden of paperwork. Already we have:

made nearly 9,000 forms obsolete across all 43 forces;

nearly 125,000 fixed penalty notice tickets were issued in 2005—around 90 minutes saved per ticket;

207 Livescan Units, which enable electronic fingerprint images to be taken from people instantly, in 37 forces. This saves 7.5 minutes per arrest over ink and roller (5 minutes as opposed to 12.5 minutes);

the introduction of street bail in 2003 enables an officer to grant bail elsewhere other than a police station, remain on front-line operational duties and better plan the investigation to meet operational needs; and

the use of designated (police staff) detention officers and investigation officers at police stations to take forward arrest processing and case preparation thereby enabling operational officers to return to front-line duties.

David Davis: To ask the Secretary of State for the Home Department how many *(a)* regulations and *(b)* guidance documents were issued to police forces in England and Wales in each year since 1997. [74590]

Mr. McNulty: Regulations and guidance relevant to police forces are issued by a variety of Government Departments, statutory bodies (such as Centrex) and non-statutory bodies (such as the Association of Chief Police Officers), and as such the information requested is not held centrally.

Mr. Lancaster: To ask the Secretary of State for the Home Department how many *(a)* front line police officers and *(b)* police officers there were in (i) Milton Keynes and (ii) England and Wales in each year from 1995 to 2005. [75398]

Mr. McNulty: The figures requested are given in the following table where possible.

Numbers of front line officers quoted are based on counts of officers assigned to roles which are defined as "front line". These are only available for 2002-03 and later years. To avoid imposing an excessive administrative burden on forces, the Home Office does not request these data at Basic Command Unit (BCD) level, so numbers of front line officers are not available for Milton Keynes specifically. They have instead been provided for the relevant force (Thames Valley). Numbers of officers at BCD level are available only from 2002 onwards, as they were not collected by the Home Office's Research, Data and Statistics Directorate before this time; again, where figures for Milton Keynes specifically are not available they have been provided for Thames Valley. It should be noted that non-front line functions include call-centres, training, custody suites and criminal justice units for the processing of cases.

	Milton Keynes[1]	Thames Valley[2]		England and Wales[2]	
	All officers	All officers	Front line officers	All officers	Front line officers
1994-95	Not available	3,854	Not available	127,222	Not available

2004-05	378	4,114	3656	141,230	122,935

[1] FTE strength includes those on career breaks or maternity/paternity leave.
[2] FTE strength excludes those on career breaks or maternity/paternity leave.

Mr. Laws: To ask the Secretary of State for the Home Department how many letters sent by recorded delivery to the Metropolitan Police have been lost by the police and not replied to in each quarter since January 2001. [81440]

Mr. McNulty: The information to answer this question can be obtained only at disproportionate cost to the Metropolitan Police Service.

Mr. Clegg: To ask the Secretary of State for the Home Department how much has been spent on proposals for merging police forces. [85407]

John Reid: Home Department total costs are estimated at up to £1.2 million. We have not made estimates of police authority costs. We are aware authorities/forces may approach the Home Office to meet additional costs incurred in preparing for mergers and we will consider any such approaches.

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department what estimate he has made of the costs which have been incurred arising from the proposed merger of Lancashire and Cumbria police forces. [85526]

Mr. McNulty: We have not made estimates. We are aware authorities/forces may approach the Home Office to meet the extra costs they have incurred in preparing for mergers and we will consider any such approaches.

Chris Huhne: To ask the Secretary of State for the Home Department how many police officers *(a)* per 1,000 population and *(b)* per square mile have been employed in (i) rural and (ii) non-rural areas in each year since 1997. [85940]

Mr. McNulty: The number of police officers is collected per 100,000 population. The available information is given in the table.

Data regarding the number of police officers per square mile, and in rural and non-rural areas are not collected centrally.

Number of police officers (fte)[1] per 100,000 population[2], by police force (1997-2006)[3]

	As at 31 March									
Police force area	1997[4]	1998	1999	2000	2001[5]	2002	2003	2004	2005	2006

[1] This table contains full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding there may be a discrepancy between totals and the sums of the constituent items.
[2] Officers per 100,000 population for City of London and Metropolitan police are combined.
[3] Between the years 1997 to 2002 the figures used to calculate the number of officers per 100,000 population excluded those officers on career breaks or maternity/paternity leave. From 2003 onwards the figures for police officers include those on career breaks or maternity/paternity leave.
[4] Boundary changes on 1 April 1996 transferred resources from the policing of the Rhmney Valley from South Wales police to Gwent police.
[5] Boundary changes on 1 April 2000 transferred some resources from the Metropolitan police to Essex, Hertfordshire and Surrey police forces.

Mrs. Villiers: To ask the Secretary of State for the Home Department how much of the £1,060 million Gershon efficiency savings to be achieved in the police were to be achieved through force amalgamations; what alternative efficiencies he plans to replace the previously expected savings; and if he will make a statement on progress towards achieving efficiency savings by the police. [86090]

Mr. McNulty: Achievement of the target of £1,060 million, that applies to the period 2004-05 to 2007-08, was not predicated upon gains from police force restructuring. The Government none the less remain particularly interested in maximising the potential for increased collaboration between forces; exploiting the opportunities for efficiencies in sharing back office functions; and in modernising the work force.

Bob Russell: To ask the Secretary of State for the Home Department how many police officers were involved in road accidents while *(a)* on duty and *(b)* off-duty in each of the last five years for which figures are available, broken down by force; and how many accidents involved (i) fatalities and (ii) serious injury. [86358]

Mr. McNulty: The available information is given in the table, a copy of which I will place in the House Library.

The information provided is based on the number of road traffic collisions on public roads involving police vehicles. Information is not collected centrally on the numbers of on- or off-duty police officers involved in accidents.

The figures provided in response to this question are based on data collected by the Department on behalf of HMIC. The Independent Police Complaints Commission (IPCC) annually publish statistics on deaths during or following police contact. However these data use a much wider definition of road traffic collisions than that collected by HMIC.

Sarah Teather: To ask the Secretary of State for the Home Department how many police officers there were in Brent in each year since 1997, broken down by *(a)* sex and *(b)* ethnicity. [87707]

Mr. McNulty: At 31 March 2003 there were 619 full-time equivalent police officers in Brent, 683 at 31 March 2004 and 679 at 31 March 2005. Corresponding information for 31 March 2006 will be published later in the year.

Data about the numbers of police officers in each Basic Command Unit (BCU) have only been collected since 2002 and these figures cannot be broken down any further by sex or ethnicity.

Sarah Teather: To ask the Secretary of State for the Home Department how many police cars were in use in the London borough of Brent in each year since 1997. [87712]

Mr. McNulty: The information requested is not collected centrally.

Mr. Hands: To ask the Secretary of State for the Home Department which *(a)* local authorities and *(b)* local authority wards comprise each Basic Command Unit in England and Wales. [88412]

Mr. McNulty: The information requested is given in the table, a copy of which will be placed in the Library.

Mr. Hancock: To ask the Secretary of State for the Home Department how many police officers are seconded overseas, broken down by *(a)* country, *(b)* length of secondment and *(c)* force from which seconded. [88188]

Mr. McNulty: From 1 January 2006 to 24 July 2006, the Home Office issued 365 authorisations under section 26 of the Police Act 1996 to police officers from forces in England and Wales in respect of travel overseas to provide assistance to an international organisation or other body engaged outside the UK in policing activities. The majority of these authorisations were in respect of short-term assistance, on a wide range of matters and to numerous countries. Longer term deployments are mostly in the form of support to international Peace Support Operations (PSOs), and last up to a year. On 24 July 2006 the United Kingdom had 140 serving police officers working in Peace Support Operations in Bosnia (11); Kosovo (58); Iraq (21); Jordan (47); Sudan (2) and Afghanistan (1). Of these 140 police officers, 67 are from forces in England and Wales. Those forces are: Avon and Somerset; Cheshire; Cleveland; Cumbria; Devon and Cornwall; Durham; Dyfed Powys; Essex; Greater Manchester; Hertfordshire; Humberside; Kent; Lancashire; Lincolnshire; Metropolitan; Merseyside; Norfolk; Northumbria; North Wales; Nottinghamshire; South Yorkshire; Surrey; Sussex; Staffordshire; Thames Valley; West Mercia; West Yorkshire and Wiltshire. The other serving officers on PSOs are from the Ministry of Defence Police, the Police Service of Northern Ireland and Scottish police forces. 10 other longer term deployments have been authorised since 1 January 2006 for officers from forces in England and Wales. All last for a year or more. Three authorisations were in respect of assistance to Trinidad and Tobago by officers from Wiltshire and Cambridgeshire. In respect of the remaining seven authorisations, there are sensitivities which mean I am unable to reveal further details of their deployment.

Mr. Amess: To ask the Secretary of State for the Home Department if he will make a statement on the operation of section 54 of the Police Act 1996; and what recent representations he has received about the operation of this *(a)* section and *(b)* Act. [71013]

Mr. McNulty: HM inspectorate of constabulary (HMIC) provides an independent oversight of policing in England, Wales and Northern Ireland. The Government intend building on the current expertise and commitment offered under existing inspection arrangements, by creating a new Inspectorate for Justice, Community Safety and Custody. A synopsis of responses on the proposals can be viewed at:

http://www.homeoffice.gov.uk/documents/InspectionReformPolicyState1.pdf?version=1

Details of representations on the operation of the Police Act 1996 are not readily available and could be provided only at disproportionate cost.

Tim Loughton: To ask the Secretary of State for the Home Department what estimate he has made of the time it takes for a police officer to complete the paperwork when stopping minors caught drinking in the street; and which forms are required. [88018]

Mr. McNulty: It is a matter for individual police officers to determine the appropriate course of action when dealing with minors caught drinking alcohol in the street or other public place. Research undertaken by the Home Office indicates that stops take on average five minutes or less to record. Records are not held centrally on the average amount of time it takes to complete other locally prescribed forms which might be required in such circumstances.

Lynne Featherstone: To ask the Secretary of State for the Home Department what percentage of the police budget was spent on front-line policing in each of the last five years. [88658]

Mr. McNulty: Analysis of costs relating to front line policing is not available.

Tim Farron: To ask the Secretary of State for the Home Department when he expects to appoint the transitional authority for the Cumbria and Lancashire Police Authorities. [82966]

Mr. McNulty *[holding answer 5 July 2006]:* I met the Chief Constables and Police Authority Chairs from Cumbria and Lancashire on 10 July. I explained to them that it had not been possible to resolve all of the issues surrounding the proposed merger in a way that would be satisfactory to them and they therefore do not wish to proceed with their voluntary merger. As a result no combined police authority for Cumbria and Lancashire will be established.

Mr. Borrow: To ask the Secretary of State for the Home Department if he will take steps to reimburse police authorities and police forces for the resources spent on those police mergers which will not take place. [86374]

Mr. McNulty: We are aware that a number of police force and police authorities have incurred costs in preparing for police force mergers.

We have written to police forces to say that requests for reimbursement of additional costs incurred will be considered.

Jenny Willott: To ask the Secretary of State for the Home Department how much his Department spent on *(a)* administration, *(b)* legal fees, *(c)* special advisers and *(d)* other costs on the police force restructuring consultation; and if he will make a statement. [89105]

Mr. McNulty: Between September 2005 and July 2006, the Home Office has spent approximately £400,000 on staff costs (representing a team of permanent, temporary and seconded staff averaging 10 people during this period) and approximately £20,000 on legal costs. Expenditure on consultancy for assessing and refining the police structures business cases is expected to be up to approximately £800,000. Other Home Office officials and special advisers have

made contributions to work on police restructuring as part of routine business and the costs could not be identified separately.

Mr. Laws: To ask the Secretary of State for the Home Department how many police officers *(a)* retired and *(b)* retired on the grounds of ill health, broken down by type of ill health, in each year since 1997. [88373]

Mr. McNulty *[holding answer 25 July 2006]:* The available information is given in the following table.

Full-time equivalent[1] police officer medical and ordinary retirements in England and Wales (1997-2005)

As at 31 March	Medical retirement	Ordinary retirement
1997	2,012	2,466
1998	1,811	2,960
1999	1,642	2,562
2000	1,232	2,732
2001	1,209	2,645
2002	1,114	3,001
2003[2]	819	1,983
2004	418	2,650
2005	405	3,464

[1] Prior to 2003, FTE figures excluded those on career breaks.
[2] Figures for 2003 are not comparable with other years, as not all of the 43 forces were able to provide complete data.

Lynne Featherstone: To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of the new generation Airwave radios; which police forces are using them; and if he will make a statement. [88647]

Mr. McNulty: Airwave provides modern, integrated, secure and efficient radio communications for the police service.

The Airwave service had to pass a rigorous series of tests before being accepted by a force as being ready for service.

The Police Information Technology Organisation (PITO) continually evaluates the performance of Airwave through a national service support structure, managing any arising issues jointly with the service provider, O2 Airwave.

Police communications at special events, such as the G8 summit at Gleneagles in 2005, have been facilitated by the adoption of a common technology and since the service first started rolling out in 2001 new features such GPS location sensing and direct access to the police national computer have become available to benefit the safety and effectiveness of individual police officers. The use of Airwave radios has meant improved coverage and clarity compared to the old analogue radios.

The decisions of the ambulance and fire services to move to Airwave will enhance the capabilities of all three emergency services to work together, both on a day-to-day basis and during major incidents.

As part of its operational benefits strategy, PITO is in the process of carrying out baseline reviews using several forces in order to gauge the benefits that Airwave has brought to police users.

Currently over 160,000 police officers are using Airwave and 50 forces have fully migrated to the new service. The remaining forces, the Metropolitan police and North Wales, are in the process of migration and will have fully migrated by the summer of 2007.

David Davis: To ask the Secretary of State for the Home Department how many children in contravention of their curfew notices have been removed to their place of residence by *(a)* community support officers and *(b)* police officers under paragraph 4B of Schedule 4 to the Police Reform Act 2002 in each of the last four years, broken down by police authority. [29362]

John Reid: No curfew notices have been issued under this power as no local child curfew scheme has been established. However other powers have been introduced and used. My answer on 5 December 2005, *Official Report*, column 968W explained that section 30 of the Anti-social Behaviour Act 2003 provides the police with a power to disperse groups and remove under-16s to their place of residence, within designated areas. The Act also inserted paragraph 4A into Schedule 4 to the Police Reform Act 2002 to allow designated community support officers to use these powers. These powers came into force on 20 January 2004. From a Home Office data collection exercise, we estimated that 809 areas were designated between January 2004 and June 2005. Police officers and community support officer dispersed 14,375 people from the 293 areas where data were available. They also removed 520 young people under 16 to their place of residence from 236 areas where data were available. We do not hold the information on whether these powers were exercised by police officers or community support officers.

Chris Huhne: To ask the Secretary of State for the Home Department how many police stations have closed in *(a)* non-rural and *(b)* rural areas in each year since 1992; and if he will make a statement. [84632]

Mr. McNulty: Details of police station openings and closures, where provided by the forces, have been as in the table.

Police Stations opened or closed since 1996-97

	English Shire Authorities	English Metropolitan Authorities	London Authorities	Welsh Authorities
1996-97

Thames Valley	50	53	63
Warwickshire	17	15	12
West Mercia	85	57	59
West Midlands	—	—	46
West Yorkshire	—	—	41
Wiltshire	42	28	27
Total [2]	n/a	n/a	1,791

[1] In 1996-97 South Wales police transferred nine police stations to Gwent. The nine stations have been included for Gwent for 1996-97, but the force made no fuller report for the year.
[2] Because several forces did not make returns in 1992 and 1997, direct comparison of totals with 2005 would be inappropriate.
[3] Latest figures.

Mr. Clegg: To ask the Secretary of State for the Home Department what his most recent estimate is of the number of *(a)* bicycles, *(b)* patrol cars and *(c)* motorcycles available to police forces in England and Wales. [88946]

John Reid: The information requested is not collected centrally.

Mr. Clegg: To ask the Secretary of State for the Home Department what estimate he has made of the average fuel efficiency of the England and Wales police fleet; and what plans he has to improve fuel efficiency. [88947]

John Reid: Information on the fuel efficiency of police vehicles is not collected centrally. Police forces in England and Wales are expected to have a strategy for the management of their vehicle fleets. Each year HM Inspectorate of Constabulary assesses the contribution of that strategy to operational policing performance and the accountability of the fleet management for resource use and performance. Increased efficiency in fleet management, including increased fuel efficiency, will contribute to forces meeting their overall efficiency target.

Hugh Bayley: To ask the Secretary of State for the Home Department what the budget of North Yorkshire police was in each of the last 20 years *(a)* in cash terms and *(b)* at current prices. [89152]

Mr. McNulty: The available information is set out in the table.

Budgets for North Yorkshire

	Budget requirement	Change in cash terms		Change in real terms
	£000	£000	Percentage	Percentage
1996-97	69,374	n/a	n/a	n/a
1997/98	71,594	2,220	3.2	0.3
1998-99	74,363	2,769	3.9	1.3
1999-2000	78,044	3,681	5.0	2.9
2000-01	81,000	2,956	3.8	2.3
2001-02	85,860	4,860	6.0	3.5
2002-03	93,142	7,282	8.5	5.2
2003-04	114,280	21,138	22.7	19.2
2004-05	122,000	7,720	6.8	3.9
2005-06	126,165	4,165	3.4	1.3
2005-06[1]	119,084	n/a	n/a	n/a
2006-07	122,894	3,810	3.2	0.7

[1] Adjusted for comparison following the transfer of pensions and security funding from general grant in 2006-07.

Notes:

Information prior to 1996-07 is not readily available Real terms at 2004-05 prices using GDP deflator at 30.06.06

Hugh Bayley: To ask the Secretary of State for the Home Department how many *(a)* police officers, *(b)* community support officers and *(c)* other police support staff there were in (i) North Yorkshire and (ii) City of York in each of the last 20 years. [89153]

Mr. McNulty: The available information is given in the tables.

Total Strength[1] for Police Officers, Civilian/Police Staff[2] and Police Community Support Officers in North Yorkshire, 1986-2006[3]

	Police Officers	Civilians/ Police Staff	Police Community Support Officers (PCSOs)[4]
31 March 1986	1,361	335	—
31 March 1987	1,353	330	—
31 March 1988	1,372	358	—
1 March 1989	1,370	421	—
31 Mar 1990	1,379	433	—
31 March 1991	1,387	449	—
31 March 1992	1,398	445	—
31 March 1993	1,393	453	—
31 March 1994	1,318	438	—
31 March 1995	1,300	508	—
1 March 1996	1,324	520	—
31 March 1997	1,338	519	—
31 March 1998	1,367	543	—
31 March 1999	1,337	541	—
31 March 2000	1,283	492	—
31 March 2001	1,305	591	—
31 March 2002	1,417	743	—
31 March 2003	1,444	723	0
31 March 2004	1,529	864	52
31 March 2005	1,543	930	75
31 March 2006	1,636	1,030	71

[1] Total strength is based on full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding there may be an apparent discrepancy between these totals and the totals in other tables. Between 1986-1995 the full-time equivalent figures were based on estimations. Figures exclude those staff on career breaks or maternity/paternity leave unless otherwise stated.

[2] Civilian Staff have been referred to as Police Staff since March 2003. Figures exclude Traffic Wardens, Police Community Support Officers and Designated Officers (s.38).

[3] Strength Figures for Civilian Staff were collected by HMIC from 1986 until 1995. The Research Development and Statistics Section within the Home Office, have been collecting and publishing these data since March 1996.

[4] Figures for PCSOs have been collected only since 2003 and include those on career breaks and maternity/paternity leave.

Total Strength[1] for Police Officers in North Yorkshire Central Basic Command Unit, 2002-05

As at 31 March:	Police Officers
2002	399
2003	409
2004	422
2005	410

[1] Total strength is based on full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding there may be an apparent discrepancy between these totals and the sums of the constituent items. Figures include those officers on career breaks and maternity/paternity leave.

Hugh Bayley: To ask the Secretary of State for the Home Department how many *(a)* violent crimes and *(b)* crimes there were in (i) North Yorkshire and (ii) City of York in each of the last 20 years. [89154]

Mr. McNulty: The information requested is given in the following tables. York is a Crime and Disorder Reduction Partnership (CDRP) area and data at CDRP level have only been collected centrally since 1999-2000. Since 1986, there have been two major

changes to the way in which crime is recorded. The effect of the extended coverage and the change in counting rules in 1998 was to artificially increase recorded violent crime nationally by more than 80 per cent. while it is estimated that the effect of the introduction of the National Crime Recording Standard (NCRS) in April 2002 caused a further 20 per cent. increase in recorded violent crime in its first year.

Table 1: Recorded crime in North Yorkshire—1986-97

	Number of offences	
	Total crime	*Violent crime*
1986	35,968	1,542
1987	37,494	1,713
1988	34,686	1,858
1989	35,774	2,114
1990	46,252	2,403
1991	51,471	2,479
1992	54,816	2,276
1993	57,967	2,382
1994	62,153	2,532
1995	63,539	2,547
1996	56,919	2,821
1997	50,252	2,885

Table 2: Recorded crime in North Yorkshire—1998-99—2001-02

	Number of offences	
	Total crime	*Violent crime*
1998-99	55,309	5,294
1999-2000	53,554	5,607
2000-01	51,551	5,373
2001-02	59,125	6,261

Note:
Expanded offence coverage and revised counting rules came into effect on 1 April 1998. The figures in this table are therefore not directly comparable with those for earlier years.

Table 3: Recorded crime in North Yorkshire—2002-03—2005-06

	Number of offences	
	Total crime	*Violent crime*
2002-03	67,239	8,912
2003-04	71,473	10,507
2004-05	61,864	12,960
2005-06	59,069	12,369

Note:
The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Table 4: Recorded crime in the York Crime and Disorder Reduction Partnership area—1999-2000—2005-06

	Number of offences	
	Total crime	*Violent crime*
1999-2000	n/a	1,812
2000-01	19,291	1,633
2001-02	22,890	1,889
2002-03	25,630	2,878
2003-04	29,347	3,812
2004-05	23,164	4,350
2005-06	22,846	4,112

n/a = not available.
Note:
The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Port Security

David Davis: To ask the Secretary of State for the Home Department pursuant to his answer of 10 July 2006, *Official Report*, column 1676W, on port security, which ports are in each of the categories referred to. [87301]

John Reid: This information cannot be disclosed as this could provide information of value to those seeking to circumvent immigration controls, thereby prejudicing the prevention and detection of immigration offences.

Pre-comprehensive Spending Review

Dr. Cable: To ask the Secretary of State for the Home Department what discussions he has had with *(a)* the Treasury and *(b)* the Cabinet Office regarding the pre-comprehensive spending review report; and if he will make a statement. [82846]

Mr. Byrne: Home Office Ministers have had and will continue to have wide-ranging and regular discussions with the Treasury Ministers about preparations for the 2007 Comprehensive Spending Review.

Pre-Sentencing Reports

Mr. Dismore: To ask the Secretary of State for the Home Department what the national standards are for writing pre-sentencing reports; what assessment he has made of the extent to which those national standards are complied with in each probation area; what measures are in place to monitor standards; and if he will make a statement. [87792]

Mr. Sutcliffe: Where a court requests a report from the National Probation Service prior to sentencing, an appropriate assessment will be made of the offender's risk of harm and the likelihood of re-offending, in order to inform the court of a clear and realistic proposal for sentence or remand.

National standards for the Probation Service are published in the document "National Standards 2005" copies of which can be obtained in the Library and at the following website address: http://www.probation.homeoffice.gov.uk/output/page32.asp#GuideWwO

The national standards specific to pre sentence reports are SS2.5 to SS2.13. To monitor each standard routinely would incur disproportionate costs. SS2.12—"Reports will be prepared within the time scale set by the commissioning court" is monitored and the results for each area can be found in the following. In England and Wales in 2005-06, this standard was met in 97 per cent. of cases. The target is 90 per cent.

Timeliness of court reports July 2005 to March 2006

Probation area	*Total provided*	*Number provided on time*	*Performance against court's time scale (percentage)*
Avon and Somerset	3,433	3,349	98
Bedfordshire	1,098	1,090	99

Press Complaints

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department on how many occasions since 1 April 2003 he has complained to the Press Complaints Commission about the coverage in the press of *(a)* Ministers or officials and *(b)* his Department; and how many of these complaints were upheld. [47084]

Mr. McNulty: In the period specified, neither the present Home Secretary, nor either of his predecessors, have complained to the Press Complaints Commission about the coverage in the press of Ministers or officials individually, or the Home Office generally.

Preventing Extremism Working Groups

Ms Abbott: To ask the Secretary of State for the Home Department which of the recommendations of the "Preventing Extremism Together" working groups set up in response to the London bombings in July 2005 have been implemented; and what proportion this represents of the number of recommendations. [71936]

Meg Munn *[holding answer 19 May 2006]:* I have been asked to reply.

Responsibility for leading on this area of work is now with the Department for Communities and Local Government. On 17 July 2006, the Department published on its website details of progress made on the recommendations from the "Preventing Extremism Together" working groups. Further details can be found at:

http://raceandfaith.communities.gov.uk/raceandfaith/faith/faith-communities/?version=1

Prison Service

Mr. Bellingham: To ask the Secretary of State for the Home Department what recent assessment he has made of the confidence of prison service staff in governors at each prison establishment; and if he will make a statement. [73762]

Mr. Sutcliffe: The 2005 Prison Service staff survey did not contain a specific question about confidence in governors. However, the percentage of respondents who agreed that their senior management team provides effective leadership in each establishment is provided as follows.

Extract from the public sector Prison Service in England and Wales 2006 staff survey showing the percentage of respondents who agree that senior management provide effective leadership

Mr. Greg Knight: To ask the Secretary of State for the Home Department what mechanisms are in place to deal with national industrial action by prison officers; and if he will make a statement. [87800]

Mr. Sutcliffe: The Prison Officers' Association (POA) has signed the Joint Industrial Relations Agreement, which provides an undertaking that neither it nor its members will induce industrial action. If the POA breach the JIRA, the Home Secretary may seek injunctive relief against it. If the POA gives notice to terminate the agreement with no alternative arrangements being in place, the Secretary of State would ask Parliament to reintroduce statutory constraints such as existed prior to disapplication of Section 127.

Mr. Greg Knight: To ask the Secretary of State for the Home Department when the last time was that a member of the Prison Service Management Board met representatives of the police to consider contingency plans to prepare for national industrial action by prison officers; and if he will publish the minutes of that meeting. [87801]

Mr. Sutcliffe *[holding answer 24 July 2006]:* The Deputy Director General met police representatives on 25 May 2004 to discuss contingency planning. The Chief Executive of the National Offender Management Service (NOMS) has overall responsibility for contingency planning across the prison estate. Senior prison service officials take the operational lead on behalf of NOMS and regularly meet police representatives to consider contingency plans. These plans are restricted documents.

Mr. Greg Knight: To ask the Secretary of State for the Home Department when he expects the review of the Prison Service Professional Standards and Code of Discipline to be completed; and if he will place a copy in the Library. [87804]

Mr. Sutcliffe: The review of PSO 8460, Staff Conduct and Discipline, which includes the Professional Standards statement, is ongoing. I expect a revised policy to be issued to staff later this year, subject to the satisfactory conclusion of discussions with trades unions. A copy of the revised policy will be placed in the Library when the review has been completed.

Lynne Featherstone: To ask the Secretary of State for the Home Department what total number of sick days was taken by Prison Service staff in each of the last five years. [88534]

Mr. Sutcliffe: Information on the number of working days lost due to sickness absence in the Public Sector Prison Service is contained in the following table.

Working days lost due to sickness absence

	Working days lost[1]
2005-06	589,471
2004-05	616,367
2003-04	628,623
2002-03	668,337
2001-02[2]	614,150

[1] Information derived from Personnel Corporate Database.
[2] The 2004 NAO report on sickness absence in the Prison Service estimated that sickness absence was under-reported by up to 26 per cent. in 1997-98. Under-reporting fell to negligible levels by 2002-03, therefore data for 2001-02 will be under-recorded.

Information for the contracted estate over the past five years is not readily available within the time scales required and could be provided only at disproportionate cost.

Mr. Greg Knight: To ask the Secretary of State for the Home Department which inmates are permitted to hold private cash in prison service accounts; what the maximum amount is that can be held by an inmate in such accounts; and if he will make a statement. [87802]

Mr. Sutcliffe: Prison rules permit all prisoners in Her Majesty's prisons to hold private cash in prison service accounts. There is no limit on the amount of private cash that can be held by a prisoner. The amount a prisoner is allowed access to on a weekly basis is determined by their status under the incentives and earned privileges scheme.

Mr. Redwood: To ask the Secretary of State for the Home Department how many people are employed by *(a)* the Prison Service and *(b)* the immigration and nationality directorate; and how many were employed in each case in May 1997. [67457]

Mr. Byrne: The number of people employed by the Prison Service and the immigration and nationality directorate, for the dates requested, is set out in the following table.

	IND[1, 2]	Prison Service[3]
Staff employed at 31 March 1997	5,697	17,213
Staff[4] employed at 31 March 2006	37,704	47,282

[1] The headcount figure is the only figure available for 1997.
[2] The figure for 1997 for IND is for permanent employees only and that for 2006 includes permanent employees and non-permanent temporary agency staff.
[3] Prison Service figures are as published in civil service statistics for 1997 and as submitted to National Statistics for 2006.1997 figures exclude staff on maternity leave and on reduced or nil pay as a result of long-term sickness. Only staff on nil pay have been excluded from the 2006 figures. Both figures are on a full-time equivalent basis and do not include agency staff or contractors.
[4] Full-time equivalent figures have been used, unless otherwise stated.

Mr. Greg Knight: To ask the Secretary of State for the Home Department what mechanisms exist to ensure that members of the Prison Service Standards Audit Unit are independent of other parts of the Prison Service; what steps have been taken by the Prison Service's Director of Operations to ensure that standards audits in prison establishments are objective and free from bias; and if he will make a statement. [88430]

Mr. Sutcliffe: Audit and Corporate Assurance does not report to the Director of Operations but, for day-to-day purposes, reports to the Director of Finance. On audit matters it reports to the Audit Committee and the Director General. The Audit Committee is chaired by Lord Rosser, non-executive Director, and comprises three further independent members and three executive members.

The work of Standards Audit Unit is subject to an internal peer review carried out by professionally qualified Internal Auditors. The system for carrying out standards audits in establishments is also audited by Internal Audit. The results of the internal peer review and Internal Audits of the standards audit are reported to the Audit Committee.

Mr. Greg Knight: To ask the Secretary of State for the Home Department (1) what the role is of the Prison Service Area Professional Standards Managers in viewing information from *(a)* staff mobile telephones, *(b)* prisoner mobile telephones and *(c)* staff computers; and if he will make a statement; [88431]

(2) what level of authority is required to view information from unauthorised *(a)* prisoner and *(b)* prison staff mobile telephones that are seized during security searches; and if he will make a statement; [88432]

(3) on how many occasions in the last 12 months the covert viewing of prison staff computers has been carried out; what the reasons were in each case; who was responsible for authorising the activity in each case; what disciplinary action was progressed in consequence of information discovered as a result of such viewing; and if he will make a statement; [88433]

(4) what level of authorisation is required for covert viewing of information from prison staff computers; what assessment he has made of the compatibility of the current practice in the Prison Service for the covert viewing of staff computers with the requirements of the Regulation of Investigatory Powers Act 2000; and if he will make a statement. [88434]

Mr. Sutcliffe *[holding answer 25 July 2006]:* Computer use within the Prison Service is subject to routine scrutiny and monitoring. All staff are required to read and be aware of the information technology security policy. Monitoring is overt and not subject to the Regulation of Investigatory Powers Act 2000.

At establishment level, Governors approve requests for information about the use of computers by staff. At Area Offices requests are made by Area Managers and at headquarters by Heads of Group. Requests are checked and submitted for action by the Professional Standards Unit, which will view any information produced to identify whether there has been inappropriate use.

There have been 191 occasions during the past 12 months when examination of potential inappropriate use of staff computers has taken place for a range of management or possible corruption issues. Proceedings will be taken against individuals where there is sufficient evidence to support this. It is not possible to provide the results of each examination, as results are not held centrally and can be provided only at disproportionate cost.

Mobile telephones are not allowed in prison establishments and their use is prohibited for both prisoners and staff, unless a member of staff has a specific exemption from the Governor. A member of staff's telephone would be subject to interrogation only if brought into the prison in breach of the rules. Statutory Instrument 1878 of 2006, The Regulation of Investigatory Powers (Communications Data) (Additional Functions and Amendment) Order 2006 which came into force on 26 July 2006, sets the level of authority for examining mobile telephones in prisons as senior operational manager.

Area Professional Standards Managers are able to view mobile phone information if during the course of intelligence gathering or investigations it is considered necessary and proportionate to do so and the requirements of the Regulation of Investigatory Powers Act 2000 and the Data Protection Act 1998 are fully met.

Mr. Clegg: To ask the Secretary of State for the Home Department how many prisoners escaped *(a)* while at court and *(b)* while in transit between court and prison in each of the last five years. [85399]

John Reid: Details of the number of prisoners that escaped while at court and while in transit between court and prison are set out in the following table. The total number of escapes in a year has reduced by 65 per cent. between 2001-02 and 2005-06.

	Court	In transit	Total
2001-02	38	2	40
2002-03	27	4	31
2003-04	27	5	32
2004-05	26	1	27
2005-06	12	2	14

Mr. Clegg: To ask the Secretary of State for the Home Department what percentage of prisoners appearing at court arrived *(a)* operationally on time and *(b)* in time for the hearing in each of the last five years. [85400]

John Reid: Details of the percentage of prisoners arriving at court operationally on time are set out in the following table.

Figures are not available on the number of prisoners arriving in time for their hearings. Current escort contracts require that contractors report occasions when late arrival delays court business. Information from the escort contractors shows that between September 2004 and March 2005, 99.97 per cent. of prisoners were available for their court appearance as scheduled. The corresponding figure for 2005-06 is 99.92 per cent.

	Percentage of prisoners arriving on time
2001-02	75
2002-03	76
2003-04	82
2004-05[1]	85
2004-05	76
2005-06	82

[1] New escort contracts commenced on 29 August 2004, when the criteria for determining the timely arrival of prisoners to courts changed.

Philip Davies: To ask the Secretary of State for the Home Department how many and what percentage of people convicted of further offences committed before the period of their prison sentence had expired were ordered to return to prison to serve the outstanding sentence in full in each of the last eight years. [81172]

Mr. Sutcliffe: This information is not available in the form requested and could be obtained only at disproportionate cost.

Ms Abbott: To ask the Secretary of State for the Home Department whether each prisoner held by the prison department has a file; whether the filing system is computerised; and if he will make a statement. [67475]

Mr. Sutcliffe: Core prisoner information is held electronically on the Inmate Information System. Prisoner paper files consist of a number of parts each serving a specific purpose, for example, a security file and an Inmate Medical Record.

Mr. Dismore: To ask the Secretary of State for the Home Department how many people are on licence from prisons in England and Wales. [87795]

Mr. Sutcliffe: At 31 December 2005 there were 25,271 people being supervised on licence by the Probation Service following their release from prison.

These figures have been drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system, and so is not necessarily accurate to the last whole number.

Dr. Vis: To ask the Secretary of State for the Home Department what IT offender assessment systems are used in private prisons; whether these are compatible with the OASys used by the prison and probation services; and whether private prisons will have access to the National Offender Management Information Systems. [21790]

Mr. Sutcliffe: Some of the private prisons are already using the HM Prison Service Offender Assessment System (OASys) IT system to record offender assessments.

National Offender Management Service (NOMS) and the contracted out prisons are working towards full use of the HMPS OASys IT system by all the private prisons and hope to achieve this before the end of the year.

Since May this year there has been full connectivity between HMPS and National Probation Service OASys systems enabling electronic transfer of all OASys offender assessments, regardless of whether they originate from public or private prisons or the probation service.

It is planned that private prisons will have full access to the C-NOMIS system, which is the replacement for the current Prison Service and probation service casework management systems.

Mr. Burstow: To ask the Secretary of State for the Home Department how many *(a)* prisoners and *(b)* other detainees have been diagnosed with HIV since 1997; and what guidance his Department has issued to prison medical officers on delivering high standard healthcare to patients. [48707]

Mr. Sutcliffe: Information about the number of prisoners and detainees with HIV is not collected centrally. Standards of health care in the publicly-run prisons are a matter for primary care trusts, which now have overall responsibility for commissioning these services. All services commissioned by the national health service, including prison health care, should comply with the Department of Health document, "Standards for Better Health", a copy of which is available in the Library and on the Department's website at:

http://www.dh.gov.uk/assetRoot/04/08/66/66/04086666.pdf

Mr. Bellingham: To ask the Secretary of State for the Home Department what assessment he has made of the availability of contraband at HMP Parkhurst; and if he will make a statement. [59204]

Mr. Sutcliffe: A number of measures are in place at Parkhurst to combat prisoner access to illicit items. These include searches of the perimeter, and of staff and visitors entering the prison, supported by passive dogs trained to detect drugs, the use of active drug dogs to search internal and external areas and CCTV in the visits area. Incoming mail is subject to close scrutiny.

Routine and targeted cell searches take place. Intelligence led and random strip searches of prisoners take place after visits. Prisoners leaving work areas are searched. Mandatory and voluntary drug testing of prisoners takes place.

Mr. Bellingham: To ask the Secretary of State for the Home Department what plans he has to extend CCTV coverage at HMP Full Sutton; and if he will make a statement. [59205]

Mr. Sutcliffe: There are currently no plans to extend CCTV coverage at HMP Full Sutton.

Mr. Bellingham: To ask the Secretary of State for the Home Department what proportion of transfers between prison establishments was due to *(a)* re-categorisation, *(b)* overcrowding, *(c)* resettlement and *(d)* other reasons in 2004-05. [62134]

Mr. Sutcliffe: The information requested is not held centrally.

Mr. Bellingham: To ask the Secretary of State for the Home Department what proportion of Independent Monitoring Board members at each prison are *(a)* under 30 years of age, *(b)* between 30 and 40 years of age, *(c)* between 40 and 50 years of age, *(d)* between 50 and 60 years of age, *(e)* between 60 and 70 years of age and *(f)* over 70 years of age. [62778]

Mr. Sutcliffe: The composition of the membership of IMBs in prisons is shown in the following table:

IMB members in prisons by age

	Under 30		*Between 30 and 40*		*Between 40 and 50*		*Between 50 and 60*		*Between 60 and 70*		*Over 70*

Note: Figures show the number of members on each board by age group and the percentage of the total number of board members this represents.

John Bercow: To ask the Secretary of State for the Home Department what discussions he has had with the Criminal Justice System Race Unit about the appropriateness of the Prison Service's rehabilitative interventions to the needs of minority ethnic and religious groups. [65588]

Mr. Sutcliffe: The Criminal Justice System Race Unit (which sits within the Office for Criminal Justice Reform and is a tri-lateral organisation reporting to the Home Secretary, Lord Chancellor and Attorney-General) makes regular reports to, and has had regular discussion, with the relevant Ministers on the activity of Prison Service and the way it impacts on different ethnic minority groups.

Mr. Bellingham: To ask the Secretary of State for the Home Department what the operational capacity is of HM Prison Latchmere House; and how many inmates are detained there. [74023]

Mr. Sutcliffe: As at 4 August 2006, the operational capacity of HMP Latchmere House was 207. The number of prisoners held at the establishment was 192.

David Davis: To ask the Secretary of State for the Home Department how many new prison places have been created in each year since 1997; and what the cost of new prison places was in each year. [77070]

John Reid: The following table provides information on the number of new prison places and an estimate of the capital building cost from 1997 onwards. This information includes places at new prisons as well as those provided at existing prisons by building

houseblocks, Ready to Use Units (RTUs) and Modular Temporary Units (MTUs). It does not take into account any places provided by subsequent overcrowding, or places taken out of use.

	Number of New Prison Places	*Capital Building Cost (£ million)*[1]
1997-98	4,716	278
1998-99	1,222	82
1999-2000	1,646	107
2000-01	640	39
2001-02	920	73
2002-03	1,780	102
2003-04	1,376	106
2004-05	2,570	257
2005-06	940	112

[1] Actual costs, not adjusted for inflation. Costs relate to the places opened in each year.

Mr. Bellingham: To ask the Secretary of State for the Home Department what discussions he has had with drug counsellors in prisons on the relative effectiveness of different drug treatment and intervention programmes across the prison estate. [78107]

Mr. Sutcliffe: The Government routinely consult with prison drug treatment workers who report positively on the ability of prison drug treatment to make a real difference for prisoners in addressing their drug dependency.

Mr. Bellingham: To ask the Secretary of State for the Home Department which prisons issue condoms to prisoners; and if he will make a statement. [78132]

Mr. Sutcliffe: Doctors in all prisons in England and Wales, in a circular letter dated 16 August 1995, were informed that they should prescribe condoms to individual prisoners, on application, if, in their clinical judgment, there was a risk of HIV infection.

The Prison Service is planning to issue revised guidance and instructions which aim to clarify the policy on condoms so that it can be applied more evenly across the prison estate.

Mr. Bellingham: To ask the Secretary of State for the Home Department what preparations have been made by the Prison Service for the introduction of custody plus and intermittent sentencing; what impact he expects the change to have on the prison population; and if he will make a statement. [78149]

Mr. Sutcliffe: In the review of the Criminal Justice System published on 20 July the Government announced that Custody Plus will not go ahead in autumn 2006 as previously planned.

Intermittent Custody has been piloted at two prison establishments. We are considering the future of Intermittent Custody in light of learning from the pilots and of the decision not to proceed with Custody Plus.

Mr. Bellingham: To ask the Secretary of State for the Home Department how many Irish nationals have been deported to the Irish Republic from HM Prison Service establishments in the last 12 months. [78168]

Mr. Byrne: Information on the number of Irish nationals deported to the Irish Republic from HM Prison Service establishments in the last 12 months is not available centrally and could be provided only at disproportionate cost through examination of individual case files. My written ministerial statement of 19 July 2006, *Official Report*, column 29WS, set out the steps the Department is taking to improve the collection of robust management information on nationality across the system as part of improving the overall system for deportation of foreign national prisoners.

Mr. McLoughlin: To ask the Secretary of State for the Home Department what steps he is taking *(a)* to reduce the number of absconders and *(b)* to capture absconded prisoners from HMP Sudbury. [79993]

Mr. Sutcliffe: The prison completes a significant number of security information reports each month, informing its security department of any suspicious activity including risk of abscond. Security intelligence is regularly followed up and a number of prisoners are returned to closed conditions each month.

All absconds are reported to the police immediately. The prison has established close links with the local police and the police liaison officer visits the establishment frequently, in addition to attending the monthly security committee meeting.

Mr. Hancock: To ask the Secretary of State for the Home Department (1) pursuant to the answer of 18 May 2006, *Official Report*, column 1220W, on prisoners, what medical guidance his Department has received from health care professionals on the transportation of prisoners; [83815]

(2) what recent discussions he has held with medical professionals about the transportation of prisoners. [83693]

Mr. Sutcliffe: The unit responsible for Prison Health within the Department of Health was included in the consultation on the specification for new escort contracts. It is a requirement for all prisoners to have their medical needs assessed by a healthcare professional prior to transportation.

Neither I nor my right hon. Friend the Home Secretary or my noble Friend the Minister for Criminal Justice and Offender Management have had any recent meetings with health care professionals about the transportation of prisoners.

Mr. Garnier: To ask the Secretary of State for the Home Department pursuant to his answer of 4 July 2006 to question 63082, on prisoners, what definition he uses of disproportionate cost. [84139]

Mr. Sutcliffe: The definition of disproportionate cost is when the cost of providing an answer is judged likely to exceed the limit of £600, 22 March 2005, *Official Report*, column 48WS.

Mr. Garnier: To ask the Secretary of State for the Home Department pursuant to his answer of 4 July 2006, *Official Report*, column 1056W, on prisons, for what reason records are not kept centrally of how

many inmates are being held in open conditions who have previously been Category A or Category B prisoners; and what assessment he has made of how this may affect his Department's ability to ensure offenders are monitored appropriately *(a)* while in custody and *(b)* subsequently upon release. [84292]

Mr. Sutcliffe: Risk assessments and subsequent decisions on a prisoner's categorisation and allocation are made at the establishment holding the prisoner. Records are therefore held at the prison and on the prisoner's individual record as the most appropriate placement so they may be readily accessed throughout custody and in preparation for release. All prisons are subject to local and national audit of their categorisation and allocation procedures with audit reports being scrutinised centrally.

Mr. Garnier: To ask the Secretary of State for the Home Department what average distance from home *(a)* female and *(b)* male prisoners were imprisoned in each of the last nine years for which figures are available. [84407]

Mr. Sutcliffe: The information requested is provided in the following table.

	Average distance from home (miles) for male prisoners	*Average distance from home (miles) for women prisoners*
1997	53	67
1998	52	63
1999	56	66
2000	55	63
2001	53	65
2002	53	64
2003	52	68
2004	51	62
2005	50	58

Note:
Figures are taken from sample data, not necessarily in the same month each year.

Mr. Ian Austin: To ask the Secretary of State for the Home Department how many prisoners are on *(a)* the mandatory drug testing programme and *(b)* the voluntary drug testing programme in the West Midlands. [85643]

Mr. Sutcliffe: All prisoners are subject to the requirements of the mandatory drug testing programme. In 2005-06, the number of voluntary drug testing compacts in place in prisons in the West Midlands was 2,682.

Michael Gove: To ask the Secretary of State for the Home Department how many carbon dioxide emission permits have been allocated to prisons in its first year of operation of the EU Emissions Trading Scheme; and what the emissions were of each prison participating in the scheme. [86454]

Mr. Sutcliffe: One permit has been allocated. The sites covered by the permit are Wymott and Garth prisons which emitted 7,360 tonnes of carbon dioxide.

Mr. Cox: To ask the Secretary of State for the Home Department why the Inner Change Programme at Dartmoor Prison has been discontinued; and if he will make a statement. [86582]

Mr. Sutcliffe: The programme was introduced as a pilot only. Following a review under Prison Service Order 4350 (Effective Regimes Interventions) the programme is currently being withdrawn. The Review Panel identified a range of concerns, the most significant being the poor quality of the manuals which did not demonstrate a structured and coherent programme, a lack of consistency and clarity about the primary aims of the programme, a lack of understanding and appropriate sensitivity to the diversity agenda of HM Prison Service, and an absence of protocols for the management of the mentor system, making it unsafe.

Dr. Vis: To ask the Secretary of State for the Home Department what plans he has to expand the capacity of the prison estate over the next 12 months. [86628]

Mr. Sutcliffe: The ongoing prison building programme will deliver 780 new places in the next 12 months. This includes 180 places which have already been built but are not yet fully open.

David Davis: To ask the Secretary of State for the Home Department pursuant to his answer of 10 July 2006, *Official Report*, column 1685W, on prisons, for which offence each prisoner who absconded from an open prison in England and Wales was originally convicted. [87300]

John Reid: In order to answer this question it would be necessary to examine each individual record. This could be done only at a disproportionate cost.

Mr. Greg Knight: To ask the Secretary of State for the Home Department which governors in the Prison Service received performance-related pay in the year ending March 2006; and if he will make a statement. [87440]

Mr. Sutcliffe: I am unable to detail which operational and senior managers, formerly known as governors, have received performance-related pay because of the provisions of the Data Protection Act 1998.

Mr. Bellingham: To ask the Secretary of State for the Home Department what involvement the hon. Member for Wythenshawe and Sale, East had in the handling of a human resources issue at HM Prison Wandsworth in October 2004. [87787]

Mr. Sutcliffe: It is not clear from the hon. Member's question to what issue he refers.

Mr. Bellingham: To ask the Secretary of State for the Home Department what representations his Department made in October 2004 to the Area Manager for London on the Service Level Agreement being developed as part of the performance testing exercise at HM Prison Wandsworth. [87788]

Mr. Sutcliffe: In announcing the results of the performance test evaluation panel, the chief executive of the National Offender Management Service asked that the Service Level Agreement (SLA) included a requirement to report on progress six months after the commencement of the SLA.

Colin Burgon: To ask the Secretary of State for the Home Department what sites the Prison Service has purchased in West Yorkshire since January 2004; how much was spent on each purchase. [87861]

Mr. Sutcliffe: No sites have been purchased in West Yorkshire.

Tim Loughton: To ask the Secretary of State for the Home Department how many children are held in prison, broken down by age and sex. [88016]

Mr. Sutcliffe: Information on the number of children under the age of 18 who are held in prison, by age and sex, is given in Table 3 of the monthly Population in Custody tables for May 2006, which are available at the following web address.

http://www.homeoffice.gov.uk/rds/pdfs06/prismay06.pdf.

These figures have been drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system, and so is not necessarily accurate to the last whole number.

Mr. Andrew Turner: To ask the Secretary of State for the Home Department which places in the ownership of his Department have planning permission for the development of a prison. [88336]

Mr. Sutcliffe *[holding answer 25 July 2006]:* The National Offender Management Service (NOMS) has an outline planning permission for a 600-place prison on the Ashworth south site at Maghull, Merseyside and a detailed permission for a 500-place prison on a site at the Isle of Wight to the west of Parkhurst Prison.

Mr. Clegg: To ask the Secretary of State for the Home Department what contingency plans he has in place to deal with the expected rise in the prison population; and what assessment he has made of the viability of using *(a)* prison ships, *(b)* Ministry of Defence facilities, *(c)* police cells and *(d)* home detention curfew to deal with this increase. [88485]

John Reid: An ongoing building programme will deliver around 900 new places at existing prisons in 2007. The prison expansion programme, announced on 20 July 2006, will deliver a further 8,000 new prison places. Contingency planning and alternative options remain under review.

Mr. Clegg: To ask the Secretary of State for the Home Department what estimate he has made of the *(a)* capital and *(b)* annual revenue cost of his plans to build 8,000 new prison places. [88486]

John Reid: Estimated capital costs for the 8,000-place expansion programme are around £1.5 billion. Estimated annual running costs are expected to be around £0.35 billion once the programme is completed.

Andrew Rosindell: To ask the Secretary of State for the Home Department what the ratio of prisoners to prison staff was at each prison in each of the last eight years; and whether he has plans to change this ratio. [88840]

Mr. Sutcliffe: The number of prisoners to each member of staff in every public sector Prison Service establishment since 1999 is contained in the following table. Ratios are set for each category of establishment but these are not based on all staff; just officer grades who are on operational duty on a particular day. The ratio specifically relates to key points in the daily regime. There are no plans to change these ratios.

Ratio of total staff to prisoners between 1999 to 2006 in prisons in England and Wales

[1] These figures have been drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large-scale recording system, and so is not necessarily accurate to the last whole number.
[2] Staffing information for the contracted estate is not collated centrally and can be obtained only at disproportionate cost. Contracted prisons have therefore been excluded from the table.
[3] The staffing figures used in these calculations relate only to staff directly employed by the public sector Prison Service.

Andrew Rosindell: To ask the Secretary of State for the Home Department what the total capacity of prisons in England and Wales was in each of the last eight years. [88841]

Mr. Sutcliffe: The information requested is shown in the following table.

Month/year	*Operational capacity*
June 1998	67,019
June 1999	68,114
June 2000	69,487
June 2001	69,341
June 2002	71,912
June 2003	74,696
June 2004	76,227
June 2005	77,726
June 2006	79,449

Mr. Don Foster: To ask the Secretary of State for the Home Department how many people have been sent to prisons in England and Wales in each of the last eight years. [88843]

Mr. Sutcliffe: The number of persons sentenced to immediate custody in England and Wales is published in "Sentencing Statistics 2004, England and Wales", (Home Office Bulletin No 15/05), Table 2.4 (page 25) and is on the Home Office website at:http://www.homeoffice.gov.uk/rds/pdfs05/hosb1505.pdf
Although care is taken in collating and analysing the returns used to compile such figures, the data are of necessity subject to the inaccuracies inherent in any large-scale recording system. Consequently, although some figures may be shown to the last digit in order to provide a comprehensive record of the information collected, they are not necessarily accurate to the last digit shown. We have started a programme of work in the Home Office looking at the quality of existing court sentencing data and how this might be improved.

Lynne Featherstone: To ask the Secretary of State for the Home Department what security checks are carried out on casual staff working in the Prison Service; and if he will make a statement. [88886]

Mr. Sutcliffe: Casual employees are subject to the same checks as those for permanent employees and include checks on: identity; proof of address; entitlement to work in the UK; criminal record check; references; qualifications and where appropriate, national security vetting.

Andrew Rosindell: To ask the Secretary of State for the Home Department how many prisoners do not have British citizenship. [88916]

Mr. Sutcliffe: Information on the number of foreign national prisoners serving an immediate custodial sentence in prison establishments in England and Wales is given in table 8.28 of the web tables of Offender Management Caseload Statistics 2004, available at the following address http://www.homeoffice.gov.uk/rds/omcs.html. These figures have been drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large-scale recording system, and so is not necessarily accurate to the last whole number.

Susan Kramer: To ask the Secretary of State for the Home Department what the Prison Service's strategy is for tackling bullying in the workplace. [88936]

Mr. Sutcliffe: The public sector Prison Service's policy on tackling bullying is set out in Prison Service Order (PSO) 8010 "Equal Opportunities". This makes clear that staff have the right to make complaints about bullying; and that managers have responsibility for ensuring a workplace free from bullying and for dealing with any complaints they receive. PSO 8460 "Conduct and Discipline" describes the procedures to be followed where allegations of bullying require formal investigation and identifies bullying as gross misconduct which, depending on the circumstances of the case, may result in dismissal from the Service. Copies of all PSOs are available in the Library of the House.

Mr. Clegg: To ask the Secretary of State for the Home Department what plans he has for *(a)* reducing the energy output of existing prisons and *(b)* minimising the energy output of new prisons; and if he will make a statement. [88941]

John Reid: It is planned to reduce energy consumption across the public sector prison estate in England and Wales in 2006-07 by 4.44GWh. This equates to a reduction of 1,675 tonnes in carbon dioxide emissions.

All newly built prison buildings must conform to the building regulations, in particular Part L (conservation and power). However, a significant proportion of new prison buildings will go beyond these requirements.

Andrew Rosindell: To ask the Secretary of State for the Home Department how much additional capacity he plans to create in prisons; and if he will make a statement. [89098]

Mr. Sutcliffe: An ongoing building programme will deliver around 900 new places at existing prisons between July 2006 and 2007. This includes 180 places which have already been built but are not yet fully open.

The prison expansion programme, announced on 20 July 2006, will deliver a further 8,000 new prison places.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many rapes have been reported in each prison in England and Wales in each of the last five years, broken down by sex of victim. [88888]

Mr. Sutcliffe: An alleged rape is recorded on the central incident reporting system under the category of sexual assault. All such incidents are reported to the police for investigation. There were 79 reports of alleged rape in the last five calendar years. The following table provides a breakdown of alleged rapes by the gender of the victims and by the prison.

Alleged rapes by prison in England and Wales and gender of victim between 2001 and 2005

Prison	*Gender*
2001

Mr. Clegg: To ask the Secretary of State for the Home Department what percentage of people imprisoned on remand pending trial were subsequently *(a)* acquitted and *(b)* given a non-custodial sentence in the last period for which figures are available. [87146]

John Reid: The information requested is contained in Chapter 4 of "Criminal Statistics 2004" which can be found at: http://www.homeoffice.gov.uk/rds/pdfs05/hosb1905.pdf.

Table 4.8 on page 82 gives figures for the numbers of defendants remanded in custody by final court outcome.

Figures for 2005 will be published in the autumn of 2006.

Probation Service

Mr. Gerrard: To ask the Secretary of State for the Home Department what the probation budget is for 2006-07, broken down by area; and what the figures were for 2005-06. [88005]

Mr. Sutcliffe: The Probation Board's annual budget for 2005-06 was £786,468,759 and this figure represents the Board's final budget position at the end of the financial year. It includes all relevant budget adjustments which were made during the year. The budget figure for 2006-07, of £818,004,241, is the first quarter allocated position and is therefore subject to further changes during the course of the year. A table showing the breakdown by area Board for both years follows.

£

Board	*2005-06*	*Revenue budget 2006-07*[1]
Avon and Somerset	18,272,900	18,978,122
Bedfordshire	8,180,000	8,575,071
Cambridgeshire	8,880,000	9,257,282
Cheshire	15,367,000	13,869,551
Cumbria	7,458,500	7,872,810

North Wales	11,012,500	11,354,055
South Wales	23,106,246	23,599,355
Total	786,468,759	818,004,241

[1] Subject to further changes.

Mr. Gauke: To ask the Secretary of State for the Home Department what measures the Department routinely takes to monitor the whereabouts of *(a)* murderers, *(b)* rapists and *(c)* paedophiles released from prison; and what assessment he has made of the efficacy of these measures. [67681]

Mr. Sutcliffe *[holding answer 3 May 2006]*: Any offender sentenced to 12 months' imprisonment or more is subject to probation supervision and to licence conditions. The offender must adhere to any conditions attached to the licence, including standard conditions set in all cases, which require him to remain in contact with his supervising officer and live at a suitable address. Any offender in breach of licence conditions risks recall to prison. Although it is not possible from national data to categorise the breaches in question, the probation service has achieved a significant improvement in performance in relation to all breaches of licence conditions. Its target is to enforce 90 per cent. of breaches overall within 10 working days. In 1997-98 the enforcement rate for licences stood at 34 per cent. It is now 93 per cent.

In addition, any offender subject to sex offender registration requirements is required to notify to the police a home address within three days of leaving prison, and to notify any subsequent change of address within three days of the change thereafter while still subject to registration. Failure to supply that information, or supplying false information, is an offence punishable by up to five years imprisonment. Registration requirements were strengthened recently by the Sexual Offences Act 2003.

Enforcement of licences by the probation service

	Enforced within 10 days	Percentage Enforced whether or not within 10 days
1997-98	34	—
1998-99	51	—
2001-02	58	66
2002-03	63	74
2003-04	79	83
2004-05	85	88
2005-06[1]	93	95

[1] April 2005 to February 2006.

Note:
National Standards for the Supervision of Offenders in the Community require breach or recall action to be taken on or before a third unacceptable failure to comply with a licence and for this action to be initiated within 10 working days of the relevant failure.

David T.C. Davies: To ask the Secretary of State for the Home Department how the figures recently published in *The Daily Telegraph* and obtained from an internal Home Office document concerning the number of offences per week committed by offenders under supervision to the Probation Service were calculated. [75579]

Mr. Sutcliffe: The measure records subsequent contact with the criminal justice system by offenders who were under probation service supervision at a particular point in time. It is based on matching offenders who are recorded as being under supervision at the end of a given quarter with the Police National Computer (PNC). Once offenders are matched, automated programmes search for whether the offenders had an entry on the PNC in the two months following the end of the quarter. The PNC entries could be for (i) arrest, charge, summons, or report, and/or (ii) conviction, and/or (iii) caution. It does not show weekly data, only monthly summaries. The bulk of the entries are not proven offences; an arrest or charge cannot be equated with admission or proof of guilt. These data are in development, and are released as experimental statistics. At the moment, they have not been assessed as fit for purpose and could be inaccurate or misleading. The assessment of accuracy and fitness will proceed during the financial year 2006-07.

Mr. Clegg: To ask the Secretary of State for the Home Department pursuant to his answer of 5 July 2006, *Official Report*, columns 1093-94W, on life sentences, when the Probation Service lost contact with the offender who has been out of contact for more than 10 years. [84721]

John Reid: Probation Service contact with the offender in question was lost in 1984 when he is believed to have left the UK.

Mr. Clegg: To ask the Secretary of State for the Home Department (1) whether the relevant probation service informed the Recalls Section at his Department of every lifer who was released on licence and subsequently absconded; [88488]

(2) how many *(a)* discretionary lifers and *(b)* mandatory lifers released on licence subsequently absconded in each of the last five years. [88490]

John Reid: Probation areas are expected to notify breaches of life licence conditions in relation to individual cases, including loss of contact. Extracting the requested specific information through the examination of the individual files of each life licensee could be obtained only at disproportionate cost and would necessitate removing caseworkers from the business of managing offenders to carry out this work.

Mr. Graham Stuart: To ask the Secretary of State for the Home Department how many people in *(a)* England and *(b)* Beverley and Holderness were returned to prison after violating their probation conditions in each year since 2000; and if he will make a statement. [63509]

Mr. Sutcliffe: Information on the number of persons recalled to prisons in England and Wales *(a)* from Home Detention Curfew, *(b)* from licence following determinate sentences of four years or more, (c) from life licence, and (d) from ACR licence can be found in tables 10.7 to 10.9, and paragraph 10.12 respectively, of Home Office Statistical Bulletin 17/05: "Offender Management Caseload Statistics, England and Wales, 2004". Copies of this publication can be found in the Library.

These figures have been drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system, and so is not necessarily accurate to the last whole number.

Information is not available on a constituency or regional basis.

Mr. Lidington: To ask the Secretary of State for the Home Department how many *(a)* former convicted prisoners and *(b)* foreign national former convicted prisoners are subject to supervision in the community following their release. [67660]

Mr. Sutcliffe: At 31 December 2005 there were 25,600 (rounded to the nearest 100) offenders under post-release supervision in England and Wales. It is not known how many of these were foreign nationals as, while the Probation Service routinely records the ethnic origin of offenders in accordance with agreed CJS codings, the nationality of offenders is not systematically recorded and there is no national framework for doing this.

Production Orders

Norman Baker: To ask the Secretary of State for the Home Department how many production orders were used by police in the last year for which figures were available to obtain information about individuals from *(a)* solicitors, *(b)* accountants, *(c)* banks and *(d)* others. [68464]

Mr. McNulty: Information on the number of production orders issued under the Proceeds of Crime Act 2002 is not held centrally.

Public Appointments

Mr. Amess: To ask the Secretary of State for the Home Department how many public appointments are within his patronage; what *(a)* salary and *(b)* other emoluments are attached to each; and what the comparable figures were in (i) 1976, (ii) 1986 and (iii) 1996. [83176]

Mr. Byrne: Details of the public appointments to public bodies sponsored by the Home Office can be found in "Public Bodies", copies of which are in the Library. "Public Bodies" has been published annually since 1980 and the most recent edition provides figures for 2005. Each edition of "Public Bodies" contains details on the number of public appointments and remuneration details for that particular year. Comparable information for 1976 in respect of the Home Office could be provided only at disproportionate cost.

Public Bodies

Mr. Clegg: To ask the Secretary of State for the Home Department if he will make a statement on the work of the *(a)* Community Development Foundation and *(b)* Community Policy Directorate. [88952]

Hilary Armstrong: I have been asked to reply.

The Community Development Foundation (CDF) has a long track record of success since its inception in 1968. It is currently embarking on a three-year forward programme to enhance community development and capacity building by focusing on strong communities, community engagement and community cohesion. It reports on past performance and provides a variety of publications both about its own work and about the community development as a whole.

The responsibilities of the former Community Policy Directorate (latterly Communities Group of the Home Office) have been divided, following the Cabinet reshuffle on 5 May, between the Department for Communities and Local Government, who will be responsible for sponsorship of the CDF and the Office of the Third Sector in the Cabinet Office.

Public Order

Mr. Spring: To ask the Secretary of State for the Home Department how many offenders were found guilty of *(a)* drunk and disorderly behaviour and *(b)* drunk and aggravated behaviour in the West Suffolk constituency in each year since 1997. [85502]

Mr. Sutcliffe: Data from the court proceedings database held by the Office for Criminal Justice Reform on the number of offenders found guilty of offences classified as drunkenness with aggravation (which includes drunk and disorderly) in Suffolk police force area, 1997-2004, are given in the following table. It is

not possible to identify those found guilty of the aforementioned offences in West Suffolk constituency, as the data is not collected at this level of detail. Court statistics for 2005 will be available in autumn 2006.

Number of offenders found guilty at all courts for offences relating to drunkenness in Suffolk Police Force Area[1, 2]

	Offence description: Drunkenness with aggravation[3]
1997	254
1998	194
1999	197
2000	202
2001	244
2002	301
2003	317
2004	293

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] Includes the offence of "drunk and disorderly" [Criminal Justice Act 1967 Sec. 91] and other miscellaneous offences of drunkenness with aggravations. *Source:* Office for Criminal Justice Reform.

In addition to this, the penalty notice for disorder (PND) scheme was brought into effect in all police forces in England and Wales during 2004. Under the scheme the police are able to issue persons committing specified minor offences with a fixed penalty notice. No admission of guilt is required and payment of the penalty discharges all liability for the offence. In 2004, 267 penalty notices were issued in Suffolk for the offence of being drunk and disorderly; provisional data show that 768 PNDs were issued in 2005. It is not possible to identify how many PNDs for these offences were issued in West Suffolk constituency, as the data is not collected at this level of detail.

Sarah Teather: To ask the Secretary of State for the Home Department how many *(a)* acceptable behaviour contracts, (b) dispersal orders and *(c)* fixed penalty notices were issued in each London borough in each of the last five years. [87708]

Mr. McNulty: The data for acceptable behaviour contracts, dispersal orders and fixed penalty notices is not available in the form requested. However, for the last two years the Home Office Anti-social Behaviour Unit has carried out a survey of Crime and Disorder Reduction Partnerships in England and Community Safety Partnerships in Wales asking about their actions taken to tackle antisocial behaviour. From those who responded to the surveys the results are as follows:

5,094 acceptable behaviour contracts were issued from 1 October 2003 to 30 September 2004.

8,654 acceptable behaviour contracts were issued from 1 October 2004 to 30 September 2005.

A Home Office data collection exercise carried out in July 2005 estimated that between January 2004 and June 2005 809 areas were designated as dispersal areas. From April 2006 the Home Office will be collecting information on dispersal powers on a quarterly basis.

In 2004, 12,818 penalty notices were issued in London and provisional data shows that 17,915 were rolled out to all police forces in England and Wales during 2004-05. It is not possible to provide details of how many penalty notices for disorder were issued in each of the five London boroughs.

Racist Incidents

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people have been *(a)* charged with and *(b)* convicted of racial abuse in each London borough in each of the last five years. [83678]

Mr. McNulty: As there is no specific offence of racial abuse, the information requested is not available.

David Davis: To ask the Secretary of State for the Home Department how much the establishment of the new Yorkshire 0800 telephone line for the reporting of racial incidents is expected to cost; and how the operation of the line is to be funded. [88593]

John Reid: The Helpline for reporting racial incidents in Yorkshire and the Humber is a pilot study commissioned by the Home Office in consultation with the Racist Incidents Group, an independent group chaired by Iqbal Bhana and supported by the Home Office. The Home Office has provided funding to the Leeds Racial Harassment Project of £55,000 for the period of the pilot study and a further £3,500 has been provided by the Safer Leeds Partnership. The cost of setting up the 0800 telephone line is approximately £4,000.

Sir Peter Soulsby: To ask the Secretary of State for the Home Department how many racist incidents were *(a)* reported in the Leicestershire Constabulary Central Area and *(b)* resulted in convictions in each of the last three years for which figures are available. [86372]

Mr. Coaker: The following table shows the number of racist incidents recorded by the police in Leicestershire as a whole for the last three years for which figures are available.

Racist incidents in Leicestershire

	Number
2002-03	1,181
2003-04	1,284
2004-05	1,436

The number of convictions relating to these incidents is not available as the incidents included here relate to a range of activity and are wider than the normal definition of crime.

Recidivism

Lynne Featherstone: To ask the Secretary of State for the Home Department what the re-conviction rate has been in each year since 1997. [88538]

Mr. Sutcliffe: The most recent re-offending data for adults were published in "Re-offending of adults: results from the 2002 cohort" which is available through the Home Office's website http://www.homeoffice.gov.uk/rds/index.htm. The report shows the proportion of offenders who were released from prison or commenced a community sentence and

were subsequently proven to have re-offended within two years. Results are given for 2000 and 2002. Reconviction data for the years 1997 to 2000 were published in "Prison statistics England and Wales 2002" and "Probation statistics England and Wales 2002".

Data for 2001 were published in "Offender Management Caseload Statistics 2003". These publications are available on the Home Office website. The measure used to calculate reconviction was changed in 2005. This means that the data in the "Re-offending of adults: results from the 2002 cohor" report cannot be directly compared to the earlier publications. The differences are explained in the section "Measuring Re-offending" which begins on page 1.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many individuals released from a secure training or custody facility have *(a)* been reconvicted and *(b)* received a (i) reprimand, (ii) final warning and (iii) caution within a year of release in each of the last five years. [88567]

Mr. Sutcliffe: The information requested is not routinely collected. Information on one-year reoffending rates of juveniles released from custody in 2004 is available in Table A6 of "Re-offending of juveniles: results from the 2004 cohort" available at: www.homeoffice.gov.uk/rds/pdfs06/hosb1006.pdf Information on one-year reoffending of adults released from prison or starting community sentences in 2002 is available in Table A1 of "Re-offending of adults: results from the 2002 cohort" available at: http://www.homeoffice.gov.uk/rds/pdfs05/hosb2505.pdf Table A5 gives two-year re-offending rates for those released from prison. Please note that the aforementioned publications include information on offending that subsequently led to conviction and do not include information on offending that led to pre-court disposals (for juveniles, pre-court disposals include reprimands and final warnings; for adults, they include cautions).

Removals

Mr. Laws: To ask the Secretary of State for the Home Department how many *(a)* asylum seekers and *(b)* other non-UK citizens have been asked by his Department and its agencies to leave the UK in each year since 1997; how many have left in each year; and if he will make a statement. [73420]

Mr. Byrne: Information relating to the number of asylum seekers and non-asylum cases who have had enforcement action initiated against them and who have been removed is published in Table 6.1 of the "Control of Immigration: Statistics United Kingdom 2004" Command Paper.

Published statistics on immigration and asylum, including the Command Paper, are available on the Home Office's Research Development and Statistics website at:http://www.homeoffice.gov.uk/rds/immigration1.html

Road Safety

Chris Grayling: To ask the Secretary of State for the Home Department how many motorists have been prosecuted for offences committed while driving on motorways, excluding speeding offences registered by speed cameras, in each of the past 10 years. [82312]

Mr. Coaker: The only offences identified within the Court Proceedings Database held by the Office for Criminal Justice Reform that are specific to motorways are "excluded traffic using motorway" [Road Traffic Regulation Act 1984 s. 17 (4)]; and "various offences (driving, stopping etc. by vehicles on the motorway (Motorways Traffic (England and Wales) Regulations 1982 Regs. 5-12 and users failing to keep animal under control Regs. 14". These data are given in the table.

All other offences committed on motorways cannot be identified from the data held centrally either because the offence as defined in legislation is not specific to any grade/type of road (e.g. speeding) or because it is not identified separately, and grouped together with other miscellaneous motoring offences.

Available information on proceedings at magistrates courts for offences specific to motorway (other than speeding) from 1995 to 2004 (latest available), is given in the following table.

2005 data will be available early in 2007.

Proceedings at magistrates court for motorway offences[1] (other than speeding), England and Wales, 1995-2004

	Number of offences
1995	5,700
1996	4,900
1997	3,400
1998	3,000
1999	2,500
2000	3,200
2001	2,500
2002	2,900
2003	2,400
2004	3,000

[1] Offences under—Road traffic regulation Act 1984 S.17(4)—excluded traffic using motorway. Motorways traffic (England and Wales) Regulations 1982 Regs. 5-12: various offences (driving, stopping etc. vehicles on motorways): Regs. 14 - Motor user failing to keep animal under control.

Royal Parks Constabulary

Lynne Featherstone: To ask the Secretary of State for the Home Department how much has been allocated in connection with the merger of the Royal Parks constabulary into the Metropolitan police for *(a)* modifications to buildings and furnishings, *(b)* stationery, *(c)* vehicle re-branding, *(d)* replacement of uniforms and *(e)* other costs; from what budgets the resources will be drawn; and if he will make a statement. [75688]

Mr. McNulty: The Government have agreed with the Metropolitan police an annual payment for the operating cost of policing the Royal Parks. In addition a sum of £1.35 million has been paid by the Royal Parks Agency to the Metropolitan police towards start-up costs of training and equipment to bring the service in line with that provided more widely by the Metropolitan police.

The DCMS will ensure the operating cost provision will be transferred from the Royal Parks to the Home Department.

Rural Police Stations

Mr. Paice: To ask the Secretary of State for the Home Department how many rural areas had a permanently staffed police station in each year since 1997. [85216]

Mr. McNulty: This information is not held centrally.

Safer Neighbourhood Teams

Sarah Teather: To ask the Secretary of State for the Home Department when he expects every Safer Neighbourhood Team in London to have its full complement of police officers and community safety officers. [87240]

Mr. McNulty: The Metropolitan Police Service aims to have a full complement of police officers and police community support officers in all safer neighbourhood teams by 31 December 2006.

Currently, dedicated safer neighbourhood teams comprising of a minimum of four staff—one sergeant, one constable and two PCSOs—are operating in all of London's 624 wards. By the end of December 2006 every team will have a minimum of one sergeant, two constables and three PCSOs.

Sarah Teather: To ask the Secretary of State for the Home Department when all safer neighbourhoods teams in Brent are expected to reach their full complement of staff. [87710]

Mr. McNulty: The Metropolitan Police Service expect the safer neighbourhoods teams in the London borough of Brent to receive a full complement of staff by the end of December 2006. This will mean that all the teams in Brent will have a minimum of one sergeant, two police constables and three police community support officers.

Safer Parking Scheme

Lynne Featherstone: To ask the Secretary of State for the Home Department which car parks have achieved the Safer Parking Scheme Park Mark award; and if he will make a statement. [88645]

Mr. McNulty: The British Parking Association, who manage the safer parking scheme on behalf of the Association of Chief Police Officers, advise that on 21 July 2006 there were 2,156 car parks within England and Wales holding the scheme's Park Mark award. The location of each of these is on a list which I have placed in the Library today.

The Home Office believes significant improvements should be made in car park safety. The industry is responding to this challenge and I do not think it is currently necessary for the Government to develop proposals to change the law relating to car parks so as to achieve a reduction in crime. But I will want to review the position in about 12 months' time to ensure the industry achieves the improvements that the Government expect.

Sakchoi Macao

Mr. Carmichael: To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* Immigration and Nationality Directorate staff were present at the removal of Sakchoi Macao on 6 June 2006; where the officers are normally based; and what the cost was of the transportation of these officers to and from Shetland. [76868]

Mr. Byrne *[holding answer 12 June 2006]:* Three police officers and two Immigration and Nationality Directorate staff were present during the operation to detain the individual concerned. These officers are normally based in Shetland and Aberdeen. The costs incurred in the transportation of officers from Aberdeen to Shetland and back were £990.

Security Passes

Simon Hughes: To ask the Secretary of State for the Home Department how many security passes have been reported *(a)* lost and *(b)* stolen by staff in his Department by year since February 2004. [88562]

Mr. Byrne: The number of Home Office passes reported lost or stolen in 2004 was 321. The number reported in 2005 was 292 (lost) and 18 (stolen) and in 2006 to end of June 155 (lost) and three (stolen).

Security Services (Imprisonment)

Lynne Featherstone: To ask the Secretary of State for the Home Department how many *(a)* former and *(b)* current employees (excluding agents) of (i) MI5 and (ii) MI6 have been imprisoned in the UK in each of the last five years. [87805]

Mr. McNulty: No current employee of the Security Service or the Secret Intelligence Service has been imprisoned in the UK in the last five years.

Records are not routinely kept on former employees, but we know of two instances of former employees being imprisoned in the last five years.

Sentencing

Mr. Carmichael: To ask the Secretary of State for the Home Department (1) how many convictions for drink driving resulted in custodial sentences in 2005, broken down by police authority; [84448]

(2) how many convictions for *(a)* drink driving and *(b)* each other motoring offence resulted in custodial sentences in each year since 1997, broken down by sex; and what percentage each figure represents of the total number of convictions resulting in custodial sentences. [84449]

Mr. Coaker: Data on convictions for drink driving resulting in custodial sentences in 2005 by police force area is not yet available.

Information taken from the Court Proceedings Database held by the Office for Criminal Justice Reform on convictions and custodial sentences for drink driving and other motoring offences as a proportion of total custodial sentences for all offences for 1997 to 2004 (latest available) is given in the following table. Data for 2005 will be available early in 2007.

Table H: Number of persons[1] found guilty and sentenced to immediate custody[2] at all courts for motoring offences, by sex and individual offence and as a proportion of all offenders given immediate custody, England and Wales, 2004

Number of persons

	Male			Female		
Offence	*Total found guilty*	*Immediate custody*	*Males given immediate custody as a percentage of all persons given immediate custody*	*Total found guilty*	*Immediate custody*	*Females given immediate custody as a percentage of all persons given immediate custody*
Total number of persons given immediate custody for all offences = 106,322						
Percentage = 100%						
Total Motoring Offences	132,971	20,224	19.0	13,885	538	0.5
Driving etc. after consuming alcohol or taking drugs:	76,416	2,858	2.7	10,169	125	0.1
Unfit to drive through drink or drugs (impairment)	1,375	103	0.1	193	12	0.0
Driving with alcohol in the blood above the prescribed limit	65,405	2,242	2.1	8,650	103	0.1
Driving & failing to provide specimen for analysis (breath, blood or urine)	6,706	410	0.4	958	8	0.0
In charge of a motor vehicle while unfit through drink or drugs (impairment)	377	13	0.0	55	1	0.0
In charge of motor vehicle, with alcohol in the blood above the prescribed limit	1,448	53	0.0	157	1	0.0
In charge of motor vehicle, and failing to provide specimen for analysis (breath, blood or urine)	800	35	0.0	110	[4]	[4]
Failing to provide specimen for initial breath test	305	2	0.0	46	[4]	[4]
Other motoring offences	56,555	17,366	16.3	3,716	413	0.4
Causing death by dangerous driving	228	213	0.2	13	8	0.0
Causing death by careless driving under influence of drink or drugs	58	55	0.1	4	4	0.0
Causing death by aggravated vehicle taking	10	7	0.0	1	1	0.0
Causing bodily harm	11	7	0.0	2	[4]	[4]
Dangerous driving	5,169	2,268	2.1	191	38	0.0
Failing to stop after accident, etc.	3,900	65	0.1	649	3	0.0
Failing to report accident within 24 hours	1,185	5	0.0	241	[4]	[4]
Failing to give name and address after accident	161	1	0.0	21	[4]	[4]
Aggravated vehicle taking—driving dangerously, causing injury or damage	3,213	1,192	1.1	144	10	0.0
Aggravated vehicle taking—criminal damage of £5,000 or under	1,564	347	0.3	103	6	0.0
Unauthorised taking or the theft of a motor vehicle	5,434	1,135	1.1	313	22	0.0
Theft of a motor vehicle	964	292	0.3	28	4	0.0
Driving while disqualified	31,882	11,763	11.1	1,684	316	0.3
Driving after false declaration as to physical fitness etc.	4	1	0.0	[4]	[4]	[4]
Fraud and forgery—driving licence	77	1	0.0	9	[4]	[4]
Fraud and forgery—insurance certificate	337	8	0.0	15	[4]	[4]
Fraud and forgery—registration & licensing	1,533	1	0.0	198	[4]	[4]
Fraud and forgery—work records	368	3	0.0	2	[4]	[4]

Table H Number of persons[1] found guilty and sentenced to immediate custody[2] at all courts for motoring offences, by sex and individual offence and as a proportion of all offenders given immediate custody, England and Wales, 2004

Number of persons

	Male			Female		
Offence	*Total found guilty*	*Immediate custody*	*Males given immediate custody as a percentage of all persons given immediate custody*	*Total found guilty*	*Immediate custody*	*Females given immediate custody as a percentage of all persons given immediate custody*
Failing to give name and address etc. when required	457	2	0.0	98	1	0.0

[1] These data are based on the principal offence basis.
[2] Immediate custody = Detention and Training Order, Detained under s90-92 Powers of Criminal Courts (Sentencing) Act 2000, Young Offender Institution & Unsuspended sentence of imprisonment.
[3] 0.0 = less than 0.05 per cent.
* = nil.

Notes.
Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Andrew Rosindell: To ask the Secretary of State for the Home Department what the average prison sentence, not including life sentences, was in the last period for which figures are available. [88838]

Mr. Sutcliffe: The average custodial sentence length for all offences at all courts in England and Wales, excluding life sentences, was 12.9 months in 2004, the latest year for which data are currently available. This figure is published in "Sentencing Statistics 2004, England and Wales", (Home Office Bulletin No. 15/05), Table 2.14 and is on the Home Office website at: http://www.homeoffice.gov.uk/rds/pdfs05/hosb1505.pdf Although care is taken in collating and analysing the returns used to compile such figures, the data are of necessity subject to the inaccuracies inherent in any large-scale recording system. Consequently, although some figures may be shown to the last digit in order to provide a comprehensive record of the information collected, they are not necessarily accurate to the last digit shown. We have started a programme of work in the Home Office looking at the quality of existing court sentencing data and how this might be improved.

Andrew Rosindell: To ask the Secretary of State for the Home Department how long on average non-life sentenced prisoners served in the last five years; for what reasons prisoners may not serve their full sentence; and if he will make a statement. [88914]

Mr. Sutcliffe: Information on the average length of time served by prisoners on non-life determinate sentences can be found in table 10.1 of the "Offender Management Caseload Statistics 2003 and 2004", and tables 3.13, 3.14, and 4.11 of "Prison Statistics in England and Wales 2000 to 2002". Copies of these publications are available in the House of Commons Library. The figures provided in these tables were drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large-scale recording system, and so is not necessarily accurate to the last whole number. Under the Criminal Justice Act 1991, those sentenced to determinate sentences of four years or more are eligible for parole halfway through their sentence. If parole is not granted then release occurs at the two-thirds point of the sentence (or at a subsequent parole review if earlier). Prisoners sentenced to determinate terms of under four years under the 1991 Act, are generally released automatically at the half way point of their sentence. The Criminal Justice Act 2003 introduced new arrangements for prison sentences. They apply only to offences committed on or after 4 April 2005. A new indeterminate public protection sentence was introduced. Those offenders judged to be dangerous, and who have committed serious sexual or violent offences, can be kept in prison until the Parole Board judges it is safe to release them. If they have committed less serious offences they may serve a determinate sentence followed by an extended period on licence after release of up to eight years for sexual offences and five years for violent offences. Other determinate sentence prisoners will be released automatically at the halfway point of their sentence. The Home Detention Curfew scheme (HDC) has been in operation since January 1999. Subject to meeting the eligibility criteria and passing a careful risk assessment, prisoners serving sentences of between three months and less than four years may be released up to four and a half months (135 days) early from prison subject to an electronically monitored curfew normally between 7 pm and 7 am. Information on the numbers of prisoners released under Home Detention Curfew (HDC) can be found in table 10.3 in the "Offender Management Caseload Statistics 2004".

Dr. Julian Lewis: To ask the Secretary of State for the Home Department whether sentences for terms of up to *(a)* eight, *(b)* 12, *(c)* 15 and *(d)* 18 years have continued to be imposed since the introduction of unlimited sentences. [88845]

Mr. Sutcliffe: Since the introduction of indeterminate sentences for public protection courts may still impose determinate sentences of any length within the statutory maximum for that offence.

The indeterminate sentence for public protection was introduced by the Criminal Justice Act 2003 and

commenced on 4 April 2005. Statistics for the number of determinate sentences of eight, 12, 15 and 18 years imposed since then are not yet available.

Dr. Julian Lewis: To ask the Secretary of State for the Home Department (1) whether it is his policy that judges will continue to be required to halve the minimum term when setting the earliest release date for prisoners serving specific sentences; [88846]

(2) for what reasons minimum terms are halved when setting earliest release dates. [88847]

Mr. Sutcliffe: When judges announce unlimited sentences they explain the minimum term that an offender might serve. To calculate this they start from how long the sentence would be if they were setting a determinate sentence and then halve it because only half of a determinate sentence is spent in custody.

Very few offenders who receive unlimited sentences will be released so early; it is simply the earliest point at which they can be considered for release by the Parole Board.

We announced last week, as part of the Criminal Justice Review, our intention to consult on how we can make sentencing clearer, and on ending the requirement that judges automatically halve the minimum term for those serving unlimited sentences, and on how they should set the first possible date for parole.

Dr. Julian Lewis: To ask the Secretary of State for the Home Department what research he has *(a)* commissioned and *(b)* evaluated on the impact of the prospect of (i) 50 per cent. and (ii) other sentence reductions on behaviour of offenders in custody; and if he will publish the conclusions of such work. [88848]

Mr. Sutcliffe: No research has been carried out on the impact of (i) calculating minimum terms by halving the appropriate determinate sentence, or (ii) any other sentence reduction given by courts, on the behaviour of offenders in custody.

Serious Crime Prevention Orders

Simon Hughes: To ask the Secretary of State for the Home Department what the estimated cost is of the new serious crime prevention orders. [88719]

Mr. Coaker: The regulatory impact assessment accompanying the consultation document on new powers against organised and financial crime estimates the average cost of obtaining one order in a contested hearing will be around £40,000 to the applicant, and, if the proposed subject of the order is on legal aid, at most another £40,000 in legal aid bills. Any appeal hearing against the granting of an order is likely to cost approximately the same again to both the applicant and the legal aid budget.

We have not estimated the total cost of the new orders, as this will depend on the number applied for.

Serious Organised Crime/Terrorism

Mr. Hancock: To ask the Secretary of State for the Home Department (1) pursuant to the answer of 13 July 2006, *Official Report*, column 2020W, on Colombia, what the Freedom of Information Act 2000 grounds are for his refusal to provide details of *(a)* the duties carried out by UK police officers in Colombia, *(b)* the number of police officers based in Colombia and *(c)* with which Colombian agencies officers of the Serious and Organised Crime Agency work; [88233]

(2) for what reasons the operational deployment of police officers and Serious and Organised Crime Agency staff cannot be commented upon by Ministers in his Department; and when that became policy. [88344]

Mr. Coaker: It would not be appropriate to comment on the operational deployment of SOCA staff in Colombia due to the discreet and often covert nature of their role. This has been the agreed policy since SOCA came into being on 1 April 2006.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people have been *(a)* arrested, *(b)* charged and await trial and *(c)* convicted following an investigation by the Serious Organised Crime Agency since its inception. [88449]

Mr. Coaker: Since it assumed its functions on 1 April 2006, SOCA has run a number of investigations, some of which it has inherited from precursor agencies and some of which it has initiated itself. It has also assisted others, at home and abroad, in their enforcement activities. In accordance with section 7(1) of the Serious Organised Crime and Police Act 2005, SOCA will issue a report on the exercise of its functions during the year as soon as possible after the end of the financial year.

Tim Farron: To ask the Secretary of State for the Home Department what plans his Department has to improve the ability of police forces to co-ordinate activities to combat serious organised crime and terrorism. [87263]

Mr. McNulty *[holding answer 24 July 2006]*: Schedule 10 to the Police and Justice Bill will enable the Secretary of State to confer a new function on police authorities "to secure that arrangements are made for (their) force to co-operate with other police forces whenever necessary or expedient".

In addition, I will shortly be writing to police forces and police authorities setting out the next steps in the light of the decision not to proceed with enforced police force mergers. I will be inviting forces and authorities to consider how improvements in protective services might be achieved through greater collaboration and co-operation.

I have also dedicated an extra £33 million extra this year and £65 million the year after to expand the police specialist counter terrorism capacity outside London. This is in addition to an extra £30 million this year and £45 million next year for the Metropolitan police. This will help strengthen the police service's intelligence and

investigative capability and capacity and complements the additional funding awarded to the security and intelligence services.

Sex Offenders

Mr. Clegg: To ask the Secretary of State for the Home Department how many sex offenders are *(a)* required to register with the police and *(b)* registered with the police; and if he will make a statement. [80406]

John Reid: All sex offenders who meet the notification requirements of the Sex Offender Act 1997, as updated by the Sexual Offences Act 2003, are required to notify certain personal information, for example their address, to the police.

Following conviction for a relevant offence, a certificate of conviction recording the notification requirement is forwarded to the police by the court. The police will note the requirement on the Violent and Sex Offenders Register. The offender's Violent and Sex Offenders Register entry will be updated when he actually registers and, if he fails to do so as required, he will be flagged on the Police National Computer and followed up accordingly.

Since 2002 and the introduction of the Multi-Agency Public Protection Arrangements (MAPPA), details of the number of registered sex offenders in the community have been routinely incorporated into the MAPPA Annual Report for each area of England and Wales. In 2004-05, MAPPA reports, the latest year of publication, recorded 28,994 registered sex offenders living in the community across England and Wales as at 31 March 2005. Further information by area is summarised in individual MAPPA reports which are published annually. The following table sets out the national figure for the number of convictions and cautions received for breach of the notification requirements. The maximum penalty for breach of the notification requirements is five years' imprisonment. Data on the penalties imposed in each case of conviction are not recorded centrally.

RSOs cautioned or convicted for breach of registration requirements, 2001-05

	Number
2001-02	682
2002-03	780
2003-04	853
2004-05	993

Mr. Clegg: To ask the Secretary of State for the Home Department how many sex offenders have breached their registration requirements in each of the last five years; and what penalties were imposed in each case. [80407]

John Reid: All sex offenders who meet the notification requirements of the Sex Offender Act 1997, as updated by the Sexual Offences Act 2003, are required to notify certain personal information, for example their address, to the police.

Following conviction for a relevant offence, a certificate of conviction recording the notification requirement is forwarded to the police by the court. The police will note the requirement on the Violent and Sex Offenders Register. The offender's Violent and Sex Offenders Register entry will be updated when he actually registers and, if he fails to do so as required, he will be flagged on the Police National Computer and followed up accordingly.

Since 2002 and the introduction of the Multi-Agency Public Protection Arrangements (MAPPA), details of the number of registered sex offenders in the community has been routinely incorporated into the MAPPA Annual Report for each area of England and Wales. In 2004-05, MAPPA reports, the latest year of publication, recorded 28,994 registered sex offenders living in the community across England and Wales as at 31 March 2005. Further information by area is summarised in individual MAPPA reports which are published annually. The following table sets out the national figure for the number of convictions and cautions received for breach of the notification requirements. The maximum penalty for breach of the notification requirements is five years' imprisonment. Data on the penalties imposed in each case of conviction is not recorded centrally.

2001-02	682
2002-03	780
2003-04	853
2004-05	993

Lynne Featherstone: To ask the Secretary of State for the Home Department how many registered *(a)* sex offenders and *(b)* paedophiles are resident in each police authority area. [85935]

Mr. Sutcliffe: Since 2002 and the introduction of the Multi-Agency Public Protection Arrangements (MAPPA), details of the number of registered sex offenders in the community has been routinely incorporated into the MAPPA Annual Report for each police/probation area of England and Wales. The data are not broken down by victim age. The following table gives the total number of registered sex offenders living in each area as at 31 March 2005 as published in the MAPPA reports. Data from the City of London and the Metropolitan police are pooled under "London".

Judy Mallaber: To ask the Secretary of State for the Home Department if he will introduce procedures for checking whether candidates for public office as councillors and hon. Members are on the Sex Offenders Register. [86077]

Mr. Coaker: There are no plans to introduce procedures to check whether candidates for public office are subject to the notification requirements of part 2 of the Sexual Offences Act 2003, which are often known as the sex offenders register.

The notification requirements serve a specific purpose: to ensure that the police are kept informed of convicted and cautioned sex offenders' personal details by obliging offenders to notify information to the police, notify the police of any changes to that information and re-confirm their details at least once a year. This is to assist the police and probation services in the management of any risks offenders may pose and in the detection of sexual crime. They do not exist to punish offenders or bar them from certain occupations or posts.

Under the Local Government Act 1972, however, an individual will be disqualified from being a local councillor if he receives a conviction carrying a prison sentence of over three months (suspended or not) if convicted of an offence within five years before election. Similarly, under the Representation of the People Act 1981, a person found guilty and sentenced or ordered to be imprisoned or detained for more than one year is disqualified from membership of the House of Commons while detained in pursuance of the sentence.

Moreover, the fact that a sex offender is a councillor or MP would not relieve the police and probation services' responsibility to manage any risks the individual may pose. They would include in their risk assessments any details of the individual's duties and if it was thought that they posed a risk of serious sexual harm, then the police could apply for a sexual offences prevention order (SOPO) to impose prohibitions on the individual's behaviour.

Norman Baker: To ask the Secretary of State for the Home Department what steps he is taking to ensure that there are sufficient approved places available to the Probation Service to house sex offenders upon their release. [87580]

Mr. Sutcliffe: We are considering a range of options on how the Approved Premises Estate may best meet the demand for places for those offenders who, on public protection grounds, are best supervised in Approved Premises on release from custody.

Sexual Offences

Mrs. James: To ask the Secretary of State for the Home Department how many people were convicted of sex offences in *(a)* 2004 and *(b)* 2005, broken down by offence; and if he will make a statement. [77460]

Mr. Coaker: Information held by the Office for Criminal Justice Reform on the number of defendants found guilty of sex offences in 2004 are provided in the following table. The Sexual Offences Act 2003, which covers a large proportion of the offences listed in the table, only came into force from 1 May 2004. Figures for 2005 will be published in autumn 2006.

Number of defendants found guilty at all courts for all sexual offences, 2004 in England and Wales[1]

Offence	Statute	Found guilty
Buggery or attempted buggery by a male of a male under 16.	Sexual Offences Act 1956 Sec 12 as amended by Criminal Justice and Public Order Act 1994, Sec 143, 144 .	52
Buggery or attempted buggery by a male with a male not included elsewhere.	Sexual Offences Act 1956 Sec 12 as amended by Criminal Justice & Public Order Act 1994 Sec 143, 144 .	1
Buggery or attempted buggery by a male with a female under 16.	Sexual Offences Act 1956 Sec 12 as amended by Criminal Justice and Public Order Act 1994, Sec 143, 144.	6
Buggery or attempted buggery by a male aged 21 or over with a female aged 16 or 17.	Sexual Offences Act 1956 Sec 12 as amended by Criminal Justice and Public Order Act 1994, Sec 143, 144.	1

Office for Criminal Justice Reform

Mr. Ruffley: To ask the Secretary of State for the Home Department what the detection rate for *(a)* rape and *(b)* other sexual offences was in each police force area in England and Wales in each year since 1997. [84914]

Mr. Coaker: The information requested is given in the following tables.

Since 1997 there have been a number of significant changes to the way that sex offences are defined and recorded by the police. These make it impossible to compare in a direct way recent figures with those from earlier years. Changes include:

(i) A revision to the counting rules for recorded crime and the expanded coverage which came into effect on 1 April 1998;

(ii) The revised detections guidance issued in April 1999;

(iii) The introduction of the National Crime Recording Standard in April 2002;and;

(iv) The Sexual Offences Act 2003 in May 2004, which altered the definition and coverage of sexual offences, in particular, indecent exposure is now classified as a sexual offence.

The existing statistical evidence suggests that both the changes to detections guidance and the introduction of the National Crime Recording Standard (NCRS) had a marked impact on the reduction in detection rates for rapes since 1997. The Home Office is currently researching in detail recent changes in detection rates in rape cases in England and Wales, including variation between forces.

In 2002 the Government published the "Rape Action Plan", in response to the thematic inspection into the investigation and prosecution of rape cases. A

follow-up inspection took place earlier this year, and its findings and recommendations will be published in the autumn. This will inform us how far the recommendations of the "Rape Action Plan" have been implemented by the police and the Crown Prosecution Service (CPS).

"Guidance on the Investigation of Serious Sexual Offences" was published by Centrex and the Association of Chief Police Officers (ACPO) in 2005. The guidance presents detailed recommendations for all stages of an investigation, from when the crime is reported to when an offender is identified and charged.

Table 1: Detection rates[1] for rape offences by police force area

Police force area	*1997*	*1998-99[2]*	*1999-2000[3]*	*2000-01*	*2001-02*	*2002-03[4]*	*2003-04*	*2004-05[5]*	*2005-06*

[1] Offences detected in current year may have been initially recorded in an earlier year, so some percentages may exceed 100.
[2] Expanded offence coverage and revised counting rules came into effect on 1 April 1998.
[3] Revised detections guidance was implemented on 1 April 1999.
[4] The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.
[5] The Sexual Offences Act 2003, introduced in May 2004, altered the definition and coverage of sexual offences.
n/a Not available.

Shootings

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people have been shot in each London *(a)* borough and *(b)* constituency in each of the last 10 years. [87408]

Mr. McNulty: The total number of offences recorded by the City of London and Metropolitan police in which firearms, excluding air weapons, were reported to have caused injury between 1997 and 2004-05 are given in the following tables. Data cannot be broken down to a more local level. Force breakdowns are only available since 1997. Changes in crime recording guidance has meant that data for 2004-05 cannot be directly compared with 1997-98.

Table 1 Crimes recorded by City of London and Metropolitan police forces in which firearms were reported to have caused injury, 1997-98 to 2001-02

	Total number of injuries
1997-98	401
1998-99	442
1999-2000	623
2000-01	732
2001-02	985

Notes:
1. There was a change in the counting rules for recorded crime on 1 April 1998.
2. Figures for some crime categories may have been inflated by some police forces implementing the principles of the National Crime Recording Standard before 1 April 2002.
3. Excludes air weapons.
4. Includes violence against the person, sexual offences and robbery.
5. Includes slight, serious (necessitated detention in hospital or involved fractures, concussion, severe general shock, penetration by a bullet or multiple shot wounds) and fatal injuries.
6. By the weapon being fired or used as a blunt instrument.

Table 2: Crimes recorded by City of London and Metropolitan police forces in which firearms were reported to have caused injury, 2002-03 to 2004-05

	Total number of Injuries
2002-03	982
2003-04	922
2004-05	1,221

Notes:
1. Data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.
2. Excludes air weapons.
3. Includes violence against the person, sexual offences and robbery.
4. Includes slight, serious (necessitated detention in hospital or involved fractures, concussion, severe general shock, penetration by a bullet or multiple shot wounds) and fatal injuries.
5. By the weapon being fired or used as a blunt instrument.

Smoking

Paul Rowen: To ask the Secretary of State for the Home Department how many prosecutions there have been for smoking cigarettes on buses with a no-smoking policy in each region in each year since 2001. [76149]

Mr. McNulty: This information is not available centrally and could be obtained only at disproportionate cost.

SO13

Lynne Featherstone: To ask the Secretary of State for the Home Department how many officers have been employed by SO13 in each of the last five years. [86793]

Mr. McNulty: The Metropolitan Police Service for operational purposes do not comment on the number of staff employed in counter-terrorism as to do so may compromise current and future operations.

Soliciting

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people have been arrested for soliciting in each London borough in each of the last five years. [88666]

Mr. McNulty: The information requested is not available centrally.

Somalia

Martin Linton: To ask the Secretary of State for the Home Department when he expects to resume removals to Somalia. [84811]

Mr. Byrne: There are voluntary returns to Somalia. Home Office and Foreign Commonwealth Office Ministers are actively investigating options for enforced removals to the region.

Special Advisers

David Simpson: To ask the Secretary of State for the Home Department how much has been paid in *(a)* salary, *(b)* travelling expenses, *(c)* subsistence allowance and *(d)* removal expenses to special advisers in his private office in each of the last five years. [68967]

Mr. Byrne: Since 2003, the Government have published on an annual basis the names and overall cost of special advisers and the number in each payband. For information relating to the last financial year I refer the hon. Member to the written ministerial statement made by my right hon. Friend, the Prime Minister, on Thursday 21 July 2005, *Official Report*, columns 156-60 WS.

Staff Misconduct

Mr. Clegg: To ask the Secretary of State for the Home Department how many allegations of staff misconduct have been *(a)* received and *(b)* investigated in each directorate of his Department in each year since 1997; and if he will make a statement. [76919]

John Reid: Pursuant to my answer of 18 July 2006, *Official Report*, column 422W, it has been brought to my attention that due to a data convergence error two figures contained in the answer are incorrect.

The number of internal investigations commenced under the Home Office misconduct investigation procedure in IND in 2005 was 182; and in 2006 (up until 19 June 2006) was 90.

Stephen Ayre

Philip Davies: To ask the Secretary of State for the Home Department pursuant to the answer dated 9 May 2006, *Official Report*, columns 216-17W, on Stephen Ayre, whether the Serious Further Offence review of the case of Stephen Ayre is complete; and whether it will be made public. [81173]

Mr. Sutcliffe: This review has been completed. This is an internal procedure carried out by the Probation Service to quality-assure its risk assessment and risk management processes. Reviews are routinely shared with HMI Probation who are integral to the quality assurance process. Where it is assessed that an independent review is required, the findings are made public.

Street Crime

Mr. Clegg: To ask the Secretary of State for the Home Department how many crimes were committed on average per day in the Street Crime Initiative hot spot areas during *(a)* each quarter of 2005 and *(b)* the first quarter of 2006. [88482]

John Reid: The number of crimes recorded in the 10 Street Crime Initiative areas is given for each quarter in the following table.

Recorded offences in the 10 Street Crime Initiative areas

Period	Number of offences
2005	
January to March	702,434
April to June	720,700
July to September	703,512
October to December	716,694

Recorded offences in the 10 Street Crime Initiative areas

Period	*Number of offences*
2006	
January to March	693,038

Note:
Police force areas of Avon and Somerset, Greater Manchester, Lancashire, Merseyside, Metropolitan Police, Nottinghamshire, South Yorkshire, Thames Valley, West Midlands and West Yorkshire.

Tagging/Control Orders (London)

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people are subject to *(a)* tagging and *(b)* control orders in each London borough. [86857]

Mr. Sutcliffe: Information is not collected about the borough in which people subject to electronic monitoring are located. However, information is available on their location by postcode. In the postcode areas which most closely correspond to the London boroughs, a total of 1,594 people were subject to electronic monitoring at 30 June 2006.

We are not in a position to provide information about the location of individuals subject to control orders as there are anonymity orders in place protecting the identity of these individuals.

Taking a Stand Awards

Lynne Featherstone: To ask the Secretary of State for the Home Department which individuals have received a Taking a Stand award. [88652]

Mr. McNulty: The information is given in a table which will be placed in the Library.

Talk to Frank

Lynne Featherstone: To ask the Secretary of State for the Home Department what the cost has been of the Talk to Frank programme; and if he will make a statement. [88650]

Mr. McNulty: The FRANK drugs information and advice campaign was launched in May 2003 and the total cost for the programme over three years to 2005-06 is £14.7 million.

It is a joint campaign between the Home Office, Department of Health and Department for Education and Skills.

The campaign offers an all-year-round confidential service for young people and their parents on any aspect of drugs. Since launch, the FRANK helpline has answered over one million calls and made over 40,000 referrals to treatment and support services. The website talktofrank.com has received over 11 million hits and replied to over 80,000 emails.

There has also been a successful information campaign using advertising and leaflets to educate young people and parents of drug harms, and stakeholder support to encourage targeted interventions with the most vulnerable young people.

Taser Stun Guns

Mr. Burstow: To ask the Secretary of State for the Home Department how many times the Metropolitan police has *(a)* deployed and *(b)* used Taser stun guns since October 2005; and if he will make a statement. [88552]

Mr. McNulty: The Commissioner for the Metropolitan Police tells me that Taser was deployed 2,349 times and fired on 19 occasions between 1 October 2005 and 30 June 2006.

Tasker Investigation

Susan Kramer: To ask the Secretary of State for the Home Department when the Tasker investigation commissioned by the Prison Service London area office is expected to report; and whether its findings will be published. [88935]

Mr. Sutcliffe: The investigation is not due to report back until the end of August. It is not Prison Service policy to publish any internal investigation report. Such reports are confidential, covered by the Data Protection Act 1998.

Tech Clean

Damian Green: To ask the Secretary of State for the Home Department if he will make a statement on his investigations into Tech Clean and their supply of temporary workers to the Home Office. [78945]

Mr. Byrne: The investigation into Tech Clean Plc and their employment of the cleaners at Becket House has been concluded. The immigration and nationality directorate is satisfied that the company have acted in accordance with the requirements of section eight of the Asylum and Immigration Act 1996.

Television Licence Evasion (London)

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people have been prosecuted for television licence evasion in each London borough in each of the last five years. [86794]

Mr. McNulty: The requested data cannot be provided for individual London boroughs as the accuracy of the data at this level of detail cannot be guaranteed.

Terrorism

Mr. Amess: To ask the Secretary of State for the Home Department how many terrorist attacks have been thwarted in *(a)* the Metropolitan Police and City of London Police areas of London, *(b)* Manchester, *(c)* Liverpool, *(d)* Newcastle and *(e)* the United Kingdom since 11 September 2001; how many (i) males and (ii) females were subsequently (A) prosecuted and (B) convicted of terrorist offences; and if he will make a statement. [85145]

Mr. McNulty: It is not our policy to comment on particular alleged terrorist attacks as these are

operational matters for the Police and Security Service. However "Countering International Terrorism: The United Kingdom's Strategy" (Cm 6888), published on 10 July 2006, stated that the police and the security and intelligence agencies have disrupted many attacks against the UK since November 2000, including four since last July alone. Statistics compiled from police records show that, between 11 September 2001 and 31 March 2006, 997 people were arrested under the Terrorism Act 2000 (TACT). Of those people, 154 were charged with offences under TACT and 79 of these were also charged with offences under other legislation. A further 175 were charged under different legislation. A total of 25 people were convicted under TACT during this period.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many sites the security service has identified as primary investigative targets in domestic terrorism investigations in the UK in each of the last five years. [88885]

Mr. McNulty: We do not comment on specific investigations whether related to international or domestic terrorism.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people have been arrested since the coming into force of the Terrorism Act 2003; and how long each was held without being charged in each case in which all proceedings are complete. [86804]

John Reid: Statistics compiled from police records show that between 11 September 2001 and 31 March 2006 997 people were arrested under the Terrorism Act 2000 (TACT). The Home Office does not collate information about the length of detention of those arrested in the particular format requested.

Terrorist Deportation

Michael Gove: To ask the Secretary of State for the Home Department how many terrorist suspects detained on national security grounds have been deported since control orders were introduced. [69174]

Mr. McNulty: Since the introduction of the Prevention of Terrorism Act on 11 March 2005, two individuals who had been detained under immigration powers have been deported on national security grounds.

In a number of other cases, an appeal against a decision to deport remains outstanding.

Thomas Curtis

Mr. Waterson: To ask the Secretary of State for the Home Department whether he knows the whereabouts of Thomas Curtis, who was convicted of murder in 1985 and may have absconded from HMP Leyhill in 1998. [79479]

Mr. Sutcliffe: The whereabouts of Thomas Curtis is unknown. He absconded from Leyhill open prison in 1998 and as at 19 July 2006 remains unlawfully at large. He is listed on the Police National Computer as being unlawfully at large and is subject to immediate arrest when traced by the police.

Unaccompanied Children

Mr. Steen: To ask the Secretary of State for the Home Department how many children born abroad have been placed on the National Register for Unaccompanied Children since it was established; what steps are taken to identify whether these children are the victims of trafficking; and how many children on the register are estimated to be the victims of trafficking. [82623]

Mr. Coaker *[holding answer 5 July 2006]:* The National Register of Unaccompanied Children (NRUC), which is not a Home Office system, is operated by the London borough of Westminster on behalf of the London Asylum Seekers Consortium.

It is difficult to quantify the number of child victims of trafficking because traffickers go to great lengths to conceal their exploitation of children. We have no centrally collated data on the numbers of children trafficked into the UK. To help to assess the nature and extent of child trafficking we have commissioned the Child Exploitation and Online Protection Centre to undertake a study, which we anticipate being completed by the autumn.

The Immigration Nationality Directorate takes its responsibilities towards children very seriously. We are looking at ways to improve the specialist services these children require, including the additional needs of those who may have been trafficked.

Mr. Steen: To ask the Secretary of State for the Home Department how many unaccompanied minors were admitted to the UK in each of the last three years at *(a)* Heathrow, *(b)* Gatwick, *(c)* Stansted, *(d)* Birmingham, *(e)* Manchester and *(f)* other UK airports; and how many unaccompanied minors were admitted through UK ports in each year. [86876]

Mr. Byrne *[holding answer 20 July 2006]:* The information requested is not held centrally and could be obtained only at disproportionate cost.

Under-age Drinking

Mr. Burstow: To ask the Secretary of State for the Home Department how many prosecutions have taken place for under-age drinking in the London borough of Sutton in each year since 1990. [88902]

Mr. Sutcliffe: Data from the court proceedings database held by the Office for Criminal Justice Reform for the number of persons aged 10-17 proceeded against for drunkenness offences in the London borough of Sutton in each year since 1990 can be found in the following table.

Court proceedings statistics for 2005 will be available in the autumn of 2006.

In addition to this, the penalty notice for disorder (PND) scheme, brought into effect in all police forces in England and Wales in 2004, gives the police powers to issue persons aged 16-17 believed to be committing

offences of under-age drinking with a fixed penalty notice. No admission of guilt is required and payment of the penalty discharges all liability for conviction for the offence. It is not possible to identify the number of PNDs issued in Sutton as the data is not collected at that level of detail centrally.

Number of people aged 10-17 proceeded against at Sutton magistrates court for offences relating to drunkenness[1] 1990 to 2004[2,3]

	Proceeded against
1990	3
1991	3
1992	2
1993	6
1994	3
1995	
1996	1
1997	4
1998	5
1999	4
2000	7
2001	4
2002	4
2003	4
2004	3

[1] Includes offences: drunkenness, simple; drunkenness, with aggravation; person under 18 buying or attempting to buy or consuming intoxicating liquor in licensed premises.
[2] These data are provided on the principal offence basis.
[3] Every effort is made to ensure that the figures presented are accurate and complete.
However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Victim Support

Tim Loughton: To ask the Secretary of State for the Home Department how much was granted to Victim Support in each of the last 10 years; and what a real terms change in funding was in each year. [88017]

Mr. Sutcliffe: The following table shows the Home Office grant to Victim Support for the past 10 years. In real terms, as deflated by the GDP deflator on the HMT website (as of 30 June 2006), the change in funding is represented as a percentage.

Home Office grant to Victim Support for the past 10 years. In real terms, as deflated by the GDP deflator on the HMT website (as of 30 June 2006), the change in funding is represented as a percentage

Financial year	Home Office grant to Victim Support (£ million)	Real term increase (percentage)
1995-96	10.82	
1996-97	11.68	4.5
1997-98	12.68	5.5
1998-99	12.68	-2.5
1999-2000	17.50	35.3
2000-01	18.55	4.5
2001-02	25.05	31.9
2002-03	29.30	13.5
2003-04	30.00	-0.6
2004-05	30.00	-2.6
2005-06	30.00	-2.1
2006-07	30.00	

Violent Crime

Chris Huhne: To ask the Secretary of State for the Home Department how many *(a)* murders and *(b)* crimes involving violence were reported in (i) Eastleigh, (ii) Hampshire police area, (iii) Southampton, (iv) Portsmouth, (v) Hampshire county council area, (vi) the south east region, (vii) England and (viii) England and Wales in each of the last 10 years; and what the (A) detection and (B) clear-up rate was in each case. [86685]

Mr. McNulty: The information requested is given in the tables. Statistics for Eastleigh, Southampton and Portsmouth are at Basic Command Unit level.

Since 1996, there have been two major changes to the way in which crime is recorded which makes it impossible to directly compare 2005-06 statistics with those from 10 years ago. The effect of the extended coverage and the change in counting rules in 1998 was to inflate the amount of violent crime recorded nationally by more than 80 per cent. while it is estimated that the effect of the introduction of the National Crime Recording Standard (NCRS) in April 2002 caused a further 20 per cent. increase in recorded violent crime in its first year.

Table 1: Recorded offences of homicide and violent crime—1996 and 1997

	1996		1997	
Area	Number	Detection rate	Number	Detection rate

[1] Eastleigh and Southampton Basic Command Units were restructured in April 2000.

Notes:
1. Expanded offence coverage and revised counting rules came into effect on 1 April 1998. The figures in this table are therefore not directly comparable with those for earlier years.
2. Offences detected in any given year may have been initially recorded in an earlier year and for this reason some percentages may exceed 100.

[1] Following a force restructuring, Eastleigh Basic Command Unit ceased to exist from 2004-05.

Notes

1. The data in this table takes account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.
2. Data for England and England and Wales includes the British Transport Police from 2002-03 onwards.
3. Offences detected in any given year may have been initially recorded in an earlier year and for this reason some percentages may exceed 100.

Sarah Teather: To ask the Secretary of State for the Home Department how many violent crimes were committed in each London borough in each year since 1997. [87492]

Mr. Coaker: The available information is for crime and disorder reduction partnership (CDRP) areas and is given in the following tables. CDRP data are only available centrally from 1999-2000.

In April 2002, the National Crime Recording Standard was introduced to ensure greater consistency in recording and took a more victim-orientated approach, which increased the crime count, particularly for violent crime. For these reasons, figures over this period are not comparable when they cross the time boundary.

Violent crimes[1] recorded by the Metropolitan police for each crime and disorder reduction partnership (CDRP), 1990-2000 to 2001-02

[1] The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Violent Death

Mr. Amess: To ask the Secretary of State for the Home Department how many persons have been victims of violent death since 1 January 2006; and how many victims of violent death there were between 1 January and 10 July in each of the last 10 years. [85143]

Mr. Sutcliffe: Information on the number of violent deaths in England and Wales is not collected centrally. Available data relate to offences classed as homicide. The number of offences currently considered as homicide, recorded by police between 1 January and 10 July in each of the years 1996 to 2004-05, are given in the following table. Data for the periods April to July 2005 and January to July 2006 relate to financial years 2005-06 and 2006-07, full analyses of which will be published in January 2007 and 2008 respectively.

Offences currently recorded as homicide[1,2], England and Wales

Year[3,4]	*Number of offences*
1996	307
1997	330
1997-98	328
1998-99	325
1999-2000	363
2000-01	421
2001-02	415
2002-03	427
2003-04	429
2004-05	447

[1] As at 28 November 2005; figures are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available.
[2] Does not include death by careless/dangerous driving and aggravated vehicle taking.
[3] Calendar years data relate to offences recorded by police between 1 January and 10 July; other years data relate to 1 April to 10 July and 1 January to 31 March within the specified financial year.
[4] This is not necessarily the year in which the incident took place or the year in which any court decision was made.

Witnesses

Mr. Ian Taylor: To ask the Secretary of State for the Home Department how many witnesses have requested special measures in each of the last three years. [24582]

Mr. Sutcliffe: This information is not collected centrally.

Simon Hughes: To ask the Secretary of State for the Home Department how many people were convicted of offences of intimidation or harming of witnesses in each year since 2003; and how many of those received a custodial sentence in each year. [88499]

Mr. Sutcliffe: Data from the court proceedings database held by the Office for Criminal Justice Reform on the number of people convicted of offences of intimidation or harming of witnesses; and how many of those in each year received a custodial sentence in England and Wales, 2003 to 2004, can be seen in the following table. Court proceedings statistics for 2005 will be available in the autumn of 2006.

Number of people convicted at all courts for offences relating to intimidation or harming of witness in England and Wales[1,2] 2003 to 2004

		2003			*2004*		
			Sentenced			*Sentenced*	
Statute	*Offence Description*	*Guilty*	*Total sentenced[3]*	*Of which immediate custody*	*Guilty*	*Total sentenced[3]*	*Of which immediate custody*
Criminal Justice & Public Order Act 1994, Sec.51(1)	Intimidating a juror or witness or person assisting in investigation of offenders	467	469	211	523	525	259
Criminal Justice & Public Order Act 1994, Sec.51(2)	Harming or threatening to harm a juror, witness or a person assisting in investigation of offences	76	77	34	113	112	56
Criminal Justice & Police Act 2001 S39	Intimidating or intending to intimidate a witness	2	3	2	10	12	7
Criminal Justice & Police Act 2001 S40	Harming or intending to harm a witness	2	2	0	2	2	0
	Total	547	551	247	648	651	322

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] The sentenced figure can exceed those found guilty, as it may be that the sentencing took place in the Crown court the year after a person was found guilty at the magistrates court. *Source:* Office for Criminal Justice Reform.

Work Permits

John Mann: To ask the Secretary of State for the Home Department which work permit schemes are available to farmers for employing migrant labour. [73185]

Mr. Byrne: The schemes available to UK farmers under the work permit arrangements for the employment of migrant labour are the Work Permit Scheme, the Training and Work Experience Scheme (TWES) and the Seasonal Agricultural Workers Scheme (SAWS).

To qualify for consideration under the Work Permit Scheme the job must require a person with a degree or relevant HMD level qualification, or an NVQ at level three and three years relevant experience.

The TWES arrangements relate to jobs that provide temporary work experience or training requiring a person with either an NVQ at level three or at least 12 months work experience.

The SAWS enables UK farmers and growers to employ students from outside the European Economic Area on a seasonal basis for up to six months a year.

Farmers may also employ workers from other European Union countries, subject only to a requirement for those from Poland, Lithuania, Estonia, Latvia, Slovenia, Slovakia, Hungary and the Czech Republic to register under the Worker Registration Scheme.

Mr. Amess: To ask the Secretary of State for the Home Department how many valid work permits issued to workers from each country there were at the latest available date. [83804]

Mr. Byrne: The information is set out in the following table.

"Valid" work permits refers to all work permits, which are currently active. These figures may not accurately equate to the actual number of work permit holders currently working in the UK as some permit holders may never have entered the UK or may have returned overseas without informing Work Permits (UK). The validity of a work permit varies depending on the circumstances, but may be for a period of up to five years.

The figures quoted are not national statistics. They are based on provisional management information and may be subject to change.

Jim Cousins: To ask the Secretary of State for the Home Department whether existing holders of work permits who have a right to apply for residency after four years will be required to meet the new requirements of five years on work permits. [86568]

Mr. Byrne: Existing holders of work permits will be subject to the new requirements for settlement introduced on 3 April. Work permits do not create an entitlement to have future applications dealt with under the immigration rules in force when they were granted.

World Cup

Mr. Hands: To ask the Secretary of State for the Home Department (1) which matches *(a)* he and *(b)* other Ministers in his Department attended at the FIFA World cup 2006 in Germany in their ministerial capacity; at what cost to public funds; and with what contributions from third party organisations; [83621]

(2) what plans *(a)* he and *(b)* Ministers in his Department have to attend matches at the FIFA World cup 2006 in Germany. [73633]

Mr. Coaker: The Home Office ministerial team did not attend any World cup matches in Germany, though the Minister responsible for tackling football disorder watched the England v Ecuador match on the screen in the fan park in Stuttgart. His purpose was to observe at

first hand English and German police co-operation and the behaviour of England fans.

No third party organisations were involved with the visit and the cost to public funds was £860 for Stuttgart. All travel and accommodation was arranged in accordance with the ministerial code and travel by Ministers.

Young Offenders

Mr. Lancaster: To ask the Secretary of State for the Home Department how many young offenders there were in *(a)* Milton Keynes and *(b)* England in each year from 1997 to 2006. [84888]

Mr. Sutcliffe: Data from the Office for Criminal Justice Reform showing the number of defendants cautioned and found guilty of all offences, under the age of 18, in England (from 1997 to 2004) are shown in the first table. We are unable to provide cautions figures for Milton Keynes as the data is not held at the level of detail required. However the second table shows the convictions for the Milton Keynes Criminal Justice area (the figures will include some offenders who do not live in Milton Keynes but were convicted there).

Figures for 2005 will be available in the autumn of 2006 and figures for 2006 will be available in the autumn of 2007.

Number of defendants under 18-years-old found guilty at all courts and cautioned of all offences in England, 1997 to 2004[1]

	Found guilty	Cautioned
1997	73,707	96,966
1998	80,608	101,708
1999	84,199	96,397
2000	85,568	90,995
2001	89,369	91,748
2002	88,478	80,635
2003	86,572	85,474
2004	90,174	99,233

Number of defendants under 18-years-old found guilty of all offences in the Milton Keynes Criminal Justice Area, 1997 to 2004 [1,2,3]

	Found guilty[4]
1997	279
1998	267
1999	265
2000	297
2001	412
2002	336
2003	298
2004	252

[1] These data are on the principal offence basis

[2] We are unable to provide data for cautions in Milton Keynes, as the data is not held at the level of detail required.

[3] Includes defendants found guilty at the Crown court having been committed by magistrates courts in the Milton Keynes Criminal Justice Area.

[4] The data provided in this table shows all offenders under 18 found guilty within the Milton Keynes Criminal Justice Area—it may include offenders who live outside Milton Keynes. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces and courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:

RDS—Office for Criminal Justice Reform.

Chris Ruane: To ask the Secretary of State for the Home Department what the cost of education was for children and young adults in custody for the year in which figures were last available; what proportion of the total cost of their detention was represented by spending on their education in that year; and what the per capita spending on prison education was in that year. [88283]

Mr. Sutcliffe: Figures for 2005-06, provided by the Youth Justice Board, show the total cost of custody for children and young people under 18 in the secure estate as £237.8 million, of which £34 million (14.3 per cent.) was devoted to education. An average of £10,375 per custodial place was spent on education in that year.

Chris Ruane: To ask the Secretary of State for the Home Department how many members of staff were employed in the *(a)* private and *(b)* public sector in the case of vulnerable and at-risk children and young adults in custody in the last year for which figures are available. [88284]

Mr. Byrne: It is not possible to identify separately the staff in custodial establishments who work with vulnerable or at-risk young people.

EDUCATION AND SKILLS

Accountancy Skills

Mr. Sheerman: To ask the Secretary of State for Education and Skills if his Department will encourage the Sector Skills Development Agency *(a)* to include accountancy within the Financial Services Skills Council remit and *(b)* to ensure accounting is covered by the Skills for Business Network. [88634]

Beverley Hughes: It is for employers to decide whether they wish to be part of the footprint of a particular Sector Skills Council. The Financial Services Sector Skills Council and the accountancy employers organisations concerned need to reach this decision based on the skill needs of the sector, independent of Government and through ongoing discussions. The Skills for Business network (SfBN) has guaranteed that the 15 per cent. of the work force not covered directly by a Sector Skills Council will receive support from the Sector Skills Development Agency in lieu of a separate negotiated arrangement.

A-levels

Mr. Bone: To ask the Secretary of State for Education and Skills how many A level students were taught their subjects by teachers who hold a degree qualification in that subject in the 2005-06 academic year. [87952]

Jim Knight: The information requested is not collected centrally.

Although the number of A level students who took A level examinations in individual subjects is known there is no comprehensive information available giving the level of subject qualification of teachers providing

teaching at this level in schools or further education colleges. Therefore no estimate can be made of the number of students that are taught by teachers holding a degree in the relevant subject.

There has been some research carried out by the Department into the level of qualification of teachers in secondary schools and this is given as shown in the table.

The following table provides the number of teachers by subject in maintained secondary schools and the highest post A level qualification held in the subject taught, for the latest available year (2002/03). No similar information is available for lecturers in the further education sector.

Teachers in Service: Full-time teachers in maintained secondary schools—Highest post A level qualification[1] held in the subjects they teach[2] to year groups 7-13, England

'-' = zero or less than 0.5

[1] Where a teacher has more than one post A level qualification in the same subject, the qualification level is determined by the highest level reading from left (Degree) to right (Other Qual.). For example, teachers shown under PGCE have a PGCE but not a degree or BEd in the subject, while those with a PGCE and a degree are shown only under Degree.

[2] Teachers are counted once against each subject which they are teaching.

[3] Includes higher degrees but excludes BEds.

[4] Teachers qualified in combined/general science are treated as qualified to teach biology, chemistry, or physics. Teachers qualified in biology, chemistry or physics are treated as qualified to teach combined/general science.

[5] Teachers qualified in other/combined technology are treated as qualified to teach design and technology or information and communication technology. Teachers qualified in design and technology or information and communication technology are treated as qualified to teach other/combined technology.

[6] Information and Communication Technology is abbreviated as ICT and Personal Social and Health Education is abbreviated as PSHE.

[7] 'Other' not included in total percentages.

Source:
Secondary Schools Curriculum and Staffing Survey 2002.

In January 2006, the Department published a report entitled 'Mathematics and Science in Secondary Schools: The Deployment of Teachers and Support Staff to Deliver the Curriculum'. The research, sponsored by the Department, was conducted during 2005 by the National Foundation for Education Research. Their sample survey found that an estimated 66 per cent. of maths A-level curriculum time was delivered by a teacher with a degree in maths, 15 per cent. by a teacher with a PGCE incorporating maths and 13 per cent. by a teacher with a B.Sc, BA with QTS or a B.Ed in maths. For further mathematics, an estimated 73 per cent. of curriculum time was delivered by a teacher with a degree in maths, 13 per cent. by a teacher with a PGCE incorporating maths and 10 per cent. by a teacher with a B.Sc, BA with QTS or a B.Ed in maths.

For biology A-level, the study found that an estimated 61 per cent. of curriculum time was delivered by a teacher with a biology degree and 31 per cent. by a teacher with a degree in another (including general) science. For chemistry A-level, an estimated 61 per cent. of curriculum time was delivered by a teacher with a chemistry degree and 26 per cent. by a teacher with a degree in another (including general) science. Finally, for physics A-level, an estimated 53 per cent. of curriculum time was delivered by a teacher with a physics degree and 13 per cent. by a teacher with a degree in another (including general science). For physics it is useful to note that an estimated 17 per cent. of the curriculum time was delivered by a teacher with a B.Sc, BA with QTS or B.Ed in science, and 13 per cent. by a teacher with a PGCE in science.

The full report can be found at http://www.dfes.gov.uk/research/data/uploadfiles/RR708.pdf

Asian Adoptions

Tim Loughton: To ask the Secretary of State for Education and Skills what guidance is followed when Asian children are placed for fostering or adoption with other Asian families from different religious backgrounds. [88022]

Mr. Dhanda: The national minimum standards for fostering services make clear that proper consideration should be given to a child's racial, religious, cultural and linguistic background when making any decisions regarding the care of that child. In cases where a child is placed with carers who do not share his or her ethnicity or culture, the standards state that the responsible authority should provide the foster family with additional training, support and information to enable the child to receive the best possible care and to develop a positive understanding of his or her heritage. It is for fostering providers themselves to determine the most appropriate arrangements for doing so. Volume 3 of the 'Children Act Guidance and Regulations' does, however, recognise that

"the religion of foster parents [...] may in some cases be more important than their ethnic origin."

With regard to adoption, the 2005 statutory guidance on the Adoption and Children Act 2002 requires adoption agencies to consider the child's religious and cultural upbringing as well as any wishes and feelings which the child's parent or guardian may have about the child's religious and cultural upbringing. The guidance also requires agencies to provide the child with counselling, in a manner which is sensitive to the child's religious beliefs.

Behaviour Charter of Responsibilities and Rights

Sarah Teather: To ask the Secretary of State for Education and Skills whether the Department plans to publish a National Behaviour Charter of Responsibilities and Rights as recommended in the report of the Practitioners' Group on school behaviour and discipline chaired by Sir Alan Steer. [88622]

Beverley Hughes: The Government have carefully considered the Practitioners' Group's conclusions about a National Behaviour Charter, in consultation with key partners in the education service represented on the Ministerial Stakeholders' Group on School Behaviour and Attendance. The Stakeholders' Group was mindful of the fact that events have moved on since the Practitioners' Group reported, particularly with the clear new statutory framework for disciplining pupils in the Education and Inspections Bill. It was therefore concluded that the role of a National Behaviour Charter might more appropriately be fulfilled through the guidance which my Department is preparing for schools on the relevant provisions in the Education and Inspections Bill.

Buddhism

Mr. Hancock: To ask the Secretary of State for Education and Skills pursuant to the answer of 18 July 2006, *Official Report*, column 308W, on Buddhism, what factors were taken into account in including the Network of Buddhist Organisations on his list of consultees; what other Buddhist organisations are included on the list; and if he will make a statement. [88724]

Jim Knight: The Department will always seek to consult as widely as is reasonably practicable. Factors taken into account include the nature, scale and subject of the consultation. The Network of Buddhist Organisations has 27 member organisations and 25 associate member organisations, from a range of Buddhist traditions, and is one of the groups with which the Department has consulted on relevant issues. The Department has previously consulted the Clear Vision Trust, The Buddhist Society and individual Buddhists.

Capita

Mr. Gibb: To ask the Secretary of State for Education and Skills how many and what proportion of contracts tendered by his Department were awarded to Capita Group plc. and its subsidiaries in each of the past five years. [88358]

Mr. Dhanda: The information requested could be supplied only at disproportionate cost.

Communication and Literacy Difficulties

Tim Loughton: To ask the Secretary of State for Education and Skills what research his Department has commissioned on the link between communication disabilities and literacy difficulties in primary school children; and if he will make a statement. [87962]

Mr. Dhanda: The Department has not commissioned research on this topic for primary school children. However, the Department is currently funding research carried out jointly by the Institute of Education in London and Warwick university (Professors Dockrell and Lindsay) on raising the achievement of children with speech, language and communication difficulties.

This is the fourth stage of a longitudinal study of a cohort of young people with specific speech and language difficulties who were originally identified by practitioners when they were aged seven. These pupils are now at the stage of leaving compulsory education.

DfES will publish the final report on the fourth phase of the research in the autumn. The report will, of course, look at how these children have progressed from the primary school stage.

The first phase of this research looked at the impact of specific language difficulties on learning and literacy in primary schools. Results of this research have been published in journals to inform practice. Other researchers, both in the UK and internationally, have contributed to our knowledge on this issue over the last few years.

The research in this area also notes the importance for this group of children of aspects like self-esteem. The importance of the home learning environment in children's learning is covered in the answer to PQ 87963.

Tim Loughton: To ask the Secretary of State for Education and Skills what assessment he has made of the relationship between a child's home learning environment and literacy and communication skills. [87963]

Beverley Hughes: Research evidence, such as my Department's effective provision of pre-school education (EPPE) study, shows that the quality of the learning environment in the home (where parents are actively engaged in activities with children such as teaching songs and nursery rhymes, playing with letters and numbers, and reading to the child) promoted intellectual development, including literacy skills, in children at the end of key stage 1 compared to children whose parents did not engage in such activities. In fact the quality of the home learning environment is a more significant factor than parent's social class and education levels. A review of the literature on parents' involvement in their children's education funded by my Department (Desforges and Abouchaar, 2003) also found that such parental activities in the home were associated with early literature and communication and skills development. In addition to the actual activities, the review found that the values a parent has, such as enthusiasm for learning and a positive parenting style, are associated with improved outcomes for the child such as increased self-perception as a learner, more motivation and self-esteem and higher educational aspirations. Further information can be found at www.dfes.gov.uk/research.

Competitive Tendering

Sarah Teather: To ask the Secretary of State for Education and Skills whether academies are subject to the same rules as maintained schools regarding competitive tendering. [89050]

Jim Knight: Academies are required to comply with public procurement procedures, including competitive tendering and adhere to departmental good practice; in the same way as local authority maintained schools.

Computing Equipment

Mr. Weir: To ask the Secretary of State for Education and Skills how many *(a)* USB (i) flash drives and (ii) memory sticks, *(b)* compact discs, *(c)* DVD-ROM discs, *(d)* laptop computers, *(e)* external computer hard drives, *(f)* internal computer hard drives and *(g)* desktop computers were purchased for use in his Department in each month since March 2005. [88770]

Beverley Hughes: The chart details the number of purchases by Department for Education and Skills from March 2005 to 28 July* 2006.

	(a) Flash drives/Memory sticks	*(b) Compact discs*	*(c) DVD-ROM discs*	*(d) Laptops*	*(e) External hard discs*	*(f) Internal hard discs*	*(g) Desktop computers*

[1] This information could be supplied only at disproportionate cost.

Criminal Offences

Mr. Clegg: To ask the Secretary of State for Education and Skills how many criminal offences his Department has created by Orders in Council in each year since 1997. [88474]

Mr. Dhanda: The Department for Education and Skills has created no criminal offences by Orders in Council since 1997.

Departmental Staff (Criminal Activity)

Simon Hughes: To ask the Secretary of State for Education and Skills how many of his Department's employees have been (*a*) dismissed, (*b*) suspended and (*c*) subject to disciplinary action for criminal activity in each year since 1997. [88453]

Jim Knight: The information sought is as follows:

	Dismissed	Suspended	Disciplinary action
1997	—	—	1
1998	2	2	5
1999	2	8	15
2000	7	—	16
2001	2	3	7
2002	5	—	4
2003	—	—	2
2004	2	—	—
2005	2	—	6

The Department takes any allegations of criminal behaviour very seriously, and they are investigated under formal procedures either by an HR led team or by a team from our Special Investigations Unit if the claims allege fraud.

All staff are aware of the standards of conduct expected of them and these are set out in our Staff Handbook. This reflects the central rules in chapter 4.3 of the Civil Service Management Code.

Disabled Staff

Danny Alexander: To ask the Secretary of State for Education and Skills how much was paid to his Department from the Access to Work Scheme for adjustments for disabled staff in the last year for which figures are available; from what budget he plans to meet the costs of reasonable adjustments for disabled staff following withdrawal of Access to Work funding for central Government Departments; and if he will make a statement. [89016]

Jim Knight: Since 2003, the Department has provided assistance for disabled staff from its own reasonable adjustments fund. This fund has assisted over 500 staff. My Department does not collect information about the Access to Work scheme in the form requested centrally and this information could be obtained only at disproportionate cost.

Drugs Misuse

Keith Vaz: To ask the Secretary of State for Education and Skills what funding is provided for activities to reduce the use of drugs among young people; and if he will make a statement. [82263]

Mr. Dhanda: The Department of Education and Skills have contributed £2.6 million for activities to reduce the use of drugs among young people this year. This includes the contribution to the Young People Substance Misuse Grant, Home Office and Department of Health also contribute (PQ ref 82266). The £2.6 million also includes DfES contribution to Frank the Government's drugs awareness campaign, and to the High Focus Areas project which seeks to accelerate progress in reducing young people's drug use in selected local areas.

DfES also delivers drugs education within schools via PHSE.

Education Maintenance Allowance

Mr. Wills: To ask the Secretary of State for Education and Skills how many students in Swindon receive education maintenance allowance. [86635]

Mr. Dhanda: This is a matter for the Learning and Skills Council, who operate education maintenance allowances for the DfES and hold the information about take-up of the scheme. Mark Haysom, the Council's Chief Executive, has written to my hon. Friend with the information requested and a copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 28 July 2006:

I am writing in response to your Parliamentary Question that asked "how many students in Swindon receive Education Maintenance Allowance.

By the end of June 2006, 1,320 young people in the Swindon area had applied, enrolled and received one or more Education Maintenance Allowance payment during the academic year 2005/06.

I hope you find this information helpful.

Emissions Trading Scheme

Michael Gove: To ask the Secretary of State for Education and Skills how many carbon dioxide emission permits have been allocated to universities; and what the actual emissions were for each university included in the EU Emissions Trading Scheme in its first year of operations. [86472]

Bill Rammell: The Department for Education and Skills does not collect this information.

Enterprise Summer School Pathfinders

Mrs. Villiers: To ask the Secretary of State for Education and Skills in which locations the enterprise summer school pathfinders will be held; how many pupils have agreed to attend; which business representatives have agreed to attend; what the curriculum will be; what proportion of total teaching hours will be taught by business representatives; and what the total cost will be. [88096]

Jim Knight: The Enterprise Summer School Pathfinders are being held across every region in the United Kingdom and the locations are set out in the table. I have also included a list of business representatives.

Over 1,000 pupils aged 14-16 from a range of schools and colleges will attend the Enterprise summer schools. The curriculum will be linked to the broad objectives of enterprise education but specifically focused on enterprise capability and personal, individual development of attitudes and qualities for enterprise. The business representatives will be present throughout the summer schools and they will be involved in the delivery of the pathfinders, as well as activities such as mentoring. The total cost for the delivery of pathfinders is £2 million.

Free School Meals

Sarah Teather: To ask the Secretary of State for Education and Skills how many and what percentage of children eligible for free school meals live in areas designated as deprived. [86431]

Beverley Hughes: The information requested has been provided in the table as follows.

	[1]Total number of pupils	[1]Number of pupils eligible for free school meals	Percentage of pupils[1] eligible for free school meals
0-10% most deprived[2] areas	808,102	339,868	42.1
10-20%	719,782	217,319	30.2
20-30%	652,205	146,543	22.5
30-40%	619,438	99,779	16.1
40-50%	603,354	71,814	11.9
50-60%	586,985	51,444	8.8
60-70%	588,640	38,969	6.6
70-80%	585,685	28,649	4.9
80-90%	600,157	21,628	3.6
90-100% least deprived[2] areas	618,598	14,105	2.3
Residence unknown	29,322	6,146	21.0
Total	6,412,261	1,036,264	16.2

[1] Maintained primary, secondary, special and non-maintained special schools, includes pupils aged 5 to 15 years, solely registered or main registration of dually registered pupils.
[2] The measure of deprivation used is the 2004 Index of Multiple Deprivation produced by the Department for Communities and Local Government
Source:
Schools Census 2006 provisional

Further Education Funding

Kelvin Hopkins: To ask the Secretary of State for Education and Skills pursuant to the statement by the Minister for Higher Education and Lifelong Learning of 16 May 2006, *Official Report*, column 248WH, on further education funding, what the real terms change in further education funding was for *(a)* 16 to 19-year-olds and *(b)* adults for each year between 1997-98 and 2006-07; and if he will make a statement. [83958]

Bill Rammell: Our investment in further education providers increased by around 48 per cent. between 1997-98 and 2005-06, the latest year for which we have full expenditure data. This increase excludes spending on work based learning/apprenticeships, school 6th forms, adult and community learning and other post-16 learning. Figures also exclude our new Train to Gain programme. We cannot provide comparable figures for young people and adults separately because data are not available on that basis. The annual change for each year from 1997-98 is given in the following table:

FE provider spend 1997-98 to 2005-06

	Annual spend (cash) £ millions	Real terms increase/ decrease on previous year (percentage)	Real terms increase from 1997-98 to 2005-06
1997-98	3,131	-2.7	—
1998-99	3,101	-3.4	—
1999-2000	3,300	+4.3	—
2000-01	3,471	+3.7	—
2001-02	4,102	[1]+15.4	—
2002-03	4,400	+4.0	—
2003-04	4,788	+5.7	—
2004-05	5,081	+3.3	—
2005-06	5,590	[2]+7.7	48

[1] There was a significant increase in funding allocated to colleges in 2001-02 (the year in which the LSC was created) compared to 2000-01. This was due to a combination of factors: an increase in full-time equivalent learner volumes compared to previous years, a small increase in non-participation funds allocated to colleges, and a larger increase in capital investment in colleges.
[2] Based on provisional outturn.

Higher Education

Dr. Cable: To ask the Secretary of State for Education and Skills how many further education leavers went on to higher education in each of the last five years for which records are available. [88690]

Bill Rammell: The latest available information is shown in the table. The figures are limited to students who applied to full-time undergraduate courses via UCAS, so they do not therefore cover part-time students or those full-time students who apply directly to higher education institutions.

Accepted applicants to full-time undergraduate courses via the Universities and Colleges Admissions Service (UCAS)

Previous educational establishment	Year of entry				
	2001	2002	2003	2004	2005
Maintained school	116,713	119,935	121,595	123,317	133,178
Independent school	30,285	30,293	30,824	31,389	31,835
Further/higher education establishments[1]	112,288	110,083	111,656	112,395	117,848
Other	1,484	3,456	3,889	4,127	4,587
Not known[2]	64,702	67,958	65,978	63,067	72,796
Total	325,472	331,725	333,942	334,295	360,244

[1] Students from further education establishments cannot be separately identified in all years. However, in 2002 its is known that out of 110,083 students entering higher education from further/higher education establishments only 2,627 came from higher education establishments.
[2] Not all students provide details of their previous school.

Universities and Colleges Admissions Service (UCAS).

Illegal Knives

Andrew Rosindell: To ask the Secretary of State for Education and Skills what steps he is taking to reduce the number of illegal knives being carried in secondary schools. [89032]

Jim Knight: In the main, schools are very safe places and the majority of pupils have never carried a knife. It is a criminal offence to carry an offensive weapon on school premises and to assist schools with those pupils who choose to ignore the law, we propose a power in the Violent Crime Reduction Bill to enable schools to search, without consent, pupils they suspect are carrying a knife or other weapon. Where schools have

suspicions they can call the police, and should do so if they believe pupils or staff are at risk of serious harm. Schools and local police can agree a Safer School Partnership to prevent crime in and around a school. Programmes to improve behaviour; curriculum opportunities for learning about responsibility, conflict, and safety, and other DfES programmes for young people and parenting also help.

Integrated Children's System Database

Tim Loughton: To ask the Secretary of State for Education and Skills how much has been spent on the Integrated Children's System database; and how much is budgeted for *(a)* 2006-07 and *(b)* 2007-08. [88019]

Beverley Hughes: Local authorities will receive a total of £60 million to develop their electronic systems to support the implementation of the Integrated Children's System. Of this £15 million will be available in 2006-07 and a further £20 million in 2007-08. Additionally over the period 2005-06 and 2006-07 a total of £1.38 million has been budgeted by the DfES centrally from programme expenditure to support the development.

International Students

Mr. Sheerman: To ask the Secretary of State for Education and Skills how many international students were granted visa extensions to *(a)* work and *(b)* continue studies in the last year. [88603]

Mr. Byrne: I have been asked to reply.

I am advised that the number of foreign nationals who were in the UK under any category and were subsequently granted leave to remain as students in the financial year 2005-06 was 128,608. Information on how many of these individuals previously had leave as students is not available without examination of individual records at disproportionate cost.

This information has not been quality assured, and is not a National Statistic. It should be treated as provisional management information subject to change.

IT Contracts

Mr. Weir: To ask the Secretary of State for Education and Skills what the value was of each IT contract awarded by his Department in each of the last five years; and who the contractor was in each case. [88996]

Beverley Hughes: Such information is not held centrally within the Department for Education and Skills. To respond fully would involve an extensive information collection exercise which could be completed only at disproportionate cost.

However, I refer the hon. Member to the answers given by the then Parliamentary Under-Secretary of State for Children Young People and Families, my hon. Friend for Liverpool, Garston (Maria Eagle) on 13 June 2005, *Official Report*, column 192W, and 3 November 2005, *Official Report*, column 1314W.

Mr. Weir: To ask the Secretary of State for Education and Skills which IT contracts awarded by his Department in each of the last five years have been abandoned; and what the value was in each case. [88997]

Beverley Hughes: The information as requested is not held centrally within the Department for Education and Skills. To respond fully would involve an extensive information collection exercise which could be completed only at disproportionate cost. However, I can refer the hon. Member to the analysis of the Department's Individual Learning Account (ILA) Programme is given in the report: "The House of Commons Committee of Public Accounts (2003), Individual Learning Accounts, Tenth Report of Session 2002-03 (Ref: HC 544), TSO, London". An analysis of the Department's UK e-University Project is given in the report: "The House of Commons Education and Skills Select Committee (2005), UK e-University, Third Report of Session 2004-05 (Ref: HC 205), TSO, London"

Literacy/Numeracy Targets

Mr. Kemp: To ask the Secretary of State for Education and Skills how many and what percentage of children in *(a)* Houghton and Washington East constituency and *(b)* Sunderland city council area met the Government's literacy and numeracy targets in each year since 1997. [87372]

Jim Knight: The Government have set themselves the following Public Service Agreement targets for literacy and numeracy:

Raise standards in English and mathematics so that:

By 2006, 85 per cent. of 11 year olds achieve Level 4 or above, with this level of performance sustained to 2008; and

By 2008, the proportion of schools in which fewer than 65 per cent. of pupils achieve Level 4 or above separately in English and mathematics is reduced by 40 per cent. and

By 2007: 85 per cent. of 14 year olds achieve Level 5 or above in English, mathematics and ICT (80 per cent in science) nationally, with this level of performance sustained until 2008; and

By 2008: in all schools at least 50 per cent. of pupils achieve Level 5 or above in each of English, mathematics and science.

The information for Houghton and Washington East constituency and Sunderland local authority (LA) is as follows. In addition national figures have been supplied for comparison.

Key Stage 2

Houghton and Washington East

Official Visits

David Simpson: To ask the Secretary of State for Education and Skills on how many occasions he has visited each region in an official capacity in the last 12 months. [83975]

Mr. Dhanda: In the last 12 months, the Secretary of State and his predecessor have made the following visits:

Region	Number of visits
London	5
North West	8
North East	1
South East	2
South West	2
West Midlands	7
East of England	1
Yorkshire and Humberside	1

Parliamentary Questions

Mr. Hoban: To ask the Secretary of State for Education and Skills when he expects to reply to question *(a)* 81111 and *(b)* 81112, on tuition fees, tabled by the hon. Member for Fareham on 26 June for answer on 29 June. [88219]

Bill Rammell: I responded to the hon. Member's question (81111) on 25 July. A response to his question (81112) has been issued today.

Primary National Strategy

Mr. Gibb: To ask the Secretary of State for Education and Skills (1) if he will place in the Library a copy of the contract between his Department and Capita Strategic Education Services for the purposes of delivering the Primary National Strategy; [88354]

(2) which directorate in his Department has overall responsibility for overseeing the contract for the Primary National Strategy; [88355]

(3) how many staff within his Department have duties involving overseeing the contract for the Primary National Strategy; [88356]

(4) how many people are employed by *(a)* his Department and *(b)* Capita Strategic Education Services for the purposes of the review of the Primary National Strategy frameworks for teaching mathematics and literacy. [88357]

Jim Knight: The contract in respect of the provision of services for the National Strategies, incorporating the Primary National Strategy, is commercial in confidence.

The Schools Directorate within the DfES has overall responsibility for overseeing the National Strategies contract. There are nine members of staff in Schools Directorate who are engaged in overseeing the National Strategies contract. They are supported by a range of colleagues, within the Schools Directorate and elsewhere, who have policy interests in the services and outcomes of the Strategies' work.

A team of 12 staff are engaged in the Department on policy matters covered by the Primary and Secondary National Strategies. Six of these staff have worked on the revision of the frameworks as part of their duties, as well as senior managers to whom the team reports. Other staff from outside the team have been involved in reviewing the frameworks, including those responsible for early years education, those responsible for the education of children with special educational needs, and those responsible for contract management of the Strategies' contract.

Capita Strategic Children Services has a core team of nine of the National Strategies senior staff engaged on reviewing the Primary frameworks. In addition, there has been input from 20 or so educational advisers within the National Strategies, as well as 12 external specialists. The National Strategies has also benefited from extensive engagement with a range of educational partners, professional associations, head teachers and teachers who have all contributed to the development of the frameworks.

Religious Schools

Mr. Leigh: To ask the Secretary of State for Education and Skills if he will bring forward measures to enable any charitable organisation run by a minority philosophical faith group, or groups, whose schools do not receive Government funding due to their small size to set up a single academy with the power to manage multiple schools affiliated to that academy. [88599]

Jim Knight: There is no reason why, under current legislation, such a group could not bring forward proposals to establish an academy, provided of course that the potential sponsors can fully meet the conditions required of sponsors and for the establishment of individual academies.

School Dinners

Andrew Rosindell: To ask the Secretary of State for Education and Skills what percentage of *(a)* primary and *(b)* secondary school children receive school dinners; and how many in each category received school dinners on the same date in 2005. [88803]

Jim Knight: The only available information relates to free school meals and is given in the table.

Maintained primary and secondary schools[1]: School meal arrangement — position in January each year: 2005 and 2006 (provisional) — England

	Primary schools[1]		Secondary schools[1]	
	2005	2006[2]	2005	2006[2]
Number of pupils on roll[3]	4,205,670	4,150,590	3,317,590	3,309,720
Number of pupils taking free school meals on the census day	565,830	553,690	335,140	328,750
Percentage of pupils taking free school meals on the census day[4]	13.5	13.3	10.1	9.9
Number of pupils known to be eligible for free school meals[3]	713,680	666,890	465,520	448,680

Maintained primary and secondary schools[1]: School meal arrangement—position in January each year: 2005 and 2006 (provisional)—England

	Primary schools[1]		Secondary schools[1]	
	2005	2006[2]	2005	2006[2]
Percentage of pupils known to be eligible for free school meals[3]	17.0	16.1	14.0	13.6

[1] Includes middle schools as deemed.
[2] Provisional.
[3] Includes pupils with sole and dual main registration status.
[4] The number of pupils taking free school meals on the Census day expressed as a percentage of the number of pupils on roll.
[5] The number of pupils known to be eligible for free school meals expressed as a percentage of the number of pupils on roll.
Note:
Pupil numbers have been rounded to the nearest 10.

Schools' Census

Secondary Schools

Sarah Teather: To ask the Secretary of State for Education and Skills when the next Secondary Schools Curriculum and Staffing Survey is planned to be carried out. [84207]

Beverley Hughes *[holding answer 10 July 2006]:* Subject to suitable contract arrangements, the survey will be conducted in spring 2007.

Security Passes

Simon Hughes: To ask the Secretary of State for Education and Skills how many security passes have been reported *(a)* lost and *(b)* stolen by staff in his Department in each year since February 2004. [88557]

Beverley Hughes: The number of staff identity passes that have been reported lost or stolen in each year since February 2004 are:

	Number of passes lost	*Number of passes stolen*
2004[1]	139	9
2005	231	27
2006	184	7
Total	554	43

[1] From February

Sir Alistair Graham

Mr. Spellar: To ask the Secretary of State for Education and Skills pursuant to the answer from the Chancellor of the Duchy of Lancaster of 15 June 2006, *Official Report*, columns 1378-79W, on Sir Alistair Graham, what his remuneration was at the Leeds Training and Enterprise Council. [85469]

Bill Rammell: The salary of the Training and Enterprise Council (TEC) chief executive—the only executive board member—was determined by the TEC board on the recommendation of the chairman of the TEC board remuneration committee and the chairman of the TEC board.

Note 5 of the accounts for the Leeds TEC Ltd. for the year ended 26 March 2000 show total emoluments relating to one director of £99,051.

Mr. Spellar: To ask the Secretary of State for Education and Skills pursuant to the answer of the Chancellor of the Duchy of Lancaster to Question 80515, how much Sir Alistair Graham has claimed in *(a)* remuneration and *(b)* expenses in each year since he was appointed Northern Chairman of the Appeals Panel; and how many appeals he has chaired in each year. [85984]

Bill Rammell: Sir Alistair Graham took up the post of the Chair of the Appeals Panel for Students with Learning Difficulties and/or Disabilities for Northern England on 10 March 2002. Since then Sir Alistair has chaired a total of four appeals: two in May 2002, one in December 2002 and one in September 2003. He was paid a £600 fee for each appeal hearing chaired.

Due to changes in the Learning and Skills Council's accounting systems complete information on expenses claims is not held. However, claims of £76.20 and £94.10 were made for two of the panels.

Sure Start

Mr. Marsden: To ask the Secretary of State for Education and Skills how many childcare places were created through *(a)* Sure Start, *(b)* other public provision and *(c)* private provision in (i) 2001-02, (ii) 2002-03, (iii) 2003-04 and (iv) 2004-05, broken down by region; and what the occupancy rates were in each case. [89139]

Beverley Hughes: The following table contains the total number of new childcare places created in each region in each year from 2001-05. Data on whether places were created through Sure Start, private or other public provision are not available. Data are also not available on occupancy rates.

Region	*2001-02*	*2002-03*	*2003-04*	*2004-05*
East of England	8,930	9,791	16,528	6,120
East Midlands	5,735	10,607	11,188	4,740
London	10,995	11,215	18,166	14,294
North East	4,579	5,351	8,497	3,081
North West	11,939	11,251	24,507	10,693
South East	14,777	6,976	21,856	13,527
South West	9,906	8,996	9,960	7,213
West Midlands	8,674	10,761	13,054	5,466
Yorkshire and Humberside	7,244	12,181	12,107	7,452
Total	82,779	87,129	134,864	72,585

Note:
Data from 2001-03 are provided by local authorities and include both registered and unregistered places. Data from 2003-05 are provided by Ofsted and include only registered places.

Teachers

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to the answer of 10 July 2006, *Official Report*, column 1462W, on teachers, (1) what changes the National Assessment Agency has made to the data collection process since the publication of SFR 32/2005; [86026]

(2) what the cause was of the errors in SFR 32/2005. [86028]

Jim Knight: Up to and including 2005, data on non-core teacher assessments was collected as an aggregate value in a variety of formats including paper forms. For 2006 NAA have changed the data collection so that all teacher assessment data including non-core is collected at an individual pupil level. The data is collected electronically alongside core subjects using the Common Transfer File format (CTF). The CTF is the same standard that is used for transferring pupil data from one school to another. The change to pupil level data has also reduced the burden on schools by removing the need to transcribe and manipulate the source data. The NAA supports the Protocol on Data Sharing and Rationalisation in the Schools Sector and recognises a collective responsibility to minimise the burdens of data collection on schools and local authorities and to ensure that data collected is used effectively to support individual learning, whole school improvement and system-wide capacity building.

Errors can occur at any stage of the data collection process. Our investigations indicate that most of the errors in SFR 32/2005 were in the data supplied by schools or due to data being supplied in the wrong format.

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to the answer of 10 July 2006, *Official Report*, column 1462W, on teachers, how many statistical first releases published by his Department *(a)* were found to contain errors following their publication and *(b)* had corrections published on his Department's website subsequent to their initial publication in each year since 2000. [86027]

Jim Knight: The information requested is shown in the following table for the years 2003 to 2006[1].

1 The information is not readily available for errors corrected before July 2003 due to the functionality of the Department's website (information on updates and their nature is only stored from July 2003)

Errors and Corrections in Statistical First Releases (SFRs) from 2003[1] to 2006[2]

	Total number of SFRs published	*Number of SFRs with errors detected[3]*	*Number of errors[4]*	*Of which, errors were corrected in:*			
				2003	*2004*	*2005*	*2006*
2000	59	—	—	—	—	—	—
2001	54	—	—	—	—	—	—
2002	36	—	—	—	—	—	—
2003	42	2	2	0	0	0	2
2004	55	5	6	0	3	2	1
2005	64	6	13	0	0	5	8
2006[5]	39	2	2	0	0	0	2
Total	349	15	23	0	3	7	13

[1] 2003 figures only include errors corrected from 1 July 2003.
[2] 2006 figures only include errors corrected before 31 July 2006.
[3] All errors that are detected in Statistical First Releases are corrected and re-published on the Department's Research and Statistics Gateway
[4] For the purposes of this question, an error is defined as an occurrence where figures have been updated in a statistical first release due to problems detected with the underlying data or with the methodology. The term 'error' does not include changes to figures that are a normal part of the Department's cycle of checking data with providers (leading to provisional, revised and final figures)
[5] Total SFRs published to the 31 July 2006

Sarah Teather: To ask the Secretary of State for Education and Skills how many teachers employed in primary schools qualified via *(a)* a teaching degree, *(b)* a one year post-graduate certificate in education course and *(c)* other methods in each of the last five years. [89051]

Jim Knight: The following table provides the number of newly qualified full and part-time regular teachers employed in nursery and primary schools in each March between 2000 and 2004, having qualified in the previous calendar year, by method of qualification. 2004 is the latest year available.

Newly qualified[1] full and part-time regular teachers in service in the maintained nursery and primary sector in each March 2000-2004, having qualified in the previous year, by method of qualification

	Undergraduate[2]	*Postgraduate[3]*	*Other[4]*	*Total*
2000	5,410	3,580	160	9,150
2001	4,250	3,650	270	8,170
2002	4,130	4,330	440	8,900
2003[5]	4,010	4,410	1,060	9,480
2004[5]	3,560	4,600	1,620	9,780

[1] Includes teachers gaining qualified teacher status in England.
[2] Degree level routes to achieving QTS, eg BEd.
[3] Includes all post graduate routes to achieving QTS eg PGCE. Also includes those qualifying through SCITTS and the Open University.
[4] Includes employment based routes to QTS and others whose method of qualification is not recorded.
[5] Provisional estimates. (The number of teachers in service for these years may be underestimated due to the late receipt of service information.)

Source:
Database of Teacher Records

Mr. Holloway: To ask the Secretary of State for Education and Skills what estimate he has made of the average number of teachers who regularly watch Teachers' TV; and what the annual cost was of Teachers' TV since its inception. [89100]

Jim Knight: Teachers' TV aims to help raise standards in classrooms by helping to share good practice, support continuing professional development, offer classroom resources, and provide education news and information. The annual cost for Teachers' TV is c. £17.5 million.

The channel's target audience includes teachers, school leaders, teaching assistants and school governors. We currently estimate that 280,000 households watch Teachers TV on a monthly basis. Of these, almost 90,000 are from the school work force. At least 637,000 people watched Teachers' TV (on digital TV) between launch and the end of July 2005.

Audience measurement figures for the year ending 31 July 2006 will be published in early 2007.

Mr. Holloway: To ask the Secretary of State for Education and Skills what assessment he has made of the value for money of the Teachers' TV service; and if he will make a statement. [89101]

Jim Knight: Teachers' TV aims to help raise standards in classrooms by helping to share good practice, support continuing professional development, offer classroom resources, and provide education news and information. The channel's target audience includes teachers, school leaders, teaching assistants and school governors.

The Teachers' TV Board of Governors, an advisory non-departmental public body, meets monthly and its role includes holding the Teachers' TV supplier to account for the public funds it receives via an annual performance review.

In its annual report, published in December 2005, the board of governors stated that 'at an average cost per viewer per programme watched of £2.70, Teachers' TV is a cost effective way of supporting CPD delivery to the schools workforce'.

Tuition Fees

Mr. Hoban: To ask the Secretary of State for Education and Skills what estimate he has made of the overall cost to public funds of increasing tuition fees by *(a)* £1,000 and *(b)* £100 if they are deferred until graduation and then repaid over (i) five and (ii) 10 years. [81112]

Bill Rammell *[holding answer 29 June 2006]:* The costs of fee loans (steady state in 2006/07 terms) were published on 10 November 2005, *Official Report*, column 22WS. For an average fee of £3,010 the costs would be around £620 million and for an average fee of £3,910 the costs could be upwards of £810 million[1]. In each case, we have used our existing assumptions: that a tuition fee loan is available to meet the full cost of tuition fees, that the total cost of providing tuition fee loans over their lifetime is 33 per cent. of their face value and that 80 per cent. of eligible students take them up. These estimates are approximate as significant changes in the fee level would be likely to have an effect on assumptions. The Government's policy is to have income- contingent loans where repayments are tied to salary (i.e. graduates make repayments of 9 per cent. of salary in excess of £15,000 per annum) and the repayment period is not pre-determined, so estimates based on fixed repayment periods of five and 10 years have not been made. The maximum fee cannot be raised by more than inflation until 2 January 2010 and only then with the approval of both Houses of Parliament.

[1] Cost estimates rounded to nearest £10 million.

Working Together

Mr. Amess: To ask the Secretary of State for Education and Skills pursuant to the answer of 13 July 2006, *Official Report*, columns 1989-90W, on working together, if he will list the respondents who *(a)* agreed or strongly agreed that the Government should attempt to set out a clearer policy for professionals including the health service and youth workers on when to share information with social services and the police to protect sexually active children from harm and abuse and *(b)* agreed that there was a case for information always being shared in some circumstances; and if he will make a statement. [87312]

Beverley Hughes: The information requested has been placed in the House Libraries.

INTERNATIONAL DEVELOPMENT

G8 Summit (St. Petersburg)

Andrew George: To ask the Secretary of State for International Development what representations he made to his G8 counterparts on putting *(a)* Darfur and *(b)* Gaza on the agenda for the G8 summit in St. Petersburg. [87471]

Mr. McCartney: I have been asked to reply.

The UK takes every opportunity to press our international partners about the situation in Darfur and Gaza. My right hon. Friend the Prime Minister reported back to the House on the G8 Summit in a statement on 18 July 2006, *Official Report*, column 153. In it he said he had discussed Sudan with several G8 leaders and with Kofi Annan. They agreed that the situation in Darfur continued to be unacceptable and that there was a need for a UN force to deploy quickly.

At the G8 summit, there were long discussions on the situation in the Middle East, including Gaza. Leaders agreed a statement, which outlines the steps required of both sides to create the conditions for a sustainable cessation of violence in the Middle East, and to lay the foundations for a more permanent solution in the region. The UK has pushed strongly for a Temporary International Mechanism to help meet the basic needs of Palestinians. The European Community has committed €105 million to it. G8 leaders decided that the mechanism should be expanded immediately to provide wider assistance to the people of Gaza. We are working closely with the Quartet and others to ensure that this happens.

NORTHERN IRELAND

MI5

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland whether an agreement has been reached on responsibility for the costs of *(a)* operations of MI5 in the Province and *(b)* its new headquarters; and if he will make a statement. [87976]

Mr. McNulty: I have been asked to reply.

I have nothing to add to the reply I gave to the hon. Member for Foyle (Mark Durkan) on 19 July 2006, *Official Report*, column 475.

WORK AND PENSIONS

Health and Safety (Temperatures)

Sarah Teather: To ask the Secretary of State for Work and Pensions (1) what guidance the Health and Safety Executive has issued on the acceptable minimum and maximum temperatures in *(a)* primary and *(b)* secondary school classrooms; [88786]

(2) what guidance the Health and Safety Executive has issued on minimum and maximum temperatures on school buses. [88816]

Mrs. McGuire: I shall answer both of these questions together and would also refer the hon. Member to the responses given to her questions to the Secretary of State for Education and Skills on 25 July 2006, *Official Report*, columns 1434-435W.

The Workplace (Health, Safety and Welfare) Regulations 1992 require employers to provide reasonable working temperatures for employees in indoor workplaces, including those working in schools. The Regulations are accompanied by an Approved Code of Practice and guidance.

Since April 2005, the HSE has made available general guidance on temperatures and thermal comfort for all indoor workplaces on the HSE website: http://www.hse.gov.uk/temperature/thermal/index.htm. This guidance applies to employees and staff working in schools, but excludes transport such as school buses.

Minimum temperatures for classrooms are given as 18°C in the Education (School Premises) Regulations, SI No2, 1999, which are a responsibility of the Department for Education and Skills. DfES has recently issued guidance about maximum and minimum temperatures in classrooms on the popular questions website: http://www.dfes.gov.uk/popularquestions/ This explains that:

"heat stress and dehydration can be serious problems at temperatures above 35°C so that should be regarded as the maximum reasonable temperature for prolonged periods of time in school classrooms. This temperature is above comfort temperatures but healthy children should be able to cope with this if they are given generous supplies of cool water to drink. More sensitive children may experience problems at much lower temperatures and staff need to watch for signs of heat stress at temperatures above 28°C."

We are not aware of any specific guidance issued in respect of temperatures in school buses.

Heat Waves (Pensioners)

Mr. Laws: To ask the Secretary of State for Work and Pensions what recent discussions he has had with the Department of Health on the mortality rates of pensioners during heat waves and if he will make a statement. [88374]

James Purnell: Ministers for both Departments regularly discuss a range of issues of mutual interest. Internal discussions or advice are not normally disclosed.

Post Office Card Account

Danny Alexander: To ask the Secretary of State for Work and Pensions what plans he has for the migration process for Post Office card account users to a successor Post Office based account in 2010. [89129]

Mr. Plaskitt: The Department for Work and Pensions and Post Office Ltd. are working together with the best interests of our joint customers in mind as we develop our plans to move people from the Post Office card account. Our priority will be to ensure that this is a straightforward process for our customers and to help the Post Office manage the transition from Post Office card accounts to other products. I have regular meetings with Alan Cook (Managing Director of Post Office Ltd.) and other senior Post Office officials to discuss the future strategy.

Post Office Ltd. is planning a three-month pilot when it will be writing to 10,000 existing Post Office card account customers to encourage them to open one of its new Instant Saver accounts.

Sure Start

Willie Rennie: To ask the Secretary of State for Work and Pensions how many women in *(a)* the UK, *(b)* Scotland and *(c)* Dunfermline and West Fife have received the Sure Start maternity grant since 2001. [89044]

Mr. Plaskitt: The information is not available in the format requested. Information regarding Northern Ireland is a matter for the Northern Ireland Office. Such information as is available is in the following tables:

Sure Start maternity grants for Great Britain

	Number of awards
2001-02	201,380
2002-03	232,410
2003-04	237,780
2004-05	235,920
2005-06	237,510
2006-07 (to 30 June)	57,520

Sure Start maternity grants for Scotland

	Number of awards
2001-02	17,100
2002-03	19,580
2003-04	19,650
2004-05	19,050
2005-06	18,370
2006-07 (to 30 June)	4,480

Sure Start maternity grants for Fife Social Fund District

	Number of awards
2001-02	1,190
2002-03	1,510

Sure Start maternity grants for Fife Jobcentre Plus District

	Number of awards
2003-04	1,470
2004-05 (to 31 December)	1,080

Sure Start maternity grants for area covered by Forth Valley and Fife Jobcentre Plus District

	Number of awards
2004-05 (from 1 January)	610
2005-06 (to 31 December)	1,720

Sure Start maternity grants for area covered by Forth Valley, Fife and Tayside Jobcentre Plus District

	Number of awards
2005-06 (from 1 January)	960
2006-07 (to 30 June)	900

Notes

1. Data are not available by parliamentary constituency but only by Jobcentre Plus District, and before Jobcentre Plus Districts were used for the administration of the Social Fund, by Social Fund District.

2. The area covered by the parliamentary constituency of Dunfermline and West Fife used to be part of Fife Social Fund District. On 1 April 2003, Fife Jobcentre Plus District was formed by adding part of Tayside Social Fund District to Fife Social Fund District. From January 2005, for Social Fund purposes, Fife Jobcentre Plus District was added to most of Forth Valley and Dunbartonshire Jobcentre Plus District and part of Ayrshire, Dumfries and Galloway Jobcentre Plus District to form Forth Valley and Fife Jobcentre Plus District. From January 2006, for Social Fund purposes, part of Grampian and Tayside Jobcentre Plus District was added to Forth Valley and Fife Jobcentre Plus District to form Forth Valley, Fife and Tayside Jobcentre Plus District.

3. Different tables thus refer to different areas and so data in one table is not comparable with data in another.

4. Figures are for all awards, irrespective of whether the award was made to the mother or her partner.

5. Some women will have received more than one Sure Start Maternity Grant since 2001-02.

6. Figures have been rounded to the nearest 10.

TREASURY

British Citizenship

Mr. Clappison: To ask the Chancellor of the Exchequer how many people who had newly acquired British citizenship were contacted by the Inland Revenue in 2004-05. [88384]

Dawn Primarolo: This information is not available.

Clostridium Difficile

Sir John Stanley: To ask the Chancellor of the Exchequer how many deaths from clostridium difficile there were in the latest year for which figures are available. [88167]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Stephen Penneck, dated 25 July 2006:

The National Statistician has been asked to reply to your recent Parliamentary Question asking how many deaths from *Clostridium difficile* there were in the latest year for which figures are available. I am replying in her absence. (88167)

Special analyses of deaths involving *Clostridium difficile* are undertaken annually by the Office for National Statistics for England and Wales. These are published in Health *Statistics Quarterly (HSQ)* . The latest year for which such figures are available is 2004. Information on the numbers of deaths between 1999 and 2004 involving *Clostridium difficile* was published in *HSQ* 30 in May 2006.[1] The number of deaths due to *Clostridium difficile* is difficult to estimate, the *HSQ* article explains the issues involved. The number of death certificates mentioning *Clostridium difficile* in 2004 was 2,247 and the number where it was the underlying case of death was 1,245.

[1] Office for National Statistics (2006) Report: Deaths involving *Clostridium difficile* England and Wales, 1999-2004 *Health Statistics Quarterly* 30.56-60

Consignment Relief

David Taylor: To ask the Chancellor of the Exchequer (1) what assessment he has made of the impact of low value consignment relief on small businesses; [87419]

(2) if the Government will abolish low value consignment relief. [88429]

Dawn Primarolo: Import VAT is not chargeable on commercial consignments of goods with a value below £18 that are imported into the UK from outside the EU. The Government have received a number of representations from stakeholders on this issue, including small businesses, who have provided information on the impact of the relief. The Government continues to keep this relief under review.

Correspondence

Lady Hermon: To ask the Chancellor of the Exchequer why there was a delay of six months in replying to the letter of 21 November 2005 from the hon. Lady for North Down on tax credits. [76401]

Dawn Primarolo: I very much regret the delay in replying to the hon. Lady.

I asked HM Revenue and Customs (HMRC) officials to let me have a report and to ensure the hon. Lady's constituent continued to receive their tax credits payments in the meantime. I am sorry to say HMRC's report was delayed and I sincerely apologise for not keeping the hon. Lady in touch with what was happening.

HMRC will write to the hon. Lady again once the problem affecting her constituent's claim is resolved.

Mr. Marsden: To ask the Chancellor of the Exchequer why the Paymaster General has not replied to the letters addressed to her of 13 October 2005, 21 December 2005, 17 February 2006, 4 April 2006 and 19 May 2006 from the hon. Member for Blackpool South with regard to his constituent Tina Bannister; and when he expects her to do so. [86102]

Dawn Primarolo: I very much regret the delay in replying to the hon. Member's letters. I have now done so.

Sir Michael Spicer: To ask the Chancellor of the Exchequer when the Director of the Tax Credit Office will reply to the letter from the hon. Member for West Worcestershire of 26 May. [87935]

Dawn Primarolo: The Director of the Tax Credit Office replied to the hon. Gentleman on 21 July 2006.

Insurance Premium Tax Fraud

Gregory Barker: To ask the Chancellor of the Exchequer what recent discussions he has had with HM Revenue and Customs regarding insurance premium tax fraud. [89124]

Ed Balls: The Treasury has regular discussions with HM Revenue and Customs on a wide range of issues.

Long-term Unemployment

Willie Rennie: To ask the Chancellor of the Exchequer how many people are in long-term unemployment in *(a)* the UK, *(b)* Scotland and *(c)* Dunfermline and West Fife. [88571]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Stephen Penneck, dated 25 July 2006:

The National Statistician has been asked to reply to your recent Parliamentary Question about unemployment. I am replying in her absence. (88571)

The Office for National Statistics (ONS) compiles statistics of unemployment for local areas from the Annual Population Survey (APS) following International Labour Organisation definitions.

Table 1, attached, shows the number of long-term unemployed (more than 12 months), resident in the UK, Scotland and the Dunfermline and West Fife Parliamentary Constituency for the 12 months ending December 2005.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty.

ONS also compiles statistics for local areas of people claiming Jobseeker's Allowance (JSA). Table 2, attached, shows the number of people, resident in the UK, Scotland and the Dunfermline and West Fife constituency, who have been claiming JSA for more than 12 months, in June 2006 and as a proportion of the resident population of working age (males aged 16 to 64 and females aged 16 to 59).

Table 1: Number of long-term unemployed[1] persons, aged 16 and over, resident in the United Kingdom, Scotland and the Dunfermline and West Fife parliamentary constituency: 12 months ending December 2005

Area	*Number (Thousand)*
United Kingdom	310
Scotland	31
Dunfermline and West Fife	1

[1] Over 12 months.
Note:
Estimates are subject to sampling variability.
Source:
Annual Population survey.

Table 2: Long-term claimants[1, 2] of Jobseeker's Allowance resident in the United Kingdom, Scotland and the Dunfermline and West Fife parliamentary constituency: June 2006

Area	*Number*	*Proportion[3, 4] of resident population of working age (percentage)*
United Kingdom	150,515	0.4
Scotland	13,459	0.4
Dunfermline and West Fife	285	0.5

[1] Computerised claims only. Data rounded to nearest 5.
[2] Over 12 months.
[3] Proportion of resident mid-2004 population estimates of working age (males aged 16 to 64 and females aged 16 to 59).
[4] Proportion for Dunfermline and West Fife constituency uses denominators based on 2001 Census data adjusted to be consistent with 2001 mid-year population estimates for local authorities.

Office for National Statistics

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer how much was spent on legal and other advice given to the Office for National Statistics by Bird and Bird Solicitors in each year since 2001 and if he will make a statement. [88258]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Stephen Penneck, dated 25 July 2006:

The National Statistician has been asked to reply to your recent Parliamentary Question asking how much was spent on legal and other advice given to the Office for National Statistics by Bird and Bird Solicitors in each year since 2001. I am replying in her absence. (88258)

The amounts spent on legal and other advice from 2001 to date are as follows:

	Amount (£)
2001	170,745
2002	200,809
2003	152,696
2004	Nil
2005	2,350
2006	Nil to date

Office of Government Commerce

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer (1) when the contract for legal services to the Office of Government Commerce is next likely to be subject to competitive tendering and if he will make a statement; [87603]

(2) how many organisations submitted bids for the provision of legal services to the Office of Government Commerce when it was last tendered and if he will make a statement. [87604]

John Healey: Core legal services are provided to OGC by an in-house team of Government lawyers. OGC has no plans to change this arrangement.

Some additional legal services are supplied for specific projects within OGC on a case by case basis by external lawyers. These services are procured as and when required in accordance with the procurement rules applicable to the nature and value of the particular contract.

A contract for the provision of professional legal services to OGC was signed with DLA in May 2003. No new work has been placed under this contract since December 2005. Information on the number of bidders is not available.

Personal Debt

Willie Rennie: To ask the Chancellor of the Exchequer what the *(a)* average amount of personal debt per person and *(b)* total amount of personal debt was in (i) the UK, (ii) Scotland and (iii) Dunfermline and West Fife in the last year for which figures are available. [88440]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Stephen Penneck, dated 25 July 2006:

The National Statistician has been asked to reply to your recent Parliamentary Question on personal debt in the UK. I am replying in her absence. (88440)

We are unable to provide levels of total personal debt for Scotland or by region. The following table shows estimates for the whole of the UK.

2005

	£ million
Total personal debt (end-year)	1,275,740
Average personal total debt[1] (end-year)	26,730

[1] For average per head figures, the denominator is population aged 16+

The estimates of debt and income are national accounts series for the combined household and non-profit institutions serving households (NPISH) sectors. Estimates for households alone are not available. NPISHs are legal entities which are principally engaged in the production of non-market services for households and whose main resources are voluntary contributions by households. Examples of NPISHs are charities; relief and aid organisations; educational establishments; Trade Unions; Professional Associations, Political Parties and Religious Organisations, and Sports Clubs and Associations.

Further data are available from table A64 in United Kingdom Economic Accounts which is available at the following address:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=1904&Pos=&ColRank=1&Rank=422

Reading Training for Work Programme

Mr. Francois: To ask the Chancellor of the Exchequer how much was spent on the nationwide expansion of the Reading training for work programme in each year since 2003; and if he will make a statement. [84809]

Mr. Sutcliffe: I have been asked to reply.

The National Grid Young Offender Programme is funded by National Grid. Some small costs are incurred by prisons through providing travelling expenses to the young people on the programme.

Sir David Varney

Mr. Hoban: To ask the Chancellor of the Exchequer (1) to whom Sir David Varney will report in his role as senior adviser on Transformational Government and what his job description is; [88368]

(2) what the budget is for the Transformational Government project and what resources Sir David Varney will be able to draw upon from within *(a)* his Department and *(b)* other Government Departments and agencies to assist him in his work; [88369]

(3) what the *(a)* purpose and *(b)* terms of reference are of the Transformational Government project and how its effectiveness in meeting its purpose will be measured; [88370]

(4) by when the Transformational Government project is expected to complete its work and whether it will publish its findings. [88371]

John Healey: I refer the hon. Member to the answer I gave on 24 July 2006, *Official Report*, columns 1064-65W.

Smog

Gregory Barker: To ask the Chancellor of the Exchequer how many deaths have been attributed to smog in *(a)* London and *(b)* the UK in each year since 1997. [88178]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 25 July 2006:

As National Statistician, I have been asked to reply to your recent question asking how many deaths have been attributed to smog in (a) London and (b) the UK in each year since 1997.

There are no routine data for smog-related deaths collected by ONS.

Tax Credits

Mr. Laws: To ask the Chancellor of the Exchequer (1) what his latest assessment is of the performance of the tax credits IT system; what availability problems there have been over the last six months; and if he will make a statement; [76430]

(2) if he will make a statement on outstanding problems with the national tax credit IT system; [81147]

(3) pursuant to paragraph 3.2 of the Report of the Parliamentary Commissioner for Administration on Tax Credits in June 2005, what assessment he has made of the extent to which the tax credit system is now stable and performing well. [81783]

Dawn Primarolo: The performance of the Tax Credit System is continually monitored and is proving to be stable.

HMRC works closely with its IT supplier to resolve problems as quickly as possible to minimise the impact on claimant.

Mr. Laws: To ask the Chancellor of the Exchequer how many complaints relating to tax credits have been received by tax credit contact centres in each quarter since June 2002; and if he will make a statement. [76471]

Dawn Primarolo: The following table shows the number of complaints received about tax credit contact centres since April 2004. Information before this date is not available.

Quarter	*2004-05*	*2005-06*
1	226	235
2	261	219
3	201	248
4	207	382

Note:
Figures from NI are included only from 18 June 2004.

Mr. Laws: To ask the Chancellor of the Exchequer how many investigations are ongoing into organised tax credit fraud; and if he will make a statement. [76994]

Dawn Primarolo: I refer the hon. Member to HM Revenue and Customs 2005-06 Accounts: The

Comptroller and Auditor General's Standard Report, Part 2, available at http://www.nao.org.uk/pn/05-06/05061159.htm

Mr. Laws: To ask the Chancellor of the Exchequer what his latest estimate is of the number of arrests for tax credit fraud in each month since December 2005; and if he will make a statement. [78391]

Dawn Primarolo: Estimates of arrests for tax credit fraud can only be provided from January 2006 as they were only recorded centrally from that date. The following table shows the numbers in each month since January 2006.

End of month	*Arrests*
2006	
January	7
February	10
March	12
April	7
May	3

Anne Main: To ask the Chancellor of the Exchequer what plans he has to reform the tax credits system; and if he will make a statement. [81523]

Dawn Primarolo: I refer the hon. Member to the reply that I gave on 11 July 2006, *Official Report*, column 1286, to the right hon. Member for Birkenhead (Mr. Field).

Mr. Laws: To ask the Chancellor of the Exchequer pursuant to his oral answer of 11 May 2006, *Official Report*, column 495, on tax credits, what the evidential basis was for the statement that the vast majority of families are receiving their tax credits at the right time and correctly. [81796]

Dawn Primarolo: I refer the hon. Member to HMRC's publication "Child and Working Tax Credits Statistics: finalised awards 2004-05, Supplement on payments 2004-05" available at http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-payments-0405.pdf. and to "Tackling error and fraud in the Child and Working Tax Credits" available on the HMRC website at www.hmrc.gov.uk/news/index.htm

Mr. Spring: To ask the Chancellor of the Exchequer how many instances of tax credit fraud have been recorded in Suffolk in each of the last five years. [82105]

Dawn Primarolo: The information requested is not available in the format requested.

Mrs. Moon: To ask the Chancellor of the Exchequer (1) what average length of time has been taken to process changes in tax credit awards since the new security measures were implemented; [87333]

(2) what average length of time the Tax Credit Department took to process changes in awards of *(a)* child tax credit and *(b)* working tax credit in (i) 2003-04, (ii) 2004-05 and (iii) 2005-06. [87334]

Dawn Primarolo: I refer my hon. Friend to the answer I gave the hon. Member for Yeovil (Mr. Laws) on 18 July 2006, *Official Report* column 364W.

Danny Alexander: To ask the Chancellor of the Exchequer (1) how much has been paid in tax credits to *(a)* overseas nationals *(b)* non-British nationals of EU countries and *(c)* nationals of EU8 countries in each of the last five years; [88570]

(2) what information is *(a)* collected and *(b)* held for the last five years on (i) residency and (ii) nationality related tax credit fraud by overseas nationals and if he will make a statement. [88569]

Dawn Primarolo: The information requested is not available.

Mr. Ian Taylor: To ask the Chancellor of the Exchequer when he expects tax credit application forms to be available through *(a)* the national helpline and *(b)* Jobcentre Plus. [88621]

Dawn Primarolo: They are available.

TRANSPORT

Computer Equipment

Mr. Weir: To ask the Secretary of State for Transport how many *(a)* USB (i) flash drives and (ii) memory sticks, *(b)* compact discs, *(c)* DVD-ROM discs, *(d)* laptop computers, *(e)* external computer hard drives, *(f)* internal computer hard drives and *(g)* desktop computers were purchased for use in his Department in each month since March 2005. [88752]

Derek Twigg: Tables showing the information, where it is readily available, as requested for DfT(c) and its Executive agencies have been placed in the Libraries of the House. Where the information is not readily available it could be provided only at disproportionate cost.

Departmental Websites

Mrs. Dunwoody: To ask the Secretary of State for Transport how many websites are owned by the Department other than the official website; and what research is undertaken by the Department on accuracy of information before it refers to external websites in answers to parliamentary questions. [83349]

Gillian Merron: In addition to the official DfT website, the Department owns 44 live public facing websites. This figure includes all Executive agency websites (some of which have been incorporated into Directgov/Transport Office or are in the process of migrating into Directgov/Transport Office) and database sites. This figure does not include NDPB websites or the three sites operated by the Air, Marine and Rail Accident Investigation Branches, who report independently to the Secretary of State for Transport.

In answering past parliamentary questions, we at times refer hon. Members to external websites. Officials will normally check the addresses of any external

websites to ensure that they work, and will make every reasonable effort to confirm that the information contained on any such website is available at the time.

Hybrid Engines

Mr. Hands: To ask the Secretary of State for Transport what plans are in place to introduce low emission hybrid engines into public transport vehicles. [88055]

Gillian Merron: While it is not the Department's strategy to promote any specific technology for achieving lower emissions, work continues with our European partners to develop appropriate technology-neutral standards to reduce pollutant and other emissions. Specific decisions on vehicle choice are for the largely private sector companies who operate services.

Some operators have already introduced hybrid buses into service or are trialling these buses with a view to wider use. For example, 10 hybrid buses are in service on Newcastle's Quaylink service and six hybrid buses are being trialled on London's 360 route.

IT Contracts

Mr. Weir: To ask the Secretary of State for Transport what the value was of each IT contract awarded by his Department in each of the last five years; and who the contractor was in each case. [88974]

Derek Twigg: The Department was formed in May 2002. Tables showing the IT contracts awarded by the central Department and its Executive agencies since May 2002 have been placed in the Libraries of the House.

Mr. Weir: To ask the Secretary of State for Transport which IT contracts awarded by his Department in each of the last five years have been abandoned; and what the value was in each case. [88975]

Derek Twigg: The Department was formed in May 2002. A table showing the information requested has been placed in the Libraries of the House.

Judicial Review

Mr. Amess: To ask the Secretary of State for Transport pursuant to the answer of 5 July 2006, *Official Report*, column 1071W, on judicial review, where information is held indicating on what occasions individuals and organisations have applied for a judicial review of decisions of his Department; and how *(a)* hon. Members and *(b)* members of the public may have access to that information. [85387]

Dr. Ladyman: The information requested is not held centrally and could be collected only at disproportionate cost. The information will be held on the files of Her Majesty's Court Service, of the Department for Transport, and of the Treasury Solicitors Department. Where information is not already publicly available, it is open to hon. Members and members of the public to make a request for information relating to individual cases. Some information is also available on Her Majesty's Courts Service website (www.hmcourts-service.gov.uk) and other legal research databases, although these may be selective and are likely to be confined to cases that proceeded to judgment.

Private Aircraft Security Procedures

Mr. Walker: To ask the Secretary of State for Transport what measures he is taking to ensure that passengers using private aircraft are subject to the same security procedures as those using commercial airlines; and if he will make a statement. [87944]

Gillian Merron: The Government take a proportionate approach to aviation security. Measures are adjusted to take account of the practicalities of different types of operation. These measures are kept under review.

Railways

Mr. Carmichael: To ask the Secretary of State for Transport if he will list the *(a)* technical and financial contracts, *(b)* technical consultants used on a call-off basis and *(c)* financial consultants used on a call-off basis by (i) the Health and Safety Commission and (ii) the Health and Safety Executive relating to railway matters in 2005-06; what the nature was of the assignment for each consultant; and what the value was of work done by each consultant. [85788]

Derek Twigg: The *(a)* technical and financial contracts; *(b)* technical consultants used on call-off basis; and *(c)* financial consultants used on a call-off basis by the (i) Health and safety Commission and (ii) Health and Safety Executive (HSE) on railway matters in 2005-06 are set out as follows. All three contracts were let by the Health and Safety Executive:

Nature of the assignment	*Consultant*	*Value of work done (£)*
(a) Phase 2 of research covering the post Hatfield incident investigation into the formation of rolling contact fatigue cracking in a range of rails	The University of Newcastle (during this project researchers transferred from the University of Sheffield)	55,000
(b) Follow up research project into initial research to determine tramway wheel and rail profiles to minimise the risk of derailment	Health and Safety Laboratory	20,000
(b) Phase 3 of research into the crashworthiness of welded aluminium railway vehicles	Health and Safety Laboratory	45,000
(c) None	—	—

Mr. Carmichael: To ask the Secretary of State for Transport if he will list *(a)* the consultants used in connection with the transfer of the Strategic Rail authority to DfT Rail, *(b)* the (i) private finance initiative and (ii) public-private partnership external consultants used by (A) his Department and (B) each of its agencies and *(c)* the external consultants used by (1) his Department and (2) each of its agencies,

excluding public-private partnership and private finance initiative contracts, in 2005-06; and what the *(x)* nature and *(y)* cost of the work done by each consultant was in each case. [85789]

Derek Twigg: Information about external consultants used by the central Department and its Executive agencies have already been provided in response to a question from my hon. Friend the Member for Leicester, East (Keith Vaz), on 24 May 2006, *Official Report*, column 1890W, and tables placed in the Libraries of the House.

Where the central Department and its Executive agencies have used consultants in connection with the private finance initiative and public-private partnerships these tables have been revised to highlight this and placed separately in the Libraries. It should be noted that five Agencies (GCDA, VGA, MCA, DSA and DVLA) did not use PPP/PFI consultants during this period.

It has not been possible to gather the data regarding the transfer of the Strategic Rail authority to DfT Rail Group. The central Department and its Agencies currently have separate accounting systems. This means that it has not been possible in all cases to provide the level of detail requested in relation to actual expenditure. The central Department and the DVLA have only been able to provide this information in relation to committed spend (i.e. orders raised and contracts awarded during the period in question).

Road Surfaces

Mr. Lidington: To ask the Secretary of State for Transport whether it remains Government policy to resurface all concrete roads with quieter materials by March 2011; and if he will make a statement. [88318]

Dr. Ladyman: The target stated in the 10 year plan for the reduction of noise from motorway and trunk road network is that 60 per cent. of the network, including all concrete stretches, will be surfaced with quieter surfacing by March 2011. We have a policy of using quieter surfaces as a matter of course whenever a road needs to be resurfaced, but not to resurface ahead of maintenance requirements.

To date the Highways Agency has resurfaced approximately 30 per cent. of the strategic road network with quieter materials.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

AONBs

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs how many areas of outstanding natural beauty there are in *(a)* Wales and *(b)* England; and if he will make a statement. [89058]

Barry Gardiner: There are 40 areas of outstanding natural beauty in England and Wales; four of these are entirely in Wales; 35 entirely in England; and also the Wye Valley which is in both Wales and England.

Area-based Initiatives

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs which towns in Cornwall have been engaged in the Coastal and Market Towns Initiative; how much *(a)* central and *(b)* local government funding has been spent on each; and which have completed the process and produced a final report. [87524]

Barry Gardiner: The following table shows, for each Cornish town engaged in the Market and Coastal Towns Initiative, how much *(a)* central and *(b)* local government funding has been granted, and the expected completion date for each town's Strategic Action Plan.

£

Town	*Community strategic plan produced/expected*	*South west RDA funding (central)*	*MCTA interim funding*[1]	*Local authority funding*
Bodmin	July 2005[2]	60,000	9,984	[3]6,000
Camelford and Delabole	November 2004[2]	26,500	0	2,500
Hayle	September 2006	60,000	0	[3]6,000
Helston	September 2006	55,000	5,000	[3]5,500
Launceston	April 2004[2]	50,000	500	[3]5,000
Looe	March 2007	43,650	0	4,850

[1] Awarded to those towns requesting additional support to help with the implementation stage of their plan.
[2] Indicates that the initiative has already been completed.
[3] Informed estimate indicated where data is unknown (it is a stipulation of each grant that a minimum of 10 per cent. grant should be provided by each local authority).

£

Town	*Community strategic plan produced/expected*	*South west RDA funding (central)*	*MCTA interim funding*[1]	*Local authority funding*
Lostwithiel	April 2004[2]	40,500	8,990	[3]4,500
Mevagissey	Withdrawn from initiative	25,000	0	[3]2,500
Penzance	March 2007	43,200	0	4,800
Saltash	June 2006[2]	30,000	5,000	5,500
St. Ives	September 2006	44,611	0	4,957

£

Town	Community strategic plan produced/expected	South west RDA funding (central)	MCTA interim funding[1]	Local authority funding
St. Just	December 2006	42,811	0	4,757
Torpoint	June 2006[2]	60,000	Will receive 6,000	6,000
Tamar Valley[4]	April 2003[2]	103,400	0	Unknown

[1] Awarded to those towns requesting additional support to help with the implementation stage of their plan.
[2] Indicates that the initiative has already been completed.
[3] Informed estimate indicated where data is unknown (it is a stipulation of each grant that a minimum of 10 per cent. grant should be provided by each local authority).
[4] This MCTI constituency comprises areas within both Devon and Cornwall.

Biosphere Reserves

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs how many biosphere reserves there are in England; and if he will make a statement. [89056]

Barry Gardiner: In England there are currently three Biosphere Reserves designated under the UNESCO Man and Biosphere Programme. They are:

1. Braunton Burrows (North Devon), designated in 2002.

2. North Norfolk Coast (Norfolk), designated in 1976.

3. Moor House—UpperTeesdale (Northumberland), designated in 1976.

All three of these sites are underpinned by national and European site protection legislation.

Biosphere Reserves are areas of terrestrial and coastal or marine ecosystems which are internationally recognised under UNESCO's Man and the Biosphere programme launched in 1971.

British Waterways

Natascha Engel: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what funding British Waterways received from his Department in *(a)* 2005-06 and *(b)* 2006-07; [87403]

(2) what funding British Waterways will receive from his Department in each of the next three financial years. [87405]

Barry Gardiner *[holding answer 20 July 2006]:* As part of the Spending Review 04 settlement, British Waterways was given an indicative grant allocation of £62.59 million for 2005-06 and 2006-07.

However, following a number of pressures on DEFRA's budget, this figure has been reduced to £55 million for 2006-07. A budget review exercise for 2007-08 is underway which is examining expenditure across the whole of DEFRA.

Carbon Emissions

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take steps *(a)* to co-ordinate and *(b)* to implement an integrated approach across Departments to reduce the UK's carbon emissions. [87473]

Ian Pearson: The Government already has an integrated approach to tackling climate change. The UK Climate Change Programme 2006 and the recently published Energy Review, set out the Government's plans to reduce carbon dioxide emissions in respect of the 2010, 2020 and 2050 climate change targets and includes a number of co-ordinated policies and measures from across Government Departments.

We are also working to set up an Office for Climate Change in the near future that will take up the drive for progress on the climate change agenda. The Office will have an important contribution to make and will be a shared resource, reporting to Ministers across Government.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Environment, Food and Rural Affairs when he will reply to the letter dated 5 June from the right hon. Member for Manchester, Gorton with regard to Mrs. D. Edwards. [88721]

Mr. Bradshaw: A reply was sent on 19 July 2006.

Countryside (West Midlands)

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to encourage the preservation of the countryside in the West Midlands. [88333]

Barry Gardiner *[holding answer 25 July 2006]:* The West Midlands Region covers an area of 13,000km^2 and comprises two major conurbations—Birmingham, Coventry and the Black Country in the centre, and Stoke on Trent and the Potteries to the north. Around 80 per cent. of the land area is in agricultural or forestry use, with the Region having a greater proportion of Grades 1, 2 and 3 land (Agricultural Land Classification of England and Wales) than the average for England.

The region has four Areas of Outstanding Natural Beauty (AONB), three Environmentally Sensitive Areas, 14 National Nature Reserves, 60 Local Nature Reserves, 19 Special Areas of conservation, one Special Protection Area, 19 Ramsar sites (Wetlands of International Importance) and 439 Sites of Special Scientific Interest. It is covered by 26 Character Areas, which describe and define its natural and man-made landscape.

Approximately 30 per cent. of the agricultural land in the West Midlands is managed under the provisions of agri-environment schemes. There are currently 4,890 live agreements and the annual spend totals £27.63 million. Coverage is increasing annually towards the target of 70 per cent. of the land to be included in entry level schemes by 2008.

The formation of Natural England, following the Rural Strategy 2004, brings together English Nature, parts of the Countryside Agency, and the environment and land-based activity of the Rural Development Service. The new agency will help land managers to improve biodiversity, landscape, access, recreation and sustainable food and farming.

In the financial year 2006-07, Natural England have offered a total of £890,000 in the form of grants for core funding and projects in the West Midlands. This includes 240,000 from the Sustainability Development Fund to the four Areas of Outstanding Natural Beauty: Cannock Chase, Malvern Hills, Shropshire Hills and Wye Valley.

In 2005-06 the Environment Agency habitat creation projects covered a total of 103 hectares in the West Midlands; these received funding totalling £147,000. These projects form part of the Environment Agency's work on Flood Risk Management. They endeavour to maximise the impact of its investment by protecting properties from flooding as well as enhancing the natural environment, in line with the DEFRA strategy, "Making Space for Water".

Departmental Spending

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department has spent on *(a)* marine nature reserves, *(b)* national nature reserves, *(c)* national parks, *(d)* sites of special scientific interest, *(e)* biosphere reserves and *(f)* areas of outstanding natural beauty in England in each year since 1997; and if he will make a statement. [89057]

Barry Gardiner: There is considerable overlap in the geographic areas to which these designations apply. Moreover, funding from a variety of different multi objective mechanisms is available in these areas, in support of all these designations but also for other purposes not listed here. These mechanisms include, for example, the various agri-environment schemes which are funded by my Department, as well as wider funding such as lottery programmes and EU funds.

Total funding from these sources in support of each of these designations cannot therefore be calculated. However, it is possible to identify the following DEFRA funding via its grant in aid to the different delivery bodies involved, which is exclusively in support of one or more of the different designations listed.

English Nature's designated sites programme supports its work on Sites of special scientific interest, national nature reserves, biosphere reserves and marine nature reserves. The programme covers the cost of their work associated with these different designations including the management of land owned by English Nature and management agreements with landowners. The spend relating to this programme is set out in the following table.

£

Financial year	English nature spend	National park and the Broads authority Grant	Areas of outstanding natural beauty grant
1997-98	10,000,000	[1]23,840,000	[2]
1998-99	10,300,000	[1]23,322,667	[2]
1999-2000	12,400,000	[1]25,749,333	[2]
2000-01	13,800,000	25,666,000	[2]
2001-02	17,800,000	27,920,833	5,090,000
2002-03	18,800,000	32,993,854	6,200,000
2003-04	35,000,000	37,159,000	6,500,000
2004-05	40,700,000	35,756,154	7,200,000
2005-06	43,100,000	42,130,000	11,000,000

[1] These are estimate figures.
[2] £1.5 million to £2.0 million steadily increasing to £3.5 million in 2000-01

Notes:
1. All the figures for English Nature include a small element of EU and lottery funding. The figures for years 2003-04 onwards include salary and admin costs. Capital modernisation funding (years 2002-03 and 2003-04) and sheep national envelope funds (years 2003-04 and 2004-05) also received by English Nature have been excluded.
2. Funding for areas of outstanding natural beauty is provided by the Countryside Agency from the Grant in Aid provided by DEFRA. The sums involved are not ring-fenced by DEFRA. The Countryside Agency supplies 75 per cent. of core funding for areas of outstanding natural beauty (80 per cent. for Conservation Boards) with the remainder supplied by the constituent local authorities; and up to 50 per cent. of project costs with the remainder provided by third parties.
3. It is not possible for the Countryside Agency to provide precise funding figures prior to 2001, nor yet for 2006-07. The figures quoted are for the delivery of the full Countryside Agency areas of Outstanding Natural Beauty programme which includes core and project funding, information and publicity, legal advice, the initial set-up costs of creating the first two AONB Conservation Boards and the introduction of a sustainable development fund.

Disabled Staff

Danny Alexander: To ask the Secretary of State for Environment, Food and Rural Affairs how much was paid to his Department from the access to work scheme for adjustments for disabled staff in the last year for which figures are available; from what budget he plans to meet the costs of reasonable adjustments for disabled staff following withdrawal of access to work funding for central Government Departments; and if he will make a statement. [89005]

Barry Gardiner: DEFRA does not hold information centrally on the use of the access to work scheme. Managers access the scheme directly and liaise with their local service provider.

DEFRA is actively considering means by which it can continue to support disabled staff, following the withdrawal of access to work funding from 1 October 2006.

Dogs

Mr. Hands: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* American pit bull terriers, *(b)* Staffordshire bull terriers and *(c)* American Staffordshire terriers are owned by residents in (i) the constituency of Hammersmith and Fulham and (ii) England; and if he will make a statement. [88056]

Mr. Bradshaw: The terms "American pit bull terrier" and "American Staffordshire terrier" are sometimes used to describe pit bull terriers which are prohibited under the Dangerous Dogs Act 1991. Some people have been allowed to keep these dogs by adding them to the list of exempted dogs set up under the 1991 Act. Figures for legally held pit bull terriers, which have been described as American pit bull terriers and American Staffordshire terriers are available. However, no records are kept on the numbers of Staffordshire bull terriers as they are not a specified dog for the purposes of the Dangerous Dogs Act 1991.

The following table gives the numbers:

Legally held dogs under section 3 of the Dangerous Dogs Act 1991

	Hammersmith and Fulham	*Number England*
American Pit Bull Terriers	1	1,067
American Staffordshire Terriers[1]	1	3

[1] For the purposes of the Dangerous Dogs Act 1991, an American Staffordshire terrier is a pit bull terrier type dog. The figures reflect the type names as provided by the owners.

Mr. Wills: To ask the Secretary of State for Environment, Food and Rural Affairs if he will undertake *(a)* an assessment of and *(b)* a public consultation on the merits of (i) encouraging and (ii) requiring dogs to have identifying microchips implanted at birth for the purposes of improving animal welfare. [87760]

Mr. Bradshaw: The Local Government Act 1988 repealed the old dog licence on the grounds that it cost more to administer than the revenue it produced. Recent information shows that there has been very little change in the population of dogs and the number of straying dogs since 1988. There is no evidence to suggest that the opinion of dog owners has changed and that any new scheme introduced would be adopted.

We currently have no plans to reintroduce a dog licence, or to introduce requirements for dogs to be microchipped. Responsible dog owners voluntarily undertake having their pets permanently identified and registered on nationwide databases. We also continue to support voluntary identification. The effectiveness of dog licensing was also limited by the fact that in the last year licenses were administered, only 44 per cent. of owners applied for their licence.

Energy Crops

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many tonnes of each category of energy crop were cultivated in *(a)* 1999, *(b)* 2002 and *(c)* 2005; and what estimate he has made of production of each energy crop in (i) 2009 and (ii) 2012; [89161]

(2) what steps his Department is taking to promote the cultivation of energy crops. [89162]

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs what recent estimate he has made of the level of energy crops available for biomass energy generation; and what steps he is taking to increase it. [88438]

Ian Pearson *[holding answers 25 July 2006]:* Information on the cultivation of energy crops is only available for crops planted under DEFRA's Energy Crops Scheme. The first plantings were in 2001 for short rotation coppice (which is harvested on a three-year cycle) and 2002 for miscanthus (harvested annually from the second year). Based on actual plantings from 2001-05 and forecasts prepared in 2005 for plantings in 2006-09, based on industry estimates at that time, and assuming average yields of 9 and 14 tonnes per hectare for short rotation coppice and miscanthus respectively, the estimated yields are as follows:

Estimated yields

	Oven dried tonnes	
	Short rotation coppice	*Miscanthus*
2005	1,700	1,900
2009	18,000	250,000
2012	100,000	500,000

However, actual planting will depend on commercial decisions by growers and is likely to be influenced by the nature of contracts and support which are available.

The Government currently provides support to help establish energy crops, develop supply chains, and create end-use markets. The Government set up a Biomass Task Force in 2004 to identify the barriers to developing biomass energy, including energy crops, and to recommend ways to overcome the problems. The Government's response to the Task Force report was published in April 2006 and sets out 12 key initiatives and over 60 associated actions to help realise optimum use of biomass as a resource. These measures include agreement in principle to support energy crops under the new Rural Development Programme for England, further grant support for biomass supply chains, a capital grant scheme for biomass boilers, a commitment to consider using biomass in the Government estate, and the establishment of a new biomass energy centre to provide expert information and advice to industry and the public. We also intend to publish a UK Biomass Strategy in the coming year.

Support for miscanthus under the new Rural Development Programme for England is subject to clarification of issues with the European Commission which remain to be resolved.

EU Food Designations

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs how many successful applications for the European Union's *(a)* Traditional Speciality Guaranteed designation, *(b)* Protected Geographical Indication designation and *(c)* Protected Designation of Origin status have been made by (i) the UK and (ii) each of the European Union member states since the designation's inception. [88777]

Barry Gardiner: The number of successful applications made by (i) the UK and (ii) each of the

EU member states for the three designations under the European Union's Protected Food Names Scheme since its inception is as follows:

	(a) Traditional speciality guaranteed	*(b) Protected geographical indication*	*(c) Protected designation of origin*
(i) The UK	1	20	15
(ii) Other EU member states			
Austria	—	4	8
Belgium	5	2	2
Cyprus	—	—	—

Spain	3	41	56
Sweden	2	2	—

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what steps have been taken to encourage UK food producers to apply for the European Union's *(a)* Traditional Speciality Guaranteed designation and *(b)* Protected Designation of Origin status. [88779]

(2) what steps have been taken to encourage UK food producers to apply for the European Union's Protected Geographical Indication designation. [89060]

Barry Gardiner: For a number of years now we have been actively seeking to raise awareness about the European Union's Protected Food Name Scheme and encourage more UK applications. The scheme provides a means for farmers to add value to their produce and market it in a more imaginative way, particularly given consumers' growing interest in food with a clear regional provenance. Promotion of the scheme forms part of our wider strategy of support for the quality regional food sector.

DEFRA has written to a large number of trade associations and producers to remind them of the economic benefits to producers of achieving protected name status. We have also written to a large number of trade associations and producers to remind them of the economic benefits to producers of achieving protected name status.

In addition, the Department has held positive meetings with a number of key organisations including the National Farmers Union, the Country Land and Business Association, the Meat and Livestock Commission, the British Pig Association and the Milk Development Council to discuss possible applications.

We have also commissioned research to determine the awareness, perception, and attitudes towards, the EU protected food name schemes among UK retailers available on the DEFRA website at http://www.defra.gov.uk/foodrin/foodname/reglocal/adasresearchpdo.pdf and contributed to press articles promoting the scheme.

Finally, we have tasked Food from Britain with working with the Regional Food Groups and producers to raise awareness of the scheme and encourage more applications.

I am pleased to say that all this effort is bearing fruit. There are currently 36 UK products registered including Stilton Cheese (PDO), Scotch Beef (PGI), Welsh Lamb (PGI), Cornish Clotted Cream (PDO) and Arbroath Smokies (PGI). A further 24 applications are currently being considered.

EU Directives

Mr. Redwood: To ask the Secretary of State for Environment, Food and Rural Affairs how many full-time equivalent staff in his Department are employed on implementing and administering EU directives, regulations and policies. [86750]

Barry Gardiner: The number of full-time equivalent staff employed on implementing and administering EU directives, regulations and policies is not available and could only be provided at disproportionate cost

Farm Livestock

Mr. Laws: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance the Health and Safety Executive has issued on the acceptable minimum and maximum temperatures for the rearing and transportation of farm livestock. [89047]

Mr. Bradshaw: Responsibility for the welfare of farm animals rests with my Department.

DEFRA's welfare codes for the main farmed livestock, include advice on maintaining temperatures within limits which are not harmful to farm animals. These are available on the DEFRA website at: www.defra.gov.uk/animalh/welfare/farmed/on-farm.htm#welfarecodes Similarly, DEFRA has issued guidance on the welfare of animals in hot weather. This guidance is available on the DEFRA website at: www.defra.gov.uk/animalh/welfare/heat/index.htm

There is an obligation on those looking after animals to avoid causing them unnecessary suffering. It is an offence if the welfare of an animal is compromised as a result of a failure to take appropriate action in response to extremes of temperature.

Fisheries Grant

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how much the

fisheries grant was for each year between 2000 and 2006. [84675]

Mr. Bradshaw: The amount of fisheries grant for each of the years between 2000 and 2006 was as follows

	£
2006 to date	680,039.71
2005	5,719,432.56
2004	10,050,612.33
2003	3,398,786.30
2002	7,839,180.08
2001	1,339,029.85
2000	0

This covers payments of grant made in England under the Fisheries Instrument for Financial Guidance (FIFO) and the former Harbour Grants scheme.

Flood/Coastal Defences

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the change in the condition of flood and coastal defences based on *(a)* the interim results of the updating of the National Flood and Coastal Defence Database and *(b)* the most recent previous estimate of the defences. [87629]

Ian Pearson: The Environment Agency is the principal operating authority with responsibility for flood risk management in England, from both rivers (those designated as "main") and the sea, and has assumed responsibility for some 1,800 additional watercourse lengths transferred from other operating authorities over the last three years. The Agency uses the National Flood and Coastal Defence Database (NFCDD) to monitor the condition of its assets, with a review of progress held on a quarterly basis. The frequency of individual asset inspection depends on the level of flood risk involved. A comparison of quarterly figures is as follows:

Asset condition—comparison of quarterly figures from NFCDD 2005-06

	2005		2006		
	July	*October*	*January*	*April*	*July*
Defences—agency maintained					
Total length recorded (kilometres)	12,155	14,051	15,247	17,969	19,304
Percentage urban in conditions 1 and 2	51	51	54	59	59
Percentage urban in condition 3		43	41	36	36
Percentage in urban conditions 4 and 5		6	5	5	5
Defences—3rd party maintained					
Total length recorded (kilometres)	7,456	8,479	9,613	9,930	10,972
Percentage urban in conditions 1 and 2	50	44	48	42	47
Percentage urban in condition 3	—	52	48	54	49
Percentage urban in conditions 4 and 5	—	4	4	4	4
Structures—agency maintained					
Total number recorded	13,140	13,783	13,967	14,304	14,941
Percentage urban in conditions 1 and 2	75	74	77	76	75
Percentage urban in condition 3	—	21	19	20	21
Percentage in urban conditions 4 and 5	—	4	4	4	4
Structures—3rd party maintained					
Total number recorded	29,371	29,130	29,177	27,997	26,538
Percentage urban in conditions 1 and 2	56	56	56	59	59
Percentage urban in condition 3	—	37	37	34	34
Percentage in urban conditions 4 and 5	—	7	7	7	7

Notes:
Condition Grade
1 = Very good, fully serviceable (no remedial work required).
2 = Good, minor defects (minor routine maintenance work required).
3 = Fair, some cause for concern, requires monitoring (significant maintenance work required).
4 = Poor, structurally unsound now or in near future (major remedial works required).
5 = Very poor, completely failed or derelict (requires complete reconstruction).
"3rd party maintained assets" are those on main rivers or the sea which are maintained by parties other than the Environment Agency such as other operating authorities, riparian owners etcetera.

Under DEFRA's High Level Target 2, the other operating authorities are responsible for ensuring that inspections of their assets are carried out and the results recorded on the NFCDD. Defra has not carried out any assessment of the results of these inspections.

Free Sat

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the effect of the BBC's development of Free Sat on affordable television reception in rural areas; and if he will make a statement. [86046]

Barry Gardiner: The Department has made no such assessment. The proposed BBC Free Sat is a very helpful development. It will give greater choice to

consumers, both before and after digital switchover. It is particularly attractive to homes not currently served by digital terrestrial television in rural areas who have limited choice.

Genetic Use Restriction Technologies

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what criteria will be used to assess whether appropriate scientific data is available in relation to the field testing of products incorporating Genetic Use Restriction Technologies; and who will be responsible for making the assessment; [88416]

(2) what criteria will be used to assess whether appropriate scientific assessment of the ecological and socio-economic impacts of Genetic Use Restriction Technologies has been carried out; and who will make that decision; [88418]

(3) what criteria will be used to determine that the conditions for the safe and beneficial use of Genetic Use Restriction Technologies have been validated; and who will make that decision. [88419]

Ian Pearson: It is for each party to the convention on biological diversity to assess whether:

(1) appropriate scientific data is available in relation to the field testing of products incorporating Genetic Use Restriction Technologies.

(2) appropriate scientific assessment of the ecological and socio-economic impacts of Genetic Use Restriction Technologies have been carried out.

(3) the conditions for the safe and beneficial use of Genetic Use Restriction Technologies have been validated.

Decisions in the European Union on applications to approve genetically modified organisms (GMOs) are made on a case-by-case basis taking full account of a scientific assessment of the particular GMO and the risks associated with its use against the criteria in the EU legislation. An application for a GMO incorporating Genetic Use Restriction Technologies would be dealt with in the same way as any other GMO. Approval would only be granted if the evidence showed that a deliberate release of the GMO would not pose an unacceptable risk to human health or the environment.

Greyhounds

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has held with greyhound racing authorities in order to ensure all retiring greyhounds are properly cared for; and if he will make a statement. [87512]

Mr. Bradshaw: The Department set up the Greyhound Welfare Working Group to examine the welfare aspects of greyhound racing, including arrangements for the dogs' retirement. The group includes representatives from animal welfare organisations and the greyhound racing industry.

The group will offer advice to Ministers and officials on future regulations, including a code of practice.

M40 (Noise)

Mr. Lidington: To ask the Secretary of State for Environment, Food and Rural Affairs if he will publish a copy of the noise map covering junctions 3 to 7 of the M40, drawn up to comply with European Directive 2002/49/EC. [88316]

Mr. Bradshaw: We aim to publish the information requested by summer 2007. It will be available on a website with the facility to search down to postcode level.

Marine Nature Reserves

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs how many marine nature reserves there are in England; and if he will make a statement. [89054]

Barry Gardiner: There is one Marine Nature Reserve (MNR) in England, Lundy Island, off the coast of North Devon.

The MNR arrangements are, in common with the other site safeguard provisions of the 1981 Act, based on the "voluntary approach" and are thus dependent on securing the co-operation of all the local interests concerned—for example, fishermen, divers, local authorities,—to agree the detailed provisions for protecting each site.

The development of marine nature conservation is more likely to make progress through the implementation of the Habitats and Birds Directives. The EC Habitats Directive aims to contribute to the maintenance of biodiversity by establishing a network of Special Areas of Conservation (SACs) which, together with the sites designated under the EC Birds Directive (Special Protection Areas) are known as Natura 2000. These include marine sites as well as terrestrial sites. Some 36 marine sites were included in the initial list of possible SACs by the Government.

Melbourne Marine Services

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with *(a)* the Department for Transport, *(b)* local authorities, *(c)* the Scottish Executive and *(d)* the Scottish Environment Protection Agency regarding the ship-to-ship oil transfer planning application by Melbourne Marine Services in the Firth of Forth. [89065]

Ian Pearson: The Department has taken part in discussions with the Department for Transport and the Scottish Executive in relation to obligations under the habitats directive and the ship-to-ship oil transfer planning application by Melbourne Marine services in the Firth of Forth.

The Department has not had contact with any local authorities or contact with the Scottish Environment Protection Agency in relation to the ship-to-ship oil transfer planning application by Melbourne Marine services in the Firth of Forth.

Migrant Labour (Farms)

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs how many migrant workers worked on British farms in 2005; and how many he estimates there will be in 2006. [69780]

Mr. Byrne: I have been asked to reply.

In 2005, 878 applications for work permits were approved under 'Agricultural Activities'.

Figures for the first four months of 2006, i.e. 1 January 2006-30 April 2006, shows that 280 applications for work permits were approved under 'Agricultural Activities'.

Moths

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the potential impact on biodiversity of trends in the numbers of common species of moths. [87966]

Barry Gardiner: The Government funds surveys and draws on evidence from many sources relating to different groups of plants and animals, and their habitats, to assess trends in biodiversity.

Moths are an important element of many ecosystems. They pollinate plants and, together with their caterpillars, provide food for many other species including birds, bats and small mammals. The decline in the number of common moths over the past 30 years, shown by the Rothamsted Insects Survey, is likely to affect other species.

National Nature Reserves

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs how many national nature reserves there are in England; and if he will make a statement. [89055]

Barry Gardiner: Currently, there are 220 national nature reserves in England covering 92,560 hectares. All national nature reserves are also classed as sites of special scientific interest.

National Parks

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs how many acres of national park there are in England; and if he will make a statement. [89053]

Barry Gardiner: The eight National Parks in England and the Norfolk and Suffolk Broads together cover some 10,496 square kilometres or about 2,593,618 acres.

Natural England

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how much was originally budgeted for the transition of English Nature, the Rural Development Service and the Countryside Agency into Natural England; and if he will make a statement; [88684]

(2) how much the restructuring of English Nature, Rural Development Service and the Countryside Agency to create Natural England cost in each year since 2003; [88692]

(3) how much has been paid to external consultants in establishing Natural England in each year since 2003; and from which budgets the funding came; [88697]

(4) whether the residual budgets from English Nature, the Rural Development Service and the Countryside Agency will be carried forward into the budget of Natural England. [88698]

Barry Gardiner: This Department's original cost estimates for establishing Natural England were set out in the Regulatory Impact Assessment, published in May 2005, to accompany the Natural Environment and Rural Communities Bill. The costs were forecast to be between £25.4 million and £36.8 million.

Actual annual costs incurred since 2003 for the establishment of Natural England are as follows:

	Annual costs (£ million)
2003-04	
2004-05	0.698
2005-06	9.12

The cost of external consultants in establishing Natural England has come from DEFRA's budget and are as follows:

	Costs (£)
2003-04	
2004-05	47,383
2005-06	2,067,565
2006-07	263,651

A final decision on the budget for Natural England in the 2006-07 financial year will be made soon. As not all the responsibilities of the Countryside Agency and Rural Development Service will transfer to Natural England, Natural England will not inherit all of those bodies' resources.

Organic Meat

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effectiveness of the measures in place to prevent farmers labelling their meat as organic without complying with UK and EU regulations; how many farmers were found to be doing so in each year since 1997; what action was taken against them; what recent discussions the Government have had with the certification bodies for the organic sector on preventing such action; and if he will make a statement. [88601]

Ian Pearson: Anyone who produces an organic agricultural product, or processes or imports an agricultural product for human consumption or animal feed, must be certified by an approved organic certification body. These bodies can sanction against breaches of the organic standards. However, they do not enforce action against uncertified production that

claims to be organic. The enforcement of the Organic Product Regulations rests with the relevant local authority.

The Department has regular contact with Local Authorities Co-ordinators of Regulatory Services (LACORS) in order to ensure that the regulations are effectively implemented. The Department does not keep statistics on the enforcement of the labelling part of the UK and EU Organic Regulations. Anyone who suspects the provenance of an organic product are encouraged to report the matter to their local trading standards office to investigate.

Research Establishments

Mark Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of Government research establishments funded by his Department are located in *(a)* Wales, *(b)* England, *(c)* Scotland and *(d)* Northern Ireland. [88862]

Mr. Bradshaw: The three DEFRA laboratory agencies, the Centre for Environment, Fisheries and Aquaculture Science (CEFAS), the Central Science Laboratory (CSL) and the Veterinary Laboratories Agency (VLA) each have their headquarters and main laboratory facilities in England. The VLA also has 15 regional laboratories, of which one is in Scotland, two in Wales and 12 in England.

Mark Williams: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* office management and services staff and *(b)* scientific staff are employed at each public sector research establishment funded by his Department. [88863]

Mr. Bradshaw: The information for the three DEFRA laboratory agencies, the Centre for Environment, Fisheries and Aquaculture Science (CEFAS), the Central Science Laboratory (CSL) and the Veterinary Laboratories Agency (VLA) is as follows:

Agency	*Scientists (including veterinarians)*	*Management and administration*	*Total staff*
CEFAS	370	138	508
CSL	619	150	769
VLA	987	332	1,319

Mark Williams: To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to implement the recommendations of the Final Report of the Research Council Institute and Public Sector Research Establishment Sustainability Study Steering Group. [88864]

Mr. Bradshaw: DEFRA is in discussions with the Biotechnology and Biological Sciences Research Council on a Memorandum of Understanding to agree a framework for putting the principles of the Research Council Institute and Public Sector Research Establishment Sustainability Study (RIPSS) into practice. Issues around capital investment and risk in the context of DEFRA's ownership of its three laboratory agencies are being taken forward through the Department's Laboratory Strategy Programme. The other RIPSS recommendations, insofar as they apply to DEFRA, have been implemented or reflect existing practice.

Rural Payments Agency

James Duddridge: To ask the Secretary of State for Environment, Food and Rural Affairs when meetings were held between Ministers from her Department and *(a)* the chief executive of the Rural Payments Agency, *(b)* members of the senior management team of the Rural Payments Agency and *(c)* Accenture since January 2003; and which Ministers were present. [66745]

Ian Pearson *[holding answer 27 April 2006]:* DEFRA Ministers have met with the RPA chief executive, members of his senior management team and Accenture on a regular basis, including at single payment scheme stakeholder meetings. The Minister for Sustainable Farming and Food, and on occasion the Secretary of State, met with the RPA chief executive and/or his senior management team to specifically discuss matters related to the SPS on the following dates:

2005

17 May 2005
30 June 2005
19 July 2005
27 July 2005
13 September 2005
29 September 2005
4 October 2005
5 October 2005
13 October 2005
20 October 2005
8 November 2005
11 November 2005
1 December 2005
16 December 2005

2006

10 January 2006
30 January 2006
6 February 2006
14 March 2006
22 March 2006
28 March 2006
29 March 2006
5 April 2006
11 April 2006
12 April 2006
18 April 2006
19 April 2006
25 April 2006
4 May 2006
8 May 2006
10 May 2006
17 May 2006
24 May 2006
31 May 2006
7 June 2006

20 June 2006
21 June 2006
12 July 2006

Separate ministerial meetings involving Accenture were held on 12 May 2006, 26 July 2005 and 16 December 2005.

Dates of meetings prior to the general election in May 2005 are not readily available.

Single Farm Payments

Mr. Keetch: To ask the Secretary of State for Environment, Food and Rural Affairs how much it has cost to implement the subsidy system for the Single Farm Payment scheme. [76216]

Barry Gardiner: The total cost of implementing the Single Payment scheme (SPS) in England, including associated business processes and systems, was £105.4 million. This expenditure includes the cost of establishing entitlements; processing, validating, inspecting, paying and accounting for claims; populating new rural land and customer registers; creating a document management unit and communicating with customers via scheme literature, seminars and advertising. These systems will underpin the delivery of SPS and other schemes to 2012 and beyond.

The SPS 2005 scheme year payments In England amount to around £1,515 million (net of modulation).

SSSIs

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs how many sites of special scientific interest there are in England; and if he will make a statement. [89052]

Barry Gardiner: Currently, there are 4,120 sites of special scientific interest in England covering 1,074,216 hectares of land.

Sustainable Food and Farming

Mark Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of his Department's sustainable food and farming research budget has been spent in research establishments based in *(a)* Wales, *(b)* England, *(c)* Scotland and *(d)* Northern Ireland in each of the last five years. [88860]

Mr. Bradshaw: The proportion expressed as percentages of the Department's sustainable farming and food research spent in research establishments i.e. research institutes in Wales, England, Scotland and Northern Ireland is given in the following table.

	2001-02	*2002-03*	*2003-04*	*2004-05*	*2005-06*
Wales	13.5	14.7	16.5	17.9	17.3
England	18.1	19.5	21.9	20.5	17.4
Scotland	3.7	3.4	3.0	3.0	2.9
N Ireland	—	—	—	—	—

Mark Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of his Department's research and development budget has been spent on research establishments based in *(a)* Wales, *(b)* England, *(c)* Scotland and *(d)* Northern Ireland in each of the last five years. [88861]

Mr. Bradshaw: The proportion expressed as percentages of the Department's research and development budget for research establishments i.e. research institutes in Wales, England, Scotland and Northern Ireland is shown in the following table.

	2001-02	*2002-03*	*2003-04*	*2004-05*	*2005-06*
Wales	4.5	4.7	5.0	5.2	4.5
England	16.0	15.5	14.1	12.9	11.2
Scotland	1.7	1.6	1.4	1.2	0.9
N Ireland	—	—	—	—	—

Waste Collection

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how much *(a)* garden and *(b)* kitchen waste was collected by local authorities in each year since 2000; [87160]

(2) what assessment he has made of the barriers to the use of *(a)* home composters for garden waste and *(b)* food waste digesters for kitchen waste; [87161]

(3) what estimate he has made of the level of use of *(a)* home composters for garden waste and *(b)* food waste digesters for kitchen waste; [87162]

(4) what his policy is on the use of *(a)* home composters for garden waste and *(b)* food waste digesters for kitchen waste. [87163]

Mr. Bradshaw *[holding answers 24 July 2006]*: Local authorities in England collected an estimated 798 thousand tonnes of organic material (kitchen and garden waste) for composting in 2000-01, 940 thousand tonnes in 2001-02, 1.2 million tonnes in 2002-03 and 1.4 million tonnes in 2003-04. It is provisionally estimated that this has increased to around two million tonnes in 2004-05. This organic waste is collected for centralised composting schemes from households via kerbside schemes or taken by householders to Civic Amenity sites.

Composting is high up the waste hierarchy and is supported by a range of policies that promote sustainable waste management. Composting, including home composting of kitchen and garden waste, is also likely to play an increasingly important role in diverting biodegradable waste from landfill in line with the Government's waste strategy objectives and obligations under the Landfill Directive.

The Waste and Resources Action programme (WRAP) indicate that over 34 per cent. households participate in home composting schemes, with 23 per cent. of British households composting both kitchen and garden waste. WRAP is working with local authorities and other partners to improve the uptake of home composting through the distribution of one million home composting bins to households across the country.

No estimate has been made by the Department on the level of use of food waste digesters for kitchen

waste, nor has any assessment been made of the use, (or barriers to the use) of these, or home composters. Advice and best practice for home composting is available from a range of organisations including WRAP: http://www.recyclenow.com/home_composting/.

Waste Disposal Prosecutions

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs how many people in *(a)* England and *(b)* each region have been prosecuted for the illegal (i) transport, (ii) deposit and (iii) storage of waste in each of the last three years; and what total amount was paid in fines in each year. [88149]

Mr. Bradshaw: The Environment Agency records the numbers of prosecutions it takes nationally for illegal waste disposal. The number of prosecutions taken for the illegal deposit of waste and the average fines paid for illegal dumping of waste, are shown in the following tables.

For section 33(1)a Environmental Protection Act 1990—illegal deposit

	Number
2002-03	269
2003-04	254
2004-05	232
2005-20	219

Average fines for illegal dumping

	Number
2002	2,286
2003	2,102
2004	2,191
2005	3,394

Flycapture, the national fly-tipping database, was set up in 2004. Data held on Flycapture indicate local authorities are taking a wide range of enforcement action. Prior to April 2005 the 'actions taken' page of the Flycapture database was not mandatory and therefore the picture is patchy. However, data from 2005-06 indicate that local authorities reported 1,479 prosecutions for illegal dumping. The total amount paid in fines for this period is reported to be £268,243.

This Department does not hold national data on prosecutions taken for the illegal transport of waste.

Water Companies

Lyn Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what sanctions Ofwat can impose on water companies which fail to meet leakage targets; and whether he has discussed possible sanctions against Thames Water with Ofwat. [80615]

Mr. Davey: To ask the Secretary of State for Environment, Food and Rural Affairs what penalties are in place for water companies which fail to meet their leakage reduction target; and if he will make a statement. [81013]

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment he has made of the extent to which the Water Services Regulation Authority (Ofwat) is adequately fulfilling its statutory remit in respect of all water companies, with particular reference to Thames Water; what measures he is able to take to ensure that it does so; and if he will make a statement. [81091]

Ian Pearson: Ofwat is responsible for setting leakage targets and has powers to deal with poor performance.

Should Ofwat conclude that the failure of a water company to manage leakage constitutes a failure of the duty under section 37 of the Water Industry Act to maintain an efficient water supply system, it has two options for regulatory action. It has powers to initiate enforcement action under section 18 of the Water Industry Act to require the water company to take specified steps to reduce the level of leakage. Since April 2005, it also has powers to impose a financial penalty under section 22A of the Water Industry Act.

I have discussed with Ofwat the issues of leakage and enforcement options available, but Ofwat is independent of Ministers.

Following Thames Water's failure to meet its leakage, Ofwat announced it has secured a legally binding undertaking, committing Thames Water to £150 million of additional investment in replacing leaking mains. This is more than double the maximum imposable fine and will come from the shareholder, not the bill payer. Ofwat has also set revised leakage targets for the period up to 2010 to get the company's leakage reduction back on track and to take leakage down to 720 megalitres/day by 2009-10 rather than the old target of 725 megalitres/day. It is right that the consumer does not bear the burden of the increased investment needed for Thames Water to deal with its failure to meet its leakage targets.

Ofwat will closely monitor the company's progress. Subsequent failures will lead to further enforcement action, including fines if appropriate, from 2007. Ofwat will not hesitate to use its tough powers against any company that clearly fails to meet its responsibilities to consumers.

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 12 July 2006, *Official Report*, column 1858W, on water companies, what the evidential basis is in each region for the improvement in *(a)* efficiency, *(b)* drinking water quality and *(c)* water environment, broken down by region; and what the leakage rates have been in each region in each year since 1980. [86241]

Ian Pearson: Ofwat sets demanding efficiency targets at each price review. The companies judged to be least efficient by Ofwat must make the biggest reductions in costs. In addition, there are incentives for companies to beat Ofwat's efficiency assumptions, which reward the companies in the short term (up to five years) and customers, through lower bills in the longer term.

Ofwat estimates that savings from efficiency improvements between privatisation and 1 April 2005 have resulted in bills £90 lower than they otherwise

would have been. The price limits set by Ofwat in 2004 assume further savings in bills of at least £16 in the five years up to 2009-10.

The impact of past efficiency savings on the average household bill along with a reduction for future efficiency improvements are published at each price review in Ofwat's Final Determinations publication.

Drinking water in England and Wales is of a very high quality. Between 1994 and 2003 tests were taken according to the Water Supply (Water Quality) Regulations 1989 that arose from the 1980 Drinking Water Directive. Table 1 shows a year-on-year improvement in compliance with the standards. Table 2 shows the reduction in the numbers of samples failing to meet standards.

Table 1: Drinking Water Quality

	Overall compliance with Regulatory standards (Percentage)
1994	99.28
1995	99.45
1996	99.70
1997	99.75
1998	99.78
1999	99.82
2000	99.83
2001	99.86
2002	99.87
2003	99.88
2004[1]	99.94
2005[1]	99.96

[1] New regulations applied from 2004

Table 2: Drinking Water Quality

	Total number of breaches of standard
1994	25,171
1995	17,341
1996	9,107
1997	7,434
1998	6,245
1999	5,148
2000	4,475
2001	4,054
2002	3,741
2003	3,418
2004[1]	1,145
2005[1]	955

[1] New regulations applied from 2004

Both bathing water quality and river water quality have also improved. Monitoring by the Environment Agency has shown compliance with the mandatory standard of the Bathing Water Directive has risen from 79.3 per cent. in 1990 to 98.8 per cent. in 2005. Compliance with its more stringent guideline standard has risen from 34.2 per cent. in 1990 to 83.8 per cent. in 2005.

In England, 62 per cent. of rivers were of good quality in 2004 compared with 43 per cent. in 1990. In all years since 1993 over 90 per cent. of rivers in Wales have been of good chemical quality. Table 3, shows the chemical quality of rivers from 1990-2004.

Further improvements in water quality are anticipated as the Water Framework Directive is implemented between now and 2015. Based on a more sophisticated understanding of water quality than existing assessment methods, this Directive sets demanding targets for the ecological and chemical quality of surface waters and chemical and quantitative quality of groundwaters.

Ofwat publishes leakage figures by company, in its annual security of supply, leakage and efficient use of water report. Table 4, shows leakage rates from 1990-91, which is the earliest year that figures are available.

FOREIGN AND COMMONWEALTH OFFICE

Advertising Campaigns

Lynne Featherstone: To ask the Secretary of State for Foreign and Commonwealth Affairs what advertising campaigns the Department ran between 2000 and June 2004; and what the *(a)* date and *(b)* cost was of each. [87063]

Mr. Hoon: The information requested is as follows:

Foreign and Commonwealth Office services recruitment: April 2000-March 2001

	Date	£
Overall recruitment advertising costs	2000	56,707
Specialist recruitment		
Regional medical officer	April 2000	7,535
Research analysts	May 2000	9,640
Management accountant	May 2000	8,525
Technology manager	May 2000	13,488
ICT manager	May 2000	12,546
Chief executive, FCO services	May 2000	16,880
Economists	July 2000	33,901
Conflict management adviser	July 2000	32,672
Information officer	July 2000	5,750
Research Analysts	July 2000	26,097
Accountants	September 2000	69,243
Regional financial officer	January 2001	25,206
Assistant legal adviser	March 2001	23,966

Foreign and Commonwealth Office services recruitment: April 2001-March 2002

	Date	£
Overall recruitment advertising costs	2001	194,061
Specialist recruitment:		
Regional medical officer	May 2001	22,920
Research analysts	May 2001	25,208
Nurse	May 2001	28,242
Employment law officer	June 2001	30,764
Research officer	July 2001	37,900
Head of HR statistics	July 2001	43,952
Accountants	July 2001	37,683
Regional medical officer	July 2001	21,444
Auditors	October 2001	24,945
Research analysts	November 2001	34,427
Forward planner	January 2002	28,025

Foreign and Commonwealth Office services recruitment: April 2001-March 2002

	Date	£
Communications support worker	February 2002	8,713
Legal researcher	February 2002	3,604
Assistant legal adviser	February 2002	30,870
Senior editor	February 2002	33,259
Generalist recruitment		
Administrative assistants	2001	20,293
Executive assistants	2001	37,634
Operational officers	2001	38,913
Management officer	March 2001	60,340
General advertising		
Diversity advertising	2001	203,050

Foreign and Commonwealth Office services recruitment: April 2002-March 2003

	Date	£
Contracts manager	April 2002	3,800
Deputy head of global procurement	April 2002	5,690
Professional and technology officer	April 2002	8,323
Assistant workshop supervisor	May 2002	180
Nursery nurse	April 2002	353
Nursery manager	July 2002	2,841
Head of technical security	May 2002	12,288
Field investigating officers	September 2002	7,350
Mail room assistants	November 2002	900
Assistant Government butler	March 2003	5,228
French/German translator	March 2003	157
Nursery assistant	March 2003	2,323
I.T helpdesk, systems developer, I.T analyst	March 2003	7,936
Computer and electronic engineer apprentice	March 2003	9,212
Nursery assistant	March 2003	2,323
Specialist recruitment		
Accountants	April 2002	28,810
Research analysts	May 2002	20,765
1st Secretary France/2nd Secretary Taiwan	September 2002	22,661
2nd Secretary science and technology	September 2002	13,980
Managing editor	September 2002	9,819

Foreign and Commonwealth Office services recruitment: April 2002-March 2003

	Date	£

Generalist recruitment information for 2000 can only be obtained at disproportionate cost.

Afghanistan

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment she has made of the current threat to the authority of the Afghanistan government by non-statutory and illegal armed groups in Afghanistan; and what progress has been made towards their disbandment in accordance with the Afghanistan Compact. [86559]

Margaret Beckett: Although non-statutory and illegal armed groups present an obstacle to extending the authority of the Afghan Government, we do not assess that they pose a serious threat to stability. We assess that the recent upsurge in violence in the south of Afghanistan is in part—if not wholly—a response to the Coalition's current vigorous activity in the area, and that overall it does not represent an increased threat to the stability of the Afghan state. However, the International Community and the Afghan Government are monitoring the situation closely.

The Afghanistan Compact sets the goal for disbandment of all illegal armed groups by the end of 2007. Since the start of the Disbandment of Illegal Armed Groups process in June 2005, over 24,000 weapons have been handed in.

Africa (Chinese Migrant Workers)

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment she has made of the impact on each African state's economy of Chinese migrant workers. [86722]

Mr. McCartney: My right hon. Friend the Foreign Secretary has made no assessment of the impact on each African state's economy of Chinese migrant workers. The best way for Africa to reduce poverty and meet the Millennium Development Goals is through increased trade and investment. The movement of people to Africa, where well managed, can bring benefits to African economies and new skills, technology and knowledge which support growth and development. The Government have raised common issues of interest in Africa with the Chinese Government and we will continue to encourage China to engage with Africa in a way that reinforces the principles set out in the African-led New Partnership for Africa's Development agenda of democracy, transparency, promotion of peace and stability, competitiveness and sustainable growth.

African Migrants

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs who represented the UK at the European-African Migration Conference in Morocco; and what the UK's policy is on *(a)* African migration to Europe and *(b)* Africans who migrate to the Canary Isles. [86724]

Mr. Hoon: I represented the UK at the Euro-African Conference on Migration and Development that took place in Rabat from the 10-11 July.

The UK continues to work closely with EU and African partners to address migratory flows from Africa across the Mediterranean. In December 2005, at

the last European Council under the UK presidency, member states agreed the "Global Approach to Migration" paper, a comprehensive, practical guide to managing migration in partnership with third countries in Africa and the Mediterranean. It lays out a number of priority actions, including:

following the Rabat conference on West Africa, the development of regional initiatives examining further migration routes through co-operation with source, transit and destination countries;

enhanced co-ordination and increased sharing of information within member states' networks of Immigration Liaison Officers on key illegal immigration routes in Africa;

support for a Regional Protection Programme in Tanzania, designed to strengthen the capacity of Tanzanian institutions to protect refugees;

a risk analysis compiled by Frontex, the EU Border Agency, on irregular migration flows through Africa, and two feasibility studies, one exploring the possibility of a regional network to reinforce maritime controls and surveillance in the Mediterranean and a second to examine the technical feasibility of establishing a surveillance system to cover the entire southern EU maritime border.

The UK particularly supports work that seeks to strengthen the commitment of all partners, African and European, to work together to maximise the benefits of well-managed legal migration and minimise the risks of uncontrolled, illegal immigration.

In addition to this long-term approach, the UK is also working to address the impact of sudden influxes of migrants. In response to the ongoing crisis in the Canaries, the UK is deploying two immigration officials to the area to assist in conducting nationality and identity interviews with intercepted migrants. Malta also faces acute socio-economic challenges as a consequence of illegal sea-borne migration from North Africa. In response to a request from the Maltese authorities via Frontex, the UK has deployed an official to Malta to assist with nationality and identity interviewing, offered strategic advice on returns and, pending the outcome of a forthcoming planning meeting, will assess the possibility of offering further assistance through an expert in maritime intelligence and experts in de-briefing irregular migrants for the purposes of intelligence gathering.

British Embassies (Security)

Anne Moffat: To ask the Secretary of State for Foreign and Commonwealth Affairs whether Group Four Security provides security services at British embassies abroad. [87125]

Mr. Hoon: Our 233 diplomatic missions abroad have delegated authority to arrange contracts for security services locally. Details of these contracts are not held centrally in London and could be established only at a disproportionate cost. However, at a recent management conference to discuss administration issues for our posts in Europe, it emerged that Group Four is the largest security provider for these posts.

Chevening Scholarships

Dr. Kumar: To ask the Secretary of State for Foreign and Commonwealth Affairs how many Chevening Scholarships were awarded in each of the last three years. [88002]

Mr. Hoon: The number of Chevening Scholarships awarded in each of the last three years were 2,387 in the academic year 2002-03; 2,401 in 2003-04 and 2,124 in 2004-05.

Dr. Kumar: To ask the Secretary of State for Foreign and Commonwealth Affairs how many Chevening Scholarships were awarded to students from *(a)* India, *(b)* Malaysia, *(c)* China, *(d)* Pakistan and *(e)* Korea in each of the last five years. [88003]

Mr. Hoon: The number of Chevening Scholarships awarded to students from the countries listed is set out as follows:

Country	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*
India	135	130	133	121	130
Malaysia	54	48	57	56	36
China (including Hong Kong)	224	211	290	311	277
Pakistan	51	51	57	62	52
Korea (South)	66	82	75	71	67

Computing Equipment

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* USB (i) flash drives and (ii) memory sticks, *(b)* compact discs, *(c)* DVD-ROM discs, *(d)* laptop computers, *(e)* external computer hard drives, *(f)* internal computer hard drives and *(g)* desktop computers were purchased for use in her Department in each month since March 2005. [88758]

Mr. Hoon: As my right. hon. Friend the then Foreign Secretary (Mr. Straw) explained to the hon. Member in his answer of 23 January 2006, *Official Report*, columns 1795-97W, while core IT equipment is centrally provided, the Foreign and Commonwealth Office also operates a devolved system of budgeting under which Directorates and overseas posts have freedom to buy a range of IT and other equipment to support their work.

These purchases are not recorded centrally and a full answer would require extensive research and could not be provided without incurring excessive cost.

Departmental Employees (Criminal Activity)

Simon Hughes: To ask the Secretary of State for Foreign and Commonwealth Affairs how many of her Department's employees have been *(a)* dismissed, *(b)* suspended and *(c)* subject to disciplinary action for criminal activity in each year since 1997. [88454]

Mr. Hoon: We do not keep records which show specifically when criminal activity may have been a reason for disciplinary proceedings to be instigated. Members of the Foreign and Commonwealth Office can be dismissed for gross misconduct because they have failed to adhere to staff regulations which form part of the terms and conditions of service. The total number of UK based staff who were dismissed for reasons of misconduct, but not necessarily involving criminal activity, are as follows:

	Number
1997	—
1998	—
1999	—
2000	—
2001	1
2002	1
2003	5
2004	2
2005	2
2006 to date	3

We do not keep historical data of staff who have been suspended. The current position is that there are three members of staff suspended from duty.

Disabled Staff

Danny Alexander: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was paid to her Department from the Access to Work Scheme for adjustments for disabled staff in the last year for which figures are available; from what budget she plans to meet the costs of reasonable adjustments for disabled staff following withdrawal of Access to Work funding for central Government departments; and if she will make a statement. [89020]

Mr. Hoon: The total amount received from the Department for Work and Pensions (DWP) for Access to Work funding last year was £88,900.59. This figure does not include funding claimed by staff direct from the DWP. Staff who do claim such support are under no obligation to notify the Foreign and Commonwealth Office.

From October 2006, when Access to Work funding from the DWP will cease, these costs will be covered from central FCO Human Resources budgets.

Environmental Standards

Chris Huhne: To ask the Secretary of State for Foreign and Commonwealth Affairs whether her Department *(a)* is committed to the achievement of environmental management to ISO 14001 standard and *(b)* has been externally certified as in compliance with that standard; and if she will make a statement. [81184]

Mr. Hoon: The Foreign and Commonwealth Office is committed to managing its estate in a sustainable manner and has operated an ISO 14001 certified Environmental Management System (EMS) at our main building in London since 2002, extended to the old Admiralty building in 2004. We are integrating this EMS with the EMS operating on our rural site at Hanslope Park in Buckinghamshire and plan to extend ISO certification to Hanslope Park in the autumn.

Falkland Islands

Mr. Ian Austin: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment she has made of the recent decision of the Argentine Parliament to establish a commission which will investigate how to win control of the Falkland Islands. [86425]

Mr. Hoon: The Argentine Congressional Observatory on the Falkland Islands was established on 29 June, with the purpose of bringing together Argentine academics and legislators to promote communication and dialogue about the Falkland Islands.

The Government and the Falkland Islands Government remain ready to explore ways of improving practical co-operation with Argentina on issues of mutual benefit. However, we have made consistently clear to the Argentine Government that there can be no negotiations on sovereignty unless and until such time as the Falkland Islanders so wish.

Hobsbawn and Macauley Communications

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs how much her Department has paid to Hobsbawn and Macauley Communications for services in each year since 1997. [88062]

Mr. Hoon: No payments have been made by the Foreign and Commonwealth Office to this supplier in the UK in this period. Information is not held centrally on payments made by posts to suppliers and it would incur disproportionate costs to ask posts to provide this information.

IT Contracts

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs which IT contracts awarded by her Department in each of the last five years have been abandoned; and what the value was in each case. [88991]

Mr. Hoon: The only significant IT contract cancelled by the Foreign and Commonwealth Office in the last five years was the Focus Programme, as outlined in a written statement on 28 April 2003, *Official Report*, column 2WS. The net cost of cancelling the relevant contract was £7 million, as set out by the then Foreign Secretary, my right hon. Friend the Member for Blackburn (Mr. Straw) in answer to a written question from the right hon. and learned Member for Devizes (Mr. Ancram) on 7 May 2003, *Official Report*, column 738W.

Lebanon

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs when she expects the Security Council to consider the proposed UN stabilisation force in Lebanon; and if she will make a statement. [87755]

Mr. Hoon: We welcome the adoption of UN Security Council Resolution (UNSCR) 1701. The resolution's objectives are clear: to bring about a full cessation of hostilities; to create the space for an urgent humanitarian relief effort; and to begin a process leading to a permanent ceasefire and a durable peace.

Urgent work is under way to strengthen the UN force in Lebanon as quickly as possible, to carry out the range of important new tasks set out in UNSCR 1701. The force will need to be built up from around 2,000 at present to a maximum of 15,000. This is the responsibility of the UN, which will need to work quickly with potential troop providers to build up the force and agree operational plans.

We strongly welcome the contributions announced by EU member states at the 25 August General Affairs and External Relations Council.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment had been made prior to 12 July of progress towards the general disarmament of all Lebanese and non-Lebanese militia in Lebanon in accordance with Security Council Resolution 1559. [88119]

Margaret Beckett: In his report of 26 April 2006 to the UN Security Council, the UN Secretary-General's Special Envoy for the Implementation of UN Security Council Resolution 1559 noted that the Government of Lebanon had taken measures to limit the existence of Palestinian arms outside the refugee camps, but more remained to be done. The UN Secretary-General's Special Envoy also recorded that there had been no noticeable change in the operational status and capabilities of Hezbollah.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what the names are of the *(a)* Lebanese and *(b)* non-Lebanese militias within Lebanon that must be disarmed in accordance with Resolution 1559. [88120]

Margaret Beckett: UN Security Council Resolution (UNSCR) 1559 does not specify individual militias within Lebanon. In his report to the Security Council on 8 October 2004, the UN Secretary-General's Special Envoy for the Implementation of UNSCR 1559 identified the most significant remaining armed group in Lebanon as Hezbollah. He also referred to the need to disarm the Palestinian armed groups in Lebanon.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what the most recent assessment prior to 12 July was of *(a)* the size and active strength of the Hezbollah militia and *(b)* progress towards its disarmament. [88121]

Margaret Beckett: Prior to 12 July, the Ministry of Defence assessed that Hezbollah's military wing comprised some 1,000 full time personnel, augmented by reservists in times of crisis, and possessed as many as 13,000 rockets.

In his April 2006 report, the Special Representative to the UN Secretary-General noted that

"the provisions of resolution 1559 (2004) calling for the disbanding and disarmament of all Lebanese and non-Lebanese militias, the extension of the control of the Government of Lebanon over all Lebanese territory, and strict respect of the sovereignty, territorial integrity, unity and political independence of Lebanon under the sole and exclusive authority of the Government have not yet been fully implemented".

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs when the last discussion prior to 12 July took place between her Department and the government of Lebanon regarding the disarmament of Hezbollah in accordance with Security Council Resolution 1559; and if she will make a statement. [88122]

Margaret Beckett: There is regular and close contact between the UK and the Government of Lebanon, including discussions about the disarmament of Hezbollah in accordance with UN Security Council Resolution (UNSCR) 1559. The subject was discussed when my right hon. Friend the Prime Minister met the Prime Minister of Lebanon, Fuad Siniora, on 9 May this year. The UK supports full implementation of UNSCR 1559, including the disarmament of Hezbollah and the efforts of the Lebanese Government to assert its sovereignty and authority throughout its territories.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs when the extent of Hezbollah involvement in terrorist activity was last reviewed; and what the finding of the review were. [88125]

Mr. Hoon: The Government are keeping Hezbollah's activities under constant and active review. We have condemned Hezbollah's recent actions. Hezbollah's External Security Organisation has been a proscribed organisation in the UK since 2001. As the Minister of State for Policing, Security and Community Safety my hon. Friend the Member for Harrow, East (Mr. McNulty) told the House on 20 July 2006, *Official Report*, column 490, the list of proscribed organisations is kept under constant review.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs if she will arrange for a copy of the most recent report of the UN Secretary-General's Special Envoy for the implementation of UNSCR 1559 to be placed in the Library. [88126]

Margaret Beckett: A copy of the April 2006 report from the UN Secretary-General's Special Envoy for the implementation of UN Security-Council Resolution 1559 will be placed in the Library of the House. I will also arrange for officials to send a copy of the report to the right hon. Member.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what form of support the UK Government have provided to the Government of Lebanon over the last five years to the extension of the control of the Government of Lebanon over all Lebanese territory; and if she will make a statement. [88128]

Margaret Beckett: The UK played a leading role in passing UN Security Council Resolution 1559 in September 2004. This called for withdrawal of all foreign forces from Lebanon and supported the extension of the control of the Government of Lebanon over all Lebanese territory. Since Syrian troops withdrew in April 2005, we have been giving practical assistance to the Lebanese Government to

help it assert its authority over its territory. This has included sending UK experts to advise on security sector reform, training courses for the Lebanese security forces and a visit by a UK military team to review equipment requirements for the Lebanese armed forces in its new role.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment had been made prior to 12 July 2006 of progress towards the extension of the control of the Government of Lebanon over all Lebanese territory in accordance with Security Council Resolution 1559; and if she will make a statement. [88129]

Margaret Beckett: When the UN Secretary General's Special Envoy for the Implementation of UN Security Council Resolution 1559 presented his report to the Security Council on 26 April 2006 he concluded that the Government of Lebanon still did not fully exert control over all Lebanese territory. He noted that

"the primary factors impeding the extension of Lebanese Government control over all of Lebanon's territory are the existence of armed groups outside the control of the Lebanese Government and uncertainty over the exact boundaries of the Lebanese territory. Timely implementation of tangible measures towards the disarming and disbanding of Lebanese and non-Lebanese militias and towards the delineation of the border between the Syrian Arab Republic and Lebanon will be an important step towards the extension of the Government's control over all its territory".

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs with which countries the Government have held discussions on the possibility of a new United Nations force for Lebanon; and with which other countries discussions are planned. [89156]

Mr. Hoon: There are ongoing meetings in New York on details of the new United Nations Interim Force in Lebanon. A number of countries have indicated a willingness to contribute. My right hon. Friend the Prime Minister has spoken to UN Secretary General Annan as well as his Lebanese, French and Italian counterparts. My right hon. Friend the Foreign Secretary has also been in regular touch with her US and Egyptian counterparts.

During the visit to the region of the Minister of State for the Middle East, my hon. Friend the Member for Pontypridd (Dr. Howells), on 22 to 24 July, he discussed this with his Lebanese, Israeli and Jordanian interlocutors. More recently my right hon. Friend the Foreign Secretary has discussed this matter with the French Foreign Minister.

We also remain in regular contact at official level with our international partners.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations she has received regarding the setting up of a reconstruction fund for Lebanon; and if she will make a statement. [89157]

Mr. Hoon: We will play our full part in the humanitarian and reconstruction effort. My right hon. Friend the Prime Minister has been in direct touch with Lebanese Prime Minister Siniora about ways in which the UK can support the recovery effort, including through providing emergency bridging to help the flow of assistance. During his visit to Beirut on 15 August, my right hon. Friend the Secretary of State for International Development announced an additional £6 million of humanitarian assistance, bringing the total contribution to £12.5 million. UK funding has so far helped to provide and deliver food, water, health, hygiene, other essential supplies and mine-clearing activities.

Middle East

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans she has to visit the Middle East. [87556]

Mr. Hoon: My right hon. Friend the Foreign Secretary continues to be engaged with developments in the Middle East and will travel to the region soon. On 21 July my noble Friend the Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs, Lord Triesman of Tottenham, visited Cyprus to see British evacuation operations and meet British nationals who have been evacuated from Lebanon. On 22-24 July the Minister of State for the Middle East, my hon. Friend the Member for Pontypridd (Dr. Howells) visited the region. On 22 July he met with Lebanese Prime Minister Siniora and Lebanese Foreign Minister Salloukh and others. On 23 July he met Palestinian President Abbas and Israeli Foreign Minister Livni to raise our concerns about the situation. On 24 July, he also visited Amman meeting with Jordanian Prime Minister Bakhit and his Royal Highness Prince Faisal.

My right hon. Friend the Prime Minister intends to visit the region, in particular Israel and Palestine, over the coming period, and will consult those there and of course members of the Quartet on the best way forward. Our priority must be to create the conditions for an early resumption of negotiations based on the Quartet Roadmap. Negotiation is the only viable way to bring peace and prosperity to the people throughout the Middle East.

Ministerial Meetings

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs when she last met the Scottish First Minister; and what subjects were discussed. [88765]

Dr. Howells: Ministers have regular dialogues with ministerial colleagues in the Scottish Executive, discussing a wide range of issues of mutual interest. It is not our practice to disclose details of such meetings.

Nigeria

Mr. Streeter: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions the UK Government have had with *(a)* the Nigerian Government and *(b)* the chairman of the Independent National Electoral Committee on the transparency of the forthcoming Nigerian presidential elections. [88298]

Mr. McCartney: Our high commission in Abuja regularly discusses preparations for elections in 2007 with the Nigerian Government. We are also working

closely with Nigeria's Independent National Electoral Commission (INEC) to ensure elections are peaceful and as transparent as possible. Most recently, officials from the Foreign and Commonwealth Office and the Department for International Development discussed election preparations with the chairman of INEC in London on 11 July.

Mr. Streeter: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the UK Government plan to send monitors to the forthcoming Nigerian presidential elections. [88299]

Mr. McCartney: The Government's contribution to external monitoring of elections in Nigeria next year will principally be through the EU's Election Observation Mission. We plan to send observers as part of this mission.

A team from our high commission in Abuja will also participate in elections monitoring.

Outsourcing

Mr. Gauke: To ask the Secretary of State for Foreign and Commonwealth Affairs what administrative functions for which her Department is responsible are outsourced overseas; and what assessment she has made of the merits of outsourcing further such functions overseas. [81552]

Mr. Hoon: None of the Foreign and Commonwealth Office administrative functions, which would normally be managed in the UK, are outsourced overseas.

Some customer-facing aspects of our overseas visa operation are outsourced to commercial partners in several countries. This provides applicants with more convenient locations at which to apply and has eliminated queues and attendant security problems at our diplomatic missions. Precise details vary from country to country and are set out in commercial service level agreements. Local partners receive applications with supporting documents which are sent on to visa sections in diplomatic posts. Under no circumstances do they assess applications or advise on likely outcomes. We are considering further expansion of this activity through a public contract procurement process.

Questionnaires

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* questionnaires, *(b)* statistical inquiries and *(c)* investigations have been carried out wholly or partly at public expense on behalf of or by her Department or public bodies for which she is responsible in each year since 1997; and what the (i) nature, (ii) purpose and (iii) cost was of each. [83181]

Mr. Hoon: This information is not held centrally and to collate it would incur disproportionate cost.

Royal Visits

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 22 June 2006, *Official Report*, column 2152W, on the Royal visit (USA), what elements made up the other reimbursements to the household totalling £8,497.45 referred to in the answer. [87798]

Margaret Beckett: The elements of the other reimbursements to the household totalling £8,497.45 referred to in the reply I gave my hon. Friend on 22 June 2006, *Official Report*, column 2152W, are made up as follows:

Daily Allowances
Travel Insurance
Stationery
Telephone costs
Taxis
Toll charges
Airport parking
Fuel charges
Hotel room charges
Meals
Laundry
Combination padlocks
Gratuities

Russian Federation

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment she has made of the extent to which the Russian Federation is complying with the provisions of the Energy Charter Treaty. [86250]

Mr. Hoon: The UK, with other G7 members, has encouraged Russia to move forward during its G8 Presidency and ratify the Energy Charter Treaty, of which it is already a signatory and applies on a provisional basis.

The UK is concerned that the proposed Russian Gas Export law would appear to contradict several of the major provisions of the Energy Charter Treaty, including the provisions on Transit. Through the EU, we continue to work with Russia towards an agreed text for the Transit Protocol while at the same time emphasising to Russia the importance of open, transparent, efficient and competitive markets at all stages of the energy supply chain as the key to global energy security.

UN Small Arms and Light Weapons Review

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs what the outcome was of the UN Small Arms and Light Weapons Review conference; which *(a)* Ministers and *(b)* officials from her Department attended the conference; and if she will make a statement. [87174]

Dr. Howells: It was very disappointing that the UN Small Arms Review Conference failed to agree an outcome document. However, we made progress on our main objectives. We secured consensus language on small arms transfer controls and increased support for integrating small arms control and armed violence reduction measures into development assistance.

The Parliamentary Under-Secretary of State for International Development, my hon. Friend the Member

for Harrow, West (Mr. Thomas), represented the UK at the High Level Segment of the Conference, supported by officials from the Foreign and Commonwealth Office, the Department for International Development and the Ministry of Defence.

US-UK Extradition Treaty

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs how many representations she has received on the US-UK Extradition Treaty in 2006. [88328]

Mr. McCartney: The hon. Member for Reigate (Mr. Blunt) raised concerns about the US-UK Extradition Treaty during a debate in this House on 21 March 2006, *Official Report*, column 166, following which my right hon. Friend the Member for Blackburn, the then Foreign Secretary (Mr. Straw) wrote to US Secretary of State Condoleezza Rice on 20 April about the matter. A copy of that letter has been placed in the Library of the House.

My right hon. Friend the Foreign Secretary has not received any representations about the US-UK Extradition Treaty.

TRADE AND INDUSTRY

Bankruptcy

Willie Rennie: To ask the Secretary of State for Trade and Industry how many people have declared themselves bankrupt in *(a)* the UK, *(b)* Scotland and *(c)* Dunfermline and West Fife in each year since 1997. [89043]

Jim Fitzpatrick: The DTI only has responsibility for bankruptcies within England and Wales.

The following table shows the number of bankruptcy orders in England and Wales in each year since 1997.

England and Wales bankruptcy orders

	Number
1997	19,892
1998	19,647
1999	21,611
2000	21,550
2001	23,477
2002	24,292
2003	28,021
2004	35,898
2005	47,291

Bolt Guns

Chris Huhne: To ask the Secretary of State for Trade and Industry what checks are made on people purchasing bolt guns; and if he will make a statement. [87513]

Mr. Bradshaw: I have been asked to reply.

Captive-bolt stunning devices used in the slaughter of animals are not firearms within the definition of the Firearms Act 1968. They are regarded as tools of the trade and, as such, are not required to be held on a firearms certificate.

DNA Sequences

Mr. Willis: To ask the Secretary of State for Trade and Industry (1) if he will require companies to check the use to which DNA sequences ordered from them are to be put prior to their dispatch to customers; [79988]

(2) if he will take steps *(a)* to license suppliers of DNA sequences and *(b)* to screen customers for the legitimacy of their proposed use of DNA sequences. [79989]

Jim Fitzpatrick *[holding answers 26 June 2006]:* There are no specific regulations that govern the sale, supply, or purchase of DNA sequences. The potential chemical hazards associated with the sequence itself would be covered by the Control of Substances Hazardous to Health Regulations 2002 (as amended); if DNA sequences were to be used to create a biological agent, the Genetically Modified Organisms (Contained Use) Regulations 2000 (as amended) are likely to apply. These provide for a high level of protection for human health and the environment (including animal and plant health). In addition, the Specified Animal Pathogens Order 1998 (SAPO), administered by DEFRA, regulates possession of nucleic acid derived from any animal pathogen specified under SAPO. In all cases the relevant containment and operating requirements laid down by HSE/Defra would need to be met.

Provisions in the Anti-Terrorism, Crime and Security Act 2001 place an obligation on managers of laboratories and other premises holding specified pathogens or toxins to notify the authorities and to comply with the security requirements which the police may impose.

There is a wide range of legitimate uses to which DNA sequences may be put and the imposition of onerous controls could discourage valuable scientific research and industry use. The Government do not believe that it is necessary to require suppliers of DNA sequences to be licensed or for them to screen customers or check the intended use of the sequences. But we will continue to monitor the situation as the relevant technologies develop.

Energy (Schools)

Mr. Dai Davies: To ask the Secretary of State for Trade and Industry pursuant to paragraph 3.35 of the Energy Review, Cm 6887, what plans he has to share with his counterpart in the Welsh Assembly Government the practical lessons learned in the refurbishment of schools in England, including energy savings and carbon reductions. [86422]

Jim Knight: I have been asked to reply.

The DfES and the Welsh Assembly Government will maintain contact throughout their respective building programmes, and officials will keep each other informed of major developments which impact on energy use in schools, or which influence Government

policy with respect to the design and construction of school buildings as they arise. There is extensive published material available from the DfES on its capital programme to support the design and construction of sustainable schools. This includes minimum standards that cover energy efficiency and renewable energy for new buildings and refurbishments within the schools capital programme.

Case studies for completed school projects, energy benchmarking data, exemplar design solution and details of demonstration projects are also publicly available from the DfES.

Parliamentary Questions

Peter Luff: To ask the Secretary of State for Trade and Industry how many written questions to his Department remained unanswered at 25 July for between *(a)* two and four weeks, *(b)* between four and six weeks, *(c)* between six and eight weeks and *(d)* more than eight weeks; and how many in each category were tabled for named day answer. [87919]

Mr. Darling: According to the Department's parliamentary database the total number of unanswered parliamentary questions as at 25 July was 123.

Of these 100 were tabled for answer within the last 10 working days.

The number remaining unanswered for between two and four weeks is eight, of which only one was a named day question.

The number remaining unanswered for between four and six weeks is six, of which only one was a named day question.

The number remaining unanswered for between six and eight weeks is nine, of which named day questions totalled two.

The Department aims to ensure that Members receive a substantive response to their named day question on the named day and to answer ordinary written questions within a working week of them being tabled. This is not always possible but the Department makes every effort to achieve it.

Renewable Energy

Mr. Martyn Jones: To ask the Secretary of State for Trade and Industry how much subsidy was paid to co-firing generators using wood supplies through the Renewables Obligation Certification Scheme in *(a)* 2002 and *(b)* 2005 and what estimate his Department has made of subsidy costs to co-firing generators in 2008. [89041]

Malcolm Wicks: Under the Renewables Obligation, electricity suppliers can meet up to a specified percentage of their obligation through co-firing. In 2002-03 and 2005-06, this was 25 per cent. It will be 10 per cent. in 2008-09.

Mr. Martyn Jones: To ask the Secretary of State for Trade and Industry what percentage of the UK's total biomass requirements was supplied from harvesting of energy crops in 2005-06 and what he expects this percentage to be in 2012. [89042]

Malcolm Wicks: Short rotation coppice and miscanthus accounted for approximately 0.1 per cent. of the biomass co-fired in the 2005-06 Renewables Obligation compliance period—1 April to 31 May. The Government do not hold data on the use of energy crops in dedicated biomass plant.

The Government are keen to encourage the greater use of energy crops in co-firing, and the recent Energy Review Report (http://www.dti.gov.uk/energy/review/page31995.html) contains a number of proposals in this area. These will be subject to further consultation.

Mr. Breed: To ask the Secretary of State for Trade and Industry what estimate his Department has made of the amount of UK-sourced wood that would be consumed by co-fired power stations in each year between 2006 and 2012. [89147]

Malcolm Wicks: Under the Renewables Obligation, electricity suppliers are currently allowed to meet up to 10 per cent. of their Obligation from co-firing of biomass in fossil fuel stations. This will decrease to 5 per cent. for the 2011-12 compliance period—1 April to 31 March.

Restriction of Hazardous Substances Directive

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry, pursuant to the answer of 3 July 2006, *Official Report*, columns 864-65W, on the Restriction of Hazardous Substances (RoHS) Directive, what assessment he has made of the extent to which *(a)* the UK interpretation by the National Weights and Measures Laboratory (NWML), as the appointed enforcement agency for RoHS, conforms with his Department's published guidance material, *(b)* his Department's guidance conforms with the European Commission's original intent and *(c)* the NWML guidance conforms with the European Commission's original intention for the Directive; and which guidance is to take precedence in the UK for the RoHS Directive. [R] [88425]

Malcolm Wicks: As I said in my earlier answer, the only legally binding texts are the Directive and UK Regulations. The European Commission and the UK Government have each issued non-statutory guidance documents that aim to clarify the intent of the original legislation. NWML will enforce the RoHS Directive in line with the UK RoHS Regulations (SI 2006 No. 1463).

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry, pursuant to the answer of 3 July 2006, *Official Report*, columns 864-65W, on the Restriction of Hazardous Substances (RoHS) Directive, what assessment he has made of the UK interpretation by the National Weights and Measures Laboratory as the appointed enforcement agency for RoHS, of the parts of the European Commission's Frequently Asked Questions document relating to the exemption of fixed industrial manufacturing machinery as large-scale stationary industrial tools; and if he will ask the Commission to provide him with a report on whether guidance in that document is applied consistently across all member states. [R] [88426]

Malcolm Wicks: Large-scale stationary industrial tools are specifically mentioned as being outside the scope of Category 6 of the RoHS and WEEE Directives. The term 'fixed installations' does not appear in the Directive, but derives from Article 2 (1) of the WEEE Directive. In its Frequently Asked Questions non-binding guidance document, the European Commission refers to the definition of fixed installation that has been developed in connection to the Electromagnetic Compatibility (EMC) Directive and lists them as outside scope.

Following discussions held in Brussels, the UK has understood that 'fixed installations' is a general derogation applying across all the categories in both Directives. Recently this understanding has been discussed by the Technical Adaptation Committee of Member States that is chaired by the Commission. It will now be up to the Commission to decide whether or not to revise its Frequently Asked Questions document, but as it stands that document currently reflects the UK's understanding.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry, pursuant to the answer of 3 July 2006, *Official Report*, columns 864-65W, on the Restriction of Hazardous Substances Directive, if he will ask the Commission to assess whether the actions of *(a)* Germany *(b)* Spain and *(c)* other member states on the exemption of fixed industrial manufacturing machinery as large-scale stationary industrial tools are in conformity with the Directive, and what assessment he has made of whether the National Weights and Measures Laboratory's guidance goes beyond the requirements imposed by the Restrictions of Hazardous Substances Directive. [R] [88427]

Malcolm Wicks: Since RoHS is a Single Market Directive (based on Article 95 of the EU Treaty) that aims to harmonise member states' legislation on the restriction of the use of hazardous substances in electrical and electronic equipment, it should be implemented in the same way across the European Union.

Large-scale stationary industrial tools are specifically excluded from the scope of RoHS. The term "fixed installations" appears not in the text of the Directive, but in the European Commission's non-legally binding guidance document. This definition is currently under review but as it stands it reflects the UK's understanding.

NWML enforces the RoHS Directive in line with the UK RoHS Regulations (SI 2006 No. 1463), paying due regard to both the European Commission and UK Government's guidance documents.

HEALTH

"Choosing Health" Agenda

Julia Goldsworthy: To ask the Secretary of State for Health (1) what requirement her Department places on strategic health authorities to report the rerouting of allocations from the "Choosing Health" agenda to offset deficits; and if she will make a statement; [89119]

(2) which strategic health authorities have reported to her that money allocated for the "Choosing Health" agenda has been rerouted to offset deficits. [89120]

Andy Burnham: The 2006-07 and 2007-08 revenue allocations to primary care trusts (PCTs) identify £211 million in 2006-07 and £342 million in 2007-08 to support implementation of the "Choosing Health" White Paper. This funding is not ring-fenced within the revenue allocations and it is for individual PCTs to decide how to use their allocations.

Key "Choosing Health" deliverables are reflected in local delivery plans and monitored through public service agreements.

Abortion

Mr. Amess: To ask the Secretary of State for Health how many abortions were performed on girls aged *(a)* 10, *(b)* 11, *(c)* 12, *(d)* 13, *(e)* 14, *(f)* 15, *(g)* 16 and *(h)* 17 years of age in 2005; and how many were performed to save the life of the pregnant woman. [88544]

Caroline Flint: The information is set out in statistical bulletin 2006/01, "Abortion Statistics, England and Wales: 2005" copies of which are available in the Library and also on the Department's website at www.dh.gov.uk/assetRoot/04/13/68/59/04136859.pdf.

For confidentiality reasons, no age and ground breakdowns are available other than the detail published in the bulletin.

Mr. Amess: To ask the Secretary of State for Health what proportion of women having an abortion in 2005 were married at the time of the abortion; what the statistical mode figures were for *(a)* the age of the woman, *(b)* the gestation of the pregnancy, *(c)* the number of previous children born to the woman and *(d)* the number of previous abortions undergone by the woman; and what the most common legal grounds were under which the abortion was performed. [88545]

Caroline Flint: In 2005, 17 per cent. of women having terminations were recorded as married. For all women residents in England and Wales the statistical mode in 2005 for:

age, was 20 years;

gestation, was eight weeks;

number of previous children, was no previous children; and

number of previous abortions, was no previous abortion.

The most common ground (96 per cent. of all abortions) was that the pregnancy had not exceeded its 24th week and that the continuance of the pregnancy would involve risk, greater than if the pregnancy were terminated, of injury to the physical or mental health of the pregnant woman.

Mr. Amess: To ask the Secretary of State for Health how many women in *(a)* Essex and *(b)* Bedford and Hertfordshire Strategic Health Authority had an abortion in 2005 who had already had (i) one, (ii) two, (iii) three, (iv) four and (v) five or more previous abortions. [88546]

Caroline Flint: The information is set out in the following table.

Number of previous terminations[1] among women resident in Bedfordshire and Hertfordshire and Essex Strategic Health Authorities having terminations in 2005

Number of previous terminations

SHA	0	1	2	3	4 and more[2]	Total
Bedfordshire and Hertfordshire	3,484	1,302	297	83	41	5,207
Essex	3,463	1,146	325	84	29	50,47

[1] This is across the duration of a woman's reproductive life-cycle (approximately ages 15-49)
[2] Group shown for totals 10 or more, in accordance with guidance from the Office for National Statistics

Access to Work Scheme

Roger Berry: To ask the Secretary of State for Health how many disabled staff in her Department received support through the Access to Work scheme *(a)* in each of the last five years and *(b)* in 2006-07. [82228]

Mr. Ivan Lewis: The Department does not collect the numbers of disabled staff receiving adaptations and equipment paid for by access to work.

The Office of Disability Issues will be monitoring the situation to ensure that there is no detriment to current and future employees who are disabled.

Accident and Emergency Services

Steve Webb: To ask the Secretary of State for Health, pursuant to the answer of 22 May 2006, *Official Report*, column 1548W, on accident and emergency services, if she will list the hospitals in each category. [88835]

Ms Rosie Winterton: National health service trusts self-report the number of accident and emergency (A and E) services they provide against definitions set by the Department for the three types of A and E. The Department does not collect information at the level of individual hospitals. My reply on 7 June 2006, *Official Report*, column 707W, on A and E services, gave the number of A and E departments, by trust and by type.

Accident Reporting

Colin Burgon: To ask the Secretary of State for Health what assessment the Department has made of the potential impact of the introduction of greater commercial pressures on healthcare providers in the NHS on the reporting of accidents and systems failure. [85279]

Andy Burnham: The Department has not undertaken a formal assessment. However, patient safety and clinical quality remain, at the heart of the national health service reforms and the changes will strengthen the incentives on provider organisations to improve the clinical quality of the services they offer to patients. Experience from leading-edge organisations in the United Kingdom and other countries shows that safe care is also efficient care.

The responsible regulator will be assessing all providers against core standards of safety and quality. This assessment will include ensuring that providers have robust processes for continuous improvement of their safety, including local reporting and analysis of patient safety incidents and full participation in the national reporting and learning system. The National Patient Safety Agency will continue to work with NHS trusts to promote a culture of continuous quality improvement; reporting patient adverse events and near misses is a key component of that culture.

Commissioners may also wish to incorporate quality standards in their contracts with providers, and we will be publishing information on quality indicators to help inform patient choice. These could in future include objective measures of patient safety and clinical outcomes. Extensive comparable information on the quality and safety of care will give patients and commissioners a real understanding of the quality and services available.

Acute Trusts

Andrew George: To ask the Secretary of State for Health if she will list the acute trusts which have ended 2005-06 financial year in deficit; how much she expects the deficit outturn to be; and what proportion of overall turnover that figure represents. [87489]

Andy Burnham: The information requested is provided in the table.

The 2005-06 provisional unaudited financial position of all national health service organisations (strategic health authorities, primary care trusts and NHS trusts) was announced on 7 June and is available in the Library.

2005-06 provisional outturn—NHS acute trusts in deficit

Organisation name	Provisional outturn turnover (£000)	Provisional outturn under/(over) spend (£000)	Provisional outturn under/(over) spend as a percentage of turnover (percentage)
Surrey and Sussex Healthcare NHS Trust	160,360	(40,834)	(25.5)
West Hertfordshire Hospitals NHS Trust	207,874	(28,284)	(13.6)
North West London Hospitals NHS Trust	272,036	(24,064)	(8.8)
East and North Hertfordshire NHS Trust	246,308	(22,380)	(9.1)
South Tees Hospitals NHS Trust	318,143	(21,395)	(6.7)
Queen Mary's Sidcup NHS Trust	89,628	(19,692)	(22.0)
Queen Elizabeth Hospital NHS Trust	133,005	(19,199)	(14.4)

2005-06 provisional outturn—NHS acute trusts in deficit

Organisation name	Provisional outturn turnover (£000)	Provisional outturn under/(over) spend (£000)	Provisional outturn under/(over) spend as a percentage of turnover (percentage)
Barking, Havering and Redbridge Hosp NHS Trust	333,744	(16,009)	(4.8)
Bromley Hospitals NHS Trust	153,492	(15,765)	(10.3)
Royal Cornwall Hospitals NHS Trust	238,999	(15,687)	(6.6)
Whipps Cross University Hosp NHS Trust	176,071	(15,602)	(8.9)
United Lincolnshire Hospitals NHS Trust	288,929	(15,145)	(5.2)
University Hospital of North Staffordshire Hospital NHS Trust	299,693	(14,985)	(5.0)
Mid Yorkshire Hospitals NHS Trust	300,603	(14,589)	(4.9)
South Warwickshire Gen Hosps NHS Trust	85,002	(13,827)	(16.3)
The Royal West Sussex NHS Trust	98,278	(13,394)	(13.6)
North Tees and Hartlepool NHS Trust	178,147	(12,812)	(7.2)
Hull and East Yorkshire Hospitals NHS Trust	334,253	(12,268)	(3.7)
Shrewsbury and Telford Hospital NHS Trust	189,152	(12,142)	(6.4)
Ipswich Hospital NHS Trust	168,281	(11,905)	(7.1)
Bedford Hospitals NHS Trust	101,355	(11,887)	(11.7)
West Suffolk Hospitals NHS Trust	98,022	(11,833)	(12.1)
Brighton and Sussex Univ Hosps NHS Trust	311,858	(11,290)	(3.6)
Queen Elizabeth Hospital Kings Lynn NHS Trust	99,222	(10,986)	(11.1)

2005-06 provisional outturn—NHS acute trusts in deficit

Organisation name	Provisional outturn turnover (£000)	Provisional outturn under/(over) spend (£000)	Provisional outturn under/(over) spend as a percentage of turnover (percentage)
Worthing and Southlands Hospitals NHS Trust	138,955	(10,623)	(7.6)
Royal Wolverhampton Hospital NHS Trust	222,056	(9,423)	(4.2)
West Middlesex University NHS Trust	103,046	(9,024)	(8.8)
Barnet and Chase Farm Hospitals NHS Trust	252,053	(8,994)	(3.6)
The Lewisham Hospital NHS Trust	149,139	(8,805)	(5.9)
North Middlesex University Hosp NHS Trust	127,691	(8,166)	(6.4)
Northern Devon Healthcare NHS Trust	77,056	(7,961)	(10.3)
Ashford and St. Peter's Hospitals NHS Trust	169,011	(7,560)	(4.5)
Royal United Hospital Bath NHS Trust	166,012	(7,338)	(4.4)
George Eliot Hospital NHS Trust	83,281	(7,294)	(8.8)
Weston Area Health NHS Trust	68,733	(6,989)	(10.2)
Hinchingbrooke Health Care NHS Trust	74,271	(6,535)	(8.8)
Morecambe Bay Hospitals NHS Trust	195,801	(6,357)	(3.2)
Good Hope Hospital NHS Trust	113,492	(5,972)	(5.3)
Princess Alexandra Hospital NHS Trust	123,514	(5,857)	(4.7)
Mayday Healthcare NHS Trust	161,102	(5,847)	(3.6)
Sandwell and West Birmingham Hosps NHS Trust	313,991	(5,737)	(1.8)
Worcestershire Acute Hospitals NHS Trust	246,880	(4,975)	(2.0)

2005-06 provisional outturn—NHS acute trusts in deficit

Organisation name	*Provisional outturn turnover (£000)*	*Provisional outturn under/(over) spend (£000)*	*Provisional outturn under/(over) spend as a percentage of turnover (percentage)*
East Sussex Hospitals NHS Trust	223,811	(4,864)	(2.2)
Heatherwood and Wexham Park Hosps NHS Trust	166,656	(3,691)	(2.2)
Dartford and Gravesham NHS Trust	103,169	(3,470)	(3.4)
Winchester and Eastleigh Hlthcre NHS Trust	120,955	(3,045)	(2.5)
Northampton General Hospital NHS Trust	164,553	(2,907)	(1.8)
East Kent Hospitals NHS Trust	353,928	(2,606)	(0.7)
Plymouth Hospitals NHS Trust	291,403	(1,932)	(0.7)
Essex Rivers Healthcare NHS Trust	158,922	(1,439)	(0.9)
West Dorset General Hospitals NHS Trust	108,859	(998)	(0.9)
Swindon and Marlborough NHS Trust	157,556	(835)	(0.5)

Note:
Turnover is total operating income *Source:* 2005-06 month 12 financial monitoring returns

Alzheimer's Disease

David T.C. Davies: To ask the Secretary of State for Health what tests are used to determine whether a patient is in the *(a)* mild, *(b)* moderate and *(c)* severe stage of Alzheimer's; and how each stage is medically differentiated. [88639]

Mr. Ivan Lewis: A clinical judgment is based on several factors. These include a clinician's interview with the patient, and information from carers and others about factors such as memory and behaviour. On the basis of this information, the clinician makes a medical judgment on the stage of Alzheimer's reached. These judgments are often informed by mini-mental state examination scores. In research, a number of other skills are additionally used.

Ambulance Service

Mr. Hurd: To ask the Secretary of State for Health what the average response time to an emergency call to the Ambulance Service was in *(a)* the Ruislip-Northwood constituency and *(b)* each London borough in 2005-06. [86478]

Ms Rosie Winterton: The information is not held in the format requested, as the Department collects ambulance response time data by ambulance trust rather than by London boroughs. However, the following table shows the percentage of calls responded to within 8 to 14 minutes for the London Ambulance Service NHS Trust (LAT).

	Percentage
Category A calls responded within eight minutes	LAT - 76.6[1]
Category A calls responded within 14/19 minutes	LAT - 95.9[1]
Category B/C calls responded within 14/19 minutes	LAT - 78.8[2] 81.2[3]

[1] April 2004 to March 2005
[2] April to September
[3] October to March

Tim Farron: To ask the Secretary of State for Health what steps her Department is taking to ensure that all ambulance trusts meet national response time requirements. [88532]

Ms Rosie Winterton: The Department sets national response time requirements for ambulance trusts, and works with the Healthcare Commission to ensure that both ambulance trusts and primary care trusts, as commissioners of ambulance services, are assessed on performance against these requirements.

The Department performance-manages trusts through strategic health authorities.

The Department has made available advice and tools to support trusts, both directly and through the Modernisation Agency. In addition, in 2008 changes to performance reporting will be introduced, which will align the reported response times more closely to patients' experience. To support trusts in preparing for this change, the Department is currently giving support to ambulance trusts through the provision of advice and specialist support, and the sharing of data, analysis and best practice.

The Department is also operating a £25 million capital incentive scheme during 2006-07. A similar scheme operated in 2004-05.

Anorexia

Mr. Salmond: To ask the Secretary of State for Health how many *(a)* male and *(b)* female patients were hospitalised for anorexia in (i) 2000 and (ii) 2005; and what steps are being taken (A) to treat and (B) to prevent anorexia. [86970]

Ms Rosie Winterton: Information on finished consultant episodes of patients with a primary diagnosis of anorexia in 1999-2000 and 2004-05 is shown in the table.

In order to improve the identification, treatment and management of anorexia nervosa, the National Institute for Health and Clinical Excellence published a clinical guideline on the core interventions in the treatment and management of anorexia nervosa, bulimia nervosa and related eating disorders in 2004. The guideline covers physical and psychological treatments, treatment with medicines, and what kinds

of services best help people with eating disorders. It also includes information specifically for patients, carers and the public.

The Department's five-year initiative to tackle stigma and discrimination surrounding mental health issues in England, Shift, works with young people and professionals to promote awareness of all mental health problems including eating disorders.

The Department also supports voluntary organisations such as the Eating Disorders Association to provide information and advice for people with mental health problems in England through the mental health help lines partnership project.

Primary diagnosis (4 char)	*R630 anorexia/F500 anorexia nervosa/F501 atypical anorexia nervosa*	
Gender	*Age group*	*Finished consultant episodes (FCEs)*
Mean and median results		
2004-05		
Male	All ages	7,432
Female	All ages	10,269
Total	—	17,701
1999-2000		
Male	All ages	7,256
Female	All ages	9,583
Total	—	16,839

Notes:
1. Finished consultant episode (FCE):
An FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
2. All diagnoses count of episodes:
These figures represent a count of all FCEs where the diagnosis was mentioned in any of the 14 (seven prior to 2002-03) diagnosis fields in a Hospital Episodes Statistics record.

Anti-depressants

Mr. Burstow: To ask the Secretary of State for Health what the *(a)* number of prescription items and *(b)* prescription expenditure was for anti-depressant drugs in 2005; and what the percentage change was between (i) 1985 and 1995, (ii) 1995 and 2005 and (iii) 1985 and 2005. [88509]

Andy Burnham: The information shown in the table represents the number of prescription items and net ingredient cost of antidepressants that have been dispensed in the community in England in 1985, 1995 and 2005, together with the percentage change between 1985 and 1995, 1995 and 2005 and 1985 and 2005.

	Number of prescription items (millions) of antidepressants dispensed in the community in England	*Net ingredient cost (NIC) (£ millions) of antidepressants dispensed in the community in England*
1985	6.8	26.0
1995	13.2	146.8
2005	29.4	338.5

	Percentage change in items	*Percentage change in NIC*
1985-1995	95	465
1995-2005	122	131
1985-2005	334	1,203

Prescription pricing division of the Business Services Authority (formerly known as the Prescription Pricing Authority)

Audiology Services

Mr. Betts: To ask the Secretary of State for Health what assessment she has made of the extent to which the exclusion of direct referrals to audiology services from the 18-week waiting time target is consistent with the national service framework for older people. [85424]

Mr. Ivan Lewis: We recognise that older people are the largest users of audiology devices and therefore have a particular interest in waiting times for audiology services. The national service framework (NSF) for older people includes hearing as one of the senses to be investigated in assessing an older person's health and social care needs. One of the aims of the Healthy Ageing programme, in "A New Ambition for Old Age", which updates the NSF, is to reduce hearing impairment as a barrier to active ageing.

Audiology and adult hearing services in particular are mainly accessed directly by primary care and are predominantly outside the scope of the 18-week pathway, which is focused on changing traditional hospital consultant pathways. A separate national action plan is being developed on improving access to adult hearing services. The needs of older people and the NSF commitments will be taken into consideration in relation to the action plan.

Mark Hunter: To ask the Secretary of State for Health pursuant to the answer to the hon. member for Solihull (Lorely Burt) of 29 June 2006, *Official Report*, column 604W on audiology services, when she expects the data to be published. [87923]

Mr. Ivan Lewis: A written ministerial statement was made on 12 July 2006, *Official Report*, columns 69-70WS, announcing that data on diagnostic waiting times had been released and published on the Department's website at: www.performance.doh.gov.uk/diagnostics/index.htm. This first publication of diagnostic waiting time figures will become a regular monthly release.

Mark Hunter: To ask the Secretary of State for Health, pursuant to the answer to the hon. Member for Aylesbury of 19 April 2006, *Official Report*, column 732W, on audiology, when she expects to publish the results for the 2006 vacancy survey. [87924]

Ms Rosie Winterton: The 2006 national health service workforce vacancy survey was published on 27 July 2006. It is available on the Information Centre for health and social care website at: www.ic.nhs.uk/pubs/vacsurveyresmar2006.

Copies have been placed in the Library.

Autism

Dr. Cable: To ask the Secretary of State for Health what funding is earmarked for the diagnosis and treatment of autism in adults in 2006-07. [88686]

Mr. Ivan Lewis: It is for local councils and national health service trusts to determine how much they allocate for diagnosis and treatment of autism in adults from the funding they receive.

Dr. Kumar: To ask the Secretary of State for Health how many parents who are carers for children with autism in *(a)* England, *(b)* the North East, *(c)* the Tees Valley and *(d)* the area corresponding as closely as possible to the Middlesbrough, South and East Cleveland constituency have received carers grants since 2001. [87970]

Mr. Ivan Lewis: This Government introduced the carers grant in 1999 to support councils in providing breaks and other services for carers in England. The grant is not paid to individuals, but is paid each year to councils as a specific formula grant. Councils can use the grant to provide a range of services for carers in their area depending on local demand and need. This may include parents caring for children with autism.

Biometric Technology

David Maclean: To ask the Secretary of State for Health what *(a)* planned and *(b)* existing projects in her Department involve the use of biometric technology. [82581]

Andy Burnham: None.

Bird and Bird Solicitors

Mr. Stewart Jackson: To ask the Secretary of State for Health what contracts were awarded by her Department to Bird and Bird Solicitors in each year since 1997; what the *(a)* value and *(b)* duration of each such contract was; and if she will make a statement. [88158]

Ms Rosie Winterton: Bird and Bird have only been appointed on one contract by the Department which was to provide legal advice for the digital television project for NHS Direct.

The expenditure by the Department on this contract is commercially confidential. The contract commenced in January 2003 and was completed in June 2006. The Department's current financial system does not hold information for years prior to 2004, and could not obtain this information without incurring disproportionate costs.

Broomfield Hospital

Mr. Burns: To ask the Secretary of State for Health if she will make a statement on progress in approving the Broomfield hospital private finance initiative scheme; and when approval is expected to be given. [86036]

Andy Burnham *[holding answer 24 July 2006]:* I refer the hon. Member to the answer given on 16 May 2006, *Official Report*, column 932W.

Current indications are that an announcement will be made in mid-August, dependent on obtaining clearance from HM Treasury. The reappraisal report for Broomfield hospital has now been completed and we were aiming to be in a position to announce decisions from the revalidation exercise—including that for this trust shortly.

Care Costs

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 5 July 2006, *Official Report*, column 1209W, on care costs, what the data requested are in real terms using the GDP deflator series instead of allowing for health pay and price inflation. [85832]

Andy Burnham: The average cost of delivering an episode of care in real terms using the gross domestic product deflator at 30 June 2006 is detailed in the following table.

	Cost per episode (£)
1997-98	1,131
2000-01	1,165
2001-02	1,075
2003-04	1,082

There was a change in the data series between 2000-01 and 2001-02, so figures for 1997-98 and 2003-04 are not comparable.

A patient admitted to hospital is assigned to a practitioner responsible for their treatment. This period of care is termed an episode.

There is no data available for 1979.

Information is not available on a comparable basis after 2003-04.

Care Homes

Mr. Burstow: To ask the Secretary of State for Health what measures have been taken since October 2005 to ensure that free, fresh, chilled drinking water is available to all care home residents throughout the day. [88966]

Mr. Ivan Lewis: The Care Homes Regulations state that homes must provide, in adequate quantities, suitable, wholesome and nutritious food which is varied and properly prepared and available at such time as may reasonably be required by service users. Food, in the regulations, includes drink.

The review of the national minimum standards for care homes, which the Commission for Social Care Inspection must take into account when inspecting care homes, is ongoing and will be subject to public consultation in due course. The issue of availability of drinking water to residents is being considered as part of the review.

As part of the "Heatwave Plan for England 2006", the Department has issued "Supporting vulnerable people before and during a heatwave—Advice for care home managers and staff". This is a fact-sheet,

containing advice on preparation for and dealing with the effects of a heat wave on care home residents. It includes guidance on identifying those most at risk, monitoring residents' fluid intake, particularly if they are unable to drink unaided, and ensuring that water and ice are widely available.

Cataract Operations

Sarah Teather: To ask the Secretary of State for Health how many cataract operations were carried out in *(a)* each London strategic health authority and *(b)* each London primary care trust in each of the last three years. [87721]

Ms Rosie Winterton: The table shows the latest data available for total numbers of cataract operations by London primary care trust (PCT) and strategic health authority (SHA) for the years 2002-03, 2003-04 and 2004-05.

Chemotherapy/Radiotherapy

Steve Webb: To ask the Secretary of State for Health (1) how many patients in England received a course of *(a)* chemotherapy and *(b)* radiotherapy during each of the last five years; [89072]

(2) how many out-patient visits there were for *(a)* radiotherapy and *(b)* chemotherapy was in the latest year for which figures are available. [89073]

Ms Rosie Winterton: This information is not currently collected centrally. However, we are in the process of developing a radiotherapy episodes statistics system which should be able to provide the requested information on radiotherapy in the future. Work is also under way as part of the national programme for information technology to introduce hospital electronic prescribing, ePrescribing. This will help to provide accurate information on chemotherapy usage.

Steve Webb: To ask the Secretary of State for Health how many patients travelling for outpatient radiotherapy treatment did so *(a)* fewer than 10 times, *(b)* between 10 and 20 times, *(c)* between 21 and 30 times, *(d)* between 31 and 40 times, *(e)* between 41 and 50 times, *(f)* between 51 and 60 times and *(g)* over 60 times in the last year for which figures are available. [89075]

Ms Rosie Winterton: Radiotherapy treatment is often fractionated, i.e. given over a number of days. This allows large doses of radiation to be given while sparing normal tissue too many side effects. Generally, radical treatments, with the aim of curing a patient, are given in more treatment fractions than palliative treatment, for symptom control.

The fractions, that is the number of visits for treatment, that patients should be offered is a matter for the clinical judgment. The prescription will depend on the type of cancer and the intention of the treatment.

The Department does not have reliable information to answer this question at the present time. However, we are in the process of developing a radiotherapy episodes statistics system which should be able to provide the information in the future.

Child Deaths

Chris Ruane: To ask the Secretary of State for Health what public inquiries have taken place into the deaths of children in *(a)* health and *(b)* social services establishments in the past 30 years. [86230]

Andy Burnham: The Department has conducted two public inquiries into the deaths of children in the last 30 years (1976 to 2006). The only one that relates to deaths of children in a health establishment is the Bristol Royal Infirmary (BRI) inquiry, established in June 1998 and reported in July 2001.

The BRI public inquiry followed a General Medical Council investigation into the conduct of the two surgeons and the chief executive of the trust. The inquiry was established in response to major public concern about the paediatric cardiac service at the BRI. The inquiry was an opportunity to learn lessons more widely for the national health service as a whole.

The Victoria Climbié inquiry (April 2001 to January 2003) was also a public inquiry into the death of a child, but her death was not due to treatment received in a health establishment.

Victoria Climbié died on 25 February 2000 in the intensive care unit at St. Mary's hospital Paddington, as a result of months of appalling ill-treatment at the hands of two individuals (Marie-Therese Kouao and Carl John Manning) who were supposed to be caring for her. The purpose of the inquiry was:

to establish the circumstances leading to and surrounding the death of Victoria Climbié;

to examine the services provided by the local authorities (social services), the health bodies and the police to Victoria Climbié, Marie-Therese Kouao and Carl John Manning; and

to reach conclusions as to the circumstances leading to Victoria's death and to make recommendations to the Government on how such an event may be avoided in the future.

Child Health Interim Application

Mr. Stephen O'Brien: To ask the Secretary of State for Health to what extent the working of the child health interim application has been affected by problems with *(a)* computer processes and *(b)* manual supporting processes. [85636]

Caroline Flint: The child health interim application (CHIA) is itself a collection of computer and manual supporting processes. The CHIA system was implemented following the withdrawal of the previous RICHS child health system. As a consequence of the migration there have been some validation and coding difficulties which are currently being addressed by Connecting for Health, the strategic health authority and the contractor (BT).

There are also some current issues with links required to other computer systems, which are also being addressed. Manual systems have been implemented to continue to provide some of the services that were available previously.

Child Obesity

Anne Milton: To ask the Secretary of State for Health (1) what assessment she has made of the impact on obesity levels of children *(a)* watching television and *(b)* using computers and other game consoles; [86580]

(2) what assessment she has made of the impact of television advertising promoting sedentary activities on children's obesity levels. [86581]

Caroline Flint: The Department has made no formal assessment of the impact that sedentary behaviour such as watching television or using computers or other game consoles has on obesity levels in children. However, a large-scale cross-national body of survey-based research conducted on children and on teenagers is emerging, which generally shows a moderate correlation between the amount of television viewed and children's diet or health.

Although there is no clear United Kingdom evidence that obese children are more likely to have low levels of physical activity compared to non-obese children, there is plenty of evidence showing that high levels of sedentary behaviour such as watching television or playing computer games are predictive of being obese and overweight.

The correlation could be because watching television or playing computer games does not expend any energy; in fact, it may even depress the metabolic rate.

The correlation could also be owing to television and playing computer games substituting for physical exercise, or because children watch television while consuming food and drinks that are high in fat and sugar.

As part of its work on developing a healthy living campaign, the Department is currently looking into what correlations there may be between obesity and sedentary behaviour. It has not found any clear evidence of the impact on obesity of television or video gaming but has made an intuitive assessment of a possible correlation, which has been supported by stakeholder and expert groups as part of a focus area review.

Child Vaccinations

Mr. Stephen O'Brien: To ask the Secretary of State for Health if she will make a statement on the level of child vaccinations in London. [85634]

Caroline Flint: The latest annual estimate of childhood vaccines was published in the Statistical bulletin NHS Immunisation Statistics, England: 2004-05. A copy has been placed in the Library and is also available on The Information Centre for health and social care's website at:

www.ic.nhs.uk/pubs/immunisaton05/04119650.pdf/file.

Some problems have been encountered recently in collecting data on childhood vaccinations in London. We are exploring how these problems can be rectified.

Quarterly data are published by the Health Protection Agency in CDR weekly and is available on their website at:

www.hpa.org.uk/infections/topics_az/vaccination/vac_cover.htm

A copy has been placed in the Library.

Choose and Book

Andrew George: To ask the Secretary of State for Health, pursuant to the answer of 27 June 2006, *Official Report*, column 321W, on Choose and Book, what information she collects from *(a)* primary care trusts, *(b)* acute trusts and *(c)* strategic health authorities on their allocation of budgets for Choose and Book. [85218]

Mr. Ivan Lewis: None.

Andrew George: To ask the Secretary of State for Health, pursuant to the answer of 27 June 2006, *Official Report*, column 321W on choose and book, what assessment her Department has made of the likely financial impact of the choose and book system programme on local trusts and authorities. [82132]

Mr. Ivan Lewis: Choose and Book will help commissioners and providers to manage resources efficiently by providing real-time information about demand in terms of referrals. The effect of this in a particular area depends on the response of managers and clinicians to the available information.

In terms of implementation costs, primary care trusts (PCTs) are being reimbursed for the short-term cost of upgrading existing general practitioner practice systems so that they align with Choose and Book. PCTs have also received centrally funded support to resolve technical issues, and to pay for the necessary project management resource required locally. Funding is also available for acute trusts to support a technical upgrade to existing patient administration systems to make them align with Choose and Book.

Clinically Qualified Staff

Tim Loughton: To ask the Secretary of State for Health how many clinically qualified staff are employed by the NHS in non-clinical roles. [88278]

Ms Rosie Winterton: This information is not collected centrally.

Colonoscopy

Damian Green: To ask the Secretary of State for Health what estimate she has made of the likely change in the number of colonoscopies carried out each year under the NHS following the adoption of the new national guidelines on colonoscopy use. [78422]

Andy Burnham: No estimate has been made centrally of likely changes to the number of colonoscopies carried out following publication of the British Society of Gastroenterology's report 'Care of Patients with Gastrointestinal Disorders in the United Kingdom: A Strategy for the future'. Copies have been placed in the Library.

The Department is, however, in the process of agreeing local delivery plans with strategic health authorities which, for the first time, will include the number of colonoscopies planned for the years 2006-07 and 2007-08.

Community Hospitals

Anne Milton: To ask the Secretary of State for Health how many *(a)* letters and *(b)* other representations her Department has received on (i) Cranleigh Village Hospital and (ii) the future of Royal Surrey County Hospital. [87916]

Caroline Flint: A search of the Department's correspondence database shows that there were approximately 38 completed cases on Cranleigh Village Hospital between September 2005 and to date. There were approximately 47 completed cases on Royal Surrey County Hospital between September 2005 and to date.

On 27 July 2005, my noble Friend (Lord Warner), the Minister of State responsible for NHS reform, had a meeting with a delegation to discuss Cranleigh Village Hospital. On 30 August 2005, my noble Friend wrote to Baroness Sharp of Guildford about Cranleigh Village Hospital, and on 26 April 2006, my noble Friend received a letter from Baroness Sharp of Guildford about this issue.

Mr. Hunt: To ask the Secretary of State for Health what steps she plans to take to ensure that community hospitals can provide a comprehensive service for people who have *(a)* multiple sclerosis and *(b)* other complex and fluctuating conditions. [85295]

Andy Burnham: Decision-making on specific local healthcare provision, including services for people who have multiple sclerosis and other complex and fluctuating conditions, is a matter for primary care trusts and strategic health authorities in consultation with the local population.

However, the Department expects national health service organisations to adhere to the National Institute for Health and Clinical Excellence guidelines on multiple sclerosis care, published in November 2003, and the national service framework for long-term conditions, published in March 2005.

Mr. Clifton-Brown: To ask the Secretary of State for Health what assessment she has made of the number of community hospital beds likely to be needed in Gloucestershire over the next *(a)* five and *(b)* 10 years. [85426]

Andy Burnham: It is for primary care trusts to assess and commission services to meet the needs of the populations that they serve.

Mr. Dunne: To ask the Secretary of State for Health, pursuant to her Oral Statement of 5 July 2006, *Official Report*, column 826W, on community hospitals, (1) how many community hospitals have *(a)* opened and *(b)* closed in the Shropshire and Staffordshire strategic health authority area since 1997; and how many are being considered for closure; [85572]

(2) how many community hospitals in the Shropshire and Staffordshire strategic health authority area she assesses as having Victorian workhouse facilities. [85573]

Andy Burnham: No community hospitals have been either opened or closed in the former Shropshire and Staffordshire strategic health authority area since 1997. NHS West Midlands reports that only one community hospital in the area—Westcliffe hospital, operated by North Stoke primary care trust—is assessed as having Victorian workhouse facilities.

Continuing Care

Mr. Burstow: To ask the Secretary of State for Health, pursuant to her answer of 27 June 2006, *Official Report*, column 321W, on continuing care, if she will provide the information broken down by *(a)* strategic health authority and *(b)* primary care trust. [87699]

Mr. Ivan Lewis: The information requested has been placed in the Library.

Correspondence

Sir Michael Spicer: To ask the Secretary of State for Health when the Chairman of the West Midlands South Strategic Health Authority will reply to the letters from the hon. Member for West Worcestershire of 9 January, 10 April, 23 May and 6 June about the treatment of his constituents for sleep apnoea. [87933]

Caroline Flint *[holding answer 24 July 2006]:* I have referred this matter to the chief executive of the NHS West Midlands Strategic Health Authority. I have asked the chief executive to look into this matter and to reply directly to the hon. Member as soon as possible.

Dentistry

Chris Huhne: To ask the Secretary of State for Health how many dentistry practices are *(a)* serving NHS patients and *(b)* open to take on new NHS patients in each primary care trust in Hampshire. [79281]

Ms Rosie Winterton: Information on the number of practices serving national health service patients and open to take on new NHS patients is not available centrally.

Provisional management estimates on the number of signed and rejected contracts in Hampshire and the Isle of Wight Strategic Health Authority (SHA—now part of South Central SHA) area is available and is provided in the following table by primary care trust.

The table also sets out the estimated level of NHS services associated with accepted contracts compared with that of rejected contracts, based on weighted courses of treatment, or units of dental activity.

A contract may be for either a practice or an individual dentist.

Primary care trusts are using the funding associated with rejected contracts to commission additional services from other dentists.

	Number of contracts signed	*Number of contracts rejected*	*Estimated level of NHS services associated with accepted contracts compared with rejected contracts (percentage)*
Blackwater Valley and Hart Primary Care Trust (PCT)	26	6	86.9
East Hampshire PCT	31	6	82.4
Eastleigh and Test Valley South PCT	20	11	82.3

Isle of Wight PCT	19	0	100.0
Mid-Hampshire PCT	21	7	95.9
New Forest PCT	25	8	92.3
North Hampshire PCT	38	6	81.8
Portsmouth City PCT	30	4	91.5
Southampton City PCT	34	4	99.2
Hampshire and Isle of Wight SHA	278	60	89.8

Sir Peter Soulsby: To ask the Secretary of State for Health how many dentists have left the NHS in the East Midlands strategic health authority in the last three years, broken down by parliamentary constituency. [86369]

Ms Rosie Winterton: The information requested is shown in the following table:

General dental services (GDS) and personal dental services (PDS): Number of national health service dentists who have left the GDS or PDS in the specified strategic health authorities (SHA) areas, by parliamentary constituency, during the 12 months ending 31 March each year

	2004	2005	2006
Trent SHA	54	50	41
Leicestershire, Northamptonshire and Rutland SHA	20	23	27
Amber Valley	0	1	2
Ashfield	1	4	3

Sleaford and North Hykeham	0	1	0
South Derbyshire	2	2	1
South Holland and The Deepings	1	0	0
Wellingborough	3	3	0
West Derbyshire	2	0	0

Notes:
1. Leavers indicate that the dentist had an open GDS or PDS contract as at 1 April of the previous year but no GDS or PDS contract as at 31 March of the specified year.
2. A dentist may have left a GDS or PDS contract within more than one parliamentary constituency or both SHA areas, in which case they would appear in figures for each individual constituency and SHA. For this reason, figures for individual constituencies and SHAs cannot be summed.
3. Data has been provided for years ending 31 March 2004 to 2006, which are prior to the recent SHA boundary changes. The SHA boundaries supplied are as they were at the time.
4. A dentist with a GDS or PDS contract may provide as little or as much NHS treatment as he or she chooses or has agreed with the primary care trust. Information concerning the amount of time dedicated to NHS work by individual GDS or PDS dentists are not centrally available.
5. Dentists consist of principals, assistants and trainees. Prison contracts have been excluded.
6. Areas have been defined using the Office of National Statistics all fields postcode directory.

Sources:
The Information Centre for health and social care NHS Business Services Authority

Charles Hendry: To ask the Secretary of State for Health how many dentists from those countries which joined the EU in 2004 have applied for full registration as dentists in the UK. [87443]

Ms Rosie Winterton *[holding answer 24 July 2006]:* I refer the hon. Member to the reply I gave on 20 July 2006, *Official Report*, column 659W.

Mr. Lansley: To ask the Secretary of State for Health pursuant to her answer of 14 July 2006, *Official Report*, column 2150W, on dentistry, if she will make a statement on the position at the end of May; and when she intends to publish information relating to the end of June. [87692]

Ms Rosie Winterton: Information on the number of contracts signed in dispute that were still in dispute as of 31 May and 30 June, and the proportion of the total contracts signed that this represents by strategic health authority, was made available on 4 August and is available at:

www.performance.doh.gov.uk/dental_contracts Copies have also been placed in the Library.

David Simpson: To ask the Secretary of State for Health what the gross cost was of *(a)* dental fees for items of service and *(b)* dental treatments in each of the last five years; and how much of the cost was borne by patients (i) in total and (ii) as a percentage of the overall cost in (A) England and (B) each region. [88137]

Ms Rosie Winterton: The main element of national health service dental services in the last five years has been the primary dental care services provided by dentists working within the general dental services (CDS) or personal dental services (PDS) pilots.

The tables, which have been placed in the Library, show the available CDS data on gross item of service fees and patient registration payments, together with the cost of certain additional payments made to dental contractors, and patient charge income for CDS contracts in England and each strategic health authority area for the financial years 2001-02 to 2005-06. The data excludes certain elements of gross

costs, such as employers' superannuation contributions, vocational trainee salaries and expenses, and the cost of salaried general dental practitioners and emergency dental services, where data is not readily available in this localised format.

The PDS pilots were generally based not on item of service fees but on regular contract payments for defined services. Localised data on PDS expenditure are only available for the financial year 2004-05. The data include regular PDS contract payments but excludes some additional payments authorised locally. They also exclude the cost of PDS services directly managed by NHS trusts such as some dental access centres. Data on PDS charge income may also be incomplete because some primary care trusts (PCTs) instituted temporary arrangements to collect charge income directly from dentists. These factors make it very difficult to make comparisons between the 2004-05 and 2005-06 data, when PDS pilot schemes rapidly expanded, and earlier periods.

Charge income levels will have been influenced by the proportion of services delivered by PDS contractors, who until the reform of primary care services introduced from April 2006 were required to apply the patient charge regime originally designed for the item of service remuneration system operating within CDS. This patient charge regime was not sensitive to the new ways of working and treatment patterns associated with PDS contracts, and generally resulted in lower levels of charge income within PDS pilot schemes. In addition, as noted above, some PCTs have collected some patient charges direct from PDS dentists locally and this income may not be reflected in the centrally recorded data. All these factors will have distorted the proportion of patient charge income recovered particularly in 2004-05 and 2005-06.

David Simpson: To ask the Secretary of State for Health how many *(a)* fillings and *(b)* extractions were carried out on children's teeth in (i) England and (ii) each region in each of the last five years. [88138]

Ms Rosie Winterton: The spreadsheet provides data for the year ending 31 March 2002 for England and by health authority and for the years ending 31 March 2004, 2005 and 2006 for England and by strategic health authority.

Information was not centrally analysed for 2002-03. This could now be provided only at disproportionate cost.

General Dental Services (GDS) and Personal Dental Services (PDS): Number of fillings and extractions carried out on children's teeth in England by strategic health authority as at year ending 31 March 2004-31 March 2006

	Teeth filled			*Teeth extracted*

Source:
The Information Centre for health and social care and NHS Business Services Authority

David Simpson: To ask the Secretary of State for Health what percentage of *(a)* children, *(b)* adults and *(c)* the population in (i) England and (ii) each region were registered with a dentist in each of the last five years. [88139]

Ms Rosie Winterton: The table showing the proportion of adults and children registered with a national health service dentist in England and by strategic health authority as at 30 March in each specified year has been placed in the Library. These data reflect the 15-month registration period that applied in the general dental services until 31 March 2006 and therefore exclude some patients who attend less regularly and patients seen at dental access centres.

Hugh Bayley: To ask the Secretary of State for Health which NHS general dental practices in Selby and York primary care trust area *(a)* have agreed, *(b)* are in dispute over and *(c)* have declined to agree to the new NHS dental contract; whether the practices which have declined the new contract will continue to treat NHS patients; how many NHS patients are treated by each such practice; and if she will make a statement. [88346]

Ms Rosie Winterton: Information on the number of dentists or dental practices who have signed the new contract and the number who have not signed is not available centrally. We do however have some provisional information that covers contracts. A contract may well be for more than one dentist so cannot be broken down further to individual dentist level. These management estimates show that in Selby and York primary care trust:

	Number/Percentage
Contracts signed	
Number	28
Approximate Units of dental activity (UDA) value	431,750
Contracts still in discussion	
Number	1
Approximate UDA value	4,400
Contracts rejected	
Number	11
Approximate UDA value	20,229
Percentage UDAs	4.4
Contracts signed	
Number signed without dispute	26
Number signed in dispute	2
Percentage disputes	7.1

This information is not validated and represents a snapshot of the position in early April. If a contract has been rejected by a practice or a dentist, that practice or dentist is then no longer able to provide national health service treatment. Where practices leave the NHS, the Selby and York primary care trust will look to re-provide NHS services according to the needs of its local population.

Hugh Bayley: To ask the Secretary of State for Health how many patients are registered with NHS general dental practitioners in Selby and York primary care trust area; and how many were registered in each of the past 10 years. [88347]

Ms Rosie Winterton: The following table shows the number of national health service patients registered with an NHS dentist in Selby and York primary care trust as at 30 March in each specified year.

General dental services (CDS) and personal dental services (PDS)

	Number
1997	145,339
1998	151,068
1999	145,579
2000	146,529
2001	150,105
2002	151,931
2003	155,321
2004	160,357
2005	154,513
2006	152,471

Source: The Information Centre for health and social care NHS Business Services Authority.

Under the new dental system, the concept of registration no longer forms part of the remuneration system. The Department is introducing a comparable means of monitoring the number of patients covered by NHS dental services, but the transition to the new arrangements means that it will be autumn before the new measure is available.

Information will be available in due course via the NHS Business Services Authority on the numbers of patients who receive care or treatment from NHS primary care dentists on one or more occasions within a given period. This will provide a measure that is broadly similar to that of patient registration under the former system of CDS. We expect the first information to be available in the autumn.

Hugh Bayley: To ask the Secretary of State for Health how much was paid by the NHS to general dental practitioners in Selby and York in each year since 1996-97 *(a)* in total and *(b)* on average per NHS dentist. [88348]

Ms Rosie Winterton: The main element of national health service dental services is the primary dental care services provided by dentists working in the general dental service (GDS) or personal dental service (PDS) pilots.

The following table shows the available data on the main components of expenditure on those services in the Selby and York Primary Care Trust (PCT) from 1997-98 to 2005-06. Comparable localised data for previous years are not available. As the notes to the table record, certain other elements of GDS and PDS costs are also excluded because they are not readily available on a localised basis.

Payments to dentists as shown in the following table represent remuneration for the provision of dental services. As independent contractors, dentists are responsible for meeting their own practice expenses. Remuneration levels reflect the volume of NHS work undertaken by dental contractors, which can vary from practice to practice and may not equate to a full-time commitment to NHS services.

GDS and PDS payments to dentists in Selby and York PCT area from 1997-98 to 2005-06[1,2,3,4,5]

	Gross NHS payment (£ million)	Number of GDS/PDS dentists as at 30 September	Average gross NHS payment per dentist (£)
1997-98	6.760	105	64,382
1998-99	7.473	113	66,134
1999-2000	7.982	117	68,225
2000-01	8.354	117	71,405
2001-02	8.908	128	69,590
2002-03	9.439	131	72,056
2003-04	9.792	136	72,001
2004-05	10.007	136	73,582
2005-06	11.545	148	78,006

[1] Gross NHS payment is the sum of those GDS and PDS payments itemised in note 2 which were due to GDS and PDS contractors. Actual payments are made net of any patient charge revenue already collected by the dentists concerned and retained against the sums due. Some dentists may undertake work in more than one PCT area, but only earnings in Selby and York PCT area are included in this data.

[2] Total GDS payments include adult fees (including item of service and continuing care payments), child fees (including item of service and capitation payments), commitment payments and point of treatment check payment training (in 2001 only), seniority payments, maternity/paternity/adoptive leave payments, long term sick leave payments, continuing professional development allowances including travel hours, reimbursement of business rates, vocational training grants and clinical audit payments. The following costs are excluded from this data: employer's superannuation costs, vocational trainee salaries and National Insurance contribution costs, clinical audit convenors, clinical audit secretarial support costs and travel expenses, and costs associated with any salaried general dental practitioners and emergency dental services.

[3] PDS payments and PDS patient charge revenue data are included for 2004-05 and 2005-06 only. PDS payments relate to baseline payments or the agreed regular monthly payments made to PDS practices. Certain additional or supplementary payments may be excluded. Reliable PDS data at practice level are not available prior to 2004-05. The data cannot identify the cost of any PDS services that are directly managed by local NHS Trusts, such as certain dental access centres.

[4] Payments are assigned to areas on the basis of practice postcode data.

[5] Payment information at PCT level is not available prior to 1997-98.

Hugh Bayley: To ask the Secretary of State for Health how many *(a)* adults and *(b)* children have been on Selby and York Primary Care Trust's waiting list for registering with an NHS dentist in each month since the list was established. [88359]

Ms Rosie Winterton: This information is not collected centrally.

Hugh Bayley: To ask the Secretary of State for Health how many people have been *(a)* deregistered and *(b)* newly registered with NHS dentists in Selby and York Primary Care Trust in each month since July 2004. [88360]

Ms Rosie Winterton: This information is not collected centrally.

Ben Chapman: To ask the Secretary of State for Health how many dental practices in *(a)* Heswall and *(b)* Wirral, South have ceased to provide NHS dental services since April. [89082]

Ms Rosie Winterton: The information requested is not held centrally.

Departmental Staff

David Simpson: To ask the Secretary of State for Health how many staff in her Department have had *(a)* five or more, *(b)* four, *(c)* three and *(d)* two periods of sick leave of less than five days in each of the last three years. [72988]

Andy Burnham: The required information for the three financial years 2003-04, 2004-05 and 2005-06 is as follows:

	2003-04	*2004-05*	*2000-06*
Five or more periods	28	10	31
Four periods	23	20	33
Three periods	68	37	54
Two periods	111	83	107

David Simpson: To ask the Secretary of State for Health how many of her staff are *(a)* under and *(b)* over 55 years of age. [77266]

Andy Burnham: The information requested is shown in the following table. The numbers are staff in post (full-time equivalents) as at 31 December 2005:

	Number of staff
Under 55	2,181
55 and over	308
Total	2,489

David Simpson: To ask the Secretary of State for Health how many people over the age of 55 have been recruited to her Department in each of the last three years. [77267]

Andy Burnham: The information requested is shown in the following table. The figures represent full-time equivalent numbers of staff aged 55 and over.

	Number of staff
2003	10.5
2004	9.6
2005	15.2

Departmental Strategies

Mr. Lansley: To ask the Secretary of State for Health what progress has been made in developing an urgent care strategy; what discussions her Department has had with other organisations to facilitate the development of the urgent care strategy; and who will draw up the urgent care strategy. [84464]

Andy Burnham: Work on the development of the urgent care strategy is in progress, and discussions are under way with a number of stakeholders.

Our aim is to produce a consultation document later in the year.

Departmental Surveys

Mr. Amess: To ask the Secretary of State for Health what surveys her Department has carried out in each year since 1990; and if she will make a statement. [87314]

Andy Burnham: The following details are in respect of statistical surveys. Full information requested cannot be provided except at disproportionate cost.

The list of Department sponsored social surveys since 1990 is available at: www.dh.gov.uk/PublicationsAndStatistics/PublishedSurvey/fs/en.

Since 1 April 2005, the following survey results were published by the Information Centre for health and social care and have been placed in the Library.

Processes are in place to ensure that collections of information are appropriate for their purpose and minimise the burdens on those submitting the data.

Depression

Steve Webb: To ask the Secretary of State for Health how much her Department spent on *(a)* drug treatments and *(b)* therapeutic treatments for mild to severe depression in each year from 1997 to 2005 (i) in total and (ii) broken down by age. [89087]

Ms Rosie Winterton: The total cost of antidepressant medicines prescribed by the national health service in England between 1997 and 2005 is shown in table 1.

Table 1: NHS anti-depressant prescription medications in England 1997 to 2005

	Value of antidepressant items prescribed on the NHS in England (£000)
1997	239,120,545
1998	279,004,273
1999	315,269,246
2000	310,378,169
2001	341,660,880
2002	380,883,112
2003	395,178,028
2004	400,681,709
2005	338,546,700

Source:
Prescription pricing authority of the Business Services Authority (formerly known as the Prescription Pricing Authority)

Age-based prescription data covering all age groups are not available. This information is collected for groups where prescription charge exemptions exist—those aged zero to 15 years and 16 to 18 years and those in full-time education and people aged 60 or over—but not for other age categories.

Information about spending on psychological therapies by the national health service in England is available for each year from 2001-02 to 2004-05 from the national survey of investment in mental health services reports, and this is shown in Table 2. Information about spending on psychological therapies which were delivered in primary care is not held centrally by the Department; nor is information collected on spending on psychological therapies by age groups.

Table 2 National survey of investment in mental health services: planned spending on psychological therapies

	Planned spending on psychological therapy services by the NHS in England 2001-02 to 2005-06 (not primary care) (£000)
2001-02	103,471,000
2002-03	122,052,000
2003-04	129,352,000
2004-05	141,378,000
2005-06	142,047,000

Source:
National survey of investment in mental health strategies 2001-02 to 2005-06

Diagnostic Tests/Treatment

Steve Webb: To ask the Secretary of State for Health, pursuant to her Department's publication of data on diagnostic tests' waiting times, if she will publish overall waiting times for patients from GP referral to the start of treatment. [88549]

Andy Burnham: The national health service will be required to report referral to treatment times from January 2007. The Department will publish this data later in 2007.

Mr. Lansley: To ask the Secretary of State for Health, pursuant to the answer of 27 June 2006, *Official Report*, column 323W, on diagnostic treatment (independent sector), what the reasons are for the delay in the start date beyond that set out in "Health reform in England: Update and Next Steps", published 13 December 2005. [86210]

Mr. Ivan Lewis: Discussions are drawing to a close with bidders on all seven regional diagnostic schemes. Full services are expected to be provided from next year, but the first scheme may begin to provide some services from November 2006. The commencement date has moved from October to better meet local national health service needs.

Diamorphine

Mr. Mark Field: To ask the Secretary of State for Health what recent discussions she has had with the supplier to the NHS of diamorphine on ensuring its availability in all English hospitals. [89145]

Andy Burnham: I refer the hon. Member to the reply given on 18 July 2006, *Official Report*, column 374W.

Mr. Bone: To ask the Secretary of State for Health what discussions she has had on the potential for using poppies grown in Afghanistan to alleviate the shortage of diamorphine hydrochloride for medical use. [88365]

Andy Burnham: None. The shortage of diamorphine injection is due to production capacity constraints in relation to the finished product, and is not related to the availability of diamorphine raw material. There are no supply problems with diamorphine raw material.

Drug Eluting and Metal Stents

Dr. Desmond Turner: To ask the Secretary of State for Health what the rate of use of *(a)* drug eluting and *(b)* bare metal stents is in the NHS; and what assessment she has made of the effect on costs in the NHS of their use. [87033]

Ms Rosie Winterton: National information on the rate of use of bare metal stents is not available.

Since the National Institute for Health and Clinical Excellence (NICE) published its guidance on the use of coronary artery stents in October 2003 there has been an increase in the use of drug eluting stents. This increase has been reflected by an adjustment to the national tariff of £25.5 million in 2006-07 to take account of the additional costs of implementing the NICE guidance.

Drug Treatment Rehabilitation Places

John Cummings: To ask the Secretary of State for Health how many *(a)* residential and *(b)* in-patient-specialist drug treatment rehabilitation places there are in the northern region; and where each centre is located. [87864]

Caroline Flint: As there is no northern region as such, the following information represents the North West, North East and Yorkshire and Humber Government regions. Information relating to numbers of in-patient beds and treatment spaces is not available for any of these areas.

1. North West

Residential rehabilitation

The National Treatment Agency's (NTA) online directory of residential rehabilitation services lists a total of 19 services located in the north west. The total number of beds in all of these services is 320.

The services are located in Crumpsall, Oldham, Wirral, two services; Ramsbottom, Chester, two services; Gisburn, two services; St Anne's on Sea, two services; Lancaster, Prestwich, Middleton, Collyhurst, Blackburn, Rochdale and Workington.

The total number of clients in residential rehabilitation in the north-west in 2005-06, according to the national drug treatment monitoring system (NDTMS), was 624.

Inpatient treatment

The NTA's recently published review of in-patient treatment, Dr. Ed Day, 2005, found a total of 16 services providing in-patient treatment for drug misuse in the north west. These services are located in Oxton, Macclesfield, Gisburn, two services; Lancaster, Carlisle, Liverpool, Prestwich, Chester, two services; St Anne's on Sea, Biston, Hale, Preston, Ashton under Lyme and Collyhurst.

The total number of clients in in-patient treatment in the north-west in 2005-06, according to the NDTMS, was 1095.

2. North East

Residential rehabilitation

The NTA's online directory of residential rehabilitation services lists a total of three services located in the north-east. The total number of beds in all of these services is 86.

The services are located in Middlesbrough, Tyne and Wear and Sunderland.

The total number of clients in residential rehabilitation in the north-east in 2005-06, from NDTMS, was 95.

In-patient treatment

The NTA's recently published review of in-patient treatment, Dr. Ed Day, 2005, found a total of seven services providing in-patient treatment for drug misuse in the north-east.

These services are located in Consett, Middlesbrough, Newcastle, Durham, Darlington, South Shields and Sunderland.

The total number of clients in in-patient treatment in the north-east in 2005-06, according to the NDTMS, was 111.

3. Yorkshire and Humber

Residential rehabilitation

The NTA's online directory of residential rehabilitation services lists a total of seven services located in Yorkshire and Humber. The total number of beds in all of these services is 176.

The services are located in Scarborough, Harrogate, Bridlington, Sheffield, two services, Leeds and Hull.

The total number of clients in residential rehabilitation in Yorkshire and Humber in 2005-06 from NDTMS was 287.

In-patient treatment

The NTA's recently-published review of in-patient treatment, Dr. Ed Day, 2005, found a total of 14 services providing in-patient treatment for drug misuse in Yorkshire and Humber. These services are located in Barnsley, York, Sheffield, three services, Bradford, two services, Harrogate, Doncaster, Scarborough, Northallerton, Dewsbury, Rotherham and Whitby.

The total number of clients in in-patient treatment in Yorkshire and Humber in 2005-06, from NDTMS was 365.

Drugs

Dr. Cable: To ask the Secretary of State for Health how much was spent on drugs for NHS *(a)* in-patients and *(b)* out-patients in each of the last five years. [88694]

Andy Burnham: The table shows the estimated list price cost of drugs issued to in-patients and out-patients in hospitals in each year from 2001 to 2005.

Estimated list price cost (£ billion) of medicines issued in hospitals in England

	List price cost (£ billion)	
	In-patients	*Out-patients*
2001	1.2	0.4
2002	1.2	0.6
2003	1.4	0.7
2004	1.5	0.8
2005	1.5	0.9

The information in the table does not take into account medicines prescribed in hospitals but dispensed in the community (on a FP10 HP form) or drugs dispensed in the community, primary care, in England.

The estimated list price costs are based on published prices from the drug tariff and other standard price lists. Therefore this is not a true reflection of the actual expenditure by hospitals as most purchases are made on contract with individual manufacturers or wholesalers at lower prices.

Hospitals assign drugs to in-patients/out-patients differently—for example, take out drugs—therefore care must be taken with this data.

Echocardiography Services

Mr. Lansley: To ask the Secretary of State for Health what recent work has been undertaken by her Department to define future demand for echocardiography services. [87691]

Ms Rosie Winterton: The Department has not undertaken any specific recent work to define future demand for echocardiography services. However, there is a national target that by 2008 all patients will be treated within 18 weeks of general practitioner referral, and this will include diagnostics such as echocardiography. Reducing waiting times for diagnostics is central to delivering the 18-week patient pathway. The national health service began measuring waiting times for long wait diagnostic tests for the first time this year to assess the scale of the 18-week challenge.

Elective Care Work Force Resource Pack

Mr. Lansley: To ask the Secretary of State for Health (1) when her Department published the Elective Care Work Force Resource Pack; and if she will place a copy in the Library; [87686]

(2) when her Department published the Christmas tree work force plans for imaging and endoscopy; and if she will place a copy in the Library. [87687]

Andy Burnham: The 18-week work force resource pack was published in April 2006 and can be found at www.18weeks.nhs.uk. Copies have been placed in the Library. The pack includes support and advice on work force modelling (known as Christmas trees) for the 18-week work force including elective care and diagnostics (imaging, endoscopy, physiological measurement and pathology).

Emergency and Acute Admissions

Tim Farron: To ask the Secretary of State for Health what advice her Department gives NHS Trusts on safe travelling times for *(a)* heart attack and *(b)* stroke patients for emergency admissions; how many hospitals in England accept acute admissions; and how many hospitals which accept acute admissions have people in their catchment area living more than one hour from the hospital. [88814]

Caroline Flint *[holding answer 25 July 2006]:* The national service framework (NSF) for coronary heart disease includes the recommendation that ambulance services put in place systems of care that transfer people with suspected heart attack to hospital in less than 30 minutes from the call. Response times are set for ambulance trusts to reach the scene of an incident.

The NSF standard, which national health service organisations are working towards, is that people with

heart attack are treated within 60 minutes of calling for professional help. In most parts of the country, ambulance trusts are training paramedics to treat patients with clot-busting drugs before arrival at hospital. Fifty-eight per cent. of patients are currently treated within 60 minutes of calling for help, compared with 24 per cent. before the NSF.

The Department has not issued guidance on safe travelling times for stroke patients. However, revised guidance on management of stroke for ambulance services is due to be issued by the Joint Royal Colleges Ambulance Liaison Committee.

The Department does not collect hospital level data. Population data at hospital or trust level are not collected centrally as NHS trusts do not have specific catchment areas. However, the Department collects data which showed that 286 NHS organisations (NHS trusts, primary care trusts and care trusts) had beds in acute wards open overnight in England in 2004-05. This figure is not necessarily the number of trusts in England that accept acute admissions. Some trusts may accept acute admissions and not have a ward classified as acute.

Emergency Readmissions

Mr. Lansley: To ask the Secretary of State for Health how many emergency readmissions there have been in each quarter since 1997; and what the rate of patients readmitted as an emergency was for each quarter. [51929]

Ms Rosie Winterton: The data requested are shown in the table. Prior to 2002-03 data was only collected on a 75 and over age basis. This was expanded in 2002-03 to include all age ranges. Information is not collected on what proportion of readmissions may be due to something being amiss with the treatment in the previous hospital spell. Some patients and clinicians agree that it is better that the patient is discharged early and risk readmission.

Emergency admissions within 28 days of discharge for England

Financial year/ quarter	*Number of people readmitted as an emergency within 28 days of discharge*	*Rate[1] of 28 day emergency readmission (percentage)*
Data for patients of all ages from 2002-03 to 2005-06

[1] As a proportion of total number of patients discharged. *Source:* Department of Health, SaFFR, LDPR

Mr. Burstow: To ask the Secretary of State for Health how many emergency re-admissions there were in each quarter in 2005; and how many were of people aged *(a)* 0 to 10, *(b)* 11 to 18, *(c)* 19 to 65, *(d)* 66 to 75 and *(e)* over 75. [88964]

Ms Rosie Winterton: The information for 2005 is not yet available owing to primary care trust reconfiguration. It will be available once reconfiguration is complete.

In future information on emergency re-admissions will not be available in the format requested. The data will be available on the National Centre for Health Outcomes Development (NCHOD) website at www.nchod.nhs.uk. The age ranges collected are 0 to

15, 16 to 74 and over 75. NCHOD would normally produce annually, not quarterly, data.

Emissions Trading Scheme

Michael Gove: To ask the Secretary of State for Health how many carbon dioxide emissions permits have been allocated to hospitals; and what the emissions were for each NHS hospital included in the EU Emissions Trading Scheme in the first year of operation. [86455]

Andy Burnham: One hundred and seven hospitals from the United Kingdom were operating in the European Union emissions trading scheme in 2005. A total of 879,241 allowances were issued in 2005 to those hospitals. The total of verified carbon dioxide emissions for those hospitals is 939,256 tonnes.

Epilepsy

Tim Loughton: To ask the Secretary of State for Health how many children in England are being treated for epilepsy. [88023]

Mr. Ivan Lewis: Information on the number of children being treated for epilepsy is not collected.

Eye Disease

Lorely Burt: To ask the Secretary of State for Health what estimate her Department has made of the proportion of *(a)* cataracts, *(b)* cancer of the conjunctiva, *(c)* pterygium and *(d)* solar keratopathy resulting from exposure to sunlight; and what the estimated cost to the NHS was for the treatment of these conditions in the most recent year for which figures are available. [86070]

Caroline Flint: The following table provides information on the finished consultant episodes (FCEs) for the four conditions identified in the question. It is not possible to separately identify the cost of the individual diagnoses relating to exposure to sunlight.

FCEs for 2004-05 for cataracts, cancer of the conjunctiva, pterygium and solar keratopathy

Primary diagnosis	*Total episodes*
Cataracts	314,077
Cancer of the conjunctiva	279
Pterygium	1,889
Solar keratopathy	1,012

Notes:
1. FCEs An FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
2. Diagnosis (primary diagnosis) The primary diagnosis is the first of up to 14 (seven prior to 2002-03) diagnosis fields in the HES data set and provides the main reason why the patient was in hospital.
3. Ungrossed data Figures have not been adjusted for shortfall in data (that is the data was ungrossed). *Source:* Hospital Episode Statistics (HES), the Information Centre for health and social care.

Eye Tests

David Simpson: To ask the Secretary of State for Health how many eye tests were claimed for in *(a)* England and *(b)* each region in each of the last 10 years; and what percentage of those who had eye tests subsequently received (i) spectacles for the first time and (ii) replacement or repairs of spectacles. [88141]

Ms Rosie Winterton: The tables showing the numbers of national health services sight tests, optical vouchers and repairs and replacements claimed for in each of the last 10 years for England and broken down by former strategic health authority area have been placed in the Library.

The number of those who receive spectacles for the first time is not collected centrally.

Vouchers are given to those in eligible groups to contribute towards the cost of spectacles or contact lenses. Eligible groups for repairs and replacements are children aged 16 and under, those in full-time education under 19 and other low-income groups.

Mr. Dunne: To ask the Secretary of State for Health what the average waiting time was for low vision assessments in *(a)* primary care trusts and *(b)* social services departments in (i) England and (ii) Shropshire in the last period for which figures are available. [88672]

Ms Rosie Winterton: This information is not held centrally.

Fabricated Illness (Children)

Tim Loughton: To ask the Secretary of State for Health what the purpose is of her review of the Safeguarding "Children in Whom Illness is Fabricated or Induced", guidance; and if she will make a statement. [88033]

Mr. Ivan Lewis: The guidance, "Safeguarding Children in Whom Illness is Fabricated or Induced" was published in August 2002, as supplementary guidance to "Working Together to Safeguard Children" (Department of Health,1999). The latter was revised in April 2006, to take account of the Children Act 2004.

The purpose of the Department's project is to review progress of how the guidance on safeguarding children in whom illness is fabricated or induced is being implemented within the national health service. The focus of the project is on health professionals in the context of health systems. There will also be some limited input from statutory agencies such as local authority children services which work closely with health teams on safeguarding children. The project is expected to be completed in 2007. Programme funding to continue the project in 2006-07 is not yet guaranteed.

Foreign Nurses

Steve Webb: To ask the Secretary of State for Health how many foreign nurses have worked in the NHS *(a)* in each of the last five years and *(b)* in 2006-07. [89081]

Ms Rosie Winterton: This information is not collected centrally.

Foundation Hospitals

Colin Burgon: To ask the Secretary of State for Health how many foundation trust hospitals have given undertakings in respect of Agenda for Change in their five year business plans; and what steps her Department is taking to ensure that current and future foundation trusts implement and work within the framework of Agenda for Change. [85281]

Ms Rosie Winterton: National health service foundation trusts (NHSFTs) which became operational between 1 April and 1 July 2004 gave a commitment to implement Agenda for Change according to the same national timetable as the rest of the NHS. Applicants for foundation status thereafter were already covered by the national agenda for change agreement and therefore legally their staff on Whitley terms were entitled to the new contract and those on local contracts had to be offered the new terms and conditions. Business plans of NHSFTs are available from respective organisations.

NHSFTs are not bound by any statutory obligation to adhere to Government pay agreements. They are free to deliver healthcare without direction from central Government or performance management by health authorities. However, as independently regulated organisations with a duty to deliver on national standards and demonstrate financial viability, NHSFTs are expected to be model employers and build on their track record of maintaining and developing high standards of employment practice.

Frank Campaign

Tim Loughton: To ask the Secretary of State for Health what estimate she has made of the number of people who accessed the Frank campaign in each of the last five years. [88715]

Ms Rosie Winterton: Frank was launched in May 2003. Between September 2003 and March 2006, according to the figures for which are available for those 30 months, Frank's contribution to drug prevention and increasing participation in treatment was as follows:

61,887 people were provided with information about a suitable local substance misuse service;

35,910 young people and 13,280 parents discussed drug issues with Frank directly. Frank also dealt with 61,713 emails; and

there were seven million hits on the website and 344,663 hits on the drug treatment web pages. The number of hits to the 'Talk to Frank' website's treatment/prevention pages has almost tripled since 2004.

In addition to this:

over 2,000 stakeholders use and recommend Frank's services per year; and

over 5,000 drug and young people professionals receive news and training information about Frank to support local delivery.

General Practitioners

Mr. Lansley: To ask the Secretary of State for Health which localities her Department has identified as being significantly under-provided in terms of GP numbers. [84461]

Ms Rosie Winterton: Those primary care trusts (PCTs) which have fewer than the average number of general practitioners (GP) per 100,000 weighted population are relatively under-provided. The White Paper "Our Health Our Care Our Say" further identifies from among these PCTs the 30 which have fewest GPs for their populations. These PCTs, which are listed on page 63 of the White Paper, are being encouraged to make systematic use of their new contractual freedoms to increase their primary medical care capacity.

Mr. Lansley: To ask the Secretary of State for Health how many GPs there have been *(a)* in total and *(b)* per 10,000 population in each primary care trust in each year since 1997. [86212]

Caroline Flint: The information requested has been placed in the Library.

Mr. Ruffley: To ask the Secretary of State for Health how many *(a)* general practitioner surgeries and *(b)* single-handed general practitioner surgeries there were in each (i) region and (ii) health authority in each year since 1997. [84910]

Caroline Flint: The information requested up to September 2005 has been placed in the Library. The data relates to strategic health authority areas in existence prior to 1 July 2006, and by primary care trust area since 2001 when they came into being.

Sarah Teather: To ask the Secretary of State for Health what average annual number of patients were seen by general practitioners in Brent in each of the last five years. [87776]

Caroline Flint: The information requested is not collected centrally.

David Simpson: To ask the Secretary of State for Health what percentage of GP practices in *(a)* England and *(b)* each region had at least 50 per cent. of their patients living three or more miles away in each of the last five years. [88146]

Caroline Flint: This information is not collected by the Department.

Mr. Paice: To ask the Secretary of State for Health how many general practitioners per head of population there were in *(a)* South-East Cambridgeshire constituency and *(b)* England in each of the last five years. [88740]

Ms Rosie Winterton: Information on the number of general practitioners per head of population in the South-East Cambridgeshire constituency and in England in each of the last five years is shown in the table.

	Numbers (headcount)				
	2001	2002	2003	2004	2005
England					
All Practitioners (excluding retainers and registrars)[1]	28,802	29,202	30,358	31,523	32,738
All Practitioners (excluding retainers and registrars)[1] per 100,000 head of population	58.2	58.8	60.9	62.9	65.1
of which					
Cambridge city PCT					
All Practitioners (excluding retainers and registrars)	85	86	92	99	101
All Practitioners (excluding retainers and registrars)[1] per 100,000 head of population	77.3	76.8	80.1	83.6	85.3
East Cambridgeshire and Fenland PCT					
All Practitioners (excluding retainers and registrars)[1]	82	78	81	85	93
All Practitioners (excluding retainers and registrars)[1] per 100,000 head of population	59.1	55.5	55.8	58.5	64.0
South Cambridgeshire PCT					
All Practitioners (excluding retainers and registrars)[1]	60	63	75	66	73
All Practitioners (excluding retainers and registrars)[1] per 100,000 head of population	45.8	47.8	55.9	48.7	53.9

[1] General Medical Practitioners (excluding retainers and registrars) includes Contracted GPs , GMS Others and PMS Others. Prior to September 2004 this group included GMS Unrestricted Principals, PMS Contracted GPs.

Notes:

1. PMS salaried GPs, restricted principals, assistants, salaried doctors (para 52 SFA), PMS other, flexible career scheme GPs and GP retainers
2. Mid-year ONS 2005 population figures for PCTs are not yet available, therefore 2004 PCT figures have been used for 2005 organisation calculations, as a result these figures are subject to change.

Sources:

The Information Centre for health and social care general and personal medical services statistics. 2001 Office for national statistics population census.

Haematopathologists

Paul Rowen: To ask the Secretary of State for Health what steps are being taken by her Department to ensure that there are sufficient haematopathologists to fulfil the criteria of the National Institute for Health and Clinical Excellence improving outcomes guidance for haematological cancers. [87739]

Ms Rosie Winterton *[holding answer 24 July 2006]:* It is for cancer networks to work in partnership with strategic health authorities and postgraduate deaneries to put in place a sustainable process to assess, plan and review their work force needs and the education and training of all staff linked to local and national priorities for cancer, including the implementation of the National Institute for Health and Clinical Excellence's improving outcomes guidance.

Haemophiliacs

Mr. Stephen O'Brien: To ask the Secretary of State for Health what service level agreement applies to the provision of recombinant factor VII to haemophiliacs. [85882]

Caroline Flint: Funding for the central budget programme was distributed as a single allocation to strategic health authorities (SHAs) on 25 July 2006. It will be for SHAs, in consultation with local stakeholders, to agree and manage how best to deploy the funding allocated to them. The Department is working with SHA chief executives to finalise the service level agreement that will set out the expected outcomes from this funding.

Health Care Contracts

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) what steps her Department is taking to encourage *(a)* primary care trusts and *(b)* strategic health authorities to implement payment by results; what guidance will be given to those authorities and trusts which maintain block contracts; and if she will make a statement; [88869]

(2) what assessment she has made of the effects of *(a)* maintaining block contracts and *(b)* implementing payment by results; [88870]

(3) what assessment she has made of the effects of payment by results in secondary care; what consultation has taken place with health professionals on moving away from block contracts; and if she will make a statement; [88871]

(4) what steps she plans to take to assist *(a)* primary care trusts, *(b)* NHS trusts and *(c)* foundation trusts to implement payments by results; and what support and guidance will be given to trusts which maintain block contracts. [88874]

Andy Burnham: Payment by results is a national policy, and there is a mandatory tariff which applies across the whole of the NHS. "The NHS in England: The operating framework for 2006/7", published in January 2006, set out the ability for strategic health authorities to agree specific local additional rules for a fixed period of time under special circumstances. Discussions on where these might be appropriate continue with the national health service.

We have a range of formal and informal evaluation tools to assist the analysis of payment by results. For example, we announced on 18 July 2006 the findings of the South Yorkshire laboratory, which tracked the progress of a health economy in which payment by results has been implemented to a faster timescale than elsewhere.

We provide a range of guidance and work with all NHS organisations and Monitor (the regulator of NHS foundation trusts) to progress the implementation of payment by results. Detailed guidance on payment by results and full copies of evaluation material are available on the Department's website at www.dh.gov.uk/pbr.

In the past, services were largely paid for through block (fixed-cost) contracts between purchasers and

providers of care. This gave few incentives to purchasers and providers to understand and respond to the needs and preferences of patients. Securing more responsive services can be achieved by strong and effective commissioning with clear functions, new skills and a focus on meeting the specific needs of the local community and groups within it.

On 13 July 2006 "Health Reform in England: update and commissioning framework" was published. In this document is a consultation to inform the further development of a national model contract which will be used to procure services from NHS trusts, foundation trusts, and independent and third sector providers.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what assessment has been made of the impact of maintaining block contracts on (*a*) practice-based commissioning and (*b*) patient choice; and if she will make a statement. [88872]

Andy Burnham: Practice-based commissioning and patient choice are integral parts of the reform process that will ensure that patients and communities have their specific needs and preferences reflected in the commissioning and provision of health and social care.

Historically, block contracts gave few incentives to commissioners and providers of care to respond to the needs and preferences of patients. On 13 July 2006 "Health Reform in England: update and commissioning framework" was published. In this document is a consultation to inform the further development of a national model contract which will be used to procure services from national health service trusts, foundation trusts, and independent and third sector providers.

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether (*a*) the new payment by results programme board will give guidance to health authorities which maintain block contracts after 2008-09 and (*b*) there will be scrutiny of health authorities to ensure that block contracts are not imposed on NHS trusts and foundation trusts; and if she will make a statement. [88873]

Andy Burnham: The payment by results programme board will help ensure that appropriate governance procedures are in place for the implementation of payment by results.

"The NHS in England: The operating framework for 2006-07", published in January 2006, sets out the ability for strategic health authorities (SHAs) to agree specific local additional rules for a fixed period under special circumstances. Discussions on where these might apply are continuing with the national health service.

Primary care trusts will be responsible for commissioning services for their communities and will be accountable to SHAs for the commissioning decisions that they make.

A range of providers including NHS trusts and foundation trusts will provide health and social care services. Commissioning will be a partnership between primary care trusts (PCTs), general practice and local government. General practice is closest to individual patients and best placed to advise them on their choices. Through practice-based commissioning, practices will have more freedom to determine the services that are made available to the local population. PCTs will bring a wider view of the overall needs of people living in their communities, and can identify inequalities.

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether block contracts will be allowed for ordinary elective procedures in 2007-08; and if she will make a statement. [88875]

Andy Burnham: On 13 July 2006 "Health Reform in England: update and commissioning framework" was published. In this document is a consultation to inform the further development of a national model contract which will be used to procure services from national health service, foundation trusts, and independent and third sector providers.

The aim is to publish a model contract in autumn 2006 for use in the 2007-08 contracting round. The eventual model contract will support the tenets of the health reform programme including practice-based commissioning, payment by results and good financial health.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what estimate she has made of savings achieved through competitive purchasing in the NHS in each of the last three years. [88878]

Andy Burnham: The prices that the national health service pays reflect the market dynamics for individual products. It results from direct competition between suppliers, where such competition exists.

The NHS Purchasing and Supply Agency (NHS PASA) competitively tenders and awards framework agreements on behalf of the NHS in England where central frameworks are appropriate.

Savings achieved through NHS PASA's competitive purchasing in each of the last three years is as follows:

2005-06, savings of £325 million on contract value of £3.2 billion;

2004-05, savings of £339 million on contract value of £3.6 billion; and

2003-04, savings of £409.9 million on contract value of £4.25 billion.

It must be recognised that NHS PASA can only report on the value and savings of contracts in its name; there is no central record for contracts awarded by NHS trusts themselves.

Health Professions Council

Miss Begg: To ask the Secretary of State for Health (1) what percentage of the cases brought against chiropodists by the Health Professions Council resulted in guilty verdicts in each year since it was established; [88363]

(2) how many cases brought against chiropodists by the Health Professions Council have resulted in compensation being paid to the chiropodist because of a spurious complaint. [88364]

Andy Burnham: This information is not held centrally. The Health Professions Council is an autonomous statutory body and maintains its own record of fitness to practise cases.

Health Service Changes

Mr. Laurence Robertson: To ask the Secretary of State for Health what the average consultation period is for the changes which primary care trusts and hospital trusts are implementing during the 2006-07 financial year; and if she will make a statement. [74259]

Andy Burnham: The information is not held centrally.

"Overview and Scrutiny of Health—Guidance", published in July 2003, advised that it is good practice for consultation to follow Cabinet Office guidelines which state that full consultation should last for a minimum of 12 weeks.

Health Service Deficits

Miss McIntosh: To ask the Secretary of State for Health what measures she is taking to reduce deficits in the health service; and if she will make a statement. [87084]

Andy Burnham: The aim is for the national health service as a whole to achieve financial balance by the end of 2006-07 and for all overspending organisations to have reached monthly balance of income and expenditure within the same period. The new strategic health authorities (SHAs) have been given the responsibility to develop and implement a service and financial strategy for managing the overall financial position within their health economy. SHA strategies will include the creation of local reserves.

A more rigorous financial and performance regime has also been introduced which is intended to identify and expose the underlying financial problems in NHS organisations which may not previously have been apparent. Through this greater degree of transparency and performance management, NHS organisations will be able to work effectively towards returning to financial balance.

For the organisations with the biggest problems we have sent in financial and management specialists to help address problems and restore financial balance.

Health Services

David Simpson: To ask the Secretary of State for Health how many *(a)* GP practices, *(b)* dental practices, *(c)* ophthalmic practices and *(d)* pharmacies there were in (i) England and (ii) each region in each of the last five years. [88136]

Ms Rosie Winterton: The information requested has been placed in the Library. However, data on the number of ophthalmic practices is only available for England and cannot be broken down regionally.

David Simpson: To ask the Secretary of State for Health how many *(a)* GPs, *(b)* dentists, *(c)* optometrists and *(d)* pharmacies (i) there were and (ii) there were per 100,000 resident population in (A) England and (B) each region in each of the last five years. [88140]

Ms Rosie Winterton: The information requested has been placed in the Library.

David Simpson: To ask the Secretary of State for Health what percentage of *(a)* GPs, *(b)* dentists, *(c)* optometrists and *(d)* pharmacies in (i) England and (ii) each region were (A) male and (B) female (1) under 40, (2) between 40 and 55 and (3) over 55 years old in each of the last five years. [88142]

Ms Rosie Winterton: This information has been placed in the Library.

The Information Centre for health and social care holds no workforce data on pharmacists. There are also no age data for the ophthalmic work force, while gender data at organisation level are only available for the latest year. Dental data for age and gender are not readily available at organisation level so are presented to national level. They are also included for the years in which they are available.

Joan Walley: To ask the Secretary of State for Health what recent discussions she has had on health deprivation in Stoke-on-Trent; and if she will make a statement. [80600]

Ms Rosie Winterton: Although there have been no recent departmental discussions on health deprivation in Stoke-on-Trent, the area had a visit by my right hon. Friend the Secretary of State on 4 April when she visited the University Hospital of North Staffordshire National Health Service Trust. The Secretary of State also met hon. Members from North Staffordshire on 3 May.

Stoke-on-Trent is in the spearhead group, the fifth of areas with the worst health and deprivation indicators. The group is a focus for action to help achieve the life expectancy element of the 2010 national health inequalities target to narrow the gap in life expectancy between the spearhead areas and the England average.

Revenue allocations are made directly to primary care trusts (PCTs). This is done on the basis of a fair funding formula which directs funding to those areas of greatest need. It includes the additional needs for health care related to deprivation. It is for individual PCTs to assess the health needs of their communities and to commission appropriate services to meet those needs.

Healthcare Commission

Mr. Hurd: To ask the Secretary of State for Health on what grounds hospital trusts can refuse to submit performance data to the Healthcare Commission. [89112]

Andy Burnham: Under section 68 of the Health and Social Care (Community Health and Standards) Act 2003, the Healthcare Commission has the power to require information from national health service bodies at any time when that information relates to the provision of health care by or for that body, and when

the commission considers it necessary to have the information for the purposes of its functions in relation to NHS health care. It is an offence not to comply with such a requirement without reasonable excuse.

A hospital trust might have grounds for refusing a request if it could show that the information was not needed for any of the purposes outlined.

Heart Conditions

Mr. Holloway: To ask the Secretary of State for Health what steps have been taken to improve the life chances of those with heart conditions in *(a)* Kent and *(b)* Gravesham since 1997. [88100]

Ms Rosie Winterton: Reducing deaths from coronary heart disease (CHD) is a top priority for this Government. The national service framework (NSF) for CHD, published in March 2000, sets the agenda for the modernisation of CHD services over a 10-year period. The NSF was drawn up by clinicians, patients, managers and Government and sets 12 standards for improved prevention, diagnosis, treatment and rehabilitation and goals to secure fair access to high quality services. The NSF is already making a real difference for patients.

The national health service on the south-east coast has advised that following the publication of the NSF for CHD, a significant amount of work was undertaken to improve access to services for patients with CHD, and to ensure that future services meet the needs of the Kent population.

In March 2004, the Kent cardiac network ratified a strategy to develop a network of cardiac catheter labs and associated facilities across Kent and Medway. This resulted in the agreement to build catheter laboratories at Dartford, Margate, Maidstone, Medway and Tunbridge Wells to support the one already existing laboratory in Ashford.

In addition to the development of new catheter labs, £14.5 million capital funding has enabled the local hospitals to redesign their cardiology departments to enable the catheter labs to become the focal point of local heart centres. Complex cardiac surgery will continue to go to the specialist surgical centres at St Thomas's and Kings College Hospital in London.

Across the Gravesham area, the NHS on the south-east coast has advised of the following improvements to cardiac services since the publication of the NSF for CHD:

Dartford and Gravesham NHS Trust

A new heart centre at Darent Valley hospital is under construction. This new building will bring together cardiac services and will be a centre of excellence. Coronary angiography commenced at Darent Valley in November 2005 as an interim service while the heart centre build is completed. The cardiac team anticipate moving into the building during November 2006. The opening of the heart centre will allow the service to be extended by doing more angiograms and also offering angioplasty locally by spring 2007.

At the trust's rapid access chest pain clinic patients are seen and start their treatment within two weeks of referral from their general practitioner.

The introduction of specialist nurses at the Darent Valley Hospital to help reduce the door-to-needle time. Patients having some type of heart attack now receive clot-busting drugs as soon as possible.

Dartford, Gravesham and Swanley Primary Care Trust (PCT)

The PCT runs healthy lifestyle days in the local community where the general public can discuss health matters and receive advice from community nursing staff and dieticians, and physiotherapists.

The development of a breathlessness clinic provides community diagnostic services for patients, many of whom may have heart failure.

Heat-related Conditions

Sarah Teather: To ask the Secretary of State for Health how many people received hospital treatment for *(a)* sunburn, *(b)* heat stroke and *(c)* dehydration in (i) each London strategic health authority and (ii) each London primary care trust in each year since 1997. [87672]

Ms Rosie Winterton: This information is not held in the format requested. However, the table showing the latest data available for episodes relating to effects of heat and light, sunburn and volume depletion (dehydration), by London strategic health authority and primary care trust for the years 1997-98 to 2004-05, has been placed in the Library.

HIV/AIDS

Mr. Burstow: To ask the Secretary of State for Health how many HIV tests in each genito-urinary medicine clinic in each London strategic health authority were *(a)* offered and *(b)* taken in 2005. [88521]

Caroline Flint: The number of HIV tests offered and taken in the genito-urinary medicine (GUM) clinics within the London strategic health authorities (SHA) is shown in the table. The dataset used to compile this data was taken from the KC60 return, which is made by all GUM clinics to the health protection agency. Only tests offered and taken in GUM clinics are recorded in the KC60 return. Testing undertaken in other clinical settings, such as general practice, is not recorded in the dataset.

The data do not represent the number of HIV tests offered and taken up by the population resident in each SHA, as many patients cross health boundaries to access GUM clinics. In addition, the gender and sexual orientation mix varies between clinics. Some clinics are attended by a high number of homosexual and bisexual men and consequently this influences the number of HIV tests offered and taken.

Numbers of HIV tests offered [1] and taken [2] in genitourinary medicine clinics [3] by SHA, London, 2005 [4]

SHA	Clinic name	Offered/ tested	2005
North Central London	Archway Sexual Health Clinic	Offered	6,450
		Tested	5,217

Numbers of HIV tests offered [1] and taken [2] in genitourinary medicine clinics [3] by SHA, London: 2005 [4]

[1] Offered defined as KC60 codes S2 (HIV antibody test and sexual health screen) + P1A (HIV antibody test no sexual health screen) + P1B (HIV antibody test offered and refused).
[2] Test taken defined as S2 + P1A.
[3] The following genitourinary medicine clinics appear under different names to those used in 2004:
- Barnet General Hospital, Clare Simpson House was previously Clare Simpson House;
- Barking Hospital was previously Sydenham Centre;
- Whipps Cross University Hospital was previously Forest Healthcare;
- The Victoria Clinic for HIV and Sexual Health was previously South Westminster Centre;
- Guy's Hospital was previously Lloyd Clinic; and
- St. George's Hospital was previous the Courtyard Clinic.
[4] Data for 2005 is provisional.
[5] King's College hospital does not collect information for code S2.

Hospital Admissions

Mr. Paice: To ask the Secretary of State for Health how many people in *(a)* South-East Cambridgeshire, *(b)* Cambridgeshire and *(c)* England were admitted to hospital in each of the last five years as a result of the effects of *(a)* hot and *(b)* cold weather. [88929]

Andy Burnham: The information requested is not available centrally.

Hospital Art

Steve Webb: To ask the Secretary of State for Health how much was spent on hospital art in each of the last five years *(a)* in total and *(b)* broken down by region. [89084]

Andy Burnham: Since 2002-03, information has been provided annually by national health service trusts on the total amount invested in art and art projects. This information is provided in the following table and shows the total spend on labour, materials and resources for arts and arts projects by strategic health authority (SHA) area as configured at 31 March 2006.

Data for 2003-04 and before were provided as part of a mandatory data set. From 2004-05, data have been provided by trusts on a voluntary basis as part of the initiative to reduce bureaucracy in the NHS.

Approximately 50 per cent. of the expenditure in each year was funded by sources external to the NHS, including charities.

The data provided have not been amended centrally and their accuracy of their is the responsibility of the provider organisation.

Hospital Building

Mr. Lansley: To ask the Secretary of State for Health, pursuant to the answer of 27 June 2006, *Official Report*, column 328W, on hospital building, if she will republish the data with the threshold value defined as *(a)* £25 million and *(b)* £50 million at 2006-07 prices. [83930]

Andy Burnham: A copy of the full list of operational hospital building projects given the go-ahead since January 1980 with values over £29.7 million has been placed in the Library. In line with the recent uplift of the £50 million threshold to a 2006-07 price basis of £58.6 million, the value of a £25 million scheme in 1999-2000 is today worth £29.7 million.

Hospital Expenditure

Mr. Godsiff: To ask the Secretary of State for Health what the *(a)* availability component of the unitary charge and *(b)* capital charges were as a proportion of total hospital expenditure in each hospital in each of the last three years. [86672]

Andy Burnham: I refer my hon. Friend to the reply given on 5 June 2006, *Official Report*, column 384W, with regard to the availability component of the unitary charge. The table placed in the Library gives details of unitary payments for each private finance initiative scheme which has become operational over the last five years (the table shows what the percentage of these payments are against the trusts' annual turnover as opposed to expenditure). Unitary payments include the costs for hard and soft facilities management services as well as for construction and financing. It is not possible to separately identify costs attributable only to the non-services element of the contract, as the availability component includes costs attributable to providing hard facilities management services.

Information on capital charges as a proportion of national health service trusts' annual expenditure in each of the last three years has been placed in the Library.

Hospital Food

Mr. Burstow: To ask the Secretary of State for Health (1) what estimate she has made of the average amount spent on hospital food per patient per day in 2005-06; and whether a central assessment has been made of variation in spending in each region; [88516]

(2) what proportion of total patient main meals in hospitals were represented by untouched meals in 2005-06. [88517]

Andy Burnham: For 2005-06, data provided by the national health service shows that the average amount spent per patient meal was £2.65.

No central assessment is made of spending on main meals in different regions. However, performance indicators on this and related areas are available to all trusts through the estates return information collection system to support local monitoring and decision-making.

Data on untouched meals form part of a wider question on untouched/unserved meals. This includes food delivered to the ward and not served, for example because a patient has gone home, as well as that served but not eaten. For 2005-06, the percentage of untouched/unserved meals was 10.14 per cent.

The data provided has not been amended centrally, and the accuracy of this data is the responsibility of the provider organisation.

Hospital-acquired Infections

Mr. Boswell: To ask the Secretary of State for Health what assessment her Department has made of research on the possible link between the level of patient harm and negative health-care outcomes and the number of beds in wards. [85166]

Andy Burnham: The research that the Department has commissioned on in-patient accommodation is not yet complete and therefore no final assessment has been made.

Hospitals (Cornwall)

Andrew George: To ask the Secretary of State for Health if she will ensure that the next edition of 'Choosing Your Hospital' for the West and Central Cornwall primary care trusts includes full descriptions of each of the three hospitals within the Royal Cornwall Hospitals NHS Trust including their records for cases of *(a)* MRSA and *(b)* inpatient waits. [87660]

Mr. Ivan Lewis: It is expected that the next edition of the 'Choosing Your Hospital' booklet will include descriptions of each hospital within a hospital trust as well as performance indicators. The performance indicators in the booklet are likely to include information on meticillin-resistant Staphylococcus aureus bacteraemia reports and waiting times. Performance indicators will be based on Healthcare Commission information.

Immunisation

Mr. Stephen O'Brien: To ask the Secretary of State for Health if she will ensure that all those due for

immunisation receive that immunisation in the next two months. [88135]

Caroline Flint: Children are currently offered vaccinations according to the following schedule:

When to immunise	*What is given*	*How it is given*
Two, three and four months old	Diphtheria, tetanus, pertussis (whooping cough), polio and Hib (DTaP/IPV/Hib)	One injection
	MenC	One injection
Around 13 months old	Measles, mumps and rubella (MMR)	One injection
Three years and four months to five years old	Diphtheria, tetanus, pertussis (whooping cough) and polio (dTaP/IPV or DTaP/IPV)	One injection
	Measles, mumps and rubella (MMR)	One injection
13 to 18 years old	Diphtheria, tetanus, polio (Td/IPV)	One injection

Pneumococcal vaccine will be added to the routine schedule from 4 September 2006.

Independent Service Providers

Colin Burgon: To ask the Secretary of State for Health what percentage of NHS operations were carried out by the independent sector in each of the last three financial years; and what percentage of NHS operations are expected to be carried out by the independent sector in *(a)* 2006-07 and *(b)* 2009. [85283]

Andy Burnham: Information is not collected centrally on the percentage of national health service operations carried out in the independent sector. Information on elective admissions is collected. The percentage of NHS elective admissions carried out by the independent sector was 1 per cent in 2003-04, 1.5 per cent in 2004-05 and 1.8 per cent in 2005-06.

NHS local delivery plans suggest this percentage could rise to 4 per cent in 2006-07. Information is not available for 2009.

Infant Mortality

Tim Loughton: To ask the Secretary of State for Health what progress has been made towards infant mortality targets; and if she will make a statement. [88716]

Caroline Flint: The infant mortality health inequalities public service agreement target is by 2010 to reduce by 10 per cent. the gap between routine and manual groups, as defined by Office for National Statistics, and the rest of the population. Currently, the gap is 19 per cent. The latest data show no change in the gap between these groups and the rest of the population, 2002-04, compared with the data for the previous year, 2001-03, which were set out in 'Tackling Health Inequalities—A Status Report on the Programme for Action', published last August.

We are undertaking a review of this target to help sharpen local delivery of services to these groups with a strong focus on key interventions to prevent avoidable infant mortality. This will help contribute to meeting the target by narrowing the gap between these groups and the rest of the population, and build a long-term sustainable reduction in health inequalities. The results of the review will be published in due course.

Influenza Vaccinations

Mr. Burstow: To ask the Secretary of State for Health what the take-up rate for influenza vaccinations was in each *(a)* strategic health authority and *(b)* primary care trust in London in 2005-06; and if she will make a statement. [88837]

Caroline Flint: The take-up rate for influenza vaccine in 2005-06 by strategic health authority and primary care trust is shown in the following table:

Strategic health authority (SHA)	*Primary care trust (PCT)*	*Percentage uptake 2005-06 those aged 65 and over*	*Percentage uptake 2005-06 in those aged 6 month to under 65*

[1] No data submitted

Sarah Teather: To ask the Secretary of State for Health how many people in Brent *(a)* were entitled to and *(b)* received the vaccine for influenza in each year since 1997. [87238]

Caroline Flint: The information requested is not collected in the format requested.

Influenza vaccine uptake data for those aged 65 and over has been collected since 2000. For 2000-01 and 2001-02 the data was collected by health authority. The uptake for Brent and Harrow Health Authority (HA) in 2000-01 was 61 per cent. and in 2001-02 was 67 per cent.

Influenza uptake by primary care trust (PCT) was collected from 2002 to 2006 and is available on the web at: www.immunisation.nhs.uk/article.php?id=448. A copy has been placed in the Library.

General practitioners are responsible for ordering sufficient flu vaccine to immunise those who fall into at risk groups registered with them.

Influenza vaccine uptake for those aged 65 and over in Brent is shown in the following table.

	HA/PCT	Rate of uptake (percentage)
2000-01	Brent and Harrow	[1]61
2001-02	Brent and Harrow	[1]67
2002-03	Brent Teaching	61
2003-04	Brent Teaching	69
2004-05	Brent Teaching	71
2005-06	Brent Teaching	75

[1] Data reported by HA. Data collected by PCT from 2002-03.

Mr. Spellar: To ask the Secretary of State for Health pursuant to her answer of 13 July 2006, *Official Report*, column 2060W, on influenza vaccine, how often in the last 10 years the Novartis Vaccines plant has been out of production; and what the reasons were in each case. [87726]

Caroline Flint: The Novartis Vaccines plant did not produce influenza vaccine in 2004, following an inspection by the Medicines and Healthcare products Regulatory Agency.

Information Sharing

Mr. Lansley: To ask the Secretary of State for Health what progress has been made in developing a pilot to test an integrated approach to information handling between a primary care trust and a local authority. [84466]

Caroline Flint: I refer the hon. Member to the reply given to him on 16 June 2006, *Official Report*, columns 1557-58W.

Information Technology Projects

Dr. Cable: To ask the Secretary of State for Health what the *(a)* start date, *(b)* original planned completion date, *(c)* current expected completion date, *(d)* planned cost and *(e)* current estimated cost is for each information technology project being undertaken by her Department and its agencies; and if she will make a statement. [87178]

Caroline Flint: The information technology projects currently being undertaken by the Department and its agencies are shown in the table:

Name of project	Start date of project	Original planned completion date of project	Current expected completion date of project	Planned cost of project (£000)	Current estimated cost of project (£000)
UNIFY2	July 2006	March 2007	March 2007	1,400	1,400
Stakeholder relationship management system	June 2005	June 2006	July 2006	555	470
EPM	December 2005	August 2006	August 2006	213	240
Notes 7 upgrade	October 2005	December 2006	April 2007	1,500	2,200
Windows XP SP2 upgrade	January 2006	October 2006	December 2006	900	900
External services environment	April 2006	September 2006	September 2006	215	215

Name of project	Start date of project	Original planned completion date of project	Current expected completion date of project	Planned cost of project (£000)	Current estimated cost of project (£000)
Network and cabling upgrade to Quarry House	January 2006	April 2007	July 2007	3,000	3,150
Web 2006	November 2005	June 2006	Oct 2006	176	176
Enterprise project and collaboration	November 2005	October 2006	September 2006	150	135
Benefits tracking	January 2006	May 2006	June 2006	375	375
The Club project	June 2005	July 2006	October 2006	5,710	5,710
National Programme for IT[1]			—	—	—

[1] There is no single national start or completion date for the national programme for information technology as a whole, or for its individual systems and services. The aim is to achieve substantial integration of health and social care information systems in England under the national programme by 2010. Clearly systems will need to be upgraded in the light of new technology and new national health service requirements beyond that date. The approach, in line with best practice, is to implement new services incrementally, avoiding 'big bang' approach, and providing increasingly richer functionality over time. The value of the contracts let for the core components of the national programme amounts to £6.2 billion over 10 years, and this has not increased.

Intensive Care Beds

Mr. Burstow: To ask the Secretary of State for Health how many intensive care beds were available on average in 2005-06; and what the average occupancy rates were. [88525]

Andy Burnham: I refer the hon. Member to the reply given on 3 November 2005, *Official Report*, column 1340W. Data are not yet available for 2005-06.

Intensive Therapy Units

Mr. Greg Knight: To ask the Secretary of State for Health when an assessment was last made of the sufficiency of capacity in intensive therapy units in England; and if she will make a statement. [85320]

Andy Burnham *[holding answer 17 July 2006]:* It is for local health care providers, working with their commissioners, to determine—in the light of their case mix and their anticipated level of emergency and elective activity—the level of critical care capacity needed locally.

The NHS Plan published in 2000 included a commitment to increase the number of critical care beds in England by 30 per cent., between 2000 and 2003. This target has been achieved. On 6 June 2006, there were 3,278 adult critical care beds. This is the highest number of critical care beds recorded since this census started in 1999. Data are available on the Department's website at:

www.performance.doh.gov.uk/hospitalactivity/data_requests/index.htm

International Humanitarian Health Work Toolkit

Mr. Burstow: To ask the Secretary of State for Health what action she is taking to strengthen the International Humanitarian and Health Work Toolkit to increase the amount of humanitarian work that NHS staff undertake abroad. [88900]

Ms Rosie Winterton: The Department is working closely with the review Lord Crisp is carrying out on behalf of the Prime Minister. This is looking at how the national health service can contribute to capacity building in developing countries. We will review the need to update and strengthen the toolkit in the light of his report.

Isolated Acute Medical Services

Tim Farron: To ask the Secretary of State for Health what progress she has made in implementing the recommendations of the 2002 Royal College of Physicians working party on isolated acute medical services. [88533]

Ms Rosie Winterton: Local national health service organisations are responsible for ensuring that they provide health care to meet the needs of their patients taking into account and building on evidence of good practice. The Royal College of Physicians (RCP) recommendations on isolated acute medical services is one such piece of good practice guidance. Progress in implementing recommendations made by the RCP is not monitored by the Department.

Learning and Development

Jon Trickett: To ask the Secretary of State for Health what funding has been allocated for the new contractual commitment to providing learning and development opportunities for all NHS staff. [86145]

Ms Rosie Winterton: Specific funding, amounting to £180 million over three years for national vocational qualifications and learning accounts, as part of the skills for life initiative ended in 2005-06.

From 2006-07, the continuing responsibility for these initiatives remains with the strategic health authorities who will decide their priorities and the use of the totality of their funding to deal with all of their financial commitments, including learning and development of national health service staff.

Liquor Manufacturers

Steve Webb: To ask the Secretary of State for Health (1) if she will make it her policy to require liquor manufacturers in England to supply consumers with full information about the ingredients used to produce

their beverages; and if she will make a statement; [88530]

(2) if she will make an assessment of public support for an end to the exemption from food labelling laws for liquor manufacturers. [88531]

Caroline Flint: Food labelling legislation is largely harmonised at European Union level. The European Commission is currently conducting a review of this legislation, which includes the possible extension of ingredient listing to alcoholic drinks. As part of this review, the United Kingdom (UK) has already indicated to the European Commission that it supports the principle of ingredient listing for all alcoholic drinks, while recognising that any proposal for detailed application will need to be fully considered in public consultation with stakeholders.

The UK Government's position on ingredient listing for alcoholic drinks was informed by extensive public consultations, which took place in 2004 and 2006. Any proposals from the European Commission for an extension of ingredient listing to alcoholic drinks will be subject to further public consultation and a full impact assessment.

Lymphoma

Mrs. Gillan: To ask the Secretary of State for Health how much her Department has spent on lymphoma nurse specialists in each year since 2001. [87918]

Ms Rosie Winterton: The information requested is not collected centrally. It is for primary care trusts in partnership with local stakeholders to determine how best to use their funds to meet national and local priorities for improving health and to commission services accordingly. The Government have supported the development of a range of specialist roles within nursing, and trusts must deploy them in the light of their local circumstances.

Myalgic Encephalomyelitis

Mr. Hoyle: To ask the Secretary of State for Health (1) what assessment she has made of the merits of specialist services to treat myalgic encephalomyelitis sufferers; [87999]

(2) what assessment she has made of the effect of budgetary pressures within the NHS on specialist services for myalgic encephalomyelitis sufferers. [88000]

Mr. Ivan Lewis: A report on specialist services for chronic fatigue syndrome/myalgic encephalomyelitis (CFS/ME) is expected to be published later in the year.

We have made no assessment of the effect of budgetary pressures within the National Health Service on specialist services for CFS/ME.

Mr. Russell Brown: To ask the Secretary of State for Health what estimate she has made of the cost in a year to the economy of myalgic encephalomyelitis; and how much was spent on health services for myalgic encephalomyelitis sufferers in the last period for which figures are available. [88343]

Mr. Ivan Lewis: The Department has not made an estimate of the cost to the economy of chronic fatigue syndrome/myalgic encephalomyelitis, and does not monitor national health service expenditure by specific illnesses.

Medical Records

John Hemming: To ask the Secretary of State for Health what medical records that are not kept within their normal medical files a doctor is permitted to hold on patients. [87894]

Caroline Flint: There are no restrictions on what medical records are kept by doctors and other medical professionals provided they comply with the requirements of professional regulatory bodies, departmental guidance, and the law. Doctors are required by the General Medical Council to keep clear, accurate, legible and contemporaneous patient records which report the relevant clinical findings, the decisions made, the information given to patients, and any drugs or other treatment prescribed, and which serve to keep colleagues well informed when sharing the care of patients. Any information held by a doctor about a patient is subject to a range of statutory and common law obligations, including specifically the requirements of the Data Protection Act 1998, directions and guidance issued by the Department and, in many cases, organisation-specific policies and working practices determined by employing bodies.

Medical Services Directive

Mr. Hancock: To ask the Secretary of State for Health what recent representations has she received from *(a)* the Dental Laboratories Association and *(b)* others with regards to the revision of the Medical Devices Directive. [85928]

Andy Burnham: The Dental Laboratories Association (DLA) along with other relevant trade associations are members of a steering committee set up by the Medicines and Healthcare products Regulatory Agency to help prepare the United Kingdom negotiating position on the revision of the medical devices directive. The DLA has also made separate representations to the Department on a proposal that the statement of conformity to the directive prepared by a dental technician be passed by the dentist to the named patient.

Medical Staff (Brent)

Sarah Teather: To ask the Secretary of State for Health how many *(a)* nurses and *(b)* doctors were recruited from overseas in Brent in each year since 1997. [87321]

Ms Rosie Winterton: This information is not held in the format requested. However, the following table shows the latest data available for general and personal medical services, and hospital and community health services medical staff, including all doctors for Brent Teaching Primary Care Trust and the former Brent and Harrow Health Authority, by country of qualification, year and by organisation.

General and personal medical services and Hospital and Community Health Services (HCHS): All doctors[1,2,3] by country of qualification and year showing specified organisations

n/a = data not applicable
[1] General Medical Practitioners (excluding retainers) includes Contracted GPs, GMS Others, PMS Others and GP Registrars. Prior to September 2004 this group included GMS Unrestricted Principals, PMS Contracted GPs, PMS Salaried GPs, Restricted Principals/ Assistants, GP Registrars, Salaried Doctors (Para 52 SFA), PMS Other, Flexible Career Scheme GPs and GP Returners.
[2] Excludes medical Hospital Practitioners and medical Clinical Assistants, most of whom are GPs working part time in hospitals.
[3] Excludes all dental staff. Information about country of qualification is derived from the General Medical Council. For staff in dental specialties, with a General Dental Council registration, the country of qualification is therefore unknown.
[4] GP data as at 1 October 1997-1999, 30 September 2000-2005. HCHS data as at 30 September each year
Sources:
The Information Centre for health and social care General and Personal Medical Services Statistics The Information Centre for health and social care Medical and Dental Workforce Census

Medical Technologies

Dr. Desmond Turner: To ask the Secretary of State for Health (1) what measures have been put in place to monitor the extent of the adoption of medical technologies in the NHS; [87029]

(2) what steps her Department is taking to ensure that budgetary pressures do not affect the use of the most effective medical technologies in the NHS. [87031]

Andy Burnham: There are no national measures in place specifically to monitor the adoption of non-drug medical technologies.

Guidance from the National Institute for Health and Clinical Excellence is an important tool in ensuring that national health service organisations prioritise clinically and cost effective interventions.

Medical Transcription Services

Jon Trickett: To ask the Secretary of State for Health how many NHS organisations have outsourced medical transcription services to *(a)* UK and *(b)* overseas organisations; what estimate she has made of the reduction in the number of medical secretary posts as a result of outsourcing; and what arrangements are in place for the evaluation of the impact of outsourcing these services in terms of (i) value for money and (ii) impact on patient care. [86148]

Ms Rosie Winterton: This information is not collected centrally.

Any decision to outsource medical transcription services and evaluate the impact of outsourcing these services is made by each national health service organisation in line with their business needs.

Medicine and Healthcare Products Regulatory Agency

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether the Medicine and Healthcare Products Regulatory Agency requirement of notification of shortages of medicine applies to parallel import licence holders in the same way as it is applied to the original manufacturer. [88879]

Andy Burnham: Articles 23a and 81 of Directive 2001/83/EC (as amended) relate directly to the supply of medicines, and require holders of marketing authorisations—within the limits of their responsibilities—to maintain appropriate and continued supplies of their products, and to notify the competent authority if a product is not going to be available either temporarily or permanently. The legislation requires two months notice in all but exceptional circumstances. Information supplied to the Medicines and Healthcare products Regulatory Agency (MHRA) is shared with medicines pharmacy and industry group in the Department.

Parallel import traders, for the purpose of the directive, are not holders of marketing authorisations and are not required to notify the MHRA. However, contractual terms and conditions with national health service trusts are applied to all suppliers equitably, whether manufacturers, traders or parallel importers.

Mental Health

Mr. Clegg: To ask the Secretary of State for Health what assessment she has made of the demand for expansion of the capacity of secure mental health units. [85419]

Ms Rosie Winterton: The requirement for secure mental health services is kept under regular review in order to inform the planning of the future development of psychiatric services at all levels of security.

A review of the forensic mental health system is being planned and scoping meetings have already taken place. This is underpinned by clear capacity planning for high and medium secure services that has already taken place and regional forensic commissioners in the national health service are validating the projections against their own regional strategies. New service models are emerging and regional commissioners have established a work programme that takes these models and the implications of the capacity requirements forward in a structured way.

Progress is being monitored through the high security psychiatric services national oversight group.

Mr. Clegg: To ask the Secretary of State for Health what the *(a)* average cost of a bed in a secure mental health ward and *(b)* total cost of secure mental health facilities was in the last year for which figures are available. [85420]

Ms Rosie Winterton: Information about the average costs of beds in secure mental health facilities for 2004-05, the latest year available, is contained in the publication 'NHS reference costs 2005' and in the following tables, which are also available on the Department's website at: www.dh.gov.uk/assetRoot/04/13/32/28/04133228.xls and www.dh.gov.uk/assetRoot/04/13/32/29/04133229.xls

The information is given in the form of national average unit costs per occupied bed day for various different types of secure provision. Figures are given for national health service trusts and primary care trusts combined, and for non-NHS providers. On the basis of these costs, we estimate total spending on secure mental health facilities in 2004-05 to be £664 million.

National schedule of reference costs: NHS trusts and primary care trusts combined, mental health services secure unit data

Service code	Mental heath services: secure unit data	Number of occupied bed days	National average unit cost (£)	Interquartile range of unit costs: Lower quartile (£)	Interquartile range of unit costs: Upper quartile (£)	Number of data submissions
ScU1	Local Psychiatric Intensive Care Units	92,702	476	413	577	21
ScU2	Low Level Secure Services	334,038	357	304	389	43

ScU43	High Dependency Secure Provision: Learning Disabilities	2,769	440	342	443	2
ScU44	High Dependency Secure Provision: Personality Disorder	2,045	736	700	700	5

Lynne Jones: To ask the Secretary of State for Health what resources have been allocated under the well-being support programme in 2006-07, *(a)* broken down by primary care trust and *(b)* in total; what recent assessment she has made of the physical health of people with mental health problems; and if she will make a statement. [87596]

Ms Rosie Winterton: The Department's 2006-07 and 2007-08 revenue allocations to primary care trusts (PCTs) separately identify £211 million in 2006-07 and £342 million in 2007-08 to support the implementation of the "Choosing Health" White Paper.

For the two years covered by this allocation, a total of £14 million has been identified nationally to invest in the well-being support programmes initiative to support the implementation of the "Choosing Health" White Paper commitments. However, only a total amount to cover the implementation of the White Paper has been identified within each PCT's 2006-07 and 2007-08 revenue allocations. No breakdown of the funding by initiative is shown in the individual PCT's allocations. It is PCTs' responsibility to decide how to use these funds. That said, the "Choosing Health" White Paper delivery plan sets out in detail the expectations of how this funding should be utilised.

As made clear in the "Choosing Health" White Paper, the Government recognises that people with poor mental health tend to experience worse physical health than the rest of the population. This is why it is supporting well-being support programmes in spearhead PCTs and through the Shift initiative. Guidance for commissioners on well-being support programmes will be published shortly.

Tim Loughton: To ask the Secretary of State for Health what percentage of the budget for mental illness was spent on children in the last period for which figures are available. [88027]

Mr. Ivan Lewis: Information is not collected in the form requested.

Information from the 2005 child and adolescent mental services (CAMHS) mapping indicates that expenditure on CAMHS rose by 20 per cent. between the financial years 2004-05 and 2005-06.

In 2004-05 the actual spend on CAMHS was £432.62 million. The predicted spend for 2005-06 was £517.96 million. In 2004-05, primary care trust share of the spend was £360 million in 2004-05 and predicted to rise to £417.96 million in 2005-06. The local authority element was £72.61 million in 2004-05 rising to £99.99 million in 2005-06.

Michael Palin Centre

Tim Loughton: To ask the Secretary of State for Health (1) how much public funding was given to the Michael Palin Centre for Stammering Children in each of the last five years; [88025]

(2) how many NHS patients have been treated at the Michael Palin Centre for Stammering Children in each of the last five years; [88031]

(3) how many children have been treated for stammering and other speech impediments in each of the last five years. [88032]

Mr. Ivan Lewis: The information requested is not collected centrally. It is for primary care trusts in partnership with local stakeholders to determine how best to use their funds to meet national and local priorities for improving health and to commission services accordingly.

Ministerial Hospital Visits

Mr. Dunne: To ask the Secretary of State for Health which NHS establishments Ministers in her Department have visited in Ludlow constituency in the last 12 months. [85288]

Mr. Ivan Lewis: The Department's Ministers have not visited any national health service establishments in Ludlow constituency in the last 12 months.

Mr. Clifton-Brown: To ask the Secretary of State for Health which NHS establishments Ministers in her Department have visited in the Cotswold constituency in the last 12 months. [85427]

Mr. Ivan Lewis: My right hon. Friend, the Secretary of State for Health, visited Cirencester hospital (Cotswold primary care trust) on 25 July 2006.

Mr. Gray: To ask the Secretary of State for Health which NHS establishments Ministers in her Department have visited in North Wiltshire constituency in the last 12 months. [85495]

Mr. Ivan Lewis: The Department's Ministers have not visited any national health service establishments in the North Wiltshire constituency in the last 12 months.

Tim Loughton: To ask the Secretary of State for Health which NHS establishments she has visited in Sussex. [88026]

Mr. Ivan Lewis: The Secretary of State for Health visited Mill View Hospital (Sussex Partnership National Health Service Trust) and the Royal Sussex County Hospital (Brighton and Sussex University Hospital NHS Trust) on 14 July 2006.

Ministerial Offices

Sarah Teather: To ask the Secretary of State for Health how many times her ministerial office has been decorated in each of the last five years. [87647]

Caroline Flint: The Secretary of State for Health's ministerial office has been decorated once in 2005 in the last five years.

Missed Appointments

Lynne Featherstone: To ask the Secretary of State for Health how many missed appointments there have been in each health care trust in *(a)* each of the last 12 months and *(b)* each of the previous four years. [87311]

Andy Burnham: The information requested has been placed in the Library.

MMR Vaccinations

Tim Loughton: To ask the Secretary of State for Health (1) what the MMR vaccination rate was in each primary care trust area in the last period for which figures are available; [88012]

(2) what percentage of five-year-old children have missed routine vaccinations. [88028]

Caroline Flint: Immunisation data by primary care trust, strategic health authorities and nationally are published annually in the statistical bulletin national health service immunisation statistics, England, which is available on the Department's and The Information Centre for health and social care's websites. Data are not available by local authority or by electoral ward. Links to the latest three publications are:

Copies have been placed in the Library.

MRSA

Mr. Graham Stuart: To ask the Secretary of State for Health how many MRSA cases there have been in each hospital in Hull and East Yorkshire Hospitals NHS Trust area in each of the last five years; and if she will make a statement. [87673]

Andy Burnham: The information is not available in the format required. However, methicillin resistant *Staphylococcus aureus* (MRSA) figures for Hull and East Yorkshire Hospitals National Health Services Trust are as follows:

	Number/rate
April 2001 to March 2002	
Number of MRSA bacteraemia reports	106
MRSA rate (per 1,000 bed days)	0.26
April 2002 to March 2003	
Number of MRSA bacteraemia reports	75
MRSA rate (per 1,000 bed days)	0.18
April 2003 to March 2004	
Number of MRSA bacteraemia reports	102
MRSA rate (per 1,000 bed days)	0.23
April 2004 to March 2005	
Number of MRSA bacteraemia reports	90
MRSA rate (per 1,000 bed days)	0.21

The Department continues to engage those trusts facing the most significant challenges to their delivery plan, which ensures the trust meets an agreed level of reduction in MRSA bacteraemia. Here it is working with trusts most likely to benefit from tailored support. Hull and East Yorkshire Hospitals NHS Trust is engaged in this improvement programme, and a departmental team concluded a diagnostic assessment, and recommendations for action were due to be presented to the trust board on 25 July. The board will, with departmental support, be working up a detailed action plan to deliver the agreed reduction in MRSA cases.

David Simpson: To ask the Secretary of State for Health what percentage of cases of MRSA infection in *(a)* England and *(b)* each region resulted in a fatality in each of the last five years. [88151]

Andy Burnham: The data requested are not collected centrally.

The Office for National Statistics published figures on the number of deaths where methicillin resistant Staphylococcus aureus was mentioned on the death certificate from 1999 to 2004 in Health Statistics Quarterly 29 in spring 2006. The full paper is at:

www.statistics.gov.uk/downloads/theme_health/HSQ29.pdf.

Mr. Graham Stuart: To ask the Secretary of State for Health how many cases of MRSA have been identified in hospitals in Yorkshire and the Humber in each of the last five years, broken down by national health service trust; and if she will make a statement. [88507]

Andy Burnham: The information requested is shown in the following table.

Trust	*April 2001 to March 2002* *Number*	*April 2002 to March 2003* *Number*	*April 2003 to March 2004* *Number*	*April 2004 to March 2005* *Number*	*April 2005 to March 2006* *Number*
Airdale NHS Trust	11	10	20	18	16

Trust	April 2001 to March 2002 Number	April 2002 to March 2003 Number	April 2003 to March 2004 Number	April 2004 to March 2005 Number	April 2005 to March 2006 Number
Barnsley Hospitals NHS Foundation Trust	22	18	22	13	17
Bradford Teaching Hospitals NHS Foundation Trust	45	48	44	75	58
Calderdale and Huddersfield NHS Trust	38	39	37	40	28

Source:
Department of Health Mandatory methicillin resistant staphylococcus aureus (MRSA) Bacteraemia Surveillance Scheme

This is the first Government to introduce mandatory MRSA surveillance and this continues to be developed. An improvement programme has been introduced to provide tailored support to those trusts with the most challenging MRSA bacteraemia numbers. The objective is to assist in diagnosing those issues which prevent reduction in infections and to develop practical, robust action plans that speed-up progress and delivery. General support and shared learning is enhanced via trusts' "Performance Improvement Network", which has over 80 participants.

National Cancer Peer Review Programme

Tim Loughton: To ask the Secretary of State for Health how the National Cancer Peer Review teams are funded. [88040]

Ms Rosie Winterton: For 2006-07, funding for peer review is included as part of a block sum which will be made available for strategic health authorities to manage.

National Care Records System

Steve Webb: To ask the Secretary of State for Health what steps her Department is taking to ensure the protection of the rights of data subjects under the Data Protection Act 1998, in relation to the National Care Records System; to which categories of electronic information patients *(a)* will and *(b)* will not be able to restrict access; and what steps are being taken to ensure security and confidentiality of subject-identifiable data. [82329]

Caroline Flint: The Department has placed the protection of individual rights at the heart of the new national health service care records service. The Department is working closely with the Information Commissioner to ensure that the requirements of the Data Protection Act 1998 are met in full, and is sympathetic to the Commissioner's call for increased penalties for those who misuse personal health and other information under Section 55 of the Act.

However, the Data Protection Act does not provide individuals with the right to restrict access to information where the information is processed in accordance with the principles set out in the Act. The rights of individuals to restrict access to information that relates to them stem from common law confidentiality obligations rather than the Data Protection Act.

Where information is held in confidence, the common law allows individuals to prevent information from being shared without their consent unless, exceptionally, there is a reason for sharing that requires obligations of confidentiality to be overridden. The new system of electronic care records is therefore being designed to enable patients to restrict access to information that the NHS holds in confidence. Many older NHS systems were not designed to safeguard confidentiality in this way and these will be phased out over the next few years.

A person's right to confidentiality can, however, be overridden by statute or by a court order and, where these apply, restrictions placed on access by patients have to be set aside. Patients are not permitted to place restrictions on access to information where it is clear that to do so would put others at risk of serious harm. Also, exceptionally, patient restrictions may have to be overridden by a health professional where the public interest in sharing information outweighs obligations of confidentiality, for example in child protection cases. Where an individual's restrictions are overridden the system will generate an alert to enable senior staff to check that the decision was appropriate and lawful.

The Department has produced what we believe is the most comprehensive privacy statement of any public service in the form of the NHS care record guarantee for England, setting out 12 commitments the NHS makes to patients in order to protect their confidentiality. A major campaign is planned to inform the public about what information the NHS keeps about them, how it is used, the safeguards in place, and their options for putting restrictions on who can access information about them.

In addition to ensuring compliance with the law, we are committed to best practice in maintaining the security and confidentiality of information systems by applying role-based access, smartcard technology and individual regulation to manage the use of NHS care records. More generally, the Department promotes the highest standards of information governance across the whole health and social care sector in the interests of all patients and clinicians.

National Institute for Health and Clinical Excellence

Mr. Keetch: To ask the Secretary of State for Health whether the National Institute for Health and Clinical Excellence makes an estimate of the total financial impact that its technology appraisal guidance will have on the NHS in a year. [89140]

Andy Burnham: Each technology appraisal published by the National Institute for Health and Clinical Excellence sets out the potential overall cost impact on the national health service of the recommendations.

Mr. Keetch: To ask the Secretary of State for Health whether a limit is placed on the financial impact that technology appraisal guidance from the National Institute for Health and Clinical Excellence may have on the NHS in relation to cancer treatments. [89141]

Andy Burnham: There is no such limit. The role of the National Institute for Health and Clinical Excellence is to provide the national health service with guidance on the use of health technologies based on an assessment of their clinical and cost effectiveness.

Mr. Keetch: To ask the Secretary of State for Health whether provision has been made for the funding of licensed cancer treatments being assessed by the National Institute for Health and Clinical Excellence for which guidance is expected during 2006-07. [89142]

Andy Burnham: Funds for the anticipated costs of guidance from the National Institute for Health and Clinical Excellence are included in the Department's allocation of resources to the national health service.

Jessica Morden: To ask the Secretary of State for Health (1) whether final guidance from the National Institute for Health and Clinical Excellence has been *(a)* reversed and *(b)* amended as a result of an appeal; [89168]

(2) whether the final guidance issued in a technology appraisal by the National Institute for Health and Clinical Excellence has ever significantly differed from the recommendations published in the original consultation document. [89169]

Andy Burnham: The National Institute for Health and Clinical Excellence's final guidance has on a number of occasions been amended as the result of either the appeal process or consultation responses.

Mr. Amess: To ask the Secretary of State for Health what assessment she has made of the impact of the 2003 National Institute for Health and Clinical Excellence guidance on the use of drug-eluting coronary stent technology on *(a)* outcomes for patients and *(b)* repeat revascularisation procedures. [87832]

Ms Rosie Winterton: The Department has not made an assessment of the impact of the 2003 National Institute for Health and Clinical Excellence guidance on the use of drug-eluting coronary stent technology on outcomes for patients and repeat revascularisation procedures. Furthermore, data on outcomes for patients and how many have required repeat revascularisation procedures are not collected centrally.

Mr. Amess: To ask the Secretary of State for Health what discussions she has had with the National Institute for Health and Clinical Excellence on the status of the review of guidance on the use of drug-eluting coronary stent technology; and if she will make a statement. [87833]

Ms Rosie Winterton: The Department has had no discussions with the National Institute for Health and Clinical Excellence (NICE) on the status of their review of guidance on the use of drug-eluting coronary stent technology. I understand that NICE is currently reviewing this guidance and expects to issue revised guidance to the national health service in October 2006.

National Institute for Mental Health

Tim Loughton: To ask the Secretary of State for Health how many *(a)* headcount and *(b)* whole-time equivalent people are employed in each of the National Institute for Mental Health in England/Care Services Improvement Partnership regional centres. [88277]

Ms Rosie Winterton: The numbers of people employed by care services improvement partnership (CSIP), including national institute for mental health in England (NIMHE), in each of its regional centres are as follows:

CSIP regional centre including NHIME	*Number of people employed by CISP regional centre including NHIME*
North East, Yorkshire and Humberside	72 (52 whole-time equivalent)
North West	59 (53)
East Midlands	62 (47)
West Midlands	60 (38)
London	43 (35)
Eastern	42 (40)
South East	43 (32)
South west	35 (27)

It should be noted that the North East, Yorkshire and Humberside regional development centre has significantly more employees because it covers the geographical area of two Government office regions.

National Programme for Information Technology

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 16 June 2006, *Official Report*, columns 1560-1W, on the NHS Care Records Service, (1) whether the systems being delivered through the National Programme for IT are compatible with the equivalent systems in Scotland and Wales; [80306]

(2) what parts of the systems developed through the National Programme for Information Technology are incompatible with the equivalent systems in *(a)* Scotland and *(b)* Wales. [84459]

Mr. Ivan Lewis: The devolved administrations in Scotland and Wales have adopted different approaches to the development of information technology support in their respective health services from those being delivered through the national programme to the national health service in England, based on their own functional requirements and assessment of priorities.

England, Scotland, and Wales co-operate closely to ensure a common approach to technical standards, through, for example, the NHS information standards board, so that, where appropriate, information can be exchanged between the health services quickly, safely and securely. Where the countries are following a common approach, there are opportunities for using the same systems. For example, Scotland is using the same N3 network services as England, and is adopting the same picture archiving and communication systems that are used in some English cluster areas. However, because of differing functional requirements and administrative arrangements, systems are not necessarily applicable across all the home countries.

Mr. Lansley: To ask the Secretary of State for Health what the total value is to date of fines paid by NHS organisations for a failure to comply with the terms of contracts related to the national programme for information technology; which NHS organisations paid the fines in each case; and if she will make a statement. [80300]

Caroline Flint: National programme for information technology contracts do not provide for the payment of fines by national health service organisations. However, an arrangement known as the managed authorities employees scheme provides for the secondment of NHS staff on a temporary basis to work with local service providers (LSPs) to ensure that the systems and services being developed and deployed meet the needs of the NHS. This arrangement was factored into the contracts with LSPs and reflected in the contract price. In some, though not all, cluster areas it is underpinned by a financial liability on NHS organisations for failure to source sufficient numbers of staff with the necessary expertise.

Mr. Stephen O'Brien: To ask the Secretary of State for Health in what way and for what reasons *(a)* Northumbria Healthcare, *(b)* Norfolk and Norwich NHS Trust, *(c)* Dudley NHS Trust and *(d)* South West Yorkshire Mental Health Trust have dispensed with the NHS IT system; how much it has cost them to do so; and what her estimate is of the impact on the NHS IT programme of their actions. [83049]

Caroline Flint: None of the national health service trusts referred to has dispensed with the national programme for information technology (IT). All remain committed to the programme and its objectives, and to realising the benefits it is already bringing, and will continue to bring to NHS patients and staff.

We have always said that the programme will make maximum use of existing systems when deciding local implementation priorities. We are adopting an incremental approach to replacing existing systems, and this strategy ensures that best use is made of the existing asset base. There is scope within deployment plans in each cluster for existing systems to be replaced in either the shorter or the longer term depending on the circumstances of NHS trusts and primary care trusts locally. It makes no sense to replace prematurely systems with appropriate functionality that are delivering demonstrable benefit to patients and staff when other NHS organisations have systems that are in urgent need of replacement.

This approach to local deployment lies behind decisions made by the Northumbria Healthcare NHS trust, the Dudley Group of Hospitals NHS trust, and the Norfolk and Norwich University Hospital NHS trust to defer migration to the patient administration system supplied by the local service provider (LSP). The approach is set out in programme-wide implementation guidance. The guidance which is aimed at providing structured and consistent mechanisms, and describing the critical tasks necessary to maximise benefits from the changes being enabled by the national programme, is published on the Department's NHS Connecting for Health agency's website at: www.connectingforhealth.nhs.uk/implementation The circumstances of the South West Yorkshire Mental Health Trust are slightly different.

The trust was established in April 2002 from three separate organisations, and inherited nine different clinical information systems. Due to the complexity of the current systems and the need to consolidate them it is not currently possible for the Trust to be an early development site for the national programme. The trust board has taken a decision to procure an interim clinical information system which will put it in a stronger position to transfer data onto the LSP-delivered system as soon as this becomes available.

NHS organisations that retain use of their existing systems typically incur annual maintenance costs, which are paid locally. These costs are saved following migration to solutions provided under the national programme. Information is not collected centrally about the amounts in each case. However, in the case of the Dudley Group of Hospitals NHS trust, all IT services and applications were included in the trust's overall public finance initiative contract, and no separate IT maintenance costs are payable.

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many *(a)* clinical and *(b)* administrative IT systems have been installed in the NHS since 2002. [75132]

Caroline Flint: The period in part predates the deployment of systems and services through the national programme for information technology, and comprehensive information is not available. In particular, information is not held centrally about local information technology (IT) procurements prior to the national programme, and only partial information is held about local IT systems commissioned that are not within the national programme, such as staff administration and finance systems.

Available information is given in the table.

National programme clinical and administrative IT installations as at 13 July 2006

System	*Type*	*Primary*	*Secondary*	*Deployment level*	*Total deployed*
Accident and emergency	Clinical	—	Yes	Trust	3
Acute patient administration system (PAS)	Clinical	—	Yes	Trust	12

[1] Users registered.
[2] connections—an estimated 865,000 users.
Note:
Clinical systems are those which health care professionals use when dealing directly with patients that is front office. Administrative systems are those which support back office facilities for example email/payments.

In addition, we are aware that 187 national health service organisations currently use administrative systems to support the electronic staff record, and over 100 NHS trusts use systems provided by NHS Shared Business Services Ltd. (a joint venture between the Department and Xansa) to provide finance and accounting services to the NHS.

The vast majority of NHS locations have to date received new software or hardware via the national programme.

NHS Brokerage System

Mr. Godsiff: To ask the Secretary of State for Health how much was received by each hospital from primary care trusts through the NHS brokerage system in each of the last three years. [86673]

Andy Burnham: In each of the last three years cash brokerage was managed by strategic health authorities across the national health service organisations for which they had responsibility. This information is not held centrally by the Department.

From 2006-07 this system of cash brokerage has ceased and any cash support for NHS trusts will be through a system of interest bearing loans and deposits issued by the Department.

NHS Budget

Alan Simpson: To ask the Secretary of State for Health pursuant to the Answer of 3 March 2006, *Official Report*, column 1049W, on the NHS budget, which major non-NHS providers received the 5.3 per cent. of the NHS contract spending in 2004-05; and which companies provided the £78.8 million of centrally-procured elective treatment. [82725]

Andy Burnham: The Department does not collect centrally information about individual companies providing healthcare services under contracts which are agreed locally with primary care trusts or national health service trusts. The companies that provided centrally procured services in 2004-05 were:

Interhealth;

Netcare Healthcare UK Limited;

Alliance Medical Ltd;

Capio UK;

Nuffield Hospitals; and

The Birkdale Clinic (Rotherham) Ltd

NHS Chief Executives

Mr. Flello: To ask the Secretary of State for Health how many chief executives of *(a)* strategic health authorities, *(b)* primary care trusts, *(c)* hospital trusts and *(d)* other NHS organisations (i) have been made redundant since 1 May 2005 and (ii) are in the process of being made redundant; and how many in each category are over the age of 55 years. [87398]

Ms Rosie Winterton: This information is not collected centrally.

NHS Direct

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 4 July 2006, *Official Report*, column 986W, on NHS Direct, what the total volume of calls made to NHS Direct was in each quarter since December 2002. [84668]

Ms Rosie Winterton: The information requested is shown in the table.

Financial year	*Number of calls answered* [1]	*Number of calls referred to 999 services by NHS Direct* [2]	*Percentage of calls to NHS Direct which have been referred to 999*	*Number of calls referred to accident and emergency (A&E)* [3]	*Percentage of calls to NHS Direct which have been referred to A&E*
2002-03					
Q4	1,609,663	52,765	[4]3.3 (5.6)	105,230	[4]6.5 (11.2)
2003-04					
Q1	1,655,618	49,065	3.0 (5.4)	106,974	6.5 (11.8)
Q2	1,524,876	50,860	3.3 (5.9)	109,361	7.2 (12.7)
Q3	1,628,297	57,681	3.5 (6.2)	98,794	6.1 (10.6)

Q2	1,550,490	56,105	3.6 (5.9)	94,873	6.1 (10.0)
Q3	1,688,245	62,673	3.7 (5.8)	94,189	5.6 (8.8)
Q4	1,748,935	62,000	3.5 (5.5)	91,395	5.2 (8.1)
2005-06					
Q1	1,705,750	59,261	3.5 (5.5)	99,764	5.8 (9.2)
Q2	1,626,366	55,685	3.4	97,610	6.0
Q3	1,723,708	62,046	3.6	98,766	5.7
Q4	1,755,927	61,005	3.5	97,115	5.5

[1] Definition of volume: calls answered—number of calls answered/handled after the introductory message.
[2] Calls referred to ambulance or paramedic services.
[3] Calls where patients are asked to attend an A&E department.
[4] The figures in brackets were calculated using the number of calls answered that required nurse assessment and do not include those that relate to health information and other information requests.
Source:
NHS Direct

Julia Goldsworthy: To ask the Secretary of State for Health (1) what forecast her Department has made of future levels of demand for NHS Direct services; [87759]

(2) what assessment she has made of the likely impact of proposed site closures and staff redundancies on the number of telephone queries that NHS Direct can handle per month. [87949]

Ms Rosie Winterton: This information is not centrally held. It may be available from the chairman of NHS Direct Special Health Authority.

NHS Finance

Mr. Burstow: To ask the Secretary of State for Health how many NHS organisations had financial recovery plans in each of the last five years. [22980]

Andy Burnham: The Department manages the financial performance of the national health service through strategic health authorities (SHAs). NHS organisations that overspend are required to develop recovery plans to return to financial balance. Recovery

plans are agreed and managed by SHAs so the information requested is not held by the Department.

Mr. Lansley: To ask the Secretary of State for Health what the year-end gross surplus or deficit of the NHS has been in each financial year since 1997-98. [76967]

Andy Burnham: The following table provides both the gross and net financial position of the national health service for the years 1997-98 to 2004-05 and the gross and net provisional outturn for 2005-06.

£000

	Gross surplus	Gross deficit	Total net surplus/ (deficit)
1997-98	118,501	(239,854)	(121,353)
1998-99	144,756	(163,226)	(18,470)
1999-2000	143,465	(272,806)	(129,341)
2000-01	152,708	(41,007)	111,701
2001-02	140,587	(69,328)	71,259
2002-03	301,886	(206,239)	95,647
2003-04	338,006	(265,474)	72,532
2004-05	503,917	(725,275)	(221,358)
2005-06 (provisional outturn)	764,840	(1,276,930)	(512,090)

Notes:
1. Figures for 1997-98 to 2004-05 taken from annual accounts summarisation schedules.
2. Figures for 2005-06 taken from 2005-06 month 12 financial monitoring returns.

Mr. Lansley: To ask the Secretary of State for Health what the average real terms change in spending on the NHS was over the period *(a)* 1979 to 1997 and *(b)* since 1997. [76972]

Caroline Flint: The average annual real terms increase in national health service expenditure over the period 1979-80 to 1996-97 is 3 per cent.

The average annual real terms increase in NHS expenditure from 1997-98 to 2005-06 is 6.4 per cent.

Mr. Lansley: To ask the Secretary of State for Health pursuant to her Answer of 13 July 2006, *Official Report*, column 2068W, on NHS Finance, what the aggregate year-end financial position of each NHS trust was in each year between 1996-97 and 2002. [87695]

Andy Burnham: The aggregate financial position of all national health service trusts for the years 1996-97 to 2002-03 is shown in the following table:

	NHS trust final outturn surplus/(deficit) (£000)
1996-97	(50,488)
1997-98	(103,720)
1998-99	(35,908)
1999-2000	(127,565)
2000-01	55,920
2001-02	(40,229)
2002-03	(93,529)

John Cummings: To ask the Secretary of State for Health how much capital expenditure there has been at *(a)* Sunderland Royal, Hartlepool university and *(b)* Durham university hospital in each year since 1997. [87863]

Ms Rosie Winterton: Capital expenditure for the relevant trusts is shown in the table for all years currently available. Data are not available at hospital level.

£000

NHS trust	1998-99	1999-2000	2000-01	2001-02	2002-03	2003-04	2004-05
City Hospitals Sunderland	6,808	14,144	9,981	7,686	4,852	15,632	3,125
North Tees and Hartlepool	4,397	8,474	7,620	5,788	5,898	5,738	6,780
County Durham and Darlington Acute	3,101	5,513	23,845	18,145	9,372	10,750	12,196
North Tees and Hartlepool	4,397	8,474	7,620	5,788	5,898	5,738	6,780

Source: Audited summarisation schedules for the trusts containing the specified hospitals 1998-99 to 2004-05.

Mr. Burstow: To ask the Secretary of State for Health how many NHS organisations were in deficit in 2005-06; and what the level of deficit was in each case. [88551]

Andy Burnham: 2005-06 provisional outturn figures show that there were 174 national health service organisations, excluding NHS foundation trusts, reporting a deficit. This information has been placed in the Library.

Mr. Dunne: To ask the Secretary of State for Health what impairment values were being carried on NHS trust balance sheets *(a)* in aggregate and *(b)* broken down by NHS trust at (i) 31 March 2005 and (ii) 31 March 2006. [88670]

Andy Burnham: The information for year ending 31 March 2005 (2004-05) has been placed in the Library. Information for year ending 31 March 2006 will not be available until the autumn.

The table shows impairments reported by national health service trusts for the accounting period 2004-05. Impairment figures are not included in balance sheet fixed asset figures. Impairments cause movements in the fixed asset carrying amounts that are reported in the balance sheet, and so impairments are shown in detailed notes to the balance sheet.

The table shows:

impairments charged to the income and expenditure account in the period 2004-05; and

impairments charged to reserves in the same period.

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether it is permitted for NHS institutions to make surpluses. [85625]

Andy Burnham: The aim is for the national health service as a whole to return to financial balance by the end of 2006-07. NHS organisations are allowed to make surpluses. Where one NHS organisation overspends, another NHS organisation elsewhere in the system needs to underspend for the NHS as a whole to be in financial balance.

Mr. Lansley: To ask the Secretary of State for Health when she expects to publish the first set of quarterly data on the NHS financial position for the 2006-07 financial year. [85786]

Andy Burnham: We published the first quarterly finance report for the national health service for 2006-07 on 11 August 2006.

Mr. Lansley: To ask the Secretary of State for Health what percentage of primary care trust allocations are being top-sliced in 2006-07 in *(a)* England and *(b)* each primary care trust. [86473]

Andy Burnham: Strategic health authorities (SHAs) will take the lead locally in developing and implementing a service and financial strategy for managing the financial position within their locality. This will include the creation of local reserves.

It is for SHAs locally to determine the level of contribution to, and application of these reserves. The level of contribution determined will reflect local financial circumstances, but the underlying principle will be fairness. Those primary care trusts which make a contribution will not lose out, because the money contributed will be repaid, normally within the three-year allocation cycle.

NHS Foundation Trusts

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 13 February 2006, *Official* Report, column 1784W, on NHS foundation trusts, what direct financial support was provided by her Department to applicants for foundation trust status in *(a)* 2004-05 and *(b)* 2005-06. [85829]

Andy Burnham: During 2004-05 and 2005-06 the Department provided direct financial support for national health service foundation trust applicants to the sum of £175,000.

NHS Funding

Tim Farron: To ask the Secretary of State for Health what plans her Department has *(a)* to reduce capital spending and *(b)* to increase revenue spending on the NHS in 2006-07. [87320]

Andy Burnham: The Department has no plans to reduce capital investment by the national health service in 2006-07. Indeed funds allocated direct to NHS trusts and primary care trusts (PCTs) as operational capital for 2006-07 are on average 25 per cent. higher than the previous year and strategic health authorities' strategic capital funds are on average 13 per cent. higher than in 2005-06.

Revenue spending on the NHS is also increasing in 2006-07. Allocations to PCTs rose by 9.2 per cent. in 2006-07.

Capital and revenue are managed and controlled separately by Her Majesty's Treasury. The Department is voted separate budgets for capital and revenue and does not have the power to vire funding from the capital budget to the revenue budget.

NHS Hospitals

Chris Huhne: To ask the Secretary of State for Health how many NHS hospitals there are in *(a)* absolute terms and *(b)* per 1,000 population in (i) rural areas and (ii) non-rural areas; which have accident and emergency wards; and if she will make a statement. [84623]

Ms Rosie Winterton: National health service trusts self-report the number of accident and emergency (A&E) services they provide against definitions set by the Department for the three types of accident and emergency. This is the only level at which such information is available. A table detailing the number of type one accident and emergency departments, by NHS organisation, for the period 2005-06 January to March (Q4) has been placed in the Library.

Data are not available on whether acute trusts are rural or non-rural. Therefore, it is not possible to split the number of major (type one) accident and emergency departments between rural and non-rural areas.

Population data at trust level are not collated centrally, as NHS trusts do not have specific catchment areas.

NHS Logistics Authority

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) when the NHS Logistics Authority will be outsourced; [85626]

(2) if she will name those persons whom she has *(a)* met and *(b)* consulted in connection with the outsourcing of the NHS; when each such meeting took place; and what was discussed at each; [85627]

(3) whether the outsourcing of the NHS Logistics Authority was tendered for in the Official Journal of the European Union; and what the reasons were for that decision; [85628]

(4) what cost savings she expects to make through the outsourcing of the NHS Logistics Authority; and on what rate the contractor will make a profit in running the authority; [85629]

(5) whether the IT systems of the NHS Logistics Authority will be transferred to the outsource company. [85630]

Andy Burnham: In the autumn of 2003, the Department conducted the procurement and supply chain review. It identified the significant value brought to the national health service through the supply chain activity managed by the NHS Logistics Authority and

the NHS Purchasing and Supply Agency. The review recommended that this valuable service must develop and expand, allowing the NHS to obtain even greater benefits.

The Department looked at a number of options for delivering the needed development, investment and expansion, and concluded that the best potential opportunity might exist in a new partnership with the independent sector. This reflected the Government's belief that partnerships between the public and independent sectors can be used successfully to develop essential services in the NHS and elsewhere.

Therefore in August 2004, in accordance with European Union procurement regulations, a notice was published in the Official Journal of the European Union announcing the Department was considering a potential private sector partnering of the supply chain functions of logistics and certain procurement functions of NHS PASA.

This process has been governed by clear public procurement regulations and in March the full business case received ministerial approval and it was stated that subject to final commercial negotiations a contract would be signed with DHL. If approved by Ministers, an announcement will be made soon. Under the terms of the contract, the infrastructure would transfer to DHL.

Details of the proposed cost savings are commercial in confidence at this time but it is estimated that they should be three times greater than the savings that could be achieved in-house.

Since the process began, ministers have met with staff, the unions (UNISON and DTUS), union shop stewards, local Members of Parliament and suppliers. All have sought reassurance that the outsourcing would be in the best interests of staff and the NHS. In addition, ministers have consulted with both legal and commercial advisors.

NHS Managers

Miss McIntosh: To ask the Secretary of State for Health pursuant to the Answer of 28 June 2006, *Official Report*, columns 462-3W, on NHS managers, (1) what the change in the number of managers employed in the NHS in England was between 1 April 1997 and 1 April 2006; [84487]

(2) if she will clarify how many managers were employed in the NHS on 1 April *(a)* 1997 and *(b)* 2006. [84488]

Ms Rosie Winterton: The number of managers employed in the national health service in England in 1997 and 2005 at 30 September each year was 22,173 and 39,391 respectively. Information for 2006 is not available but will begin to fall with the reduction in strategic health authorities, primary care trusts and ambulance trusts. Managers in 2005 were less than 3 per cent. of the NHS workforce.

NHS Modernisation Agency

Mr. Stephen O'Brien: To ask the Secretary of State for Health what work has been done with the NHS Modernisation Agency since 2002 to change working practices so that IT is used effectively, as set out in her Department's publication Delivering 21st century IT support for the NHS. [75122]

Caroline Flint: A consultation document, "Delivering 21st Century IT support for the NHS: National Specification for Integrated Care Records Service—consultation draft", issued in July 2002, outlined the requirements for a national patient care records service and the national standards and specification which would underpin it. Its purpose was to provide an initial review of electronic patient records and to describe a direction of travel for the whole range of information technology standards in the national health service. Nearly 200 initial responses were received from organisations and individuals, and these were taken into account in drawing up the specification for a care record service used in the procurements phase during 2003. A broad spectrum of NHS stakeholders was then engaged to review the specification, including leading clinicians, practitioners, policy advisors, health informaticians, and managers.

Following the closure of the Modernisation Agency in 2004-05 (as a result of the Department's arms length body review) a service implementation directorate has been established within NHS Connecting for Health whose purpose is to help to maximise the value gained from investment in the national programme. This is done by providing support and guidance to the NHS to realise benefits and achieve performance improvement through synergy with other change programmes and system reform, in particular through effective education, training and development. The emphasis is to optimise the use of technology to manage knowledge and information to improve care and treatment, safety and clinical governance, and to re-design processes, supported by appropriate information technology, to improve patient, clinician and managerial satisfaction.

Examples of work done to date in pursuit of these objectives include establishment of an integrated service improvement programme (ISIP) to promote and support the planning and delivery of this kind of transformational change across the NHS. ISIP is focused on helping the national programme for information technology (NPfIT) products to be adopted and exploited by clinicians and managers rather than be seen as peripheral to other NHS priorities and primarily the domain of the IT community.

In addition, the do once and share programme, initiated in March 2005 and involving over 6,000 clinicians, has been set up to minimise unknowing duplication of effort, and to help clinical specialist networks plan improvements in care that will be made possible by the NPfIT. Forty-four national action teams have been established supported by National Institute for Health and Clinical Excellence, specialist libraries, and the Healthcare Commission to distil the current best practice derived from the NHS's knowledge bases into fifty national care pathways representing current best practice. By the end of June 2006 thirty-nine of the action teams will have produced their final reports, which will enable the distilled knowledge to begin to be integrated into national electronic care pathways.

NHS Connecting for Health has also been working with the NHS to compile programme-wide national programme implementation guidance. The guidance is intended to act as an entry point to all NPfIT implementation-related guidance for programme and project managers in NHS trusts, but is also useful to many other groups including clinicians, human resources, and training professionals. The purpose of the guidance is to provide a structured and consistent mechanism for implementation, and to describe the critical tasks necessary to maximise benefits from the changes being enabled by NPfIT, irrespective of the type of implementation a local health community is undertaking.

The guidance, the first version of which was issued in 2004, is published on the NHS Connecting for Health website at

www.connectingforhealth.nhs.uk/implementation

NHS Pensions Agency

Mr. Wallace: To ask the Secretary of State for Health if she will make a statement on the future of the NHS Pensions Agency in Fleetwood. [87796]

Ms Rosie Winterton: NHS Pensions Agency, now part of NHS Business Services Authority (NHSBSA), is currently partially contractorised, with most support services including information and technology, provided by Paymaster (1836) Ltd. The contract with Paymaster contains an options clause to extend the existing contract with the current provider to embrace a range of options and these are currently being considered.

NHSBSA will make the options appraisal work available to the trade unions shortly. After a period of consultation, the NHSBSA will identify which option offers the best solution.

NHS Performance

Mr. Lansley: To ask the Secretary of State for Health pursuant to her answer of 13 July 2006, *Official Report*, column 2073W, on NHS Performance, whether she expects to use her powers under section 97 of the National Health Service Act 1977, as amended, to make adjustments to primary care trust (PCT) and strategic health authority (SHA) allocations when total planned transfers from PCTs to SHAs have been finalised. [87689]

Andy Burnham: Strategic health authorities (SHAs) will take the lead locally in developing and implementing a service and financial strategy for managing the financial position within their locality. This will include the creation of local reserves.

It is for SHAs locally to determine the level of contribution to, and application of, these reserves. The level of contribution determined will reflect local financial circumstances, but the underlying principle will be fairness.

Transfer of contributions from primary care trusts (PCTs) to SHA reserves will be made by inter-authority transfers under section 97 of the National Health Services Act 1977. Those PCTs which make a contribution will not lose out, because the money contributed will be repaid.

Andrew George: To ask the Secretary of State for Health pursuant to the answer of 18 July to question 82500, on NHS performance, what the impact was of each of the factors listed in the original question on the resource allocation of each primary care trust. [88273]

Andy Burnham *[holding answer 24 July 2006]:* I refer the hon. Member to the reply I gave him on 20 July 2006, *Official Report*, column 669W.

NHS Spine

Mr. Andrew Turner: To ask the Secretary of State for Health what information the NHS Spine contains on each patient; and what rights patients have to withhold their data. [88785]

Caroline Flint *[holding answer 25 July 2006]:* I refer the hon. Member to the replies given to the hon. Member for South Cambridgeshire (Mr. Lansley) on 6 July, *Official Report*, columns 1249-50W, and to the hon. Member for Northavon (Steve Webb) on 24 August.

When a patient seeks or is referred for medical treatment, this will necessarily involve the provision of information by the patient to the clinicians involved. Good clinical management requires that health care professionals keep a record of key information about their patients, and national health service organisations are required to ensure that the information is held securely, and that confidential information is not shared inappropriately. Patients do not, however, have the right to determine the media on which patient records are kept, the physical location of the information or who manages the information systems involved.

NHS Treatment (Eligibility)

Anne Milton: To ask the Secretary of State for Health (1) what estimate she has made of the number of people who are not eligible for free treatment who have received free NHS services in *(a)* Guildford and Waverley primary care trust, *(b)* Surrey and *(c)* England in each year since 1997; and what estimate she has made of the costs in each area in each year [87909]

(2) what mechanisms are in place to reclaim the cost of using the NHS from those who are ineligible to use it. [87910]

Ms Rosie Winterton: Entitlement to access free national health service hospital treatment is based on whether someone is ordinarily resident in this country, not on British nationality or the past or present payment of national insurance contributions or UK taxes. Anyone who is not ordinarily resident is subject to the National Health Service (Charges to Overseas Visitors) Regulations 1989, as amended. These regulations place a legal duty on NHS hospitals to establish whether a person is ordinarily resident, or exempt from charges under one of a number of exemption categories, or liable for charges, and to make and recover a charge for the full cost of treatment to those found liable to pay. The onus is on the patient to provide satisfactory evidence to support a claim for exemption from charges.

Where it is established that charges apply they cannot be waived for any reason. NHS trusts are instructed to take all reasonable measures, based on the circumstances of each individual case, to pursue overseas visitors' debt. Nevertheless, we have also made very clear to NHS trusts that immediately necessary treatment, needed to save life or prevent a condition from becoming life-threatening, should always be provided without delay, with charging issues dealt with as soon as reasonably practicable.

Successive Governments have not required the NHS to provide statistics on the number of overseas visitors seen or treated under the provisions of these regulations or on the costs of treatment. It is therefore not possible to provide the information requested on how many chargeable overseas visitors have received free NHS treatment, nor on the costs involved.

NHS Trusts (Final Accounts)

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 2 November 2005, *Official Report*, columns 1151-2W, on NHS trusts (final accounts), what the equivalent figures are for 2005-06. [88523]

Andy Burnham: National health service trusts final accounts for 2005-06 will not be available until autumn 2006. The provisional 2005-06 outturn position for all NHS organisations (strategic health authorities, primary care trusts and NHS trusts) has been placed in the Library.

Non-NHS Staff

Sarah Teather: To ask the Secretary of State for Health how much was spent on non-NHS staff by each London *(a)* primary care trust and *(b)* strategic health authority in each year since 1997. [87496]

Ms Rosie Winterton: The following tables show data on non-national health service staff costs by primary care trusts from 2003-04 to 2004-05, and strategic health authorities for 2003-04 to 2004-05 within London. These are the only full years for which this information is available for PCTs in London.

Non-NHS staff costs for PCTs and SHAs in London

	PCT spend on non-NHS staff (£)

Sources: PCT annual financial returns from 2000-01 to 2004-05
SHA annual financial returns from 2002-03 to 2004-05

Non-urgent Procedures

Andrew George: To ask the Secretary of State for Health how many primary care trusts do not pay for non-urgent procedures for patients which are undertaken by hospitals within 20 weeks of referral. [88342]

Andy Burnham: Increasingly the care that primary care trusts commission from hospitals on behalf of their local populations is subject to payment by results. Payment by results is a national policy, and there is a mandatory tariff, which applies across the whole of the national health service. "The NHS in England: The operating framework for 2006/07", published in January 2006, set out the ability for strategic health authorities to agree specific local additional rules for a fixed period of time under special circumstances.

Obesity

Steve Webb: To ask the Secretary of State for Health how much her Department spent on public health campaigns to tackle obesity in children and young people in each year from 1997 to 2005; and if she will make a statement. [89078]

Caroline Flint: Aggregated expenditure data for public health campaigns to tackle obesity in children and young people is not held centrally. However,

current public health campaigns aim to tackle obesity through the promotion of healthy eating practices and increased physical activity. Examples of centrally funded schemes which contribute include the 5 A DAY programme, school fruit and vegetable scheme (SFVS), healthy schools initiative, and the local exercise action pilot (LEAP). The total cost of the SFVS is estimated at £34 million during the period specified, and the Department makes a yearly contribution of £9.6 million to the local healthy schools programme. The LEAP scheme has received £1.3 million in funding from the Department to date. In addition primary care trusts allocate funding on the basis of local needs and priorities.

Sarah Teather: To ask the Secretary of State for Health how many *(a)* children and *(b)* adults were diagnosed as being obese in each year since 1997, broken down by *(a)* sex and *(b)* age. [87718]

Caroline Flint: The main source of data on the prevalence of obesity is the Health Survey for England (HSE). The data are not available in the form requested as the sample size of the HSE does not allow estimates to be produced at below strategic health authority (SHA) level. All data in the tables are the most recent available.

Tables one and two show the prevalence of obesity among adults and children respectively, by sex and age, in England in each year from 1997 to 2004. Table three shows the prevalence of obesity among adults in North West London SHA (the SHA which contains Brent) as a three-year moving average for the period 1995 to 2002. Table four shows the prevalence of obesity among children aged two to 10 in London Government Office Region (GOR) based on combined 2001 and 2002 HSE data.

Table 1. Prevalence of obesity among adults aged 16 and over by sex and age, England 1997-2004

Ophthalmic Services

David Simpson: To ask the Secretary of State for Health what the total cost of ophthalmic services in *(a)* England and *(b)* each region was in each of the last five years. [88145]

Ms Rosie Winterton: Expenditure on national health service general ophthalmic services is shown in the following table. This covers the cost of NHS-funded sight tests and the cost of NHS optical vouchers to assist with the purchase of spectacles. The table also shows expenditure for the last five years to 2004-05, which is the latest year for which full accounts data are currently available. Data for NHS expenditure on hospital ophthalmic services are not available centrally.

Expenditure on general ophthalmic services by former strategic health authority area

Strategic health authority	2000-01	2001-02	2002-03	2003-04	£000 2004-05
Avon, Gloucestershire and Wiltshire	12,233	12,741	12,520	12,910	14,200

Osteoarthritis

Danny Alexander: To ask the Secretary of State for Health at which locations her Department funds research into *(a)* understanding and *(b)* treatment of osteoarthritis; and if she will make a statement on the Government's strategy for researching osteoarthritis. [88632]

Andy Burnham: Over 75 per cent. of the Department's total expenditure on health research is currently devolved to and managed by national health service organisations. Details of individual projects including a large number concerned with osteoarthritis are available on the national research register (NRR) at www.dh.gov.uk/research. NRR entries include the address of the hospital or other location at which the principal researcher is based.

The Department funds research to support policy and to provide the evidence needed to underpin quality improvement and service development in the NHS. Information about osteoarthritis research commissioned by Department's national research programmes can similarly be found on the NRR.

The Government also support medical and clinical research by funding the Medical Research Council (MRC). The MRC is an independent body funded by the Department of Trade and Industry via the Office of Science and Innovation.

The MRC spent £6.8 million on arthritis and rheumatism research in 2003-04, and is about to issue a highlight notice encouraging researchers to submit innovative proposals aimed at identifying factors involved in the maintenance of musculoskeletal health, especially where such research could underpin the development of new diagnostic approaches.

The approaches to the research are also important and the MRC wishes particularly to support longer-term collaborative research from new partnerships working at the interface of basic and clinical research. To this end, the MRC will consider collaborative funding with other research councils, charities and industry.

Osteoporosis

Mr. Drew: To ask the Secretary of State for Health (1) why the decision was made not to include measures to diagnose and treat osteoporosis within the Quality and Outcomes Frameworks; [83245]

(2) what consideration her Department has given to the inclusion of osteoporosis in the Quality and Outcomes Framework of the General Medical Services contract. [85581]

Andy Burnham: As part of the negotiations for the new general medical services contract for April 2006 an expert panel was engaged by NHS Employers to receive and review submissions on clinical areas for possible inclusion in the quality and outcomes framework (QOF). The number of submissions to the panel for the inclusion of osteoporosis totalled seven out of 514. All submissions were considered and the expert panel produced reports which have been published on the University of Birmingham website at: www.pcpoh.bham.ac.uk/primarycare/QOF/index.htm. Copies have been placed in the Library.

During the negotiations many clinical conditions were considered. The key criteria for inclusion in QOF were:

an evidence base for the effectiveness of intervention in primary care;

the health benefits likely to result from improved primary care; and

Government health priorities for investment through the contractual arrangements with general practitioners.

Due to technical problems with the proposed indicators and the degree of priority attached to other changes to the QOF, the proposals for osteoporosis were not taken forward for the 2006 contract changes. As part of the continuing development of the framework, indicators will be reviewed in the light of emerging evidence.

Out-of-hours Care

Steve Webb: To ask the Secretary of State for Health (1) what the average hourly rate of pay was for GPs providing out-of-hours care in 2005-06; [89110]

(2) if she will conduct an evaluation of standards of out-of-hours care following the introduction of the general medical service contract in 2004; and if she will make a statement. [89111]

Caroline Flint: Information on general practitioner pay for out-of-hours services is not collected centrally.

The National Audit Office published a report on "The Provision of Out-of-hours Care in England" on 5 May 2006. A copy has been placed in the Library.

The report highlights that patient experiences of out-of-hours services are generally positive.

Eight out of 10 patients are satisfied with the service, while six out of 10 rate the service as excellent or good.

Outsourcing

Mr. Gauke: To ask the Secretary of State for Health what administrative functions for which her Department is responsible are outsourced overseas; and what assessment she has made of the merits of outsourcing further such functions overseas. [81554]

Caroline Flint: None of the Department's administrative functions are outsourced overseas. However, in April 2005, the Department entered into a 50/50 joint venture partnership with Xansa to provide shared services to the national health service, called NHS Shared Business Services. NHS Shared Business Services now has over 100 clients on board for finance and accounting services and it is expanding into other areas such as payroll and e-procurement.

To date, NHS Shared Business Services has offshored some activities to India:

elements of information technology development;

user amendment and set-ups;

supplier information set-up and maintenance; and

accounts payable verification.

Overseas Doctors

Mr. Hurd: To ask the Secretary of State for Health what rules and regulations govern overseas doctors who work in the national health service; who assesses the competence of overseas doctors; and whether that assessment is carried out by a *(a)* national and *(b)* local scheme. [89099]

Ms Rosie Winterton: Overseas doctors who work in the national health service are subject to the same terms and conditions of employment as their United Kingdom (UK) counterparts. Like all doctors, before they can practise medicine in the UK they must be registered with the General Medical Council (GMC) and are subject to the GMC's standards of fitness to practise.

At present, for international medical graduates from outside the European economic area the first step is to gain limited registration. This will enable them to practise in the NHS in supervised employment. Before they can be granted limited registration they must provide the GMC with evidence of their medical knowledge and skills-passes at part one and part two of the PLAB test.

Parallel-traded Medicines

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) what the value was of parallel-traded prescription medicines in the UK in 2005-06; [88880]

(2) what estimate she has made of the effect of parallel imports on the NHS pharmaceutical budget in 2005-06; [88881]

(3) what the additional earnings were of pharmacists from the purchase of parallel traded medicines in 2005-06; [88882]

(4) what assessment she has made of the effect of the reimbursement mechanism for pharmacists in England on *(a)* parallel imports and *(b)* new branded medicines entering the market. [88884]

Andy Burnham: No estimates are available centrally.

Mr. Stephen O'Brien: To ask the Secretary of State for Health how the Medicine and Healthcare products Regulatory Agency ensures that the procedures that the research and development based pharmaceutical industry has to follow to ensure quality and patient safety is followed by parallel import traders. [88883]

Andy Burnham: The United Kingdom (UK) parallel import licensing scheme, as required by the European treaty, allows medicinal products already authorised in other European Union (EU) member states to be marketed in the UK provided the imported products have no therapeutic difference from the equivalent UK products and do not appear in the light of scientific knowledge to differ as regards their safety and efficacy.

The Medicines and Healthcare products Regulatory Agency (MHRA) liaises closely with the relevant competent authorities in the EU to obtain the necessary information to ensure that only those products which fully comply with the stringent criteria for parallel import are granted a licence.

Quality and patient safety are further ensured by a thorough assessment of the proposed labelling and/or packaging and the patient information leaflet by assessors prior to the issuing of a licence. Repackaging of the imported product when it occurs is carried out by an approved company in possession of a manufacturer's or assembler's licence, issued by the MHRA. In addition, patient information leaflets

and/or packaging are kept up to date by variations to the parallel import licences when relevant information becomes available via the MHRA's pharmacovigilance activities.

Parallel import traders are also subject to routine inspections by staff of the MHRA's inspection and standards division.

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether parallel importers of pharmaceuticals are asked to guarantee continuous supplies to the NHS. [89171]

Andy Burnham: Neither parallel importers or pharmaceutical companies are asked to guarantee continuous supplies to the national health service. However, for those products tendered and contracted for by the NHS Purchasing and Supply Agency on behalf of NHS trusts, arrangements are in place to ensure that the supply chain is robust.

Parliamentary Questions

Mr. Burstow: To ask the Secretary of State for Health when she will reply to question 22980, tabled by the hon. Member for Sutton and Cheam on 25 October 2005, on NHS organisations' financial recovery plans. [88901]

Andy Burnham: A reply was sent to the hon. Member on 22 August 2006.

Patient Care Records

Anne Main: To ask the Secretary of State for Health what advice she has issued to doctors following the National Institute for Health and Clinical Excellence's recommendations on the advisability of patients being given a record of significant matters discussed during diagnosis and at key stages during their treatment; and if she will make a statement. [86718]

Ms Rosie Winterton: Cancer networks have developed action plans to ensure the National Institute for Health and Clinical Excellence's (NICE) supportive and palliative care guidance is implemented. This includes setting key milestones for delivery, including setting a date by which patients will be provided with a permanent record of important points relating to their consultation. Implementation of the NICE guidance will take place over a number of years and will be monitored by strategic health authorities. We have also commissioned work for the development of a tool to assess patient need at key stages throughout the cancer journey. This will report in spring 2007.

Practice-based Commissioning

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 5 July 2006, *Official Report*, column 1228W, on practice-based commissioning, what the total level of expenditure on incentive payments for practices to take up practice-based commissioning was in each year since the incentive payments were first offered. [85831]

Caroline Flint: A directed enhanced service (DES) had been negotiated under the new general medical services contract to offer all practices an incentive payment to take part in practice based commissioning. The DES is for 2006-07 and has two component parts, each of 95p per registered patient. The DES is available until the end of March 2007, therefore a total expenditure for this year is not currently available.

Prescriptions

Dr. Cable: To ask the Secretary of State for Health (1) how many prescriptions were not used to collect medicines in each of the last five years for which records are available; [87772]

(2) what research she has undertaken to establish the principle reasons for prescriptions not being used by patients; [87773]

(3) what estimate she has made of the percentage of people earning less than £10,000 who are eligible for free prescriptions; [87774]

(4) what percentage of free prescriptions were provided under each type of exemption in each of the last three years; [87775]

(5) whether individual primary care trusts have any freedom to establish prescription charges on services that are provided free-of-charge nationally. [88279]

Andy Burnham: Information is not available about the number of prescriptions issued to patients but not subsequently dispensed and no research has been undertaken to establish the reasons for prescriptions not being used.

Anyone whose income (including earnings) is less than £15,050 per year and is receiving child tax credit, or working tax credit that includes a disability or severe disability element, is entitled to free prescriptions. No separate assessment has been made of the number with earnings under £10,000 who are eligible for free prescriptions.

Prescription charges may only be made in accordance with section 77 of the National Health Service Act 1977 and regulations made under that Act—the National Health Service (Charges for Drugs and Appliances) Regulations 2000 (as amended).

Information about the percentage of the total prescriptions provided free in respect of each type of exemption is in the table.

Percentage

	2003	*2004*	*2005*
People aged 60 and over	64.9	65.7	64.9
Children under 16 and young people aged 16-18 in full time education	7.6	6.9	6.7
Maternity and medical exemption certificate held	8.2	8.4	8.3
Income based entitlement	13.8	13.6	13.1
Prescribed contraceptives	1.5	1.4	1.3
Items personally administered by a doctor	2.9	2.9	3.1

Other items including war pensioners and no specific declaration	1.2	1.2	2.5

Note:
The figures do not total 100 per cent. due to rounding. Source: The information in the table has been taken from the Statistical Bulletin which is available at www.ic.nhs.uk/pubs/prescriptionsdispensed and which provides more detailed information.

Jeff Ennis: To ask the Secretary of State for Health how many people in *(a)* Barnsley and *(b)* Doncaster are eligible for free prescriptions. [88381]

Andy Burnham: Information is not collected about the individuals in Barnsley and Doncaster who are entitled to free prescriptions. The information available about the number of free prescriptions is shown in the table.

Prescriptions dispensed in 2005

	Barnsley	*Doncaster*
Total items dispensed (million)	4.1	5.4
Total free of charge items (million)	3.6	4.7
Percentage of total dispensed free of charge	87.8	87.0
Total chargeable items (million)	0.5	0.7
Percentage of total chargeable	12.2	13.0

Dr. Cable: To ask the Secretary of State for Health which NHS trusts charge *(a)* day surgery and *(b)* accident and emergency patients for prescriptions. [88695]

Andy Burnham: The regulations governing prescription charges provide that a charge should be made by national health service trusts and foundation trust in respect of drugs supplied, other than for administration at a hospital, unless the patient is exempt. No information is collected about the manner in which the regulations are applied in respect of day surgery patients or accident and emergency patients.

Primary Care Trust Funding

Mr. Clappison: To ask the Secretary of State for Health how much funding per head of population was allocated to each primary care trust in 2005-06, ranked from the highest to the lowest. [86641]

Andy Burnham: The information requested has been placed in the Library. Revenue allocations are made to primary care trusts on the basis of relative needs of their populations.

Prisoner Transportation

Mr. Hancock: To ask the Secretary of State for Health what discussions her Department has held with health care professionals about the transportation of prisoners who are *(a)* pregnant and *(b)* suffering from medical conditions affecting mobility; what related guidance she has issued to (i) health care professionals and (ii) the National Offender Management Service; and if she will make a statement. [83814]

Ms Rosie Winterton: It is a requirement for all prisoners to have their medical needs assessed by a health care professional prior to transportation. The precise arrangements for this are a matter for prisons and primary care trusts. The Department has not issued guidance centrally on this matter, and has had no recent meetings with health care professionals about the transportation of prisoners.

Psychotherapy Training

Mr. Burstow: To ask the Secretary of State for Health how many psychiatric trainees undertook psychotherapy training in 2005; and if she will make a statement. [88524]

Ms Rosie Winterton: As at 30 September 2005 there were 3,589 doctors training in the psychiatry specialties of which 43 were in psychotherapy.

In order to obtain a psychiatry specialist registrar post all candidates must have undertaken some training in psychotherapy.

Questionnaires

Mr. Amess: To ask the Secretary of State for Health how many *(a)* questionnaires, *(b)* statistical inquiries and *(c)* investigations have been carried out wholly or partly at public expense on behalf of or by her Department or public bodies for which she is responsible in each year since 1997; and what the (i) nature, (ii) purpose and (iii) cost was of each. [83179]

Andy Burnham: I refer the hon. Member to the reply I gave on 9 August 2006 which set out information on statistical surveys and statistical collections from the national health service and social care services. Information in respect of other parts of the question could not be produced without incurring disproportionate costs.

Redundancy Payments

Steve Webb: To ask the Secretary of State for Health how much has been spent on redundancy payments by *(a)* her Department, *(b)* strategic health authorities, *(c)* primary care trusts, *(d)* ambulance trusts and *(e)* other NHS bodies in each financial year since 1996-97; and if she will make a statement. [84841]

Andy Burnham *[holding answer 13 July 2006]:* Data for the national health service are not collected centrally. In early 2003 the Department began a substantial change programme which led to redundancy costs of £4.32 million in 2004-05 and £0.28 million in 2005-06. Any expenditure in earlier years could be established only at disproportionate cost.

Regulation Review

Mr. Lansley: To ask the Secretary of State for Health when she plans to publish her Department's *(a)* review of information requirements and *(b)* wider review of regulation. [84455]

Andy Burnham: "The Health Reform in England: Update and Commissioning Framework" was published on 13 July 2006, and copies have been placed in the Library.

This document contains a detailed commissioning framework and updates on the future of provider reform, workforce development and system management and regulation and information needs.

A consultation document on system management and regulation will be published in the autumn.

Resources Allocation

Tim Farron: To ask the Secretary of State for Health what research her Department has carried out into the comparative costs of providing health services in urban and rural areas. [89035]

Andy Burnham *[holding answer 25 July 2006]*: The weighted-capitation formula, used to inform revenue allocations to primary care trusts (PCTs), is continuously overseen by the advisory committee on resource allocation (ACRA). The issues faced by rural areas have been looked at by ACRA on numerous occasions when considering the allocation of funds to PCTs.

In 1997 a team of researchers was contracted to examine the effect of rurality on the cost of providing certain services. Accident and emergency services and patient transport costs were examined but no evidence of unavoidable geographical costs were found for these services. However, geographical cost differences were found for emergency ambulance services. This led to the introduction of an emergency ambulance cost adjustment (EACA) from the 1998-99 health authority allocations. The results of this study are recorded in "Study of Costs of Providing Health Services in Rural Areas Progress Report to Resource Allocation Group—Volumes 1 and 2". This research was published by Mallender Hancock Associates/ Operational Research in Health Ltd.

ACRA's current work programme includes looking again at rural issues. This work will inform the revenue allocations post 2007-08.

Tim Farron: To ask the Secretary of State for Health when the review of the market forces factor of the weighted-capitation formula will report. [89036]

Andy Burnham: A review of the market forces factor (MFF) component of the weighted-capitation formula has been commissioned. The review is being overseen by the advisory committee on resource allocation (ACRA). ACRA will report to Ministers on the MFF review in advance of the next allocations round, as the review will inform revenue allocations to primary care trusts post 2007-08.

Tim Farron: To ask the Secretary of State for Health how the members of the Advisory Committee on Resources Allocation were selected; and what steps her Department took to ensure that experts on health services in rural areas were included on the Advisory Committee. [89037]

Andy Burnham: Officials at the Department on behalf of the Secretary of State appoint members of the advisory committee on resource allocation (ACRA) and its subsidiary, the technical advisory group (TAG). In appointing ACRA and TAG members, the aim is to ensure there is the appropriate mix of expertise and experience in all technical and health service issues covered by the groups, including expertise in health services in rural areas.

Royal Cornwall Hospitals Trust

Andrew George: To ask the Secretary of State for Health what recommendations have been made by the turnaround team auditors of the Royal Cornwall hospitals' trust in respect of *(a)* hospital services, *(b)* hospital sites and *(c)* hospital staff. [87662]

Andy Burnham: The turnaround plan is produced locally by the trust with its partners where the specific information will be available.

My right hon. Friend, the Secretary of State for Health, announced the turnaround teams in a written ministerial statement on 1 December 2005, *Official Report*, column 37WS.

The first stage was a baseline assessment, the aim of which was to ensure there is an agreed understanding of the local financial problem and that actions were in hand to address the problem. The contract for the baseline assessment, which took place for the royal Cornwall hospital's trust in February 2006, was awarded to consultants KPMG.

This assessment stage resulted in KPMG rating organisations as:

immediate priority. Need for urgent intervention to drive turnaround;

additional expertise/resource needed to support the turnaround;

drive/focus. Maintain high priority of actions; and

regular challenge of management. Encourage to share what works and deliver easy wins.

The Royal Cornwall hospital NHS trust was rated by KPMG as an immediate priority and needing urgent intervention to drive turnaround. The KPMG assessment therefore did not make specific recommendations in relation to actions for individual organisations. The trust subsequently appointed advisers to help the trust produce a turnaround plan which describes the actions that the trust plans to undertake.

Rule of Rescue Principle

Mr. Love: To ask the Secretary of State for Health whether the rule of rescue principle applies to NHS treatment of *(a)* brain tumours and *(b)* other conditions; and if she will make a statement. [49591]

Andy Burnham: Decisions on the most appropriate care of any individual patient are usually taken by their treating clinician in consultation with the patient, bearing in mind the individual's clinical circumstances, relevant evidence and the need to make effective use of the national health service's resources.

Rural Health Services

Mr. Paice: To ask the Secretary of State for Health what assessment of health needs in rural areas is undertaken by *(a)* her Department and *(b)* primary care trusts. [85134]

Andy Burnham: Nationally, the Department rural proofs policy across much of its business. In policy development we ensure that all communities, including those in rural areas, are able to benefit from our national objectives for healthcare. Examples of our rural proofing activity can be found in the Commission for Rural Communities annual report on rural proofing at: www.ruralcommunities.gov.uk. This commends our White Paper "Our health, our care, our say: a new direction for community services" highlighting policies aimed at providing care closer to the home. Proposals for social care and integration, initiatives to support carers, such as a dedicated telephone helpline, and set of community hospitals will be particularly beneficial to rural populations.

The Department's document "Health reform in England: update and commissioning framework", published on 13 July 2006, sets out a framework for strengthening commissioning in the new primary care trusts (PCTs). An essential part of this is the effective assessment of the health needs of all communities, including those in rural areas. PCTs' effectiveness is assessed by the strategic health authorities, as well as by the Healthcare Commission.

To further support delivery of health objectives in rural communities, the Department with the Department for Environment Food and Rural Affairs funded the Institute of Rural Health, an independent research charity, for the production of a rural proofing toolkit. This was launched at the House of Commons in October 2005, and now acts as a resource for primary care organisations to help ensure that all health care delivery is accessible and appropriate for people living in rural areas.

Section 19 Referrals

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) for which trusts and strategic health authorities auditors have considered, but not made, section 19 referrals in the last 12 months; [85623]

(2) pursuant to her answer of 29 June 2006, *Official Report*, column 605W, on the Audit Commission Act, how many reports she has received in each category since issuing that response; [85639]

(3) pursuant to her answer of 29 June 2006, *Official Report*, column 605W, on the Audit Commission Act, for what reason *(a)* West Midlands strategic health authority, *(b)* West Hertfordshire hospitals NHS trust and *(c)* Avon Ambulance Service NHS trust were absent from her response in the *Official Report* of 21 June 2006, column 1942W; [85640]

(4) pursuant to her answer of 29 June 2006, *Official Report*, column 605W, on the Audit Commission Act, for what reason East Sussex Healthcare NHS Trust is not listed; [85641]

(5) pursuant to her answer of 29 June 2006, *Official Report*, column 604W, on the Audit Commission Act, if she will break down the number of *(a)* Section 8 reports, *(b)* Section 19 referrals and *(c)* Qualifications on accounts Section 19 referrals by month since 2003, including any referrals that have been made since that answer. [85642]

Andy Burnham: Consideration of whether or not to make a referral under section 19 of the Audit Commission Act 1998 is a matter solely for the appointed auditor and information is not available centrally on instances where this has been considered, but no referral has been made.

Since the answer of 29 June 2006, *Official Report*, column 605W, two further referrals have been made in respect of organisations having little prospect of achieving financial balance within a three or five year period.

In the response of 21 June 2006, *Official Report*, column 1942W, West Hertfordshire national health service trust was included in the list of section 8 reports under West Hertfordshire Quadrant, which also constituted a referral under section 19. The referral for Avon Ambulance Trust was not included as it had not been made at the time of compilation of the answer.

The previous answers referred to above omitted West Midlands South strategic health authority (from the answer of 21 June) and East Sussex Healthcare NHS Trust (from the answer of 29 June), and the number of qualifications on account referrals in 2003 should have been 16 (in the table in the answer of 29 June).

The number of section 8 reports, section 19 referrals and qualification on accounts section 19 referrals by month since 2003 is in the following tables.

Year/month	*Section 8 reports*	*Section 19 referrals*	*Qualification on account referrals*[1]
2003			
March	1	—	—
April	1	—	—
July	—	—	16
Total	2	0	16
2004			
January	—	1	—
July	—	—	53

April	8	12	—
June	1	3	—
July	—	1	—
Total	16	22	[3]—

[1] The section 19 referrals issued to these organisations took the form of regularity reports on accounts and did nor constitute a full report to the Secretary of State.
[2] To date.
[3] Not yet available.

Sexual Health

Julia Goldsworthy: To ask the Secretary of State for Health what interim monitoring her Department is undertaking of the delivery by primary care trusts and strategic health authorities of the Government's 2008 targets *(a)* to reduce the level of new infections of gonorrhoea and *(b)* to ensure that all patients have access to genito-urinary medicine clinics within 48 hours. [81520]

Caroline Flint: Data on the number of sexually transmitted infections for 2005 for each region were published by the Health Protection Agency (HPA) on 4 July in each region. The number of cases of gonorrhoea has decreased by 14 per cent. in England since 2004. The report is freely available from the HPA website at:

www.hpa.org.uk/infections/topics_az/hiv_and_sti/epidemiology/datatables2005.htm

Sexual health and access to genito-urinary (GUM) clinics is one of the six top priorities for the national health service in 2006-07. By 2008 everyone should be offered an appointment within 48 hours of contacting a GUM clinic. Strategic health authorities (SHAs) have all submitted plans to meet this target.

The GUM clinic waiting times audit collects data on waiting times for all GUM clinics in England for a period of one week every quarter. All patients attending a GUM clinic with a new episode or registering for the first time are asked to complete the short questionnaire on waiting times. This audit has been chosen as the initial method of monitoring and improving access to genito-urinary medicine services. Current analysis is published on numbers seen within 48 hours. The most recent survey is for May 2006 which shows that in England 54 per cent. of attendees were seen within 48 hours and a further 4 per cent. were offered an appointment but did not attend. This compares with 45 per cent. seen within 48 hours in May 2004. A summary of the data is published on the HPA website at the following web address:

www.hpa.org.uk/infections/topics_az/hiv_and_sti/epidemiology/results_May_2006.htm

In addition the Department is working with SHAs and primary care trusts to establish a new continuous monitoring system for GUM access to all local areas to better performance manage their progress to the 2008 target. We expect GUM services to start returning data in August 2006.

Mr. Burstow: To ask the Secretary of State for Health how many cases of *(a)* gonorrhoea, *(b)* syphilis, *(c)* chlamydia and *(d)* thrush were diagnosed in each primary care trust in London in the last year for which figures are available. [81687]

Caroline Flint: Data on the number of sexually transmitted infections for 2005 for each region was published by the Health Protection Agency (HPA) on 4 July in each region. Copies have been placed in the Library. The report is freely available from the HPA website at:

www.hpa.org.uk/infections/topics_az/hiv_and_sti/epidemiology/datatables2005.htm

Figures on the number of cases of thrush are not collected centrally.

Sarah Teather: To ask the Secretary of State for Health how many free condoms her Department has issued in each London borough in each year since 1997. [87506]

Caroline Flint: I refer the hon. Member to the answer given on 9 November 2005, *Official Report*, column 635W.

Steve Webb: To ask the Secretary of State for Health how many general practitioners have opted out of providing sexual health services in each year from 1997 to 2005 *(a)* in total and *(b)* broken down by region. [89089]

Caroline Flint: This information is not collected centrally.

Shared Business Services

Jon Trickett: To ask the Secretary of State for Health how many NHS organisations have transferred their finance, accounting and payroll services to shared business services; what estimate she has made of the reduction in the number of NHS posts as a result of the transfer of these services; and to what extent predicted cost savings have been achieved. [86147]

Andy Burnham: Since the inception in April 2005 of the Department's 50/50 Joint Venture (JV) with Xansa to provide shared services to the national health service, 56 NHS organisations have transferred their finance and accounting to the JV, whilst 20 have transferred payroll.

The estimate of the reduction in the number of NHS posts as a result of the transfer of these services is over 200.

For the 56 trusts that have joined for finance and accounting, they are achieving savings of over 30 per cent. (which is relative to their previous in house costs) and greater than the original commitment by the JV of achieving 20 per cent. savings. This amounts to a saving, for the 56, of circa £3.9 million per annum.

Sight Loss (Emotional Support)

Mr. Dunne: To ask the Secretary of State for Health whether *(a)* primary care trusts and *(b)* social services departments provide emotional support services for patients in Shropshire at the time of sight loss. [88673]

Mr. Ivan Lewis: The information requested is not held centrally. It can be obtained from Shropshire County Primary Care Trust and Shropshire county council.

Smoking

Tim Loughton: To ask the Secretary of State for Health what methods she uses to estimate the number of children who *(a)* smoke and *(b)* have stopped smoking. [88046]

Ms Rosie Winterton: The survey "Smoking, Drinking and Drug Use among Young People in England" collects information on secondary school children's smoking behaviour. This includes information on the proportion of children who: are regular smokers; are occasional smokers; have tried smoking; used to smoke, that is, have now given up; have ever smoked; and have never smoked.

The methodology for this survey is available within the report. A copy is available in the Library.

Social Care

Andrew Rosindell: To ask the Secretary of State for Health if she will take steps to increase the number of social care workers available to individuals requiring assistance during the evenings and at night time. [86237]

Mr. Ivan Lewis: It is the responsibility of local employers to ensure that there are sufficient numbers of social care workers available to provide the full cover to meet service needs.

Social Marketing

Lembit Öpik: To ask the Secretary of State for Health what plans she has to implement the recommendations in the National Consumer Council document on the potential for effective social marketing within the Health Service; and if she will make a statement. [82478]

Caroline Flint: We commissioned the National Consumer Council to write a report analysing the case for using social marketing and give recommendations on how we could embed the necessary techniques and systems to achieve our Choosing Health white paper commitment to implement a social marketing strategy for England. This report was published on 26 June 2006, and the Department is currently reviewing these recommendations. Following evaluation over the summer we will announce in the autumn what recommendations we will be taking forward to enable us to implement a social marketing strategy for England.

Social Services Care

Mr. Hollobone: To ask the Secretary of State for Health pursuant to the answer of 14 July 2006, *Official Report*, columns 2163-70W, on social services care, what guidance her Department has issued on the splitting of each of the four eligibility bands into sub-priorities. [87083]

Mr. Ivan Lewis *[holding answer 25 July 2006]:* The Department has not issued specific guidance on the splitting of each of the four bands of categorisation contained in the fair access to care services (FACS) guidance into sub-priorities.

Specialised Children's Services

Tim Loughton: To ask the Secretary of State for Health when she expects to report on the review into commissioning of specialised children's services. [88717]

Mr. Ivan Lewis: The review into commissioning arrangements for specialised services was published on 19 May 2006. A number of services covered by specialised commissioning arrangements are for children. The key messages in that Review have been incorporated in the commissioning framework—national health service guidance issued on 13 July—with the aim of achieving more robust, consistent commissioning arrangements across the country to improve quality of, and reduce variation in, specialised service provision.

Specialist Nurses

Anne Milton: To ask the Secretary of State for Health how many specialist nurses are employed in the NHS to care for people who have *(a)* multiple sclerosis, *(b)* Parkinson's disease, *(c)* palliative care, *(d)* rheumatology, *(e)* diabetes and *(f)* epilepsy in (i) Guildford and Waverley primary care trust, (ii) Surrey and (iii) England; whether her Department plans to increase the number of specialist nurse posts in each specialty; and whether there have been redundancies of specialist nurses in the NHS since 1997. [87917]

Ms Rosie Winterton: This information is not collected centrally.

The annual workforce census does not collect information about nurses by speciality. It is the responsibility of local national health service employers and strategic health authorities to ensure that there are sufficient numbers of nurses to meet their local service needs.

Speech Therapists

Sarah Teather: To ask the Secretary of State for Health how many speech and language therapists *(a)* started and *(b)* finished employment within the NHS in each year since 1997. [86775]

Ms Rosie Winterton: This information is not collected centrally.

Statutory Instruments

Mr. Amess: To ask the Secretary of State for Health on what occasions a statutory instrument sponsored by her Department has been reported by the Joint Committee on Statutory Instruments as defective since October 2005. [85188]

Mr. Ivan Lewis: Statutory instruments were reported on five occasions, in the committee's 4th, 10th, 13th, 25th and 30th reports. Reports from the Joint Committee on Statutory Instruments contain full details of the statutory instruments which they have reported.

Sterilisations

Mr. Amess: To ask the Secretary of State for Health (1) how many sterilisations were carried out *(a)* alone and *(b)* with other procedures in each health authority in England in the last year for which figures are available; [87216]

(2) how many sterilisations have been carried out within each health authority in England in each year since 1990, broken down by sex; [87217]

(3) what the cost to the NHS of *(a)* male and *(b)* female sterilisations in each health authority was in the last year for which figures are available; [87218]

(4) what the average time spent in hospital by women having sterilisation operations in each health authority was in the last period for which figures are available. [87219]

Caroline Flint: The information available has been placed in the Library.

The cost to the national health service for these treatments is not collected centrally.

Substance Misuse (Hospital Admissions)

Chris Huhne: To ask the Secretary of State for Health how many admissions there have been via accident and emergency departments for *(a)* alcohol-related conditions and *(b)* illegal drug-related conditions for (i) those aged over 18 and (ii) under 18s in (A) absolute terms and (B) per 1,000 population in (1) rural areas and (2) non-rural areas in each year since 1997; and if she will make a statement. [84622]

Caroline Flint: Information is not held centrally split between rural and non-rural areas.

National data on the number of alcohol and drug related admissions via accident and emergency departments between 1996-97 and 2004-05 is shown in the table.

This data is broken down between under 18, over 18 and also provides data in terms of per 1,000 of the population.

Count of accident and emergency admissions for alcohol and drug related conditions as primary diagnosis (see footnotes for codes used). Data for all national health service hospitals in England, data years 1996-97, 1997-98, 1998-99, 1999-2000, 2000-01, 2001-02, 2002-03, 2003-04, 2004-05

Alcohol related admissions

Data year	Under 18	18 and over	Total episodes	Admissions per 1,000 of population
2004-05	4,616	25,188	29,804	0.59
2003-04	4,514	29,909	34,423	0.69
2002-03	3,891	25,036	28,927	0.58
2001-02	4,212	23,032	27,244	0.55
2000-01	4,179	21,126	25,305	0.51
1999-2000	4,502	20,260	24,762	0.51
1998-99	3,736	18,406	22,142	0.45
1997-98	4,131	17,603	21,734	0.45
1996-97	3,866	15,584	19,450	0.40

Drug related admissions

Data year	Under 18	18 and over	Total episodes	Admissions per 1,000 population of
2004-05	15,463	86,015	101,478	2.03
2003-04	15,453	76,187	91,640	1.84
2002-03	14,150	65,903	80,053	1.61
2001-02	14,215	68,370	82,585	1.67
2000-01	14,284	68,793	83,077	1.69
1999-2000	15,060	73,190	88,280	1.80
1998-99	15,942	75,574	91,516	1.87
1997-98	18,958	79,778	98,736	2.03
1996-97	18,030	73,007	91,037	1.88

Notes:
1. Population of England figures used: 2004: 50,093,130 2003: 49,855,740 2002: 49,646,853 2001: 49,449,746 2000: 49,233,311 1999: 49,032,872 1998: 48,820,583 1997: 48,664,777 1996: 48,519,129
2. Diagnosis (primary diagnosis) The primary diagnosis is the first of up to 14 (seven prior to 2002-03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.
3. Finished consultant episode (FCE) An FCE is defined as a period of admitted patient care under one consultant within one health care provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.
4. Ungrossed data Figures have not been adjusted for shortfalls in data, that is, the data are ungrossed.
5. Codes used as advised by data standards for drug related conditions, Connecting for Health: The ICD-10 code categories for mental and behavioural disorders due to psychoactive substance use (including acute intoxication or abuse) are as follows: F11: Mental and behavioural disorders due to use of opioids. F12: Mental and behavioural disorders due to use of cannabinoids. F13: Mental and behavioural disorders due to use of sedatives or hypnotics. F14: Mental and behavioural disorders due to use of cocaine. F15: Mental and behavioural disorders due to use of other stimulants, including caffeine. F16: Mental and behavioural disorders due to use of hallucinogens. F17: Mental and behavioural disorders due to use of tobacco. F18: Mental and behavioural disorders due to use of volatile solvents. F19: Mental and behavioural disorders due to multiple drug use and use of other psychoactive substances. The ICD-10 code categories for poisoning (either self-inflicted or accidental) are as follows: T36: Poisoning by systemic antibodies. T37: Poisoning by other systemic anti-infectives and antiparasitics. T38: Poisoning by hormones and their synthetic substitutes and antagonists, not elsewhere classified. T39: Poisoning by nonopioid analgesics, antipyretics and antirheumatics. T40: Poisoning by narcotics and psychodysleptics [hallucinogens]. T41: Poisoning by anaesthetics and therapeutic gases. T42: Poisoning by antiepileptic, sedative-hypnotic and antiparkinsonism drugs. T43: Poisoning by psychotropic drugs, not elsewhere classified. T44: Poisoning by drugs primarily affecting the autonomic nervous system. T45: Poisoning by primarily systemic and haematological agents, not elsewhere classified. T46: Poisoning by agents primarily affecting the cardiovascular system. T47: Poisoning by agents primarily affecting the gastrointestinal system. T48: Poisoning by agents primarily acting on smooth and skeletal muscles and the respiratory system. T49: Poisoning by topical agents primarily affecting skin and mucous membrane and by ophthalmological, otorhinolaryngological and dental drugs. T50: Poisoning by diuretics and other and unspecified drugs, medicaments and biological substances. Codes used as advised by data standards for alcohol related conditions, Connecting for Health: F10: Mental and behavioural disorders due to alcohol. K70: Alcoholic Liver Disease. T51: Toxic Effect of Alcohol.
Source: Hospital Episode Statistics (HES), The Information Centre for health and social care.

Swimming Pools (Asthma)

Mr. Rob Wilson: To ask the Secretary of State for Health what research has been undertaken by her Department on whether there is a link between chlorine in swimming pools and asthma. [88633]

Caroline Flint: The Committee on Medical Aspects of Air Pollution made a statement on swimming pools and asthma in August 2003. The committee was examining a paper that had been published in the Journal Occupational and Environmental Medicine 2003; 60:385-394.

The committee felt that the study was of interest and that further focused research in this area was advisable to take further these preliminary findings. Members accepted that exposure to airway irritants such as chloramines could trigger the symptoms of asthma. It was argued that it was important to distinguish clearly between induction of asthma as a disease and the triggering of symptoms. The primary cause of most cases of asthma is unknown as are the reasons for the increase in asthma in the United Kingdom over the past 20 years. That exposure to chlorine and associated reaction products had played a significant part in causing this increase was felt to be unlikely.

Syringe Drivers

Mr. Stephen O'Brien: To ask the Secretary of State for Health from where the NHS sources its syringe drivers; what the cost was in 2005-06; and how the NHS ensures it pays a competitive price. [88877]

Andy Burnham: Syringe drivers are contracted for at a local level and the cost is not held centrally. Price is generally dependant on the quantity purchased. The price is competitive because trusts are given guidelines to follow under competitive purchasing procedures, which take into account the price of the product over the contract duration.

Teeth-whitening Treatments

Mr. Atkinson: To ask the Secretary of State for Health (1) whether her Department has *(a)* conducted and *(b)* evaluated research into the safe level of hydrogen peroxide in teeth-whitening treatments; [88052]

(2) what discussions she has had with interested parties on proposals from the European Commission to raise the safe level of hydrogen peroxide in over-the-counter teeth-whitening treatments from 0.1 per cent. to 6 per cent. [88053]

Ms Rosie Winterton: The European Union scientific committee on cosmetics and consumer products (SCCP) was asked to review the safety of increasing the percentage of hydrogen peroxide in over the counter tooth whitening products from 0.1 per cent. to 6 per cent. This report published in March 2005 outlined and reviewed all the relevant research into the safe levels hydrogen peroxide used in tooth whitening and concluded that in the opinion of SCCP:

the use of tooth whitening products up to 0.1 per cent, hydrogen peroxide is safe;

the proper use of tooth whitening products containing greater than 0.1 per cent, to 6 per cent, hydrogen peroxide, or equivalent for hydrogen peroxide releasing substances, is considered safe after consultation with and approval of the consumer's dentist. Tooth whitening is not recommended prior to or immediately after dental restoration and care should be taken by persons with gingivitis and other periodontal diseases or defective restorations;

there is an absence of good clinical data and long-term epidmiological studies that assess possible adverse effects within the oral cavity; and

new additional data supplied does not provide the necessary reassurance in terms of risk assessment to support that safety of hydrogen peroxide up to 6 per cent. in tooth whitening products freely and directly available to the consumer.

The Department of Trade and Industry and the Department have noted and support the outcome of the committee's findings.

Tooth whitening products are cosmetic products and are therefore not provided as part of the national health service in meeting patients' reasonable clinical needs.

Tooth whitening products, along with other oral hygiene products are regulated by the Cosmetics Directive, implemented in the United Kingdom in the Cosmetic Product (Safety) Regulations. The European Commission and member states are currently considering how the SCCP opinion can be implemented to allow consumers to buy products containing up to 6 per cent. hydrogen peroxide. Any proposal will address the concerns of the SCCP including requiring industry to conduct epidemiological studies to assess the long-term effects of usage of this type of product.

Telephones (Hospitals)

Mr. Walker: To ask the Secretary of State for Health under what authority NHS hospitals prohibit the use of mobile phones within their premises on grounds of potential interference with *(a)* medical equipment, *(b)* patients' privacy and *(c)* patients' peace and quiet. [87859]

Andy Burnham: Every national health service trust has responsibility for the safe use of medical equipment within their hospitals and should undertake a local risk assessment to determine those areas where it is safe to permit mobile telephone usage and those areas where usage should be prohibited, due to the presence of electrically sensitive medical devices. For example, this risk assessment should cover not only the public's use of mobile telephones and other radio equipment, but also the use of communication equipment by hospital staff and the emergency services.

Restrictions in other areas of the hospital premises may be introduced for reasons other than their impact on the safety of medical equipment, such as the desire to reduce the disruption caused by the uncontrolled use of mobile telephones and the possible invasion of patients' privacy from phones with built in cameras, for example. Mobile telephone ring tones may be confused with medical device alarm signals by hospital staff, which could have a direct impact on patient safety.

The Medicines and Healthcare products Regulatory Agency has recently published "Frequently asked

questions on the use of mobile phones in hospitals on its website at www.mhra.gov.uk." This has links to other MHRA publications on the effects of mobile telephones on medical equipment.

Mr. Walker: To ask the Secretary of State for Health what response she has made to the conclusions of the review group on the costs to users of bedside television and telephone systems in NHS hospitals. [87943]

Andy Burnham: I refer the hon. Member to the written ministerial statement made on 20 July 2006, *Official Report*, column 43WS.

Mr. Walker: To ask the Secretary of State for Health for what reason the NHS decided to allow the subsidy of patients' bedside telephone and entertainment services from charges for incoming calls. [87951]

Andy Burnham: The telephone service is primarily a service for the patients, while in hospital.

Three private companies are licensed to provide bedside televisions and telephones to major hospitals in England. The incoming call charges range from 35 pence per minute to 49p per minute.

At the time of setting up the licensing procedure the Department specified that the outgoing call rate should be set at less than the national call rate and that free television should be made available for children.

The private companies set charges for all the other services to ensure the commercial viability of the initiative.

Transfats

Steve Webb: To ask the Secretary of State for Health what regulations govern acceptable levels of transfats in food products specifically marketed to children; and if she will make a statement. [89088]

Caroline Flint: There are no specific regulations that govern levels of trans fatty acids (TFAs) in any food products. The average consumption of TFAs is below the maximum level recommended by the committee on medical aspects of food policy in 1994.

Trust Deficits

Andrew George: To ask the Secretary of State for Health (1) what assessment she has made of the relative contribution of *(a)* management failure, *(b)* inaccurate resource allocation and *(c)* other factors to the deficits in trusts in 2005-06; [87448]

(2) how many trusts experienced account deficits in *(a)* 2003-04, *(b)* 2004-05 and *(c)* 2005-06; and what assessment she has made of the factors causing differences in the level of deficit. [87449]

Andy Burnham: The information requested on the number of trusts in deficit for 2003-04, 2004-05 and 2005-06 has been placed in the Library.

A report by the Department's director of finance, "NHS financial performance 2005-06", was placed in the Library on 7 June 2006. The provisional analysis set out in the report indicates both that there is no single, simple cause of deficits and no single simple solution, and that there are no strong relationships between deficits and a range of funding factors.

Further detailed analysis on the causes of deficits has been commissioned from the Department's chief economic advisor.

Trust Surpluses

Mr. Lansley: To ask the Secretary of State for Health whether strategic health authorities (SHAs) were provided with an incentive by her Department to retain surpluses generated by constituent trusts and primary care trusts in the 2005-06 financial year at the SHA level; and whether they are provided with an incentive to do so in the 2006-07 financial year. [85787]

Andy Burnham: In 2005-06, a strategic health authority (SHA) incentive scheme was introduced and managed by the NHS Bank. The main aim of the scheme was to encourage good financial management. Any SHA taking advantage of the incentive scheme needed to demonstrate satisfactory delivery of key performance targets.

In 2006-07, SHAs will take the lead locally in developing and implementing a service and financial strategy for managing the financial position within their locality. This will include creating local reserves. The size of the reserves and any contribution from each primary care trust (PCT) will vary according to local circumstances, but the underlying principle will be fairness. We expect SHAs to maintain the integrity of the allocations system with PCTs entitled to repayment of any contributions over a reasonable period not normally exceeding the three-year allocation cycle.

Tuberculosis

Derek Conway: To ask the Secretary of State for Health what the incidence of tuberculosis was in each region in each year for which figures are available. [83840]

Caroline Flint: Details of tuberculosis case reports and rates per 100,000 population by region, in England and Wales, are shown in the following tables which are also available on Health Protection Agency website at www.hpa.org.uk/infections/topics_az/tb/epidemiology/table15.htm.

Tables 1 and 2: Tuberculosis case reports and rates (per 100,000 population) by region, England and Wales, 1999 to 2004

	1999		2000		2001	
Region	*Number*	*Rate (per 100,000)*	*Number*	*Rate (per 100,000)*	*Number*	*Rate (per 100,000)*
London	2,308	32.8	2641	37.2	2,717	37.8
West Midlands	654	12.4	734	14.0	713	13.5
North West	680	10.1	638	9.5	652	9.7

Tables 1 and 2: Tuberculosis case reports and rates (per 100,000 population) by region, England and Wales, 1999 to 2004

	1999		2000		2001	
Region	*Number*	*Rate (per 100,000)*	*Number*	*Rate (per 100,000)*	*Number*	*Rate (per 100,000)*

Turnaround Teams

Steve Webb: To ask the Secretary of State for Health what funding her Department has allocated for turnaround teams for NHS organisations; and what average period of time teams have remained in organisations in the last 12 months, broken down by *(a)* strategic health authority, *(b)* primary care trust and *(c)* hospital trust. [89066]

Andy Burnham: The Department is funding the national programme office and the strategic health authority (SHA) turnaround directors but trusts and primary care trusts are responsible for funding the support they decide they require. The Department will spend in 2005-06 and 2006-07 about £11 million, excluding VAT and expenses, on the turnaround programme at a national and SHA level covering local baseline assessments, a national programme office, one-off local support payments and SHA turnaround directors.

It is for local organisations to determine and commission the turnaround support they require and the Department does not maintain records on the average period of time these teams remain in the organisations.

Vocational General Practice Training Scheme

Dr. Cable: To ask the Secretary of State for Health how many people completed the vocational general practice training scheme in each of the last five years for which figures are available. [84365]

Ms Rosie Winterton: The total number of vocational general practice training certificates has increased year on year in the last five years.

	Total
2001	1,787
2002	1,978
2003	1,907
2004	2,244
2005	2,567

Waiting Times/Lists

Mr. Kemp: To ask the Secretary of State for Health how many and what percentage of people in *(a)* Houghton and Washington East constituency and *(b)* Sunderland city council area were waiting more than (i) three months, (ii) six months and (iii) a year for an NHS operation in each year since 1997. [87373]

Andy Burnham: The information is not available in the format requested. However, the information relating to the Sunderland health authority (HA) and the Sunderland primary care trust (PCT) is shown in the tables.

Number of patients waiting for inpatient treatment, Sunderland HA, quarter four, 1996-97 to 2001-02

	Total waiting	Waiting more than three months		Waiting more than six months		Waiting more than 12 months	
		Number	Percentage	Number	Percentage	Number	Percentage
1996-97	7,064	3,318	47.0	1,480	21.0	1	0
1997-98	7,259	3,275	45.1	1,513	20.8	1	0
1998-99	6,562	2,886	44.0	1,303	19.9	2	0
1999-2000	5,918	2,407	40.7	1,100	18.6	6	0.1
2000-01	5,880	2,457	41.8	1,259	21.4	2	0
2001-02	6,060	2,755	45.5	1,329	21.9	0	0

Number of patients waiting for inpatient treatment, Sunderland PCT, quarter four, 2002-03 to 2005-06

	Total waiting	Waiting more than three months		Waiting more than six months		Waiting more than 12 months	
		Number	Percentage	Number	Percentage	Number	Percentage
2002-03	5,744	1,912	33.3	508	8.8	0	0
2003-04	4,720	1,374	29.1	310	6.6	0	0
2004-05	3,894	920	23.6	15	0.4	0	0
2005-06	4,508	892	19.8	0	0	0	0

Andrew George: To ask the Secretary of State for Health what incentives her Department has introduced to reduce waiting times for *(a)* elective surgical procedures, *(b)* initial consultation and *(c)* diagnostic procedures. [87658]

Andy Burnham: A description of the Department's approach to implementing the 18 week referral-to-treatment waiting time target is set out in detail in "Tackling hospital waiting: the 18 week patient pathway—an implementation framework", published in May. The document is available in the Library and on the Department's website at: www.dh.gov.uk/assetRoot/04/13/46/69/04134669.pdf.

Sarah Teather: To ask the Secretary of State for Health what the average waiting time was for *(a)* a hip replacement operation and *(b)* an MRI scan in (i) each London strategic health authority and (ii) each London primary care trust in each of the last three years. [87722]

Andy Burnham: The table shows average hip replacement waiting times by London primary care trust (PCT) and strategic health authority (SHA) for the years 2002-03, 2003-04 and 2004-05.

Data on average waits for magnetic resonance imaging (MRI) scans is not held in the format requested. However, the following table shows average waits for MRI scans by London primary care trusts in April 2006 which is the latest information available.

Median waits for MRI scans in London PCTs and SHAs, April 2006

Notes:

1. *Time waited (days):*
Time waited statistics from Hospital Episode Statistics (HES) are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.
2. *Ungrossed Data:*
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

W46	Prosthetic replacement of head of femur using cement
W47	Prosthetic replacement of head of femur not using cement
W48	Other prosthetic replacement of head of femur

Mr. Lansley: To ask the Secretary of State for Health pursuant to her answer of 13 July 2006, *Official Report*, columns 2086-88W, on waiting times/lists, if she will make a statement on the differences between the averages given by the Korner aggregate returns and those given by the Hospital Episode Statistics. [87690]

Andy Burnham: A detailed analysis of the differences between the hospital episode statistics and Korner waiting times can be found in a Health Statistics Quarterly article at the following address: www.statistics.gov.uk/articles/hsq/HSQ24waiting-time.pdf.

A copy of the report has been placed in the Library.

Welfare Food Scheme

Dr. Kumar: To ask the Secretary of State for Health how many pregnant women in *(a)* England, *(b)* the Tees Valley and *(c)* Middlesbrough, South and East Cleveland have participated in the welfare food scheme since 2001. [87972]

Caroline Flint: The number of pregnant women in England who have received either milk tokens or healthy start vouchers since November 2004 is 111,422. Prior to November 2004, routine information on milk tokens was not collected centrally.

Data is not collected by constituency or district, therefore the information requested for Tees Valley or Middlesbrough, South and East Cleveland would be available only at disproportionate cost.

Jeff Ennis: To ask the Secretary of State for Health how many pregnant women have participated in the welfare food scheme in *(a)* Barnsley and *(b)* Doncaster since 2001. [88377]

Caroline Flint: Data relating to recipients of welfare food is not collated by constituency or district. Therefore, figures relating specifically to Barnsley or Doncaster would be available only at disproportionate cost.

Yellow Card Reporting System

Mr. Burstow: To ask the Secretary of State for Health how many adverse reaction reports were received through the yellow card reporting system for *(a)* all anti-psychotic drugs, *(b)* traditional anti-psychotic drugs and *(c)* atypical anti-psychotic drugs in 2005; and how many prescriptions there were for each type of drug for those aged (i) 50 to 64, (ii) 65 to 74 and (iii) 75 years and over. [88965]

Andy Burnham: The yellow card scheme is the United Kingdom system for collecting and monitoring information on suspected adverse drug reactions (ADRs). The scheme is run by the Medicines and Healthcare products Regulatory Agency (MHRA) and the commission on human medicines (CHM). The scheme relies upon voluntary reporting of suspected ADRs by health professionals. Marketing authorisation holders are legally obliged to report any serious suspected adverse reaction that comes to their attention to the MHRA/CHM.

The following tables contain the number of suspected ADR reports received via the UK yellow card scheme for *(a)* all anti-psychotic drugs, *(b)* traditional anti-psychotic drugs and *(c)* atypical anti-psychotic drugs in 2005; together with the estimated number of prescriptions written in the community in the UK for the 12 months ending 31 March 2006.

Table 1: Number of suspected ADR reports UK 2005

Age group	*All anti-psychotic drugs*	*Traditional anti-psychotic drugs*	*Atypical anti-psychotic drugs*
All	2,567	100	2,467

Table 2: Estimated number of prescriptions written in the community between 1 April 2005 and 31 March 2006

Age group	*All anti-psychotic drugs*	*Traditional anti-psychotic drugs*	*Atypical anti-psychotic drugs*
50 to 64	1,191,360	584,256	607,104
65 to 74	604,928	311,386	293,542
75 years and over	1,577,981	735,107	842,874

It is important to note that a report of an adverse reaction does not necessarily mean that it was caused by the drug. Many factors have to be taken into account in assessing causal relationships including temporal association, the possible contribution of concomitant medication and the underlying disease. Other factors such as the time since a drug was first marketed, media interest, the reason for prescribing or regulatory action can also influence the frequency of reporting. This means that reporting rates based on numbers of spontaneous reports and numbers of prescriptions are not true measures of the frequency of reactions or the ideal basis for comparisons between drug substances or classes. For these reasons, no firm conclusions can be drawn from a possibly higher reporting rate in 2005, of suspected adverse reactions with the more recently marketed atypical anti-psychotics, based on yellow card data, compared to more traditional anti-psychotics.

York Hospital

Hugh Bayley: To ask the Secretary of State for Health how much capital expenditure there has been at York hospital in each year since 1996-97; and what new facilities and equipment were purchased with the expenditure in each year. [86522]

Mr. Ivan Lewis *[holding answer 24 July 2006]*: Information on capital expenditure for York hospitals NHS trust is shown in the following table. Information is not held centrally relating to particular facilities orequipment purchased. Accounts information on individual national health service bodies is only currently available between 1998-99 and 2004-05.

£000

	Intangibles	Buildings	Assets under construction	Equipment
1998-99	0	1,794	91	1,300
1999-2000	0	972	172	1,634
2000-01	34	3,613	133	2,791
2001-02	88	1,065	628	2,378

£000

	Software licences	Buildings	Assets under construction	Plant and machinery	Transport equipment	Information technology
2002-03	133	2,106	6,294	933	10	756
2003-04	388	2,581	3,199	3,002	68	2,009
2004-05	90	7,782	5,286	1,727	76	532

Source:
Audited summarisation schedules for York Hospitals NHS Trust

Environmental Health Inspections (Food Outlets)

Sarah Teather: To ask the Secretary of State for Health how many establishments serving food have been closed following environmental health inspections in each London borough in each of the last five years. [87780]

Caroline Flint: I am advised by the Food Standards Agency (FSA) that the information requested is not available centrally in the form requested.

Local authorities (LAs) are required to report to the Food Standards Agency the number of food premises subject to formal enforcement action, including those to which written warnings, improvement notices, prohibition orders and emergency prohibition orders were issued. But the monitoring data returns from London boroughs cover the enforcement of both food hygiene and food standards, and the total enforcement action data cannot be divided between the two.

Information on general food law enforcement action by LAs in 2004-05 was set out in the paper presented to the Food Standards Agency Board in February 2006, paper FSA 06/02/04. I have arranged for a copy of the paper to be placed in the Library.

Written Answers to Questions

The following answers were received between Monday 4 September and Friday 8 September 2006

FOREIGN AND COMMONWEALTH OFFICE

Chevening Scholarships

Tim Loughton: To ask the Secretary of State for Foreign and Commonwealth Affairs how many Chevening scholarships were awarded in each of the last 10 years, broken down by country from which students obtaining such scholarships have come. [88030]

Mr. Hoon: The number of Chevening scholarships awarded in each of the last 10 years, broken down by country, is provided in the following table:

Chevening scholarships awarded between 1995-96 and 2004-05

IT Contracts

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs what the value was of each IT contract awarded by her Department in each of the last five years; and who the contractor was in each case. [88990]

Mr. Hoon: The main suppliers, categories and values of Information Communication Technology (ICT) contracts over £1 million are illustrated as follows:

Foreign and Commonwealth Office's ICT contracts over £1 million as at May 2006

Category	*Title of contract*	*Supplier*	*Period of contract*	*Total value of contract when let (£)*
Hardware, software and external support services	Compass	WorldReach (Canada)	June 2001 to June 2006	1,500,000
Hardware, software and external support services	GenIE/GenIE Worldwide	3M/AIT	April 1999 to March 2009 (Replaced by Biometrics contract—see below)	3,000,000
Hardware, software and external support services	Biometric Passports	3M UK plc	April 2005 to April 2009	6,500,000
Hardware, software and external support services	Focus	Fujitsu Consulting	January 2002 to March 2003	10,500,000
Hardware, software and external support services	Focus (Knowledge Management)	Fujitsu Consulting	March 2003 to December 2005	1,087,000
Hardware, software and external support services	FCONet2 (FCO's Intranet)	Fujitsu Services	November 2004 to October 2005	2,077,000
Hardware, software and external support services	WIOL Project Management	Fujitsu	April 2003 to February 2005	1,090,000
Hardware, software and external support services	WIOL/WIPA Technical refresh. Work performed by Fujitsu Services to migrate the WI from Windows NT to Windows XP.	Fujitsu	March 2006 to March 2007	1,773,262
Hardware, software and external support services	Cash Registers (world-wide maintenance and support)	Wincor Nixdorf Ltd	September 2003 to September 2008	1,500,000
External support services	Consultancy Services	AKC	June 2003 to May 2005	5,000,000

Foreign and Commonwealth Office's ICT contracts over £1 million as at May 2006

Category	*Title of contract*	*Supplier*	*Period of contract*	*Total value of contract when let (£)*
Hardware, software and external support services	Firecrest Global Support	Hewlett Packard	May 2001 to April 2005	5,000,000
Hardware, software and external support services	Future Firecrest	Hewlett Packard	February 2005 to February 2012	189,500,000
Hardware, software and external support services	ICT - provision of technical installers for overseas installations	Serco Defence	January 2003 to December 2005	1,238,000
Telecommunications	FCO global telecommunications network (PFI)	Global Crossing	May 2000 to April 2010	180,000,000
External support services	Implementation of ICT Strategy and Pre-procurement of Future Firecrest (Stage 2c & 3)	KPMG	from May 2002	3,329,000
External support services	Implementation of ICT Strategy and Pre-procurement FF (Stage 3)	AKC	from August 2004	1,700,000
Electronic Archive	E-Archive services (Minerva)	British Telecom	November 1996 to March 2007	1,500,000
Hardware, software and external support services	Internet Project	LogicaCMG	from March 2002	6,500,000
Hardware, software and external support services	FCO Website -support and maintenance	LogicaCMG	March 2005 to March 2008	1,401,000
Hardware, software and external support services	Prism integrated accounting, HP and procurement system	CGEY	January 2002 to January 2010	53,800,000

Private Office Costs

Sarah Teather: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost of his private office was in the last year for which figures are available. [55718]

Mr. Hoon: I apologise for the delay in replying.

As far as our systems will allow us to identify, "running costs" relating to my right hon. Friend the Foreign Secretary's Private Office, for Financial Year 2005-06, total approximately £725,000.

This is made up of charges for staff salaries, stationery, books, publications and newspapers, office machinery (including photocopiers, fax machines and their maintenance charges), refreshments, and telephone equipment and calls (including desk phones, mobiles, blackberries, broadband connection and actual call costs).

Running costs for corporate overheads such as heating and lighting are calculated across the Foreign and Commonwealth Office and it is therefore not possible to identify which charges relate specifically to my right hon. Friend the Foreign Secretary's Private Office.

Shebaa Farms

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the UK Government received from the Lebanese Government concerning the Shebaa farms during the visit of the Lebanese Prime Minister to the UK in May. [86626]

Mr. McCartney: Prime Minister Siniora of Lebanon raised the Shebaa farms with my right hon. Friend the Prime Minister when they met in London on 9 May 2006.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the UK Government have made to Israel in the last 12 months regarding its armed presence in the Shebaa farms. [86627]

Mr. McCartney: The UK has not made formal representations to the Government of Israel in the last 12 months regarding the Shebaa farms, although we have discussed the issue in the course of bilateral talks. The UK believes the issue of the Shebaa farms is a bilateral issue for the Governments of Lebanon and Syria which should be resolved through a delineation of their common border as called for in United Nations Security Council Resolution (UNSCR) 1680. As set out in UNSCR 1701, the United Nations Secretary-General is requested to draw up proposals for implementation of the relevant provisions of the Taif Accords and UNSCRs 1559 and 1680, including on the disputed Shebaa farms area.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs which country the Government recognise the Shebaa farms as being a part of. [86686]

Mr. McCartney: The UK believes the issue of the Shebaa farms is a bilateral issue for the Governments of Lebanon and Syria which should be resolved through a delineation of their common border as called for in United Nations Security Council Resolution (UNSCR) 1680. As set out in UNSCR 1701, the

United Nations Secretary-General is requested to draw up proposals for implementation of the relevant provisions of the Taif Accords and UNSCRs 1559 and 1680, including on the disputed Shebaa farms area.

TRANSPORT

Cycling Accidents

Mr. Carmichael: To ask the Secretary of State for Transport how many *(a)* fatal, *(b)* serious and *(c)* slight injuries suffered by cyclists on (i) urban roads and (ii) rural roads in each year since 2003 resulted from collisions involving (A) at least one motor vehicle, (B) no motor vehicles and (C) powered two-wheel vehicles. [87211]

Dr. Ladyman: *[pursuant to the reply, 24 July 2006, Official Report, c. 738W]:* the information requested is given in the table. The figures relate to casualties in personal injury road accidents reported to the police.

Cyclist Casualties on Urban and Rural Roads, by Vehicle Involved in an Accident: 2003-05[1]

Accidents involving:		*2003*	*2004*	*2005*
Motor vehicle[2]				
Urban	Fatal	58	67	65
	Serious	1,644	1,537	1,628
	Slight	12,041	11,877	11,787
Rural	Fatal	46	52	65
	Serious	479	477	432
	Slight	2,170	2,063	2,083
No motor vehicle				
Urban	Fatal	2	6	8
	Serious	95	98	100
	Slight	311	309	236
Rural	Fatal	8	9	10
	Serious	73	61	52
	Slight	88	75	90
Two-wheeled motor vehicle				
Urban	Fatal	2	2	2
	Serious	37	41	30
	Slight	234	225	217
Rural	Fatal	0	0	3
	Serious	8	14	13
	Slight	56	38	47

[1] Excludes accidents which do not have an urban/rural marker.
[2] Includes accidents which involve a two-wheeled motor vehicle.

DEFENCE

Armoured Vehicles

Dr. Fox: To ask the Secretary of State for Defence what progress has been made in the work undertaken to align the withdrawal from service of the current fleet of armoured vehicles with the introduction into service of *(a)* the Future Rapid Effect System and *(b)* the Panther Command and Liaison Vehicle. [84559]

Mr. Ingram: The Future Rapid Effect System (FRES) and the PANTHER Command Liaison Vehicle will replace the FV430, CVR(T) and Saxon families of vehicles.

The PANTHER, now in the demonstration and manufacture phase, has a detailed fielding plan. Under the Sustained Armoured Vehicle Capability Pathfinder programme, work is under way to ensure that the withdrawal of FV430, CVR(T) and Saxon is coherently aligned with the introduction of FRES and that there is continuity of the required capability.

Defence Attachés

Roger Berry: To ask the Secretary of State for Defence what the expenditure on defence attachés was in *(a)* 2004 and *(b)* 2005. [60781]

Mr. Ingram: The overall cost to the Ministry of Defence of Defence Attachés in each financial year is as follows:

Financial year	*Costs identified (£ million)*
2004-05	37.2
2005-06	38.7

Under the terms of the MOD/FCO service level agreement, costs are shared with the FCO, which pays 30 per cent. of the total in respect of accommodation, fixed communications, security and some other support costs. The figures quoted in the table represent the balance (70 per cent.) attributable to the Defence Budget.

Full costs of Defence Attaché posts are not held centrally and their calculation would involve disproportionate cost.

Iran

Tim Farron: To ask the Secretary of State for Defence whether any British Armed Forces personnel, including special forces, are operating in Iran. [82199]

Des Browne *[holding answer 3 July 2006]:* No. British Armed Forces personnel are not operating in Iran. It is long standing Government policy not to comment on special forces.

Nuclear Deterrent

Dr. Julian Lewis: To ask the Secretary of State for Defence pursuant to the oral answer to the hon. Member for Woodspring, 23 January 2006, *Official Report*, column 1154, on what date he first asked his officials to explore the options for replacing the nuclear deterrent with a successor system; and when he expects to be presented with their findings. [48009]

Des Browne *[holding answer 2 February 2006]:* As was made clear in the December 2003 Defence White Paper (Paragraph 3.11), we have continued to take steps to keep options open on the possible replacement of Trident. As the then Defence Secretary indicated previously on 30 June 2004, *Official Report*, column

358W, this included concept studies on options for platforms to carry the Trident missile in the longer term, which began in May 2002.

Ministers have been briefed by officials on some of the relevant issues and have requested that further work be undertaken. As the Prime Minister said on 28 June 2006, *Official Report*, column 254, during Prime Minister's Questions, decisions on this issue will be taken later this year.

TRADE AND INDUSTRY

Radioactive Material

Sarah Teather: To ask the Secretary of State for Trade and Industry how many train journeys carrying nuclear waste there were in *(a)* Brent, *(b)* London and *(c)* England in the last 12 months; and how much waste was transported in each case. [89155]

Dr. Ladyman: I have been asked to reply.

The Department for Transport does not hold this information. The transport of radioactive material by rail is a highly regulated activity that is carried out in accordance with stringent national and international regulations. The intention of the regulatory system is to ensure that these shipments are safe irrespective of the route chosen.

COMMUNITIES AND LOCAL GOVERNMENT

Environmental Health Notices

Sarah Teather: To ask the Secretary of State for Communities and Local Government how many environmental health notices were issued in each London borough since 1997. [87228]

Caroline Flint: I have been asked to reply.

I am advised by the Food Standards Agency (FSA) that the information requested is not available centrally in the form requested.

Local authorities (LAs) are required to report to the Food Standards Agency the number of food premises subject to formal enforcement action, including those to which written warnings, improvement notices, prohibition orders and emergency prohibition orders were issued. But the monitoring data returns from London boroughs cover the enforcement of both food hygiene and food standards, and the total enforcement action data cannot be divided between the two.

Information on general food law enforcement action by LAs in 2004-05 was set out in the paper presented to the Food Standards Agency Board in February 2006, paper FSA 06/02/04. I have arranged for a copy of the paper to be placed in the Library.

Social Care Funding

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what the social care formula spending share per head was for each local authority for *(a)* children and *(b)* adults for 2006-07. [88798]

Mr. Woolas: In announcing the provisional 2006-07 Local Government Finance Settlement on 5 December 2005, *Official Report*, column 627, I explained to the House that we were abolishing Formula Spending Shares. These notional spending figures were misunderstood and misused for a variety of purposes for which they were neither intended nor suitable.

Formula grant, which comprises Revenue Support Grant, redistributed business rates and principal formula Police Grant, is an unhypothecated block grant—i.e. councils are free to spend it on any service. Because of this, and because of the calculation of formula grant, in particular floor damping, it is not therefore possible to say how much grant an authority received for a particular purpose. I would therefore refer the hon. Member to the table showing formula grant per head placed in the Libraries of the House in response to a question from the hon. Member for Lewes (Norman Baker) on 14 July 2006, *Official Report*, column 2103W.

HOME DEPARTMENT

Abdoulie Njie

Daniel Kawczynski: To ask the Secretary of State for the Home Department what the immigration status is of Abdoulie Njie, recently convicted of rape in Stoke-on-Trent Crown court. [81843]

Mr. Byrne *[holding answer 3 July 2006]:* It is not our policy to comment on individual cases to Members who do not hold a constituency responsibility for the named individual.

Adelphi System

Lynne Featherstone: To ask the Secretary of State for the Home Department how much his Department has spent on the Adelphi finance and human resource system. [88504]

Mr. Byrne: The total expenditure on the Adelphi programme, relating to HR, finance and procurement, from January 2003 to June 2006, is £51,907,961.

Advertising Campaigns

Mr. Hayes: To ask the Secretary of State for the Home Department what advertising campaigns his Department has run since July 2004; and what the *(a)* date and *(b)* cost was of each. [81918]

Mr. McNulty: The advertising campaigns the Home Office has run since 2004-05 are listed in the table. Due to the way media are invoiced and as our campaigns are long term and not month specific, we cannot break down costs by month.

The breakdown by each financial year, however, is as follows:

	£
2004-05	
Frank Drugs Campaign	1,135,091
Gun Crime	200,000
Antisocial Behaviour	600,006
Acquisitive Crime Reduction	7,578,732

	£
Police Recruitment—Special Constables	1,968,171
Domestic Violence	450,635
Child Safety on the Internet	299,094
Clean Up Week—Community Sentences	33,295
2005-06	
Frank Drugs Campaign	1,588,007
Antisocial Behaviour	638,313
Acquisitive Crime Reduction	3,967,890
Single Non Emergency Number	151,781
Alcohol Misuse	93,865
Police Recruitment—Special Constables	1,427,014
Police Recruitment—High Potential Scheme	226,865
Domestic Violence	542,456
Child Safety on the Internet	879,002
Safer Car Parks—Park Mark Scheme	95,656
Crime Stoppers	84,039
Clean Up Week—Community Sentences	49,278
Rape	67,108
2006-07—invoiced to date	
Frank Drugs Campaign	190,456
Knife Amnesty	138,622
Acquisitive Crime Reduction	158,650
Single Non Emergency Number	56,280
Alcohol Misuse	233,832
Domestic Violence	314,694
Rape	287,664

Lynne Featherstone: To ask the Secretary of State for the Home Department what advertising campaigns the Department ran between 2000 and June 2004; and what the *(a)* date and *(b)* cost was of each. [87061]

Mr. McNulty: The advertising campaigns the Home Office ran between 2000-01 and 2004-05 are listed as follows. Due to the way media are invoiced and as our campaigns are long term and not month specific, we cannot break down costs by month.

The breakdown by each financial year, however, is as follows:

	£
2000-01	
Vehicle Crime Reduction	8,377,736
Police Recruitment	7,580,663
Police Recruitment—Fast Track	137,371
Human Rights	765,956
Rolling Registration	3,236,126
UK Immigration Service	7,783
Postal Voting	1,322,750
Fire Safety	2,005,093
2001-02	
Vehicle Crime Reduction	5,847,867
Police Recruitment	6,473,845
Police Recruitment—Special Constables	499,938
Police Recruitment—Fast Track	126,310
Police Reform	45,000
UK Immigration Service	8,568
Postal Voting	864,093
Fire Safety	1,698,875
Drugs Campaign	1,404,398
Child Protection on the Internet	1,281,529
2002-03	
Vehicle Crime Reduction	4,911,621
Police Recruitment	4,736,223
Drugs Campaign	669,185
Child Protection on the Internet	763,290
Firearms Amnesty	600,000
2003-04	
Vehicle Crime Reduction	4,617,658
Police Recruitment	4,987,946
Drugs Campaign	2,348,500
Child Protection on the Internet	825,557
Domestic Violence	936,587
Youth Offenders	39,214
2004-05	
Frank Drugs Campaign	1,135,091
Gun Crime	200,000
Anti Social Behaviour	600,006
Acquisitive Crime Reduction	7,578,732
Police Recruitment—Special Constables	1,968,171
Domestic Violence	450,635
Child Protection on the Internet	299,094
Clean Up Week—Community Sentences	33,295

Airport Security

David Davis: To ask the Secretary of State for the Home Department which airports have *(a)* 24 hour security and *(b)* security provision during operating hours. [87299]

Gillian Merron: I have been asked to reply.

The Department for Transport is responsible for regulating and monitoring aviation security in the UK under the provisions of the Aviation Security Act 1982, as amended by the Aviation and Maritime Security Act 1990.

It would be inappropriate to comment on the specific security arrangements which have been put in place at UK airports.

Alan Kittle

Mr. Meacher: To ask the Secretary of State for the Home Department what action he proposes to take in respect of Alan Kittle, Senior Immigration Inspector in charge of the criminal casework team responsible for deciding whether foreign prisoners should be deported after release from prison. [68419]

Mr. Byrne *[holding answer 8 May 2006]:* Issues of performance or conduct of individual members of staff are a matter for the permanent secretary and are addressed in accordance with the Department's internal procedures.

Antisocial Behaviour

Bob Spink: To ask the Secretary of State for the Home Department if he will visit Castle Point to discuss antisocial behaviour with local residents and the police. [78183]

Mr. McNulty: The Home Secretary regularly undertakes visits in respect of his departmental responsibilities. However, due to existing diary commitments, he has no plans to visit Castle Point in the immediate future.

Asylum/Immigration

Mr. McGovern: To ask the Secretary of State for the Home Department what recent discussions he has had with the Scottish First Minister about the interaction between the UK Government's policy on asylum and immigration and the Scottish Executive's policy on attracting fresh talent to the country. [25323]

Mr. Byrne: The Home Secretary has regular discussions with the Scottish First Minister about immigration and other issues.

Mr. Hands: To ask the Secretary of State for the Home Department how many individuals seeking asylum in the UK since 1997 have been granted leave to remain as a result of their application taking too long to process. [84414]

Mr. Byrne: Asylum applications are decided on an individual case by case basis. Information on any cases falling into the category mentioned in this question is not available and could be available only by examination of individual case records.

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department what criteria were used in drawing up the regional language list by the National Asylum Support Service for the dispersal of asylum seekers; and if he will make a statement. [86883]

Mr. Byrne *[holding answer 24 July 2006]:* The language list is no longer in operation, although language remains a factor in placing asylum seekers. It is just one of the criteria considered by relevant stakeholders when considering dispersal issues.

Greg Clark: To ask the Secretary of State for the Home Department how many applicants for asylum have had their applications rejected in the last *(a)* one, *(b)* three and *(c)* 12 months. [85748]

Mr. Byrne *[holding answer 14 July 2006]:* Information on asylum applications is published in quarterly web pages and in the annual statistical bulletin Asylum Statistics United Kingdom. Copies of these publications and others relating to general immigration to the UK are available from the Library of the House and from the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

David Davis: To ask the Secretary of State for the Home Department pursuant to his answer of 4 July 2006, *Official Report*, column 1041W, on asylum/immigration, how competency in the English language is assessed. [87302]

John Reid: For potential employees of the immigration and nationality directorate (IND), competency in the English language may be assessed through formal academic qualifications and/or through ability testing including verbal reasoning. Potential employees must meet a minimum standard of competence to be offered a post. Progression to higher grades involves competency based assessment including psychometric testing and other exercises.

Mr. Burrowes: To ask the Secretary of State for the Home Department how many failed asylum seekers convicted of criminal offences in the UK have been detained pending deportation in each of the last five years. [86728]

Mr. Byrne: The information requested is not currently collected centrally and could be provided only at disproportionate cost.

Keith Vaz: To ask the Secretary of State for the Home Department pursuant to the answer of 15 March 2006, *Official Report*, column 2305W, on illegal immigrants, what estimate was made of the cost of providing the information. [61251]

Mr. Byrne: The information requested is not held centrally and could be provided only at disproportionate cost.

Mr. Hayes: To ask the Secretary of State for the Home Department how many prisoners are illegal immigrants. [71445]

Mr. Byrne: The information requested on the immigration status of prisoners is not currently available and could be provided only at disproportionate cost. In my Written Ministerial Statement of 19 July 2006, *Official Report*, column 29WS, I set out the progress the Department is making to address the fact that there is no unique identifier to link individuals who come in contact with the asylum and immigration and criminal justice systems. We have commenced development of a comprehensive approach to identity management across all Home Office areas and will finalise a strategic action plan in this area by the end of September 2006.

Tony Baldry: To ask the Secretary of State for the Home Department when Founia Ilyas, reference 3107 2668, will be notified of her immigration status. [53913]

Mr. Byrne: Ms Ilyas was notified of a decision on her application on 18 January 2005 when at the same time her documents were returned to her home address.

Norman Baker: To ask the Secretary of State for the Home Department what the status is of the following Russian nationals *(a)* Chernysheva, Natalia Vladimirovna, *(b)* Chernikova, Irina Vladimirovna, *(c)* Karaseva, Alla Alexandrovna, *(d)* Spirichev, Alexey Valerievich, *(e)* Kartashov, Vladislav Nikolaevich, *(f)* Maruev, Dmitriy Lavovich, *(g)* Gorbachev, Alexander Lavovich, *(h)* Golubovich, Alexey Dmitrievich, *(i)* Gololobov, Dmitriy Vladimirovich, *(j)* Burganov, Ranil Raisovich, *(k)*

Temerko, Alexander Viktorovich, *(l)* Trushin, Mikhail Anatolevich and *(m)* Beilin, Yuri Arkadevich. [84103]

Mr. Byrne *[holding answer 10 July 2006]:* No. It is the general policy of the Immigration and Nationality Directorate not to disclose to a third party personal information about another person, including information concerning their immigration status, as well as personal details.

Mr. Bellingham: To ask the Secretary of State for the Home Department how many inmates were detained on behalf of the Immigration Service awaiting deportation in each of the last five years, broken down by prison; what the *(a)* average and *(b)* maximum period of detention beyond completion of a sentence was in each of the last five years; what estimate he has made of the cost of this detention; and if he will make a statement. [66545]

Mr. Byrne: The Department does not collate information in the format requested and it could be produced only at disproportionate cost.

Mr. Evennett: To ask the Secretary of State for the Home Department how many people in *(a)* Greater London and *(b)* Bexley borough have been waiting more than six months for a decision on their immigration status; and if he will make a statement. [86222]

Mr. Byrne: Information is not readily available and could be obtained only at a disproportionate cost.

Alistair Burt: To ask the Secretary of State for the Home Department how many detainees who escaped from the Yarl's Wood detention centre on 14 February 2002 had previously been in custody for committing an offence prior to being sent to Yarl's Wood. [74046]

Mr. Byrne: Of the 23 individuals who escaped from Yarl's Wood on the night of 14 February 2002, there is no record of 19 having committed offences prior to being detained. Records indicate three had previous convictions and one other is a possible match.

Alistair Burt: To ask the Secretary of State for the Home Department whether any of the seven detainees who escaped from Yarl's Wood following the fire on 14 February 2002, and whose whereabouts remain uncertain, are suspected to have committed a crime since their escape in February 2002. [79193]

Mr. Byrne: To our knowledge none of the seven detainees, who escaped from Yarl's Wood on the night of 14 February 2002 and whose whereabouts are unknown, have committed a crime since their escape in February 2002.

Bird and Bird Solicitors

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department what contracts were awarded by his Department to Bird and Bird Solicitors in each year since 1997; what the *(a)* value and *(b)* duration of each such contract was; and if he will make a statement. [88181]

Mr. Byrne: I am advised that the *(a)* value and *(b)* duration of contracts awarded by the Home Department to Bird and Bird Solicitors in each year since 1997 are as follows:

Year awarded	*Contract and duration*	*Expenditure to date (£)*
1997-98	IPS: Provision of legal advice and services to IPS and CRB 1997-2007	805,693
1998-99	Prisons Quantum Project and associated IT projects 1998-2006	1,451,590
2000-01	Managed Payroll Service Contract, August	1,293
2002-03	Managed Payroll Service Contract	9,955
2005-06	Prisons: Control accounts, Phoenix Shared Service Centre and Service Management Group 2005	91,000
2005-06	Financial and banking matters 2005	64,449

Bogus Marriages

Mr. Holloway: To ask the Secretary of State for the Home Department how many marriage visas were refused on the grounds that the marriage in question was not considered to be genuine in each of the last five years. [86682]

Mr. Byrne: The figures on the number of spousal visas refused are contained in the following table. Also included is another table showing the number of refusals of extension of leave to remain in the United Kingdom on the basis of marriage.

It is not possible to determine how many were refused on the grounds that the marriage was not considered to be genuine without examination of individual case records at disproportionate costs.

Refusals of extension of leave to remain[1] in the United Kingdom excluding EEA nationals[2] and Switzerland, 2001 to 2005[3]— United Kingdom

Category	*All refusals*	*Number of decisions Of which: Spouse (probationary period applications)[4]*
2001[5]	15,485	1,850
2002[5]	18,575	735
2003[5]	33,175	2,445
2004[2]	24,730	1,895
2005[3]	27,175	1,265

[1] Excludes dependants of principal applicants, asylum related decisions and withdrawn applications.
[2] Includes nationals of the Czech Republic, Cyprus, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia before 1 May 2004, but excludes them from this date.
[3] Provisional and subject to change.
[4] Data include unmarried partners.
[5] Excludes the outcome of appeals.

Note:
Figures rounded to the nearest 5.

UKVisas Central Reference System 24 July 2006

Child Trafficking

Mr. Brazier: To ask the Secretary of State for the Home Department how many child trafficking victims were deported after being taken into custody by the authorities in the last period for which figures are available. [75976]

Mr. Byrne: The information requested is not centrally recorded and therefore not available, however the Government would not normally consider a person for deportation in his or her own right if he or she is under 16 years of age.

Where a child is thought to have been a victim of trafficking, referrals to the police and local authority children's services are made. In the case of a child who has been trafficked and who is neither a UK nor European Union citizen, the immigration and nationality directorate will determine what action it will take by taking into account what is in the best interests of the child.

Consultants

Keith Vaz: To ask the Secretary of State for the Home Department if he will list the companies which were paid consultancy fees by his Department in 2005-06; how much each was paid; and what each of the companies was used to accomplish. [69701]

Mr. Byrne: The definition of consultancy was revised by Office of Government Commerce (OGC) during 2005-06. Consultancy now falls under the wider category of professional services which covers the following areas: general management and business, legal, human resources, IT property and financial. Consultancy services cover one or more of advice, design and development, and implementation where the assignment is time limited or ad hoc, and is in addition to business as usual activity.

We do not currently hold a central record of overall consultancy expenditure; however, the total fees paid in respect of management consultancy in 2005-06 were £19,500,297 in respect of the core Home Office and £8,959,716 for the agencies. To provide details of expenditure against a list of companies and what each of the companies was used to accomplish would incur disproportionate cost.

Correspondence

Clare Short: To ask the Secretary of State for the Home Department when the immigration and nationality directorate will reply to the letter of 18 January from the right hon. Member for Birmingham, Ladywood, on behalf of Andrew Russell, of Park Lane, Birmingham (Home Office Reference R1050090, correspondence ref. B1755/5). [29145]

Mr. Byrne: The immigration and nationality directorate wrote to my right hon. Friend the Member for Birmingham, Ladywood on 6 April 2005.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department (1) when he will answer the letter of 8 May from the right hon. Member for Manchester, Gorton with regard to Mrs. S. Khan; [77587]

(2) when he expects to reply to the letter to him dated 8 May from the right hon. Member for Manchester, Gorton with regard to Mrs. S. Khan. [88197]

Mr. Byrne: I wrote to my right hon. Friend on 27 July 2006.

John Barrett: To ask the Secretary of State for the Home Department when the Parliamentary Business Unit of the Immigration and Nationality Directorate will reply to the hon. Member for Edinburgh West's fax of 5 May regarding Ali Baker Zerar. [80374]

Mr. Byrne: Officials advise me that they have been unable to trace the fax sent from the hon. Member for Edinburgh West's office on 5 May. However, they are in contact with the hon. Member's office to take this matter forward.

Mr. Mullin: To ask the Secretary of State for the Home Department when he expects to provide a substantive reply to the letter from the hon. Member for Sunderland, South of 4 April regarding Mr. Joseph Dede Omanga (HO 01066013). [82974]

Mr. Byrne: The then Parliamentary Under-Secretary of State (Andy Burnham) wrote separately to my hon. Friend regarding Mr. Joseph Dede Omanga on 27 April 2006. It is expected that a substantive response to these representations will be provided by the Immigration and Nationality Directorate within the next few weeks.

Clare Short: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will reply to the letters from the right hon. Member for Birmingham, Ladywood of 10 April 2006 (acknowledgement reference B9696/6) and 24 May 2006 on behalf of Mulukjan Begum (Home Office reference M1273553). [83365]

Mr. Byrne: The Immigration and Nationality Directorate wrote to the hon. Member for Ladywood on 6 July 2006.

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department when he will answer the letter dated 6 June 2006, from the hon. Member for Peterborough, concerning the immigration status of Wakil Sahebzadeh; and if he will make a statement. [84940]

Mr. Byrne *[holding answer 14 July 2006]:* I wrote to the hon. Member on 14 July.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he expects to reply to the letter to him dated 22 May from the right hon. Member for Manchester, Gorton with regard to Emmanuel Yawe Dzisi. [88195]

Mr. Byrne: My right hon. Friend the Home Secretary wrote to the hon. Member on 2 August 2006.

Martin Horwood: To ask the Secretary of State for the Home Department when he will provide a substantive reply to the letter of 5 July 2006, on behalf of his constituent Mrs. Martha Patricia Vargas, of St. George's Road, Cheltenham (Home Office reference V2037814) regarding the refusal of her application for indefinite leave to remain in the UK. [88250]

Mr. Byrne *[holding answer 24 July 2006]:* The IND replied to the hon. Member for Cheltenham on 29 August 2006.

Crime (Non-UK Citizens)

Mr. Laws: To ask the Secretary of State for the Home Department what his latest estimate is of the proportion of crime in England which is committed by non-UK citizens; and if he will make a statement. [73421]

Mr. McNulty: The information requested is not collected centrally.

Crime & Disorder Reduction Partnerships

Chris Ruane: To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of the Crime and Disorder Reduction Partnerships in Denbighshire. [86983]

Mr. Byrne: I understand that the Denbighshire Partnership has helped to achieve notable reductions in crime but some further reductions are required if they are to achieve the current levels of performance being achieved by partnerships with similar challenges elsewhere in England and Wales.

Data Protection Act

Mr. Clegg: To ask the Secretary of State for the Home Department how many Data Protection Act Section 10 notices he has received in each year since 1998. [86866]

John Reid: The Home Office does not, and is not required to keep central statistics on the number of Data Protection Act Section 10 Notices received. The receipt of such a notice is a very infrequent occurrence. The department is aware of having received two such notices since 1998. One was received in 2002 and one other last year.

Mr. Clegg: To ask the Secretary of State for the Home Department what protocol his Department follows when it receives a formal Data Protection Act Section 10 Notice to Correct Erroneous Data; and if he will make a statement. [86867]

John Reid: Section 10 of the Data Protection Act gives data subjects the right to prevent the processing of personal data which are causing, or are likely to cause, substantial damage or distress to them or another person where that processing is or would be unwarranted. Section 14 of the Data Protection Act provides data subjects with rights in relation to the correction of inaccurate personal data. The Home Office does not currently have, and is not required to have, a formal written protocol for either circumstance. The Home Office is committed to meeting its legal

obligations in relation to both, however. With regards to the correction of inaccurate personal data, when an error is highlighted all necessary steps are taken to correct that error and, where necessary, remedy any underlying faults that caused the mistake.

Departmental Data

Tony Baldry: To ask the Secretary of State for the Home Department pursuant to the answer of 18 January 2006, *Official Report*, column 1423W, to the right hon. Member for Edinburgh, East (Dr. Strang) on departmental data, with which other *(a)* Departments and *(b)* public sector organisations his Department shares data. [88932]

Mr. Byrne: In addition to sharing data within the constituent parts of the Department, the Home Office shares information, in accordance with relevant legislative provisions, with the following Government Departments and public sector organisations:

Her Majesty's Revenue and Customs
NI Director of Public Prosecutions
Magistrates Courts in England and Wales
Scottish Executive
Department of Trade and Industry
Crown Prosecution Service
Department of Work and Pensions
Driver and Vehicle Licensing Authority
The Driver and Vehicle Licensing Northern Ireland
Foreign and Commonwealth Office
UK Visas
National Health Service
Department for Education and Skills
The Royal Navy Regulating Branch
All UK Police forces
The Royal Marines Police
The Royal Military Police
The Royal Air Force Police
The Ministry of Defence Police
The British Transport Police
The Civil Nuclear Constabulary
The States of Jersey Police Force
The Salaried Police Force of the Island of Guernsey
The Isle of Man Constabulary

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for the Home Department how much was spent on external consultants and advisers by *(a)* his Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by his Department in each year since May 1997. [39101]

Mr. Byrne: The information held by the Home Office on its spend on consultants is given in the following table:

	Spend on consultants (£)
1997-98	7,627,016
1998-99	4,588,445
1999-2000	10,302,672
2000-01	27,877,286
2001-02	21,147,058
2002-03	Not held
2003-04	106,800,000
2004-05	46,900,000

We do not hold information on the Department's total expenditure on consultants for 2002-03 and to obtain this information would incur disproportionate cost.

Total expenditure figures on consultants by non-departmental public bodies (NDPBs), executive agencies, independent statutory body organisations and bodies financially sponsored by the Department for the period in question is not held centrally. To obtain this information would incur disproportionate cost.

The definition of consultancy covers investigating problems, providing analysis or advice, or assisting with the development of new systems, new structures or new capabilities within the organisation.

Departmental Publications

Mr. Amess: To ask the Secretary of State for the Home Department what his practice is regarding meeting, discussing and taking into account the views and opinions of *(a)* private individuals and *(b)* representatives of organisations when drawing up and framing legislation to be introduced by his Department; and if he will make a statement. [81312]

Mr. Byrne: The Home Secretary and his Ministerial team hold a wide range of meetings involving an extensive number of organisations and individuals throughout the year. These meetings allow them to consider various perspectives and the differing interests of stakeholders when formulating Home Office Policy and where necessary, the legislation needed to implement it.

The Home Office more widely, when developing policy or drawing up legislation, regularly undertakes informal consultation with those directly affected or involved. We routinely undertake formal written public consultations which are listed on our website and reported in our annual report. In conducting such consultations, the Home Office follows the guidance laid down in the Code of Practice on Consultation issued by Cabinet Office. The published results of the consultation include a summary of the responses both from individuals and from representative organisations. Wherever possible, the summary will also include the next steps in policy development and reasons for any decisions taken.

Mr. Amess: To ask the Secretary of State for the Home Department if he will list the Deposited Papers placed in the Library by his Department since 2000; and when they were published. [81321]

Mr. Byrne: The information requested is not held in one central unit and therefore it is impossible to collate without incurring disproportionate costs.

Departmental Staff

Danny Alexander: To ask the Secretary of State for the Home Department how much was paid to his Department from the Access to Work Scheme for adjustments for disabled staff in the last year for which figures are available; from what budget he plans to meet the costs of reasonable adjustments for disabled staff following withdrawal of Access to Work funding for central Government Departments; and if he will make a statement. [89009]

Mr. Byrne: The following table shows the last available figures for the Access to Work Scheme.

Consideration is being given to how reasonable adjustments should be funded once the Access to Work funding is withdrawn for central Government Departments.

£

	2005-06	2004-05
Core Home Office	1903.35	—
Immigration and Nationality Directorate (IND)[1]	n/a	42,437.18
HM Prison Service[2]	n/a	n/a

n/a = Not available.

[1] Figures are no longer available for IND as the purchase of such equipment has been devolved to individual units and no central record is kept.

[2] Purchase of equipment was devolved to individual prison establishments five years ago; therefore no central record is kept.

Simon Hughes: To ask the Secretary of State for the Home Department (1) how many of his Department's employees have been *(a)* dismissed, *(b)* suspended and *(c)* subject to disciplinary action for criminal activity in each year since 1997; [88461]

(2) how many staff members in his Department have been *(a)* prosecuted and *(b)* convicted following fraud charges since 1997. [88446]

Mr. Byrne: The information requested is not centrally held and could be obtained only at a disproportionate cost.

Domestic Violence

Lynne Featherstone: To ask the Secretary of State for the Home Department how many domestic violence cases have been brought to trial in each of the last five years in each *(a)* London borough and *(b)* constituency; and if he will make a statement. [82930]

Mr. Byrne: The CPS does not hold a historical record of domestic violence data for each London borough. During the year April 2005 to March 2006, there was a total of 4,841 prosecutions for domestic violence in the jurisdiction of the London courts. Of these, 2,503 (51.7 per cent.) were convicted, 1,882 (38.9 per cent.) were not proceeded with and 456 (9.4 per cent.) were acquitted.

Nationally, during the year April 2005 to March 2006, there was a total of 49,782 prosecutions for domestic violence. Of these, 29,719 (59.7 per cent.) were convicted, 17,311 (34.8 per cent.) were not proceeded with and 2,752 (5.5 per cent.) were acquitted.

During the year April 2004 to March 2005, there was a total of 2,807 prosecutions for domestic violence in the jurisdiction of the London courts. Of these, 1,365 (48.6 per cent.) were convicted, 1,187 (42.3 per cent.) were not proceeded with, and 255 (9.1 per cent.) were acquitted.

Nationally, during the year April 2004 to March 2005, there was a total of 34,839 prosecutions for domestic violence. Of these, 19,156 (55 per cent.) were convicted, 13,599 (39 per cent.) were not proceeded with and 2,084 (6 per cent.) were acquitted.

Comparable figures are not held for years prior to 2004-05.

Extradition

Mr. Clegg: To ask the Secretary of State for the Home Department pursuant to the answer of 19 July 2006, *Official Report*, column 544W, on extradition, if he will break the figures down by the alleged offence. [88390]

John Reid: Details are given in the following tables, which has been updated to 24 August 2006 in order to reflect developments since the original answer. It should be noted that:

(a) an extradition request is not included in this table unless the individual has been arrested for extradition and is in custody, or on bail, or has been surrendered

(b) an individual may be arrested in a different year from that in which the request is made;

(c) the offences quoted are brief descriptions and not detailed charges e.g. "fraud" also covers "conspiracy to defraud";

(d) an individual may be wanted for more than one crime—the principal offences only are shown in the table; and

(e) more than one request may have been received for an individual, so that a surrender may be pursuant to more than one request.

US requests to England and Wales 2001 to 2005

2001	*Number*
Surrenders	
Child abduction	2
Child enticement	1
Drugs	3
Fraud	1
Money laundering	1
Murder	2
Theft	1
Wire fraud	1
Closed without surrender	
False statements to Government agency	1

Closed without surrender	
Fraud	1
Sex offences	1
Outstanding from the year	
Drugs	2
Fraud	1
Terrorist-related	1

False Accusations

Mr. Amess: To ask the Secretary of State for the Home Department if he will list organisations that received funding from his Department to help individuals who claim to have been falsely accused of criminal offences; and how much each organisation received in the last 10 years for which figures are available. [47402]

Mr. Sutcliffe: The Criminal Cases Review Commission has received Grant in Aid from the Home Office from its inception in 1996 to date, as shown in the following table. The Commission's role is to review and investigate possible miscarriages of justice and to refer cases to an appropriate appeal court where there is a real possibility that the conviction, finding, verdict or sentence will not be upheld.

The Citizens Advice Bureau at the Royal Courts of Justice provides free, confidential and independent advice to members of the public who have cases in the Court of Appeal. It has received funding from 2004-05 as follows:

2004-05: £97,000 grant for a pilot scheme

2005-06: grant of £108,445

2006-07: grant of £119,400.

Criminal Cases Review Commission: Grant in Aid

	Amount (£)
1997-98	[1]4,303,977
1998-99	4,517,134
1999-2000	5,530,000
2000-01	5,415,000
2001-02	6,525,000
2002-03	7,000,000
2003-04	7,800,000
2004-05	[2]5,750,000
2005-06	6,834,628

[1] This figure includes the last three months of 1996.

[2] The 2004-05 figure was reduced in comparison with the previous years because the CCRC had to use their cash reserves as required by the Treasury under the rules of Government Accounting.

Foreign Criminals

Mr. Paterson: To ask the Secretary of State for the Home Department how many civil service staff hours have been expended on duties related to the release of foreign offenders since July 2005. [68619]

Mr. Byrne: This information is not readily available and could be obtained only at a disproportionate cost.

Mr. Hayes: To ask the Secretary of State for the Home Department how many of the former foreign national prisoners identified as not having been assessed for deportation and subsequently relocated have been claiming benefits. [68745]

Mr. Byrne: The immigration and nationality directorate are working with all other relevant agencies to conclude all cases where foreign national prisoners were released without due consideration. The information as requested is not currently available in the format requested and can be provided only at disproportionate cost.

Mr. Hayes: To ask the Secretary of State for the Home Department how many of the foreign nationals who were not assessed for deportation on release from prison were visited by foreign consular services during their incarceration; and which embassies were involved in each case. [68768]

Mr. Byrne: This information is not held centrally. During the induction process for new prisoners, it is a requirement that all foreign national prisoners are offered the opportunity to contact their embassy or high commission.

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department if he will instruct chief police officers to publish any available photographs in their respective constabulary areas of foreign nationals considered for deportation but released on completion of their sentences and still at large, to facilitate their arrest; and if he will make a statement. [70168]

Mr. Byrne *[holding answer 12 May 2006]:* My right hon. Friend the Home Secretary already explained during his appearance before the Home Affairs Committee on 23 May 2006 that this is an operational matter for the police. Discussions have taken place between officials from the Immigration and Nationality Directorate (IND) and the Association of Chief Police Officers (ACPO) on whether making public details of ex-offenders would assist in locating them. It is the considered view of ACPO that a decision should only be taken on a case by case basis as to whether to publicise the details of those individuals who are the subject of ongoing deportation action and still need to be located.

Mr. Redwood: To ask the Secretary of State for the Home Department how many foreign nationals are *(a)* awaiting trial and *(b)* helping police with inquiries. [67458]

Mr. Byrne: The information requested is not available.

Willie Rennie: To ask the Secretary of State for the Home Department what rules govern applications for *(a)* leave to remain and *(b)* British citizenship by foreign nationals who have served in the British Army. [82372]

Mr. Byrne *[holding answer 4 July 2006]:* The rules applying to applications for leave to remain in the UK by foreign nationals discharged from the British Army are set out in paragraphs 276L to 276Q of the Immigration Rules. I would refer the hon. Gentleman to the information contained on the IND website at: http://www.ind.homeoffice.gov.uk/lawandpolicy/immigrationrules/part7.

Foreign nationals who have served in HM Forces and who wish to apply for British citizenship must make a successful application for naturalisation under sections 6(1) or 6(2) of the British Nationality Act 1981. Policy requirements and procedures for handling applications are available for viewing on the IND website at: http://www.ind.homeoffice.gov.uk/britishnationality.

Mr. Clegg: To ask the Secretary of State for the Home Department, pursuant to Lin Homer's letter to the Home Affairs Select Committee, what crimes were committed by the seven serious foreign national offenders who have not been detained; what the nationality was of each; how long each served in prison; and when each was released. [88953]

John Reid: It is not the general policy of the Department to disclose specific details into the public domain which may identify individuals included among the 1,013 foreign national prisoners who were released without deportation consideration.

Mr. Bone: To ask the Secretary of State for the Home Department how many foreign nationals were released from HMP Wellingborough in *(a)* March, *(b)* April and *(c)* May 2006; and how many were considered for deportation. [85596]

Mr. Sutcliffe: Comprehensive statistical information on discharges is not centrally available, and providing information based on manually stored records could be achieved only at disproportionate cost.

The Department does not hold information on how many foreign nationals released from HMP Wellingborough in *(a)* March, *(b)* April and *(c)* May were considered for deportation and could provide this information only at disproportionate cost.

Damian Green: To ask the Secretary of State for the Home Department how many foreign prisoners *(a)* claimed asylum and *(b)* were deported at the end of their prison sentence in each of the last five years. [73531]

Mr. Byrne: The information requested for the period concerned is not collected centrally and only available at disproportionate cost. In a written ministerial statement of 19 July 2006, *Official Report*, column 28WS, I provided an update to the House on the progress the Department is making to ensure that foreign national prisoners face deportation as early as possible within their sentences.

Hadi Nozadi

Mr. Steen: To ask the Secretary of State for the Home Department when he will conclude consideration of the status of Hadi Nozadi of Lower Sharpham Barton, Ashprington, Totnes, who was refused asylum on 22 November 2001. [77516]

Mr. Byrne *[holding answer 22 June 2006]:* The Parliamentary Under-Secretary of State, my hon. Friend the Member for Enfield, North (Joan Ryan), wrote separately to the hon. Member regarding Hadi Nozadi on 26 June 2006.

Immigration and Nationality Directorate

Mr. Lidington: To ask the Secretary of State for the Home Department how many staff there are in each civil service grade in the immigration and nationality directorate who have been recruited since 1 January *(a)* 2006 and *(b)* 2005; and if he will make a statement. [75161]

Mr. Byrne: The immigration and nationality directorate does not hold this information in the format requested, which could be provided only at disproportionate cost.

Keith Vaz: To ask the Secretary of State for the Home Department what discussions have taken place between officials of the Immigration and Nationality Directorate and Jobcentre Plus regarding the allocation of national insurance numbers. [76196]

Mr. Byrne: Officials at a variety of levels in the Immigration and Nationality Directorate have been in regular contact with their counterparts in Jobcentre Plus about the procedures for allocating national insurance numbers. No central record is kept of the detail of these discussions. However, they have covered a wide variety of legislative, policy and procedural matters relating to the recently announced changes to these procedures. These changes introduced from July 2006 a "right to work" condition for employment related applications for national insurance numbers.

Mr. Clegg: To ask the Secretary of State for the Home Department what investigations *(a)* his Department and *(b)* the police are conducting into allegations that (i) permanent residency visas and (ii) changes in residency status are being bought from immigration officials; and if he will make a statement. [84146]

John Reid: The Department takes all allegations of misconduct very seriously. Any such allegation will be thoroughly investigated and any necessary action taken in accordance with departmental procedures.

To provide details about the investigations that are under way at the moment would risk compromising their successful outcome.

Mr. Clegg: To ask the Secretary of State for the Home Department how many passports have been lost while being held by the Immigration and Nationality Directorate pending an immigration decision in each of the last five years. [85402]

John Reid: The only information on passports relates to applications made under managed migration routes for variation of leave, work permits and citizenship. Management information for all of these work streams is only available for the last three years. This indicates that the number lost in 2003-04 was 588, in 2004-05 was 452 and in 2005-06 was 288.

Information Technology

Mr. Weir: To ask the Secretary of State for the Home Department what the value was of each IT contract awarded by his Department in each of the last five years; and who the contractor was in each case. [88986]

Mr. Byrne: The following tables outline those details that are centrally held in relation to major IT projects with a value over £10 million. The Home Office runs a number of smaller IT projects but details of these are not held centrally.

Desktop Services

Business	*IT Unit*	*Supplier/contract*	*Value (£ million)*	*Year*
IND	HOITSS	Atos Origin/TBC	200	2004
NOMS (Probation Service)	NOMS	Steria/OMNI	250	2006

IT Enabled Change Programmes

Business	*Programme*	*Supplier/contract*	*Value (£ million)*	*Year*
IND	Project Semaphore (part of e-Borders)	IBM	31.9	From 2004 to date
	Project IRIS (part of e-Borders)	Sagem	2.8	2004
	Mycroft	SERCO/Mycroft	42	From 2004 over five years
	Points Based System	Atos Origin Sirius FCO Services	<4	Still in definition stage and has therefore contracted less than £4 million to date
	Warnings Index	Fujitsu—WI and WW Tech Refresh	14	May 2005
	Warnings Index	Fujitsu—WI Support Procurement	14.5	May 2006

IT Enabled Change Programmes

Business	*Programme*	*Supplier/contract*	*Value (£ million)*	*Year*
NOMS	NOMIS	EDS/Steria	190	2005
CS	EDRM	CapGemini/Sirius	16.8	2005-06

Mr. Laws: To ask the Secretary of State for the Home Department how many IT projects have been developed for his Department since 2001; and whether he has agreed to make public Gateway reviews for these projects *(a)* in full and *(b)* in part. [23519]

Mr. Byrne: Information on the number of projects is not held centrally and is therefore not available. To provide a complete answer in the time available would therefore incur disproportionate costs.

A Gateway review is conducted on a confidential basis for the Senior Responsible Officer. Under the Freedom of Information Act 2000 each request for the release of information contained in a Gateway Review is considered on a case-by-case basis.

Life in the UK Test

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people have *(a)* taken and *(b)* successfully completed the Life in the UK test for adult applicants who want to become British citizens since its inception; and if he will make a statement. [88450]

Mr. Byrne: Information on the number of individuals who have taken the Life in the UK Test is not currently available, as some applicants will have taken the test more than once before passing it. Between the introduction of the Life in the UK Test in November 2005 and 22 July 2006, 82,375 tests were taken. Of these, 56,615 were passed and 25,760 failed, giving an overall pass rate of 68.7 per cent.

Lynne Featherstone: To ask the Secretary of State for the Home Department if he will place in the Library a copy of the Life in the UK test for adult applicants who want to become British citizens. [88519]

Mr. Byrne: No. The Life in the UK test is a multiple choice test comprising 24 questions, selected from a bank of around 200 questions, which were carefully scrutinised by the Advisory Board on Naturalisation and Integration. All of the answers to the test questions can be found through study of the handbook "Life in the United Kingdom: A Journey to Citizenship". It would not be appropriate to publish the test questions, as this would enable people to learn them by rote and thus defeat the object of the test.

Ministerial Visits

Mr. Amess: To ask the Secretary of State for the Home Department if he will list the towns in *(a)* England and Wales, *(b)* Scotland and *(c)* the European Union that he has visited in an official capacity in each month since 1997; what the purpose was in each case; what the (i) date, (ii) time, (iii) location and (iv) duration was of each meeting; if he will place in the Library the text of any speech made; and if he will make a statement. [65001]

Mr. Byrne: This information can be provided only at disproportionate cost. However, all ministerial visits are conducted in accordance with the Ministerial Code and Travel by Ministers. The Government publishes on an annual basis lists of overseas travel by Cabinet Ministers costing over £500 which will include visits to the European Union. Lists covering 1997 to 2005 are available in the Libraries of the House. Information for 2005-06 is currently being compiled and will be published when it is available.

Mr. Wallace: To ask the Secretary of State for the Home Department what visits *(a)* in the UK and *(b)* overseas Ministers in his Department have made in the last 12 months. [73677]

Mr. Byrne: This answer can be provided only at disproportionate cost.

David Simpson: To ask the Secretary of State for the Home Department on how many occasions he has visited each region in an official capacity in the last 12 months. [84004]

Mr. Byrne: The current Home Secretary and his immediate predecessor visited the Government regions of the South West, the South East, the West Midlands, the North East and London over the last 12 months.

National Asylum Support Service

Mr. Carmichael: To ask the Secretary of State for the Home Department for what reason the National Asylum Support Services stakeholder briefing pack for target contracts-transition document has been removed from the Department's website. [84598]

Mr. Byrne *[holding answer 11 July 2006]:* The stakeholder briefing pack for the target contracts—transition phase has not been removed from the Department's website. However the website link to this briefing pack has recently changed. The new link is: http://www.ind.homeoffice.gov.uk/applying/nass/newsandinfo/projects/nassaccommodationproject/stakeholderengagement

Offender Managers

Dr. Cable: To ask the Secretary of State for the Home Department whether a date has been set for introducing Going Straight contracts between offenders and offender managers as set out in the five year strategy for protecting the public and reducing re-offending. [80377]

Mr. Sutcliffe: Proposals on Going Straight contracts will be developed by the National Offender Management Service, alongside the implementation and delivery of Offender Management. Decisions on their possible content and implementation have yet to be made.

Olympics

Mr. Andy Reed: To ask the Secretary of State for the Home Department which officials in his Department *(a)* are responsible for Olympics-related activity and *(b)* sit on the Inter-Departmental Steering Group for the Olympics. [81564]

Mr. Byrne: The Director of Specialist Crime is responsible for Olympic-related activity within the Home Office and is a member of the Inter-Departmental Steering Group.

Opinion Polling

Mr. Clegg: To ask the Secretary of State for the Home Department on what issues his Department has conducted opinion polling in the last 12 months. [88944]

John Reid: The Home Office undertakes a wide range of research activities that support the development of information-led policy, including surveys of public opinion that consider Home Office issues and its related areas of responsibility.

The Department commissions such work only when it is justified by the specific needs of a particular policy or programme and when this is the most economic, efficient and effective way to achieve the purpose. Consulting and involving the public helps inform both policy formulation and delivery of better quality public services.

Opinion polls have been conducted in the last 12 months on the following issues:

Identity Cards

Late night businesses' attitudes to alcohol related crime and disorder

Offending behaviour programmes delivered to offenders serving community sentences

Public concern about organised crime

Prison Service Staff Issues

Measuring the Quality of Prison Life

Evaluation of Intensive Supervision and Monitoring schemes for persistent offenders

Cognitive Skills Booster Evaluation

Juvenile cohort feasibility

Single intervention Randomised Control Trial feasibility

Satellite tracking

National Evaluation of Community Safety Officers

Perceptions of border control among the travelling public

Northwest Offender Management Pathfinder

Employment Pathfinder

Investigating the Targeting, Tailoring and Sequencing of Interventions feasibility study

Evaluation of neighbourhood policing

Crime Patterns.

Parliamentary Questions

Mr. Heath: To ask the Secretary of State for the Home Department when he will reply to question 67922, on release of foreign prisoners, tabled by the hon. Member for Somerton and Frome for named day answer on 3 May. [70179]

Mr. Byrne: I replied to the hon. Member on 13 July 2006, *Official Report*, column 2020W.

Mr. Bone: To ask the Secretary of State for the Home Department when he expects to reply to Questions *(a)* 68921, *(b)* 68923, *(c)* 68918, *(d)* 68919, *(e)* 68920, *(f)* 68922 and *(g)* 68924, on prisoners, tabled on 3 May by the hon. Member for Wellingborough. [79465]

Mr. Byrne *[holding answer 22 June 2006]:* In respect of questions 68920 and 68922 I replied to the hon. Member on 29 June 2006, *Official Report*, column 634W.

With regard to questions 68918, 68919, 68921, 68923 and 68924 my hon. Friend the Member for Bradford, South (Mr. Sutcliffe) replied on 13 July 2006, *Official Report*, column 2031W.

Mr. Heathcoat-Amory: To ask the Secretary of State for the Home Department when he will answer question 67756, on prisoners released from Shepton Mallet prison, tabled by the right hon. Member for Wells on 27 April 2006. [81662]

Mr. Byrne *[holding answer 3 July 2006]:* I refer the right hon. Member to my reply of 29 June 2006, *Official Report*, column 646W.

Passports

John Mann: To ask the Secretary of State for the Home Department at what stage of the process passport applications are assessed for rejection. [89170]

Joan Ryan: The current process for checking passport applications has two main stages: an initial check that the application has been fully completed and all necessary documents have been provided, followed by examination to establish the identity and nationality of the applicant. If a deficiency is found at the first stage, an explanation is given of what is needed to correct the problem. If the application has been made in person at either a post office, any accredited travel agent or a regional passport office, the incomplete or incorrect application is handed back with the explanation and the passport fee is not taken. If the application has been made by post, the form and fee are retained and a letter is sent either asking for missing documents or a fresh application form, depending on the problem.

The action taken to resolve problems encountered during the examination stage varies. The Identity and Passport Service will not issue a passport until the applicant's identity and nationality have been established.

Police

Mr. Paterson: To ask the Secretary of State for the Home Department how many hours he expects to spend working on police reorganisation until the end of 2006. [68612]

Mr. McNulty: The Home Secretary and his Ministerial team have had and will continue to have various meetings and conversations with officials and interested parties to discuss general policing matters and police reform. It is not possible to quantify the amount of time each has spent or will spend discussing the specific issue of police restructuring.

Mr. Paterson: To ask the Secretary of State for the Home Department what estimate he has made of the total police staff hours, including uniformed staff and support staff, that will be spent on duties related to the release of foreign offenders in *(a)* 2006 and *(b)* 2007. [68614]

Mr. Byrne: The level of detail requested is not required under the Annual Data Return that must be submitted to the Department by police forces in England and Wales. We would not wish to impose additional burdens on police forces by asking them to carry out such ad hoc surveys. The police continue to play a key role in working with all other relevant agencies to pursue those cases where foreign national prisoners were released without due consideration.

Mr. Amess: To ask the Secretary of State for the Home Department what representations he has received about the performance of police in *(a)* Essex and *(b)* Southend in each of the last seven years. [46394]

Mr. McNulty *[holding answer 30 January 2006]:* The current and previous Home Secretary have received numerous representations regarding police forces in England and Wales. In addition, there have been formal reports published relating to the performance of the police service and of Essex police force specifically. These can be found on the websites for Her Majesty's Inspectorate of Constabulary (HMIC) at http://inspectorates.homeoffice.gov.uk/hmic/ and the Home Office at http://police.homeoffice.gov.uk/performance-and-measurement/performance-assessment/assessments-2004-2005/

The next police performance assessments will be published in October.

The latest HMIC publication regarding Southend was the BCU inspection report (September 2003) and the report of the follow-up visit (December 2004).

Port Security

Mrs. James: To ask the Secretary of State for the Home Department pursuant to the answer of 11 July 2006, *Official Report*, column 1676W, on port security, for how long each day the port of Swansea has immigration, customs and security services present; and which ports' immigration, customs and security teams provide an out-of-hours service to the port of Swansea. [86449]

Mr. Byrne: Small ports such as Swansea are staffed in a targeted way based on risk and supported by reliable intelligence. It is believed to be the most effective method of countering the overall threat, and the best use of the finite staff resources.

This information cannot be disclosed as this would provide information of value to those seeking to circumvent HM Revenue & Customs' controls, thereby prejudicing the prevention and detection of crime.

Prisoners

Mr. Malins: To ask the Secretary of State for the Home Department how many British criminals sentenced to custody abroad have been deported to the UK after sentence in each of the last five years. [68802]

Mr. Byrne: I refer the hon. Gentleman to the answer I gave to the hon. Member for South West Devon (Mr. Streeter) on 19 June 2006, *Official Report*, column 1670W.

Philip Davies: To ask the Secretary of State for the Home Department pursuant to the answer of 7 November 2005, *Official Report*, column 57W, on prisoners, if he will confirm that the figures provided for 2004-05 are for the first three quarters of the year; and when the figures for January to March 2005 will be available. [30985]

Mr. Sutcliffe: The figures in respect of prisoners released on parole licence were the figures for the whole year as reported by the Parole Board in its annual report 2004-05. The Parole Board has confirmed that it has not been notified of any further charges since the answer was laid.

The figures in respect of prisoners released on to the home detention curfew scheme were the figures for the year as a whole as notified to the Home Office at the point the question was laid. Data in respect of re-offending on the home detention curfew scheme are changing constantly as new information is received. This is because notifications of further offences, either by the police or other criminal justice agencies, is supplemented by a quarterly interrogation of the police national computer or through notification of acquittals or withdrawal of charges.

The total number of charges as currently notified to the Home Office in respect of prisoners on the home detention curfew scheme for the whole of the year 2004-05 is 1,313. This figure is likely to be further amended as new information is received.

Andrew Rosindell: To ask the Secretary of State for the Home Department how many people, who were later found not to be guilty of the offences for which they were imprisoned, were imprisoned in England and Wales in each year since 1998. [49865]

Mr. Sutcliffe: The information is not held centrally and can be provided only at disproportionate costs.

Prisons

Mr. Bellingham: To ask the Secretary of State for the Home Department what assessment he has made of the relative efficiency of the Prison Service and the private sector in delivering penal services; and if he will make a statement. [48507]

Mr. Sutcliffe: The relative efficiency of public sector and private sector delivery of penal services has been assessed through market testing. Each of the four prisons which had been managed by the private sector after opening in the early 1990s was market tested before the expiry of their contracts. In the case of two, Blakenhurst and Buckley Hall, the management was won by the Prison Service. The private sector retained the management of the other two, Doncaster and Wolds. In addition the Prison Service managed Manchester in accordance with a service level agreement (SLA) following a market test after it re-opened in 1994. The management was market tested again, in 2000, and the Prison Service won the competition and was awarded a new SLA.

The individual efficiency of all prisons, including the nine prisons designed, constructed, managed and financed under the private finance initiative, is assessed quarterly through the performance rating system which comprises a raft of performance measures such as cost performance and findings from external inspections.

Mr. Bellingham: To ask the Secretary of State for the Home Department what mechanisms are used to determine whether a prison is meeting the obligations contained in its service level agreement. [63294]

Mr. Byrne: The National Offender Management Service (NOMS) requires Service Providers to deliver high quality services as specified in the Service Level Agreement (SLA), including high performance against an operational requirements specification. Each SLA contains a Performance Measurement System (PMS) that is designed to measure the Service Providers' delivery of the operational requirements in key areas over an agreed period.

Compliance with the requirements of the SLA includes achieving all Service Delivery Targets and providing NOMS with quality assurance systems, principally through a comprehensive self-audit programme supplemented with a range of policy documents and procedural guidance to staff, together with a meetings structure that ensures that performance, standards and contractual compliance are achieved.

Private Finance Initiative

Grant Shapps: To ask the Secretary of State for the Home Department by what total amount private finance initiative projects for which his Department is responsible that went over budget did so in each of the last five years; and if he will make a statement. [83649]

Mr. Byrne: I am advised that none of the private finance initiative projects for which the Home Department is responsible went over budget in the last five years.

Public Bodies (Reorganisation)

Mrs. Gillan: To ask the Secretary of State for the Home Department what steps he plans to take to ensure that the consultation on non-departmental public bodies includes Welsh organisations. [88175]

Mr. Byrne *[holding answer 25 July 2006]:* In the Home Office Action Plan, From Improvement to Transformation, we announced an in-depth review of the Home Office's non-departmental public bodies. We have already written to the bodies concerned and we aim to consult as widely as possible when we begin to develop our proposals.

Public Information

Mr. Gale: To ask the Secretary of State for the Home Department how much was spent on his Department's public relations and information services in each of the last five years for which figures are available. [48957]

Mr. Byrne: Information services are defined as websites and phone lines set up for campaigns. The following table shows expenditure on phone lines established for campaigns.

Phone line information service expenditure by year

£

	Police recruitment	*Car security*	*Year of the volunteer*
2001-02	241,273	—	—
2002-03	258,962	23,095	—
2003-04	348,236	—	—
2004-05	179,648	—	12,707
2005-06	92,818	—	—

To obtain the information regarding websites would incur disproportionate costs.

Public relations are handled by the Department's press office—costs for the last five years are in the following table.

£

Financial year	*Total*
2000-01	[1]2,446,227
2001-02	[2]2,078,723
2002-03	3,009,489
2003-04	2,959,966
2004-05	2,777,578
2005-06	3,113,249

[1] 2000-01. Expansion of the Home Office press office followed an external consultant's review of its staffing and operation in 1999 and recommended the creation of the Newsdesk to better meet the demands of the 24-hour media. This improved efficiency from 'losing' in excess of 20 per cent. of the calls pre-expansion, to a positive where from June 2003 to June 2004, 91.8 per cent. of 61,070 calls received by the Newsdesk were answered.
[2] 2001-02. The Home Office press office and the Prison Service press office merged in May 2001.

Questionnaires

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* questionnaires, *(b)* statistical inquiries and *(c)* investigations have been carried out wholly or partly at public expense on behalf of or by his Department or public bodies for which he is responsible in each year since 1997; and what the (i) nature, (ii) purpose and (iii) cost was in each case. [83177]

Mr. Byrne: The information requested is not held centrally and could be provided only at disproportionate cost.

Russian Orchestras

Mr. Nicholas Brown: To ask the Secretary of State for the Home Department what assessment he has made of the cost of visas and work permits for visiting orchestras from Russia; and if he will make a statement. [72174]

Mr. Byrne: Proposals for recovering, through fees and charges, the costs of the new Points Based System are at an early stage of development. Alongside developing these, we have continued to engage with key stakeholders, including representatives from the Arts and Entertainment sector and are aware of the issues surrounding touring groups such as visiting orchestras. We will be undertaking a public consultation on fees and charges in the autumn.

Science Applications International Corporation

Norman Baker: To ask the Secretary of State for the Home Department what the total value was of contracts entered into by his Department with Science Applications International Corporation in each year since 1997; and if he will make a statement. [87567]

Mr. Byrne: From available records, the total value of contracts entered into by the Home Department with Science Applications International Corporation in each year since 1997 is as follows:

	Total value of contracts (£)
1997	500,000
1998	0
1999	0
2000	0
2001	4,000
2002	[1]7,022,000
2003	0
2004	2,350
2005	0

[1] Value includes a contract initially entered with another company that was subsequently acquired by SAIC.

Security Industry

David T.C. Davies: To ask the Secretary of State for the Home Department what checks are in place to ensure that persons applying for a security licence from the Security Industry Authority are not asylum seekers. [75665]

Mr. Byrne: Employers have clear legal responsibilities under the Asylum and Immigration Act 1996 which makes it a criminal offence to employ a person who is subject to immigration control unless that person has permission to work in the UK. The possession of a Security Industry Authority licence does not give a person a right to work in the UK, and employers are still expected to assure themselves that their employees have the necessary permission.

Security Service Personnel

Harry Cohen: To ask the Secretary of State for the Home Department what assessment the Government have made of the incidence of security service personnel *(a)* infiltrating terrorist groups and *(b)* colluding in paramilitary killings; and if he will make a statement. [61774]

Mr. McNulty: The longstanding practice of successive governments is not to comment on the work of the security and intelligence agencies. The agencies operate within the law. Any person may complain to the Independent Investigatory Powers Tribunal if he or she is aggrieved by anything they believe has been done to them or their property by the agencies. The tribunal has full powers to investigate and order such remedial measures as it sees fit.

Select Committee Recommendations

Mr. Amess: To ask the Secretary of State for the Home Department what actions have been taken by his Department to implement Home Affairs Select Committee recommendations since the 2001-02 Session; and if he will make a statement. [77773]

Mr. Byrne: The Home Office regularly reports its progress on accepted recommendations to the Home Affairs Committee.

The latest report, "Memorandum from the Home Office: progress in implementing accepted Committee recommendations 2001-05", was published by the Home Affairs Committee on 26 May 2006. A copy is available in the House Library and on the Home Affairs website at:

http://www.publications.parliament.uk/pa/cm200506/cmselect/cmhaff/1007/100702.htm

Somalia

Jeremy Corbyn: To ask the Secretary of State for the Home Department what support his Department has provided for Somali community groups in each of the past five years; what support is planned for 2006-07; and if he will make a statement. [84957]

Mr. Byrne: The grants presented in the following table have been provided by the Home Office, through the Immigration and Nationality Directorate or its former Communities Group (now part of the Department for Communities and Local Government) to Somali community organisations over the past five years, or will be provided in 2006-07:

Date	*Grant*
2000-01	A total of £31,826 to two organisations under the European Refugee Fund (ERF) Scheme (the scheme is administered by the Home Office, and funding is provided by the European Commission)
2002	A total of £41,869 to two organisations under the ERF Scheme
	A total of £22,500 to six Somali groups: grants were paid from the Home Office Refugee Community Development Fund
2003	A total of £35,752 to two Somali organisations: grants were paid from the Home Office Refugee Integration Challenge Fund.
	A total of £69,164 to 15 Somali groups, from the Refugee Community Development Fund
	A total of £7,520 to two Somali groups: grants were paid from the Home Office Purposeful Activities for Asylum Seekers Fund (the Fund supports constructive activities by asylum seekers while they await decisions on their asylum applications)
2004	£50,000 to one Somali organisation, from the Refugee Integration Challenge Fund
	A total of £16,013 to four Somali groups, from the Refugee Community Development Fund
2005-06	£30,150 to one Somali organisation, from the Refugee Integration Challenge Fund
	A total of £38,416 to eight Somali groups, from the Refugee Community Development Fund
	£30,000 to one Somali organisation: the grant was paid by the Home Office Communities Group
	A total of £7,500 to two Somali organisations: the grants were paid from the Faith Communities Capacity Building Fund, a government fund overseen by the Home Office Communities Group
2006-07	A total of £132,074 is to be provided to four Somali organisations from the Refugee Integration Challenge Fund, and a total of £26,000 to two Somali groups from the Purposeful Activities for Asylum Seekers Fund.

Special Advisers

Keith Vaz: To ask the Secretary of State for the Home Department how many overseas visits special advisers in his Department made in an official capacity since 31 March 2004; what places were visited; and how much each visit cost. [52666]

Mr. McNulty: Since 1999 the Government have published, on an annual basis, the total costs of all ministerial overseas travel and a list of all visits by Cabinet Ministers costing in excess of £500. Copies of the lists are available in the Library of the House. Information for the financial year 2004-05 was published on 21 July 2005, *Official Report*, column 158WS, and for the financial year 2005-06 on 24 July 2006, *Official Report*, column 86WS. Since 31 March 2004 to 31 January 2006, special advisers accompanied Ministers on the visits that they made to Italy (October 2004), France (November), Germany (June 2005), Switzerland (July), France (September), USA (October), Luxembourg (October), Belgium (November and December), France (December), Austria (January 2006), and Jordan-Egypt-Libya (February). The travel costs of special advisers accompanying Ministers on overseas visits are included in the annual list of overseas travel by Cabinet Ministers. All travel by special advisers is undertaken in accordance with the guidelines set out in the Ministerial Code and the Civil Service Management Code.

Tasker Inquiry

Mr. Bellingham: To ask the Secretary of State for the Home Department if he will make a statement on the issues raised by the Tasker Inquiry. [66561]

Mr. Sutcliffe: The Tasker Inquiry has not yet been completed. It is expected that a report will be received by the London area manager by the end of September.

Traffic Notices

Chris Grayling: To ask the Secretary of State for the Home Department how many traffic offences have been lost under the six-month rule in each of the last eight years; and what estimate he has made of the resulting loss of revenue from fines. [61277]

Mr. Sutcliffe: This information is not held centrally and can be provided only at disproportionate costs.

Unaccompanied Children

Mr. Steen: To ask the Secretary of State for the Home Department how many unaccompanied children have entered the UK in each of the last three years; how many of them have *(a)* been returned immediately to their country of origin, *(b)* been granted indefinite leave to remain and *(c)* entered the UK and subsequently been returned to their country of origin as the result of a failed asylum claim; and what proportion *(c)* were (i) under 18 years and (ii) over 18 years at the time of their deportation. [82616]

Mr. Byrne *[holding answer 5 July 2006]:* Information relating to the number of unaccompanied children who have entered the UK and subsequently been returned to their country of origin as a result of a failed asylum claim is unavailable and could only be obtained at disproportionate cost.

Information on asylum applications and initial decisions for unaccompanied children is published quarterly and annually. Copies are available from the Library of the House and on the Home Office Research Development and Statistics Directorate website at http://homeoffice.gov.uk/rds/immigration1.html.

US-UK Extradition Treaty

Mr. Clegg: To ask the Secretary of State for the Home Department how many representations he has received on the US-UK Extradition Treaty in 2006. [88327]

John Reid: This information can be provided only at disproportionate cost.

Video Conferencing

Lynne Featherstone: To ask the Secretary of State for the Home Department how many video conferencing units are installed in *(a)* the Department and *(b)* each agency of the Department; what percentage of offices have these facilities in each case; and what plans there are to increase the number. [16199]

Mr. Byrne: Details are given in the following table.

It should also be noted that individual business units within Home Office Corporate Services may have purchased video-conferencing facilities out of their own budgets and there is no centrally held record of these.

Business area	*Number of VC Units*	*Percentage of office coverage*	*Plans to increase*
Corporate Services	8	25	None
IPS	9	100	None
CRB	2	50	None
IND	28	15	Financial provision and plans for seven additional units during 2006-07
NOMS			
Prisons	54	39	Consideration is being given to expanding VC capacity across the NOMS estate. There are no firm figures and the final decision will be based on evidence of it offering financial savings and opportunity for improved performance
Probation	22	[1]52	

[1] This percentage relates to coverage of Probation areas, not offices. Each Probation area has many offices.

Visas

Mr. Wallace: To ask the Secretary of State for the Home Department whether there have been any recent allegations made to his Department of visas being sold by UK officials at home or overseas; and if he will make a statement. [73833]

Mr. Byrne: The Department takes all allegations of misconduct very seriously. Any such allegation will be thoroughly investigated and any necessary action taken in accordance with departmental procedures.

To provide details about the investigations that are under way at the moment would risk compromising their outcome.

Youth Cluster

Hugh Robertson: To ask the Secretary of State for the Home Department how many applications for funding Youth Cluster *(a)* has applied for and *(b)* has been granted in each of the last five years; to what funding programmes the organisation applied; and if he will make a statement. [87975]

Mr. Sutcliffe *[holding answer 24 July 2006]:* As far as I am aware, the Home Office has received two applications for funding from Youth Cluster in the last five years.

One application was granted in July 2004 under Positive Futures. One application was not granted under Connecting Communities Plus.

Youth Crime (Peterborough)

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department what steps he is taking to tackle youth crime in Peterborough; and if he will make a statement. [53701]

Mr. Sutcliffe: The Youth Justice Board awarded a grant of £248,000 to Peterborough Youth Offending Team (YOT) for services to prevent youth crime and anti-social behaviour between 2005 and 2008. The grant is to fund an activity-based Youth Inclusion Programme (YIP) and develop the role of a Youth Offending Service co-ordinator. The YOT is also planning to part-fund a multi agency Youth Inclusion Support Panel (YISP), to provide support for young people at risk, providing it can attract additional partnership funding. The YOT also receives £755,700 per annum to provide a range of services for young offenders during and after their custodial sentence, including the Intensive Supervision and Surveillance Programme (ISSP), and Resettlement and Aftercare Provision (RAP) for young offenders with substance misuse problems. The YOT uses a multi-agency response to increase the resources and expertise available.

HEALTH

General Practitioners

David Simpson: To ask the Secretary of State for Health what percentage of GP practices in *(a)* England and *(b)* each region were single-handed in each of the last five years. [88148]

Caroline Flint: The latest available information up to September 2005 is given in the following table. The data relate to strategic health authority areas in existence prior to 1 July 2006.

GP practices and single handed contracted and salaried GPs[1] by strategic health authority, at 30 September 2001-05

numbers (headcount)

		2001			2002

NHS Finance

Mr. Burstow: To ask the Secretary of State for Health what the cumulative break-even position was in 2005 for each NHS organisation in London as reported in the final accounts of national health service trusts. [88962]

Andy Burnham *[pursuant to the reply, 25 July 2006, Official Report, c. 1231-32W]:* I regret my previous reply was incorrect. The final total should read (90,331) not (610,539) as given in my answer.

The revised table showing financial position of all NHS organisations in London is as follows. The data given are the break-even cumulative position of NHS trusts.

2004-05 NHS trust break-even cumulative position

	£000
Barking, Havering and Redbridge Hospitals NHS Trust	20
Barnet and Chase Farm Hospitals NHS Trust	(19,564)
Barnet, Enfield and Haringey Mental Health NHS Trust	(757)
Barts and The London NHS Trust	(1,054)
Bromley Hospitals NHS Trust	28,754
Camden and Islington Mental Health and Social Care Trust	2,447
Central and North West London Mental Health NHS Trust	5,392
Chelsea and Westminster Healthcare NHS Trust	(164)
Ealing Hospital NHS Trust	(375)

2004-05 NHS trust break-even cumulative position

	£000
East London and The City Mental Health NHS Trust	235
Epsom and St. Helier University Hospitals NHS Trust	(1,736)
Great Ormond Street Hospital NHS Trust	1,771
Hammersmith Hospitals NHS Trust	(18,384)
King's College Hospital NHS Trust	(3,766)
London Ambulance Service NHS Trust	75
Mayday Healthcare NHS Trust	(65)
Newham University Hospital NHS Trust	282
North East London Mental Health NHS Trust	333
North Middlesex University Hospital NHS Trust	(5,360)
North West London Hospitals NHS Trust	(13,546)
Oxleas NHS Trust	1,243
Queen Elizabeth Hospital NHS Trust	(8,942)
Queen Mary's Sidcup NHS Trust	(6,512)
Royal Brompton and Harefield NHS Trust	(3,165)
Royal National Orthopaedic Hospital NHS Trust	(3,769)
South London and Maudsley NHS Trust	(339)
South West London and St. George's Mental Health NHS Trust	401
St. George's Healthcare NHS Trust	(23,596)
St. Mary's NHS Trust	(4,570)
Tavistock and Portman NHS Trust	54
The Hillingdon Hospital NHS Trust	(1,295)
The Lewisham Hospital NHS Trust	(6,646)
The Whittington Hospital NHS Trust	(1,500)
West London Mental Health NHS Trust	(1,353)
West Middlesex University Hospital NHS Trust	(4,943)
Whipps Cross University Hospital NHS Trust	63
	(90,331)

NICE

Justine Greening: To ask the Secretary of State for Health which drugs were not approved by the National Institute for Health and Clinical Excellence which were assessed to have a cost per quality-adjusted-life-year of between £30,000 and £35,000 in each year since 2000; and if she will make a statement. [87745]

Andy Burnham *[holding answer 24 July 2006]:* An analysis has been undertaken of drugs not approved by the National Institute for Health and Clinical Excellence (NICE), taking into account appraisals published between 1 January 2000 and 27 July 2006. Of the drugs appraised but not approved by NICE, none fell exactly into the cost quality-adjusted-life-year (QALY) range of between £30,000 and £35,000, although NICE's appraisal of Anakinra for rheumatoid arthritis (published in November 2003) identified a wide potential cost per QALY range of between £20,000 and £952,000. Further information on this appraisal can be found on NICE's website at www.nice.org.uk

Small Change Big Difference

Anne Milton: To ask the Secretary of State for Health pursuant to the answer of 31 May 2006, *Official Report*, column 31W, on Small Change Big Difference; how much the campaign has cost; and how much money has been allocated for the entirety of the campaign. [79761]

Caroline Flint: The Department has spent under £1,000 on the launch of the initiative. Small Change Big Difference is the working title for our social marketing strategy for England—a key Choosing Health commitment. The Department is currently developing the strategy over the next five years so the entire cost has yet to be determined.

Written Answers to Questions

The following answers were received between Monday 11 September and Wednesday 13 September 2006

CONSTITUTIONAL AFFAIRS

Correspondence

Mr. Andrew Turner: To ask the Minister of State, Department for Constitutional Affairs when the Lord Chancellor will reply to the letter from the hon. Member for the Isle of Wight dated 6 April 2006. [90711]

Ms Harman: The Lord Chancellor sent a reply to the letter from the hon. Member on 22 May 2006. The Lord Chancellor hopes to be in a position to send a further letter later this month.

Courts Areas

Bob Russell: To ask the Minister of State, Department for Constitutional Affairs if she will request the Courts Service to reconsider its plans to merge the Essex Courts Area with the Bedfordshire and Hertfordshire Courts Area. [90678]

Ms Harman *[holding answer 11 September 2006]:* Decisions were made on administrative area restructuring after careful consideration by Her Majesty's Courts Service (HMCS) of the need to provide the most effective way to administer the courts and keep costs to a minimum. Local area directors were fully involved in these decisions. Decisions in relation to the restructuring of courts boards areas have yet to be taken.

Bob Russell: To ask the Minister of State, Department for Constitutional Affairs whether it is her policy that courts areas should have the same boundaries as police forces; and if she will make a statement. [90679]

Ms Harman: It is not the policy of the Department for Constitutional Affairs that the administrative areas of Her Majesty's Courts Service (HMCS) should have the same boundaries as police forces. However, the operational business of HMCS should be arranged so that partnerships with other criminal justice agencies continues to operate effectively.

Departmental Contracts

Mrs. Maria Miller: To ask the Minister of State, Department for Constitutional Affairs what the total value is of contracts his Department holds with *(a)* ER Consultants and *(b)* Praesta; and which Ministers make use of each company's services. [90909]

Bridget Prentice *[holding answer 11 September 2006]:* My Department has a contract with ER Consultants for the provision of change management activities placed to the Wales Office, the contract value is in the region of £40,000. My Department has also engaged the services of Praesta for the provision of coaching programmes and leadership through a Home Office Framework Agreement. The contract value is in the region of £220,000.

Domestic Violence, Crime and Victims Act

Emily Thornberry: To ask the Minister of State, Department for Constitutional Affairs (1) what estimate has been made of the cost to her Department of implementing sections *(a)* 1 and *(b)* 4 of the Domestic Violence, Crime and Victims Act 2004; [86498]

(2) pursuant to the answer of 12 July 2006, *Official Report*, columns 1898-99W, on the Domestic Violence, Crime and Victims Act, what estimate has been made of the cost to her Department of implementing sections *(a)* 1 and *(b)* 4 of the Domestic Violence, Crime and Victims Act 2004. [86509]

Ms Harman: Section 1 of the Domestic Violence, Crime and Victims Act (DVCVA) 2004—to make breach of a non-molestation order a criminal offence—is costed at £2.8 million per full year. Section 4 is costed at £2.9 million per full year. However, if brought in together this limits costs to £5 million per full year. These are annual continuing costs not just start-up costs.

Section 10 of the DVCVA 2004 (common assault to be an arrestable offence) was also costed at £5 million per full year. This has been commenced via the Serious Organised Crime and Police Act (SOCPA) 2005. Thus the full cost to DCA of implementing the DVCVA is £10 million per full year. We regularly review budgets to identify funding at the earliest opportunity.

Dr. David Kelly

Norman Baker: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 10 July 2006, *Official Report*, column 1615W, on Dr. David Kelly, on what date this meeting was fixed; and what account was taken of the suspension of the inquest into the death of Dr. David Kelly in deciding whether discussing certification was appropriate. [90876]

Ms Harman: The Oxfordshire coroner suggested the meeting on 11 August 2003 the week before it took place as he was going to be in London on that day on other business. The Lord Chancellor had already indicated to the coroner that he was minded to invoke his section 17A powers unless there was exceptional reason why he should not do so. The meeting on 11 August was to discuss how the coroner might resume the inquest to admit further evidence of the cause of death so that it might be accurately recorded by the registrar.

Interim Possession Orders

Justine Greening: To ask the Minister of State, Department for Constitutional Affairs how many interim possession order applications have been *(a)* made and *(b)* granted in each year since 2000; and if she will make statement. [90574]

Ms Harman *[holding answer 11 September 2006]:* The following table shows the number of applications for interim possession orders and the number of orders made since 2000 for England and Wales.

The volumes of interim possession applications and orders have remained at a low level between 2000 and 2005. The Department does not collect data on the reasons for the steep changes in volumes for the years 2002 and 2003.

Number of applications for interim possession orders and orders made, 2000-05

	Applications for interim orders	*Interim orders made*
2000	409	76
2001	504	126
2002	[1]2,869	418
2003	[1]2,528	226
2004	230	103
2005	312	273

[1] The table shows large increase between 2002 and 2003, however this is less marked when divided by court and by month.

Law Students

Mr. Marsden: To ask the Minister of State, Department for Constitutional Affairs how many bursaries were awarded by the Law Society to mature law students wishing to study the legal practice course in each year since 2001-02; and if she will make a statement. [90759]

Ms Harman: The details of the number of bursaries awarded to students over 25 are set out in the table as follows:

	Number of bursaries awarded by the Law Society to law students over 25
2006	8
2005	7
2004	9
2003	11
2002	9

Mr. Marsden: To ask the Minister of State, Department for Constitutional Affairs how many training contracts the Law Society awarded to law students who were *(a)* in their 20s, *(b)* in their 30s, *(c)* in their 40s and *(d)* in their 50s in each year since 2001-02. [90760]

Ms Harman: The Law Society does not award training contracts. They are awarded by individual firms of solicitors and other authorised training establishments.

The number of training contracts by age is not recorded centrally and could be provided only at disproportionate cost. However, the following table shows the number of total training contracts awarded irrespective of age.

	Number of training contracts awarded to law students
2005	5,732
2004	5,708
2003	5,650
2002	5,385
2001	5,162
2000	4,827

Legal Aid

Mr. Andrew Turner: To ask the Minister of State, Department for Constitutional Affairs whether it is the policy of the Legal Services Commission before making an award of legal aid to check whether applicants for legal aid are vexatious litigants acting *(a)* with and *(b)* without the permission of a High Court judge to initiate proceedings. [91033]

Vera Baird: No. When an applicant applies for legal aid, the Legal Services Commission (LSC) relies on the client's solicitor to supply them with all relevant information. The fact that an applicant is a vexatious litigant is a relevant factor for the LSC in assessing whether a case merits funding.

Medical Assessments

Danny Alexander: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 27 June 2006, *Official Report*, column 286W, on medical assessments, in how many appeals the appellant was successful in each year since 2001, broken down by benefit type. [88746]

Vera Baird: The information requested is in Table 1.

Since my answer of 27 June 2006, more up-to-date data has become available regarding the number of appeals received and this is in Table 2.

Table 1: Appeals cleared in favour of appellant, April 2001 to March 2006

	Industrial injuries disablement benefit	*Incapacity benefit, without PCA*	*Incapacity benefit, with PCA*	*Disability living allowance*	*Attendance allowance*	*Total*
2001-02	7,490	1,410	13,480	41,620	4,460	68,450
2002-03	6,140	1,750	17,880	38,600	3,820	68,190
2003-04	5,490	1,720	20,530	37,230	3,400	68,370
2004-05	3,970	1,690	19,460	37,180	2,670	64,970
2005-06	3,750	1,730	21,950	35,500	2,300	65,220

Table 2: Appeals received by the Appeals Service, from April 2001 to March 2006

	Industrial injuries disablement benefit	*Incapacity benefit, without PCA*	*Incapacity benefit, with PCA*	*Disability living allowance*	*Attendance allowance*	*Total*
2001-02	22,330	6,260	43,510	83,430	11,490	167,010
2002-03	18,350	6,950	54,200	81,710	10,320	171,530
2003-04	15,560	7,410	55,560	84,320	9,730	172,580
2004-05	12,210	7,070	55,490	85,510	8,190	168,480
2005-06	11,560	7,200	56,430	82,230	7,220	164,650

Notes:
1. All figures are subject to change as more up-to-date data become available.
2. Figures are rounded to the nearest 10.
3. PCA=Personal capability assessment.
4. These data are drawn from management information and should not be used in conjunction with sample statistics drawn from the benefit administration systems.
5. Financial years are from April to March each year.

Source:
100 per cent. download of the Generic Appeals Processing System (21 July, 2006).

Special Advisers

Mr. Djanogly: To ask the Minister of State, Department for Constitutional Affairs what *(a)* qualifications and *(b)* previous experience the special advisers appointed to her Department have. [91002]

Vera Baird: My Department's special advisers were appointed in accordance with the Ministerial Code.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Advertising Campaigns

Lynne Featherstone: To ask the Secretary of State for Environment, Food and Rural Affairs what advertising campaigns the Department ran between 2000 and June 2004; and what the *(a)* date and *(b)* cost was of each. [87064]

Barry Gardiner: DEFRA was created in June 2001. Significant advertising campaigns run by DEFRA's Communications Directorate during the period June 2001 to June 2004 included:

	Advertising campaigns on	*£*
2002-03	Illegal food imports	293,143
2003-04	Illegal food imports	119,146
2004-05	Horse passports	46,719

The Department did not maintain separate records of its overall expenditure on advertising during the period in question. The expenditure for publicity by DEFRA's Communications Directorate includes marketing, advertising, publications, events, shows and direct mailings and is recorded for the financial years since DEFRA's creation in June 2001 as follows:

	£ million
2001-02	6.6
2002-03	4.7
2003-04	2.5
2004-05	4.2

Carbon Audits

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to publish details of the proposed individual carbon audits for homes; and if he will ensure that such audits involve energy efficiency advice centres. [90598]

Ian Pearson *[holding answer 11 September 2006]:* The Government recognises the importance of individual action in reducing carbon emissions from our homes. In order to help them take the right action, it is important that householders have relevant information about the energy use in their homes.

In view of this, we fund the activities of the Energy Saving Trust, which has developed a range of programmes to support improved energy efficiency in the household sector. The Trust provides home energy checks and audits via the Energy Efficiency Advice Centres and its Sustainable Energy Network.

We will be working with the Trust and other stakeholders to continue to improve the information available to householders. In addition, the Government are currently considering how to improve information to householders through better billing and metering.

Computing Equipment

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* USB (i) flash drives and (ii) memory sticks, *(b)* compact discs, *(c)* DVD-ROM discs, *(d)* laptop computers, *(e)* external computer hard drives, *(f)* internal computer hard drives and *(g)* desktop computers were purchased for use in his Department in each month since March 2005. [88771]

Barry Gardiner: The following items have been purchased through the Department's official purchasing mechanism, Buy4Defra. These figures do not include items that may have been purchased independently, such as purchases made through non-framework suppliers, the Government Procurement Card or claimed back through i-Expenses. Identifying this extra information, would incur disproportionate cost to the Department.

	(a) (i)	(a) (ii)	(b)[1]	(c)[1]	(d)[2]	(e)	(f)	(g)[2]
2005								
March	11	149	485	0	0	0	8	0
April	2	211	71	0	0	1	0	0
May	0	138	20	0	0	0	0	0
June	0	162	140	0	0	3	0	0
July	1	169	0	0	0	0	0	0
August	0	228	225	0	0	3	0	0
September	0	501	40	0	0	0	0	0
October	0	335	0	0	0	1	1	0
November	0	211	90	0	0	0	0	0
December	0	59	25	0	0	2	0	0
2006								
January	0	164	20	0	0	1	0	0
February	0	721	390	0	0	2	0	0
March	0	301	937	0	0	0	0	0
April	0	90	815	10	0	1	0	0
May	0	271	888	71	0	0	0	0
June	0	94	788	34	0	0	0	0
July[3]	0	59	n/a	n/a	0	2	2	0
Total	14	3,863	4,934	115	0	16	11	0

n/a = not available.

[1] These items are ordered as stationery.

[2] Defra outsourced its IT function to IBM on 1 October 2004 and, as part of this arrangement, Defra pays IBM for IT services, which includes the provision of laptop and desktop computers. Therefore, none of items *(d)* laptop computers and *(g)* desktop computers have been purchased in the period covered by this question.

[3] To 25 July 2006.

Correspondence

Mr. Beith: To ask the Secretary of State for Environment, Food and Rural Affairs when he will reply to the right hon. Member for Berwick-upon-Tweed's letters of 15 December 2005 and 28 February 2006 concerning the Countryside Stewardship Scheme (DEFRA Ref: 228270). [90667]

Barry Gardiner *[holding answer 11 September 2006]:* I apologise for the delay in responding to the hon. Member's letters. A reply was sent on 22 July 2006. I have arranged for another copy to be sent.

Criminal Offences

Mr. Clegg: To ask the Secretary of State for Environment, Food and Rural Affairs how many criminal offences his Department has created by Orders in Council in each year since 1997. [88473]

Barry Gardiner: The Department for Environment, Food and Rural Affairs was not responsible for the creation of any criminal offences by Order in Council between October 2000 and August 2006.

Providing an answer to the question for the period 1997 to October 2000 would involve a disproportionate use of time and resources because of the amount of research that would have to be done.

Departmental Staff (Criminal Activity)

Simon Hughes: To ask the Secretary of State for Environment, Food and Rural Affairs how many of his Department's employees have been *(a)* dismissed, *(b)* suspended and *(c)* subject to disciplinary action for criminal activity in each year since 1997. [88452]

Barry Gardiner: The number of employees *(a)* dismissed, *(b)* suspended and *(c)* subject to disciplinary action for criminal activity in each year since it was created on 9 June 2001 is as follows:

	Number
2001	1
2002	3
2003	0
2004	1
2005	0

The above cases all went through stages *(a)*, *(b)* and *(c)*.

The Civil Service Management Code sets out the requirements for Departments to have procedures in place to deal with conduct and disciplinary issues. The DEFRA procedures are laid down in the staff handbook which is accessed on the departmental Intranet.

Direct Mail (Recycling)

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the proportion of direct mail which can be recycled; what estimate he has made of the proportion of paper waste represented by direct mail in the last year for which figures are available; and what steps the Government are taking to reduce the volume of direct mail. [84063]

Mr. Bradshaw: I refer the hon. Member to the reply given to the hon. Member for Lewes (Norman Baker) on 15 November 2005, *Official Report*, column 1063W.

Energy Generation Projects

Mr. Holloway: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government have allocated funding to projects to generate energy from human waste. [90728]

Ian Pearson *[holding answer 11 September 2006]:* No DEFRA funding has been allocated to projects to generate energy from human waste. Generating energy at sewage treatment works via gas engines using gas from anaerobic digestion is proven technology in place for decades, so a project of this kind is unlikely to warrant special development funds.

Environment Agency and British Waterways

Mr. Grogan: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the likely impact of the recently announced reduction in the 2006-07 budget of the Environment Agency and British Waterways; and if he will make a statement. [90743]

Barry Gardiner: Following the announcement of the budget reductions, the Department has been working closely with both the Environment Agency and British Waterways to consider further the impact of the cuts and options for managing the shortfall.

The Environment Agency Board will be considering actions to be taken at its meeting on 19 and 20 September. The Board of British Waterways will be considering what actions are necessary at its meeting on 27 and 28 September.

Once the Boards' proposals are clear, we will take stock of the implications for the strategic targets and outcomes.

Flood and Coastal Defences

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to his answer of 24 July 2006, *Official Report*, column 717W, on flood and coastal defences, whether his Department has required the Environment Agency to reduce expenditure on flood defences in 2006-07. [90689]

Ian Pearson: Spending on flood risk management will be reduced by £14.9 million in 2006-07. This will be applied to the Environment Agency's flood risk management grant in aid which will be reduced from £428 million to £413 million.

The reduction will apply only to non-capital spend which funds such items as staff costs, operational spend and maintenance of defences. Funding for the Agency's capital flood risk improvement programme is not affected. This reduction applies to 2006-07 only. Funding for later years has yet to be decided.

The Government are committed to the effective management of flood and coastal erosion risk. Total central and local government funding has nearly doubled from £307 million in 1996-97 to some £600 million in 2005-06, an increase in real terms of 40 per cent. after inflation.

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made in defining flood risk from the River Derwent in the section of the river within the district of South Derbyshire. [90690]

Ian Pearson *[holding answer 11 September 2006]:* The Environment Agency (EA) is the principal operating authority for flood risk management in England and has a general supervisory duty over all matters relating to flood defence. The EA's River Derwent preliminary strategic review (PSR), which recommended the consideration of future works in South Derbyshire, including Alvaston, Derby and Little Chester, was completed in August 2004.

A viability report identified a number of gaps in data and the need for improvements to the existing hydraulic model through Derby. The report reviewed the economic case in the PSR and suggested that a significant number of properties were at risk overall during a one in 100 year flood risk event. The report was completed in October 2005.

Due to the scale of flooding problems, a strategic analysis is appropriate for the business case. This strategy, which is due to be completed in autumn 2007, will examine the alternative options for sustainable flood risk management in Derby during the next 100 years.

The strategy has now been extended to consider the Derwent from Derby to the River Trent, including Ambaston. Data on this area are currently being collected and work undertaken to develop the hydraulic model to extend it down to the confluence. The strategy is at the pre-scoping data gathering stage. It is anticipated that the scoping report will be issued in November 2006. The strategy will provide a plan for the first five years of capital investment, including an assessment of the appropriate maintenance strategy for the existing defences. A strategic environmental assessment will also be produced. The scoping report will be reissued to cover the increased project scope and area. An extensive process of consultation is planned.

Horse Exports

Mr. Morley: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many former racehorses have been exported from the UK for slaughter in each of the last five years; [90707]

(2) how many horses were exported from the UK in each of the last five years; and how many of these were exported for slaughter. [90708]

Barry Gardiner *[holding answer 11 September 2006]:* According to the Department's system for issuing export health certificates, the number of equines certified for export from the United Kingdom are as follows:

	Number
2002	10,785
2003	9,130
2004	12,856
2005	7,637
2006 (to end June)	2,820

These figures include the temporary export of equines as well as the re-export of imported animals and are subject to updating and amendment as more data become available.

These data do not include equines exported in accordance with the tripartite agreement, under which export health certificates are not required for the movement of certain horses from the United Kingdom to the Republic of Ireland and France.

The tripartite agreement was suspended during the foot and mouth outbreak which led to exports of equines to the Republic of Ireland and France requiring export health certificates.

No applications for the export of horses for slaughter have been received in the last five years.

Illegal Cattle Movements

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many farmers have been *(a)* prosecuted for and *(b)* convicted of making illegal cattle movements in each year since 2000 where the prosecution was subsequently found to have been made in error. [86863]

Barry Gardiner: Around 210 cases prosecuted by DEFRA and local authorities since 2003 have resulted in conviction for breach of the Cattle Identification Regulation. A further breakdown is not available because the figures are not held centrally.

These cases involved keepers prosecuted because of failure to undertake the necessary action to identify cattle and report their movements. These are fundamental requirements if we are to control disease and to prevent cattle which may have BSE from entering the human food chain.

We have advised that, although these keepers failed to comply with their European Community law obligations, the enforcement provisions in the Cattle Identification and Cattle Database Regulation are invalid because they are drafted in such a way that criminal liability depends on a failure to comply with the requirements set out in European legislation (Council Regulation 1760/2000) which was not in force at the time the offences were committed. This situation arose because the original Council Regulation 820/97 was replaced by Council Regulation 1760/2000 in July 2000.

IT Contracts

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs what the value was of each IT contract awarded by his Department in each of the last five years; and who the contractor was in each case. [88992]

Barry Gardiner: In each of the last five years DEFRA has awarded the following IT contracts:

In 2001 a contract to the value of £3 million + VAT was awarded to Infoterra Ltd.

In 2002 a contract to the value of £16.1 million was awarded to LogicaCMG.

In 2003 a contract to the value of £34.1 million was awarded to Accenture.

In 2004 a contract to the value of £85 million per year was awarded to IBM.

In 2005 no major IT contracts were awarded.

In addition, a very large number of IT-related contracts of varying values have been let throughout this period, including software licensing/support agreements and consultancy services. In particular, there were multiple consultancy support contracts for the e-nabling/outsourcing programme.

There will have also been many, smaller, IT contracts awarded; however, information on these is neither managed nor maintained centrally, and therefore it would incur disproportionate costs to collate.

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs which IT contracts awarded by his Department in each of the last five years have been abandoned; and what the value was in each case. [88993]

Barry Gardiner: None of the IT contracts awarded by DEFRA in the last five years has been abandoned.

Landfill Tax

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what mechanisms he has put in place to assess the environmental benefits of the landfill tax credit scheme. [90960]

John Healey: I have been asked to reply.

Landfill tax is one of a number of measures designed to improve the efficient use of resources, encourage effective management of waste and meet our commitment to reduce the volume of household waste sent to landfill. Other measures include landfill allowance trading scheme, regulation and recycling targets for local authorities. As part of the annual Budget process, the Government assesses the impact of landfill tax alongside these initiatives against a range of social, economic and environmental factors, including assessing the volume of waste sent to landfill and the impact on business competitiveness.

There are clear signs that the landfill tax and the other initiatives are working together to reduce our reliance on landfill. The amount of active waste going to landfill fell by almost 16 per cent. between 1997 and 2005 while the economy grew by nearly 25 per cent.

Ministerial Meetings

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs when he last met his Scottish counterpart; and what subjects were discussed. [88764]

Barry Gardiner: Ministers have regular dialogues with ministerial colleagues in the Scottish Executive, discussing a wide range of issues of mutual interest. It is not our practice to disclose details of such meetings.

Ministerial Offices

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs how many times his ministerial office has been decorated in each of the last five years. [87649]

Barry Gardiner: The Secretary of State's private office has not been decorated since the relocation of the ministerial team from 3-8 Whitehall Place to the Nobel House complex in 1997.

Natural England

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the Chair of Natural England since his appointment on the budget of Natural England; and what the outcome was. [90653]

Barry Gardiner *[holding answer 11 September 2006]:* I have discussed budgetary issues with Sir Martin Doughty, the Chair of Natural England, and we have agreed a revised budget for 2006-07. We hope to agree a 2007-08 budget by November.

I understand the concerns which have been expressed by stakeholders about the impact of a reduced budget on Natural England's important work, but I am confident that Natural England will have sufficient resources to be an effective champion of the natural environment.

Rural Payments Agency

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the impact problems at the Rural Payments Agency have had on other areas of the Department's expenditure; and whether all spending areas, including those non-departmental bodies within the Department's responsibilities, have received this year's funding allocation. [90757]

Barry Gardiner *[holding answer 11 September 2006]:* Additional resources were allocated at the start of the year to maintain staffing levels at the agency and ensure that farmers receive their single payment scheme payments as soon as possible. This accounts for only one of a number of pressures DEFRA has faced this year, including avian influenza incidents, the sum of which is estimated to be in the region of £200 million.

As a consequence of these pressures, all areas of the Department's spend have been subject to rigorous scrutiny as part of a current budget review. The review, while comprehensive in nature, is seeking to ensure that DEFRA's funding is placed where it can have the greatest impact. Ministers have agreed revised budgets for 2006-07 and business areas, including non-departmental bodies, will be informed of these decisions in the coming weeks.

The Rural Payments Agency's difficulties are by no means the sole reason for undertaking this budget review but only one component. It is sensible for all Government Departments to review spending on a regular basis to ensure that taxpayers' money is being used in the most effective way.

Trees

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what the percentage tree cover in each EU member state was on the latest date for which figures are available. [84120]

Barry Gardiner: Based on a 2005 report by the United Nations Food and Agriculture Organisation, forest as a percentage of land area is given in the following table:

Country	*Forest as percentage of land cover*
Austria	47
Belgium	22
Cyprus	19
Czech Republic	34
Denmark	12
Estonia	54
Finland	74
France	28
Germany	32
Greece	29
Hungary	21
Ireland	10
Italy	34
Latvia	47
Lithuania	33
Luxembourg	34
Malta	1
Netherlands	11
Poland	30
Portugal	41
Slovakia	40
Slovenia	63
Spain	36
Sweden	67
United Kingdom	12

LEADER OF THE HOUSE

EU Legislative Proposals

Mr. Brady: To ask the Leader of the House what mechanisms he proposes to put in place for the House to review and comment on EU legislative proposals. [91071]

Mr. Straw: Possible reform of the system for scrutiny by the House of Commons of European legislative proposals and other documents, including the Government's response to the report of the Modernisation Committee last year on this subject, remains under review. I will be discussing these matters with, among others, the European Scrutiny Committee.

I would be happy to meet with the hon. Member to discuss the matter.

PRIME MINISTER

Intelligence and Security Committee

Lynne Jones: To ask the Prime Minister pursuant to the answer of 24 July 2006, *Official Report*, column 865W, on the Intelligence and Security Committee, how the challenge function within the assessments staff has been strengthened. [91032]

The Prime Minister: The challenge function within the assessments staff has been strengthened through the creation of a dedicated challenge team, which, inter alia, assists in testing alternative hypotheses, and reviewing past judgments.

Travel Restrictions (Russia)

Mr. Brady: To ask the Prime Minister what representations he has received regarding restrictions on travel to Russia placed on William Browder, Chief Executive of Hermitage Capital Management (UK) Ltd. by the Russian Government; and whether he raised this case in his meetings with President Putin during the recent G8 summit. [91069]

The Prime Minister: I have received a number of representations regarding Mr. Browder's case. We have raised it on a number of occasions with members of the Russian Government. It is not the practice of the Government to make public details of all discussions with foreign Governments.

SCOTLAND

New Deal

Jo Swinson: To ask the Secretary of State for Scotland how many young people not in education or employment or training have participated in the new deal in each year from 2001; and how many of these have subsequently gained employment. [91066]

David Cairns: This information is in the public domain and is available from the DWP website at:
http://193.115.152.21/new_deals/ndyp/live/tabtool.html

TRANSPORT

A27

Peter Bottomley: To ask the Secretary of State for Transport what plans he has for significant improvements to the A27 in West Sussex. [90966]

Dr. Ladyman: Proposals for improvements to the A27 Chichester are being developed for Worthing and Arundel. At Chichester and Worthing these are part of a package of transport measures developed together with West Sussex county council. These schemes have not been prioritised by the region for start before 2011; the region is expected to report back later in the year on priorities for transport schemes to be delivered in the period 2011-16, and we will take a view then.

Aviation

Mr. Leech: To ask the Secretary of State for Transport what estimate he has made of the likely overall change in cost to the British Aviation Industry as a result of increased charges by the European Aviation Safety Agency. [90619]

Gillian Merron: The Commission Regulation setting out the European Aviation Safety Agency's charges was amended in late May 2006 as part of a package of emergency measures to meet a predicted shortfall in the Agency's 2006 budget. Other measures included a substantial increase in funding from the European Community budget and savings in Agency expenditure.

Increases in tariffs were limited to the very largest manufacturers in the Community. At the same time some fees for small enterprises were reduced and procedural changes made which eased the administrative burdens on all industry.

Given the varying effects of these changes and their emergency and temporary nature no estimate has been made of the overall effect on costs to the UK industry. A few of the largest manufacturers will be subject to the increased tariffs, but the overall package of measures has ensured that the Agency is now able to meet the current certification needs of UK industry as a whole without costly delay.

The Agency has taken steps to put future budgeting on a firmer footing, including the identification of long term amendments to its fee structure to be put in place next year. The UK Civil Aviation Authority has seconded an expert to support the Agency's work in this area.

Bembridge Harbour

Mr. Andrew Turner: To ask the Secretary of State for Transport on what date the audited accounts from the Bembridge Harbour Improvement Company for each of the last 10 financial years were received by his Department in accordance with the Bembridge Harbour Acts. [91034]

Dr. Ladyman: The audited annual accounts for the year ending 31 March 2005 for the Bembridge Harbour Improvement Company were received on 25 August 2006. The Department has no record of receipt of accounts from Bembridge in the previous nine years.

Bus Regulations

Mr. Grogan: To ask the Secretary of State for Transport what the *(a)* scope and *(b)* timetable is for the review of bus regulations being undertaken by his Department; and if he will make a statement. [90745]

Gillian Merron: As announced to the Transport Select Committee on 28 June, I am taking a long, hard look at bus policy with the aim of taking decisions in the autumn on whether or not changes need to be made. I am looking at a whole range of issues surrounding bus services, discussing them with stakeholders and will be considering any recommendations from the Committee.

Carbon Emissions

Mr. Hollobone: To ask the Secretary of State for Transport what the Department's working assumption is of the amount of carbon dioxide emissions from a passenger mile for *(a)* trains and *(b)* cars. [91023]

Mr. Tom Harris: The Department estimates that, based on average passenger loadings, a typical car emits 114 grammes of carbon dioxide per passenger kilometre and a typical train 49 grammes of carbon dioxide per passenger kilometre. The Department keeps both sets of figures under review to take account of changes to the car and train fleet and average passenger loadings.

Concessionary Fares

Mr. Bone: To ask the Secretary of State for Transport what the Government's policy is on the provision of concessionary bus passes for people aged over 60. [90594]

Gillian Merron: Currently, persons aged 60 and over and disabled people are entitled to free off-peak bus travel within their local authority area. Local authorities can at their discretion offer enhancements to the statutory minimum entitlement, such as peak bus travel, concessions on other modes, and travel into neighbouring authorities. The entitlement will be extended from April 2008 to allow eligible people to travel off-peak on any local bus service in the country for free.

Galileo Satellite Project

Stephen Hammond: To ask the Secretary of State for Transport (1) what assessment he has made of the economic impact of the UK not making the next payment due in relation to the Galileo Satellite Project; [90695]

(2) how much is required by 24 August from the UK Government to meet their commitment in relation to the Galileo Satellite Project; [90696]

(3) how much the UK has spent on its stake in the Galileo Satellite Project; [90697]

(4) what plans he has to make the payments necessary to fulfil the UK's commitment to the Galileo Satellite Project by 24 August; [90698]

(5) what assessment he has made of the implications for the UK's stake in the Galileo Satellite Project if the further payments of funding are *(a)* made and *(b)* not made. [90699]

Dr. Ladyman: Member states of the European Space Agency were invited earlier this year to provide further funding to meet the increased requirements of the development phase of the Galileo satellite navigation programme. Ministers have considered collectively the issue of making a further subscription to the Agency for Galileo. Following this my right hon. Friend the Secretary of State for Trade and Industry asked his officials to inform the Agency that the UK would be contributing an additional €31 million. This decision was notified to the Agency within the agreed subscription period that expired on 24 August. Previous contributions from the UK to the Agency for this programme have been €15.3 million (at 1998 prices) for the definition phase and €95.7 million (at 2001 prices) towards the development and validation phase.

Marine Environment

Chris Huhne: To ask the Secretary of State for Transport how many enforcement actions there were related to Coastguard and other agencies' marine protection powers in each of the last five years; and how many *(a)* prosecutions were brought and *(b)* convictions were obtained in each year. [91088]

Dr. Ladyman: Figures recorded by the Maritime and Coastguard Agency are as follows:

	Investigations	*Prosecutions*	*Convictions*
2001	3	0	0
2002	15	2	2
2003	7	1	1
2004	8	1	1
2005	3	4	4

It should be noted that these figures relate to pollution from ships into the sea. They do not relate to pollution into harbour authority areas, for which harbour authorities keep separate records. They also do not relate to pollution from land into the sea for which the Environment Agency keeps records.

Rail Infrastructure

Mark Williams: To ask the Secretary of State for Transport what research his Department has *(a)* commissioned and *(b)* evaluated on the effects of climate change on rail infrastructure. [90725]

Dr. Ladyman: In 2004, the Department for Transport commissioned a study into the impact of climate change across all transport modes[1] including rail. This work was informed by a climate adaptation study sponsored by the Rail Safety and Standards Board in 2003[2]. More recently, DEFRA published a case study considering the potential impact of climate change on the rail sector[3].

In addition to these studies, the Department maintains a close dialogue with Network Rail and other rail industry stakeholders in order to develop a better understanding of climate change risks and mitigation opportunities.

The Department will use this work and other climate change research to inform the development of its long term rail strategy, which will be published in summer 2007.

Sheffield Airport

Mr. Heald: To ask the Secretary of State for Transport (1) what steps his Department is taking to secure the future of Sheffield airport; and if he will make a statement; [90624]

(2) what assessment he has made of the environmental impact on South Yorkshire of the development of Sheffield Airport. [90625]

Gillian Merron: Sheffield City airport has incurred substantial losses in the past and commercial services were stopped in August 2002, since when it has operated as a general aviation facility with facilities for commercial airlines now available at the nearby Robin Hood airport.

Sheffield city council has received a planning application for a business park on part of the site, leaving the runway accessible to helicopters and light aircraft. The environmental impact of the development is a matter for the local authority to take into account when considering the planning application.

Speed Cameras

Mr. Amess: To ask the Secretary of State for Transport how many people were employed in the Essex camera enforcement office in each year since 1997; and what the annual administrative costs were in each year. [90885]

Dr. Ladyman: The Department for Transport does not hold this level of information; it may be available from Essex police.

Mr. Amess: To ask the Secretary of State for Transport how much revenue speed cameras have generated in Essex in each year since 1997; and how much of that revenue has been spent in Essex. [90886]

Dr. Ladyman: The information on fines and penalties for speeding offences detected by speed cameras in Essex is available for 1999-2003 and is set out in table A which has been provided by the Home Office. I am advised by my right hon. Friend the Home Secretary that his Department's available information relates to the amount of fines ordered to be paid following speed offences detected by camera, not all of which may have been paid. This table shows all speeding offences in Essex including those detected outside the National Safety Camera Programme in Essex.

Information on the total revenue from offences detected by speed camera is not collected centrally, but an estimate can be made from the number of court imposed fines and fixed penalties and is given in the table from 1997 to 2004 (latest available).

2005 data will be available early in 2007.

Table A: Fixed penalty and court proceedings data for speeding offences detected by cameras[1] in the Essex police force area, 1999-2003

	Fixed penalties		Court proceedings		
Offence and year	*Number of tickets[2]*	*Estimated revenue (£)[3]*	*Number of fines*	*Total amount of fine (£)*	*Average fine[4]*
1997	18,800	753,700	880	93,900	107
1998	8700	346600	1700	227400	134
1999	19,800	791,400	2,100	357,400	169
2000	46,300	2,007,000	2,800	317,800	115
2001	81,900	4,911,000	6,500	651,200	101
2002	98,100	5,886,000	12,200	1,022,000	84
2003	64,500	3,872,000,	7,400	687,700	93
2004	65,300	3,912,000	6,700	536,900	81

[1] Offences under the Road Traffic Regulation Act 1984 and the Motor Vehicles (Speed Limits on Motorways) Regulations 1973.
[2] Paid i.e. no further action.
[3] Estimate based on £40 fixed penalty charge to October 2000. From November 2000 the penalty was raised to £60.
[4] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.

The latest available information on the amount recovered and spent in Essex to cover the costs of the Essex Safety Camera Partnership is set out in table B.

Table B: Amount recovered from speed and red light camera offences for Essex Safety Camera Partnership costs as part of the National Safety Camera Programme

Financial year	£
2000-01	1,846,480
2001-02	3,179,304
2002-03	5,150,286
2003-04	5,037,293
2004-05	4,622,413

Terrorism

Mr. Spellar: To ask the Secretary of State for Transport when the procedures to deal with a serious terrorist alert at London's airports were last exercised prior to August 2006. [90904]

Gillian Merron *[holding answer 11 September 2006]:* Most recently, the contingency plans were put in place for BAA London airports following the events of 7 July 2005. The National Aviation Security Programme requires the production, development and exercise of security contingency plans by aerodrome managers, aircraft operators and others in the aviation industry. All the London airports regularly undertake their own live and table-top exercises as well as taking part in other agencies' exercises.

Thames Gateway

Mr. Evennett: To ask the Secretary of State for Transport what recent representations he has received regarding the proposed Thames Gateway bridge. [90824]

Dr. Ladyman: Ministers in the Department have received a limited number of letters from members of the public on the Thames Gateway bridge over recent months, either directly or via MPs.

Thameslink

Andrew Selous: To ask the Secretary of State for Transport which of the bidders for the renewal of the Thameslink franchise expressed an interest in re-opening the Luton to Dunstable branch line; and why this offer was not taken up. [90705]

Gillian Merron: None of the bidders involved in last year's competition for the Thameslink/Great Northern franchise offered to invest in re-opening the Luton to Dunstable branch line.

Traffic Officer Service

Philip Davies: To ask the Secretary of State for Transport what assessment he has made of the effectiveness of the Highways Agency Traffic Officer Service; and if he will make a statement. [90893]

Dr. Ladyman: The Traffic Officer Service was first established in the West Midlands (WM) region in April 2004.

Two targets were set for the WM region in the 2005-06 Highways Agency business plan:

1. For the busiest sections of motorway in the West Midlands, HA Traffic Officers will attend 75 per cent. of incidents within 15 minutes of being deployed.

The WM service achieved 92 per cent. in 15 minutes.

2. In the West Midlands, HA Traffic Officers will clear 75 per cent. of incidents within 30 minutes of taking full responsibility for re-opening the road to traffic.

The WM service achieved 84 per cent.

This experience has enabled the Highways Agency to identify a set of key performance indicators for the service. These indicators will be used to measure the activities that will contribute to delivery of the public sector agreement (PSA) target for journey reliability 2007-08 and to the delivery of the financial benefits of the service. The financial benefits derived from the introduction of the Traffic Officer Service are not due to be assessed until 2008 when the service will have been fully operational across all regions for 12 months. The Highways Agency has analysed data over a 12 month period for the West Midlands and observed a 2 per cent. reduction in incident related congestion.

I would expect the full assessment, which will cover the impacts of introducing the Traffic Officer Service on reducing incident related congestion; improving safety; and freeing up police resources for tackling criminality on the strategic road network to be published at the end of 2008 when the data have been gathered and analysed.

Philip Davies: To ask the Secretary of State for Transport what has been the cost of the Highways Agency Traffic Officer Service since it was introduced. [90894]

Dr. Ladyman: The cost of the Highways Agency Traffic Officer Service since it was introduced is £180,369,505.00.

HEALTH

Accident and Emergency Departments (Sussex)

Tim Loughton: To ask the Secretary of State for Health how many *(a)* head count staff and *(b)* whole-time equivalents work in (i) Brighton Royal Sussex county hospital accident and emergency department and (ii) Worthing hospital accident and emergency department; how many of these are agency staff; and what the annual budget was for staff in each of the last five years. [90973]

Ms Rosie Winterton: The information is not collected centrally.

Tim Loughton: To ask the Secretary of State for Health how many accident and emergency admissions were handled by the Royal Sussex county hospital in Brighton in each of the last five years; what increase in admissions is assumed if the Worthing accident and emergency department is downgraded; and what studies have been carried out to ensure the capacity of Brighton Royal Sussex county hospital to handle an increase in admissions. [90974]

Ms Rosie Winterton: The information is not collected in the requested format. The following table shows the number of admissions to hospital via type one accident and emergency (A&E) for the Brighton and Sussex university hospitals NHS trust and Worthing and Southlands hospitals NHS trust for the last five years.

Number of admissions via type one A&E

	Brighton and Sussex university hospitals NHS trust	*Worthing and Southlands hospitals NHS trust*
2005-06	17,331	14,124
2004-05	16,901	13,688
2003-04	15,639	12,168
2002-03	17,779	11,911
2001-02[1]	[2]13,732	[2]7,809

[1] Prior to Q1 2002-03, Brighton and Sussex university hospitals NHS trust did not exist. Data from before this date are from the two constituent trusts of Brighton Healthcare NHS Trust and Mid Sussex NHS Trust.
[2] Admissions via A&E were first collected in Q2 2001-02, so that data for 2001-02 are for the last three quarters only.

Anti-psychotic Drug Treatments

Mr. Burstow: To ask the Secretary of State for Health how many people over the age of 60 years were prescribed anti-psychotic drug treatments on the NHS in *(a)* England and *(b)* each strategic health authority in 2005; and if she will make a statement. [90550]

Andy Burnham: Information is not available in the form requested. The Department does not hold data on the number of people who are prescribed medication. However in 2005 the total number of prescriptions dispensed for anti-psychotic drugs in England as a whole was 2,352,000. The number of prescriptions dispensed to those aged 60 and over, by strategic health authority (SHA), is detailed as follows:

Total number of anti-psychotics prescriptions dispensed to those aged 60 and over in each SHA in England in 2005

SHA	*Total*
Avon, Gloucestershire and Wiltshire	101,000
Bedfordshire and Hertfordshire	63,000
Birmingham and The Black Country	114,000
Chester and Merseyside	121,000
County Durham and Tees Valley	67,000
Cumbria and Lancashire	114,000
Essex	64,000
Greater Manchester	175,000
Hampshire and Isle of White	85,000
Kent and Medway	72,000
Leicestershire, Northamptonshire and Rutland	62,000

Total number of anti-psychotics prescriptions dispensed to those aged 60 and over in each SHA in England in 2005

SHA	Total
North and East Yorkshire and North Lincolnshire	85,000
Norfolk, Suffolk and Cambridgeshire	107,000
North Central London	43,000
North East London	55,000
North West London	58,000
Northumberland, Tyne and Wear	74,000
Shropshire and Staffordshire	70,000
Somerset and Dorset	52,000
South East London	54,000
South West London	55,000
South West Peninsula	76,000
South Yorkshire	68,000
Surrey and Sussex	124,000
Thames Valley	86,000
Trent	124,000
West Midlands South	70,000
West Yorkshire	113,000

Note:
All figures are rounded to the nearest 1,000.

Autistic Spectrum Disorders

Mr. Burstow: To ask the Secretary of State for Health how many individuals have been diagnosed with autistic spectrum disorders in *(a)* England and *(b)* each London borough in each year since 1997. [90549]

Ms Rosie Winterton: The information requested on diagnoses of autistic spectrum disorders, for England and London since 1997 is shown in the following table. Information is only available by strategic health authority area and not by London borough.

Diagnosis of patients for autistic spectrum disorders national health service hospitals, England 1997-98 to 2004-05

Codes	Strategic Health Authority of Residence	1997-98	1998-99	1999-2000	2000-01	2000-02	2002-03	2003-04	2004-05
Q04	North West London	25	35	27	38	41	49	61	100
Q05	North Central London	18	34	38	38	27	47	68	73
Q06	North East London	26	36	41	33	69	74	59	100
Q07	South East London	33	39	52	50	76	71	86	100

Better Healthcare Closer to Home

Tom Brake: To ask the Secretary of State for Health if she will *(a)* provide and *(b)* authorise funding for the Better Healthcare Closer to Home programme devised by the Sutton and Merton Primary Care Trust, Epsom and St. Helier NHS University Trust and other organisations. [90946]

Ms Rosie Winterton: This is an issue for the London Strategic Health Authority (SHA).

In August 2006 the Secretary of State wrote to the chief executive of the London SHA asking him to review the proposals for a new critical care hospital and the model of care for the area more generally, including issues of affordability.

Branded Generic Drugs

Dr. Iddon: To ask the Secretary of State for Health (1) when the results of the 2005 consultation on the reimbursement of branded generic drugs is expected to be published; and if she will make a statement; [90700]

(2) what her Department's policy is on the reimbursement by the NHS of branded generic medicines; [90701]

(3) what assessment her Department has made of the effects on the NHS of reimbursing generic medicines below the drug tariff price. [90702]

Andy Burnham: Standard branded generics are covered by the provisions of the pharmaceutical price regulation scheme, subject to the outcome of public consultations (issued in January and September 2005) on proposals to transfer them to the new arrangements for the reimbursement for generic medicines.

Officials are currently reviewing the responses to proposals which have raised a number of complex issues. These responses require careful consideration. The Department has not determined its final conclusion on this matter and has not set any deadline that may constrain its deliberations.

There is no assessment to be made of the effects on the national health service as prescriptions for generic medicines, if listed, are reimbursed at drug tariff prices.

Breastfeeding

Mr. Hollobone: To ask the Secretary of State for Health what estimate she has made of the proportion of newborn babies exclusively breastfed until six months old. [91024]

Ms Rosie Winterton: In England and Wales, Scotland and Northern Ireland there was a significant increase in the incidence of breastfeeding between 2000 and 2005. However, no estimate of the proportion of newborn babies exclusively breastfed up until six months old has been made up to date.

The National Infant Feeding Survey 2005 is expected to provide information on the levels of exclusive breastfeeding up until six months old.

The results of the survey are expected in late spring 2007.

Broomfield Hospital

Mr. Burns: To ask the Secretary of State for Health when she expects the Broomfield Hospital private finance initiative scheme to be approved; what obstacles need to be overcome before the scheme can be approved; and if she will make a statement. [90883]

Andy Burnham: The proposals for the new Broomfield private finance initiative (PFI) hospital have been considered as part of the PFI review by the Department. Further work, currently being undertaken by the trust and the strategic health authority, is needed to address outstanding affordability and capacity issues. An announcement about the scheme will be made in due course.

Care Costs

Lorely Burt: To ask the Secretary of State for Health (1) how many people she estimates sold their homes to pay for long-term care in 2005-06; [90868]

(2) what percentage of patients who received long-term care from the national health service in 2005-06 had to pay towards their care; [90869]

(3) what steps the Department is taking to reduce the number of patients who have to sell their homes to pay for long-term nursing care. [90870]

Ms Rosie Winterton: National health service care, including continuing care and nursing care, is free at the point of delivery.

Social services care is means tested, based on an individual's assets, and is provided by local councils.

Since 2001, no one has had to sell their home in order to enter a care home as they can agree a deferred payment with their council, which is claimed back at a later date. Under this scheme, the council meets the cost of the care home place and these costs are recouped from the estate of the resident on death.

The Department has made no estimate of the number of people who have sold their homes to pay for their own social care.

Choice Agenda

Andrew George: To ask the Secretary of State for Health what the total cost *(a)* has been and *(b)* is expected to be over the next five years of the introduction of the choice agenda in the NHS. [91081]

Ms Rosie Winterton: In respect of choice at referral for planned care, the national audit office's report, "Patient Choice at the Point of Referral", published in January 2005, accepted our estimate of £122 million for the likely additional annual infrastructure costs and transaction costs for patient choice. The total spend on elective care in 2003-04 was £8.7 billion.

Choice will lead to increased efficiencies in both primary and secondary care as described in the national audit office's report. In hospitals, these efficiencies should include reductions in missed appointments and cancellations, meaning clinics can be run more efficiently. The cost of these in 2003-04 was approximately £100 million for the 1.5 million missed first out-patient appointments that are most likely to be addressed by choice.

"Health Reform in England—Update and Commissioning Framework" published in July 2006 signalled our intention to extend choice outside routine planned care. This is currently subject to an initial consultation on the overriding approach. Estimated costs are therefore not available for the next five years.

Choose and Book

Steve Webb: To ask the Secretary of State for Health how many patients have used choose and book other than in doctors' surgeries to make appointments in secondary care. [89093]

Andy Burnham: 122,186 (83 per cent.) patient bookings were made through choose and book outside of general practitioner surgeries during June 2006. This figure excludes bookings made by local appointment lines, but includes patients booking via NHS Direct (20,271), through the internet (3,067) and into indirectly bookable services (98,848). The precise number of bookings actually made by patients themselves is not separately identifiable.

Chronic Fatigue Service

Mr. Truswell: To ask the Secretary of State for Health what representations she has received on the provision of the chronic fatigue service in Leeds and West Yorkshire; and whether the value of her Department's direct funding for the service will be maintained in real terms over the next three years. [90922]

Ms Rosie Winterton: As at 7 September 2006, the Department had received 23 letters from Members of Parliament and 22 letters from members of the public regarding the chronic fatigue service in Leeds and West Yorkshire.

In July 2006, strategic health authorities were given details of their share of almost £5.5 billion that had been earmarked for specific projects, including the funding of centres for chronic fatigue syndrome/myalgic encephalomyelitis (CFS/ME). It is the responsibility of local health bodies to ensure that services are provided to meet the needs of those living with CFS/ME.

Clostridium Difficile

Mr. Hollobone: To ask the Secretary of State for Health what conclusions have been reached as a result of the discussions the Department has had with local NHS trusts in Northamptonshire in the last 12 months on tackling clostridium difficile in hospitals. [90613]

Andy Burnham: The Department has highlighted to the NHS East Midlands Strategic Health Authority the need for NHS trusts and primary care trusts to implement best practice and learn the lessons of the recent Healthcare Commission report on Stoke Mandeville Hospital. The Kettering General Hospital NHS Trust has been working with the Health Protection Agency for some time to reduce the number of cases of clostridium difficile.

Connecting for Health IT Programme

David Taylor: To ask the Secretary of State for Health what the cost has been of the Connecting for Health IT programme. [90803]

Ms Rosie Winterton: I refer my hon. Friend to the answer given to the hon. Member for South Cambridgeshire (Mr. Lansley) on 27 June 2006, *Official Report*, columns 331-32W.

Consultants

Lynne Jones: To ask the Secretary of State for Health what rates of pay *(a)* consultant surgeons and *(b)* consultant anaesthetists receive from (i) independent sector treatment centres and (ii) NHS providers; how many (A) male and (B) female consultants are employed in each case; and if she will make a statement. [90605]

Ms Rosie Winterton: A new contract for consultants was agreed in 2003. There are around 90 per cent. of all consultants employed on those terms. Consultants working in independent treatment centres (ISTCs) on national health service terms and conditions will be paid on the same salary scale as those employed in NHS trusts. The salary scale for consultants employed on NHS terms and conditions starts at £70,822 and rises to £95,831.

The following table shows the breakdown of consultant surgeons and consultant anaesthetists in England by gender.

	Consultant anaesthetists	*Consultant surgeons*
Male	3,261	5,512
Female	1,241	476
Total	4,502	5,988

Source:
NHS Census 2005

Where staff are employed by ISTCs their terms and conditions are a matter for the employer and employee. We do not have any data on the arrangements agreed.

Departmental Staff

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* full-time equivalent and *(b)* headcount staff were employed in (i) her Department and (ii) each of her Department's arm's length bodies in each year since 1997. [90631]

Ms Rosie Winterton: The full-time equivalent numbers of staff employed by the Department of Health in each year since 1997, which have been taken from the Department's Annual Reports for the years 2002 to 2006, are as follows:

	As at 31 March each year				
	1997	*1998*	*1999*	*2000*	*2001*
Core DH	4,486	4,247	3,611	3,753	3,632

NHS Purchasing and Supplies Agency (PASA)	309	328	332	328	—
NHS Estates	435	390	375	314	—
Total	5,724	5,032	4,672	3,616	3,555

For special health authorities and non-departmental public bodies of the Department, we can only provide information from 2004-05 onwards. Obtaining the figures from earlier years would involve carrying out a collection exercise from numerous individual bodies and would incur disproportionate costs.

Emergency Readmissions

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer to question 90302, what assessment she has made of the reasons behind the trend in the rate of 28-day emergency readmissions since quarter one of 2002-03. [90978]

Ms Rosie Winterton: Patients may be readmitted within 28 days of a previous admission for a wide variety of reasons unconnected with that earlier episode of care. Preliminary analysis suggests that the rise in readmissions is not confined to particular specialities. The Department has commissioned the National Centre for Health Outcomes Development to analyse the data further to see what conclusions can be drawn.

Event Monitor Hypoxia Study

John Hemming: To ask the Secretary of State for Health if she will ensure that medical information stored in special case files held by Professor David Southall as part of the NHS-funded research relating to the Event Monitor Hypoxia Study and continuous negative extrathoracic pressure is copied into the patients' NHS medical files; and if she will make a statement. [90582]

Andy Burnham: Decisions about disclosure of medical information to clinicians for incorporation within medical records are the responsibility of the individuals to whom the findings relate. Researchers owe these individuals a duty of confidentiality. They are expected to clarify (either in advance, or where practicable, through subsequent contact with affected research participants) whether the individuals consent to the disclosure of the relevant information.

Funding (Warrington)

Helen Jones: To ask the Secretary of State for Health how much capital funding has been received by Warrington hospital in each year since 1997; and which projects have been funded as a result. [91056]

Ms Rosie Winterton: The information requested has been placed in the Library.

Helen Jones: To ask the Secretary of State for Health how much health funding has been spent in Warrington per head of population in each year since 1997. [91057]

Ms Rosie Winterton: The information is not available in the format requested. However, expenditure per head for Warrington primary care trust is shown in the following table.

Warrington primary care trust

	Expenditure per head (£)
2002-03	815.42
2003-04	986.72
2004-05	1,056.59

Notes:
1. Warrington primary care trust did not come into existence until 1 April 2002. Figures cannot be provided prior to this date as Warrington was not a specific area for accounts data.
2. Expenditure on general dental services and pharmaceutical services accounted for by the Dental Practice Board and Prescription Pricing Authority, respectively, are excluded. This expenditure cannot be included within the figures for the individual health bodies as they are not included in commissioner accounts.

Sources:
1. Audited summarisation schedules of Warrington Primary Care Trusts 2002-03 to 2004-05.
2. Population figures.

Gloucestershire Partnership Trust

Mr. Drew: To ask the Secretary of State for Health what recent discussions she has had with the strategic health authority responsible for the Gloucestershire Partnership Trust on the financial situation of that trust; whether merger with another body has been considered; and how the impact of changes to the current administrative arrangements will be measured. [90755]

Ms Rosie Winterton: Discussions about finance form part of the routine activity between the Department and the strategic health authorities (SHAs) on an ongoing basis.

It is the responsibility of SHAs to deliver both overall financial balance for their local health communities and to ensure each and every organisation achieves financial balance. From 2006-07, SHAs have the responsibility to develop and implement a service and financial strategy for managing the financial position within their locality. They will develop this with primary care trusts and national health service trusts in their area.

It is for local trusts to determine the appropriate pattern of local services, including reconfiguration of services within the available resources. NHS South West SHA has advised that mergers have been considered but are not deemed appropriate at this stage.

GovNet Expo 2006

Mr. Gummer: To ask the Secretary of State for Health what the cost is to the NHS of supporting GovNet Expo 2006. [79221]

Ms Rosie Winterton: GovNet Expo is organised by GovNet Events, part of GovNet Communications, a commercial media, conference and publications company, which is not funded by Government. Attendance at this event is free to the public sector, so costs will be limited to travel and expenses. The Department however, does not monitor these costs for individual national health service organisations.

Health Inequalities

Paul Rowen: To ask the Secretary of State for Health what assessment she has made of the extent to which each spearhead area is on track to meet the 2010 health inequalities target; and if she will make a statement. [91036]

Caroline Flint: The 2010 health inequalities target is based on the performance of the spearhead areas as a whole. The extent to which each individual spearhead area is on track to narrow their local life expectancy gap with England by 10 per cent. by 2010 is shown in the following list. While the national trend is for a continuing widening in the life expectancy gap between spearhead areas and England, the table shows that some 19 per cent. of spearhead areas are on track for males and females with a further 41 per cent. on track for either males or females.

Current activity to support achievement of the target includes improving our understanding of the key interventions to improve life expectancy in spearhead areas. Fast gains in life expectancy can be made by reducing the prevalence of smoking, effective control of blood pressure and cholesterol, and good care of people with long-term conditions such as diabetes. Improving performance management is also important and we have made health inequalities one of the Department's top six priorities for the national health service, and it will be a mandatory target within local area agreements.

We are also looking to spread best practice across all spearhead areas, and provide support for those areas that need it.

Assessment of spearhead area progress (70 local authority areas) against narrowing the local life expectancy gap with England[1]

On track for both male and female life expectancy (13 areas)

Hackney
Hammersmith and Fulham
Lambeth
Southwark
Tower Hamlets
St. Helens
Coventry
Stockton-on-Tees
Warrington
Carlisle
Derwentside
Hyndburn
Nuneaton and Bedworth

On track for female life expectancy only (14 areas)

Greenwich
Haringey
Bury
Rochdale
Tameside
Barnsley
Doncaster
Gateshead
Newcastle upon Tyne

Birmingham
Wolverhampton
Redcar and Cleveland
Rossendale
Blyth Valley

On track for male life expectancy only (15 areas)

Lewisham
Newham
Manchester
Knowsley
Wirral
Walsall
Blackburn with Darwen
Chester-le-Street
Sedgefield
Wear Valley
Preston
Lincoln
Corby
Wansbeck
Tamworth

Off track for male and female life expectancy (28 areas)

Barking and Dagenham
Islington
Bolton
Oldham
Salford
Wigan
Liverpool
Rotherham
North Tyneside
South Tyneside
Sunderland
Sandwell
Bradford
Wakefield
Hartlepool
Middlesbrough
Halton
Blackpool
Kingston upon Hull, City of
North East Lincolnshire
Leicester
Nottingham
Stoke-on-Trent
Barrow-in-Furness
Bolsover
Easington
Burnley
Pendle

[1] The assessment is based on modelling a reduction of 10 per cent. in the gap with England for each spearhead area on the assumption that overall public service agreement life expectancy target for England to increase life expectancy at birth to 78.6 years for men, and to 82.5 years for women is reached. Confidence limits on the data mean that there will be a degree of uncertainty in the assessments—the assessment is based on the mid-point of the confidence interval of life expectancy for the spearhead areas.

Health Services (Sussex)

Tim Loughton: To ask the Secretary of State for Health what representations she has received from managers of the South East Coast strategic health authority and the West Sussex primary care trust regarding effects of the funding formula on health funding in Sussex. [90776]

Ms Rosie Winterton: The Secretary of State has received no direct representations from managers at NHS South East Coast and Western Sussex primary care trust (PCT) regarding the effects of the funding formula on health funding in Sussex.

Revenue allocations are made to PCTs on the basis of a fair funding formula that directs funding to those areas of greatest need. To ensure equity in resource allocation, the development of the formula is kept under continuous review by the Advisory Committee on Resource Allocation.

Tim Loughton: To ask the Secretary of State for Health how many press and publicity officers are employed within the South East Coast strategic health authority; and at what cost. [90777]

Ms Rosie Winterton: The information requested is not collected centrally.

Tim Loughton: To ask the Secretary of State for Health what improvements in health services in Sussex are being considered as part of Fit for the Future. [90778]

Ms Rosie Winterton: The former Surrey and Sussex strategic health authority, now part of NHS South East Coast, is responsible for the "Creating an NHS Fit for the Future" programme. The NHS South East Coast reports that it is envisaged that patients in Sussex will benefit from having access to a clinically and financially sustainable health system which makes the best use of its resources to improve the health of the population and provide quicker and more convenient care closer to, or inside, peoples homes.

Tim Loughton: To ask the Secretary of State for Health what research her Department has undertaken on journey times between Worthing hospital and the Royal Sussex county hospital in Brighton; and what projections have been made for *(a)* five and *(b)* 10 years' time taking account of likely traffic growth. [90779]

Ms Rosie Winterton: The Department does not collect this information centrally. This is a matter for the local national health service.

Health Trusts

Mr. Hancock: To ask the Secretary of State for Health what changes in *(a)* job numbers, *(b)* services and *(c)* beds each primary care and health trust has made in response to this year's financial position; and if she will make a statement. [76611]

Andy Burnham: The Department does not hold the information requested centrally.

Hospital Food

Steve Webb: To ask the Secretary of State for Health how much has been spent on hospital food and nutrition in each NHS trust in England in each of the last five years. [90798]

Andy Burnham: Information on the amount spent on provisions has been placed in the Library. Information is not collected on how much is spent on nutrition.

The provisions data has been provided by national health service organisations to the Department of Health and has not been amended centrally. The completeness and accuracy of this data is the responsibility of the provider organisation.

Up to 2003-04, provisions data were collected on a compulsory basis. From 2004-05 onwards, such data were was provided voluntarily as part of a benchmarking exercise and therefore may be incomplete.

Steve Webb: To ask the Secretary of State for Health (1) how much was allocated to *(a)* the better hospital food programme and *(b)* the Eating Well in Hospitals scheme in each year since their inception; and if she will make a statement on her plans for each scheme; [90799]

(2) how much has been spent by central Government on improving hospital nutrition in each year since 1997. [90800]

Andy Burnham: Information is not available in the exact format requested.

Between 2000 and 2005, around £34.5 million was spent on the better hospital food programme. This includes funding distributed directly to trusts, central initiatives such as the development of the menu planner and recipe book, and administrative costs for running the better hospital food panel.

"Eating Well in Hospital" refers to a broad group of activities undertaken by a range of organisations, not to a specific Department of Health or national health service programme. There is no specific funding.

The better hospital food programme closed in April 2006. It set an excellent foundation and resulted in measurable improvements in the quality and availability of hospital food. Taking this work forward is now a matter for local determination.

Steve Webb: To ask the Secretary of State for Health how many and what percentage of people *(a)* admitted to and *(b)* discharged from hospital were malnourished in each of the last five years for which figures are available, broken down by (i) age and (ii) strategic health authority. [90801]

Ms Rosie Winterton: The information requested has been placed in the Library. The figures do not represent the number of patients, as a person may have more than one episode of care within the year. Information on whether a patient was suffering from malnutrition when discharged from hospital is not held centrally.

Mr. Evennett: To ask the Secretary of State for Health how many people were *(a)* admitted with malnutrition and *(b)* treated for malnutrition after admission in London hospitals in each of the last five years for which figures are available. [90825]

Ms Rosie Winterton: The information is not available in the form requested. However, the table shows the number of people admitted to hospitals within London strategic health authorities with malnutrition for the years 2000-01 to 2004-05.

Data year	*Number of people*
2004-05	33
2003-04	38
2002-03	42
2001-02	45
2000-01	37

Sandra Gidley: To ask the Secretary of State for Health (1) how many people suffering from malnutrition when they were *(a)* admitted to and *(b)* discharged from hospital spent (i) up to a week, (ii) between a week and a month, (iii) between one month and three months and (iv) more than three months in hospital in the last period for which figures are available; [90881]

(2) what estimate she has made of the percentage of people suffering from malnutrition when they are *(a)* admitted to and *(b)* discharged from hospital who receive regular visits from friends or family throughout their stay. [90882]

Ms Rosie Winterton: Information on whether a patient was suffering from malnutrition when discharged from hospital is not held centrally. Information on the number of people admitted to hospital due to malnutrition in 2004-05, broken down by length of stay, is provided in the table.

Counts of in-year discharge episodes and counts of individual patients, Primary diagnosis = malnutrition, NHS hospitals in England, 2004-05

Length of stay group	*In-year discharge*	
	Episodes	*Patients*
Up to 1 week	100	75
1 to less than 4 weeks	98	98
4 weeks to less than 3 months	57	57
3 months to less than 1 year	5	5
Total	260	235

Source:
Hospital Episode Statistics (HES), Health and Social Care Information Centre.

Information on whether a patient received regular visits from friends or family throughout their stay in hospital is not held centrally.

Hunter's Syndrome

Mr. Hunt: To ask the Secretary of State for Health whether Elaprase is available for the treatment of Hunter's syndrome in the NHS. [90675]

Andy Burnham: Elapase is not yet licensed in the United Kingdom for the treatment of Hunter's syndrome.

As with any unlicensed drug, it is down to individual clinicians to decide whether to prescribe it for an individual patient. The clinician makes these decisions after discussions with patients about the potential risks and taking into account their medical history.

The clinician's decision does, however, need to be supported by the primary care trust which will be responsible for paying for the drug.

Independent Service Providers

Colin Burgon: To ask the Secretary of State for Health what percentage of the NHS budget was paid to independent providers of *(a)* care and *(b)* support services in each of the last three financial years; and what percentage of its budget the NHS expects to pay to independent providers of each kind of service in (i) 2006-07 and (ii) 2009. [85282]

Andy Burnham: The information requested is not available centrally.

Annual financial returns of national health service bodies provide the Department with total expenditure on services provided by all non-NHS bodies, including local authorities, other statutory bodies, the independent sector and overseas, and cannot be disaggregated.

Independent Treatment Centres

David Taylor: To ask the Secretary of State for Health (1) how many NHS hospitals will have hosted independent treatment centres by December 2006; [90804]

(2) what the average cost to an NHS Trust of hosting one independent treatment centre was in the last period for which figures are available. [90806]

Ms Rosie Winterton: There are currently 14 open independent sector treatment centre facilities sited on national health service property with a further three facilities planned before December 2006. In addition one facility sited on NHS property has completed its contract.

Arrangements are agreed locally but no 'hosting' costs should be incurred by the NHS body. The provider may pay the NHS rent for the use of the land or facility or for the provision of any services such as maintenance, cleaning, security etc.

Infant Health Services

Mr. Burrowes: To ask the Secretary of State for Health what assessment she has made of whether Enfield primary care trust's decision to end routine developmental assessments of babies is consistent with the Every Child Matters national agenda. [90796]

Ms Rosie Winterton: NHS London has confirmed that Enfield primary care trust is not stopping developmental checks. The two year check has been suspended for six months while NHS London puts in place changes to children's services. These changes will include merging teams of health professionals. Parents can continue to visit local baby clinics and contact their health visiting team to seek advice.

Influenza Pandemic

Mr. Lansley: To ask the Secretary of State for Health pursuant to her letter to the hon. Member for South Cambridgeshire dated 27 July 2006, reference PO00000120687, whether she plans to procure centrally the disposable respirator EN149:2001 FFP3 and stockpile it for use by healthcare workers in the event of an influenza pandemic; and what research she expects to conduct with the 3.5 million doses of A/H5N1 vaccine. [90629]

Ms Rosie Winterton: We recommend that those healthcare workers performing procedures that have the potential to generate aerosols should wear FFP3 respirators. We are currently considering whether we should centrally procure and stockpile FFP3 respirators and a decision will be reached as soon as possible.

The H5N1 vaccine has also been offered free-of-charge to any research group which has been funded by the medical research council to study H5N1 vaccine, and we keep under review what further research may be necessary with this vaccine.

Mr. Lansley: To ask the Secretary of State for Health what discussions *(a)* she and *(b)* her officials have held with the United Kingdom Vaccines Industry Group since 1 July 2006 regarding the production capacity of manufacturers for this year's winter influenza season following their switch to the X-161B strain; what the content of these discussions was; and if she will make a statement. [90632]

Ms Rosie Winterton: The United Kingdom Vaccine Industry Group has notified the Department that the new reassortant strain for production of the H3N2 strain recommended by the EU regulatory authorities has demonstrated an improvement in vaccine yield. This has resulted in over 15 million doses of flu vaccine becoming available for distribution in the UK.

Irlen Syndrome

Mr. Fallon: To ask the Secretary of State for Health how many school children are estimated to suffer from Irlen Syndrome; and what progress is being made in encouraging its early diagnosis. [90957]

Ms Rosie Winterton: The Department does not collect the requested data.

If a parent or child experiences symptoms associated with descriptions of Mears Irlen Syndrome they should discuss the problem with the child's school and consult an optometrist to ensure that the possibility of refractive error or eye disease is not overlooked. If after a sight test (and glasses if necessary) a child is still experiencing difficulties, then a wider assessment is called for. This is something that local education and health authorities should take forward in view of their responsibilities for services in their areas.

Kerr/Haslam Inquiry

Mr. Willis: To ask the Secretary of State for Health pursuant to the answer of 20 July 2006, *Official Report*, column 672W, on William Kerr/Michael Haslam, when she expects to publish the recommendations from the Kerr/Haslam Inquiry which are not directly affected by the consultation on the review of medical and non-medical regulation; and which of those recommendations are being implemented. [90658]

Andy Burnham: As I said in the earlier reply on 20 July 2006, *Official Report*, column 672W, there are close similarities between the issues raised by the Kerr/Haslam Inquiry, the Ayling and Neale Inquiries, and the fifth report of the Shipman Inquiry. We therefore think it would be more helpful to the national health service, and would better serve to protect patients, to publish a joint response to all four reports with a single integrated programme of action to take forward the measures needed. We will not be publishing a separate formal response to the individual inquiries or to individual recommendations from them. Preparatory work is under way on many of the individual recommendations and will be reflected in due course in the formal response.

Local Area Agreements

Mr. Baron: To ask the Secretary of State for Health what progress she has made towards encouraging primary care trusts and local authorities to consider the potential for local area agreements to facilitate joint public engagement on health and social care; and how she expects these local area agreements to work. [90848]

Ms Rosie Winterton: The role of primary care trusts (PCTs) to work with the local authority and other local partners to develop and deliver the local area agreement (LAA) for their area has been set out in successive government guidance on national health service local delivery plans and LAAs and in correspondence to strategic health authorities. LAAs have great potential to deliver improvements in health and social care outcomes, as set out in the "Our Health, Our Care, Our Say" White Paper. Both health and social care outcomes are well represented within the 87 LAAs so far agreed by the Government.

The recent first annual reviews of the pilot LAAs showed strong performance across a number of health and social care priorities.

LAAs have proved an important catalyst for improved partnership working. Many of the pilot areas reported a step change in effective partnership and cross-agency planning and working, particularly between the PCT and the local authority in the way services are commissioned—this has contributed to strong performance in outcomes for older people.

LAAs have also encouraged creativity and innovation by focussing on outcomes, increasing capacity through partnership and joint accountability.

Local Health Services

Mr. Baron: To ask the Secretary of State for Health what further consideration she has given to the options for a community call for action and the use of petitions as a lever for improvements in local services, as set out in the White Paper "Our Health, Our Care, Our Say". [90845]

Ms Rosie Winterton: "Health Reform in England: Update and Commissioning Framework" was published in July 2006, and a copy is available in the Library.

In the annex to this document, the commissioning framework, there are further proposals concerning the use of petitions by members of the community to call for action by primary care trusts. These proposals are subject to a consultation process which is due to close on 6 October 2006. Plans will be finalised, and further guidance will be issued, following the conclusion of this consultation.

Maternity Units

Tony Baldry: To ask the Secretary of State for Health how many *(a)* consultant led and *(b)* midwife led maternity units are being considered for closure. [90627]

Ms Rosie Winterton: This information is not collected centrally. Decisions on local health care provision, including maternity services, is a matter for primary care trusts and strategic health authorities in consultation with the local population.

Medical Research

John Hemming: To ask the Secretary of State for Health if she will ensure that patients and guardians are given a right of access to research protocols for medical research in which they are involved. [90733]

Andy Burnham: Potential research participants have to make a considered choice whether to consent to participate in research. They should receive the information they need in order to weigh up the risks and benefits. Research ethics committees review carefully whether the information is adequate. It is normally presented as an information sheet summarizing the research project, with details of how potential participants can request further information if they wish. They may ask for the research protocol.

Research protocols held by public authorities would normally be disclosed on request. Some parts of research protocols may be confidential.

Medical/Dental Staff

Chris Huhne: To ask the Secretary of State for Health how many NHS *(a)* GPs and *(b)* dentists there are in (i) absolute terms and (ii) per 1,000 population in (A) rural areas and (B) non-rural areas; and if she will make a statement. [84624]

Andy Burnham: The following table sets out the number of general practitioners and dentists in absolute terms and per 1,000 of the population, in England, by primary care trust type according to the Department for the Environment, Food and Rural Affairs classification.

PCT type[5]	All general medical practitioners (excluding retainers and registrars)[1] as at 30 September 2005		General dental services and personal dental services dentists[2,3,4] as at 31 March 2006	
	Number	Number per 1,000 of the population[6]	Number	Number per 1,000 of the population[6]
Major urban	11,278	0.65	9,332	0.54
Large urban	4,782	0.65	3,695	0.50
Other urban	3,986	0.63	3,400	0.54
Significant rural	4,165	0.63	3,182	0.49
Rural-50	5,770	0.68	3,881	0.46
Rural-80	2,757	0.69	1,779	0.45
Total for England	32,738	0.65	21,111	0.42

[1] General medical practitioners (excluding retainers and registrars) includes contracted GPs, general medical services others and personal medical services others.
[2] The data has been summed from PCT results to obtain the split for each classification group. Some dentists may have an open GDS or PDS contract in more than one PCT and will therefore have been counted more than once. The total number of dentists given for England does not include duplication.
[3] The postcode of the dental practice was used to allocate dentists to PCTs.
[4] A dentist with a GDS or PDS contract may provide as little or as much NHS treatment as he or she chooses or has agreed with the PCT. Information concerning the amount of time dedicated to NHS work by individual dentists is not centrally available.
[5] This uses the Defra classification of PCTs developed by the Rural Evidence Research Centre at Birkbeck College. GP and dentist figures have been assigned at PCT level. The Birkbeck College classifications are as follows:
Major urban: districts with either 100,000 people or 50 per cent. of their population in urban areas with a population of more than 750,000.
Large urban: districts with either 50,000 people or 50 per cent. of their population in one of 17 urban areas with a population between 250,000 and 750,000.
Other urban: districts with fewer than 37,000 people or less than 26 per cent. of their population in rural settlements and larger market towns.
Significant rural: districts with more than 37,000 people or more than 26 per cent. of their population in rural settlements and larger market towns.
Rural-50: districts with at least 50 per cent. but less than 80 per cent. of their population in rural settlements and larger market towns.
Rural-80: districts with at least 80 per cent. of their population in rural settlements and larger market towns.
[6] Based on ONS mid-year 2004 population figures. Data for 2005 is not yet available and these figures are therefore subject to change.
Source:
The Information Centre for health and social care; NHS Business Services Authority; Office for National Statistics; DEFRA.

As at September 2005, there were 32,738 GPs (excluding retainers and registrars). This is an increase of 4,692 or 17 per cent, since 1997.

Medical/Dental Students

Mr. Drew: To ask the Secretary of State for Health how many *(a)* medical and *(b)* dental students enrolled in each admitting institution in each year since 1997; how many staff were employed expressed (i) as a number of posts and (ii) as full-time equivalents; and what the staff to student ratio was in each year. [86401]

Beverley Hughes: I have been asked to reply.

The available figures are given in the tables. The figures include enrolments and staff at those English higher education institutions which offer medicine and dentistry courses. The Department does not calculate student staff ratios for individual higher education institutions or subjects. The available data do not allow us to identify, and exclude from the calculation, the amount of time staff spend teaching further education (as opposed to higher education) courses, and the number of students who are taught at other institutions under franchising arrangements. These factors have to be excluded from the calculation in order to produce an SSR purely for higher education provision in higher education institutions. We are therefore unable to produce individual HEI SSRs which are accurate and comparable across all institutions. An SSR for all HE institutions in England as a whole, which excludes time spent on FE teaching and students taught via franchising, is published annually by the Department. In 2004-05, the staff student ratio for English institutions as a whole (excluding the Open University) was 18.2.

[1] United Medical and Dental Schools of Guy's and St. Thomas's merged with Kings College London in 1998-99.
[2] The apparent large jump in figures for Dentistry staff at Kings College London in 2003-04 is accounted for by the inclusion of around 100 staff on less that 25+ FTE (which would not have been collected on the previous records).
[3] Royal Free Hospital Medical School merged with University College London in 1998-99.
[4] Number greater than zero but less than 3.

Note:
Figures for 2002-03 and earlier are based upon individual academic appointments (of at least 25 per cent. of a full-time equivalent member of staff) active during the academic year whose primary employment function is teaching only, teaching and research. For 2003-04 onwards, staff with a full time equivalent of less than 25 per cent. are included and as such the two sets of figures are not comparable.
Figures have been rounded to the nearest 5.

Higher Education Statistics Agency (HESA) staff record

Mental Health

Mr. Lancaster: To ask the Secretary of State for Health when the results of the Milton Keynes Primary Care Trust consultation on the future of *(a)* mental health services and *(b)* The Fraser Day hospital will be published. [90732]

Ms Rosie Winterton: It is for primary care trusts in partnership with strategic health authorities and other local stakeholders to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services.

The National Health Service South Central Strategic Health Authority has advised that the results of the Milton Keynes Primary Care Trust consultation on the future of mental health services and the Fraser Day hospital will be published and discussed at the primary care trust's board meeting on the 21 September 2006.

Mr. Drew: To ask the Secretary of State for Health what factors were taken into account in deciding that the measures outlined in the White Paper, "Our Health, Our Care, Our Say", should not apply to mental health services. [90754]

Ms Rosie Winterton: I refer my hon. Friend to the answer given to his previous question on 16 June 2006, *Official Report*, column 1532W. This explained that the Department had written to strategic health authority chief executives and performance managers on 16 February 2006, reminding them of the obligations upon primary care trusts when deciding the future of community hospitals, as outlined in the White Paper "Our health, Our Care, Our Say: a new direction for community services".

The 16 February letter relates only to consultations about the future of community hospitals, not to mental health trusts. Where applicable, these have carried out separate consultations, and the Gloucestershire Partnership NHS Trust began a five week consultation on the future of mental health services in its area in June.

The White Paper outlines our intention to provide more care in local, convenient settings such as new community hospitals. In many ways, this move is in line with what has been happening in mental health services since the national service framework was published in 1999. The White Paper mentions our plans for mental health services, which are featured prominently throughout. For example, we made a manifesto commitment to improve access to evidence-based psychological therapies, and reinforced this in the White Paper, which includes the following commitments:

"Enabling health, independence and well-being better support for mental health and emotional well-being: promoting good practice; demonstration sites for people of working age, as part of our action to help people with health conditions and disabilities to remain in, or return to, work; access to computerised cognitive behaviour therapy (Page 24, chapter two, Health, independence and well-being)."

Copies of the White Paper are available in the Library and it is available on the Department's website at dh.gov.uk/asstRoot/04/12/74/59/04127459.pdf.

Midwives

Paul Rowen: To ask the Secretary of State for Health what assessment she has made of the balance between recently qualified midwives and job opportunities in midwifery; and what steps are being taken to help new midwives into employment within the NHS. [91037]

Ms Rosie Winterton: The national health service will continue to need new midwives to replace those who retire or take career breaks. However, there is now a much closer match between the demand and supply of healthcare workers and there is more competition for posts. It is a joint responsibility between higher education institutions and local NHS organisations to see that midwifery and other healthcare graduates are supported to find employment. Vacancies for graduates continue to be posted on "NHS Jobs" and the "NHS Careers" information service can direct graduates to appropriate sources of information and advice. Graduates are encouraged to be flexible when applying for posts.

Ministerial Visits

Mr. Lansley: To ask the Secretary of State for Health which NHS hospitals *(a)* she and *(b)* each of her Ministers has visited since 13 June. [90630]

Ms Rosie Winterton: The Secretary of State for Health and each of her Ministers have visited the following national health service hospitals since 13 June 2006.

	Hospital	*Visited by*
2006		
16 June 2006	Selly Oak Hospital	Secretary of State for Health
26 June	Norwich Community Hospital	Secretary of State for Health
26 June	Norfolk and Norwich University Hospital	Secretary of State for Health
26 June	Cambridge Mental Health Trust	Secretary of State for Health
27 June	Prospect Park Hospital	Secretary of State for Health
14 July	Mill View Hospital	Secretary of State for Health
14 July	Royal Sussex University Hospital	Secretary of State for Health
25 July	Cirencester Hospital	Secretary of State for Health
25 July	Royal Bath University Hospital	Secretary of State for Health
7 September	James Cook University Hospital	Secretary of State for Health
20 June	St. Bartholomews Hospital	Lord Warner Minister of State
4 July	Edgware Community Hospital	Lord Warner Minister of State
26 July	St. Georges Hospital, Stafford	Lord Warner Minister of State
28 June	Queen Elizabeth Hospital Woolwich	Andy Burnham Minister of State
3 July	Tameside General Hospital	Andy Burnham Minister of State
11 July	Luton and Dunstable Hospital	Andy Burnham Minister of State
21 July	Merrick House Mental Health Trust	Andy Burnham Minister of State
24 July	Barnet and Chase Farm Hospital	Andy Burnham Minister of State
26 July	Taunton and Somerset Hospital	Andy Burnham Minister of State
27 July	Peterborough District Hospital	Andy Burnham Minister of State
18 August	Salford Royal Foundation Trust	Andy Burnham Minister of State
14 June	Medway Hospital Trust	Caroline Flint Minister of State

Mount Vernon Hospital

Mrs. May: To ask the Secretary of State for Health when she expects to make a final announcement about the future of Mount Vernon hospital. [90953]

Ms Rosie Winterton: The future of Mount Vernon hospital is a matter for the local national health service, who are best placed to decide how to provide services to their local communities.

I understand that Hillingdon hospital NHS trust is committed to developing services for local people at the Mount Vernon hospital site. Current plans include the construction of a £13 million treatment centre which will offer patients more choice about where they are treated for pre-booked surgery and procedures. The treatment centre should open in 2008.

New Mothers

Paul Rowen: To ask the Secretary of State for Health what assessment she has made of the health implications of factors affecting the access to skimmed milk of women who have recently given birth. [91035]

Ms Rosie Winterton: No specific assessment has been made of the health implications of factors affecting access to skimmed milk of women who have recently given birth. The Department recommends all adults and children over five years consume lower fat varieties of milk to reduce the intake of saturated fats in the diet. The welfare food scheme, to become the healthy start scheme later in 2006, provides pregnant women and women with young children on qualifying benefits with vouchers for whole, semi-skimmed or skimmed milk.

NHS Bank

Steve Webb: To ask the Secretary of State for Health how much each strategic health authority *(a)* contributed to and *(b)* received from the NHS Bank in each year since 2002. [62383]

Andy Burnham: The NHS Bank is funded from a central allocation from the Department of Health. The contributions received by SHAs in each year since 2002 are set out as follows.

NHS Bank: special assistance funding provided

Allocation	*2002-03*	*2003-04*	*2004-05*	*Million 2005-06*
AGW	45	70	40	20
Surrey and Sussex	30	40	20	—
Beds and Herts	25	—	—	—

NHS Bank: special assistance funding provided

Allocation	*2002-03*	*2003-04*	*2004-05*	*Million 2005-06*
Thames Valley	—	25	10	—
Kent and Medway	—	17	—	—
Total	100	152	70	20

In addition to the distribution of special assistance funding, the NHS Bank also managed the brokerage of cash and capital resources between SHAs. Any cash and capital resources contributed from, or received by, an SHA under these arrangements was returnable in full in the following financial year.

Paul Holmes: To ask the Secretary of State for Health which strategic health authorities have made contributions to the NHS Bank in each year since 2002; and how much contribution each made. [73297]

Andy Burnham: The NHS Bank has made special assistance funding allocations, and certain central budget allocations, on behalf of the Department. Any such allocations are funded from a central departmental allocation.

The NHS Bank also managed the brokerage of cash and capital resources between strategic health authorities (SHAs). Any cash and capital resources contributed from, or received by, an SHA under these arrangements was returnable in full in the following financial year.

Paul Holmes: To ask the Secretary of State for Health which *(a)* primary care trusts and *(b)* NHS trusts are repaying loans to the NHS Bank. [73298]

Andy Burnham: The NHS Bank provides funding to strategic health authorities (SHA) only. The Bank does not provide repayable loans to primary care trusts and national health service trusts. The distribution of funding to individual organisations is the responsibility of the relevant SHA.

The NHS Bank managed the brokerage of cash and capital resources between SHAs. Any cash and capital resources contributed from, or received by, an SHA under these arrangements was returnable in full in the following financial year.

NHS Beds

John Cummings: To ask the Secretary of State for Health how many beds for terminally ill and palliative care are available in *(a)* Sunderland Royal hospital, *(b)* Hartlepool university hospital and *(c)* Durham university hospital. [84224]

Ms Rosie Winterton: The information requested is only available at trust level.

NHS Dentistry

David Davis: To ask the Secretary of State for Health how many NHS dentist surgeries there are in the East Yorkshire Primary Care Trust area; and how many of these are not accepting new NHS patients. [90867]

Ms Rosie Winterton *[holding answer 11 September 2006]*: As at 31 March 2006, there were 29 NHS dental practices in the general dental services (GDS), or personal dental services (PDS) within East Yorkshire Primary Care Trust (PCT).

Data on dentists accepting or not accepting new NHS patients is not centrally available.

Information on the number of dentists or dental practices who have signed the new contract and the number who have not signed is not available centrally.

We do however have some provisional information that covers contracts. A contract may be for more than one dentist so cannot be broken down further to individual dentist level. Provisional management estimates show that in East Yorkshire PCT:

	Number/percentage
Contracts signed	
A: Number	21
B: Approximate UDA value	177,107
Contracts still in discussion	
C: Number	0
D: Approximate UDA value	0
Contracts rejected	
E: Number	15
F: Approximate UDA value	29,325
Percentage UDAs	14.2
Contracts signed	
G: Number signed without dispute	18
H: Number signed in dispute	3
Percentage disputes	14.3

Notes:
1. Data include all notifications of dentists joining or leaving the GDS or PDS, received by the NHS Business Services Authority, up to 23 March 2006. Figures for the numbers of dentists at specified dates may vary depending upon the notification period, e.g. data with a later notification period will include more recent notifications of dentists joining or leaving the GDS or PDS.
2. Dentists consist of principals, assistants and trainees. Prison contracts have been excluded.
3. The postcode of the Dental Practice was used to allocate dentists to specific geographic areas. Constituency areas have been defined using the Office for National Statistics All Fields Postcode Directory.
4. Data on the number of dentists working only in private practice are not held centrally.

Primary care trusts are working with dentists to resolve as many disputes as possible locally.

NHS Finance

Andrew George: To ask the Secretary of State for Health (1) which of the acute hospital trusts which experienced a budget deficit in 2005-06 have plans *(a)*

to recover the whole of the deficit, *(b)* to recover more than 50 per cent. of the deficit, *(c)* to recover less than 50 per cent. of the deficit and *(d)* to recover little or none of the deficit but achieve a balanced budget within the 2006-07 financial year; and what the amount of deficit incurred in 2005-06 was in each case; [88271]

(2) what sanctions are available to her Department to ensure that trusts which have a substantial deficit outturn for 2005-06 are required to take action to recover balance within an agreed timetable; and which trusts have not yet satisfied her Department that they have plans in place to achieve balance. [88274]

Andy Burnham *[holding answer 24 July 2006]:* The aim is for the national health service as a whole to achieve financial balance by the end of 2006-07.

It is the responsibility of strategic health authorities (SHAs) to deliver overall financial balance by developing and implementing a service and financial strategy for managing the financial position within their locality. All NHS organisations that overspend are required to develop recovery plans to return to financial balance. Recovery plans are agreed and managed by SHAs, not the Department. There is a degree of flexibility, however, in how this is managed at a local level. SHAs can agree a recovery plan which phases the recovery of deficits over a number of years. NHS trusts have a three-year period to recover their deficit. This period can be extended to five years in exceptional circumstances.

SHAs are accountable to the Department for the financial performance of the organisations within their own health economy. The Department will work with the SHAs, through enhanced performance management procedures, to ensure that overall net financial balance is returned to the NHS, and improvements are made to the financial position of all individual organisations in deficit.

The 2005-06 provisional outturn financial figures of all NHS organisations were announced on 7 June 2006 and are available in the Library.

NHS Logistics Authority

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) what system of redress will be put in place for NHS trusts, hospitals and clinicians in the event of a fall in the standards of service maintained by the NHS Logistics Authority after its functions are outsourced to DHL; and what financial penalties will be available; [90841]

(2) how she will ensure that the current level of quality controls are maintained in the contract between the Department of Health and DHL in relation to the functions of the NHS Logistics Authority. [90843]

Andy Burnham: The contract with DHL is to be managed by the NHS Business Services Authority. DHL will be penalised if service standards fall below current levels. The details of the financial penalties are confidential for commercial reasons.

As there is no mandate for the national health service to use DHL's services, DHL has to prove to the NHS that it is providing good value for money in terms of best product range and best prices underpinned by good service. If DHL does not demonstrate this to the NHS, the NHS is free to purchase elsewhere.

Ultimately in the clinical arena the end users, the clinicians, are responsible for choosing the products they need for patient care. DHL will work with clinicians through the clinical councils to ensure the right products are purchased for the NHS.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what steps she has taken to ensure that the contract between the Department of Health and DHL in relation to the functions of the NHS Logistics Authority will ensure that hospitals and clinicians using the service are offered a choice of products. [90842]

Andy Burnham: DHL will establish clinical councils to ensure that there is clinical input into the choice of products included in the catalogue range. DHL will work closely with the new collaborative procurement hubs to make sure that each region is getting the range its clinicians need and, at competitive prices.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what market testing exercise was used as the basis for the decision to outsource the functions of the NHS Logistics Authority to the independent sector; and if she will make a statement. [90844]

Andy Burnham: The contract has been signed at the end of a three year process to determine whether partnering with the private sector was the best option. After carrying out a feasibility study in 2003 a notice was published in the *Official Journal* of the European Union in August 2004. An invitation to submit outline proposals was sent to six pre-qualified organisations in November 2004. After a rigorous evaluation process of the responses, in July 2005 the Department sent three selected bidders an invitation to negotiate. After a further rigorous evaluation two bidders were taken forward and a preferred bidder was selected in February 2006. Final negotiations and a final decision to outsource was taken in September 2006.

The overall basis for the decision to outsource was better value for money for the national health services. The outsourcing offers three times more savings to the NHS than keeping the operations in-house.

Non-medical Professional Regulation

Mr. Lansley: To ask the Secretary of State for Health whether she has received a copy of the draft report by the chief medical officer into medical regulation; and when she expects the final report to be published. [85785]

Andy Burnham: I refer the hon. Member to the reply given to him on 24 July 2006, *Official Report*, column 1117W.

Nursing Education

Mr. Osten: To ask the Secretary of State for Health what advice has been given to education authorities on the level of grants they should provide to private sector providers of nursing education; and if she will make a statement. [90559]

Ms Rosie Winterton: Neither the Department or the Department for Education and Skills directly commission or grant fund private sector providers of nursing education via education authorities. Therefore, neither Department provides formal advice on this issue to them.

Mr. Oaten: To ask the Secretary of State for Health what percentage of nursing schools is *(a)* state-funded, *(b)* voluntary and *(c)* private; and if she will make a statement. [90560]

Ms Rosie Winterton: The Department provides funding to strategic health authorities to commission nursing education places, usually from universities. The state funding of universities is a matter for Higher Education Funding Council for England. The Department and the Department for Education and Skills do not collect information on voluntary and private funding which is a matter for each university.

Paediatric Units

Tony Baldry: To ask the Secretary of State for Health how many paediatric units in England are *(a)* being downgraded and *(b)* having in-patient facilities reduced. [90628]

Ms Rosie Winterton: This information is not collected centrally. Decisions on local health care provision, including paediatric services, are a matter for primary care trusts and strategic health authorities in consultation with the local population.

Patient Advocacy

Mr. Baron: To ask the Secretary of State for Health what the *(a)* membership, *(b)* terms of reference and *(c)* timetable are of the working group of voluntary sector representatives established to scope the issues relating to a national voice for patients; and what progress has been made to date in the work of this group. [90846]

Ms Rosie Winterton: The work on national voices is being developed by a group of voluntary sector organisations under the chairmanship of Baroness Morgan. The Department is supporting this work by providing a part-time project manager who is based within the sector. The Department is not responsible for either the membership of the group or its terms of reference. The Department is keen that the proposals developed are independent and the responsibility of the voluntary sector organisations involved. We await with interest the projects findings which should report in December 2006.

Mr. Baron: To ask the Secretary of State for Health what timetable there is for strengthening the involvement of the public in the work of the health overview and scrutiny committees in local authorities. [90847]

Ms Rosie Winterton: As set out in "A Stronger Local Voice", we plan to establish new local involvement networks (LINks) to provide flexible ways for communities to engage with health and social care organisations in ways that best suit the communities and the people in them.

There will be one LINk for each local authority area with social services responsibilities and, as such, they will be able to develop a close relationship with the overview and scrutiny committee (OSC) with which they will be coterminous, informing the OSC on the public needs and experiences, enabling the OSCs to pursue critical issues based of the evidence of users' experience. LINks will also have the power to refer matters to OSCs and receive an appropriate response.

These plans will be introduced when parliamentary time allows.

Mr. Baron: To ask the Secretary of State for Health how local involvement networks will be held to account for their use of public funds as set out in her Department's paper "A Stronger Local Voice". [90849]

Ms Rosie Winterton: We are currently considering the ways in which local involvement networks will be held to account for their use of public funds.

Physiotherapists

Mr. Fallon: To ask the Secretary of State for Health how many of those who qualified in physiotherapy in 2006 have found employment in the NHS; and what the figures were in each of the last five years. [90958]

Ms Rosie Winterton: This information is not collected centrally.

Plastic Water Bottles

Lynne Jones: To ask the Secretary of State for Health pursuant to the answer of 9 January 2006, *Official Report*, column 155W, on plastic water bottles, if she will ensure that information is disseminated to the public on possible contamination of drinking water in plastic bottles from cleaning materials stored nearby. [91029]

Ms Rosie Winterton: The Food Standards Agency (FSA) has published advice on this matter. They have advised consumers not to store food or drink, including plastic bottles of water, next to chemicals. Their advice is available on the FSA website at:

www.eatwell.gov.uk/asksam/keepingfoodsafe/asksamstoring preparing/#A306011

Project 2000

Mr. Evennett: To ask the Secretary of State for Health what assessment she has made of Project 2000; and if she will make a statement. [90979]

Ms Rosie Winterton: A major review of Project 2000 was commissioned by the Department and its findings published in 1991. Entitled "fitness to practice", it resulted in adaptations to the pre-registration programme. In addition to this large-scale evaluation, we have funded studies on various aspects of nurse education and continue to do so.

Public Involvement Forums

Mrs. May: To ask the Secretary of State for Health pursuant to the proposals in the Government's publication "A Stronger Local Voice", when detailed proposals for the powers of *(a)* hospital and *(b)* ambulance patient and public involvement forums are expected to be available. [90954]

Ms Rosie Winterton: We are currently analysing the many responses to "A Stronger Local Voice", and once this process has been finalised, further details will be made available.

Secure Special Hospitals

Mr. Clegg: To ask the Secretary of State for Health what plans she has to extend the provision of secure special hospital beds. [88938]

Ms Rosie Winterton: There are no plans to extend the provision of secure special (now high security psychiatric) hospital beds since the three existing high security psychiatric hospitals, Ashworth, Broadmoor and Rampton, have sufficient capacity to meet current and anticipated demand for high security psychiatric placements.

Mr. Clegg: To ask the Secretary of State for Health what estimate she has made of the cost of a new secure special hospital. [88939]

Ms Rosie Winterton: No estimate has been made of the cost of building a new secure special (now high security psychiatric) hospital since there are no plans to build a new high security psychiatric hospital.

Sexual Health

Mr. Bruce George: To ask the Secretary of State for Health (1) what assessment she has made of the progress towards implementing the plans outlined in the White Paper, Choosing Health, to treat sexual health services as a priority issue; [90785]

(2) what progress has been made towards implementing changes to the provision of sexual health services, as outlined in the White Paper, Choosing Health; and if she will make a statement. [90788]

Ms Rosie Winterton: Sexual health and improving access to genito-urinary medicine (GUM) clinics is one of the top six priorities for the national health service in 2006-07. The White Paper "Choosing Health: Making healthy choices easier" published in November 2004, a copy of which is available in the Library, made a number of commitments to improve sexual health including a target that everyone should be offered an appointment within 48 hours of contacting a GUM clinic by 2008. Strategic health authorities have submitted plans to meet this target.

Overall, the number of attendees at GUM clinics seen within 48 hours in England increased from 45 per cent. in May 2005 to 54 per cent. in May 2006 and a further 4 per cent. were offered an appointment but chose not to attend.

The "Choosing Health" White Paper also announced an accelerated timetable to achieve national roll out of the National Chlamydia screening programme. We have rolled out the screening programme successfully to over 25 per cent. of primary care trusts (PCTs) and many other PCTs will begin screening during 2006.

We have also taken forward the commitment that as well as the national programme we will take steps to introduce and evaluate the effectiveness of Chlamydia screening in retail pharmacies starting in London. We have contracted Boots the Chemists to evaluate the potential of retail pharmacies as Chlamydia screening venues. Screening started on 14 November 2005. This two year pilot will be independently evaluated by TNS Healthcare.

We have also undertaken the audit of contraceptive provision. PCTs were recently asked to complete a national baseline questionnaire of contraceptive services. The results will inform the publication of best practice guidance by the Department of Health and will help PCTs determine how best to meet gaps in local services. We have also recently reduced the value added tax rate on condoms and other contraceptives, making the costs of these items more affordable and are working with the industry to increase the supply of free condoms to high risk groups.

Later this year we will be launching a new sexual health campaign. The campaign will target 16 to 34-year-old young adults, highlighting the risks of unprotected sex and the benefits of condom use to avoid sexually transmitted infections and unintended pregnancy.

This increased priority for sexual health and the implementation of "Our health, Our Care, Our Say: a new direction for community services", a copy of which is available in the Library, should significantly strengthen the incentive for local investment and service modernisation.

Mr. Bruce George: To ask the Secretary of State for Health what assessment her Department has made of the use by *(a)* strategic health authorities and *(b)* primary care trusts of money allocated for sexual health services; and if she will make a statement. [90786]

Ms Rosie Winterton: Primary care trusts (PCTs) and strategic health authorities will receive funding for implementing the targets in the White Paper "Choosing Health: making healthy choices easier" in their mainstream allocations and we will be monitoring the outcomes from this investment through local delivery plans. PCT revenue allocations separately identify funding to support the implementation of choosing health. It is for PCTs to determine how to use the funding allocated to them to commission services to meet the health care needs of their local populations. A copy of the White Paper is available in the Library.

Mr. Bruce George: To ask the Secretary of State for Health what recent discussions her Department has had with strategic health authorities on spending on sexual health services; and if she will make a statement. [90789]

Ms Rosie Winterton: Officials in the Department regularly meet with officials from strategic health authorities to discuss a number of issues. These

discussions are focused on the delivery of key targets for sexual health rather than funding issues which are a local matter for primary care trusts.

Speech and Language Therapists

John Bercow: To ask the Secretary of State for Health what steps are being taken by her Department to increase the number of speech and language therapists in England; and if she will make a statement. [90683]

Ms Rosie Winterton: Workplace planning is a matter for local determination. It is for individual primary care trusts to determine how to use the funding allocated to them to commission speech and language services to meet the health care needs of their local populations.

The number of qualified speech and language therapists employed in the national health service has increased by 1,888 (39 per cent.) since September 1997 and the number of students entering training to become a qualified speech and language therapist has increased by 75 per cent. since 1998-99.

Thrombosis

John Smith: To ask the Secretary of State for Health what discussions she has had with the Chief Medical Officer regarding the forthcoming publication of the recommendations of the expert working group on serious thromboembolism. [81889]

Caroline Flint: The Government response to the House of Commons Health Committee's report on the prevention of venous thromboembolism in hospitalised patients was presented to Parliament by the Secretary of State for Health in July 2005. The response included a reference to a letter that the Chief Medical Officer had written to all doctors on this topic, and a commitment to set up an independent expert working group which would make its recommendations by summer 2006. The report and recommendations were submitted to the Chief Medical Officer on 17 July 2006. The Chief Medical Officer is now considering its findings and the next steps for implementation of any of the recommendations.

John Smith: To ask the Secretary of State for Health whether she expects the recommendation of the expert working group on serious thromboembolism to the published in July. [81890]

Andy Burnham: The independent expert working group on the prevention of venous thromboembolism in hospitalised patients was asked to submit its report and recommendations to the Chief Medical Officer by July 2006. The report was completed and submitted on 17 July 2006. The Chief Medical Officer is now considering its findings and the next steps for implementation of any of the recommendations.

Water Act

Charlotte Atkins: To ask the Secretary of State for Health (1) what assessment she has made of the likely impact of the delay in implementing outstanding sections of the Water Act 2003 on the work of strategic health authorities in undertaking formal consultations on water fluoridation; [90477]

(2) which sections of the Water Act 2003 are not yet in force; [90478]

(3) when she plans to bring outstanding sections of the Water Act 2003 into force. [90479]

Ms Rosie Winterton: We commenced sections 58(5), (6) and (8) of the Water Act 2003 in February 2005 to enable regulations to be made on the consultations that strategic health authorities (SHAs) will have to undertake before requiring a water undertaker to fluoridate their water and the indemnities available to water undertakers who fluoridate a water supply. We are in contact with SHAs so that we may commence the remaining provisions within section 58 when required.

Winchester and Eastleigh Healthcare NHS Trust

Chris Huhne: To ask the Secretary of State for Health what assessment she has made of the likely impact on *(a)* waiting lists, *(b)* bed availability and *(c)* out-patient care of the financial (i) position and (ii) action announced by Winchester and Eastleigh healthcare NHS trust. [91091]

Ms Rosie Winterton: It is for primary care trusts in partnership with strategic health authorities and other local stakeholders to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services.

Worthing Hospital

Tim Loughton: To ask the Secretary of State for Health who instructed Tribal MGB of Chislehurst to carry out a valuation of the Worthing hospital site. [90775]

Ms Rosie Winterton: This is a local matter. The NHS South East Coast has advised that neither it nor national health service organisations in West Sussex have commissioned a valuation in respect of this property.

Peter Bottomley: To ask the Secretary of State for Health what representations she has received from *(a)* within the NHS and *(b)* the public about the future of Worthing Hospital and its services. [90829]

Ms Rosie Winterton: The Department has received approximately 52 letters from members of the public on the future of Worthing Hospital and its services. It is not possible to determine how many of these letters might have been from national health service employees.

Peter Bottomley: To ask the Secretary of State for Health what information has been sent by her Department to the Prime Minister's Office on the future of Worthing's hospital. [90968]

Ms Rosie Winterton: The future of Worthing hospital is an issue for the local national health service.

FOREIGN AND COMMONWEALTH OFFICE

Algeria

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs whether under the Memorandum of Understanding she reached with the Algerian Government on the use of torture those deported from the UK to Algeria will be treated as if the UN Convention on Torture applied to them in Algeria. [91074]

Dr. Howells: There is no Memorandum of Understanding with the Algerian Government nor are we seeking one. A framework for deportations to Algeria was concluded during President Bouteflika's visit to London on 11 July 2006. My right hon. Friend the Prime Minister and President signed an Exchange of Letters on deportation—the letters have been placed in the Library of the House. This exchange will be supplemented by individual assurances in each case.

The Government are satisfied that these arrangements and the changing circumstances in Algeria allow the UK to deport individuals in a manner consistent with its domestic and international human rights obligations. The Special Immigration Appeals Commission recently dismissed an appeal against deportation by terrorist suspect 'Y', ruling that he would not face a real risk of inhuman or degrading treatment if he were returned to Algeria.

Algeria is a signatory to the United Nations Convention Against Torture.

Arms Trade

Chris Huhne: To ask the Secretary of State for Foreign and Commonwealth Affairs what enquiries have been made into the way in which British export restrictions were evaded in the case of British made night sight equipment found in the hands of Hezbollah forces in South Lebanon; and what findings have resulted. [91045]

Dr. Howells: We have been in close touch with the Israeli Defence Force who have confirmed that British made night vision goggles were not found in Lebanon, as media reports have suggested. There were however two pieces of British equipment found. One was a commercially available remote video camera for which no export licence was required. The other was a thermal imaging system that was exported under licence in 1999. Proper procedures were followed at the time, including making a careful risk assessment. This concluded there was no reason to suspect that the equipment would be used for anything other than its described purpose.

All applications are assessed against the Consolidated EU and National Export Licensing Criteria and other prevailing circumstances at the time of application. If there is any risk that the equipment will be diverted from its stated end use, a licence will not be issued. If information comes to light about possible diversion of equipment after export, this will be taken into account when assessing future applications.

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment her Department has made of the Chinese Government's request for the lifting of the EU-China arms embargo; and if she will make a statement. [91070]

Mr. McCartney: The EU has a common approach on this issue. The European Council announced a review of the EU arms embargo in December 2003, which is ongoing. As set out in the December 2004 European Council Conclusions, the result of any decision on the embargo should not be an increase in arms exports from EU member states to China, either in quantitative or qualitative terms. EU leaders also recalled the importance of the criteria of the Code of Conduct on arms exports, in particular criteria regarding human rights, stability and security in the region and the national security of friendly and allied countries. The Government continue fully to implement the arms embargo.

British Nationals (Foreign Prisons)

Peter Bottomley: To ask the Secretary of State for Foreign and Commonwealth Affairs for which British nationals in foreign prisons the Government has asked for clemency or for release in the past 15 years; and what the reasons were in each case. [90830]

Mr. McCartney: We do not ask for clemency or release for British nationals in foreign prisons but will support a plea for clemency made by a prisoner in certain circumstances. Our clemency policy is outlined in an answer given to my hon. Friend the Member for Blackpool, North and Fleetwood (Mrs. Humble) by the then Foreign and Commonwealth Office Minister of State (Brian Wilson) on 2 May 2001, *Official Report*, column 629W. Specific details on cases for which we have supported pleas for clemency are not held centrally and could be obtained only at disproportionate cost. Additionally, for data protection reasons, we cannot give out names of individuals for whom we have supported clemency pleas.

Carbon Emissions

Mr. Hollobone: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps her Department is taking towards being carbon neutral. [91022]

Mr. Hoon: I refer the hon. Gentleman to the answer I gave on 19 July 2006, *Official Report*, columns 490-91W, to the hon. Member for Eastleigh (Chris Huhne). The Foreign and Commonwealth Office is committed to achieving carbon neutrality on our estate by 2012.

Child Protection

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs how many new cases were handled by the Child Abduction Unit in each of the last five years; and what its operating budget was in each year. [90889]

Mr. McCartney: The Child Abduction Section at the Foreign and Commonwealth Office (FCO) records statistics on cases of international parental child abduction or retention brought to its attention and where it has offered consular assistance to British nationals, rather than recording the total number of abductions from the United Kingdom. The FCO usually provides assistance in abduction and retention

cases in countries which are not party to the 1980 Hague Convention on International Child Abduction. The Child Abduction Section was established in 2003 so statistics are not available before then.

	Cases recorded
2003	240
2004	295
2005	208

The operating budget for the section was as follows:

Financial year	*Total budget (£)*
2003-04	46,253
2004-05	181,167
2005-06	237,598
2006-07	250,659
Total	715,677

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment has been made of the effectiveness of protocols and the aspects of the Hague Treaty regarding reciprocal recognition by foreign courts of custody and residence and contact orders made by UK courts. [90890]

Mr. McCartney: Since the UK-Pakistan Protocol was signed in 2003, the Child Abduction Section in the Foreign and Commonwealth Office has recorded 72 cases of child abduction to Pakistan. Although we do not have statistics on cases prior to that time, we believe that the protocol has proven instrumental in concluding many child abduction cases and broader policy issues between the two countries that may otherwise have not been resolved. As far as Hague Convention signatory countries are concerned, the Hague Convention Special Commission in November will provide an opportunity for further assessment to be made on how the convention is working in practice.

Mr. MacNeil: To ask the Secretary of State for Foreign and Commonwealth Affairs what international police liaison and intelligence arrangements are in place to assist efforts to ensure the location and legally mandated return from overseas of children or minors removed from, or encouraged or facilitated to leave, the jurisdiction of the UK courts in contravention of valid awards of custody or residence; and which countries are engaged in dialogue with the Department on securing improved co-operation and recognition of reciprocal agreements. [90891]

Mr. McCartney: When minors are removed from the UK in contravention of existing UK court orders, the UK police will work through Interpol to determine their location overseas. If the minor has been taken to a country that is a signatory to the Hague Convention, the normal procedures will be taken under the Hague Convention through the relevant central authority. When a non-Hague Convention country is involved, the matter has to be resolved through the courts in the respective countries. We encourage those countries not already signed up to the Hague Convention to consider becoming signatories. We are in regular dialogue with a number of non-Hague Convention countries on international child abduction, including Pakistan with which we have a bilateral judicial protocol in place which serves to return children to their country of habitual residence for matters of custody to be resolved there.

Cyprus

Mr. Sheerman: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent meetings she has had with the Government of Turkey to discuss that country's occupation of part of Cyprus. [90962]

Mr. Hoon: My right hon. Friend the Foreign Secretary last met the Turkish Foreign Minister on 18 July 2006, when she discussed Turkey's continued support for a comprehensive settlement in Cyprus. During my visit to Turkey on 11 September 2006, I also discussed prospects for progress towards a Cyprus settlement. We continue fully to support the efforts of the UN.

Darfur

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in establishing a multilateral force to take over from the African Union in Darfur; what recent assessment she has made of the situation in Darfur; and if she will make a statement. [90753]

Mr. McCartney: UN Security Council Resolution 1706, which the UK sponsored, was passed on 31 August and calls for a UN force to take over from the African Union (AU) in Darfur. This resolution demonstrates our continued commitment to practical and viable steps to resolve the humanitarian crisis in Darfur. The security situation in Darfur is deteriorating and there is an increase in violent attacks. We condemn the Government of Sudan's attempts to resolve the situation through military action, which is completely at odds with the Darfur Peace Agreement. The Sudanese Government must now move to co-operate with the UN and enable a UN force to succeed the AU force in Darfur.

Delwar Hossain Sayeedi

Mr. Gauke: To ask the Secretary of State for Foreign and Commonwealth Affairs whether she received advice from Mockbul Ali in respect of the admission to the United Kingdom of Delwar Hossain Sayeedi. [90638]

Mr. McCartney: It is not Foreign and Commonwealth Office policy to comment publicly on named civil servants, nor to comment on individual entry clearance applications.

Mrs. Ellman: To ask the Secretary of State for Foreign and Commonwealth Affairs when she made a decision on issuing a visa for the recent visit of Delwar Hossain Sayeedi to the UK. [90669]

Mr. McCartney: I cannot comment on individual cases. However, all applicants must meet the entry clearance criteria immigration controls, as set out on the UKvisas website at www.ukvisas.gov.uk.

EU (Accession)

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what her Department's policy is on the suspension of any part of negotiations for Turkish accession to the EU in response to Turkey's refusal to open its ports and airports to Cypriot vessels and aircraft. [90768]

Mr. Hoon: The UK wholeheartedly supports Turkey's EU accession and was delighted that the EU opened negotiations with Turkey under the UK's presidency. The hon. Gentleman rightly raises the important issue of Turkey's implementation of the Ankara Agreement Protocol, and we continue to convey to the Turkish government the need to implement this obligation. We continue to support the EU's declaration of 21 September 2005, which inter alia said that

"the EU would evaluate full implementation in 2006".

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment her Department has made of the state of readiness of *(a)* Bulgaria and *(b)* Romania to join the EU in January 2007. [90769]

Mr. Hoon: Bulgaria and Romania have made considerable progress in their preparations for EU membership. The European Commission report of 16 May 2006 showed in detail where both countries had met EU standards and where they needed to make further progress.

We agree with the Commission's assessment. Particular concerns were raised for both countries regarding corruption, organised crime and agriculture. We hope to see a positive assessment of progress in these areas in the Commission's next report on 26 September and a recommendation that both countries accede to the EU on 1 January 2007.

Iran

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is her policy that the recent Iranian report regarding that country's nuclear programme should be made available to all EU foreign Ministers. [90767]

Dr. Howells: EU High Representative Javier Solana presented Iran with a set of far-reaching proposals on behalf of the 'E3+3' (France, Germany, UK + China, Russia, US) on 6 June 2006. The proposals would give Iran everything it needs to develop a modern civil nuclear power generation industry, and other benefits, while meeting international concerns about Iran's nuclear programme. On 22 August 2006, the Secretary General of Iran's Supreme National Security Council, Ali Larijani, met E3+3 representatives in Tehran. Disappointingly, he did not say that Iran would take the steps required for negotiations to begin, including a full suspension of all uranium enrichment related and reprocessing activities as required by the International Atomic Energy Agency Board of Governors and the UN Security Council. We have briefed our EU partners in detail on Dr. Larijani's comments. EU Foreign Ministers discussed next steps when they met on 1-2 September 2006, and will do so again on 15 September 2006. We continue to urge Iran to take the positive path on offer.

Iraq

Mr. Evennett: To ask the Secretary of State for Foreign and Commonwealth Affairs what action her Department is taking to assist the Assyrian community in Iraq. [90823]

Mr. McCartney: The Government continue to promote the rights and freedoms of minorities in Iraq through their regular contacts with the Government of Iraq, political and religious leaders, including Assyrians, and civil society. We welcome provisions in Iraq's constitution, which guarantee democratic principles and rights and freedoms of all individuals, including the freedom of worship. We continue to encourage the Iraqi Government to ensure these rights are protected and enforced, and we raise with them any issues of concern that come to our attention.

Israel

David Taylor: To ask the Secretary of State for Foreign and Commonwealth Affairs when officials from her Department last discussed the amount of military aid provided to the Israeli Government by the United States since 1979 with their counterparts in the United States Administration; and if she will make a statement. [90945]

Dr. Howells: We frequently discuss Middle East issues with the US Government. The amount of US military assistance to Israel is a bilateral matter between the two Governments.

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs how many hours each week are spent by UK officials in Tel Aviv and Jerusalem monitoring the use of UK exported military equipment; how many officials are involved in this work; and what steps are taken to ensure all equipment is used in conformity with international law. [91008]

Dr. Howells: In common with all of our diplomatic posts, our embassy and consulate officials in Israel and the occupied territories monitor local developments closely, and note any information which comes to light that military equipment supplied by the UK has been used in a manner inconsistent with the Consolidated Criteria. The Government will take this into consideration when assessing any future export licence applications. The Government may also revoke relevant licence(s) and ask the authorities in the country concerned to investigate.

Given the case by case nature of the monitoring work it is not possible to provide accurate figures for the amount of hours and the number of officials involved.

All export licence applications from the UK are rigorously assessed on a case-by-case basis against the Consolidated EU and National Export Licensing Criteria, taking full account of the prevailing circumstances at the time of application.

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions she has had with Israeli officials regarding the use of *(a)* M483A1 Dual Purpose Improved Conventional Munitions and *(b)* other cluster munitions. [91009]

Dr. Howells: All countries must ensure their usage of cluster munitions is consistent with International Humanitarian Law. Our embassy in Tel Aviv has recently sought clarification from the Israeli Government about their current policy on the use of these munitions.

Krishna Maharaj

Peter Bottomley: To ask the Secretary of State for Foreign and Commonwealth Affairs on what occasions in the past two years Krishna Maharaj has had a consular visit; and at which correctional institution in each case. [90831]

Mr. McCartney: A Consular official from our vice-consulate in Orlando last visited Mr. Maharaj at the Columbia Correctional Institute on 8 November 2005. Prior to this he was visited at the Union Correctional Institute on 19 May 2004. We continue to monitor Mr. Maharaj's case closely.

Peter Bottomley: To ask the Secretary of State for Foreign and Commonwealth Affairs if the Government will make representations to the authorities at state and at federal level for steps leading to the ending of the period in prison of Krishna Maharaj in the USA. [90965]

Dr. Howells: The Foreign and Commonwealth Office has already lodged three "amicus curiae" briefs on a point of international law in Mr. Maharaj's case. We understand that Mr. Maharaj still has appeals pending in both state and federal courts. Other than this, we have no remit to interfere in the due judicial process of the United States, either at state or federal level.

Peter Bottomley: To ask the Secretary of State for Foreign and Commonwealth Affairs how long Krishna Maharaj has been incarcerated in the USA. [91040]

Dr. Howells: Krishna Maharaj was arrested on 16 October 1986. On 16 October 2006, he will have been incarcerated for 20 years.

Middle East

Mr. Vara: To ask the Secretary of State for Foreign and Commonwealth Affairs how many civilian British nationals were evacuated from Lebanon during the recent conflict; and how many chose to remain. [90554]

Mr. McCartney: The Foreign and Commonwealth Office (FCO) conducted a phased evacuation of some 4,600 people, of which 2,230 were British passport holders, from Beirut to Cyprus. The remainder were family members of British passport holders and nationals of EU, Commonwealth and other countries. Of the total number, we transported 2,250 from Cyprus to the UK. Many others left Lebanon independently.

Despite a major communication effort through the media, the FCO website and the Know Before You Go Campaign to encourage British nationals to register with our embassy in Beirut, many British nationals in Lebanon chose not to tell the embassy of their presence in the country. We can therefore only estimate that a maximum of 2,000 British nationals remained in Lebanon after our evacuation ended.

Mr. Vara: To ask the Secretary of State for Foreign and Commonwealth Affairs how many civilian British nationals have *(a)* died and *(b)* been injured in the recent Middle East conflict in Israel and Lebanon. [90555]

Mr. McCartney: No deaths or injuries that were directly attributable to the conflict have been reported to our embassy in Beirut. One British national died of natural causes in a hospital in Tyre sometime after it was bombed.

Our embassy in Tel Aviv has reported that a dual British-Israeli citizen was killed serving with the Israeli Defence Forces in Lebanon.

Neither embassy has received reports of injuries to British nationals.

Mr. Vara: To ask the Secretary of State for Foreign and Commonwealth Affairs how many businesses owned by British citizens were damaged in the recent Middle East conflict in Israel and Lebanon. [90556]

Mr. McCartney: The Foreign and Commonwealth Office has not received any reports of British owned businesses that have been damaged.

Mr. Vara: To ask the Secretary of State for Foreign and Commonwealth Affairs what advice and assistance is being given by the British Government to British citizens who have suffered personal or business losses in the recent middle east conflict in Israel and Lebanon. [90557]

Mr. McCartney: We advise British nationals to seek private professional advice to ascertain whether there is any compensation available for their losses and how best to pursue the award of any such compensation.

Mr. Harper: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to her oral answer of 25 July 2006, *Official Report*, column 720, to the hon. Member for Liverpool, Riverside (Mrs. Ellman), on the middle east, what definition she uses of Islamic nation. [90578]

Mr. McCartney: Islamic countries or nations can be defined as those where a majority of the population are Muslims—or a nation that regards itself as Islamic. The Organisation of the Islamic Conference Membership list presents a useful reference point towards defining Islamic nations, since many of those countries regard themselves as such.

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government plan to carry out a review of Israel's compliance with Criterion 2 of the Consolidated EU and National Arms Export Licensing Criteria following the conflict in Israel and Lebanon. [90820]

Dr. Howells *[holding answer 11 September 2006]:* Licence applications are assessed on a case by case basis against the Consolidated EU and National Export Licensing Criteria taking into account prevailing circumstances. Therefore there is in effect a review of compliance each time an application is considered. Where there are concerns about any of the Consolidated Criteria, a licence will not be issued. Should any information come to light that military equipment supplied by the UK has been used in a manner inconsistent with the Consolidated Criteria, the Government will take this into consideration when assessing any future export licence applications. The Government may also revoke relevant licence(s) and ask the authorities in the country concerned to investigate.

Pakistan

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what the current position is with regard to Mr. Ahmed Omar Saeed Sheikh, imprisoned in Pakistan; what involvement the Department has had in this case; and if she will make a statement. [90880]

Mr. McCartney: Omar Sheikh is a British-Pakistani national convicted and sentenced to death for involvement in the murder of the journalist Daniel Pearl. We continue to request consular access to Mr. Sheikh, most recently on 4 August 2006. In response to this latest request, the Sindh Home Minister told the British deputy high commissioner in Karachi to seek the permission of the court to visit Mr. Sheikh. The deputy high commissioner has since written to Mr. Sheikh's lawyers asking for their assistance in requesting the permission of the court.

Palestine

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations she has received on the arrest of Abdel Aziz Dweik; what representations she has made about his arrest; and if she will make a statement. [90595]

Mr. McCartney: We continue to have concerns about the detention of members of the Palestinian Government and Legislature including Palestinian Legislative Council Speaker Abdel Aziz Dweik. My right hon. Friend the Foreign Secretary and EU Foreign Ministers have called for their immediate release. Our Embassy in Tel Aviv has raised the detentions with the Israeli Government.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations she has received about the arrest of Palestinian parliamentarians; what representations she has made about the arrests; and if she will make a statement. [90596]

Mr. McCartney: We continue to have concerns about the detention of members of the Palestinian Government and Legislature. My right hon. Friend the Foreign Secretary and EU Foreign Ministers have called for their immediate release. Our embassy in Tel Aviv has raised the detentions with the Israeli Government.

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what her Department's policy is on *(a)* the United Kingdom and *(b)* the European Union entering into dialogue with Hamas. [90766]

Mr. McCartney: The UK suspended contacts with Hamas in June 2005. At the General Affairs and External Relations Council on 10 April 2006, EU foreign Ministers agreed that there should be no contacts at a political level with the new Hamas led Palestinian Authority Government.

Hamas know what they have to do for the international community to engage with them: renounce violence, recognise Israel and accept previous agreements and obligations, including the Roadmap. Hamas need to start implementing these principles and make clear the path they intend to take.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions she has had with the Israeli Government on the release of the Palestinian Members of Parliament taken prisoner by the Israeli military. [90838]

Mr. McCartney: We continue to have concerns about the detention of members of the Palestinian Government and Legislature. My right hon. Friend the Foreign Secretary and EU Foreign Ministers have called for their immediate release. Our embassy in Tel Aviv has raised the detentions with the Israeli Government.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions she has had with the Palestinian Government with respect to its needs in ensuring safety and prosperity for its people. [91075]

Dr. Howells: The UK suspended contacts with Hamas in June 2005. My right hon. Friend the Foreign Secretary has therefore had no discussions with the Hamas-led Palestinian Authority (PA) Government.

We have continued to stay in regular contact with the President of the PA, Mahmoud Abbas. Most recently my right hon. Friend the Prime Minister met with President Abbas on 10 September during his visit to the Middle East when of course the safety and prosperity of the Palestinian people was a central theme to their discussions.

We have been working for some time with the PA to improve the security apparatus in the West Bank and Gaza, through technical assistance and provision of equipment. We co-ordinate our work with US Security Co-ordinator General William Ward's team to assist the PA in consolidating and expanding their efforts on security. We are also working closely with EU partners on a significant assistance project for Palestinian civil policing.

The Government are committed to continue helping the Palestinian people. With a range of partners, we have worked hard to establish the "Temporary International Mechanism" which has been drawn up to provide needs-based assistance directly to the Palestinian people, without the need to channel funds through the Hamas-led Palestinian Government. The UK will contribute up to £12 million to the mechanism. Additionally, the Government announced on 25 April 2006 a UK contribution of £15 million to support the work of the United Nations Works and Relief Agency for Palestinian Refugees in the Middle East, which supports Palestinian refugees throughout the region, including in Israel and Lebanon. The UK has a strong record of support for the Palestinian people. Since 2001, we have provided £147 million, in addition to our contributions through the EU, which is the biggest donation to the Palestinian people.

Pascua Lama Mine Project

Kerry McCarthy: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions her Department has had with *(a)* Chile and *(b)* Argentina on the Pascua Lama open-cast mine project. [90621]

Mr. Hoon: We have not had any specific discussions with the Chilean or Argentine Governments on the Pascua Lama open-cast mine project. We do, however, have a strong and continuing dialogue with both Governments on environmental issues, which includes regular contact with local mining authorities.

Qualified Majority Voting

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is the Government's policy to support the extension of qualified majority voting in the EU in the field of police and home affairs. [90765]

Mr. Hoon: The Government are giving careful consideration to the proposals contained in the Commission's Communication "Implementing the Hague Programme: the Way Forward". We welcome efforts to take forward EU work in the Justice and Home Affairs field. In that context, the Finnish presidency have proposed discussion on the use of the Article 42 'passerelle', one consequence of which could be the application of qualified majority voting to some parts of EU police and judicial co-operation. We will need to be satisfied that any proposals would genuinely improve the decision making process, and that such a move would be in the UK's national interest.

Saudi Arabia

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs what assurances she has sought from the Saudi Arabian Government that the use of Eurofighter jets due to be exported to Saudi Arabia will be in compliance with international law. [90818]

Mr. McCartney: Any export of military equipment to Saudi Arabia will require an export licence. All export licence applications are assessed on a case by case basis against the Consolidated EU and National Export Licensing Criteria including Criteria 6—the behaviour of the buyer country, including respect for international law. A licence will not be issued if to do so would be inconsistent with the criteria.

Sri Lanka

Mr. Pelling: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government have taken since 25 July to encourage positive dialogue between warring parties in Sri Lanka. [90566]

Mr. McCartney: Throughout the serious deterioration in the security situation over recent months we have made clear in meetings at the highest levels with the Government of Sri Lanka and also to political representatives of the Liberation Tigers of Tamil Eelam (LTTE) in Sri Lanka, our serious concern at the escalation in violence. We have urged all parties to show restraint. We participated in an EU démarche in August to the Sri Lankan Foreign Minister about the deteriorating security and humanitarian situation. Foreign and Commonwealth officials also met the leader of the Sri Lankan opposition (United National Party) and stressed the importance of political consensus in working towards a solution that satisfies the concerns and legitimate aspirations of all Sri Lankans. We are in close contact with the Government of Norway and continue to underline to both sides our full support for their efforts as peace process facilitators.

President Rajapakse, Foreign Minister Samaraweera and senior Sri Lankan officials met my right hon. Friend the Prime Minister at Chequers on 31 August. The talks focused on the internal security situation in Sri Lanka and the state of the peace process.

Simon Hughes: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the UK Government are taking to assist the Government and people of Sri Lanka *(a)* to achieve a lasting internal peace agreement and *(b)* to promote civil and political rights for all citizens. [91099]

Dr. Howells: Throughout the escalation in violence over recent months we have made our concerns clear in meetings at the highest levels, with the Government of Sri Lanka and also with political representatives of the Liberation Tigers of Tamil Eelam. President Rajapakse, Foreign Minister Samaraweera, and senior Sri Lankan officials met my right hon. Friend the Prime Minister at Chequers on 31 August 2006. The talks focused on the internal security situation in Sri Lanka and the state of the peace process. We are also in close contact with the Government of Norway as the peace process facilitators and we make clear to both sides our full support of their efforts.

We have been deeply concerned following the reports of the Sri Lankan Monitoring Mission, the International Commission of Jurists, about the deteriorating human rights situation in the North and East. Any abuse is to be deplored. We welcome President Rajapakse's proposal to,

"invite an international independent commission to probe abductions, disappearances and extra-judicial killings in all areas of the country".

We agree with the statement of the United Nations Special Rapporteur, on extra-Judicial killings, Philip Alston that the commission must be independent, credible and effective and that the advice of the United Nations Commissioner for Human Rights would facilitate the establishment of such a commission.

Visas

Damian Green: To ask the Secretary of State for Foreign and Commonwealth Affairs how many applications for visitors' visas from *(a)* Australia, *(b)* Canada and *(c)* South Africa were refused between (i) January and June 2004, (ii) January and June 2005 and (iii) January and June 2006. [91043]

Dr. Howells: The information requested by the hon. Member is provided in the following tables:

Visitor applications for Australia, Canada and South Africa with the refusals

	Visitor (including family visits)					
	Australia		*Canada*		*South Africa*	
	Received	*Refused*	*Received*	*Refused*	*Received*	*Refused*
April 2004—March 2005[1]	2,282	30	13,650	155	4,834	2,077
January 2005—June 2005	1,238	13	5,430	31	1,889	816
January 2006—June 2006	1,234	30	4,744	135	2,103	835

	Visitor (excluding family visits)					
	Australia		*Canada*		*South Africa*	
	Received	*Refused*	*Received*	*Refused*	*Received*	*Refused*
April 2004—March 2005[1]	2,065	29	10,358	115	3,515	1,543
January 2005—June 2005	1,089	13	2,795	23	1,351	557
January 2006—June 06	1,074	28	2,287	85	1,525	554

Note:
These figures have not been published and should only be used for information. Please note that during 2004-05, only family visits were recorded by month, not visits. Therefore the annual figures published for financial year 2004-05 has been stated.

Zimbabwe

Bob Russell: To ask the Secretary of State for Foreign and Commonwealth Affairs if she will investigate claims that women deported from the UK to Zimbabwe have been attacked and sexually abused after returning to Zimbabwe. [90681]

Mr. McCartney: We take allegations of abuse in Zimbabwe extremely seriously. We have therefore put in place enhanced monitoring procedures, including an agreement with the International Organisation for Migration, to monitor the treatment of immigration offenders who have returned from the UK to Zimbabwe. In their 2 August determination, the Asylum and Immigration Tribunal found that returnees are not at real risk of mistreatment on return to Zimbabwe by virtue of being returned from the UK. If the hon. Gentleman has any new evidence of such attacks or abuse, we would be grateful if he could pass it to us.

We are concerned about the broader human rights situation in Zimbabwe and take this up with the Government of Zimbabwe, directly and together with our international partners.

TRADE AND INDUSTRY

Arms Trade

Andrew Stunell: To ask the Secretary of State for Trade and Industry what initiatives he is pursuing for improved control of *(a)* licensed production and *(b)* brokerage of arms for export; and if he will make a statement. [90938]

Margaret Hodge: The Government believe that the legislation implemented under the Export Control Act 2004, in respect of trafficking and brokering and licensed production, is efficient and effective. However, I am planning next year to review the export controls introduced in 2004. This will enable the Government to gauge their continuing effectiveness including in relation to licensed production and trafficking and brokering.

Nick Harvey: To ask the Secretary of State for Trade and Industry what export licences to Israel were refused on the ground of *(a)* aggressive use, *(b)* contribution to regional conflict, *(c)* human rights abuses and *(d)* internal repression in each of the last 10 years; and if he will publish the information held by his Department on the use of UK military equipment by Israel in the occupied territories in that period. [91012]

Margaret Hodge: The Government publish details of refused export licence applications by destination, and the main reasons for their decisions, in their annual and quarterly reports on Strategic Export Controls. The Government's annual reports are available from the Library of the House, and the quarterly reports from the DTI Export Control Organisation website at http://www.dti.gov.uk/europeantrade/strategic-export-control/index.html.

The Department does not hold information on the use of UK military equipment abroad.

Auditing

Mr. Djanogly: To ask the Secretary of State for Trade and Industry (1) what plans the Government have to introduce more competition and choice into the UK audit market; [90647]

(2) what assessment the Government have made of the Joint Audit System of Company Auditing. [90648]

Margaret Hodge *[holding answers 11 September 2006]:* The Financial Reporting Council are leading a public debate on competition and choice in the provision of audit services following the publication in April of a report analysing this market. This report was jointly sponsored by the Council and the Department and the Government are following the current debate closely. That debate will inform future discussions about what actions or changes might be desirable in order to promote competition and choice in the market. The Financial Reporting Council have just published a summary of the debate so far.

It is possible under UK law to appoint joint auditors, and it is for companies to make that decision should they want to do so in the light of their needs and circumstances. I understand that the joint auditing approach has also been raised, in the responses received by the Financial Reporting Council, as one possible route to greater competition and choice in the audit market.

Citizens Advice Bureaux

Ben Chapman: To ask the Secretary of State for Trade and Industry if he will bring forward proposals to fund Citizens Advice Bureaux directly. [90862]

Margaret Hodge *[holding answer 11 September 2006]:* The Department does not fund Citizens Advice Bureaux and will not consider doing so in the future.

However, the Government recognise that the advice sector plays an import role, particularly in disadvantaged communities. All potential advice providers can bid for a share of any special time-limited grants for which DTI is responsible. For example some Citizens Advice Bureaux are included in the partnerships that gained grants awarded by my Department from the financial inclusion fund, over a two-year period, for providing face-to-face debt advice.

Cluster Munitions

Nick Harvey: To ask the Secretary of State for Trade and Industry whether the UK plans to evaluate the operational failure rates of cluster munitions used by Israel that the UK also holds in stock. [90816]

Dr. Howells *[holding answer 11 September 2006]:* I have been asked to reply.

No decision has been taken on this yet. We need reliable statistics on Israel's use of cluster munitions in Lebanon before we can make an informed assessment of operational failure rates.

Companies Bill

Mr. Djanogly: To ask the Secretary of State for Trade and Industry which organisations the Government have contacted in its latest consultation on the Companies Bill. [90646]

Margaret Hodge *[holding answer 11 September 2006]:* The Department invites comment from organisations and individuals who have expressed an interest in being kept informed on matters relating to the Companies Bill, and also publishes material on its website (www.dti.gov.uk). Recently, this has included a paper on the application of the Bill to existing companies. DTI officials contacted over 170 organisations and over 120 private individuals to invite representations in writing and will be meeting with a wide range of organisations. A list of the organisations that were contacted has been placed in the Library of the House.

Company Directors

Mr. Djanogly: To ask the Secretary of State for Trade and Industry whether the Government plan to publish a non-statutory set of guidelines on the duties and responsibilities of company directors. [90649]

Margaret Hodge *[holding answer 11 September 2006]:* The Government recognise that it is important that the law in relation to the duties and responsibilities of company directors is accessible and widely understood. They therefore intend to publish plain language guidance on the duties and responsibilities of directors as part of their implementation of the Companies Bill, including the general duties under part 10 of the Bill.

Consumer Protection

Mr. Truswell: To ask the Secretary of State for Trade and Industry what representations he has received on the Unfair Commercial Practices Directive; and what assessment he has made of the effects of the implementation of the directive on the powers available to consumer protection agencies. [90926]

Jim Fitzpatrick: The DTI has held two public consultations on the Unfair Commercial Practices Directive. The most recent, in December 2005, received 69 formal responses including responses from: consumer bodies, business and business organisations, trading standards departments, regulators, professional institutions and academics. A summary of these is on the Department's website. The DTI also held a number of workshops before and during the consultation process with consumer groups, enforcers and business representatives. It has also held numerous public presentations. In addition, the Department recently received eight letters from Members of Parliament and another from a local government central body that advises and supports local authority regulatory services.

Implementation of the directive is overseen by a project board that includes representatives from the enforcement community. It is also informed by a

stakeholder board consisting of representatives from business and consumer groups and enforcement authorities.

In light of comments received, the Government are still considering how best to implement the directive. Yet implementation offers an opportunity to enhance the powers available to enforcement authorities. Options include: retaining existing criminal offences and investigative powers; and extending these to the new protections contained in the directive. Such powers might also, for the first time, be made available to a national consumer protection body, the Office of Fair Trading. The Government will clarify their intentions when they publish the response to the consultation paper.

Correspondence

Mr. Winnick: To ask the Secretary of State for Trade and Industry if he will provide a corrected reply to the letter of 12 July 2006 from the hon. Member for Walsall, North regarding a constituent, ref AE/587654. [90636]

Margaret Hodge *[holding answer 11 September 2006]:* A corrected reply was sent on 22 August. I am sorry the wrong response was sent previously.

Energy Efficiency

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what steps are being taken towards making the operation of the Department carbon neutral. [90616]

Margaret Hodge *[holding answer 11 September 2006]:* The DTI is committed to energy efficiency targets and reduction in carbon emissions as set out in the "Framework for Sustainable Development in Government".

Over the past two years the Department has reduced its London HQ estate by over 30 per cent. with a corresponding reduction in all the associated environmental impacts. More efficient use has been made of existing accommodation and the Department has adopted flexible desking on the basis of eight workstations for every 10 staff.

Other carbon reduction initiatives include purchasing nearly a third of our electricity from renewable sources between 1999-2000 and 2004-05. We want to purchase more "green" electricity and are considering other renewable sources.

Eurofighter

Nick Harvey: To ask the Secretary of State for Trade and Industry what resources in *(a)* time and *(b)* personnel were devoted to (i) assessing and (ii) facilitating the recent licence application for Eurofighter jets to be exported to Saudi Arabia. [90819]

Margaret Hodge: Export Licence applications are made to the Government in confidence and the information they contain is exempt from disclosure. For this reason the Government can neither confirm nor deny whether any such export licences have been received.

Given the complexity of the application assessment process, and the number of Departments involved, it would not in anyway be possible to calculate the staff time spent on any individual application. However, by way of general background, the Export Control Organisation currently has 73 staff responsible for processing export licence applications. In addition, staff in a number of other Government Departments, including the Foreign and Commonwealth Office, the Ministry of Defence and, where appropriate, the Department for International Development, are involved in the assessment process. The Government processed 9062 applications in 2005.

Export Control Act

Nick Harvey: To ask the Secretary of State for Trade and Industry pursuant to his answer on 4 May 2006, *Official Report*, column 1751W, on the Export Control Act, when he plans to produce and publish the terms of reference for the planned review; how many members of staff within the Export Control Organisation will be involved; which independent parties will be consulted; and what the planned *(a)* start and *(b)* end date is for the review. [90817]

Margaret Hodge *[holding answer 11 September 2006]:* As indicated in my response to the hon. Gentleman's question of 4 May 2006, *Official Report*, column 1751W, it is my intention to start the review of the regulations introduced under the Export Control Act after they have been in force for three years i.e. from May 2007. I have yet to decide the details of the review. There will be a public consultation. The review will involve a range of staff from across the Export Control Organisation and its advisory departments, but it is not possible to say precisely how many.

Import Licences

Susan Kramer: To ask the Secretary of State for Trade and Industry what import licences have been issued since 2003 for small arms and light weapons from *(a)* Serbia and Montenegro, *(b)* the former Yugoslav Republic of Macedonia, *(c)* Romania, *(d)* Ukraine, *(e)* Albania, *(f)* Bulgaria, *(g)* Croatia and *(h)* Kosovo to the UK; and what quantity of goods was allowed by each licence. [90780]

Margaret Hodge *[holding answer 11 September 2006]:* Details of import licences issued from 1 January 2005 that would allow the import from (a) Serbia and Montenegro (SM), *(b)* the former Yugoslav Republic of Macedonia (MK), *(c)* Romania (RO), *(d)* Ukraine (UA), *(e)* Albania (AL), *(f)* Bulgaria (BG), *(g)* Croatia (HR) and *(h)* Kosovo (XK) of small arms and light weapons (as defined by the Organisation for Security and Cooperation in Europe) are listed. Similar lists for 2003 and 2004 could be drawn up in the time available only at disproportionate costs.

The list is divided into those licences for which the applicant has provided a specific country of consignment and those licences where the applicant has simply stated that the goods are consigned from any country except a member state of the European Union. The code for the latter licences is "AY".

	Import licences issued from 1 January 2005 to date
AY	4 x DLASK Arms M4 5.56 calibre
AY	60 x Pistols
AY	50 x Handguns / machine pistols / silencers
AY	45 x Shotguns / 5 x silencers
AY	45 x Assorted prohibited weapons
AY	500 x Assorted prohibited firearms and component parts
AY	6,380 x Assorted prohibited firearms
AY	358,725 x Assorted prohibited weapons
AY	500 x Weapons and ammunition—Sections 5(1)(c) and 5(1A)(b) of the Firearms Act 1968, as amended
AY	5,000 x Automatic weapons of all types
AY	1,000 x Semi-automatic rifles and carbines
AY	200 x Short-barrelled shotguns
AY	50 x Rocket launchers, grenade launchers or mortars
AY	2,000 x Handguns
AY	12 x Weapons under Section 5(1)(a) / 12 x Section 5(1)(ab) / 12 x weapons under Section 5(1)(aba)
AY	100,000 x Weapons under Section 5(1)(a) / 50,000 x weapons under 5(1)(ab)
AY	500 x Assorted prohibited firearms and component parts
AY	47,800 x Assorted prohibited firearms and component parts
AY	40 x Handguns / 5 x machine pistols / 5 x silencers
AY	45 x Shotguns / 5 x silencers
AY	No more than 45 in total x submachine guns, light machine guns, medium machine guns, heavy machine guns, automatic cannons, assault rifles/carbines, self-loading rifles, self-loading rifles/carbines, automatic rifles/carbines, pump action rifles/carbines
AY	Unlimited assorted prohibited firearms
AY	6,470 x Assorted prohibited firearms
AY	100 x Handguns
AY	358,725 x Assorted prohibited weapons
AY	500 x Automatic weapons of all types
AY	1,000 x Semi-automatic rifles and carbines
AY	200 x Short-barrelled shotguns
AY	50 x Rocket launchers, grenade launchers or mortars
AY	2,000 x Handguns
AY	36 x Assorted prohibited weapons
AY	20,450 x Assorted prohibited weapons
AY	47,800 x Assorted prohibited firearms and component parts
AY	1,000 x Assorted prohibited firearms and component parts
AY	No more than 13,000 in total x weapons under Sections 5(1)(a), 5(1)(ab), (ac) and (ae) / 1,300 x weapons under Section 5(1)(b) / 500 x weapons under Section 5(1)(aba) / 25,000 x weapons under Sections 5(1)(c), 5(1A)(d) and 5(1A)(e)

	Import licences issued from 1 January 2005 to date
AY	10 x .223 semi-automatic rifles/carbines
AY	110 x Lightweight multiple launchers / 10 x vehicle missile launchers / 75 x automatic, semi-automatic rifles, Carbines / 25 machine guns / 15 grenade launchers / 2 x drill anti-tank weapons / 500 x shoulder launch aiming units
AY	No more than 500 in total x prohibited weapons and prohibited ammunition
AY	5,000 x Automatic weapons of all types
AY	1,000 x Semi-automatic (self-loading) rifles and carbines of all types
AY	200 x Short-barrelled shotguns fed by slide, pump or lever action or by self-loading mechanism
AY	50 x Rocket Launchers, grenade launchers or mortars of all types
AY	2,000 x large and small calibre pistols and revolvers (handguns) of all types
AY	100 x pistols under Section 5(1)(aba)
AY	No more than 10,000 x weapons under Section 5(1)(a) / 600 x 5(1)(ab) / 6000 x weapons under Section 5(1)(aba) / 100 x weapons under Section 5(1)(ac) / 3,000 x weapons under Section 5(1)(ae)
AY	No more than 10,000 x weapons under Section 5(1)(a) / 600 x weapons under Section 5(1)(ab) / 6,000 x weapons under Section 5(1)(aba) / 100 x weapons under Section 5(1)(ac) / 3,000 x weapons under Section 5(1)(ae)
AY	No more than 75 x medium machine guns, submachine guns, light machine guns, heavy machine guns, automatic cannon, cannon, assault rifles/carbines, self-loading rifles/carbines, automatic rifles/carbines, pump action rifles/carbines
AY	60 x Handguns (Cal. 2mm-27mm/.172-1")
AY	45 x Shotguns (pump, revolver, semi-automatic, automatic)
AY	No more than 45 shotguns in total of the following types: pump, revolver, semi-automatic, automatic
AY	No more than 75 x medium machine guns, submachine guns, light machine guns, heavy machine guns, automatic cannon, cannon, assault rifles/carbines, self-loading rifles/carbines, automatic rifles/carbines, pump action rifles/carbines
AY	10 x Derringer, 30 x handguns, 5 x machine pistols
AY	12 x Weapons under Section 5(1)(a) / 12 x weapons under Section 5(1)(ab) / 12 x weapons under Section 5(1)(aba)
AY	No more than 200 x weapons under Section 5(1)(a), 5(1)(ab), 5(1)(ac), 5(1)(ad), 5(1)(ae) and 5(1A)(c) / No more than 150 x weapons under Section 5(1)(aba)
AY	No more than 10,000 x weapons under Section 5(1)(a) / 600 x weapons under Section 5(1)(ab) / 6,000 x weapons under Section 5(1)(aba) / 100 x weapons under Section 5(1)(ac) / 3,000 x weapons under Section 5(1)(ae) / 750 x anti-riot guns / 600,000 component parts for weapons under Section 5(1)(a) and 5(1)(aba) / 700,000 rounds of ammunition under Section 5(1A)(e)
AY	No more than 10,000 x weapons under Section 5(1)(a) / 600 x weapons under Section 5(1)(ab) / 6,000 x weapons under Section 5(1)(aba) / 100 x weapons under Section 5(1)(ac) / 3,000 x weapons under Section 5(1)(ae) / 750 x anti-riot guns / 600,000 component parts for weapons under Section 5(1)(a) and 5(1)(aba) / 700,000 rounds of ammunition under Section 5(1A)(e)
AY	6,300 x 9mm pistols / 90,000 x rounds of 12.7mm ammunition
AY	90 x 12.7mm machine guns / 85 x 7.62mm machine guns / 12 x 7.62mm sniper rifles
AY	Unlimited grenade launchers, anti-tank weapons, helicopter mounted missile launchers, air-to-air missiles, surface-to-air missiles, anti-tank missiles, shoulder launch aiming units and practice missiles

Import licences issued from 1 January 2005 to date

AY	2 x Anti-tank weapons, 5 x close air defence missiles, 2,000 x anti-tank missiles, 500 x shoulder launch aiming units, 200 x surface-to-air missiles, 200 x practice missiles, 88 x helicopter mounted missile launchers, 100 x air-to-air missiles, 110 lightweight multiple launchers, 500 x shoulder launch anti-armour missiles, 40 x vehicle missile launchers, 2,600 x close air defence missile, 220 air-to-ground anti-armour missiles, 20 x disarmed sectioned missiles, 75 x automatic/semi-automatic rifles, 25 x machine guns, 15 x grenade launchers
BG	200 x Shoulder launcher rockets
BG	136 x Rocket propelled grenades / 3 x launchers
BG	1 x Machine gun / 1 x submachine gun
BG	200 x Shoulder launcher rockets
BG	500 x Shoulder launched rockets
BG	500 x Shoulder launched rockets
BG	10 x 5.56x45mm "Arsenal" assault rifles
HR	1,500 x Machine guns, assault rifles and submachine guns
HR	5,000 x Component parts for Section 5(1)(a)
HR	500 x Rocket launchers / 3,000 mortars
HR	10,000 x Various machine guns / 2,500 various submachine guns
HR	40,000 x Assault rifles
HR	100 x Anti-aircraft systems
HR	100 x Rocket launchers
HR	20,000 x AK47 assault rifles
RO	2 x M16 A2 assault rifles / 4 x M16MA4 assault rifles / 2 x Berettas / 1 x sniper rifle / 1 x Minimi machine gun
RO	1 x Pump action shotgun / 2 x handguns
RO	5 x Handguns / 1 x automatic rifle / 6 x bolt action single shot rifles
RO	2 x H&K submachine guns / 5 x semi-automatic pistols / 1 x pump action shotgun
RO	2 x MP5 submachine guns / 2 x UZI 9mm pistols / 1 Beretta 9mm submachine gun
RO	1 x Walther PPK 1 x Glock 17 pistol / 2 x Colt 1911 pistols / 2 x H&K MPSKs
RO	25 x RPG-7 rocket launchers / 25 x RPG-7 rocket launchers (paratrooper) / 25 x SVD 7.62x54 rifles
RO	30 x AKM rifles / 50 x Dragunov 7.62x54 rifles / 6 x PKM machine guns / 15 x RPG-7 rocket launchers / 110 x RPG-7 rocket launchers Commander 5 / 1 x 60mm mortar / 1 x 81mm mortar / 1 x 120mm mortar
SM	200 x Signal pistols / 50 machine guns
SM	1 x Zastava M21 automatic rifle
SM	600 Machine guns
SM	1 x PKT machine gun / 2 x AKM assault rifles
SM	5 x German MG42 light machine guns 7.92mm and 20 x spare barrels for same / 3 x German MG34 light machine guns 7.92mm and 20 x spare barrels for same
SM	8 x Czech VZ27 7.65mm pistols / 9 x Belgian 1910/22 7.65mm pistols / 1 x German 7.65mm Mauser pistol / 1 x Polish Radom P-35 9mm pistol / 2 x German P-38 9mm pistols
SM	50 x .50 CAL Browning M2HB / 200 x PPSH41 7.62 submachine guns / 100 x MG42 7.92 light machine guns / 20 x DP26 7.92 light machine guns
UA	100 x Pistols / 580 x carbines
UA	1,000 x Submachine guns
UA	820 x Handguns / 400 x SVT 40 rifle
UA	400 x 7.62mm SVT-40 rifles / 160 x 7.92mm Mausers K-98 / 84 x 7.92mm MG34 / 32 x 7.92mm MG42 / 400 x 11.43mm Thompson submachine guns
UA	1,000 x 7.92mm Mauser K-98 / 500 x 7.62mm TT Pistol / 400 x 11.43mm Thompson submachine guns / 130 x 7.26mm Maxim machine gun
UA	1,000 x 7.92mm MG34 / 1,000 x 9mm Walther P-38 / 1,000 x 11.43mm Thompson submachine guns
XK	4 x laser emitting training weapons

Korea

Dr. Kumar: To ask the Secretary of State for Trade and Industry how much the Department spent in each of the last five years building links between the UK and Korea with a focus on *(a)* engineering, *(b)* science and technology and *(c)* innovation. [79328]

Jim Fitzpatrick: The majority of the Department's expenditure on these subjects is allocated from the Science Budget to the UK Research Councils. In turn, the UK Research Councils allocate the majority of their funds in a "bottom-up" mode responding to the demand of the science community and making funding decisions on quality rather than international geographic focus. It is therefore not possible to provide exact figures on spending which relates to collaboration with Korea. However, there is active collaboration, supported by the Research Councils, in wide range of areas—including genome work, nano and bio-nanotechnology, sustainable development and energy technologies, ICT and mobile technologies and space science.

The Office of Science and Innovation does have specific schemes to support links between UK and Korea in these areas which are administered by the Royal Society and which cost £400,000 from 2001-02 to 2005-06.

National Consumer Council

Mr. Duncan: To ask the Secretary of State for Trade and Industry (1) when the budget of the National Consumer Council for 2006-07 will be finalised; and if he will make a statement; [91095]

(2) what the National Consumer Council's budget will be for 2006-07. [91096]

Jim Fitzpatrick: Due to the tight budgetary position this year it has taken longer than usual for the Department to set definitive budgets in all areas. The Department has now completed the exercise for prioritising our budget across objectives, and is working out 2006-07 final budgets for the individual recipients.

In the case of the National Consumer Council, their budget includes funds from other sources as well as the Department. We will not settle the exact expenditure limit that we will apply to the Council until later this month.

Pressure Reduction Installation

Mr. Harper: To ask the Secretary of State for Trade and Industry what assessment he has made of the safety of the proposed pressure reduction installation at Corse, Gloucestershire which is part of the Milford Haven to Tirley gas pipeline. [90579]

Jim Fitzpatrick *[holding answer 11 September 2006]:* None. The application for the pressure reduction installation at Corse falls on the local planning authority to determine under the Town and Country Planning Act 1990.

Scientific Publication System

Mr. Grogan: To ask the Secretary of State for Trade and Industry what response he has made to the European Commission Study addressing Europe's scientific publication system; and if he will make a statement. [90746]

Margaret Hodge: The Department hosted a presentation by the authors of the study on the economic and technical evolution of the scientific publications markets in Europe. The presentation was attended by key stakeholders and representatives of the UK research publications community, and provided an opportunity for them to express views on the recommendations.

I am considering the recommendations of the Study and intend to send a response to the European Commission in due course.

Service Sector

Mr. Gauke: To ask the Secretary of State for Trade and Industry what recent discussions *(a)* he and *(b)* his officials have had with trade union representatives on the impact of globalisation on service sector jobs in the UK. [90587]

Jim Fitzpatrick: My right hon. Friend the Secretary of State for Trade and Industry and his officials regularly meet union representatives to discuss a number of issues including the effects of globalisation.

Mr. Gauke: To ask the Secretary of State for Trade and Industry what assessment the Department has made of the impact of globalisation on service sector jobs in the UK. [90588]

Margaret Hodge *[holding answer 11 September 2006]:* In December 2003 the Department published a consultation document "Services & Offshoring: the Impact of International Competition in Services" which set out some of the possible impacts of offshoring on the UK services sector. This was followed by the 2004 DTI White Paper "Making Globalisation a Force for Good" and the accompanying DTI Economics paper "Liberalisation and Globalisation: Maximising the Benefits of International Trade and Investment". The conclusion was that globalisation should be positive for the UK economy in the long run, while acknowledging possible job losses in the short term.

The DTI has also commissioned and published studies of the impact of globalisation on UK contact centres and the UK software and IT services sector. These are available on the DTI website.

UN Conference on Trade and Development

Mr. Clifton-Brown: To ask the Secretary of State for Trade and Industry what assessment he has made of *(a)* the UN Conference on Trade and Development annual report and *(b)* its assessment of the Japanese and German trade surpluses. [90899]

Margaret Hodge: We welcome UNCTAD's annual report, which is broadly consistent with the UK's position on trade and development set out in the 2004 Trade and Investment White Paper "Making Globalisation a Force for Good".

We share the concern that global imbalances may present a risk to world growth. However Germany and Japan's surpluses have been a long-standing feature of a growing and evolving world economy.

TREASURY

Arms Exports Controls

Susan Kramer: To ask the Chancellor of the Exchequer pursuant to the answer of 22 March 2006, *Official Report*, column 426W, on arms exports controls, what estimate he has made of the number of unreported breaches of arms export controls. [90915]

John Healey: HMRC does not make systematic assessments of unreported breaches of arms export controls. However, HMRC does undertake risk-testing exercises that support our assessment that there is not widespread abuse of export controls and that UK exporters are broadly compliant.

Susan Kramer: To ask the Chancellor of the Exchequer pursuant to the answer of 22 March 2006, *Official Report*, column 426W, on arms exports controls, what assessment he has made of the reason for the decline in the number of reported breaches of strategic export controls since 2000. [90916]

John Healey: HM Revenue and Customs consider there to be a number of factors contributing to the decline in the number of reported breaches of strategic export controls since 2000. Firstly, at that time a large number of breaches related to trade sanctions on Angola and Iraq—these sanctions no longer apply. Secondly, controls on the export of off-road vehicles to the former Yugoslavia were discontinued in 2002. HMRC also assess that there is increased exporter compliance. Since 2000 the DTI, supported by HMRC and other Government Departments, have been very active in running national and regional seminars to increase exporter awareness of the controls. Additionally, DTI and HMRC supported a series of regional seminars run by the Defence Manufacturers Association prior to the introduction of the new Orders under the Export Control Act 2002.

Susan Kramer: To ask the Chancellor of the Exchequer pursuant to the answer of 22 March 2006, *Official Report*, column 426W, on arms exports controls, what offence was committed in respect of each prosecution for breaches of strategic export controls since 2000 where proceedings are complete; and what punishment was imposed in each case. [90917]

John Healey: The details are provided in the following table:

	Offence committed	*Punishment imposed*
2001-02	Knowingly breaching the prohibition on the export of aluminium and other WMD related items to Pakistan	12 months imprisonment suspended for 2 years
2003-04	Exporting aluminium to Pakistan without a licence	Fined £1,000
2004-05	Knowingly breaching the prohibition on the export of aircraft parts to Iran without a licence	18 months imprisonment suspended for 2 years; banned from being company director for 10 years; and asset forfeiture order for £69,980
2005-06	Exporting body armour to Kuwait, Iraq, Saudi Arabia without a licence	Fined £10,000 plus £500 costs
2006-07	Exporting 3 consignments of body armour and helmets to Kuwait and Iraq during 2004 without a licence	Fined £10,000 plus £1600 costs
	Exporting 10 consignments of military helmets and flak jackets to Kuwait for exporting to Iraq without a licence	Fined £8,000 plus £500 costs

Breast Feeding

Mr. Hollobone: To ask the Chancellor of the Exchequer if he will discuss with *(a)* the Department of Health and *(b)* the Department for Work and Pensions the construction of fiscal incentives to promote breast feeding in the first six months of a baby's life. [90761]

Ed Balls: The Government recognises breastfeeding as the best form of nutrition for infants. Departments will continue to keep under review policies to promote healthy outcomes for infants.

The new Healthy Start scheme, that replaces the Welfare Food Scheme, provides for the first time equal benefits for both breastfeeding and bottlefeeding mothers.

Infant formula is the sole source of nutrition for those infants who are not breastfed and it is therefore vital that this product is available at an affordable price. The Government recognise that women have a choice in how they feed their infant and seek to maximise nutritional outcomes for all infants.

While the Government keeps all taxes under review, it is important to remember that there are other factors unrelated to price that will determine whether a mother chooses to breastfeed.

Cash Machines

Ben Chapman: To ask the Chancellor of the Exchequer what assessment he has made of Citizens' Advice's evidence to his Department on fee-charging cash machines. [90854]

Ed Balls: The Government take very seriously the issue of free access to cash, especially for those on low incomes. In July this year, the Citizens Advice Bureau published survey evidence on cash machine charging, titled "Out of Pocket". The working group on ATMs, chaired by my right hon. Friend the Member for Dunbartonshire, is looking at evidence from a range of stakeholders on the location and growth of free and surcharging ATMs, in order to reach a shared analysis on this issue. The Government look forward to seeing the recommendations of the ATM working group later in the year.

Ben Chapman: To ask the Chancellor of the Exchequer if he will work with the banking industry to raise the proportion of cash machines not charging a fee. [90859]

Ed Balls: The Government take seriously the issue of free access to cash, especially for those on low incomes. According to the latest figures from LINK, there are now more than 33,000 free ATMs in the UK, accounting for 96 per cent. of withdrawals made at ATMs. In the first quarter of 2006, there was a net increase of over 100 free ATMs.

The working group on ATMs, chaired by my right hon. Friend the Member for Dunbartonshire , is expected to look at the evidence on the location and growth of free and surcharging ATMs, in order to reach a shared analysis on this issue. The Government look forward to seeing the recommendations of this group later in the year.

CHIEF Computer System

Dr. Cable: To ask the Chancellor of the Exchequer what assessment has been made of the impact on private sector service providers of HM Revenue and Customs service helping importers and exporters to supply information to the CHIEF computer system. [90641]

John Healey: The CHIEF system has been HM Revenue and Customs' primary system for processing customs declarations on imports and exports since 1994. HM Revenue and Customs provide a variety of electronic communications channels to enable importers and exporters to make customs declarations to the CHIEF service.

HMRC have an extensive and ongoing consultation process with stakeholders including importers, exporters, software suppliers, community service providers, logistics operators and freight carriers to help understand the full impact of all potential changes relating to the provision of information to the CHIEF service. Where appropriate, full regulatory impact assessments are carried out on proposed changes to the system.

Correspondence

Mr. Winnick: To ask the Chancellor of the Exchequer when he expects to reply to the letter from the hon. Member for Walsall, North of 3 August 2006, regarding a constituent, reference 5/01238/2006. [90964]

Ed Balls: I have replied to my hon. Friend.

Departmental Capability Review

Mr. George Osborne: To ask the Chancellor of the Exchequer when the departmental capability review for HM Treasury will be published. [90597]

Ed Balls: Any announcement on the Treasury's participation in the departmental capability review will be made in due course.

Departmental Contracts

Mr. Duncan: To ask the Chancellor of the Exchequer what the value is of his Department's contracts with *(a)* ER Consultants and *(b)* Praesta in each of the last three years; and which Ministers have made use of the services in each case. [90783]

John Healey: No contracts have been awarded by the Treasury to ER Consultants during the last three financial years. Payments of £29,326 excluding VAT were made to Praesta Partners in 2005-06 in connection with the training of departmental officials.

Our records show that Treasury Ministers have not made use of the services of either company.

Energy Efficiency (Information & Support to Business)

Mrs. Villiers: To ask the Chancellor of the Exchequer if he will place in the Library copies of the minutes of meetings held by the group examining the provision of information and support on energy efficiency to business chaired by the Financial Secretary and Mr. Richard Ellis. [90912]

John Healey: Budget 2006 announced that Richard Ellis and I would co-chair a group to examine how best to provide information and support to business on energy efficiency. The meetings of this group represent part of the ongoing process of policy development, the outcome of which will be reflected in any future policy announcements on this area. As such, it would not be appropriate to place copies of the minutes of these meetings in the Library.

Export Controls

Susan Kramer: To ask the Chancellor of the Exchequer pursuant to the answer of 22 March 2006, *Official Report*, column 426W, what percentage of breaches of export control legislation involved goods that would have been granted an export licence had the exporter applied for one in each of the last five years. [90914]

John Healey: Estimates of the percentage of breaches of export control legislation involving goods that would have been granted an export licence, had the exporter applied for one, in each of the last five years are set out in the following table:

	Percentage
2000-01	80
2001-02	88
2002-03	92
2003-04	84
2004-05	83

Fuel Duties

Mr. Spellar: To ask the Chancellor of the Exchequer what the level of fuel duty is per litre for *(a)* petrol and *(b)* diesel; and what the level would be if the fuel duty escalator had been retained. [90905]

John Healey: The current level of duty for ultra low sulphur petrol and diesel is 47.1p per litre.

The fuel duty escalator was introduced in 1993 and removed in 1999.

If the fuel duty escalator had been retained and (1) fuel duty had increased the escalator by 6 per cent. in real terms at every Budget and (2) there had been no reduction in fuel duty of 3p per litre in 2000 for the introduction of ultra low sulphur petrol and diesel, then fuel duty for ULSP and ULSD would currently be 83.91p per litre.

Further information on current and historical duty rates for petrol and diesel can be found in table 4 of the HM Revenue and Customs "Hydrocarbon Oils Bulletin", which can be found on the HM Revenue and Customs website:

http://www.uktradeinfo.com/index.cfm?task=bullhydro

Gross Domestic Product

Mrs. Villiers: To ask the Chancellor of the Exchequer what percentage of gross domestic product he expects net taxes and national insurance contributions, less North sea revenues, to be in 2007-08; and what the equivalent percentage was in each of the last 30 years. [90911]

Ed Balls: Data on net taxes and national insurance contributions and North sea revenues as a percentage of GDP back to 1973-74 and Budget 2006 projections for 2007-08 can be found in table C1 of the Public Finances Databank (available on the web at: http://www.hm-treasury.gov.uk/economic_data_and tools/finance_spending_statistics/pubsec_finance/psf_statistics.cfm).

HM Revenue and Customs (Tribunals)

Bob Russell: To ask the Chancellor of the Exchequer what guidance is issued by his Department to individuals and businesses who were successful in tribunal cases against HM Revenue and Customs (HMRC) and where HMRC is appealing that decision to the High Court. [90976]

John Healey: None. It is the responsibility of the Tribunal to provide guidance in these circumstances.

Bob Russell: To ask the Chancellor of the Exchequer what the cost of appeal cases made by HM Revenue and Customs (HMRC) to the High Court against Tribunal decisions of General Commissioners was in each of the last five years; and what revenue was obtained as a result of decisions made in favour of HMRC. [90998]

John Healey: The information requested could be provided only at disproportionate cost.

Bob Russell: To ask the Chancellor of the Exchequer how many cases of appeal against Tribunal decisions of General Commissioners were made by HM Revenue and Customs (HMRC) to the High Court in each of the last five years; how many of these cases were heard; and in how many such cases the decision was made in favour of HMRC. [90999]

John Healey: The information requested could be provided only at disproportionate cost.

Home Working

Mr. Leech: To ask the Chancellor of the Exchequer what the Government's policy is on encouraging working from home through tax incentives to employers and employees to reduce carbon dioxide emissions associated with journeys to and from work. [90650]

Ed Balls: The Government believe that flexible working is good for both business and families. Business may draw on a wider pool of skills and talents, improve recruitment and retention rates and increase staff morale and productivity. Employees may find working hours to match their family caring responsibilities and spend more time with their children.

The Government introduced a new right to request flexible working for parents of children under six and disabled children in 2003 and will extend this to carers of adults from next April. There is no tax charge where an employee works regularly at home under agreed flexible working arrangements and his or her employer reimburses their additional costs of working at home.

Immigrant Workers

Mr. Francois: To ask the Chancellor of the Exchequer (1) what the estimate is of the number of immigrant workers from Eastern European accession countries who are claiming tax credit in the UK; what the cost of such payments to public funds was in the last period for which figures are available; and if he will make a statement; [90547]

(2) how many people claimed tax credits for their children living outside the United Kingdom in *(a)* 2003-04, *(b)* 2004-05 and *(c)* 2005-06; and what the cost was to the Exchequer in each year. [90763]

Dawn Primarolo: A quarterly report, last produced on 22 August 2006 by the Home Office, Department for Work and Pensions, HM Revenue and Customs and Department for Communities and Local Government is published on the Home Office immigration and nationality directorate's website, http://www.ind.homeoffice.gov.uk/aboutus/reports/accession_monitoring_report, and provides detailed information including the number of workers from the new member states of the EU who are claiming tax credits.

The other information is not available.

Mr. Francois: To ask the Chancellor of the Exchequer whether migrant workers from Bulgaria and Romania will be eligible for tax credits if they were permitted to enter the UK to work after those countries joined the EU; and if he will make a statement. [90548]

Dawn Primarolo: No date has been set for the accession of Romania and Bulgaria. Once that decision is made, member states will decide on what access to labour markets they will give to Romania and Bulgaria.

Mr. Francois: To ask the Chancellor of the Exchequer when the decision was taken to allow migrant workers coming to the UK to claim tax credits for family members living abroad; what criteria govern such payments; and if he will make a statement. [90764]

Dawn Primarolo: Benefits including the child tax credit for workers' families is governed by European Community (EC) law, which have been in place since the UK joined the European Economic Community in 1973.

Income Inequality

Simon Hughes: To ask the Chancellor of the Exchequer what levels of income inequality were in *(a)* 1997 and *(b)* 2006; and if he will make a statement. [91100]

John Healey: There is no single measure or source of data on household income inequality.

However, I refer the hon. Gentleman to the DWP publication "Households Below Average Income" and the ONS publication "The Effects of Taxes and Benefits on Household Income, 2004-05".

International Finance

Mrs. Villiers: To ask the Chancellor of the Exchequer whether countries other than the UK and France have committed themselves to the IFF, as distinct from the IFFIm; what commitment to date extends only to a working group charged with considering feasibility; and on what dates that working group has met. [90907]

Ed Balls: France and the UK agreed at the Paris conference on innovative financing in March jointly to establish a working group to consider the implementation of an IFF going to health and education and funded by an air ticket levy as well as by other revenues from the Landau report. Discussions with the French and other countries have continued including on broader innovative financing mechanisms and on initiatives such as UNITAID and AMCs.

Kettering Borough Council

Mr. Hollobone: To ask the Chancellor of the Exchequer what conclusions were drawn by Treasury officials from their recent visit to Kettering borough council about the local implementation of the sustainable communities programme. [90615]

Ed Balls: As part of its evidence gathering and analysis phase, officials from the Supporting Housing Growth Review team, along with officials from DCLG and other key infrastructure departments, have conducted a series of case study workshops with officials from local authorities across the country. The visit to North Northamptonshire was one of these visits. The review will report to Treasury Ministers as part of the 2007 Comprehensive Spending Review.

Land Use Planning

Mr. Truswell: To ask the Chancellor of the Exchequer which representatives of *(a)* business, *(b)* community groups and *(c)* non-government organisations the Barker Review Team (i) met and (ii) received representations from during the compilation of its interim report on land use planning. [90773]

Ed Balls: The full list of representatives can be found on page 181 in annex A of the Barker Review of Land Use Planning interim report. This can be found on the Treasury website at:

http://www.hm-treasury.gov.uk/independent reviews/barker_review_land_use_planning/barkerreview_land_use_planning_index.cfm

Mr. Truswell: To ask the Chancellor of the Exchequer what arrangements he has made for consultation on the interim Barker Report on land use planning; and whether Cabinet Office guidance on consultation will apply to these arrangements. [90774]

Ed Balls: Her Majesty's Treasury have not arranged any consultation on Ms Barker's interim report on land use planning. A formal consultation was carried out as part of Kate Barker's independent Review of Land Use Planning during January-March 2006. The interim report published on 4 July sets out Ms Barker's analysis to date and is not a consultation document. However, it is understood that Ms Barker is still welcoming views and has proposed a deadline for those views of 19 September 2006.

North Sea Revenues

Mr. Salmond: To ask the Chancellor of the Exchequer what the latest forecasts are for North sea revenue for each year to 2010-11 *(a)* as a percentage of gross domestic product, *(b)* in cash terms and *(c)* in real terms on 2006 prices; and if he will make a statement. [90564]

Ed Balls: Projections for North sea revenues can be found in Tables C8 and C9 of Budget 2006.

Parliamentary Questions

Mr. Frank Field: To ask the Chancellor of the Exchequer when he expects to reply to the right hon. Member for Birkenhead regarding the tax credits of his constituent Mr. Delaney. [90644]

Dawn Primarolo: My right hon. Friend wrote to me on 22 June 2005 and HM Revenue and Customs responded on my behalf on 18 August 2005.

There has been no further correspondence between myself and my right hon. Friend regarding his constituent.

Public Sector Pensions

Mrs. Villiers: To ask the Chancellor of the Exchequer pursuant to paragraph 36 of the Note by the Government Actuary's Department and HM Treasury, Unfunded Public Service Pension Schemes: 2005 Cash Flow Projections Assumptions and Data, June 2006, what estimate he has made of the cash inflows that will arise from member contributions, expressed as a percentage of GDP. [90913]

John Healey: Full estimates of the size of cash inflows that will arise from member contributions are in the process of being developed, and are not yet available.

Peter Bottomley: To ask the Chancellor of the Exchequer what his latest estimate is of the deficit in public sector pension funds; what the estimate was 12 months before; and which five funds have the largest estimated deficits. [90967]

John Healey: The latest available estimate of the total liabilities of unfunded public service occupational pension schemes was set out in the note from HM Treasury, "Total liability of unfunded public service occupational pension schemes as at March 2005", a copy of which was placed in the House of Commons Library on 2 March 2006.

Public Service Agreements

Mrs. Villiers: To ask the Chancellor of the Exchequer for how many spending review (SR) 2002 public service agreement (PSA) targets his Department received summary assessments in the latest autumn performance reports, expressed as a proportion of the total number of SR 2002 PSA targets. [90906]

Ed Balls: Due to data lags and the fact that some targets have an end date in the future, a full tally is not yet possible.

Red Diesel

Mr. Drew: To ask the Chancellor of the Exchequer what progress is being made in the negotiations to extend the derogation from the EU for the use of red diesel for marine uses. [91003]

John Healey: In line with the timetable set out by the European Commission, the UK will be submitting in October a formal application for renewal of the

derogation enabling pleasure boats to use red diesel. This application will be informed by the case that the Government set out in the partial RIA published at the Budget and is continuing to build with the cooperation of the boating industry.

Standard Life

Mr. Drew: To ask the Chancellor of the Exchequer whether *(a)* his Department and *(b)* the Financial Services Authority undertook monitoring of the recent demutualisation ballot conducted by Standard Life. [91004]

Ed Balls: The process of demutualisation in any organisation will be based on their specific rules, articles of memorandum as well as the legislative framework under which they operate.

These requirements will be binding on all members who will normally have the opportunity to vote on the proposals.

The Standard Life demutualisation ballot was conducted in accordance with their existing regulations and guidance on voting was given in the Proposal for members and policyholders.

The Treasury is not responsible for or involved in the conduct of such votes; however the FSA in its role as regulator reviewed the Proposal for regulatory compliance. The fairness of the Proposal was checked by an independent expert appointed to report to the court.

Tax Credits

Mr. Philip Hammond: To ask the Chancellor of the Exchequer if he will estimate the total amount of *(a)* working tax credit and *(b)* child tax credit erroneously paid to prisoners due to (i) fraud, (ii) customer error and (iii) official error in each year where figures are available. [91062]

John Healey: The information requested is not available.

Tax Relief

Mr. Gibb: To ask the Chancellor of the Exchequer how much tax relief was claimed by employers who have seconded employees to schools in each year since 1997. [90797]

Ed Balls: There is no centrally available information on which to base an estimate of the total value of this relief.

Treasury Spending Teams

Mrs. Villiers: To ask the Chancellor of the Exchequer pursuant to paragraph 5.6 of the Departmental Report, what the Treasury spending teams are; and how many people were employed in each of them at the end of *(a)* the 2004-05 and *(b)* the 2005-06 financial years. [90892]

John Healey: The Treasury Spending Teams monitor departmental spending along with service delivery and provide advice to Treasury Ministers on any matters arising. The number of people employed in spending teams in 2004-05 was 143 and in 2005-06 148.

Further details on Treasury Spending Teams can be found on its organisational chart, which can be accessed online at www.hm-treasury.gov.uk .

DEFENCE

Afghanistan

Mr. Harper: To ask the Secretary of State for Defence what steps have been taken to ensure that UK troops in Helmand Province are fully equipped for operating effectively in the winter. [90581]

Des Browne *[holding answer 11 September 2006]:* As I announced to the House on 10 July 2006, *Official Report*, column 1133WS, 3 Commando Brigade Royal Marines will replace 16 Air Assault Brigade as the Helmand taskforce this winter. The Brigade is the UK's only specialist mountain and cold weather brigade. It is fully trained and equipped for this role and has considerable personal and collective experience of winter and mountain operations.

In addition to the normal temperate and desert issue equipment, brigade personnel have been issued with a winter supplement, based on those specialist items that would normally be used during winter training in Norway. The key items are cold weather boots and socks, inner and outer winter gloves and a winter sleeping bag. Should the nature of the operations require additional specialist winter equipment in order to support particular operational requirements, these can be drawn on by the in-theatre HQ.

Peter Bottomley: To ask the Secretary of State for Defence if he will make a statement on the loss of the RAF Nimrod in Afghanistan. [90827]

Des Browne *[holding answer 11 September 2006]:* The loss of an RAF Nimrod MR2 in Afghanistan on 2 September, and the tragic loss of life of the 14 military personnel on board, is currently being investigated. The factors leading to the loss of the aircraft cannot be confirmed until the investigation is concluded, but all the indications are that it was not the result of hostile action. The incident serves to remind us of the risks that our military personnel are facing on behalf of us all, and the debt that we owe them.

Correspondence

Mr. Beith: To ask the Secretary of State for Defence when he will reply to the right hon. Member for Berwick-upon-Tweed's letters of 1 December 2005 and 28 February 2006 concerning replacement documents for a constituent's late husband's war service (MoD Ref: 05651/2005). [90668]

Des Browne *[holding answer 11 September 2006]:* My hon. Friend the Member for West Bromwich, East (Mr. Watson), wrote to the right hon. Gentleman on 24 August. This regrettable delay was because it took much longer than expected to trace the necessary documents.

Departmental Expenditure

Pete Wishart: To ask the Secretary of State for Defence what has been the annual expenditure on vehicles for *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005-06. [39970]

Derek Twigg: Expenditure on the purchase or hire of vehicles for the movement of personnel and freight for administrative purposes in England, Scotland, Wales and Northern Ireland has been as follows:

£ million

	England, Scotland and Wales	Northern Ireland	Total
2003-04	85.4	4.2	89.6
2004-05	85.2	5.5	90.7
2005-06	89.2	4.2	93.4

These figures reflect activity by the Defence Logistics Organisation, who account for the majority of MOD vehicle expenditure, and Headquarters Northern Ireland. Some other expenditure is incurred locally, but could be provided only at disproportionate cost. Most vehicles are operated under lease or short-term hire arrangements.

For details of expenditure on ministerial vehicles provided to the MOD by the Government Car and Despatch Agency, I refer the hon. Gentleman to the letter of 20 December 2005 from the chief executive of the Government Car and Despatch Agency to the hon. Member for Lewes (Norman Baker). Copies of the letter are available in the Library.

Data for 2002-03 and a further breakdown by agency or public body and region are not held centrally and could be provided only at disproportionate cost.

Emergency Fire Cover

Mr. Hands: To ask the Secretary of State for Defence how many fire appliances the armed forces own, broken down by age; and how many could be used to provide emergency fire cover for the general population in the event of a strike by firefighters. [88723]

Mr. Ingram: The Ministry of Defence owns a total number of 216 fire appliances. Of these 79 are Major Foam Airfield Crash Vehicles (MFV) and 82 are Rapid Intervention Airfield Crash Vehicles (RTV). There are also 55 Domestic Vehicles which are used to tackle fires in buildings and other parts of the Defence Estate and are similar to those operated by local authority fire and rescue services.

The ages of the vehicles are as follows:

	Age by years														
Vehicle type	1	2	3	4	5	6	7	8	9	13	14	16	20	22	Total
MFV	0	0	0	2	18	15	14	26	4	0	0	0	0	0	79
RIV	0	0	3	17	23	19	15	0	0	0	5	0	0	0	82
Domestic	1	19	0	8	0	2	7	0	0	5	5	5	1	2	55

All fire appliances owned by the Ministry of Defence are there to support armed forces operational activity and could not be assigned to provide emergency cover in the event of a strike by firefighters whether on a national or local basis.

Hercules Aircraft

Mr. Gray: To ask the Secretary of State for Defence how many *(a)* C130K and *(b)* C130J Hercules aircraft are based at RAF Lyneham; how many Hercules are fit for purpose; how many Hercules are deployed (i) in Iraq, (ii) in Afghanistan, (iii) to Cyprus and Lebanon and (iv) elsewhere; and if he will make a statement. [90677]

Mr. Ingram: There are a total of 24 C130Ks and 25 C130J Hercules aircraft based at RAF Lyneham of which a number are deployed to operational theatres. I am withholding information about how many Hercules aircraft are deployed to which operational theatre, as this might prejudice the operational security of our armed forces.

The average year to date fit for purpose figures as at August 2006 are 11 for the C130K aircraft and 16 for the C130J Hercules aircraft.

Aircraft are deemed fit for purpose if they are capable of undertaking the required task on a given day. Aircraft are not available for tasking if they are undergoing scheduled maintenance, modification programmes or any unforeseen rectification work that can arise on a day-to-day basis. The figures do not reflect the fact that an aircraft assessed as not fit for purpose may be returned to the front line at very short notice to meet the operational need.

Infantry Soldiers

Lynne Featherstone: To ask the Secretary of State for Defence what percentage of infantry soldiers come from *(a)* Muslim and *(b)* ethnic minority backgrounds. [83676]

Derek Twigg: As at 1 June 2006, the percentage of UK Regular Army Infantry Soldiers that have recorded Muslim as their religion is 0.2 per cent.

As at 1 April 2006, the percentage of UK Regular Army Infantry Soldiers that come from an ethnic minority background is 8.5 per cent.

UK Regular Army excludes Full Time Reserve Service Personnel, Gurkhas, the home service battalions of the Royal Irish Regiment and mobilised reservists. It includes trained and untrained personnel.

Iraq

Harry Cohen: To ask the Secretary of State for Defence what the Government's policy is on UK troops remaining in Iraq after all provinces controlled by the UK are handed over to the Iraqi Government; what information has been issued to the media on the UK's plans; and if he will make a statement. [90873]

Des Browne *[holding answer 11 September 2006]:* As we have consistently made clear, coalition troops will remain in Iraq until the conditions for drawdown are right. The transfer of provincial security responsibility to the Iraqi Security Forces—while an important step—will not necessarily result in the complete withdrawal of UK troops. Coalition troops will need to remain in Iraq for some period after provincial transfer to continue training and mentoring of the Iraqi Security Forces, and to assist with the provision of security until we, the Iraqi Government, and our coalition partners are confident that the Iraqi Security Forces can operate without our support.

MOD regularly provides the media with briefing about the Department's role in Iraq.

Operation Herrick

Mr. Lancaster: To ask the Secretary of State for Defence which parent unit the members of the composite company of the Royal Rifle Volunteers shortly to be deployed on Operation Herrick are from, broken down by *(a)* rank and *(b)* company. [90731]

Mr. Ingram: The composite company of the Royal Rifle Volunteers deploying on Operation Herrick broken down by parent unit, company and rank is shown in the following table:

Parent unit/company	*Maj*	*Lt*	*2Lt*	*WO2*	*SSgt*	*Sgt*	*Cpl*	*LCpl*	*Pte*
4 YORKS	—	—	—	—	—	—	2	—	—

[7] Highlanders. This individual is a Regular Reservist

Peacekeeping (UN and NATO)

Mr. Hollobone: To ask the Secretary of State for Defence what proportion of *(a)* UN peacekeeping troops and *(b)* NATO operationally deployed troops come from the British armed forces. [87269]

Mr. Ingram *[holding answer 24 July 2006]:* The UN publishes details of troop contributions to UN missions on its website at www.un.org/depts/dpko/dpko/contributors. I am placing a copy in the Library of the House.

On 10 August 2006 the deployment of UK service personnel on NATO operations was:

Country	*All services*
ISAF (Afghanistan)	4,360
Balkans	180
Iraq	20

Notes:
1. Data are rounded to the nearest 10 to prevent disclosure of sensitive information.
2. Figures include mobilised reservists.
3. ISAF (International Security Assistance Force).
4. Figures for the total NATO strength are not held centrally and it is therefore not possible to show these figures as a proportion of the total force.

Information on the deployment of the British armed forces can also be found in the MOD annual report and accounts 2005-06, copies of which are held in the House of Commons Library.

Royal Irish Regiment Home Service Battalions

Mr. Harper: To ask the Secretary of State for Defence what the roles are of the Royal Irish Regiment (Home Service) battalions; which roles will be taken up by other regiments or battalions on disbandment; and which roles will no longer be carried out. [90580]

Mr. Ingram: The Royal Irish Regiment (Home Service) battalions, like their predecessors, the Ulster Defence Regiment, were raised specifically for operations in support of the police in Northern Ireland known as Operation Banner.

Over the years they have played a crucial role in creating the environment which led to the announcement on 1 August 2005 of the start of the process of normalisation which will see the end of Operation Banner on 31 July 2007. With the police no longer needing routine military support, the three Home Service battalions will have successfully completed the tasks for which they were raised and will disband.

The revised Security Annex to the Joint Declaration makes it clear that, assuming the maintenance of an enabling environment, Army support to the police after 31 July 2007, will reduce to a residual level, e.g. in providing specialised ordnance disposal and support for public order as described in Patten recommendations 59 and 66, should this be needed.

UN Missions

Mr. Lancaster: To ask the Secretary of State for Defence how many British troops have been involved in UN missions in each year since 1995. [75399]

Mr. Ingram: The UN publishes details of troop contributions to UN missions on its website at www.un.org/depts/dpko/dpko/contributors. I am placing a copy in the Library of the House. Data prior to 2000 are not currently available on the website. Nor are they it held centrally by the Ministry of Defence, and are they could be compiled only at disproportionate cost.

W Company, 45 Commando

Mr. Lancaster: To ask the Secretary of State for Defence how many members of W Company, 45 Commando, shortly to be deployed to Afghanistan were serving in the company on an established Line Serial Number two months before deployment. [90626]

Mr. Ingram: The established Line Serial Number for W Company 45 Commando Royal Marines is 78 personnel for their conventional role. But 45 Commando are not deploying to Afghanistan as a Battle Group: they have a number of individual roles for which they have been specifically reorganised. W Coy restructured in early July 2006 and now comprises 100 individuals. The majority of the Coy have been training for an operational deployment since Easter 2006; and all personnel undertake legally mandated pre-deployment training including the five members who joined the company two months before the deployment. They will conduct individual replacement training next week.

Mr. Lancaster: To ask the Secretary of State for Defence how many members of W Company, 45 Commando or currently attached to W Company for the duration of the deployment shortly to be deployed to Afghanistan are members of the Royal Navy, not including Royal Marines. [90729]

Mr. Ingram: There are currently no Royal Navy personnel serving with or attached to W Company, 45 Commando Royal Marines. W Company, who are deploying to Afghanistan, comprise Royal Marine personnel, one Army Captain and one RAF Regiment Troop Sergeant.

WALES

Computing Equipment

Mr. Weir: To ask the Secretary of State for Wales how many *(a)* USB (i) flash drives and (ii) memory sticks, *(b)* compact discs, *(c)* DVD-ROM discs, *(d)* laptop computers, *(e)* external computer hard drives, *(f)* internal computer hard drives and *(g)* desktop computers were purchased for use in his Department in each month since March 2005. [88754]

Mr. Hain: Under the machinery of government change, in June 2003 the Wales Office became a separate entity within the Department for Constitutional Affairs (DCA); and IT equipment is provided through the DCA contract in line with the government private finance initiative. Through this contract we have been supplied with four laptop computers since March 2005, three of which were supplied in November 2005 and one in August 2006. The Wales Office has purchased one memory stick in July 2006, and all other equipment is covered by the DCA IT contract.

IT Contracts

Mr. Weir: To ask the Secretary of State for Wales what the value was of each IT contract awarded by his Department in each of the last five years; and who the contractor was in each case. [88970]

Mr. Hain: The National Assembly of Wales provided information technology support service functions to the Wales Office until 31 March 2004. Under the machinery of government changes, the Wales Office became a separate entity within the Department for Constitutional Affairs (DCA); and has adopted their contract set-up, Liberate UK, who provide all office requirements in line with the government private finance initiative. The Wales Office has therefore not awarded any IT contracts during this period.

Mr. Weir: To ask the Secretary of State for Wales which IT contracts awarded by his Department in each of the last five years have been abandoned; and what the value was in each case. [88971]

Mr. Hain: The National Assembly of Wales provided information technology support service functions to the Wales Office until 31 March 2004. Under the machinery of government changes in 2003, the Wales

Office became a separate entity within the Department for Constitutional Affairs (DCA), and has adopted their contract set-up, Liberate UK, who provide all office requirements in line with the government private finance initiative. The Wales Office has neither awarded nor abandoned any IT contracts.

Security Passes

Simon Hughes: To ask the Secretary of State for Wales how many security passes have been reported *(a)* lost and *(b)* stolen by staff in his Department by year since February 2004. [88561]

Mr. Hain: No security passes have been reported lost or stolen in that time.

SOLICITOR-GENERAL

Drink-driving Offences

Mr. Sheerman: To ask the Solicitor-General what steps he is taking to ensure that the Crown Prosecution Service effectively prosecute individuals accused of drink driving offences. [90604]

The Solicitor-General: Crown prosecutors carefully consider all the evidence and rigorously apply the Code for Crown Prosecutors. In reaching a charging decision they ensure that the statutory obligations of disclosure are met and that proceedings are expedited. Drink driving cases can raise challenging questions of law and procedure. Frontline prosecutors are provided with detailed and up to date guidance. The DPP has recently reminded CPS prosecutors to exercise particular care in ensuring that those who drive dangerously are charged with driving dangerously, rather than the lesser charge of careless driving. This is particularly important in cases where a victim has died.

Information taken from the court proceedings database held by the Office for Criminal Justice Reform shows that for England and Wales in 2004 (latest available) there were 107,091 proceedings for offences of driving after consuming alcohol or taking drugs, of which there were 96,240 findings of guilt, a conviction rate of 90 per cent.

Law Students

Mr. Marsden: To ask the Solicitor-General (1) what discussions he and his officials have had with the Department for Education and Skills about support the Department offers to mature law students to assist them in finding a training contract; [90611]

(2) what recent discussions he and his officials have had with the Law Society regarding funding and assistance for mature law students to enable them to complete a legal practice course. [90612]

The Solicitor-General: None.

DUCHY OF LANCASTER

Chartered Psychologists

Mr. Duncan: To ask the Chancellor of the Duchy of Lancaster what use the Department makes of chartered psychologists for training; and what the value is of her Department's contracts with *(a)* ER Consultants and *(b)* Praesta in each of the last three years. [90781]

Mr. McFadden: The Cabinet Office co-ordinates development coaching for all Cabinet Office Senior Civil Servants. It also co-ordinates a Civil Service-wide High Potential Development Scheme for all Senior Civil Servants. In both cases, chartered psychologists are used as coaches and at team development events.

The following table shows the value of the Department's contracts with ER Consultants and Praesta in each of the last three years.

£

	ER Consultants	*Praesta*
2003-04[1]	0	0
2004-05[1]	0	0
2005-06[1]	264.36	50,348.75

[1] Dates refer to financial year rather than calendar years.

Disabled Staff

Danny Alexander: To ask the Chancellor of the Duchy of Lancaster how much was paid to the Cabinet Office from the Access to Work Scheme for adjustments for disabled staff in the last year for which figures are available; from what budget she plans to meet the costs of reasonable adjustments for disabled staff following withdrawal of Access to Work funding for central Government Departments; and if she will make a statement. [89017]

Hilary Armstrong: In the last year Cabinet Office has used the Access to Work Scheme twice. This includes use of the Fares to Work provision for which there is an ongoing annual cost. Costs for the Access to Work provisions are met by the management units employing those disabled staff but those costs are not monitored or held centrally.

Future costs for reasonable adjustments after the withdrawal of Access to Work will continue to be met by management units and, where necessary, centrally.

The Cabinet Office is committed to making reasonable adjustments for staff and this will be an explicit point within the Department's Disability Equality Scheme which my officials are currently preparing and which will be published by December 2006.

Public Sector Information

Mr. Todd: To ask the Chancellor of the Duchy of Lancaster how she plans to maximise the re-use for commercial purposes of public sector information by third parties. [90688]

Edward Miliband: The regulations on the re-use of public sector information provide a legal framework that encourages the re-use of public sector information. Furthermore, the Office of Public Sector Information (OPSI) has developed a number of initiatives to ensure that the regulations do not create any barriers to the re-use of public sector information.

For example it has introduced the Click-Use Licence which is an online licence that allows the re-use of a wide range of public sector information with the minimum of administration.

OPSI has also introduced the Information Fair Trader Scheme which sets and assesses standards for public sector organisations. It requires them to encourage the re-use of information and reach a standard of fairness and transparency.

COMMUNITIES AND LOCAL GOVERNMENT

Building Regulations

Andrew Stunell: To ask the Secretary of State for Communities and Local Government how many prosecutions have been launched in respect of non-compliance with the thermal efficiency requirements of the building regulations in each of the last 10 years; and how many convictions were secured. [90939]

Angela E. Smith: Prosecutions relating to non-compliance with the Building Regulations are pursued by local government and there is no central register of prosecutions.

Andrew Stunell: To ask the Secretary of State for Communities and Local Government (1) what assessment she has *(a)* made and *(b)* evaluated of the proportion of homes constructed in the last 10 years which did not comply with building regulations in respect of their thermal efficiency; and if she will make a statement; [90940]

(2) what assessment she has made of the potential for improved training, monitoring and enforcement within the construction industry to raise levels of compliance with Part L of the building regulations; and if she will make a statement. [90943]

Angela E. Smith: The Department for Communities and Local Government commissioned surveys of the implementation of the energy efficiency amendments that came into effect in 1995 and 2002. The results of tests carried out on 154 dwellings built to the 2002 standards were taken into account in developing the amendment that came into effect in April 2006.

In line with the commitment made in the 2003 Energy White Paper to find ways of improving compliance the Department began in July 2005 the largest programme of dissemination and training ever undertaken. This work will continue with further initiatives to improve knowledge and understanding and engagement with building control bodies and other stakeholders on how best to measure impact.

Correspondence

Mr. Burns: To ask the Secretary of State for Communities and Local Government when she will reply to the letter from the hon. Member for West Chelmsford transferred to her Department by the Department for Work and Pensions on 19 July regarding his constituents Mr. Forrester, Mrs. Dixty and Mr. Seal. [90665]

Yvette Cooper: A reply was sent to the hon. Gentleman on 3 August 2006.

East of England Regional Assembly

Mr. Spring: To ask the Secretary of State for Communities and Local Government (1) what the total expenses paid to the representatives serving on the East of England Regional Assembly were in each of the past three financial years; [90850]

(2) what the individual salaries are of *(a)* the chief executive and *(b)* senior management personnel of the East of England Regional Assembly. [90851]

Yvette Cooper: The requested information is not held centrally. Details of individual salaries and expenses are matters for the regional assembly which is a voluntary body.

Mr. Spring: To ask the Secretary of State for Communities and Local Government (1) what the projected administrative budget is for the East of England Regional Assembly for *(a)* 2006-07 and *(b)* 2007-08; [90852]

(2) what the total administrative costs were of the East of England Regional Assembly in each of the past three financial years. [90853]

Yvette Cooper: Details of the East of England Regional Assembly's administration budget are not held centrally. Following is a table detailing DCLG grant to the East of England Regional Assembly for the period requested. The assembly receives funding from other sources.

East of England Regional Assembly

	Total ODPM/DCLG funding (£)
2003-04	1,874,000
2004-05	2,112,000
2005-06	2,112,000
2006-07	2,353,000
2007-08	[1]

[1] Allocations are not yet decided for 2007-08

Energy Efficiency

Mr. Leech: To ask the Secretary of State for Communities and Local Government whether she plans to extend the requirement for buildings undergoing major renovation to upgrade their energy efficiency to include buildings under 1,000 square metres. [90620]

Angela E. Smith *[holding answer 11 September 2006]:* The amendment to Building Regulations in April 2006 includes a requirement to improve the energy performance of existing buildings over 1,000m^2 as a consequence of undertaking certain types of building

work. Last September Government announced that this requirement to make 'consequential improvements' in buildings below 1,000m^2 would not be included in the 2006 amendments to Part L of the building regulations. Instead we announced a review to consider all possible measures to increase the sustainability of existing buildings. This review is under way and will conclude later this year.

English Partnerships

Alistair Burt: To ask the Secretary of State for Communities and Local Government what English Partnerships' planned programme expenditure is in *(a)* the North East, *(b)* the North West, *(c)* Yorkshire and Humberside, *(d)* the East Midlands, *(e)* the West Midlands, *(f)* the East of England, *(g)* London, *(h)* the South East and *(i)* the South West in 2006-07. [90811]

Yvette Cooper: English Partnerships' gross expenditure by Government office region for 2006-07 is estimated as set out in the following table.

	2006-07	
	Budget (£ million)	*Percentage*
East Midlands	47	8
East of England	37	6
London	53	9
North East	34	6
North West	85	15
South East	107	19
South West	36	6
West Midlands	22	4
Yorkshire and the Humber	36	6
National	116	20
EP Total	573	100

Note:
The "national" line shows EP's expenditure on the two national programmes involving former hospital sites and the first time buyers initiative. The precise spread of investment is yet to be finalised and therefore cannot be included in the regional figures.

Alistair Burt: To ask the Secretary of State for Communities and Local Government (1) what her plans are for the percentage of the programme expenditure of English Partnerships to be spent in the South of England over the next five years; and if she will make a statement; [90812]

(2) what English Partnerships' planned programme of expenditure is in *(a)* the north and *(b)* the south of England in (i) 2006-07, (ii) 2007-08 and (iii) 2008-09. [90814]

Yvette Cooper: English Partnerships (EP) is a national agency in England and the operational distribution of its programme expenditure is decided by its board according to national delivery priorities in their annual corporate plan as approved by Ministers. EP's future national programme and priorities are currently under consideration as part of the current corporate planning round for the financial years 2006-07 to 2010-11. Funding for EP's programmes for 2008-09 to 2010-11 will be decided after the Spending Review 2007 settlement.

EP's gross expenditure for 2006-07 including the spread of expenditure across the North and the South of England is estimated as set out in the following table.

	2006-07	
	Budget (£ million)	*Percentage*
North including Midlands	224	39
South	233	41
Other National	116	20
EP Total	573	100

Notes:
1. For the purposes of this answer the South of England includes South East, East, South West of England and London, with other regions taken to mean the North of England.
2. The "national" line shows EP's expenditure on the two national programmes involving former hospital sites and the first time buyers initiative. The precise spread of investment is not yet finalised and therefore cannot be included in the regional figures.

Housing

Mr. Leech: To ask the Secretary of State for Communities and Local Government what further measures her Department is considering to improve the sustainability of existing homes; and whether she plans to introduce new planning guidance to promote micro-generation. [90989]

Angela E. Smith: DCLG is leading a review of the sustainability of existing buildings, involving other Government Departments and key stakeholders. This review is considering a wide range of regulatory and non-regulatory options, including the use of incentives, to reduce water use and energy consumption, and to promote the installation of micro-generation.

In addition, we are also working on proposals that would aim to promote further take-up of micro-generation by removing the need to apply for planning permission for certain types of installation.

Planning authorities are already expected to include policies in their development plans that require a percentage of the energy in new developments to come from on-site renewables. Later this year we will consult on the draft of a new Planning Policy Statement on climate change.

Local Government Finance

Mr. Burstow: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the financial impact on local authorities of providing transport and facilitating placements for individuals with autistic spectrum disorders and their families; and if she will make a statement. [90551]

Mr. Woolas: The information requested is not held centrally. Financial information regularly collected from local authorities is not broken down into such detail to be able to estimate these costs.

Mr. Burstow: To ask the Secretary of State for Communities and Local Government if she will amend the criteria for determining central Government grant to local authorities to take account of the costs associated with supporting individuals with autistic spectrum disorders and their families; and if she will make a statement. [90552]

Mr. Woolas: Formula grant is largely based on relative needs formulae, together with the number of band-D equivalent properties in its area. We then ensure that every authority receives at least a minimum percentage increase (the 'floor') year-on-year on a like-for-like basis i.e. after adjusting for changes in funding and function. In order to pay for this we scale back the increases above the floor.

Relative needs formulae take into account the socio-economic and demographic characteristics of authorities. One of these formulae is for children's social care. The formula is based on extensive research and has a solid evidence base. It draws on evidence from the 2003 Children in Need census. This is the largest source of information on children's social service activity in England. It contains information from almost every council who provide children's social care. Therefore children with autistic spectrum disorders included in the 2003 Children in Need census are included in the evidence base used to derive the existing formula.

John Hemming: To ask the Secretary of State for Communities and Local Government if she will increase the limit for capitalisation of local government spending from that announced at the Capital Programme Working Party on 26 May. [90734]

Mr. Woolas: We have no plans to increase the limit for capitalisation of local government spending from that announced at the Capital Programmes Working Party. Local authority capitalisation presents a significant risk to the prudent management of national fiscal rules and needs to be managed closely.

Ben Chapman: To ask the Secretary of State for Communities and Local Government what assessment she has made of the merits of introducing a system of business rates linked to profitability; and if she will make a statement. [90860]

Mr. Woolas: Any reforms to business rates fall with the remit of Sir Michael Lyons independent inquiry into the role and funding of local government. The Government will not take any decisions on changes to local government finance until they have had the chance to consider and reflect on Sir Michael's report and recommendations.

Ben Chapman: To ask the Secretary of State for Communities and Local Government how many companies *(a)* failed and *(b)* reduced operations in the UK in each of the last five years because of problems paying business rates. [90861]

Mr. Woolas: The information requested is not held centrally.

Local Government Officers (Political Activity)

Fiona Mactaggart: To ask the Secretary of State for Communities and Local Government what the outcome was of consultation on the removal of bans on political activity by local government officers; and if she will make a statement. [90703]

Mr. Woolas: Our discussion paper, "Standards of Conduct in English Local Government", published on 15 December 2005, reported the outcome of our consultation about the regulatory framework governing the political activities of local government employees, and made proposals for the future which we are committed to take forward. A copy of the discussion paper is available in the Library of the House. It can also be viewed on the Department's website at:

www.communities.gov.uk/index.asp?id=1162582.

Fiona Mactaggart: To ask the Secretary of State for Communities and Local Government what assessment she has made of the impact of barriers for members of political parties to participate in local and community governance. [90704]

Mr. Woolas: We are committed to increasing opportunities for people everywhere to participate in local and community governance. The Local Government White Paper, which we intend to publish shortly after the recess, will discuss issues of empowerment and governance and make proposals for the future.

Ordnance Survey

Mr. Todd: To ask the Secretary of State for Communities and Local Government what recent discussions she has had with the Office of Public Sector Information concerning Ordnance Survey. [90687]

Angela E. Smith: As a Trading Fund, Ordnance Survey is accredited to the Information Fair Trader Scheme (IFTS) managed by the Office of Public Sector Information (OPSI). OPSI has published two reports concerning Ordnance Survey in the past six months—one confirming Ordnance Survey's accreditation to the IFTS and one reporting on an investigation into a specific complaint against Ordnance Survey.

OPSI and Ordnance Survey officials are in regular dialogue in respect of a wide range of issues relating to Ordnance Survey's delegated authority to administer Crown copyright in respect of mapping and geographic information. These meetings have covered matters arising from the two recent reports. Ordnance Survey continues to take steps to widen the use of its maps and data in both public and private sectors.

Regional Control Centre

Mr. Fallon: To ask the Secretary of State for Communities and Local Government what costs have been incurred in connection with the Regional Control Centre at Fareham in each year since 2001; and how much is estimated to be spent in *(a)* 2006-07, *(b)* 2007-08 and *(c)* 2008-09. [90959]

Angela E. Smith: Figures for costs incurred since 2001 in connection with the Regional Control Centre at Fareham are not available, as the business case and accounts for the FiReControl project are maintained at a national level.

The department gives grants to individual Fire and Rescue Authorities (FRAs) under new burdens to reimburse the costs associated with implementing FiReControl. Fire and Rescue Service Circulars 59-2004 and 63-2005

explain this process and detail the figures for FRAs in the South East for financial years 2005-06 and 2006-07 and 2007-08 respectively. These documents can be found on the department's website under fire circulars: www.communities.gov.uk/firecirculars. The figures for 2008-09 are currently being considered and an FRS Circular detailing them will be published in due course.

Social Housing

Bob Russell: To ask the Secretary of State for Communities and Local Government what spending there was on social housing in the borough of Colchester in each year since 1979. [90682]

Yvette Cooper: £77.32 million was spent on social housing in Colchester between 1999 and 2005. Information for the period 1979 to 1998 is not readily available.

Sustainable Communities (Northamptonshire)

Mr. Hollobone: To ask the Secretary of State for Communities and Local Government what conclusions have been reached by the Department's Growth Areas Directorate following its recent discussions with Northamptonshire county council and other local agencies on the infrastructure investment required in Northamptonshire up to 2021 to deliver the Department's sustainable communities plan. [90614]

Yvette Cooper: As part of their evidence gathering and analysis phase, officials from the Supporting Housing Growth Review team, along with officials from DCLG and other key infrastructure departments, have conducted a series of case study workshops with officials from local authorities across the country. The visit to North Northamptonshire held on 25 July was one of those visits. The review will report to Treasury Ministers as part of the 2007 Comprehensive Spending Review.

INTERNATIONAL DEVELOPMENT

Angola

Andrew George: To ask the Secretary of State for International Development what *(a)* level of UK public investment and *(b)* plans for support his Department has in respect of the future reconstruction of Angola. [91082]

Hilary Benn: DFID has a modest bilateral aid programme in Angola, presently at £5 million for 2006-07. The UK also provides other sources of bilateral funding, including demining (at around £750,000 per year), the Africa Conflict Prevention Pool (at just over £1 million in 2006-07), the British Embassy's Post Bilateral Fund (£110,000 per year), and the Global Opportunities Fund for Climate Change and Energy (representing around £100,000 in 2006-07). In addition, the UK supports multilateral organisations, including the World Bank's Angola Demobilisation and Reintegration Programme (US$25 million over five years), the European Commission's European Development Fund, which allocated €146 million to Angola for 2002-07 (of which the UK's share was around 17.5 per cent.), and UNICEF's £18 million programme Southern Africa programme (which includes Angola) to which DFID contributes £3.5 million.

After 41 years of conflict, Angola has immense reconstruction challenges. In 2005, Angola ranked 160 out of 175 of the UNDP Human Development Index, with under five, infant and maternal mortality the second highest in the world. With the global rise in oil prices, the Government of Angola have substantially increased revenue to help it tackle these challenges. DFID's priorities in Angola are to support the consolidation of peace, greater civic engagement in state policy and practice, the transparent use of Government resources in a way that prioritises poverty reduction, and assistance for social sectors where Angola is off-track on the Millennium Development Goals.

Colombia

Mr. Clifton-Brown: To ask the Secretary of State for International Development what support his Department has provided for eradication of the drug trade in Colombia in each of the last five years. [90902]

Mr. Thomas: The Department for International Development (DFID) does not have a bilateral programme in Colombia and has not supported projects specifically on the eradication of the drugs trade over the last five years.

The ongoing conflict in Colombia has allowed the drugs trade to spiral. The drugs trade in turn is fuelling the conflict. DFID works together with the Foreign and Commonwealth Office and the Ministry of Defence to support initiatives on security and conflict reduction in Latin America through the Global Conflict Prevention Pool (GCPP). In Colombia, the GCPP is currently funding two projects (each up to one year in duration) to strengthen the rule of law; a Community Policing Programme (£27,500) and a programme to increase the capacity of the military and the police to apply the law (£37,500). Projects are also supported on managing the border between Colombia and its neighbours Venezuela (£25,000) and Ecuador (£25,895). Although not specifically on the drugs trade, these GCPP supported projects are assisting the Government of Colombia to tackle organised drug related crime.

DFID works in Latin America through a regional programme primarily aimed at improving the effectiveness of the World Bank and Inter-American Development Bank. In Colombia, DFID has been working with the Inter-American Development Bank and the Government of Colombia to develop a comprehensive Poverty and Inequality Strategy. This work includes studies on the determinants of rural poverty. DFID is also funding Christian Aid, CAFOD and Oxfam in Colombia to carry out work on human rights, conflict prevention and humanitarian activities.

Ethiopia

Mr. Drew: To ask the Secretary of State for International Development what support his Department has made available to those affected by the flood in Ethiopia; and if he will make statement. [91005]

Hilary Benn: DFID has provided an additional £1 million to the Humanitarian Response Fund for Ethiopia, in response to needs which have arisen as a result of the widespread flooding in South Omo, Dire Dawa and other lowland areas of Ethiopia. The Fund is managed by the UN Humanitarian Co-ordinator, with support from the UN Office for the Co-ordination of Humanitarian Affairs (UN OCHA). This is a rapid and flexible source of funds which will respond to needs as they arise and in the event of further flooding.

This contribution was made ahead of the international emergency appeal launched by the UN OCHA and the Government of Ethiopia on 25 August. DFID will continue to monitor the situation and will consider responding to any further appeal.

Iraq

Harry Cohen: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of accounting procedures for aid provided to Iraq from *(a)* non-Iraqi sources and *(b)* Iraq's own resources; what the latest estimate is of the amount of (i) missing money, (ii) misused money and (iii) money which has not been used for its intended purpose; what assessment he has made of whether pledged assistance has delivered the intended outcomes; what assessment he has made of the extent of corruption with regard to aid, including by non-Iraqi sources; and if he will make a statement. [90871]

Hilary Benn: The aid that donors provide to Iraq is subject to standard accounting procedures and rigorous auditing. All of DFID's funds are subject to rigorous internal controls. The National Audit Office audits DFID's accounts on an annual basis. Our 2005-06 audited resource accounts are available at http://www.dfid.gov.uk/aboutdfid/resource-accounts.asp.

As to the latest estimates of missing or misused donor funds, the US Special Inspector General for Iraq Reconstruction produces a quarterly report for Congress. Its report in January 2006 found that $8.8 billion under management by the Coalition Provisional Authority between May 2003 and June 2004 had less than adequate financial controls. This audit did not assert that this money could not be accounted for, but rather concluded that financial controls did not meet required standards. Further reports are available at www.sigir.mil. There are regular audits of the International Reconstruction Fund Facility for Iraq (IRFFI) run by the UN and World Bank (further details available at www.irffi.org).

Regarding estimates of UK aid missing or misused in Iraq, as set out in our 2005-06 resource accounts, DFID has evidence that £254,000 was misused by recipients. In addition, primarily due to the poor security situation, we have been unable to account properly for a further £296,000. This is out of a total of £356 million disbursed by DFID in Iraq since 2003.

Despite difficult security, donor assistance to Iraq has delivered tangible outcomes. For example, DFID has improved electricity transmission lines in southern Iraq which has secured power supplies for more than 1.5 million people. We have also helped to improve water supplies. And have provided strategic economic advice to the Ministry of Finance which helped Iraq secure an IMF Standby Arrangement in December 2005.

Regarding Iraqi sources of aid, the Government of Iraq's accounting system is old and does not accurately reflect public expenditure. Budget outturns for 2005, for example, are estimates and not full audited accounts. A new computerised system should be in place in 2007.

There are currently no reliable estimates of how much of Iraq's public money is misused or missing. There is smuggling, theft, and corruption in many sectors, especially oil. The UK, alongside the World Bank, International Monetary Fund and other donors, continues to work with the Iraqi Government as they seek to improve accountability and transparency in Iraq's public finances.

Harry Cohen: To ask the Secretary of State for International Development what assessment he has made of the effect on the level of prices for consumer goods on poor people in Iraq; and if he will make a statement. [90872]

Hilary Benn: DFID has assessed the level of consumer price inflation in Iraq, and to the extent possible, its impact on the poor. The main causes of inflation are as follows:

- the end of the sanctions regime represented a major boost to purchasing power for ordinary Iraqis, it brought down the prices for many imported goods but also caused inflation and big changes in relative prices of other goods, particularly non-traded goods;
- concurrently, the major increase in world oil prices has greatly increased the nominal GDP of Iraq since 2003, which has been a stimulus to demand and has contributed to inflation in the prices of non-traded goods;
- the Central Bank of Iraq has been roughly pegging the new Iraqi Dinar to the dollar, which is also quite inflationary given the expansion in dollar income; and
- the Iraqi Government's welcome attempts to address some of the highly distorted and subsidised prices in the Iraqi economy has, inevitably, highly inflationary effects in the short term, for example in the domestic fuel market.

There are regular surveys of prices, but the way these are compounded into an overall price level is made problematic by the absence of good survey data on what Iraqis consume. This makes it very difficult to make a good assessment of how the poor are being impacted by inflation. Our rough estimation is that very poor Iraqis are probably impacted less by inflation in Iraq than are average or richer Iraqis. Richer Iraqis consume a lot of fuel—the poor remain somewhat protected by the continued existence of the food rationing system. However, it is also likely that very poor Iraqis have seen less of the boost to incomes experienced by Iraqis as a whole.

Lebanon

Mark Durkan: To ask the Secretary of State for International Development if he will make a statement on the outcome of the Conference for Lebanon's Early Recovery held in Stockholm on 31 August 2006; what the timeframe is for the allocation of pledged money; how it is to be spent; and what other assistance will be provided. [90794]

Hilary Benn: The Stockholm conference hoped to generate a target figure of $540 million (£284 million) in pledges from the international donor community in support of the Government of Lebanon's Early Recovery Plan. The final figure pledged was $930 million (£489 million). DFID's total funding commitment to Lebanon to date, including multilateral contributions, is £22.3 million. The UK is the fifth largest bilateral contributor to the humanitarian effort in Lebanon, and we stand ready to do more as needed.

There are four priorities for the distribution of UK funds:

providing assistance for displaced people along routes of return;

securing sustained access for humanitarian convoys;

reducing the risk to those returning and aid workers from unexploded munitions;

repairing basic infrastructure such as water pumps and ensuring enough fuel reaches communities to run such essential infrastructure.

We urge those donors that have pledged funds to ensure that the full benefits of their commitment reach those most in need as soon as possible.

Nepal

Mr. Clifton-Brown: To ask the Secretary of State for International Development whether there has been Maoist intimidation of *(a)* UK aid workers and *(b)* his Department's staff in Nepal. [90903]

Mr. Thomas: Throughout the Nepal conflict there has been intimidation of DFID and other aid agency workers by both Maoists and Nepal Government Security Forces. Since the mutually agreed ceasefire in May 2006, intimidation of aid workers has decreased significantly but the situation varies across the country.

In some areas, the Maoists continue to intimidate aid workers in order to gain funds or to force formal written recognition for parallel government systems. Although the Maoist central leadership have publicly stated that development should continue unhindered and that forced collection of "taxes" by their cadres is forbidden, this directive is not uniformly followed by all regional or district Maoist representatives.

For DFID, staff safety and security is the first priority. The DFID Nepal Risk Management Office works closely with the UN and other donor agencies to manage and minimise the risks associated with acts of intimidation. Where there have been direct threats to staff safety, DFID has suspended activities in those districts where threats have been made until assurances have been received and threats withdrawn.

DFID took the lead role in producing a set of Basic Operating Guidelines which lay out the basic principles of engagement for development workers in Nepal. The guidelines have been signed by representatives of ten bilateral partners in Nepal and, in 2005, both the Maoists and the Government of Nepal committed themselves to following the principles set out in the guidelines.

Sudan

Mr. Drew: To ask the Secretary of State for International Development if he will make an assessment of the conditions in the internally displaced people's camps in Darfur; and what assessment he has made of the extent of migration back to their homelands by those who have been living in the camps. [91006]

Hilary Benn: Conditions in the Internally Displaced People's (IDPs) camps in Darfur stabilised during 2005, bringing mortality and malnutrition indicators in the majority of camps below the emergency threshold. The camps are still very basic, however, and many of the IDPs are now in their second or third year in camps originally designed to last for six months. Since the recent upsurge in violence, there have been a further 250,000 people displaced. This year there have also been outbreaks of cholera, and security has deteriorated in many of the camps. This insecurity has begun to hamper the delivery of humanitarian assistance and comes at a time of seasonal food shortages.

The number of returns made by IDPs to their homes is currently negligible. While there is some movement back to villages (generally connected to the agricultural cycle), these are largely just day trips; the pervasive insecurity preventing longer stays. The UK is actively supporting the African Union, the UN and the implementation of the Darfur Peace Agreement in order to re-establish security and the rule of law and, ultimately, create an environment in which IDPs can safely return to their homes. For this to happen a transition to a UN mission is essential.

Tuberculosis

Andrew George: To ask the Secretary of State for International Development what steps his Department is taking to help with the control and treatment of *(a)* tuberculosis, *(b)* multi-drug resistant tuberculosis and *(c)* extreme drug resistant tuberculosis in the developing world; and if he will make a statement. [91079]

Mr. Thomas: DFID is very concerned with the spread of the new, highly resistant form of tuberculosis, referred to as extreme drug resistant TB (or XDR-TB). This is virtually untreatable and is made worse by the HIV/AIDS epidemic, because HIV makes people more susceptible to TB.

Resistance to anti-TB drugs occurs because of poorly managed TB care. The best way of preventing the development of drug resistance is to ensure all TB patients complete treatment with effective drugs.

DOTS (Directly Observed Treatment Short-Course) remains at the heart of the Stop TB Strategy for effective diagnosis and treatment of TB. The World Health Organisation and partner agencies have developed the DOTS-Plus approach for the management of multi-drug-resistant tuberculosis (MDR-TB) which includes rational use of second line drugs.

In 2004, DOTS strategy was extended to cover 183 countries, and there were 4.4 million new and relapse TB cases notified, of which 2.1 million were new cases.

The UK supports TB control through a variety of channels, including bilateral country programmes and through support to international organisations and partnerships such as the Global Fund to fight AIDS, TB and Malaria (GFATM), the World Bank, the European Commission, WHO and the Stop TB Partnership.

DFID is a founder member of UNITAID (the International Drug Purchase Facility) which will be launched this month at the United Nations General Assembly, and will provide additional funding to help the scale-up of services to improve access to treatment for AIDS, TB and malaria.

The UK has already pledged to provide £100 million to GFATM in both 2006 and 2007, (subject to performance). We will also provide £5 million to support the work of the Stop TB Partnership and its Global Plan to Stop TB 2006-2015. In January this year, the Chancellor also announced new UK support to combat TB in India, where DFID will provide £41.7 million over five yeas.

The development of new drugs will be crucial to the treatment and management of multi-drug resistant (MDR) and XDR-TB. DFID has a long history of supporting research on TB and we currently support research programme consortia on communicable disease at the London School of Hygiene and Tropical Medicine and the Nuffield Centre for International Health at Leeds University. Both programmes will receive £5 million each over the next five years.

DFID is also supporting the research and development of TB drugs and diagnostics via WHO's programme on Tropical Disease Research (TDR) and the Global Alliance for TB Drugs. The Global Alliance will receive £6.5 million from 2005-08 for the development of new TB drugs.

Zimbabwe

Mr. Clifton-Brown: To ask the Secretary of State for International Development what resources have been allocated by his Department to Zimbabwe in each of the last five years; and what steps he is taking to ensure that aid reaches those for whom it is intended. [90900]

Hilary Benn: Over the last five years, DFID has spent some £143 million on programmes in Zimbabwe, broken down as follows:

Financial year	*Commitment*
2001-02	15,234,000
2002-03	29,926,000
2003-04	34,167,000
2004-05	25,584,000
2005-06	37,335,893

Most of this funding was directed to tackling HIV/AIDS and food insecurity. Since the breakdown of Zimbabwe's relations with international donors in 2002, all funding has been channelled through United Nations agencies and non-governmental organisations. We provide no funding to the Government of Zimbabwe. Our implementing partners have clear and effective procedures and monitoring systems in place to ensure that the assistance reaches the most poor and vulnerable people whom our assistance is intended to benefit. We also undertake our own monitoring and evaluation which confirms that assistance provided by the UK reaches those most in need. Along with the UN, EC and other donors, we continue to make it clear to the Zimbabwe Government that we will not tolerate political interference in the distribution of our aid.

WORK AND PENSIONS

Access to Work

Mr. Boswell: To ask the Secretary of State for Work and Pensions what the cost of Access to Work to central Government Departments was in each of the last three financial years. [90718]

Mrs. McGuire: The information is not available broken down by employer and could be provided only at disproportionate cost.

Carer's Allowance

Mark Williams: To ask the Secretary of State for Work and Pensions what percentage of those in receipt of carer's allowance have an income below 60 per cent. of median household income before housing costs. [90599]

Mrs. McGuire: Analysis of the 2004-05 Family Resources Survey and Households Below Average Incomes datasets indicates that about 13 per cent. of those receiving carer's allowance live in a household with income below 60 per cent. of median household income (before housing costs).

Correspondence

Mr. Winnick: To ask the Secretary of State for Work and Pensions when he will reply to the letter from the hon. Member for Walsall, North of 23 May, sent to HM Treasury and referred to his Department on 5 July, regarding a constituent. [87164]

Mr. Plaskitt *[holding answer 24 July 2006]:* A reply was sent to my hon. Friend on 14 August 2006.

Mr. Winnick: To ask the Secretary of State for Work and Pensions if he will arrange for a further reply to the letter dated 2 June from the hon. Member for Walsall, North to the Child Support Agency regarding a constituent; reference 320975475681/1030275572. [90633]

Mr. Plaskitt *[holding answer 11 September 2006]:* The administration of the Child Support Agency is a matter for the Chief Executive. He will write to my hon. Friend with the information requested.

Letter from Hilary Reynolds, dated 13 September 2006:

In reply to your recent Parliamentary Questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As the Chief Executive is currently on leave, I am responding on his behalf.

You asked the Secretary of State for Work and Pensions if he would arrange for a further reply to the letter dated 2nd June from the hon. Member for Walsall North to the Child Support Agency regarding a constituent; reference 320975475681/ 1030275572.

I apologise for the delay in replying to your letter of 31 May. As details about individual cases are confidential I am sending my reply to the above letter to you privately.

Mr. Winnick: To ask the Secretary of State for Work and Pensions if he will arrange for a reply to the letter dated 24 July to the Child Support Agency from the hon. Member for Walsall, North, reference 1020793538. [90834]

Mr. Plaskitt *[holding answer 11 September 2006]:* The administration of the Child Support Agency is the matter for the Chief Executive, he will write to my hon. Friend with the information requested.

Letter from Hilary Reynolds, dated 13 September 2006:

In reply to your recent Parliamentary Questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As the Chief Executive is currently on leave, I am responding on his behalf.

You asked the Secretary of State for Work and Pensions if he will arrange for a reply to the letter dated 24 July to the Child Support Agency from the hon. Member for Walsall North, reference 1020793538.

I apologise for the delay in replying to your letter dated 24 July. As details about individual cases are confidential I am sending my reply to the above letter to you privately.

Mr. Burns: To ask the Secretary of State for Work and Pensions what the reasons were for the time taken to transfer a letter from the hon. Member for West Chelmsford concerning his constituents, Mr. Forrester, Mrs. Dixty and Mr. Seal to the Department for Communities and Local Government; and if he will make a statement. [90666]

Mr. Plaskitt: The correspondence that the hon. Gentleman refers to raised a number of complex policy issues and officials in this Department had a number of discussions with colleagues in the Department for Communities and Local Government on how best to respond him. After seeking ministerial advice it was decided that the Department for Communities and Local Government would respond.

I apologise for the delay in arranging the transfer of the hon. Gentleman's letter to the Department for Communities and Local Government and acknowledge that the service provided in this case did not meet the standard that this Department aspires to and which hon. Members require. The Department is reviewing its procedures on transfers of correspondence to ensure that similar delays are avoided in future.

John McDonnell: To ask the Secretary of State for Work and Pensions how many letters have been dealt with by the Work and Pensions parliamentary correspondence teams relating to complaints about delays in receiving benefits and service delivery problems over the last three years. [90670]

Mr. Plaskitt: The information requested is not collated centrally and could be obtained only at disproportionate cost.

Disability Equality

Mr. Marsden: To ask the Secretary of State for Work and Pensions when he plans to publish the disability equality scheme for his Department; and in what formats he plans to publish the scheme. [90984]

Mrs. McGuire: We intend to publish our Disability Equality Scheme by 4 December 2006.

We will be publishing it in English, Welsh, Easy Read, Braille and Audio (download). It will also be available on both our internal and external websites.

The scheme will be published in font size 14 which meets the requirements for a large print version.

Disability Living Allowance

Tim Farron: To ask the Secretary of State for Work and Pensions what recent representations his Department has received from groups and individuals in support of an increase in disability living allowance; and what plans his Department has to increase disability living allowance. [90717]

Mrs. McGuire: Over the last six months, the Department has received no representations from groups in support of an increase of the rates at which disability living allowance is paid, but we have received such representations from 12 individuals. These include the letter the hon. Gentleman sent on behalf of his constituent to my right hon. Friend the Secretary of State for Work and Pensions on 13 July, and to which I replied on 20 July. In my letter, I advised that disability living allowance is increased every April by the rate of inflation as measured by the movement in the retail prices index. We have no plans to change these arrangements which have seen expenditure on the benefit increase by about 45 per cent. in real terms (at 2006-07 prices) from £6.1 billion in 1997-98 to an estimated £8.8 billion in 2005-06.

Health and Safety Executive

Mr. Boswell: To ask the Secretary of State for Work and Pensions what action is taken by the Health and Safety Executive to supplement its own regular inspection of major hazard sites *(a)* by unannounced check inspections and *(b)* by separate inspections by outside verification agencies. [90720]

Mrs. McGuire *[holding answer 11 September 2006]:* The majority of inspections to major hazard sites are pre-arranged, primarily to ensure that the appropriate technical staff are available to evaluate the effectiveness of the health and safety management systems including the technical measures in place for preventing and controlling major accident hazards. Unannounced visits are occasionally made where the spontaneity of such an approach is a key element of the purpose of the visit.

There is a range of requirements for independent verification in the various major hazard regulatory regimes. HSE inspectors take account of the findings of such verification inspections in their overall assessment/inspection process.

Mr. Boswell: To ask the Secretary of State for Work and Pensions what steps are being taken by the Health and Safety Executive inspectors in evaluating safety at major hazard sites to supplement audit of process and fitting operator safety systems by testing of these systems in the course of such inspections. [90721]

Mrs. McGuire *[holding answer 11 September 2006]:* It is the responsibility of the site operator to ensure that its safety systems are operated, maintained and tested as described in its safety report (where one is appropriate) and as intended.

HSE's regulation of such sites require a balance between observing workplace standards and working practices, verifying risk control measures (both hardware and software), examining supporting documentation and interviewing personnel. Inspectors adopt a variety of approaches when verifying safety critical risk control or mitigation measures. Some testing of actual safety systems may be appropriate during a visit, for example, inspectors may ask to observe a test of a safety critical control system or a mitigation measure such as an emergency response plan.

Illegal Immigrants

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what estimate he has made of the total amount of benefits paid erroneously to illegal immigrants in each of the last five years for which figures are available. [91059]

Mr. Plaskitt: The information is not available.

Illegal immigrants are not entitled to DWP administered benefits. Rigorous checking processes are built into the benefit application systems to ensure that the gateway to the benefits system is secure.

Incapacity Benefit

Lynne Jones: To ask the Secretary of State for Work and Pensions how many people are receiving incapacity benefit. [90607]

Mrs. McGuire: As at February 2006, there were 2,747,490 people in receipt of incapacity benefit or severe disablement allowance in Great Britain.

Long-term In-patients

Danny Alexander: To ask the Secretary of State for Work and Pensions how many long-term hospital in-patients received an increase in their entitlement to *(a)* income support, *(b)* jobseeker's allowance and *(c)* incapacity benefit following the introduction of new rules in April 2006; and what the average weekly increase in income was for recipients of each affected benefit. [91092]

Mr. Plaskitt: The information is not collected centrally and could be obtained only at disproportionate cost

NI Numbers

Mr. Ruffley: To ask the Secretary of State for Work and Pensions what steps his Department has taken to implement the recommendations relating to the issue of national insurance numbers contained in Lord Grabiner's 2000 report on the informal economy; and what discussions his Department has had with the Home Office in relation to implementing those recommendations. [75858]

Mr. Plaskitt: Lord Grabiner's recommendation was that the national insurance number (NINO) allocation approach performed by the Balham office in south west London be extended nationally. DWP has implemented this recommendation. Following the successful pilot at Balham office, new procedures for NINO allocation were introduced nationally at the end of March 2001. Specialist teams now carry out thorough and detailed interviews with applicants. Interviewing sites have access to sophisticated document examination tools. A secondary level of checks has been introduced in order fully to corroborate information provided by the applicant at the initial interview.

The Home Office was involved in the development of these new procedures. Furthermore, following Lord Grabiner's investigation into the informal economy, a steering group was set up in May 2000 to oversee the implementation of the recommendations contained in Lord Grabiner's report.

Mr. Laws: To ask the Secretary of State for Work and Pensions whether it has been the policy of his Department since 1997 to issue national insurance numbers to immigrants who have overstayed their permitted period in the United Kingdom; and if he will make a statement. [75819]

Mr. Plaskitt: All National Insurance Number (NINO) applications are subjected to rigorous identity checking process and where this raises questions over immigration status or authenticity of identity documents, such cases will be referred to the Immigration and Nationality Directorate.

The NINO interviewing process was primarily designed to guard against identity fraud with NINO allocation being dependent upon an individual providing sufficient evidence to prove their identity. However, on Monday 5 June 2006, we announced changes that took place from July 2006 and which introduced a "right to work" condition before a NINO can be allocated to employment-related applicants.

Overpayment Income Support

Anne Main: To ask the Secretary of State for Work and Pensions if he will investigate the alleged overpayment of income support to a constituent of the hon. Member for St. Albans, Mr. Jules Vialva. [89138]

Mr. Plaskitt: I will write separately to the hon. Lady concerning her constituent.

Parliamentary Questions

Mr. Frank Field: To ask the Secretary of State for Work and Pensions when he will answer question 79985, on benefits expenditure, tabled on 20 June 2006 by the right hon. Member for Birkenhead. [85464]

Mrs. McGuire *[holding answer 14 July 2006]:* I refer my right hon. Friend to the reply given on 25 July 2006, *Official Report*, columns 1567-68W.

Pathways Areas

Roger Berry: To ask the Secretary of State for Work and Pensions what average time has been taken to conduct the capability report in pathways areas; and what the average cost has been. [90740]

Mrs. McGuire: Information on the time taken to conduct the capability report is not collected.

It is a requirement of the Medical Services contract that the Capability Report and Personal Capability Assessment are completed during a single examination. Information gathered by the doctor during this examination is used to complete both the Personal Capability Assessment Report and the Capability Report. We estimate that completion of the Capability Report in Pathways areas adds an average six minutes to a standard Personal Capability Assessment.

Cost information is confidential and cannot be disclosed as to do so may prejudice the commercial interests of the Department and/or its suppliers.

Prisoners

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions if he will estimate the total amount of *(a)* Social Fund payments, *(b)* winter fuel payments, *(c)* attendance allowance, *(d)* disability living allowance, *(e)* carer's allowance, *(f)* retirement pension, *(g)* bereavement benefits, *(h)* maternity allowance, *(i)* reduced earnings allowance, *(j)* retirement allowance, *(k)* income support, *(l)* jobseeker's allowance, *(m)* pension credit and *(n)* statutory sick pay erroneously paid to prisoners due to (i) fraud, (ii) customer error and (iii) official error in each year since 1997. [91060]

Mr. Plaskitt: Information is not available for benefits other than income support, jobseeker's allowance, and pension credit. For the available information on these three benefits I refer the hon. Gentleman to the written answer I gave him on 24 July 2006, *Official Report*, column 872W.

Return to Work

Mr. Walker: To ask the Secretary of State for Work and Pensions (1) what research he has conducted into the impact that reasonable travel and lunch reimbursements have on supporting individuals re-entry into the labour market in a paid or voluntary capacity; and if he will make a statement; [82612]

(2) whether reasonable lunch and travel reimbursements will continue to be excluded from counting as earnings or income for people performing voluntary work; and if he will make a statement. [82613]

Mr. Andrew Turner: To ask the Secretary of State for Work and Pensions what assessment he has made of the cost to benefit claimants who are volunteering of *(a)* lunching at home and *(b)* buying lunch at or near a work place; what assumptions are made of the cost of lunches in benefit calculations; and what assessment he has made of the effect on the availability of claimants to volunteer of the decision to treat expenses paid for lunches as income for benefit purposes. [86387]

Mr. Plaskitt *[holding answer 4 July 2006]:* The Department for Work and Pensions has not carried out or commissioned specific research into the impact of reimbursing expenses to volunteers.

The Department for Work and Pensions has not undertaken any specific cost comparison of the cost of lunching at home, the work place or elsewhere; there are no plans to do so. However, we have received a number of representations from voluntary or charitable groups who have produced some evidence to suggest that many people on benefits may be discouraged from undertaking voluntary activity, or stop volunteering, if they are not able to claim the consequent additional costs of meals as an expense.

Volunteering plays an important role in helping people move off benefits and back into work. It gives people confidence, the chance to develop skills and to gain invaluable experience after a period out of work.

We do not want to create a situation whereby individuals are put off volunteering or are penalised from helping themselves and others because they cannot afford to buy something to eat.

We have therefore simplified the rules. Meals can now be treated as a reasonable expense which volunteers can claim back so that they are no longer expected to meet the cost of their lunch from their benefit.

State Pension

John McDonnell: To ask the Secretary of State for Work and Pensions what the Pensions Service accuracy rate has been for dealing with state retirement pension in the last five years; and what the related costs of official error have been. [90672]

James Purnell: The available information is in the following tables. Figures are only available since the Pension Service came into existence in April 2002.

State pension accuracy

	Accuracy rate achieved	*Percentage Standard*
2002-03	97	98
2003-04	98.6	98
2004-05	97.6	98

The 2005-06 year to date summary is 96.97 per cent. against standard of 98 per cent.

Estimates of state pension overpayments through official error

In each year the amount overpaid as a result of official error represents around 0.1 per cent. or less as a proportion of state pension expenditure.

	Estimated official error overpayment amount (£ million)
2002-03	10
2003-04	20
2004-05	30
2005-06	30

John McDonnell: To ask the Secretary of State for Work and Pensions what the process is for the audit of state retirement pension claims; and when the next audit exercise is due to take place. [90673]

James Purnell: There are a number of measures used to audit state retirement pension claims.

Internal audit (part of the Department's risk assurance division) reviews the risks and controls that support the accurate and secure payment of state pension to our customers. The next audit is scheduled for the final quarter of this financial year.

Performance measurement unit (also part of the DWP risk assurance division) measures the degree of error and the quality of decision making for state pension claims. This process is subject to validation by internal audit.

The Department's external auditors, the National Audit Office, undertake a programme of work to confirm the accuracy of state pension benefit expenditure reported in the DWP accounts.

John McDonnell: To ask the Secretary of State for Work and Pensions what the most recent estimate is of the cost of the Pensions Transformation Programme in the Pension Service. [90674]

James Purnell *[holding answer 11 September 2006]:* The information requested is in the following table.

Financial Year	*Pension transformation costs (£ million)*
2003-04	61.7
2004-05	102.6
2005-06	136.7
2006-07 (up to end of August 2006)	78.8
Total	379.8

Volunteers

Natascha Engel: To ask the Secretary of State for Work and Pensions whether he will alter the guidance in his Department's booklet, "A guide to volunteering while on benefits" to allow volunteers in receipt of income support or jobseeker's allowance to claim lunch expenses as a legitimate expense. [87389]

Mr. Plaskitt: Volunteering plays an important role in helping people move off benefits and back into work. It gives people confidence and the chance to develop skills and to gain invaluable experience after a period out of work.

We do not want to create a situation whereby individuals are put off volunteering or are penalised from helping themselves and others because they cannot afford to buy something to eat.

We have therefore simplified the rules. Meals can now be treated as a reasonable expense which volunteers can claim back so that they are no longer expected to meet the cost of their lunch from their benefit.

The guidance contained in the Volunteers Handbook will be reviewed to reflect the simplified rules.

Mr. Drew: To ask the Secretary of State for Work and Pensions what criteria were used in assessing reimbursement for lunch and other meals to volunteers as earnings rather than legitimate expenses; and what impact he expects this to have on those in receipt of benefits who choose to take up voluntary work. [79914]

Mr. Plaskitt: Volunteering plays an important role in helping people move off benefits and back into work. It gives people confidence and the chance to develop skills and to gain invaluable experience after a period out of work.

We do not want to create a situation whereby individuals are put off volunteering or are penalised from helping themselves and others because they cannot afford to buy something to eat.

We have therefore simplified the rules. Meals can now be treated as a reasonable expense which volunteers can claim back so that they are no longer expected to meet the cost of their lunch from their benefit.

John Hemming: To ask the Secretary of State for Work and Pensions (1) what consultation was undertaken by his Department in advance of the change in guidance from his Department regarding lunch expenses for those on benefits who work as volunteers; and with whom such consultation took place; [86732]

(2) what assessment he has made of the likely impact of new guidance from his Department regarding lunch expenses for those on benefits who work as volunteers on the number of those on benefits who volunteer; [86733]

(3) what estimate he has made of the number of people on benefits who do voluntary work. [86734]

Mr. Plaskitt: Volunteering plays an important role in helping people move off benefits and back into work. It gives people confidence and the chance to develop skills and to gain invaluable experience after a period out of work.

We do not want to create a situation whereby individuals are put off volunteering or are penalised from helping themselves and others because they cannot afford to buy something to eat.

We have therefore simplified the rules. Meals can now be treated as a reasonable expense which volunteers can claim back so that they are no longer expected to meet the cost of their lunch from their benefit. We have been working closely with volunteering organisations to implement the simplification quickly and smoothly.

The number of benefit recipients who choose to volunteer is not known as we do not collect this information.

CULTURE, MEDIA AND SPORT

BBC Charter

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what assessment her Department has made in the context of Charter Renewal of the impact of the BBC's local television project on the development of local newspapers. [90952]

Mr. Woodward: None. The arrangements set out in the new Charter and Agreement require that a Public Value Test (PVT) be carried out on all proposed new services before they can be approved by the Trust. The Public Value Test includes an assessment by Ofcom of the proposed service's impact on relevant markets. The BBC has committed to carrying out a PVT before any local TV service is rolled out, whether or not the new Charter and Agreement have come into effect.

Casino (Manchester)

Mr. Leech: To ask the Secretary of State for Culture, Media and Sport how many representations received by the Department in support of a regional casino in East Manchester came from individual Manchester residents. [90618]

Mr. Caborn: The Department has not received any representations from Manchester residents in support of a regional casino in East Manchester. All representations in support of a bid for one of the new casinos permitted under the Gambling Act 2005 have been made to the Casino Advisory Panel.

Details of the proposals made by local authorities to the panel are available on their website at www.culture.gov.uk/cap.

Digital Switchover

Mr. Moore: To ask the Secretary of State for Culture, Media and Sport which organisations and individuals have been consulted on the proposed scheme to help vulnerable and elderly people with digital switchover; what the budget for the scheme will be; and when she plans to announce the details of the scheme. [91018]

Mr. Woodward: We have consulted organisations representing older and disabled people through the Digital Television Consumer Expert Group who have produced two reports to Government on the equipment requirements of vulnerable consumers and support for them at and after digital switchover.

We intend to publish further details about the help scheme later this year.

Mr. Moore: To ask the Secretary of State for Culture, Media and Sport what plans the Government have to engage the services of voluntary organisations to deliver *(a)* part and *(b)* all of their proposed scheme to help vulnerable and elderly people with digital switchover. [91019]

Mr. Woodward: We are in discussions with the Digital Television Consumer Expert Group, which includes organisations representing older and disabled people, about the role of voluntary organisations in the delivery of the Digital TV Help Scheme.

Football

David Taylor: To ask the Secretary of State for Culture, Media and Sport what contribution her Department has made to the implementation of proposals contained in the *(a)* Burns Report and *(b)* European Sport Review which relate to the regulation of football in England; and if she will make a statement. [91063]

Mr. Caborn: I have held regular discussions with the FA and other football authorities since Lord Burns' report was published in August 2005. I continue to urge the FA to implement the recommendations contained in Lord Burns' report as quickly as possible to ensure it is a national governing body which is fit for purpose.

The Independent European Sport Review was published on 23 May with recommendations falling to member states, EU institutions, domestic Football Associations and UEFA to consider. The UK Government are currently considering their recommendations, in consultation with key stakeholders, and aim to respond to the Review's authors at the end of September.

London Olympics Building Programme

Derek Wyatt: To ask the Secretary of State for Culture, Media and Sport what assessment has been made of whether EU workers will be needed to fill skills gaps in the building of the London Olympics site. [90723]

Mr. Caborn: None. The Government believe that the London 2012 Olympic games and Paralympic games present a huge employment opportunity for local communities in east London which suffer from low basic skills levels and high unemployment. The London Employment and Skills Task Force is developing an action plan which will help to effect a permanent reduction in the level of worklessness in London and the Lower Lea Valley, including proposals such as:

- Establishing the Olympic site as a National Skills Academy site;
- Doubling the current rate of apprentices to workers;
- The incorporation of all ODA and LOCOG contractors' vacancies into Jobcentre Plus processes; and
- Ensuring that 15 per cent. of 50,000 person-years of jobs are filled by residents of the five east London host boroughs.

This and other programmes of work by Olympic partners are designed to ensure that local people are equipped with the skills needed to enable them to benefit from the whole range of games-related opportunities.

Derek Wyatt: To ask the Secretary of State for Culture, Media and Sport what assessment has been made of the skills upgrade required for east London citizens to be employed on the 2012 London Olympics building programme; and what discussions the Government have had with the London Organising Committee on steps to develop the necessary skills locally. [90724]

Mr. Caborn: The Government and their Olympic partners recognise the importance of ensuring a skilled workforce to deliver the Olympic park and venues on time and budget. The games represent a huge opportunity for local communities in east London and partners are developing a range of programmes to ensure that local people are well-placed to benefit from these opportunities. For example, the Olympic Delivery Authority's draft procurement policy includes a commitment to working with its contractors to provide a legacy of trained and motivated people needed for their business, in association with relevant sector skills councils. ConstructionSkills, the sector skills council for the construction industry, has established a special team—Constructing London 2012—to deliver locally available construction skills. In addition, the London Development Agency is working closely with the five Olympic boroughs to set up a job brokerage service which will be based in the Lower Lea Valley and will act as a link with contractors on skills requirements, training provision and pre-employment training.

Racing (Horse Numbers)

Mr. Morley: To ask the Secretary of State for Culture, Media and Sport how many horses she estimates have been involved in the racing industry in each of the last five years. [90709]

Mr. Caborn: The Government do not hold this information.

The British Horseracing Board, the governing body for the sport, states that the average number of horses in training in each of the last five years was as follows:

	Horses in training
2001	13,310
2002	12,986
2003	13,088
2004	13,914
2005	14,388

Sports Clubs

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the number and percentage of five to 16-year-olds who were members of, or participated in, national governing body accredited sports clubs in each year since 2002. [90712]

Mr. Caborn: Data collected by Sport England in 2005-06 show that there were 1,082,419 five to 16-year-olds participating in the accredited clubs of the 22 National Governing Bodies clubs who contribute to the Club Links Workstrand of the National School Sport Strategy. Data are not available in the requested format for years preceding this.

Test Match Cricket (TV Coverage)

Mr. Grogan: To ask the Secretary of State for Culture, Media and Sport which broadcasters have *(a)* accepted and *(b)* rejected the invitation sent by her Department on 16 May to discuss the television coverage of test match cricket. [90744]

Mr. Caborn: Arrangements for a meeting to discuss television coverage of test match cricket have yet to be finalised. However, of the broadcasters approached, BBC, Channel 4, FIVE and Sky have all indicated a willingness to attend a meeting. Only ITV, after giving due consideration to the request, have indicated that they can see no useful purpose in their attendance.

UK Film Council

Tim Loughton: To ask the Secretary of State for Culture, Media and Sport what her policy is on the distribution of funding by the UK Film Council across projects in south east England. [90970]

Mr. Woodward: The DCMS has agreed with the UK Film Council the following policy directions with regard to the English regions including the south east:

the need to ensure that all parts of the country have access to funding

the desirability of working with other organisations, including other distributors, where this is an effective means of delivering elements of its strategy.

The UK Film Council delegates funding through the Regional Investment Fund For England (RIFE) to the nine Regional Screen Agencies in support of its regional objectives, in order that the agencies can deliver locally in line with local objectives.

Through RIFE, the UK Film Council disperses a combination of Lottery and Grant in Aid Funding to Screen South, the Regional Screen Agency responsible for delivering strategy in the south east. The objectives of the Regional Investment Fund for England mirror the UK Film Council's overarching aim to stimulate a successful, vibrant film industry and to promote the widest possible enjoyment and understanding of cinema throughout the UK. Each agency, including Screen South, is active across six key areas: archives, exhibition, life long learning, locations and inward investment, production and skills training. The relative emphasis on each of these areas is agreed within each agency in response to the identified needs of the region. Neither the Secretary of State nor the UK Film Council have any input on decisions made on a project by project level.

Violent Computer Games

Mr. Walter: To ask the Secretary of State for Culture, Media and Sport what the outcome was of her Department's 2005 review of the possible link between playing violent computer games and real life violence. [90642]

Mr. Woodward: A copy of the report was published on the Department's website in February 2006. The researchers found that there was no conclusive evidence of a link between playing computer games that featured violence and violent behaviour in real life.

Mr. Walter: To ask the Secretary of State for Culture, Media and Sport how many computer games published in 2005 depicted gross violence and required a legal classification by the British Board of Film Classification; and how many of these were classified as suitable only for those over 18 years. [90643]

Mr. Woodward: A total of 1,085 computer games were released during 2005. Games can be referred to the BBFC for a number of reasons. Those which contain material that might be considered gross violence are classified at the '18' level. The BBFC considered 198 works of digital media, and 43 of these were classified '18'. The level of violence was the reason for the adult rating in 40 cases.

EDUCATION AND SKILLS

A-levels

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills (1) how many A-levels were awarded to pupils in *(a)* England and *(b)* each local education authority in 2006; and how many and what percentage were in (i) accounting, (ii) art and design, (iii) business studies, (iv) critical thinking, (v) communication studies, (vi) dance, (vii) design and technology, (viii) drama and theatre studies, (ix) film, media and television studies, (x) general studies, (xi) health and social care, (xii) home economics, (xiii) Information Communications Technology, (xiv) leisure studies, (xv) music technology, (xvi) performance studies, (xvii) performing arts, (xviii) physical education and sports studies and (xix) travel and tourism; [90622]

(2) how many A-levels were awarded in 2006 to pupils *(a)* in selective schools, *(b)* in non-selective schools, *(c)* in independent schools, *(d)* in sixth form colleges and *(e)* in further education and tertiary colleges; and how many and what percentage were in one of the subject areas identified by Cambridge University as less effective preparation for degree courses in each case. [90623]

Phil Hope: Figures showing students' A-level achievements in 2006 by institution type and local authority are not yet available. Provisional results, based on the information collected for the post-16 Achievement and Attainment Tables, will first be published as National Statistics in October 2006.

Apprenticeships

Mr. Duncan: To ask the Secretary of State for Education and Skills what estimate he has made of the number of young people aged between 16 and 22 years who have made use of the Modern Apprenticeships and the Apprenticeship Ambassadors Network in each year since 2002. [90784]

Phil Hope: The Apprenticeship programme continues to go from strength to strength with record numbers of young people participating and completion rates continuing to improve. Numbers of young people (aged 16 to 24) who have taken up an apprenticeship in England since 2002/03 are as follows:

	2002-03	*2003-04*	*2004-05*	*[1]2005-06*
Apprenticeship	24,336	43,110	45,125	47,531
Advanced Apprenticeship	18,618	9,174	8,912	18,979
Total	42,954	52,284	54,037	66,510

[1] September 2005 to May 2006.

Note:
Figures cannot be broken down into specific age groups but are for the whole of the Apprenticeship cohort, from age 16 to 24.

The new Apprenticeship Ambassador Network (AAN) was launched as a successor to the Apprenticeship Task Force in April this year. The AAN's key aim is to champion apprenticeships to employers of all sizes with the aim of increasing take-up, particularly in sectors with poor penetration.

Children and Young People's Plan

Annette Brooke: To ask the Secretary of State for Education and Skills which local authorities did not publish a Children and Young People's Plan by 1 April. [90567]

Phil Hope: The Department for Education and Skills does not collect data on precisely when local authorities published their Children and Young People's Plan. Officials at the Department ran a compliance check during July and can now confirm that all local authorities that are required to do so have published a plan.

Committee on Treatment in Custody

Mr. Beith: To ask the Secretary of State for Education and Skills what representations he has received from the Howard League on the proposals of the committee on treatment in custody chaired by Lord Carlile, QC; and what response he has given. [90655]

Phil Hope: The Youth Justice Board published its response to the recommendations of Lord Carlile's report in July 2006.

During 2006, DfES Ministers have held two meetings with representatives of the Howard League. The subject of these meetings was access to services for young people on release from custody.

Communication Aids Project

Mr. Oaten: To ask the Secretary of State for Education and Skills (1) how many children received equipment under the Communication Aids Project up to March 2006; and if he will make a statement; [90562]

(2) what assessment has been made of the impact on users of ending the Communication Aids Project; what plans there are for further funding of the project; and if he will make a statement. [90563]

Phil Hope: The Communication Aids Project (CAP) went live in April 2002 and closed in March 2006. During the lifetime of the project, 4,193 children received equipment geared to their particular needs based on specialised assessments.

CAP was a time-limited DFES initiative intended to supplement, not replace, provision made by local agencies such as local authorities, schools and health authorities. No assessment has been made of the impact of closure on users and there are no plans at present to renew funding for the project.

Departmental Travel

Mr. Laws: To ask the Secretary of State for Education and Skills what plans he has to ensure that all flights undertaken by Ministers and officials in his Department are carbon neutral; and if he will make a statement. [81395]

Mr. Dhanda: All central Government ministerial and official air travel is being offset from 1 April 2006. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to a central fund. The fund purchases Certified Emissions Reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

Enterprise Summer School Pathfinders

Mrs. Villiers: To ask the Secretary of State for Education and Skills if he will place in the Library a copy of the standard curriculum for the enterprise summer school pathfinders; how many such schools were held in summer 2006; for how many days each school was held; between what hours of the day each school was held; what criteria are being assessed to measure the effectiveness of such schools; and pursuant to the Answer of 4 September 2006, Official Report, column 1981W, which of the businesses listed in the Answer subsequently confirmed their interest in participating in the schools. [90910]

Phil Hope: As yet, there is no standard curriculum for the Enterprise Summer School pathfinders. The evaluation that is being conducted by Oxford University assessed 23 approaches to five different models. The initial report is due in October and the final report in December. Together these will make recommendations on standard content based on the findings from the pathfinders.

23 pathfinder Enterprise Summer Schools were run in 2006, with at least one in each UK region. The duration was between five and 10 days depending on which model was being run. For non-residential models, normal school hours were maintained. For residential models, evening activities were also included.

Many more businesses took part than known in the previous answer given by my hon. Friend the Minister for Schools. The full list of participating businesses has been placed in the Libraries.

Family Court

David Taylor: To ask the Secretary of State for Education and Skills how long, on average, the Children and Family Court Advisory and Support Service keeps the records of welfare cases heard in the Family Court in its archives. [90944]

Phil Hope: This is a matter for the Children and Family Court Advisory and Support Service (CAFCASS). Anthony Douglas, the Chief Executive of CAFCASS, will write to the hon. Member with this information and a copy of his reply will be placed in the House Library.

Letter from Anthony Douglas:

I am writing to you in response to the parliamentary question that you tabled recently: How long, on average does the Children and Family Court Advisory and Support Service keep the records of welfare cases heard in the Family Court in its archives?

Statutory guidance for care and related proceedings and for adoption cases is followed by CAFCASS. The retention schedules for records held by CAFCASS are as follows:

Care & related proceedings (Public law)	Until the youngest child reaches 21 years.
Adoption	Until the youngest child in proceedings reaches 75 years.
Private law cases	Between 5-7 years following the end of proceedings.

CAFCASS is currently developing new guidance, to ensure that a comprehensive national schedule is in place, which also takes account of recent policy developments in the field.

Funding

Helen Jones: To ask the Secretary of State for Education and Skills how much funding *(a)* in total and *(b)* per pupil has been allocated to Warrington Education Authority in each year since 1997. [91053]

Phil Hope: The following table sets out the total funding received by Warrington local education authority for its pupils for the years 1997-98 to 2005-06:

Warrington local education authority

	Total funding (£ million)	*Funding per pupil (£)*
1997-98	83.7	2,660
1998-99	88.1	2,710
1999-2000	91.4	2,810
2000-01	100.2	3,020
2001-02	105.2	3,150

Warrington local education authority

	Total funding (£ million)	*Funding per pupil (£)*
2002-03	108.0	3,240
2003-04	112.1	3,340
2004-05	114.9	3,460
2005-06	120.0	3,650
Change[1]	36.4	980

[1] Change since 1997-98.

Notes:

1. Price Base: real terms at 2004-05 prices, based on GDP deflators as at 23.12.05.
2. Figures reflect relevant sub-blocks of standard spending assessment/education formula spending (EFS) settlements and exclude the pensions transfer to EFS and LSC.
3. Total funding also includes all revenue grants in DfES departmental expenditure limits relevant to pupils aged 3-19 and exclude education maintenance allowance (EMAs) and grants not allocated at LEA level.
4. The pupil numbers used to convert £m to £ per pupil are those underlying the SSA/EFS settlement calculations plus PLASC 3-year-old maintained pupils and estimated 3 to 4-year-olds funded through state supporting maintained and other educational institutions where these are not included in the SSA pupil numbers.
5. Rounding: total funding is rounded to the nearest £0.1 million. Per pupil figures are rounded to the nearest £10. Figures may not total due to rounding.
6. Status: 2003-04 to 2005-06 figures are provisional as some grants have not yet been finalised/audited.
7. 1997-98 figures for authorities subject to local government re-organisation in that year (such as Warrington) have been estimated, pro-rata to their post LGR figures.

The following figures are taken from the new dedicated schools grant. They are not comparable with those for the earlier years:

	Total DSG (£ million)	*Guaranteed unit of funding (£)*
2005-06 Baseline	100.108	3,205.76
2006-07 DSG	105.260	3,414.00

Notes:

1. The figures from 1997-98 to 2005-06 are based on education formula spending (EPS) which formed the education part of the local government finance settlement, plus various grants. This was an assessment of what local authorities needed to fund education rather than what they spent. In 2006-07 funding for schools changed with the introduction of the dedicated schools grant (DSG) which is based largely on an authority's previous spending.
2. The DSG has a different coverage to EFS. EFS comprised a schools block and an LEA block (to cover LEA central functions) whereas DSG only covers the schools block. LEA block items are still funded through DCLG's local government finance settlement but education items cannot be separately identified. This means there is a break from 2006-07 onwards in the funding series and the two sets of figures are not comparable. A new funding series is currently being developed by the Department.
3. There are other grants that support the schools budget. These are not included in the provided DSG figures as some of these grant figures are not yet available.
4. Figures are in cash terms and include the pensions transfer.

Helen Jones: To ask the Secretary of State for Education and Skills (1) which schools in Warrington North have received funding for capital projects in each year since 1997; and how much was allocated and for what purpose in each case; [91054]

(2) how much capital funding has been allocated to Warrington Education Authority in each year since 1997. [91055]

Phil Hope: School capital allocations are made by the Department on a local authority basis. These, together with any other local resources, are prioritised between schools in accordance with local authority asset management plans. The Department does not keep records of allocations to individual schools.

Capital funding allocated to Warrington borough council and schools in its area in each year since 1998, the first year in which central records are available, is set out in the following table, in £ million.

	£ million
1998-99	3.7
1999-2000	4.7
2001-01	8.7
2001-02	9.0
2002-03	10.0
2003-04	8.8
2004-05	8.0
2005-06	9.8
2006-07	11.6

Further Education

Mr. Truswell: To ask the Secretary of State for Education and Skills what assessment he has made of the impact of the targeting of further education funding according to Priorities for Success on the level of provision of courses in *(a)* Leeds and *(b)* England for (i) people with learning disabilities and (ii) other priority groups; and if he will make statement. [90924]

Phil Hope: Funding for provision for people with learning difficulties and/or disabilities has increased significantly over recent years, and in 2004/05 the Learning and Skills Council (LSC) supported more than 641,000 learners with learning difficulties and/or disabilities which accounted for nearly £1.5 billion. Continued investment in this provision remains a priority. This was stated in the Department's Grant Letter to the LSC for 2006-07, and was built upon by the LSC in their Annual Statement of Priorities for 2006/07.

The LSC's funding strategy set out in Priorities for Success, realigns funding to support the Government targets, apprenticeships, Train to Gain, and free first full level 2 while protecting support for disadvantaged adult learning and securing more resource for those with learning difficulties and disabilities. Priorities for Success makes clear that support for disadvantaged adults who lack basic and level 2 skills for employability and progression to Level 3 is a priority, with free tuition for learners studying basic skills, a first level 2, and for all those on income-related benefits

Mr. Marsden: To ask the Secretary of State for Education and Skills (1) what proportion of the total budget for further education was spent on adult students with learning disabilities in each *(a)* institution and *(b)* region in each of the last five years; [90985]

(2) how much funding was provided for further education for adult students with learning disabilities in each *(a)* institution and *(b)* region in each of the last five years. [90986]

Phil Hope: The Learning and Skills Council allocates specific budgets to institutions or regions for adult learners with learning difficulties and/or disabilities, therefore we do not hold the detail of institutional funding. Funding for provision for people with learning difficulties and/or disabilities has increased significantly over recent years, and in 2004/05 the Learning and Skills Council (LSC) supported more than 641,000 learners with learning difficulties and/or disabilities, which accounted for nearly £1.5 billion.

Continuing investment in this provision remains a priority, which was confirmed in our 2006-07 Grant Letter to the LSC, and the LSC has in turn made clear in its strategic planning guidance the priority it attaches to this provision. Information on individual institutions can be found at the institution's website and performance information on Ofsted's website (www.ofsted.gov.uk)

Law Students

Mr. Marsden: To ask the Secretary of State for Education and Skills what publicly-funded assistance is available to mature students to study law and subsequently train as lawyers. [90610]

Phil Hope: Mature students are generally able to receive support to study law degrees on the same basis as younger students and on the same basis as for other degree courses. For full-time students, new rates of student support in 2006/07 offer above—inflation increases in the amount of maintenance loan available to students (up to £6,170 in London). These maintenance loans are available to students under the age of 60. New fee loans of up to £3,000 ensure that no eligible student pays upfront fees. Student loans for maintenance and tuition fees incur no real rate of interest, are repaid only when graduate earnings are £15,000 or more and are written off after 25 years.

A means tested HE maintenance grant of up to £2,700 has been introduced for new students, who will also receive institutional bursaries of at least £300 if they pay fees of £3,000 at a publicly-funded institution. Students with dependants can claim additional grants including adult dependants grant (worth up to £2,455), parents learning allowance (worth up to £1,400) and a child care grant (worth up to £8,840). In addition, student parents are eligible to receive child tax credit from the Inland Revenue. Some students are also eligible for university access to learning funds and disabled students allowances. Mature law students who do not qualify for undergraduate support may be eligible for a career development loan which has an element of subsidy from public funds.

Part-time mature students receive the same support as other part-time students. In 2006/07 a fee grant of up to £1,125 is available, depending how intensive the course is, together with a course grant of up to £250.

Mature students can apply for the training contract grant scheme (TCGS) which is administered by the Legal Services Commission. The TCGS provides financial support to law students wishing to work in the legal aid sector.

The information given is in relation to England.

London Olympics (Building Skills)

Derek Wyatt: To ask the Secretary of State for Education and Skills what courses are available for citizens in east London to upgrade their skills so that they can apply for employment on the London Olympics site. [90722]

Phil Hope *[holding answer 11 September]:* In preparation for the Olympics, Construction Skills—the Sector Skills Council, have set up a team "Constructing London 2012" to identify the skills needed to deliver the Games. They are working closely with the Learning and Skills Council to identify training requirements for the site and Mark Haysom, the LSC Chief Executive, will write to you with further details. In addition, we are completing the national roll-out of the Train to Gain to service to help equip employees to upgrade their skills.

Letter from Mark Haysom:

I write in response to your recent Parliamentary Question in which you asked what courses are available for citizens in East London to upgrade their skills so that they can apply for employment on the London Olympics site. I am happy to provide the following information.

In preparation for the Olympics a range of actions are already being undertaken:

The London region LSC and LDA have published research that analyses previous Olympics and Paralympic Games helping to forecast the skills and employment opportunities that the Games will create.

Construction Skills—the Sector Skills Council, have set up a team "Constructing London 2012" to identify the specific skills needed to deliver the Games.

The London Employment and Skills Taskforce, as requested by Misc 26, have an action plan in the consultation phase which identifies specific projects and actions designed to help Londoners access the employment and learning opportunities driven by the Games.

A £15 Million European Social Fund has already been contracted to deliver underpinning activity to support learners and build capacity across 3 regions, East of England, South East of England and the London, managed in partnership by the regional LSCs and RDAs.

In addition, we are expanding Train to Gain in line with the recommendations of the Women and Work Commission to focus on training at level 3 for occupational areas where women are under-represented.

The London Region LSC will invest in excess of £1 billion per year in post-16 education throughout London in the years preceding the Games. East London already has in place a wide variety of learning available to it's citizens throughout all 6 boroughs including e-learning, Apprenticeships, Skills for Life, ESOL and National Vocational Qualifications delivered through a comprehensive provider base including Further Education Colleges, Work Based Learning Providers, Sixth Form Colleges and the Voluntary and Community sector.

As an example of current planning and investment, East London already has in place 4 major Further Education Centres of Vocational Excellence surrounding the Olympic site, specialising in Construction Skills at all levels, and working together as a One Stop Shop for construction learning and employment in conjunction with the local authorities and JobCentre Plus.

I trust this is helpful.

Post-graduate Debt

Andrew Rosindell: To ask the Secretary of State for Education and Skills what steps are being taken to reduce the level of post-graduate debt. [88805]

Bill Rammell: Higher education is the best investment most people will make, with a substantial graduate premium compared with what a similar individual would have earned if they just had A-levels. There is now more money available to students from the student finance system and, where this is in the form of student loans, the debt incurred is quite unlike commercial debt. Students repay student loans after they have left university or college and only in real terms the same amount that they originally borrowed. Graduates do not pay back until they are in work and earning more than £15,000. Someone on the average graduate starting salary of £18,000 could be paying only £5.19 per week. If at any time their income drops below £15,000 the repayments will stop until they are earning more again. We have also provided that, if after 25 years students starting in 2006/07 or later have still not paid back all their student loan, the Government will pay it off for them.

There are also new grants which should benefit up to half of new entrants to full time courses. From 2006/07 lower income students are eligible for maintenance grants of up to £2,700 and minimum university bursaries of £300, typically £1,000, which gives them the option to reduce potential loan debt substantially.

Pupil Performance

Mr. Brady: To ask the Secretary of State for Education and Skills if he will list the local education authorities in England in order of percentage of pupils achieving *(a)* A* to A, *(b)* A* to B and *(c)* A* to C in five or more subjects including English and Maths at GCSE in 2006, stating in each case whether the local authority is selective, partially selective or comprehensive. [91067]

Phil Hope: Figures showing GCSE attainment in 2006 by local authority are not yet available. It is also not possible at this stage to calculate numbers of pupils achieving GCSEs or how many GCSEs they achieved. Provisional results, based on the information collected for the School and College Achievement and Attainment Tables, will first be published as National Statistics in October 2006.

School Meals

Mr. Goodwill: To ask the Secretary of State for Education and Skills what steps he is taking to ensure that school meals contain popular, nutritionally balanced staple foods. [90659]

Phil Hope: To ensure that school meals contain nutritionally balanced staple foods we have introduced new standards for school lunches. In addition the School Food Trust has issued guidance 'Eat Better Do Better—a guide to introducing the Government's new food based standards for school lunches'. The guidance explains why the new school food standards need to be in place, offers serving suggestions and gives advice on good practice to school caterers.

Mr. Goodwill: To ask the Secretary of State for Education and Skills (1) what the average *(a)* fat and *(b)* saturated fat content is of manufactured potato chips (i) deep fried and (ii) baked in ovens as their final cooking method in schools; [90660]

(2) whether manufactured chips which are *(a)* deep-fried and *(b)* baked in ovens as their final cooking method are classified in the same way under the new food-based standard for school meals in terms of the frequency with which they are allowed to be served; [90662]

(3) when he has met the School Food Trust to discuss the classification of deep-fried products; and what advice and recommendations he has received from the Trust on this subject. [90663]

Phil Hope: The following data on the fat and saturated fat content of fried and oven baked chips is taken from the UK food composition tables McCance and Widdowson's "The Composition of Foods, sixth edition (2002)".

	Fat g/100g	*Saturated Fat g/100g*
Oven chips, frozen, baked	4.2	1.8
Chips straight cut, frozen fried in blended oil	13.5	1.2

These figures are averages based on analysis of samples cooked according to normal domestic practice. They are not based on chips cooked in schools.

The regulations that set new school lunch standards place restrictions on the frequency that foods which are deep-fried in the cooking or manufacturing process can be served in schools. This means deep-fried chips and chips that are 'flash-fried' during the manufacturing process and baked in ovens as their final cooking method would be restricted by the regulations.

The Secretary of State for Education and Skills has not met with the School Food Trust (SFT); however the Minister responsible for School Food has quarterly meetings with the SFT. The meetings are an opportunity to discuss progress made against targets and policy issues, including school food standards. Deep-frying issues have been discussed in general terms although no specific advice or recommendations have been received.

Mr. Goodwill: To ask the Secretary of State for Education and Skills which foods meet the relevant Food Standards Agency voluntary nutritional specifications for their category, but are excluded or restricted from school menus by the food-based standards. [90661]

Phil Hope: There will be a number of foods that meet the Food Standards Agency's voluntary Target Nutrient Specifications (TNS) for manufactured foods used in school meals but which are restricted by the new statutory school lunch nutritional standards in England. Of foods covered by the Food Standards Agency's TNS only savoury snacks and crisps are excluded by the new standards.

The purpose of the TNS is to assist school caterers across the UK to choose healthier products for use in school meals. The TNS will help schools to meet the wider nutrient-based school lunch standards that will be introduced in primary schools and secondary schools in England from September 2008 and September 2009 respectively.

Schoolchildren (Bristol)

Kerry McCarthy: To ask the Secretary of State for Education and Skills what percentage of children of school age living in Bristol local education authority area attend *(a)* primary and *(b)* secondary schools which are located outside the local education authority boundaries; and what percentage of these schools are in the independent sector. [90586]

Phil Hope: We are unable to provide residency based figures for children educated in the Independent sector as the Department does not collect individual level information for pupils in the Independent sector.

The information for primary and secondary schools in the maintained sector has been provided in the following table:

	Number of pupils[2] residing within Bristol local authority	*Number of pupils[3] residing within Bristol local authority who attend schools outside of the local authority*	*Percentage of pupils[3] residing within Bristol local authority who attend schools outside of the local authority*
Primary[1]	29,807	1,208	4.1
Secondary[2]	20,162	4,272	21.2
Total	49,969	5,480	11.0

[1] Includes primary and middle deemed primary.
[2] Includes secondary, middle deemed secondary, City Technology Colleges and Academies.
3 Includes pupils aged 5 to 15 years, solely registered or main registration of dually registered pupils, excludes boarders.
Source:
School Census 2006

Schoolchildren (Expenditure)

Harry Cohen: To ask the Secretary of State for Education and Skills how much was spent in real terms on each school child in *(a)* England, *(b)* Waltham Forest and *(c)* Redbridge in (i) 2005-06 and (ii) 1995-96. [90879]

Phil Hope: The available information is contained in the following tables. The Department is currently collecting the financial information for 2005-06.

Expenditure per pupil on education in Waltham Forest, Redbridge and England in financial year 2004-05—Real terms figures at 2005-06 prices[1] as reported by local authorities in their 2004-05 outturn statements as at 6 September 2006[2]

£

	2004-05 at 2005-06 prices		
	Primary school based expenditure per pupil[3]	*Secondary school based expenditure per pupil[3]*	*Combined local authority and school based expenditure per pupil[5]*
Waltham Forest	3,460	4,500	4,560
Redbridge	2,890	4,050	4,290
England	2,980	3,880	4,230

£

	1995-96 at 2005-06 prices		
	Pre-primary/ Primary school based expenditure per pupil[3,4]	*Secondary school based expenditure per pupil[3]*	*Combined local authority and school based expenditure per pupil[5]*
Waltham Forest	2,550	3,380	4,020
Redbridge	2,290	3,290	3,730
England	2,180	2,960	3,420

[1] Real terms figures calculated using GDP deflators as at 30 June 2006.
[2] 2004-05 data are subject to change by the local authority. All figures are rounded to the nearest £10.
[3] School-based expenditure includes only expenditure incurred directly by local authority schools. This includes the pay of teachers and school-based support staff, school premises costs, books and equipment, and certain other supplies and services, less any capital items funded from recurrent spending and income from sales, fees and charges and rents and rates. This excludes the central cost of support services such as home to school transport, local authority administration and the financing of capital expenditure. The pupil data are drawn from the DFES Annual Schools Census adjusted to be on a financial year basis.
[4]. Expenditure was not distinguished between the pre-primary and primary sectors until the inception of Section 52 for financial year 1999-00.
[5] Combined local authority and school-based expenditure includes all expenditure on the education of children in local authority maintained establishments and pupils educated by the authority other than in maintained establishments. This includes both school-based expenditure and all elements of central LA expenditure except youth and community and capital expenditure from revenue (CERA). Certain elements of central local authority expenditure cannot be attributed to a particular phase of education and consequently a sector breakdown is not available. Pupil figures include all pre-primary pupils, including those under-5s funded by the authority and being educated in private settings (only available from 1999-00), pupils educated in maintained mainstream schools and any other local authority maintained pupils. All pupil numbers are adjusted to be on a financial year basis.

Schools (Outside Bodies)

Mr. Bone: To ask the Secretary of State for Education and Skills what percentage of schools permit activities of outside bodies on their premises. [90592]

Phil Hope: Schools may offer activities, both directly and through third-party providers from the private, voluntary and independent sectors, on their premises. They may also let their premises to outside bodies, such as sports clubs and community groups. The Department does not collect data on all such usage centrally; however, a baseline survey of extended services in a sample of maintained schools in 2005 found that 75 per cent. of primary schools and 97 per cent. of secondary schools permitted some outside use of their facilities. We are committed to ensuring that by 2010 all maintained schools in England become extended schools, providing access to a core offer of opportunities and services, including activities for pupils, family learning and adult learning available to the wider community. We are on track to achieve our target for 2,500 schools to provide this offer by the end of this month; and for half of all primary schools and third of secondary schools to do so by 2008. More than 10,000 schools are already working with their local authorities and with our partner organisation, TDA Development, to develop extended services.

Sexual Orientation Regulations

Andrew Selous: To ask the Secretary of State for Education and Skills whether the content of school assemblies will be covered by the sexual orientation regulations. [90706]

Phil Hope: The sexual orientation regulations currently being developed by the Department for Communities and Local Government are being put in place to prevent discrimination against individual pupils on grounds of their sexual orientation, or that of their parents or other people with whom they are associated. It is not the intention of the regulations to place a duty on schools to change the content of the curriculum, collective worship, assemblies or any other aspect of teaching in schools.

Special Needs Education

John Bercow: To ask the Secretary of State for Education and Skills what steps are being taken by his Department to increase awareness among *(a)* parents and *(b)* professionals working with children on how to support children with a speech and language disability. [90684]

Phil Hope: Parental awareness of speech, language and communication difficulties is very important. In 2005, the Department published a detailed information booklet for parent on speech and language difficulties under our Early Support Programme. This resource was produced in close collaboration with specialist organisations in the voluntary sector and the Royal College of Speech and Language Therapists. It explains how children normally develop communication, language and speech, how adults can help in this, the difficulties that can arise and how to seek help from professionals.

The Department has supported a longitudinal study by the University of Warwick looking into the learning needs of a group of children with specific language and communication difficulties, the characteristics of the current provision made for them and its impact, their aspirations for the future and the ways in which services can best support them. The results of the study are due to be published in autumn 2006.

The Primary and Secondary National Strategies have also produced a range of support and guidance to schools and childcare settings on the teaching of English and the development of speaking and listening skills, including frameworks to help teachers meet the requirements of the National Curriculum. We are reviewing the frameworks to provide more detailed and up to date guidance for schools which will be available before half term. We have also provided national training materials—"Communicating Matters"—for practitioners in early years Foundation Stage settings to specifically support children's early language acquisition.

The DfES and the Department of Health have jointly commissioned an independent scoping study to identify, for relevant professionals and other interested parties, examples of good practice in the effective delivery of speech and language therapy services to children and young people with special educational needs aged 0 to 19. A research team from Canterbury Christ Church University is carrying out the study and the fieldwork in currently under way. We expect to receive the final report on the scoping study early in the new year.

John Bercow: To ask the Secretary of State for Education and Skills whether he plans to change the statementing process for children with special educational needs; and if he will make a statement. [90685]

Phil Hope: The Government have no current plans to change the statementing process. We are considering the recent report of the Education and Skills Committee's inquiry into special educational needs in which a review of policy is recommended and will respond in due course.

John Bercow: To ask the Secretary of State for Education and Skills if his Department will set national guidelines on assessment and categorisation of special educational needs. [90686]

Phil Hope: Guidance on carrying out statutory assessments of special educational needs are given in the Special Educational Needs Code of Practice (2001), to which all local education authorities and schools must have regard. The code recognises that there are no hard and fast categories of need for assessment purposes. It identifies four broad types of need: communication and interaction; cognition and learning; behaviour, emotional and social development; and sensory and/or physical needs, but it stresses that each child is unique and that children may have needs that fall into more than one area. The code makes clear that children's needs must be considered on an individual basis.

Student Loans Company

David Taylor: To ask the Secretary of State for Education and Skills what recent assessment has been made of the *(a)* security and *(b)* reliability of the Student Loans Company's IT systems. [90802]

Phil Hope: The Student Loans Company (SLC) routinely commissions independent security assessments before new online services are launched to highlight any weaknesses and addresses these prior to the service becoming operational.

A major independent review of the single IT system, administered by the SLC and used by local authorities and the SLC to process and pay student loan applications, was conducted over the period June to September 2005 by Gartner Consulting, a recognised global leader in technology futures and evaluation methodologies. Gartner reported average system transaction times and the handling of peak volume throughput to be on par with industry examples and system availability when tested to be 100 per cent. within service level hours.

NORTHERN IRELAND

Advertising Campaigns

Lynne Featherstone: To ask the Secretary of State for Northern Ireland what advertising campaigns the Department ran between 2000 and June 2004; and what the *(a)* date and *(b)* cost was of each. [87058]

Mr. Hain: Following are the details of advertising campaigns (excluding classified advertising for recruitment) which took place within the Northern Ireland Office between 2000 and June 2004, along with the date and cost of each.

Advertising campaign	*Date*	*Cost (£)*
60 Second Car Checklist—aimed at protecting your car against car crime	13-22 December 2000	6,768.00
6 Steps to Protect your Home—aimed at protecting your home e.g. from burglars	16 March 2001	5,943.15
Going on Holidays—press advert on what precautions to take, actions to take when going on holidays e.g. cancelling newspapers etc.	5-18 July 2001	7,918.17
Creeper Burglary—protection for your car and precautions to take.	7 September to 16 October 2001	7,314.08
Stay Safe Stay Secure—aimed at the public's own personal safety in the home from intruders	13 October to 2 November 2003	112,241.97
Reclassification of Cannabis	15 March 2004	4,324.18
Stay Safe Stay Secure—As above	5-7 April 2004	56,777.80
'Are you a Victim of the Troubles'—aimed at victims of the troubles in NI to raise awareness of the help available from the NI Memorial Fund	March 2005	43,762.00
Tender Invitations for supply of Equipment—this was for a scientific piece of equipment to be used in Forensic Science NI. As it was expensive it was necessary to go through the process of advertising.	March 2004	897.92
NI Fireworks Safety Campaign, Schools and Public Awareness	2000-01	38,759.41
NI Fireworks Safety Campaign, Schools and Public Awareness	2001-02	15,047.04
NI Fireworks Safety Campaign, Schools and Public Awareness	2003-04	23,500.00
Total		323,253.72

Agency Staff

Ms Katy Clark: To ask the Secretary of State for Northern Ireland what average hourly rate was paid by his Department to each employment agency for staff employed through agencies in 2005-06. [81492]

Mr. Hain: We cannot provide the information requested by the hon. Member. To do so would be at disproportionate cost. However, the total amount spent by the Northern Ireland office, excluding its Agencies and NDPBs, on staff employed through various employment agencies in the financial year 2005-06 was £213,227.

Arrest Warrants

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many arrest warrants have been issued in respect of individuals released from prison in the Irish Republic in the last five years. [74459]

Paul Goggins: The Police Service of Northern Ireland advises that the information sought by the hon. Gentleman would require an examination of all relevant warrants and could be provided only at disproportionate cost.

Automated Number Plate Readers

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many offenders were caught by automated number plate readers in Northern Ireland in the last year, broken down by area. [77365]

David Cairns: In the last year 16,973 offenders were caught by automated number plate readers for vehicle excise duty evasion in Northern Ireland. The figures are not broken down by area.

The PSNI has recently installed automated number plate readers in approximately 75 vehicles but at this stage it is too early to provide data on the number of detections.

Carbon Emissions

Chris Huhne: To ask the Secretary of State for Northern Ireland what recent estimate he has made of the carbon emissions of his Department; what commitment he has made to reducing such emissions; and if he will make a statement. [81055]

Mr. Hain: The Northern Ireland Office has not made any recent estimate of its carbon emissions. However, the NIO is committed to promoting sustainable development and is working with the Northern Ireland Departments on developing strategies which will include reduction of carbon emissions. In addition the NIO is a participant in the Government Carbon Offsetting Fund, which aims to offset all carbon emissions from ministerial and official air travel.

Child Arrests

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many children have been arrested by the Police Service of Northern Ireland following attacks on schools and churches in each of the last three years, broken down by district command unit; and if he will make a statement. [87988]

Paul Goggins: The PSNI does not keep statistics on the number of arrests made and to obtain such information could be done only at disproportionate cost.

Children and Young People's Action Plan

Mr. Dodds: To ask the Secretary of State for Northern Ireland what plans there are to involve children and young people in the development of the draft Children and Young People's Action Plan. [88909]

Maria Eagle: It is intended to have a first draft of the action plan before autumn 2006. Consideration is currently being given to how we effectively involve children and young people in the first and future action planning processes. I also intend to seek the views of the all-party group on children and young people and other key stakeholders on how this can be effectively achieved.

Civil Servants

David Simpson: To ask the Secretary of State for Northern Ireland how many civil servants employed as civilian support staff in the Police Service Northern Ireland have transferred their status to direct employees *(a)* in total and *(b)* in each of the last five years; and how many have subsequently had their terms and conditions altered. [88255]

Paul Goggins: The following table shows the number of civil servants employed as civilian support staff in the Police Service of Northern Ireland that have transferred their status to direct employees from the start of the scheme in 2001.

The change in status can only be achieved by internal promotion. The only terms and conditions of employment that changed on transfer related to pay.

	Number of Staff
2001	77
2002	129
2003	78
2004	87
2005	61
2006	21
Total number	453

Computing Equipment

Mr. Weir: To ask the Secretary of State for Northern Ireland how many *(a)* USB (i) flash drives and (ii) memory sticks, *(b)* compact discs, *(c)* DVD-ROM discs, *(d)* laptop computers, *(e)* external computers hard drives, *(f)* internal computer hard drives and *(g)* desktop computers were purchased for use in his Department in each month since March 2005. [88762]

Paul Goggins: The table relates to equipment ordered for the NIO core during the financial year 2005-06 and is the total under each heading. Production of this information on a monthly basis could be done at disproportionate cost.

The figures, in particular those relating to *(a)*, *(b)* and *(c)* are approximate as there may be additional items purchased throughout the Department that we are not aware of.

Item	*Number purchase 2005-06*
(a) USB (i) flash drives and (ii) memory sticks	57
(b) compact discs	325
(c) DVD-ROM discs	0
(d) laptop computers	46
(e) external computers hard drives	1
(f) internal computer hard drives	23
(g) desktop computers	129

Crime Statistics

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* incidents of criminal damage, *(b)* domestic burglaries, *(c)* offences against a person, *(d)* sexual offences, *(e)* fraud and forgery crimes, *(f)* offences against the state and *(g)* violent crimes were recorded in each district command unit in Northern Ireland in (i) 2004-05 and (ii) 2005-06, broken down by (A) urban and (B) rural area. [78725]

Paul Goggins: The information requested has been placed in the Library.

Criminal Offences

Mr. Clegg: To ask the Secretary of State for Northern Ireland how many criminal offences his Department has created by Orders in Council in each year since 1997. [88469]

Mr. Hanson: This information is not held centrally and could be provided only at disproportionate cost.

Departmental Hospitality

Mr. Heald: To ask the Secretary of State for Northern Ireland how much was spent on entertainment by his Department in 2004-05; and how much of that sum is accounted for by *(a)* food, *(b)* alcohol, *(c)* staff and *(d)* accommodation. [50894]

Mr. Hain: Due to an administrative error the answer to the hon. Member's question was not submitted and I apologise for the late reply.

We cannot provide the information in the format requested by the hon. Member.

The information requested is captured under "hospitality", which includes food, alcohol and other related costs. The amount spent on hospitality by the Northern Ireland Office, excluding its agencies and NDPBs, in 2004-05 was £258,436.

All expenditure of official hospitality is made in accordance with published departmental guidance on financial procedures and propriety, based on principles set out in Government Accounting. The level of hospitality must be defined, and a broad outline of cost and numbers attending must be provided on all occasions before authorisation. Expenditure should be kept as low as possible, compatible with the occasion and the standing of guests.

A necessary pre-condition for any entertainment or hospitality to be financed from NIO funds is that it will be in the direct interests of the Northern Ireland Office. While one cannot always guarantee that the benefit will be achieved, that must be both the intention and the reasonable expectation.

Lady Hermon: To ask the Secretary of State for Northern Ireland how much his Department has spent on hospitality in each year since 2003-04. [51049]

Mr. Hain: Due to an administrative error the answer to the hon. Member's question was not submitted and I apologise for the late reply.

The amount spent on hospitality by the Northern Ireland Office, excluding its agencies and NDPBs, in each year since 2003-04 was:

	£
2003-04	319,741
2004-05	258,436
2005-06	299,634

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much was spent by his Department on refreshments in 2005. [78747]

Mr. Hain: The Northern Ireland Office (NIO), excluding its agencies and NDPBs, is unable to provide an answer in the form requested by the hon. Member due to the NIO's financial system being unable to distinguish between money spent on refreshments and other hospitality costs. The total spend on hospitality, which includes refreshments, in the financial year 2005-06 was £299,634.

To answer the hon. Member's question would involve a manual trawl of files which could be carried out only at disproportionate cost.

David Simpson: To ask the Secretary of State for Northern Ireland what the total cost of departmental hospitality was in each Department in Northern Ireland, including the Northern Ireland Department, in each of the last five years. [88256]

Mr. Hanson: The following table sets out the total cost of departmental hospitality in each Department in Northern Ireland, including the Northern Ireland Office, in each of the last five years.

Department	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*
					£
Department of Agriculture and Rural Development	45,800	53,021	77,697	86,481	97,169
Department of Culture, Arts and Leisure	30,387	36,056	21,721	22,260	34,901
Department of Education	17,319	23,609	23,791	43,074	33,891
Department for Employment and Learning	35,207	29,970	42,759	29,904	33,000
Department of Enterprise, Trade and Investment	31,253	27,460	24,551	23,813	19,102
Department of the Environment	10,544	8,273	11,804	10,600	21,118
Department of Finance and Personnel	27,338	31,104	53,647	68,297	60,300
Department of Health, Social Services and Public Safety	71,201	96,604	188,466	170,531	171,080
Department for Regional Development	33,791	39,077	19,179	21,206	22,701
Department for Social Development	17,440	16,622	15,865	25,947	26,270
Office of the First Minister and Deputy First Minister	109,228	149,993	93,703	63,974	71,599
Northern Ireland Office	235,989	363,755	319,741	258,436	299,634

Expenditure incurred on hospitality by the NIO includes accommodation and hospitality for members of the royal family, visiting dignitaries and heads of state, and also hospitality for the representatives of business, voluntary and community sectors in Northern Ireland attending the annual garden party at Hillsborough Castle.

The information in this answer attempts to provide expenditure on a consistent basis and may differ from that provided in previous answer as definitions of hospitality and treatment across Departments can vary.

Departmental Staff (Criminal Activity)

Simon Hughes: To ask the Secretary of State for Northern Ireland how many of his Department's employees have been *(a)* dismissed, *(b)* suspended and *(c)* subject to disciplinary action for criminal activity in each year since 1997. [88459]

Paul Goggins: No members of staff employed within the Northern Ireland Office have been *(a)* dismissed, *(b)* suspended, or *(c)* subject to disciplinary action for criminal activity in any year since 1997.

Departmental Staff (Sickness Absence)

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 24 May 2006, *Official Report*, column 1773W, on departmental staff, how many staff in each Department of the Northern Ireland Office have had two or more periods of sick leave of less than five days in two or more of the years for which he has provided figures. [84039]

Mr. Hanson: The information requested is set out in the following table:

Staff with two or more periods of sick leave of less than five days in two or more of the financial years 2002-03, 2003-04 and 2004-05 by Department

Department	*Number*
Department of Agriculture and Rural Development	528
Department of Culture, Arts and Leisure	133
Department of Education	140
Department of Enterprise, Trade and Investment	187
Department of Finance and Personnel	576
Department for Employment and Learning	292
Department of Health, Social Services and Public Safety	216
Department of the Environment	449
Department for Regional Development	620
Department for Social Development	1,359
Office of the First Minister and Deputy First Minister	90
Northern Ireland Office	208

Notes

1. The table provides the number of staff in each Department within the NICS and NIO who have had two or more periods of sick leave of less than five days in two or more of the years 2004-05, 2003-04 and 2002-03. The figures include industrial staff, where appropriate.
2. Staff from the Parliamentary Commissioner for Complaints and the Planning Appeals Commission are included in the DFP figure.
3. Staff from HSENI and OFREG are included in the DETI figure.
4. The HRMS files used to produce the NIO figures include NICS staff only for 2002-03 and NICS and HCS staff for 2003-04 and 2004-05.

Donaghadee and Comber Police Rapid Response Unit

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has made of the likely impact on *(a)* the police and *(b)* the public of the recent decision by the District Policing Partnership to remove from Donaghadee and Comber the police rapid response unit. [87984]

Paul Goggins: The DPP has no statutory authority to make decisions in relation to operational matters. Any decision to remove the police rapid response unit from Donaghadee and Comber is a matter for the Chief Constable.

The PSNI has advised that a restructuring of policing services has been commenced within Ards District Command Unit. This entails the centralising of response crews in Newtownards town and Portaferry. In addition, there will be an increase in the number of Community Policing Teams in Comber and Donaghadee.

These changes have been introduced following examination of the nature and frequency of calls for assistance received from the public.

It is the opinion of the DCU Commander that these changes will more closely focus police resources on the areas of concern raised by the various communities in the Ards DCU area.

Environment and Renewable Energy Fund

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what criteria will be used to select homes for funding from the Environment and Renewable Energy Fund; what information on applying for funding has been made available; and if he will make a statement. [87992]

Maria Eagle: I am pleased to report that my right hon. Friend the Secretary of State for Northern Ireland launched the Household Programme on 24 July as the first initiative to provide funding for homes under the £59 million Environment and Renewable Energy Fund. Householders are eligible to apply for assistance under this programme, which will provide up to 50 per cent. of the cost of installation of renewable energy systems, provided they own the property and it is used primarily for domestic purposes. The grant will be offered on a first-come first-served basis.

The programme is being advertised widely and information on applying for funding, including guidance notes and application forms, can be accessed on the DETI and Action Renewables websites; they can also be requested via dedicated freephone (0800-023-4077), text and e-mail services which are being widely advertised.

Some funding from the Household Programme has been set aside to install 500 solar hot water systems in private households that are deemed to be in fuel poverty. Assistance at 100 per cent. of the cost of installation is available for these cases through the Department for Social Development. The criteria used to select homes for this assistance will be based on the eligibility criteria for the existing Warm Homes Scheme as well as conditions relating to the suitability of the property including suitable orientation needed to benefit from the solar energy. Selection will initially be carried out by the Warm Homes managing agent from the database of homes that have previously received other energy-related assistance under the Warm Homes Programme.

In addition to the Household Programme, the Northern Ireland Housing Executive will receive funding of £1.8 million over two years under the EREF

to install 600 solar hot water panels in their stock. Installation will be applied to dwellings that are in heating conversion schemes and, again, suitability, including suitable orientation of the property, will be the key selection criteria.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many homes in each Westminster constituency have received funding from the Environment and Renewable Energy Fund; and if he will make a statement. [87993]

Maria Eagle: On 24 July my right hon. Friend the Secretary of State for Northern Ireland launched the £8 million Household Programme as a major initiative within the Environment and Renewable Energy Fund.

Up until now no households have received funding from the Fund.

The Household Programme will provide up to 50 per cent. assistance to homeowners towards the cost of installing renewable technologies such as solar, wind, hydro, biomass or geothermal systems in their homes. A separate element within the programme will provide 100 per cent. assistance to those on low incomes.

The initiative is expected to lead to a tenfold increase in the number of homes with renewable energy systems in Northern Ireland by providing support to 4,000 homes.

In addition, the Warm Homes Scheme is being extended from the fund from 8,250 homes to 10,000, and 600 solar hot water systems will be installed over the next two years in Housing Executive dwellings.

External Consultants

Mrs. Villiers: To ask the Secretary of State for Northern Ireland how much his Department has paid since 2004 to external consultants who had previously been employed by the Department in any capacity within the previous five years. [41208]

Mr. Hain: Due to an administrative error the answer to the hon. Member's question was not submitted and I apologise for the late reply.

We cannot provide the information requested by the hon. Member. To identify those consultants who had previously been employed by the NIO could be done only at disproportionate cost.

Field Studies

Sammy Wilson: To ask the Secretary of State for Northern Ireland what assessment he has made of the merits of including out-of-classroom learning in secondary schools in inspections by the Education and Training Inspectorate in Northern Ireland. [87098]

Maria Eagle: Out-of-classroom learning provides an important context for children and young people's learning and development. It takes place in almost all schools in all areas of the curriculum. I am satisfied that it is adequately dealt with, as an integral part of post-primary school inspections, by the Education and Training Inspectorate in Northern Ireland.

Implementation Structures

Mr. Dodds: To ask the Secretary of State for Northern Ireland what the timetable is for establishment of each of the strategy for children and young people implementation structures; and what the selection *(a)* process and *(b)* criteria are for appointment to the implementation structures. [88908]

Maria Eagle: Structures to oversee the implementation of the 10-year strategy will be set up within the next few months. This will include the strategy planning and review group, which we are required to have up and running to advise on the strategy's action plan. We have not agreed the membership of the groups, nor have we finalised selection criteria at this stage. I intend to seek the views of the all-party group on children and young people and other key stakeholders on how this can be effectively achieved.

IT Contracts

Mr. Weir: To ask the Secretary of State for Northern Ireland which IT contracts awarded by his Department in each of the last five years have been abandoned; and what the value was in each case. [88983]

Paul Goggins: No IT contract awarded by the NIO has been abandoned within the last five years.

Key Persons Protection Scheme

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the budget for the Key Persons Protection Scheme in Northern Ireland was in each of the last five years. [59946]

Paul Goggins: The cost of the Key Persons Protection Scheme is given as follows, and the figures recorded include new works, maintenance and running costs, removal costs, some staffing costs and expenditure associated with travel. The costs are calculated in financial years.

	Cost (£ million)
2001-02	4.9
2002-03	11
2003-04	13
2004-05	7.5
2005-06	3.05

The increased expenditure during the period 2002 to 2005 reflects the need to provide physical home security measures for those whose personal details were compromised during the former year. This is also reflected in the numbers admitted to the scheme in 2002 and 2003.

MacGill Summer School

Mr. McGrady: To ask the Secretary of State for Northern Ireland pursuant to his 19 July speech to the MacGill summer school, what definition he uses of a *(a)* constitutional endorsement of the structures of policing and *(b)* the practical service of policing in the community. [89126]

Paul Goggins: The Secretary of State's speech at the MacGill summer school simply pointed out the distinction between practical support for policing and political support for the governance structures of policing, which clearly have a particular resonance for republicans and nationalists in the light of Irish history.

Meetings

David Simpson: To ask the Secretary of State for Northern Ireland what meetings have taken place involving the Department of Health, Social Services and Public Safety, Police Service of Northern Ireland and senior representatives of the Roman Catholic Church since 27 February; what information was provided in relation to *(a)* each diocese fully within Northern Ireland and *(b)* each diocese that straddles the border with the Republic of Ireland; when he expects to be in a position to make recommendations as a result of such meetings; and whether he plans to establish an independent inquiry into this matter. [88577]

Paul Goggins: Officials from the Department of Health, Social Services and Public Safety (DHSSPS) met senior representatives of the Roman Catholic Church on 8 March 2006.

No meetings have taken place between the PSNI and senior representatives of the Roman Catholic Church since 27 February 2006.

At the meeting on the 8 March 2006, the Roman Catholic Church provided statistics pertaining to the number of allegations of child abuse within the Roman Catholic Church within Northern Ireland.

The Department have agreed to read and comment on the revised guidance produced by the Roman Catholic Church for the Northern Dioceses.

On completion of ongoing consultations, all possible options will be considered including the need for an independent inquiry and recommendations will be made.

Mr. Weir: To ask the Secretary of State for Northern Ireland when he last met the Scottish First Minister; and what subjects were discussed. [88768]

Mr. Hain: Ministers have regular dialogues with ministerial colleagues in the Scottish Executive, discussing a wide range of issues of mutual interest. It is not our practice to disclose details of such meetings.

Northern Ireland Police Fund

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to his oral answer of 28 June 2006, *Official Report*, column 248, on the Northern Ireland Police Fund, what progress has been made in his investigation. [88680]

Paul Goggins: A full police investigation has been carried out in relation to alleged breaches of security within the Northern Ireland Police Fund. This investigation has now been completed and involved a comprehensive programme of interviews. No persons have been prosecuted as a result of this investigation. It would not be appropriate to comment on the operational detail of the investigation or on the question of charges being withdrawn as such issues are a matter for the Chief Constable and the PPS respectively. The Secretary of State has already confirmed that he will not call for a public inquiry.

Out-of-classroom Education

Mark Durkan: To ask the Secretary of State for Northern Ireland what assessment he has made of Northern Ireland teacher training courses' treatment of fieldwork as a teaching method in secondary schools. [86923]

Maria Eagle: I am content that teacher education as inspected and assessed by the Education and Training Inspectorate, is fit for purpose. However, individual teaching methodologies such as the treatment of fieldwork, are not inspected separately.

Parades

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many objections were received by the Parades Commission in advance of parades held on 17 March in Northern Ireland. [61106]

Paul Goggins: The Parades Commission has advised that there is no record of objections to any of the parades on St. Patrick's Day.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland whether any discussions have taken place between the Parades Commission and organisers of proposed Ancient Order of Hibernians parades during August 2006 which are due to take place in or close to Unionist areas regarding talks between local residents and the march organisers. [84935]

Paul Goggins: The Parades Commission has advised that it is in the process of facilitating dialogue between band organisers and local residents regarding proposed Ancient Order of Hibernians parades during August 2006.

Paramilitary Flags

Dr. Alasdair McDonnell: To ask the Secretary of State for Northern Ireland what further measures his Department plans to introduce to tackle the flying of paramilitary flags in Northern Ireland. [86585]

Paul Goggins: The Flags (NI) Order 2000 governs the flying of the Union Flag from Government buildings. There are no plans at present to make any major changes to this legislation.

"A Shared Future": Policy and Strategic Framework for Good Relations in Northern Ireland was published on 21 March 2005. It deals with (in part) the removal of inappropriate and aggressive displays of flags and emblems (specifically paramilitary flags and other displays which have the effect of intimidating or harassing).

This is best undertaken as a common project with key agencies working collaboratively with the PSNI and local communities to remove such displays. The launch of Protocol between PSNI and key agencies in April 2005 provides for such a mechanism.

Over the past year, individual PSNI District Command Units have been proactively working with others, as laid out in the joint protocol, to have flags removed through a process of consultation and negotiation. PSNI has also independently and unilaterally acted to remove flags when it has determined that the display of a flag is such as to justify enforcement without consultation and negotiation.

Policing

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will make a statement on *(a)* the role of the structures of policing in the Patten recommendations and *(b)* the future of policing in Northern Ireland. [89127]

Paul Goggins: The Government are fully committed to implementing the Patten recommendations. The policing accountability architectures put in place as a result of the Patten report have been a notable success and a model for others to follow. The Northern Ireland Policing Board is one of the key elements in this accountability framework.

Prisons

Mark Durkan: To ask the Secretary of State for Northern Ireland what assessment he has made of the availability of illegal drugs in prisons in Northern Ireland; and what measures are in place to reduce the availability. [87282]

Paul Goggins: The Prison Service acknowledges that it is essential to have detailed monitoring systems and trends analysis of the availability of illegal drugs in prisons. The Service has a detailed monthly monitoring system which includes:

Prisoners who recorded a dependency or use of drugs or alcohol during committal screening;

Number of adjudications for possession of drugs;

Number of drug finds;

Number of times police were called to the prison to arrest visitors for suspected possession of drugs;

Voluntary drug testing;

Deployment of Passive Drug Dogs (FDD).

Complementing the statistical data, graphs and charts are produced which provide a trend analysis over six monthly periods. This information is disseminated within the Northern Ireland Prison Service and with the exception of sensitive information, is published on the NIPS website (www.niprisonservice.gov.uk).

More long-term, detailed assessments are carried out by external, independent consultants based on anonymous questionnaires and interviews with prisoners. These assessments provide a clear insight into the nature and scope of substance misuse in each establishment. They also provide a solid foundation on which to build and develop policy. They, too, are published.

The measures in place to reduce availability of illegal drugs in prison are set out in the "Policy on Alcohol and Substance Misuse" document which was published for consultation on 26 July 2006. It too can be accessed on the Northern Ireland Prison Service website.

Public Swimming Baths

Mark Durkan: To ask the Secretary of State for Northern Ireland what plans he has to increase the provision of public swimming facilities in Northern Ireland. [87283]

Maria Eagle: Article 10 of The Recreation and Youth Service (Northern Ireland) Order 1986 states that each district council has statutory responsibility for the provision of leisure and recreation facilities within its area. Therefore the responsibility to increase the provision of public swimming facilities in Northern Ireland falls to district councils. The Department of Culture Arts and Leisure is sponsoring a competition to facilitate the development of an Olympic standard 50m swimming pool through the provision of a capital grant to the appropriate authority with plans to build such a pool.

Recruitment and Selection

Dr. Alasdair McDonnell: To ask the Secretary of State for Northern Ireland how much of the money spent on recruitment and selection by the Northern Ireland civil service was spent on recruitment agencies and consultants in each of the last four financial years. [86574]

Mr. Hanson: The following table details the amount spent on recruitment consultants by the Northern Ireland civil service in each of the last four financial years.

Amount spent on recruitment consultants

Financial year	£
2002-03	418,810
2003-04	724,693
2004-05	395,722
2005-06	196,230
Total	1,735,455

It has not been possible to provide a figure in respect of recruitment agency costs due to disproportionate cost. These costs were largely incurred through the need to fill temporary vacancies.

Dr. Alasdair McDonnell: To ask the Secretary of State for Northern Ireland how much the Northern Ireland civil service has spent on recruitment and selection in each of the last four financial years; and how many jobs advertised were subsequently filled during this period. [86575]

Mr. Hanson: Recruitment Service of the Department of Finance and Personnel has responsibility for the majority of recruitment and selection, through external competition, to the Northern Ireland civil service. The figures in the following table represent the spend incurred by Recruitment Service within the years specified and the number of jobs filled.

In addition, several departments manage directly some recruitment, mainly to fill temporary positions. The number of jobs filled by departments is included in the following table. The costs associated with this element of departmental recruitment and selection cannot be provided due to disproportionate costs.

Financial year	Costs (£000)	Recruitment Service appointments	Direct departmental appointments	Total appointments
2002-03	1,848	3,045	1,240	4,285
2003-04	1,916	3,744	1,193	4,937
2004-05	1,782	2,631	852	3,483
2005-06	1,685	2,201	807	3,008
Total	7,231	11,621	4,092	15,713

It is not possible to provide a figure in relation to jobs advertised. Although some competitions do specify the number of jobs vacancies anticipated at the time of advertising, the majority of competitions do not. These are advertised in such a way as to provide departments with a pool of candidates to satisfy their business needs, at the grade advertised, within a 12-month period.

Reserved Posts

Mark Durkan: To ask the Secretary of State for Northern Ireland what recent discussions ministers have had with the Equality Commission on the eligibility of Irish nationals for reserved posts; and if he will make a statement. [87337]

Mr. Hanson: No discussions have taken place between Ministers and the Equality Commission on this issue.

Mark Durkan: To ask the Secretary of State for Northern Ireland how many people have been ruled ineligible for reserved posts in the Northern Ireland civil service in each of the last five years on the grounds that they were Irish citizens. [87338]

Mr. Hanson: The number of people who have been ruled ineligible for reserved posts in the NICS as a consequence of their Irish citizenship in the last five years is contained in the following table.

Financial year	Number
2001-02	0
2002-03	4
2003-04	1
2004-05	2
2005-06	2
Total	9

Schools (Vandalism)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* state controlled schools, *(b)* Catholic maintained schools and *(c)* other schools in each board area have been attacked by vandals over the last three years; and whether each case was recorded as a sectarian attack. [87998]

Maria Eagle: The number of controlled and Catholic maintained schools attacked by vandals over the last three years is as follows:

Education and Library Board	2003-04	2004-05	2005-06
Belfast			
(a) Controlled	[1]24	98	137
(b) Maintained	[1]27	100	196
Western			
(a) Controlled	29	17	14
(b) Maintained	27	23	22
North Eastern			
(a) Controlled	107	141	133
(b) Maintained	51	60	57
South Eastern			
(a) Controlled	425	383	459
(b) Maintained	75	100	70
Southern			
(a) Controlled	[2]259	[2]254	[2]265
(b) Maintained	[2]279	[2]273	[2]286

[1] Figures from 1 August 2003 when Board started to keep computerised records.
[2] Figures are for calendar year.

The information for voluntary grammar and grant maintained integrated schools is not readily available and is currently being collected. I will write to the hon. Member with the information as soon as possible.

Incidents of vandalism are not recorded as sectarian by the Education and Library Boards.

Security Passes

Simon Hughes: To ask the Secretary of State for Northern Ireland how many security passes have been reported *(a)* lost and *(b)* stolen by staff in his Department by year since February 2004. [88560]

Mr. Hain: The number of passes reported by staff in the Northern Ireland Office to have been lost or stolen each year since February 2004 is as follows:

	Lost	*Stolen*
March 2004 to February 2005	23	1
March 2005 to February 2006	13	3
March 2006 (to date)	6	1

This reply relates only to the Northern Ireland Office and does not cover the 11 Departments of the Northern Ireland administration.

Sight-impaired Students

Dr. Alasdair McDonnell: To ask the Secretary of State for Northern Ireland what steps are being taken to facilitate the inclusion of pupils who are blind, partially sighted and sight-impaired in mainstream education. [90807]

Maria Eagle: The introduction of the Special Educational Needs and Disability (Northern Ireland) Order 2005 (SENDO) has increased the rights of children with special educational needs (SEN) to a mainstream education. Education and Library Boards (ELBs) assess and make provision for pupils on an individual basis, in line with the Code of Practice on the Assessment of Special Educational Needs and the Supplement to it, issued as a result of SENDO.

All of the ELBs have staff qualified to teach pupils who are blind, partially sighted and visually impaired, including those staff attached to the peripatetic support services. In addition support is available from Jordanstown Special Schools' outreach service.

Depending on the needs of the individual pupil, ELBs make available a range of aids to support learning, including large print literature, Braillers and appropriate ICT equipment and software. Schools themselves may also purchase specialist items through their dedicated SEN budgets.

Single Farm Payments

Mr. McGrady: To ask the Secretary of State for Northern Ireland whether the less favoured area (LFA) element of the Single Farm Payment will be paid in full in 2006-07; and when he expects the announcement relating to the LFA to be made. [90575]

Maria Eagle: The 2006-07 less favoured areas scheme will be an integral part of the 2007-13 Rural Development programme. This programme is currently under development and will be submitted to the EU Commission for its consideration and approval as soon as possible. Approval of that programme will enable DARD to accept claims and make payments under the 2006-07 LFA scheme.

DARD will continue to keep the farming sector informed of developments and an announcement will be made before the end of 2006.

Speed Detection Unit

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how the proposed new speed detection project will be rolled out in Northern Ireland; in which areas it will be tested; what budget has been allocated to the scheme; and if he will make a statement. [87985]

Paul Goggins: The new speed detection project, known as SPECS III, is still at an early stage. Before the system can be deployed operationally, it must obtain Home Office Type Approval. This process is managed through the Home Office Scientific Development Board, with the assistance of police forces that are willing to practically test the equipment. SPECS III is at the beginning of this process and along with the Metropolitan Police Service, the PSNI is providing the testing capability for the system. In Northern Ireland it is to be installed and tested on the A20 dual carriageway between Newtownards and Dundonald. If successful, it is anticipated that SPECS III will be rolled out across the province. Initial costs for the pilot scheme are to be met by the equipment supplier with no budget implications for the PSNI at this stage.

Sports Facilities

Mark Durkan: To ask the Secretary of State for Northern Ireland how much Government funding has been provided to local authorities for the improvement of sports facilities in Northern Ireland in each of the last five years. [85439]

Maria Eagle: Under the Recreation and Youth Services (Northern Ireland) Order 1986, the Sports Council for Northern Ireland (SCNI) is responsible for the development of sport including the distribution of funding to sport.

The SCNI has invested £897,210 in the last five years to local authorities for the improvement of sports facilities in Northern Ireland. This sum can be broken down by local authority as follows:

Council	*2001*	*2002*	*2003*	*2004*	*2005*	*Total*
Lame Borough	40,930	—	—	—	8,375	49,305
Banbridge District	—	15,570	—	8,179	—	23,749
Derry City	—	40,542	83,714	38,100	65,606	227,962

Council	2001	2002	2003	2004	2005	Total
Antrim Borough	—	—	920	5,000	—	5,920
Ballymena Borough	—	—	46,989	20,000	40,031	107,020
Belfast City	—	—	80,174	—	36,952	117,126
Carrickfergus Borough	—	—	3,517	33,033	—	36,550
Coleraine Borough	—	—	9,422	—	—	9,422
Cookstown District	—	—	16,097	—	—	16,097
Craigavon Borough	—	—	41,524	—	15,623	57,147
Limavady Borough	—	—	22,565	—	—	22,565
Lisburn City	—	—	7,400	3,000	3,600	14,000
Magherafelt District	—	—	31,800	—	16,800	48,600
Moyle District	—	—	20,728	38,325	40,241	99,294
Newtownabbey Borough	—	—	10,722	—	—	10,722
North Down Borough	—	—	14,530	—	—	14,530
Omagh District	—	—	17,120	—	9,142	26,262
Ballymoney Borough	—	—	—	4,504	6,435	10,939
Totals	40,930	56,112	407,222	150,141	242,805	897,210

Local Authorities have also been provided with funding from government departments as follows:

Department of Agriculture and Rural Development

DARD provided £28,821.67 of funding to Fermanagh district council in 2004-05.

Department of Social Development

Name of local authority funded	Amount of funding provided (£)	Reason funding was given
2001-02	Nil	
2002-03	Nil	
2003-04		
Strabane district council	260,000.00	Provision of floodlighting, synthetic pitch and electrical installation
Coleraine borough council	135,000.00	Improvement to playing fields facilities.
Coleraine borough council	230,000.00	Ballysally multi-purpose sports facility
2004-05		
Belfast city council	152,000.00	Clarendon Development Association—Playing Field and Pavilion Development Project
2005-06		
Strabane district council	100,000.00	Melvin Hall—renovation and refurbishment
Armagh city and district council	52,090.60	To provide a multisport area in Drumarg
Armagh city and district council	42,184.74	To provide a multisport area in Mullacreevie
Armagh city and district council	70,976.50	To provide a multisport area in Callanbridge
Coleraine borough council	282,626.75	Ballykeel recreational facilities
Belfast city council	75,599.00	Clarendon Development Association—Playing Field and Pavilion Development Project

Note.
Funding listed includes both funding given to make improvements to existing sports facilities and funding given to create new sports facilities.

Department of Finance and Personnel

	Local authority	£ Amount provided
2001-02	—	0
2002-03	Cookstown district	150,000
2003-04	—	0
2004-05	Banbridge district	10,950
2005-06	—	0

The total Government funding provided to local authorities for the improvement of sporting facilities in each of the last five years is as follows:

Council	2001	2002	2003	2004	2005	£ Total
Larne borough	40,930	—	—	—	8,375	49,305
Banbridge district	—	15,570	—	19,129	—	34,699

Totals	40,930	206,112	1,032,222	341,913	863,283	2,484,460

Sunbeds

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many local authorities in Northern Ireland do not permit the use of sunbeds in their leisure facilities. [87989]

David Cairns: Of the 26 district councils in Northern Ireland, 25 do not permit the use of sunbeds in their leisure facilities. The remaining council will close the one leisure facility that currently has sunbeds, at the end of the summer for refurbishment and when it reopens, sunbeds will not be provided.

Twelfth Celebrations

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the revenue accruing to the economy in Northern Ireland through the annual Twelfth Celebrations; and if he will make a statement. [86323]

Maria Eagle: While Government have made no estimate of the revenue accruing to the economy in Northern Ireland through the Twelfth Celebrations the Minister of State, Northern Ireland Office, who is responsible for social development recently announced Government funding of £104,200 for the County Grand Orange Lodge of Belfast to employ a development officer for three years to implement a strategy for the management of Twelfth of July celebrations within Belfast. The objectives for the post include: encouraging the Twelfth of July as an economic promotional day for trade and commerce in Belfast city centre and its main arterial routes; and, promoting Belfast in a positive light and encouraging visitors to watch the parade.

Vandalism

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many instances of vandalism were reported in *(a)* Castlereagh and *(b)* East Belfast district command unit in each year since 1990. [77376]

Paul Goggins: Crime statistics collated by the PSNI do not record a specific offence of 'vandalism'. There are a number of offences categorized under criminal damage and these are shown in the following tables, and cover the years from 1998-99 to 2005-06. Due to a change in Home Office counting rules in April 1998, statistics prior to that date belong to a different statistical series and are not comparable.

Castlereagh district command unit

	1998-99	1999-2000	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06

Vehicle Theft

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* thefts from a vehicle and *(b)* thefts of a vehicle there were in each District Command Unit in Northern Ireland in (i) 2004-05 and (ii) 2005-06, broken down by (A) urban and (B) rural area. [78724]

Paul Goggins: The information requested is contained in the following tables:

Urban region—Theft from motor vehicles

District Command Unit	2004-05	Recorded 2005-06
Antrim	13	123
Ards	121	74
East Belfast	321	178
North Belfast	498	263
South Belfast	1,123	637
West Belfast	229	215
Carrickfergus	50	31
Castlereagh	232	162
Larne	52	52
Lisburn	525	435
Newtownabbey	217	207
North Down	148	120

Waiting Lists/Times

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the average waiting period was in each board area for NHS *(a)* hearing aid tests, *(b)* colonoscopy, *(c)* neurophysiology, *(d)* gastroscopy, *(e)* cystoscopy, *(f)* bone density scans, *(g)* MRI scans, *(h)* echocardiography, *(i)* barium enema and *(j)* CT scans in the last period for which figures are available; and if he will make a statement. [87991]

Paul Goggins: Information on waiting times for each of the diagnostic tests listed *(b)* to *(j)* is not routinely collected and could be provided only at disproportionate cost.

Information on waiting times for hearing aid tests is not held centrally and will take some time to collate. I will write to the hon. Member with the information as soon as it is available and place a copy in the Library.

I fully recognise that many patients are waiting too long for a whole range of diagnostic tests. I am determined to put measures in place to ensure that these waiting times are collected to give a more accurate reflection of the total waiting time patients experience from referral by their GP to completion of their treatment. I have established a dedicated team within the Department's service delivery unit to focus on waiting times for diagnostic tests. An exercise to assess diagnostic capacity and demand is due to be completed before the end of the summer and work is under way to develop weekly waiting time information for diagnostic tests.

Weapons

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many personal protection weapons on licence have been returned on request in Northern Ireland in each of the last five years. [77371]

Paul Goggins: The Chief Constable informs me that statistics are not readily available to enable him to provide this information, and that such data could be obtained only at disproportionate costs to public funds.

Workplace 2010 Strategy

Mark Durkan: To ask the Secretary of State for Northern Ireland what assessment he has made of the likely impact of the Workplace 2010 strategy on civil servants in *(a)* Waterside House, *(b)* Carlisle House and *(c)* Orchard House in Derry to ensure that existing civil service jobs remain in Derry; and whether there are further plans to move jobs out of Derry. [90792]

Mr. Hanson: The proposed Workplace 2010 contract includes the refurbishment of Waterside House, Carlisle House and Orchard House. The refurbishment programme will improve the working environment for staff, provide much more flexibility and increase the capacity of the three buildings. Current planning assumptions are that the existing staff will remain in Derry. Under Workplace 2010 there are no plans to relocate these staff out of Derry.

HOME DEPARTMENT

Approved Premises

Mr. Dismore: To ask the Secretary of State for the Home Department how many places in approved hostels in England and Wales are occupied by persons convicted of sexual offences *(a)* on licence and *(b)* as a condition of a community penalty. [87794]

Mr. Sutcliffe: Statistical information about the type of offences committed by offenders residing in approved premises is not collected centrally

Asylum/Immigration

Jenny Willott: To ask the Secretary of State for the Home Department how many asylum seekers deported from the UK in *(a)* 2000, *(b)* 2001, *(c)* 2002, *(d)* 2003, *(e)* 2004 and *(f)* 2005, were (i) of school age and (ii) enrolled in a school or college; and if he will make a statement. [30063]

Mr. Byrne: Information on asylum seekers enrolled in a school or college is not available. The following table shows the number of asylum seekers removed for the period 2004 and 2005, and includes those who were under the age of eighteen at the date of their removal. Data are unavailable for the years 2000 to 2003 due to data quality issues.

Removals, voluntary departures[1], and assisted returns of asylum applicants, including dependants, by quarter, in 2004 and 2005[2,3]

Number of asylum applicants

	Quarter				
	Q1 2004	Q2 2004	Q3 2004	Q4 2004	Total 2004
Total asylum applicants removed	4,090	3,790	3,595	3,435	14,915
of whom:					
Adults	3,480	3,295	3,180	3,025	12,985
Minors[4]	605	485	410	405	1,900
Unknown[5]	5	10	10	5	25

	Quarter				
	Q1 2005[3]	Q2 2005[3]	Q3 2005[3]	Q4 2005[3]	Total 2005[3]
Total asylum applicants removed	3,485	3,765	4,225	4,210	15,685
of whom					
Adults	3,115	3,335	3,825	3,760	14,035
Minors[4]	370	430	395	445	1,640
Unknown[5]	*	5	5	5	10

[1] Includes enforced removals, persons departing 'voluntarily' following enforcement action initiated against them, and persons leaving under Assisted Voluntary Return Programmes run by the International Organisation for Migration.
[2] Figures rounded to the nearest five, with * = 1 or 2, and may not sum due to rounding.
[3] Provisional figures.
[4] People recorded as being under 18 on the date of their removal from the UK.
[5] People whose date of birth is not recorded on the source database.
[6] Removals include those who it is established have left the UK without informing the immigration authorities (470 asylum applicants, including dependants, in 2005).

Andrew Rosindell: To ask the Secretary of State for the Home Department how many illegal immigrants are in prison. [37961]

Mr. Byrne: The information requested on the immigration status of prisoners is not currently available and could be provided only at disproportionate cost.

Mr. Holloway: To ask the Secretary of State for the Home Department how many people awaiting a decision on indefinite leave to remain are receiving benefits. [85872]

Mr. Byrne: Figures on the numbers in excepted categories who have lodged or may lodge an application for indefinite leave to remain and are in receipt of state benefits are not available. With some limited exceptions, migrants who do not have indefinite leave to remain are ineligible to receive public funds until such time as they are given permission to remain permanently in the United Kingdom.

Stephen Williams: To ask the Secretary of State for the Home Department what the reasons were for the time taken for the publication of the most recent report by the Independent Monitor (Nationality, Immigration and Asylum Act 2002) submitted to Government in November 2005. [90639]

Mr. Byrne: The final agreed version of the 2005 Annual report of the Monitor of certification of claims as unfounded under section 94 of the Nationality, Immigration and Asylum Act 2002 was formally submitted to the Home Office on 6 April 2006. The report was published on 27 April. The document submitted to the Home Office on 29 November 2005 was the first draft of the Monitor's annual report. This document was then subject to a period of consultation and discussion prior to being submitted to the Secretary of State. This included the provision of further information requested by the Monitor to enable her to complete the report and the correction of factual errors.

Stephen Williams: To ask the Secretary of State for the Home Department on what date each of the reports by the Independent Monitor (Nationality, Immigration and Asylum Act 2002) were received by the Home Office; and what the date of publication was in each case. [90640]

Mr. Byrne: The Independent Monitor of certification of claims as unfounded under section 94 of the Nationality, Immigration and Asylum Act 2002 has published two annual reports, covering 2004 and 2005 respectively. The final version of the 2004 annual report was received by the Home Office on 1 June 2005 and published on 21 July. The final version of the 2005 report was received on 6 April 2006 and published on 27 April.

In each case the submission by the Monitor of the final version of the report was preceded by a period of consultation on draft versions.

Mr. Pelling: To ask the Secretary of State for the Home Department what the reasons were for changing the initial decision under the New Asylum Model to place eight caseworker teams in Croydon and instead to place these teams in Central London. [90810]

Mr. Byrne: By April 2007, all new asylum claims will be managed as part of the New Asylum Model (NAM). NAM is an integrated process and this therefore points to the need to be close both to reporting centres and to hearing centres. Analysis of the geographical locations of asylum claimants in the London area showed two large clusters of claimants in North Central London and in West London. This was a reasonable fit with the locations of IND reporting centres: at Communications House in Central London and at Eaton House in West London, near Heathrow; as well as with the Asylum and Immigration Tribunal hearing centres in London EC1 and at Feltham in Middlesex. It was accordingly decided that it would be most efficient to locate the Asylum Teams as close to the reporting centres as possible. We have now found and signed leases on buildings in both locations. The experience of the first NAM team which was set up in Croydon in June 2005 was that few of the claimants lived in the Croydon area and were having to travel a long way to report to their case owners and this validated the decision we made.

Mr. Hayes: To ask the Secretary of State for the Home Department what estimate he has made of the number of foreign nationals illegally in the country; and on what statistical evidence such estimates are based. [71444]

Mr. Byrne: The Home Secretary explained the position in his answer given to the Home Affairs Committee on 23 May 2006.

Mr. Carswell: To ask the Secretary of State for the Home Department how many illegal immigrants who have been released from prison and not detained have subsequently been convicted of armed robbery in the past two years. [83990]

Mr. Byrne: My right hon. Friend the Home Secretary updated the House in a written ministerial statement on 29 June 2006, *Official Report*, column 19WS, regarding the release of foreign national prisoners without deportation consideration. The director-general of the immigration and nationality directorate (IND) wrote on the same date to the chairman of the Home Affairs Select Committee on the number of cases where foreign national prisoners were released without proper deportation consideration. A copy of this letter is available in both Libraries. Previous updates have also been provided to the House on the number of cases where foreign national prisoners were released without proper deportation consideration. In particular I refer the hon. Gentleman to the written ministerial statements of 15 May 2006, *Official Report*, columns 40-41WS, and 23 May 2006, *Official Report*, columns 77-81WS.

Mr. Leigh: To ask the Secretary of State for the Home Department how many employers *(a)* between 27 January 1997 and 10 February 2003 and *(b)* since 10 February 2003, have been investigated for consideration of prosecution by his Department or by any police force or other public authority for offences in any way related to or arising from the employers' alleged, intended or actual employment of illegal workers or facilitation of illegal immigration or other immigration-related offences alleged to have been committed by employers (i) under the Asylum and Immigration Act 1996, (ii) under the Nationality, Asylum and Immigration Act 2002 and (iii) under any other legislation; of these employers, how many were prosecuted and, of those employers prosecuted, how many were convicted; and, as regards the convictions, what were the minimum, average and maximum sentences imposed, both in total and broken down by legal characterisation of the offences. [83569]

Mr. Byrne: There are no centrally collated reports on how many employers have been investigated for consideration of prosecution action by the UK Immigration Service, the police or other public authorities as decisions on whether or not to prosecute are made by individual departmental prosecution sections, as well as the Crown Prosecution Service. However, statistical information on those employers successfully prosecuted for such offences is published in the Home Office Command Papers "Control of Immigration: Statistics—United Kingdom 2005" and "Control of Immigration: Statistics—United Kingdom 2004". These papers are available on the Home Office's Research Development and Statistics website: http://www.homeoffice.gov.uk/rds/immigration1.html.

Andrew Rosindell: To ask the Secretary of State for the Home Department if he will estimate the number of illegal immigrants entering the United Kingdom in 2005; and how many have since been deported. [84236]

Mr. Byrne: The information requested is not available.

Bail Statistics

Philip Davies: To ask the Secretary of State for the Home Department how many people were bailed without being charged in the last period for which figures are available; under what circumstances this occurs; and if he will make a statement. [90895]

Mr. McNulty: Information on people who are bailed but not charged is not collected centrally.

Biometric Technology

David Maclean: To ask the Secretary of State for the Home Department what *(a)* planned and *(b)* existing projects in his Department involve the use of biometric technology. [82580]

Joan Ryan: Planned projects in the Home Office which will make use of biometrics include:

preparation for the addition of a second biometric in the UK ePassport;

Identity Cards programme in support of the national identity scheme;

UKvisas Biometric programme to ensure that all UK issued visas will use biometric identifiers by the end of 2007 or early 2008;

Biometric travel documents;

Biometric residence permit to be developed in line with common EU standards;

IAFS+, extension of IAFS (Immigration and Asylum Fingerprints System) to accommodate the biometric visas and biometric residence permits;

e-Borders programme, delivering a modernised border control, which is fundamentally more effective, efficient and secure to meet the future operational needs of UK border, law enforcement and intelligence agencies;

FIND national database of facial images managed by the Police Information TechnologyOrganisation, PITO;

PITO project to use face recognition to support FIND;

LANTERN, a mobile fingerprint system under development by PITO.

In addition there are a number of smaller projects some of which are partnerships with other organisations in the UK and abroad.

Existing projects in the Home Office which make use of biometrics include:

IDENT1 UK police platform for fingerprints and palmprints;

UK ePassport: completion of its rollout scheduled for third quarter of 2006;

IAFS (Immigration and Asylum Fingerprint System), database of biometric data relating to immigration cases and asylum seekers;

ARC (application registration cards) and the use of mobile quick check readers. ARC is a credit card sized plastic credential which contains fingerprint details of asylum claimants and others;

RepARC (Reporting with ARC) programme to require asylum claimants to produce their ARC card at each reporting event;

ISRP (Immigration Stateless Refugee Project) to collect fingerprint details from holders of the 1951 UN Convention Travel Document;

VIAFS—Visa Immigration and Asylum Fingerprint System, collecting fingerprints of visa applicants from certain countries;

EURODAC—European-wide system in support of the Dublin Convention uses fingerprint data in order that member states can determine whether an asylum-seeker or a foreign national found present within a member state has previously claimed asylum in another member state;

IRIS (Iris Recognition Immigration System), a free and voluntary way for air passengers to clear immigration utilising their iris image to verify their identity;

Systems in prisons to prevent escapes by prisoners exchanging places with visitors;

C-NOMIS (Custody-National Offender Management Information System). Fingerprint based for confirmation of prisoner identity against IDENT1 and PNC;

Pilot of a Methadone dispensing system using iris recognition, at HMP Eastwood Park;

Trial of fingerprint based access control to IT systems in prisons.

As for planned projects, there are a number of smaller projects some of which are partnerships with other organisations in the UK and abroad.

The Home Office is continuing to examine new technologies, and new ways of using existing biometric technologies, to ensure the protection of the public.

Body Searches

Annette Brooke: To ask the Secretary of State for the Home Department what procedures are applied for clothed body searches *(a)* in women's prisons and *(b)* at ports of entry. [90569]

Mr. Sutcliffe: The Prison Service has full, step-by-step procedural guidelines set out in the National Security Framework, accessible to all staff, on how rubdown searches must be conducted. In a standard level rubdown search the officer rubs down the upper and lower areas of the front and back of the body. Higher-level searches additionally include searching hair, feet and footwear. The power to search a passenger is contained in the Immigration Act 1971, Schedule 2 and in the Asylum and Immigration (Treatment of Claimants, etc.) Act 2004. However, this power is used sparingly and only in exceptional circumstances. An immigration officer, or a customs or police officer conducting the search under his direction, may invite any person to empty their pockets voluntarily as part of a search for documents. Detainee custody officers have a power under Schedule 11 of the Immigration and Asylum Act 1999 to undertake a clothed body search of a detained person at an immigration removal centre or a short term holding facility, including a holding room at a port of entry.

British Citizenship

Mr. Gregory Campbell: To ask the Secretary of State for the Home Department pursuant to the answer of 19 December 2005, *Official Report*, column 2353W, on British citizenship, what the percentage breakdown is by country of origin of applicants for each of the last five years. [42195]

Mr. Byrne *[holding answer 12 January 2006]:* The information is presented in the following table. (This information has not been quality assured and is not a National Statistic. It should be treated as provisional management information and may be subject to change.)

Business in Prisons

Mr. Bellingham: To ask the Secretary of State for the Home Department what representations he has received regarding the future funding of Business in Prisons. [62769]

Mr. Sutcliffe: John Lowe, the Director of Business in Prisons, wrote to Baroness Scotland in August 2005 requesting funding. The Minister suggested that he should speak with Neil Moore who was then the HM Prison Service National Voluntary Sector Co-ordinator, working in the National Offender Management Service Voluntary Sector Unit. A meeting was held between Neil Moore and Mr Lowe where Neil explained that there was no central funding available but that the organisation was eligible to submit a bid for the NOMS VSU grant round for 2006-07. The organisation did submit a bid for funding but the application was unsuccessful. The NOMS Voluntary Sector Unit received almost 700 applications for grants and, having identified Finance, Benefit and Debt as a Pathway which was under-resourced, had to reject applications that did not cover that area. There is a new grant round for 2007-08 with a closing date for applications of 15 September 2006 for which the organisation is eligible to apply.

Child Abductions

Tim Loughton: To ask the Secretary of State for the Home Department how many children have been abducted from the UK in each of the last five years. [88536]

Ms Harman: I have been asked to reply.

The answer addresses the number of recorded civil cases of child abduction or wrongful retention for which statistics are available. If a recorded case involves more than one child this would not be reflected in the statistics.

Cases received by the ICACU claiming that a child or children have been abducted from England and Wales, or wrongfully retained in another country when habitually resident in England and Wales, in breach of article 3 of the 1980 Hague Convention are as follows:

	Number
2001	135
2002	143
2003	148
2004	155
2005	159

The Child Abduction Section at the Foreign and Commonwealth Office (FCO) records statistics on cases of international parental child abduction or retention brought to its attention and where it has offered consular assistance to British nationals, rather than recording the total number of abductions from the United Kingdom. The FCO usually provides assistance in abduction and retention cases in countries which are not party to the 1980 Hague Convention. Statistics are not available before 2003.

	Number
2003	240
2004	295
2005	208

Civil Service

Philip Davies: To ask the Secretary of State for the Home Department how many and what proportion of his Department's civil service have experience of working as a police officer. [90896]

Mr. McNulty: Details of an employee's employment history are not held centrally and to provide the information requested would incur disproportionate cost.

Committee on Treatment in Custody

Mr. Beith: To ask the Secretary of State for the Home Department what representations he has received from the Howard League on the proposals of the committee on treatment in custody chaired by Lord Carlile, QC; and what response he has given. [90656]

Mr. Sutcliffe: Lord Carlile wrote to the then Home Secretary on 14 December 2005, giving notice of his likely findings and proposing a meeting either before or after publication of the Howard League's report. My noble Friend, the Baroness Scotland replied on 16 January, agreeing to a meeting to discuss the report. The meeting took place on 29 March. A number of the report's recommendations were addressed to the Youth Justice Board: the Board's response to these is published on its website:

http://www.youth-justice-board.gov.uk/YouthJusticeBoard/Custody/CarlileInquiry

The Prison Service is currently preparing its own response, which it plans to make available shortly.

Correspondence

Mr. Harper: To ask the Secretary of State for the Home Department when the Minister of State for Nationality, Citizenship and Immigration will reply to the letter dated 31 May from the hon. Member for the Forest of Dean regarding Ms Stephanie Caborn; and when his Department will return her driving licence. [90935]

Mr. Byrne: I wrote to the hon. Member on 12 September 2006. Ms Caborn's driving license was returned to her by recorded delivery on 11 September 2006.

Criminal Records Bureau

Dr. Cable: To ask the Secretary of State for the Home Department what information technology projects are being undertaken by the Criminal Records Bureau which have started since 2000; what the *(a)* start date, *(b)* original planned completion date, *(c)* current expected completion date, *(d)* planned cost and *(e)* current estimated cost is of each; and if he will make a statement. [88586]

Joan Ryan: The Criminal Records Bureau (CRB) has made significant investment in a number of projects, to enhance the quality, coverage and accessibility of its service and to deliver real changes and benefits to its customers. There are eight information technology projects being undertaken by the CRB, which have commenced since 2000. Of these, four are currently at the feasibility stage and costings and completion schedules have yet to be determined. These are: the I-PLX+ project, which aims to enhance the national police cross referencing database of local police force information (I-PLX), which is an important development in vetting and security checks, delivering significant improvements to the protection of the vulnerable; vetting and Barring Scheme: the CRB will continue to play a key role in the development of the new Vetting and Barring Scheme, introduced as a result of Bichard recommendation 19—entry to the scheme will be via a CRB check—and New Disclosure application form (DAF). The CRB has also been examining the feasibility of devising an upgraded Disclosure application form. A prototype of a new form has been produced, in consultation with a number of its customers and has been piloted with a cross section of Registered Bodies. As part of the feasibility studies, full costings will be prepared. The on-line application project aims to enable applicants to complete applications for Standard and Enhanced Disclosures via the e-channel. During 2005 the CRB developed a new Quality Assurance Framework (QAF). This is now being rolled out to all police forces and should be completed by January 2007, subject to forces' readiness to complete staff training and implementation. The framework will standardise the forces' approach to deciding what, if any, information is relevant to be released on a Disclosure. The framework also provides good practice guidelines for the wording of this information on the Disclosure, including consideration of the victim's age and mental capacity. With the introduction of the On-line Tracking Service, customers will be able to track the progress of a CRB check from receipt to issue, providing greater visibility of the process. The Registration Cancellation project aims to improve the CRB's assurance regime and enable greater support to its customers and Registered Bodies, whilst further eliminating risk.

The CRB now has legislation, as a result of the recent Serious Organised Crime and Police Act 2005, giving it access to a wider range of information that can be searched when carrying out a CRB check, for example that held by the British Transport Police, the Serious and Organised Crime Agency and the Royal Military Police. These are scheduled to come on stream during 2006-07.

Details of the four ongoing projects which have started since 2000 are provided in the following table:

Project name	*Start date*	*Original planned completion date*	*Current expected completion date*	*Planned cost (£)*	*Current estimated cost (£)*
QAF (Quality Assurance Framework)	2005	31 October 2006	31 January 2007	£325,996	114,716

Project name	Start date	Original planned completion date	Current expected completion date	Planned cost (£)	Current estimated cost (£)
On-Line Enquiry Service STAGE 1	May 2006	21 October 2006	21 October 2006	£314,093	314,093
Registration Cancellation	November 2004	28 October 2006	25 November 2006	£700,000	761,946.79
New Data Sources	April/May 2006	[1]	British Transport Police (BTP)[2]	[3]	[4]45,962

[1] Planned completion at various dates as data sources are rolled out [2] Go live 25 September 2006 [3] £1.2 million budgeted [4] For BTP

Departmental Expenditure

Mrs. Villiers: To ask the Secretary of State for the Home Department how many *(a)* laptops and *(b)* mobile phones his Department bought in each year since 1997; and what the cost of each category of equipment was in each year. [41263]

Mr. Byrne: IT hardware including laptops used by the core Home Department is not bought by the Department but provided under a PFI contract by its IT service provider, Sirius (Fujitsu Alcedo Ltd). Details of any peripheral purchases made outside of this contract are not held centrally and to obtain this information would incur disproportionate cost.

Detailed records on purchase of mobile telephones by year are not available centrally and to obtain this information would incur disproportionate cost.

Departmental Pay and Pensions Service

Mr. Benton: To ask the Secretary of State for the Home Department what the total training budget for his Department's Pay and Pensions Service was for the financial years *(a)* 2005-06 and *(b)* 2006-07. [84731]

Mr. Byrne: The total training budget for Home Office Pay and Pensions Service, for the current and previous financial years is detailed as follows.

Financial year	Amount (£)
2005-06	80,000.00
2006-07	129,000.00

Mr. Benton: To ask the Secretary of State for the Home Department what the total cost was in each financial year of the Dale Carnegie training course which took place between autumn 2005 and autumn 2006 which was delivered to staff at the Pay and Pensions Service based at Litherland House, Bootle; how much of that sum is accounted for by *(a)* moneys paid to the company providing the training, *(b)* monies spent on the accommodation used for the course and *(c)* the cost of releasing staff from their departmental duties; and what the total cost was of all other training delivered to staff at his Department's Pay and Pensions Service over that period. [84733]

Mr. Byrne: The contract value for the investment in Team Working Programme, delivered by Dale Carnegie Training is £113,200. The main training events began on 5 April 2006. Accommodation and travel costs from 5 April to 21 June were £6,495.85. It is estimated that a further £13,000 will be spent on travel and accommodation to complete the programme. Staff costs arising from the programme are notional and are regarded as part of the Department's underlying commitment to provide management training and other development opportunities. For the 2005-06 financial year, spending against the HOPPS training budget was £56,734, against a budget figure of £80,000. The budget for 2006-07 is £129,000.

Departmental Premises (Security)

Mr. Andrew Turner: To ask the Secretary of State for the Home Department what measures are in place to ensure that no illegal immigrants are employed in the manned guarding of his Department's premises. [80798]

Mr. Byrne: People employed to work on Home Office premises whether employed directly by the Home Office or provided by a contractor, are required to satisfy requirements on identity, nationality and immigration status. In the case of contract workers, these checks are carried out by their employers; under section 8 of the Asylum and Immigration Act 1996 it is an offence to employ a person aged 16 or over, who is subject to immigration control and who is not entitled to work in the UK or to undertake the employment in question.

Departmental Telephone Lines

Andrew Rosindell: To ask the Secretary of State for the Home Department how the money that is raised from his Department's 0870 prefix contact telephone number is spent. [27132]

Mr. Byrne: The public inquiries telephone contact telephone number 0870 000 1585 was replaced with a geographic number in September 2005. Prior to that date any revenue generated was returned to HM Treasury, and not spent by the Home Office.

Deportation

Mr. Amess: To ask the Secretary of State for the Home Department how many of the foreign prisoners who were released without being considered for deportation are believed to be in Essex; and if he will make a statement. [70085]

Mr. Byrne: The Director General of the Immigration and Nationality Directorate wrote to the Home Affairs Select Committee on 29 June and set out, in line with the Home Secretary's requirements, the most accurate

data the Department currently holds on the 1,013 foreign national prisoner cohort released without due deportation consideration.

Mr. Clappison: To ask the Secretary of State for the Home Department how many foreign prisoners have been released and not removed under sections 259 to 262 of the early removal provisions of the Criminal Justice Act 2003 since they came into force. [76126]

Mr. Byrne: Sections 259 to 262 of the Criminal Justice Act 2003 are only used to release foreign national prisoners for removal.

Mr. Spellar: To ask the Secretary of State for the Home Department what policy direction he has issued to police forces on the issuing of names and photographs of former prisoners who should be considered for deportation. [75381]

Mr. Byrne: My right hon. Friend the Home Secretary has explained to the Home Affairs Committee on 23 May 2006 that this is an operational matter for the police. Discussions have taken place between officials from the Immigration and Nationality Directorate (IND) and the Association of Chief Police Officers (ACPO) on whether making public details of ex-offenders would assist in locating them. It is the considered view of ACPO that a decision should only be taken on a case by case basis as to whether to publicise the details of those individuals who are the subject of ongoing deportation action and still need to be located.

Mr. Gauke: To ask the Secretary of State for the Home Department which Ministers in his Department have responsibility for ensuring that foreign nationals are considered for deportation prior to being released from prison. [67678]

Mr. Byrne *[holding answer 3 May 2006]:* My right hon. Friend the Home Secretary has overall responsibility for the Home Office. I am Minister of State for Immigration, Citizenship and Nationality, and I am supported in this by the Under-Secretary of State for the Home Department, my hon Friend the Member for Enfield, North (Joan Ryan) .

The Minister for Policing, Security and Community Safety is supported by the Under-Secretary of State for the Home Department, my hon. Friend the Member for Gedling (Mr. Coaker).

Baroness Scotland of Asthal QC is for Criminal Justice and Offender Management and she is supported by the Under-Secretary of State for the Home Department, my hon. Friend the Member for Bradford, South (Mr. Sutcliffe).

Drink-driving

Mr. Sheerman: To ask the Secretary of State for the Home Department if he will take steps *(a)* to ensure that the law relating to drunken driving is fit for purpose, *(b)* to evaluate recent cases where defendants have been acquitted on technicalities and *(c)* to ensure the law is properly enforced against all those convicted of drink driving. [90601]

Mr. McNulty: The operation of the law on drink driving is kept under continuous review by the Home Office chaired Drink-Drug Drive Working Group. We have taken steps to assist police in their enforcement activities by making it easier for them to conduct tests for the presence of alcohol in a suspected drunken driver. Charging and prosecution are for the police and Crown Prosecution Service; decisions in individual cases, including decisions on the appropriate penalty, are matters for the courts.

Mr. Sheerman: To ask the Secretary of State for the Home Department what proportion of people charged with drink driving had not gone to trial within *(a)* three months, *(b)* six months and *(c)* 12 months of being charged in the last year for which figures are available. [85896]

Ms Harman: I have been asked to reply.

During 2005, the estimated proportion of drink -driving cases which had not been listed for trial in the magistrates courts within three months of charge (in charged cases) or laying of information (in summonsed cases) is less than 0.3 per cent.

The following table shows the estimated proportion of drink driving cases which had not been completed in the magistrates courts within three, six and twelve months of charge or laying of information.

These figures are estimates taken from the Time Intervals Survey for criminal cases in the magistrates courts. The survey covers all adult and youth cases completed during two one-week sample periods in March and September 2005. The figures shown are for all cases where the most serious offence was either driving after consuming alcohol or drugs, or being drunk in charge of a motor vehicle.

Initial plea	*Percentage of cases not complete*	*Margin of error*[1]	*Number of cases in sample*
Within three months of charge or laying of information			
Guilty	5.0	+/- 0.9	2249
Not guilty or no plea entered[2]	68.3	+/- 5.0	328
All cases	13.1	+/- 1.3	2577
Within six months of charge or laying of information			
Guilty	2.3	+/- 0.6	2249
Not guilty or no plea entered[2]	29.9	+/- 5.0	328
All cases	5.8	+/- 0.9	2577

Initial plea	Percentage of cases not complete	Margin of error[1]	Number of cases in sample
Within 12 months of charge or laying of information			
Guilty	0.6	+/- 0.3	2249
Not guilty or no plea entered[2]	5.8	+/- 2.5	328
All cases	1.3	+/- 0.4	2577

[1] 95 per cent. confidence limits for the overall percentage of cases not complete during the year, expressed in percentage points.
[2] Includes cases subsequently withdrawn.

Fires (London)

Mr. Burstow: To ask the Secretary of State for the Home Department pursuant to the Answer to Question 88959, on fires in London, how many prosecutions have been brought for arson and arson -related offences in each London borough, broken down by *(a)* age and *(b)* sex. [90553]

Mr. McNulty *[holding answer 5 September 2006]:* Data from the Court Proceedings database held by the Office for Criminal Justice Reform showing the number of persons proceeded against for arson offences in 2004, broken down by London Court Area, sex and age, is provided in the following table. It is not possible to identify court proceedings for other offences involving arson because the individual circumstances of offences are not held centrally. Data for 2005 will be available in the autumn.

Number of persons proceeded against at magistrates courts for arson offences by sex, age and London court area 2004[1, 2]

	Offence: Arson endangering life *Statute: Criminal Damage Act 1971 S.1(1)*						*Offence: Arson not endangering life* *Statute: Criminal Damage Act 1971 S.1(2)*

[1] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[2] These data are provided on the principal offence basis.

Foreign Criminals

Mr. Heald: To ask the Secretary of State for the Home Department what assessment his Department has made of whether any of the convicted foreign nationals who were released without being considered for deportation are on the electoral roll; and whether steps are being taken to check the electoral roll to identify them. [74082]

Mr. Byrne *[holding answer 25 May 2006]:* Checks on all those foreign national prisoners who were released without consideration of deportation action have been carried out on an individual basis. These checks were conducted on a case-by-case basis and not collated centrally and so the overall results are available only at disproportionate cost.

Jeremy Corbyn: To ask the Secretary of State for the Home Department if he will list in descending order according to the number of prisoners concerned the countries of origin of foreign national prisoners who have *(a)* been released without consideration for deportation and *(b)* been deported from Northern Ireland since February 1999. [75220]

Mr. Byrne: I refer my hon. Friend to the written ministerial statement of 29 June 2006, *Official Report*, column 19WS, made by my right hon. Friend the Home Secretary. In this statement he explained that the Director General of the Immigration and Nationality Directorate (IND) had written to the Home Affairs Committee on 29 June providing the most accurate data available at that time on the 1013 individuals who were released without deportation consideration. This information was collated centrally and quality assured by the Department and is the most accurate and robust data currently available to the Department. A copy of this letter has been placed in the Library of the House along with previous statistical information on those foreign nationals released without deportation consideration.

Mr. Paterson: To ask the Secretary of State for the Home Department how many civil servants employed by his Department are engaged in duties related to the release of foreign offenders. [68621]

Mr. Byrne: Within the Department the number of employees engaged in duties relating to the release of foreign offenders is not disaggregated from the overall number of employees and therefore not readily available.

Mr. Hayes: To ask the Secretary of State for the Home Department how many foreign nationals who were not deported after release from prison were released early; and how many of these were not interviewed by the parole board. [68744]

Mr. Byrne: The information requested is not centrally available and could be provided only at disproportionate cost.

Mr. Binley: To ask the Secretary of State for the Home Department how long a foreign national who has committed a crime in the UK may be detained when there is little prospect of their home country supporting their deportation. [84299]

Mr. Byrne: Where a deportation order is in force against any person, the Secretary of State may give directions for the person's removal to either a country of which he is a national or citizen, or a country or territory to which there is reason to believe that he will be admitted. Immigration Act powers to detain are not time-limited. However, domestic and ECHR case law provides that detention must last for no longer than is reasonably necessary for the purpose for which it is authorised and must not be of excessive duration. In the case of a person being deported or removed from the UK detention would be lawful provided there was a realistic prospect of deportation or removal within a reasonable period of time. Where a detainee refuses to cooperate with the removal process detention may be prolonged and the risk of reoffending is a factor that may be taken into account in determining whether the duration of a person's detention is reasonable. This position has been supported by the Courts.

Malcolm Bruce: To ask the Secretary of State for the Home Department pursuant to the answer of 11 July 2006 to Questions 68218, 68529, 68530 and 68531, on deportation of foreign prisoners, how many of the nine named individuals have been deported since serving their sentences. [86008]

Mr. Byrne *[holding answer 17 July 2006]:* As I advised the hon. Member previously, it is not the Department's policy to comment in the public domain on individual cases.

Mr. Harper: To ask the Secretary of State for the Home Department what *(a)* instructions and *(b)* guidance relating to foreign national prisoners he has issued to (i) the Governor of each prison in Gloucestershire, (ii) the Chief Constable of Gloucestershire Constabulary, (iii) the Chairman of Gloucestershire Police Authority and (iv) the head of the Probation Service in Gloucestershire; and if he will place copies of that guidance in the Library. [67476]

Mr. Byrne: A revised Prison Service Order (PSO 4630) on Immigration and Foreign Nationals was issued to all prisons, including those in Gloucestershire on 17 July.

No additional instructions or guidance were issued by the Department to the Chief Constable for Gloucestershire or the Chairman of Gloucestershire Police Authority. Normal procedures for dealing with prisoners locally were applied.

The National Probation Directorate issued a Probation Circular to all chief officers on 5 June which set out the requirements in relation to the management of foreign national prisoners subject to statutory supervision and advising them to implement a system to provide regular checks on their supervision.

Peter Luff: To ask the Secretary of State for the Home Department how many foreign prisoners are held in UK prisons; and how many of them *(a)* came to the UK (i) on a visitor's visa, (ii) on a work permit and (iii) as asylum seekers known to the authorities but not granted asylum, *(b)* were not known to the authorities before their arrest and *(c)* were citizens of other EU countries. [68492]

Mr. Byrne: In respect of information on the nationality of foreign nationals held in prison establishments in England and Wales I refer the hon. Gentleman to the reply my right hon. Friend the Home Secretary, gave to the right hon. Member for Haltemprice and Howden (David Davis) on 18 July 2006, *Official Report*, column 403W. The information requested on the immigration status of foreign nationals held in UK prisons is not recorded centrally and only available through examination of individual case files at disproportionate cost. In a written ministerial statement of 19 July 2006, *Official Report*, column 29WS, I set out the progress the Department is making in respect of improving our processes for dealing with and removing foreign national prisoners.

Dr. Julian Lewis: To ask the Secretary of State for the Home Department whether foreign criminals deported after serving their sentences can be prevented from re-entering the United Kingdom when their countries subsequently join the European Union. [68911]

Mr. Byrne *[holding answer 8 May 2006]:* A person entering or seeking to enter the United Kingdom in breach of a Deportation Order (DO) is an illegal entrant as defined in section 33(1) of the Immigration Act 1971 and so is not permitted to seek re-entry to the United Kingdom. Records of individuals deported from the UK are added to the UK's Immigration database deployed at all UK border control points, against which those seeking entry to the UK are routinely checked. An individual who was deported from the United Kingdom prior to their country acceding to the European Union, and thus prior to their acquisition of rights of movement under EC law, would not be able to exercise the right of free movement without first seeking to have the deportation order revoked.

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the Prime Minister's oral answer of 17 May 2006, *Official Report*, column 991 to the Leader of the Opposition, how many foreign nationals sentenced to serve a prison sentence have been deported at the halfway point of their sentence under the provisions of the Criminal Justice Act 2003 since the Act came into force. [72722]

Mr. Byrne: The information requested is not centrally available and could be provided only at disproportionate cost

Mr. Hollobone: To ask the Secretary of State for the Home Department what the total cost was of holding *(a)* non-British EU nationals and *(b)* non-EU foreign nationals in prisons in England and Wales in the last year for which figures are available. [80202]

Mr. Byrne: The Prison Service does not collate centrally the cost of keeping individual prisoners, broken down by their nationality.

Mr. Sheerman: To ask the Secretary of State for the Home Department how many prisoners in UK prisons are citizens of *(a)* Albania, *(b)* Romania, *(c)* Turkey and *(d)* Poland; and what percentage of the overall prison population each figure represents. [90956]

Mr. Sutcliffe *[holding answer 11 September 2006]:* The table gives the numbers of prisoners held in prison establishments in England and Wales who were citizens of *(a)* Albania, *(b)* Romania, *(c)* Turkey and *(d)* Poland at 31 December 2005. These figures have been drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system, and so is not necessarily accurate to the last whole number. As the written ministerial statement of 19 July 2006, *Official Report*, columns 28-30WS, from my hon. Friend the Minister for Immigration, Citizenship and Nationality indicated, the Home Secretary has identified eight priority areas to be addressed in order to improve the effectiveness of arrangements for deporting foreign national prisoners. The second of these priority areas is that there is currently no legal requirement for prisoners to provide evidence of their nationality, or consistent processes for nationality to be recorded. Before the summer, staff in IND and the criminal justice agencies worked together to design possible ways of addressing this gap, including a new legal requirement. A programme of activities is currently in hand, managed through the Office for Criminal Justice Reform, to test the options with frontline staff across the criminal justice system and to examine their feasibility and relative merits, in order for

recommendations to be produced by the end of October. Information on the numbers of foreign national prisoners serving prison sentences in prison establishments in Scotland and Northern Ireland is the responsibility of the Scottish Executive and Northern Ireland Office respectively.

Listed foreign national prisoners in prison establishments in England and Wales as at 31 December 2005

	Number of prisoners	*As percentage of prison population*
Albania	122	0.2
Poland	155	0.2
Romania	142	0.2
Turkey	294	0.4
Total prison establishment population	74,194	

Helicopter Searches

Norman Baker: To ask the Secretary of State for the Home Department pursuant to the answer of 5 June 2006, *Official Report*, column 40W, on helicopter searches, for what reason the police helicopter based at Luton was used in this search rather than the one based at RAF Benson. [90877]

Mr. McNulty *[holding answer 5 May 2006]:* The police helicopters based at RAF Benson and Luton are constituent parts of the Chiltern Air Support Consortium. The duty period for the police helicopter based at RAF Benson ended at 02.30 on 18 July 2003. The new duty period commenced at 08.00 on 18 July. Therefore the two flights that were made in support of the search for Dr. David Kelly on the 18 July 2003 were made by the police helicopter based at Luton. The first flight was from 02.50 until 04.05, followed by a refuel at RAF Benson and a second flight from 04.30 until 05.10.

Hunting

David Taylor: To ask the Secretary of State for the Home Department how many people have been prosecuted under the provisions of the Hunting Act 2004 since November 2005. [90805]

Mr. McNulty: The Hunting Act 2004 came into force on 18 February 2005. Data on the number of prosecutions in 2005 will be available in the autumn.

Identity Cards

Mr. Garnier: To ask the Secretary of State for the Home Department what plans he has to address the issues identified with his Department's planned identity card scheme by the Science and Technology Committee; on what date the first identity card will be issued; how much has been spent on the scheme; and when he expects to be able to produce accurate total costings for the scheme. [90858]

Joan Ryan: The Government welcomes the Report from the Science and Technology Committee and is grateful for the attention they have given to this crucial element of our plans to enhance the security of all legal residents of the UK. We are considering the report very closely and will give a full response in due course. ID cards will be implemented as rapidly as possible, starting with biometric residence permits for foreign nationals in 2008, and rolling out to UK nationals thereafter. With regard to past spending on the identity cards scheme, I refer the hon. Gentleman to the answer given to the hon. Member for Sheffield, Hallam (Mr. Clegg) on 19 July 2006, *Official Report*, column 553W. A report on projected costs of the scheme over the next ten years will be laid before Parliament as required by Section 37 of the Identity Cards Act on 9 October. A written ministerial statement explained on 20 July that the report would have been due on 30 September but, because of the dates of recess, will be laid before Parliament on its return. The report cannot be laid when Parliament is not sitting.

Immigration and Nationality Directorate

John Barrett: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will reply to the fax from the hon. Member for Edinburgh West of 31 May with regard to Ghanzanfar Ali. [79785]

Mr. Byrne: The hon. Gentleman's inquiry has now been dealt with and I understand that he no longer wishes to pursue this question.

Danny Alexander: To ask the Secretary of State for the Home Department what the total *(a)* cost to callers and *(b)* revenue to his Department was from the Immigration and Nationality Directorate number 0870 606 7766 in each year that the number has been in operation. [81680]

Mr. Byrne *[holding answer 29 June 2006]:* Information on call charges and revenue for phone number 0870 606 7766 is available for the financial years April 2002 to March 2006 presented in the following table. The Immigration and Nationality Directorate (IND) ceased taking any revenue from this number from 1 April 2005.

£

April to March	*Cost to callers*	*IND revenue*
2002-03	504,166.00	88,333.00
2003-04	549,496.00	97,212.00
2004-05	639,549.00	108,151.00
2005-06	741,388.00	0.00

Information Technology

Mr. Weir: To ask the Secretary of State for the Home Department how many *(a)* USB (i) flash drives and (ii) memory sticks, *(b)* compact discs, *(c)* DVD-ROM discs, *(d)* laptop computers, *(e)* external computers hard drives, *(f)* internal computer hard drives and *(g)* desktop computers were purchased for use in his Department in each month since March 2005. [88760]

Mr. Byrne: IT hardware used by the core Home Department is not purchased but provided under a PFI contract by its IT service provider, Sirius. Details of any peripheral purchases made outside of the Sirius contract are not held centrally and to obtain this information would incur disproportionate cost.

Inter-country Marriage

Damian Green: To ask the Secretary of State for the Home Department when he plans to announce the outcome of his review of the restrictions on marriage between UK citizens and non-UK citizens. [91042]

Mr. Byrne: The High Court has found the certificate of approval regime incompatible with ECHR on two grounds: that it discriminated against non-Church of England marriages and that it was disproportionate in not seeking evidence other than immigration status to establish whether or not a marriage was genuine. We shall be appealing the second part of the judgment on proportionality grounds and will await the outcome of that appeal before proceeding with any further review. In parallel we are working with the Department of Constitutional Affairs and the Church of England to consider how best to respond to the court's judgment on the discrimination point.

Malicious Damage Act

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females have been (i) prosecuted and (ii) convicted in England and Wales of offences under sections (A) 35 and (B) 36 of the Malicious Damage Act 1861. [39744]

Mr. McNulty: Information taken from the court proceedings database held by the Office for Criminal Justice Reform on the number of males and females proceeded against at magistrates courts and found guilty at all courts of criminal damage, England and Wales, 2004 is contained in the table.

It is not possible to separate prosecution and conviction data under sections 35 and 36 of the Malicious Damages Act 1861 from data relating to other offences of criminal damage.

Number of males and females proceeded against at magistrates courts and found guilty at all courts for criminal damage—England and Wales, 2004[1]

	Proceeded against		*Found guilty*	
	Male	*Female*	*Male*	*Female*
Criminal damage endangering life (excluding arson)[2]	174	29	103	18
Other criminal damage[3]	12,032	1,327	8,157	972

[1] These data are provided on the principal offence basis.
[2] Includes offences under Explosive Substances Act 1883 S.2 (in part) and S.3 (in part), Malicious Damage Act 1861 SS 35, 36, 47 and 48, Criminal Damage Act 1971 S.1(2).
[3] Includes offences under Explosive Substances Act 1883 S.2 (in part) and S.3 (in part), Malicious Damage Act 1861 SS 35, 36, 47 and 48, Ancient Monuments and Archaeological Area Act 1979 S.28(1), Post Office Act 1953 S.60, Criminal Damage Act 1971 S.1(1) (value over £5,000 or at the same time as another offence).

MI5

Norman Baker: To ask the Secretary of State for the Home Department what factors underlie the increase between 2001 and 2005 in the number of personal files held by MI5. [90874]

Mr. McNulty: The main factors are the increase in Security Service workload and resources in the wake of the 9/11 and subsequent terror attacks.

Norman Baker: To ask the Secretary of State for the Home Department pursuant to his answer of 6 July 2006, *Official Report*, column 1328W, on MI5, what other categories of MI5 file there are in addition to personal files; and how many files are held in each category. [90875]

Mr. McNulty: In addition to personal files, the Security Service holds files on its policies, internal management matters, subjects and groups it studies, and on people and groups not under investigation—this last category includes those to whom security advice has been given.

It would be of disproportionate cost to establish the numbers of files in each category.

Ministerial Offices

Sarah Teather: To ask the Secretary of State for the Home Department how many times his ministerial office has been decorated in each of the last five years. [87646]

Mr. Byrne: As the Home Office has only occupied 2 Marsham Street since 2005, none of the ministerial offices have been decorated since. The Secretary of State for the Home Department's ministerial office at 50 Queen Anne's Gate was not decorated during the last three years of occupancy.

Murderers

Julia Goldsworthy: To ask the Secretary of State for the Home Department (1) how many convicted murderers have had their tariff set after sentencing since the implementation of the Criminal Justice Act 2003; [86051]

(2) how many convicted murderers who have been sentenced are waiting for their tariff to be set by a High Court judge. [86050]

Ms Harman: I have been asked to reply.

There have been 418 convicted murderers sentenced who are awaiting their tariff and 282 have had their tariff set since the implementation of the Criminal Justice Act 2003.

Open Prisons (Deportees)

Damian Green: To ask the Secretary of State for the Home Department (1) how many people held in open prisons while awaiting deportation absconded in each year between 2001 and 2005; [73532]

(2) how many people awaiting deportation were held in open prisons on 31 December *(a)* 2005, *(b)* 2004, *(c)* 2003, *(d)* 2002 and *(e)* 2001; [73533]

(3) what guidance he has issued on the holding in open prisons of those awaiting deportation; and if he will make a statement. [73534]

Mr. Byrne: Information on the number of people awaiting deportation who have absconded or have been held in open conditions is not held centrally in the format requested and may only be obtained at a disproportionate cost. The Prison Service reviewed the criteria for the categorisation and allocation of foreign national prisoners to open conditions earlier this year. The review concluded that no changes to the security re-categorisation policy were required. However, governors were advised that before a foreign national prisoner was approved for open conditions the individual risk was to be assessed on the assumption that deportation will take place unless a decision not to deport had already been taken by the Immigration and Nationality Directorate.

Outsourcing

Mr. Gauke: To ask the Secretary of State for the Home Department what administrative functions for which his Department is responsible are outsourced overseas; and what assessment he has made of the merits of outsourcing further such functions overseas. [81553]

Mr. Byrne: None of the core Home Office administrative functions for which the Home Department is responsible are outsourced overseas.

Paid Leave

Mr. Clegg: To ask the Secretary of State for the Home Department how many members of staff in his Department have been on paid leave for more than *(a)* six months, *(b)* a year and *(c)* two years; and if he will make a statement. [76896]

Mr. Byrne *[holding answer 12 June 2006]:* The following figures are as of 12 June 2006 and include staff in the central Home Office, the Immigration and Nationality Directorate and HM Prison Service.

To breakdown these figures further may lead to the identification of individuals and breach confidentiality.

Number of staff who have been on paid leave

Time line	*Actual staff*	*Percentage of all staff*
6 months to1 year	26	0.04
1 year to 2 years	20	0.03
More than 2 years	8	0.01

Physical Evidence Gathering Protocol

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department on what date the physical evidence-gathering protocol was introduced; and if he will make a statement. [16857]

Mr. McNulty: I will write to the hon. Member separately.

Police

Mr. Gauke: To ask the Secretary of State for the Home Department how much police forces in England and Wales have spent on interpreters in each of the last 10 years. [90590]

Mr. McNulty: The information requested is not collected centrally.

Mr. Bone: To ask the Secretary of State for the Home Department how many *(a)* own force investigations, *(b)* supervised investigations, *(c)* managed investigations and *(d)* independent investigations have been carried out by the Independent Police Complaints Commission in each year since it was established. [90591]

Mr. McNulty: The Independent Police Complaints Commission is an independent body responsible for the management of the police complaints system. I will ensure that the chairman receives a copy of the question and replies to the hon. Gentleman directly. Copies of the letter containing the IPCC's response will be placed in the House Libraries.

Mr. Bone: To ask the Secretary of State for the Home Department how many investigators have been employed by the Independent Police Complaints Commission in each year since it was established; and how many were budgeted for in each year. [90593]

Mr. McNulty: The Independent Police Complaints Commission is an independent body responsible for the management of the police complaints system. I will ensure that the chairman receives a copy of the question and replies to the hon. Gentleman directly. Copies of the letter containing the IPCC's response will be placed in the House Libraries.

Mr. Bone: To ask the Secretary of State for the Home Department if he will take steps to ensure that the Independent Police Complaints Commission supervised and managed investigations are not conducted by police officers from the force being investigated; and if he will make a statement. [90762]

Mr. McNulty: The Independent Police Complaints Commission is an independent body responsible for the management of the police complaints system. I will ensure that the chairman receives a copy of the question and replies to the hon. Gentleman directly. Copies of the letter containing the IPCC's response will be placed in the House Libraries.

Mr. Evennett: To ask the Secretary of State for the Home Department how many applications made to become police community support officers were *(a)* approved and *(b)* rejected in the most recent period for which figures are available. [90821]

Mr. McNulty: This information is not held centrally.

Norman Baker: To ask the Secretary of State for the Home Department pursuant to his answer of 6 July 2006, *Official Report*, column 1332W, on police, what factors led to the decision to make the police helicopter based at RAF Benson available for tasking from 17.35 on 17 July. [90878]

Mr. McNulty: The police helicopter at RAF Benson was undergoing maintenance on 17 July 2003 until 17.35 when it was available for tasking until the end of its duty period at 02.30 on 18 July. It was available for tasking again from 08.00 on 18 July until 02.30 on 19 July.

Mr. Amess: To ask the Secretary of State for the Home Department how many complaints have been referred to the Independent Police Complaints Commission in each year since its inception in *(a)* England and *(b)* Essex; and how many have been upheld in each case. [90884]

Mr. McNulty: The Independent Police Complaints Commission is responsible for the management of the police complaints system. I will ensure that the chairman receives a copy of the question and replies to the hon. Gentleman directly. Copies of the letter containing the IPCC's response will be placed in the House Libraries.

Prisons

Mr. Brazier: To ask the Secretary of State for the Home Department how many foreign prisoners are being held in open prisons; and how many have absconded from such prisons in the last 12 months. [71432]

Mr. Byrne *[holding answer 16 May 2006]:* On 29 August 2006, 139 foreign national prisoners were being held within open conditions. Of these, 10 were having their nationality verified by the Immigration and Nationality Directorate. It is not possible to identify the number of absconds in 2005-06 who were foreign nationals except at disproportionate cost.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many foreign nationals were released from each UK prison in each of the last five years; and how many of these prisoners were considered for deportation. [85937]

Mr. Byrne: Comprehensive statistical information on discharges is not centrally available, and providing information based on manually stored records could be achieved only at disproportionate cost.

David T.C. Davies: To ask the Secretary of State for the Home Department what percentage of the prison population is receiving the state pension. [90750]

Mr. Sutcliffe: Prisoners are not entitled to receive the state pension while in prison.

David T.C. Davies: To ask the Secretary of State for the Home Department what the largest sum is that a prisoner has earned in a year while working in a job inside or outside the prison in each of the past five years for which figures are available. [90752]

Mr. Sutcliffe: Information on individual prisoners' wages is not held centrally. Payment for prisoners who work within prisons is set out in PSO 4460 and I have placed a copy of this in the Library. Those working outside the prison for an external employer are paid the same rates as normal employees.

Mr. Garnier: To ask the Secretary of State for the Home Department what strategy he has to tackle corruption in the Prison Service. [90856]

Mr. Sutcliffe: The Prison Service's policy on tackling corruption is set out in Prison Service Order 1215 and can be viewed at: www.hmprisonservice.gov.uk/resourcecentre/psispsos/listpsos/

Private Sector Fund Recipients

Chris Huhne: To ask the Secretary of State for the Home Department if he will list the 10 non-public sector entities that have received the largest total sum of payments from his Department in each of the last five years. [71764]

Mr. Byrne: The following tables give details of the 10 non-public sector entities that have received the largest total sum of payments in each of the last five years.

Top 10 non-public sector entities

2005-06	*Amount (£)*

Privileged Entry

Mr. Sheerman: To ask the Secretary of State for the Home Department how many UK citizens are given privileged entry treatment when entering the UK. [90961]

Mr. Byrne: UK citizens are required to satisfy the Immigration Officer that they have the right of abode when entering the United Kingdom, in accordance with the British Nationality Act 1981 and are not subject to immigration control. Those satisfying an immigration officer as above, are expedited through immigration control without further hindrance, subject to any security measures.

Reducing Reoffending Action Plan

Mr. Llwyd: To ask the Secretary of State for the Home Department what changes he plans to make to the way resources are allocated to deliver the Reducing Reoffending Action Plan effectively in Wales. [49064]

Mr. Sutcliffe: While the national Reducing Reoffending Delivery Plan details the partnership work in England, similar principles and the broad approach to reducing reoffending are reflected in 'Joining Together in Wales: an Adult and Young People's Strategy to Reduce Reoffending'. The strategy was launched jointly by the Welsh Assembly Government and Home Office Ministers earlier this year and reflects the roles and responsibilities of the Welsh Assembly Government and the National Offender Management Service. It identifies the issues and aims to be addressed in Wales, which formed the basis of a consultation to develop the actions. Following the consultation, work is now underway with the Welsh Assembly Government and other key partners to develop and agree a joint action plan to deliver the strategy in Wales. Responsibility for the development of the strategy in Wales rests with the Director of Offender Management Services in Wales. Through the role of commissioning services, the Director of Offender Management Services in Wales will be able to influence the allocation of resources to pursue national objectives and in the delivery of the joint action plan. Clearly, not all resources will be allocated directly through the National Offender Management Service and those within other partners' responsibilities form part of the consideration being given to developing and resourcing the delivery of the joint action plan. In addition, to support this work, we are also developing our reducing re-offending alliances in Wales, with the corporate sector, civic society, faith groups and the voluntary sector. The aim is to bring in new skills and innovation enabling us to work effectively with ex-offenders in different ways.

Sentences

Mr. Hollobone: To ask the Secretary of State for the Home Department what proportion of convicted offenders released from detention in the last 12 months served their sentence in full. [91025]

Mr. Sutcliffe *[holding answer 11 September 2006]:* Prison sentences are served in two parts, the first in prison and the second under restrictions in the community. Information on the average length of time served in prison by prisoners discharged from determinate sentences can be found in tables 10.1 and 10.2 of the Offender Management Caseload Statistics 2004, available in the House of Commons Library. The figures provided in the tables were drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system, and so is not necessarily accurate to the last whole number.

Sex Offenders

Mr. Clegg: To ask the Secretary of State for the Home Department how many sex offenders moved from approved premises adjacent to schools were moved to *(a)* other approved premises, *(b)* bed and breakfast accommodation and *(c)* other housing; and how many were participating in sex offender treatment programmes when they were moved. [88480]

John Reid: The total number of sex offenders moved from the 12 approved premises listed as immediately adjacent to schools is 65. Of these, 49 were moved to other approved premises and 16 were relocated to other housing; none were placed in bed and breakfast accommodation. All moves were undertaken following individual risk assessments. The number of residents participating in sex offender treatment programmes when they were moved was 23.

Speed Cameras

Mr. Amess: To ask the Secretary of State for the Home Department how many fixed penalty notices have been issued for speeding as a result of the enforcement camera sited on the A13 eastbound carriageway at Pitsea; and how many tickets have been issued in each month since the camera was sited there. [90887]

Mr. McNulty: Information on speeding penalties in respect of offences at specific camera locations is not held centrally.

Mr. Amess: To ask the Secretary of State for the Home Department how many police officers have been employed in Essex in each year since 1997; and how many officers were engaged in monitoring traffic speed on average in each year. [90888]

Mr. McNulty: Information on the number of police officers in Essex police is set out in the following table. Data on the number of officers engaged in monitoring traffic speeding is not collected. The deployment of police officers to this and other police duties is an operational matter for the chief constable.

Essex police—strength 1997 to 2006

Year (as at 31 March)	*Number of police officers*
1997	2,961
1998	2,928
1999	2,891
2000	2,806
2001[1]	2,887
2002	2,946
2003	2,989
2004	3,098
2005	3,190
2006	3,279

[1] Boundary changes with the Metropolitan police on 1 April 2000 transferred resources to the Essex police area. Like with like comparisons cannot therefore be made for years before March 2001.

Student Visas

Mr. Weir: To ask the Secretary of State for the Home Department how many people allowed into the UK under false student visas have been identified and deported in each of the last five years. [89062]

Mr. Byrne: The information requested is not available and could be produced only at disproportionate cost by the examination of individual case files.

Sustainable Training and Employment Partnership

Mr. Greg Knight: To ask the Secretary of State for the Home Department if he will make a statement on the Sustainable Training and Employment Partnerships resettlement project; what plans he has to extend the scheme; and what assessment he has made of the costs and benefits of the project. [59937]

Mr. Sutcliffe *[holding answer 20 March 2006]:* The Sustainable Training and Employment Partnerships resettlement project was a local initiative at HM Prison Coldingley. The project was not evaluated formally but it has informed local resettlement activities.

Unaccompanied Minors

Mr. Steen: To ask the Secretary of State for the Home Department pursuant to his answer of 4 September 2006, Official Report, column 1975W, how many unaccompanied minors were admitted to the UK at Heathrow airport in each of the last three years. [90929]

Mr. Byrne: The information requested is not held centrally and could be obtained only at disproportionate cost. Information on asylum applications from unaccompanied minors is published in quarterly web pages and in the annual statistical bulletin Asylum Statistics United Kingdom. Copies of these publications and others relating to general immigration to the UK are available from the Library of the House and from the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Wales Office

Mrs. Gillan: To ask the Secretary of State for the Home Department (1) when he plans to meet the Secretary of State for Wales to discuss the implications for Wales of the action plan for reform of his Department; [88173]

(2) what steps he plans to take to ensure that the interests of Wales are fully represented at each *(a)* level and *(b)* stage of the action plan to reform his Department. [88174]

Mr. Byrne *[holding answer 24 July 2006]:* As with all Cabinet colleagues, my right hon. Friend the Secretary of State for the Home Department meets our right hon. Friend the Secretary of State for Wales on a regular basis to discuss a range of issues.

Yarl's Wood Detention Centre

Annette Brooke: To ask the Secretary of State for the Home Department whether clothed body searches are conducted on women and female children by male officers at Yarl's Wood Detention Centre. [90568]

Mr. Sutcliffe: The searching of female immigration detainees can only be conducted by female members of staff. Further details of searching procedures can be found in the published Operating Standards for Immigration Removal Centres. http://horizon/IND/Directorates/OPERATIONS/Resources/PDF/DetentionServices/OperatingStandards.pdf

Written Answers to Questions

The following answers were received between Thursday 14 September and Monday 18 September 2006

DUCHY OF LANCASTER

Scouting Centenary

Bob Russell: To ask the Chancellor of the Duchy of Lancaster what Government support will be made available for the Centenary of Scouting in 2007; which Minister has been designated to lead Government support for the Centenary; and if she will make a statement. [91207]

Edward Miliband: As Minister for the Third Sector, I want to ensure the Government play a role in supporting the Centenary of Scouting celebrations. Officials from the Office of the Third Sector are currently working with the Scout Association to consider how the Government can support the Centenary of Scouting in 2007.

SOLICITOR-GENERAL

Northamptonshire CPS

Mr. Hollobone: To ask the Solicitor-General in what proportion of cases prosecuted by the Northamptonshire Crown Prosecution Service, bail was given against the prosecutor's advice in each of the last five years. [91111]

The Solicitor-General: The Crown Prosecution Service (CPS) does not maintain records on bail decisions other than the information held on individual case files. The information could be obtained only at disproportionate cost by identifying and retrieving every relevant file.

Persistent/Prolific Offenders

Mr. Hollobone: To ask the Solicitor-General what steps he is *(a)* taking and *(b)* plans to take to ensure the successful prosecution by the Crown Prosecution Service of persistent and prolific offenders. [91110]

The Solicitor-General: As I have previously indicated on 27 April 2006, *Official Report*, column 1264W, persistent and prolific offenders receive a 'Premium Service' from the Crown Prosecution Service (CPS) and other criminal justice agencies. CPS prosecutors review the progress of these cases with local police crime managers at regular meetings and the CPS works with the courts to give these cases priority listing. The full extent of the criminal activity is brought to the attention of the court.

The CPS will continue to work closely at a national and local level with colleagues in the criminal justice system, particularly the police, in order to bring to justice those prolific and priority offenders who are causing the most harm to their communities.

EDUCATION AND SKILLS

Health and Safety

Richard Ottaway: To ask the Secretary of State for Education and Skills what steps he is taking to make teachers aware of the health and safety warnings relating to interactive whiteboard use in schools. [91049]

Phil Hope *[holding answer 13 September 2006]*: Becta (British Educational Communications and Technology Agency), the Department's strategic ICT partner and lead on the operational aspect of embedding ICT in schools, provides guidance on the safe use of interactive whiteboards in schools through its website, liaison with interactive whiteboard suppliers, briefings and publications for local authorities and schools.

CONSTITUTIONAL AFFAIRS

Freedom of Information Act

Mr. Truswell: To ask the Minister of State, Department for Constitutional Affairs what plans the Government have to change the charging arrangements in relation to requests under the Freedom of Information Act 2000; and if she will make a statement. [91267]

Bridget Prentice: The fees regime is still under review and the Government have not yet made a decision on what changes should be made to the present regime.

Judicial Powers

Mr. Djanogly: To ask the Minister of State, Department for Constitutional Affairs what consultation process was undertaken in relation to the Government's proposals to give judges the power to order the withdrawal of a defendant's solicitor or barrister from certain trials, as published in proposals by her Department. [91001]

Vera Baird *[holding answer 13 September 2006]*: The Consultation Paper "Proposals to create judicial powers to manage conflict of interest and capacity issues in very high cost cases" was published on 4 August 2006 and responses are required by 27 October 2006. It is available on the DCA's website and we have sent copies to key stakeholders. In addition, copies of the Consultation Paper have been placed in the Libraries of both Houses. We are keen to ensure the widest range of views are considered. We have already discussed the proposals with the judiciary and the professional bodies. We will publish our response at the beginning of November on the DCA's website and copies will be available in the Libraries of both Houses.

NORTHERN IRELAND

Northern Ireland Policing Board

Lady Hermon: To ask the Secretary of State for Northern Ireland what determining date was used in deciding on the allocation under the d'Hondt formula for the political members of the Northern Ireland Policing Board; and what factors he took into account when selecting the determining date. [57296]

Paul Goggins: Under the terms of the Police (Northern Ireland) Act 2000, the Secretary of State's only obligation, when appointing members of the Policing Board during suspension of the Assembly is to ensure that the Board, as a whole, is representative of the community in Northern Ireland. Therefore he is not required to use the results of the Assembly elections or apply d'Hondt to the allocation of seats to political members.

The Secretary of State announced on 13 October 2005 that he intended to invite nominations from the political parties based on the 2003 election results and reflecting what would have been the parties representation at that time, had the Assembly not been suspended and the d'Hondt formula run based on those strengths. His recent invitation to the parties to make nominations was consistent with that decision.

Lady Hermon: To ask the Secretary of State for Northern Ireland what factors he took into account when setting the notice period for party leaders to submit nominations for the Northern Ireland Policing Board. [57297]

Paul Goggins: The Secretary of State in determining the notice period for party leaders to submit the political nominations for the Northern Ireland Policing Board took into account the following factors:

(1) He had already announced on 13 October 2005 the reconstitution of the Board with effect from 1 April 2006 including the proposed seeking of political nominations.

(2) He had launched the recruitment competition for independent members on 15 November 2005 and this competition closed on 16 December 2005.

(3) Political parties were made aware at the launch of the competition for independent members that the seeking of political nominations was the next step.

(4) All steps in the reconstitution process must be concluded by 1 April to ensure the establishment of the new Policing Board.

School Finance

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much of the Department of Education's budget allocation has been spent on *(a)* new integrated schools and *(b)* maintenance and essential repairs to schools in each education and library school area in each of the last five years. [87997]

Maria Eagle: The information for the last five years for which information is available is as follows:

(a) Spending on the new grant-maintained integrated schools which have been recognised and funded by the Department of Education since September 2000 is as follows:

£000

	2000-01	2001-02	2002-03	2003-04	2004-05	Grand total
BELB	0	0	0	0	0	0
WELB	0	0	0	0	90	90
NEELB	826	1,971	2,075	3,020	3,484	11,376
SEELB	0	96	309	508	[1]3,220	4,133
SELB	0	0	0	0	269	269
Total	826	2,067	2,384	3,528	7,063	15,868

[1] Includes capital grant of £2,500

(b) Spending on maintenance and essential repairs in all schools, including integrated schools, is as follows:

£000

	2000-01	2001-02	2002-03	2003-04	2004-05	Grand total
BELB	9,860	10,673	11,318	9,573	5,497	46,921
WELB	7,643	8,262	8,490	4,885	5,406	34,686
NEELB	7,449	9,446	5,836	8,869	5,306	36,906
SEELB	8,162	11,318	10,732	7,442	5,237	42,891
SELB	11,244	9,283	9,704	9,949	7,937	48,117
Total	44,358	48,982	46,080	40,718	29,383	209,521

Sexual Offences

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many incidents of a serious sexual nature *(a)* were investigated by police in Northern Ireland and *(b)* were the subject of a successful prosecution in 2005. [69464]

Paul Goggins: The PSNI do not gather statistics relating to number of investigations. Although details of prosecutions for 2005 are not yet available, the tables show the number of sexual offences recorded and cleared for the years 2004-05 and 2005-06.

Number of sexual offences recorded in Northern Ireland 2004-05 to 2005-06

	Recorded		Cleared	
	2004-05	2005-06	2004-05	2005-06
Rape	347	356	156	155
Attempted rape	33	35	16	24
Indecent assault	746	808	412	335
Other sexual offences	560	512	192	227
Total	1,686	1,711	776	741

All sexual offences cleared by method of clearance 2004-05 to 2005-06

	2004-05		2005-06	
	Percentage	Number	Percentage	Number
Charge/summons	40.1	311	41.0	304
Caution	3.0	23	5.3	39
Taken into consideration	0.4	3	0.0	0
Offender under age	1.0	8	1.5	11
Complainant declined to prosecute	22.3	173	29.6	219
Otherwise disposed of	33.2	258	22.7	168
Total	100	776	100	741

CULTURE, MEDIA AND SPORT

Creative Industries (Funding)

Mr. Sheerman: To ask the Secretary of State for Culture, Media and Sport what steps she is taking to protect the budgets of those publicly funded organisations which promote creative industries. [91174]

Mr. Woodward: HM Treasury announced in July 2005 that there would be a Comprehensive Spending Review of Government spending. As part of this work the Department has been asked to identify how value for money could be improved. The Department is also compiling evidence on the wider benefits that our sectors bring for areas including the economy and community.

The Department has ensured that all of its sectors, including the Creative Industries, have been engaged with this process. DCMS is currently working with relevant non-departmental public bodies to finalise this.

Internet Gambling

Ben Chapman: To ask the Secretary of State for Culture, Media and Sport what representations she has received regarding the promotion of internet gambling sites in *(a)* broadcast and *(b)* non-broadcast media. [91141]

Mr. Caborn: We have had a number of discussions with the Gambling Commission, the Responsibility in Gambling Trust, remote gambling industry representatives, and others, on the promotion of internet gambling.

The promotion of gambling in non-broadcast media is regulated by the Advertising Standards Authority (ASA); and in broadcast media it is regulated by Ofcom. ASA and Ofcom will consult the Gambling Commission when setting, reviewing and revising standards for gambling advertising.

Tote

Mr. Grogan: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on progress with negotiations regarding the planned sale of the Tote. [91132]

Mr. Caborn: The Government remain committed to selling the Tote to racing.

We are currently in discussions with racing regarding a closed sale of the Tote at full market value.

UK Film Council

Tim Loughton: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the reasons for the difference in funding for film projects by the UK Film Council in *(a)* the City of Brighton and Hove and *(b)* West Sussex. [91166]

Mr. Woodward: The difference in funding for film projects between the City of Brighton and Hove and West Sussex is a reflection of the level of film making activity in each of the areas.

Since funding applications are necessarily considered on a project by project basis, the density of awards made in Brighton and Hove is attributable to the relative level of film activity in the area. Many more applications are received from Brighton and Hove (341) than from West Sussex (87).

It should be noted however that the proportion of successful applications to Screen South, the Regional Screen Agency for the South East, is in fact higher in West Sussex than in Brighton and Hove, with an average of 48 per cent. proceeding to award over the last four years compared with an average of 40 per cent. in Brighton and Hove over the same period.

Equally, applications to UK Film Council central funds show the same trend: more applications have been received from Brighton and Hove (140) than from West Sussex (51), but of those latter a higher percentage proceeded to award—25 per cent. as against 14 per cent.

Wicksteed Park

Mr. Hollobone: To ask the Secretary of State for Culture, Media and Sport if the Minister with responsibility for creative industries and tourism will meet *(a)* a small delegation from the Wicksteed Trust and *(b)* the hon. Member for Kettering to discuss the opportunities and challenges facing the future of Wicksteed Park, Kettering. [91107]

Mr. Woodward: Subject to my other commitments, I should be very pleased to look into the possibility of a meeting with the hon. Gentleman to discuss Wicksteed Park. I look forward to his contacting my office to discuss a convenient date.

COMMUNITIES AND LOCAL GOVERNMENT

Affordable Rural Housing Commission

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government when her Department will respond to the recommendations of the Affordable Rural Housing Commission. [91272]

Yvette Cooper: The Government are already taking forward many of the recommendations of the Affordable Rural Housing Commission. Its proposals are being fed into a series of progress of work including the Comprehensive Spending Review and the forthcoming planning policy statement on housing. We will also shortly be setting up a website on which we will post progress we are making towards improving access to affordable housing in rural areas and examples of best practice in the light of the Affordable Rural Housing Commissions report.

Brownfield Development

Greg Clark: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 20 June 2006, *Official Report*, column 1744, on brownfield development, if she will break down the London figure for 2004 by local authority area. [84587]

Yvette Cooper: The information available is from Land Use Change Statistics, shown in the following table. In a small number of London boroughs the proportions are not reliable enough to be shown for a single year. Proportions are also shown for the period 2001 to 2004 as a whole, and for the period 1989 to 1992 as a whole as four year averages are more reliable. Compared to 1989 to 1992 there has been a significant drop in the percentage of dwellings in London built on undeveloped land.

Casino Advisory Panel

Justine Greening: To ask the Deputy Prime Minister what processes were involved in choosing the members of the Casino Advisory Panel; and what direct input he had in those procedures. [91137]

Mr. Caborn: I have been asked to reply.

The role specification for the chair and members of the Casino Advisory Panel was agreed by my right hon. Friend the Secretary of State for Culture, Media and Sport, and myself. The appointments were advertised in *The Sunday Times* on 5 June 2005, and on public appointments and DCMS websites. The closing date for applications was 24 June 2005.

The shortlist of candidates for interview was ratified by me, and I also considered the recommendations of the selection panel after the interviews had taken place, and decided whom to appoint.

The selection panel was chaired by the head of Gambling, Lotteries and Licensing Division. The panel also comprised two independent assessors, who are trained by the Office of the Commissioner for Public Appointments (OCPA) to conduct such processes in accordance with the Commissioner's Code.

These three people met to sift applications in order to recommend a shortlist to the Minister. They met again to hold interviews, at which the potential for conflict of interest was discussed in every case, following which their views were submitted to the Minister for him to make his decision. Officials obtained statements from the successful candidates of their private interests, and assessed these for the potential for actual or perceived conflict of interest.

The selection criteria for the roles were contained in the role specification, which was sent out to all interested candidates. This document informed the sift of applications and the general framing of questions at interview.

The Deputy Prime Minister had no involvement in the appointment of the panel.

Computing Equipment

Mr. Weir: To ask the Secretary of State for Communities and Local Government how many *(a)* USB (i) flash drives and (ii) memory sticks, *(b)* compact discs, *(c)* DVD-ROM discs, *(d)* laptop computers, *(e)* external computers hard drives, *(f)* internal computer hard drives and *(g)* desktop computers were purchased for use in her Department in each month since March 2005. [88707]

Angela E. Smith: This table indicates the amount of IT equipment bought from the four major suppliers of IT equipment to DCLG since March 2005. Identification of external HD purchases from DCLG financial records. USB memory, memory sticks and flash drives are different names for the same, or similar, products, could be undertaken only at disproportionate cost.

Month	CDs (x50)	DVDs (x25)	Internal HD	Laptops	Desktop PC	USB Memory

Housing

Mr. Love: To ask the Secretary of State for Communities and Local Government what action her Department is taking to increase the *(a)* availability and *(b)* affordability of shared accommodation in the private rented sector. [85598]

Yvette Cooper: The private rented sector has expanded by 33 per cent. in the last 12 years from 9 per cent. of households (1993) to 12 per cent. of households (2005). Rents are affected by house prices and the wider market and therefore by overall housing supply. The Government believe we need to increase housing supply to improve long term affordability. In addition families on low income can get housing benefit to help with private sector rents.

Mr. Truswell: To ask the Secretary of State for Communities and Local Government what assessment she has made of the *(a)* need and *(b)* demand for affordable housing provided by local authorities in (i) Leeds and (ii) England; and what action she is taking to encourage and enable the provision of such housing. [90923]

Yvette Cooper *[holding answer 13 September 2006]:* Government do not produce national or local assessments of the need and demand for affordable housing. Regional assemblies and local planning authorities are responsible for producing regional and local assessments of housing need.

We encourage and enable provision of affordable housing primarily through the payment of Social Housing Grant by the Housing Corporation to registered social landlords and unregistered bodies. The Government also assist local authorities to maximise the contribution made by the planning system consistent with creating sustainable communities, set out in draft Planning Policy Statement 3 'Housing' (December 2005), and provide guidance on requiring developer contributions through planning obligations for the provision of affordable housing. The Government are also consulting on new ways of increasing the role of authorities in meeting local housing needs.

Simon Hughes: To ask the Secretary of State for Communities and Local Government how many families were on waiting lists for social housing in each English local authority at the latest date for which figures are available. [91097]

Yvette Cooper *[holding answer 13 September 2006]:* Waiting list data at a local authority level for England and Wales are available from the Annual Housing Strategy Statistical Appendix (HSSA) and published on an annual basis on the Department for Communities and Local Government (DCLG) website. The list data include people who have applied for social housing but do not assess need. The latest available data are for 2005. The accuracy of the list will vary as it depends on how frequently and effectively local authorities update their lists.

The hon. Gentleman is referred to the DCLG website at: http://www.communities.gov.uk/pub/853/Table600Excel126Kb_id1163853.xls.

Housing Associations

Mr. Frank Field: To ask the Secretary of State for Communities and Local Government how many faith-based housing associations there are; and what the capital allocation for each was in each of the last five years. [91128]

Yvette Cooper: The Housing Corporation maintains records on housing associations that are registered under section 2 of the Housing Act 1996 but does not collect information about whether they are faith-based and therefore the requested information is not available.

Learning Difficulties

Bob Russell: To ask the Secretary of State for Communities and Local Government if she will bring forward proposals to assist local authorities in providing additional support for parents with learning difficulties to care for their children; and if she will make a statement. [86961]

Mr. Ivan Lewis: I have been asked to reply.

The Department has commissioned the Social Care Institute for Excellence to undertake a knowledge review into support for parents with disabilities including parents with learning disabilities. This will be published on their website shortly. The second phase of the work will be to develop a resource guide for organisations supporting disabled parents. This includes a national protocol for joint working.

In addition, the Valuing People Support Team, the Department and the Department for Education and Skills have commissioned good practice guidance on how adult and children's services can work together in the interest of parents with learning disabilities and their children. This suggestion came out of a national gathering of parents with learning disabilities in January 2005.

Local Government Ombudsman

Kate Hoey: To ask the Secretary of State for Communities and Local Government what the rationale is for restricting the Local Government Ombudsman's scope to considering matters from the previous 12 months only; and what consideration she has given to introducing measures to extend that scope. [91254]

Mr. Woolas: Section 26(4) of the Local Government Act 1974 provides that the Local Government Ombudsman may conduct an investigation into a complaint which has not been made within the 12 month period specified if he considers that it is reasonable to do so.

Local Government Targets

Tom Brake: To ask the Secretary of State for Communities and Local Government how many local government targets the Government has *(a)* introduced and *(b)* abolished in each of the last nine years. [91039]

Mr. Woolas *[holding answer 13 September 2006]:* Performance indicators and targets are currently set for local government by a number of different Government Departments under separate performance management regimes. The number of centrally-set performance indicators and targets applicable to any individual local authority varies and will depend on the type of local authority (for example county council, district council, unitary authority or London borough) and the individual grant or funding regimes it accesses. Not all indicators have targets set against them.

Best Value Performance Indicators (BVPIs) were introduced in 2000-01 in order to enable central Government to monitor progress over a period of time, allow authorities to compare their performance against that of their peers and provide residents with information about the performance of their local authority. BVPIs are also a key component of the framework developed by the Audit Commission to inform Comprehensive Performance Assessment judgments.

The Government set targets against 3 BVPIs. Local authorities are expected to set their own targets for improvement against the remaining 87 BVPIs.

There are also a number of 'floor' targets, setting minimum standards that every area should meet, which have been set by central Government as part of each Spending Review since 2000. These floor targets now cover six thematic areas: crime, education, housing, employment, health and liveability, and are designed to help reduce the gap between the most deprived neighbourhoods and the rest.

Property Market

Michael Gove: To ask the Deputy Prime Minister on what basis the Government estimated the cost of abortive property transactions in the residential property market at £350 million per annum; and how many transactions were assessed to arrive at this figure. [64948]

Yvette Cooper: The Department's 1998 research study, "Key research on easier home buying and selling", reported that 28 per cent. of transactions fail between offer acceptance and completion, or the equivalent of 467,000 failures at current transaction rates. The tracking surveys in the 1998 study also recorded details, where known, of the costs incurred by people whose purchase or sale had fallen through. The research found that the average cost of a failed transaction was £906 (£680 for buyers and £206 for sellers). Over a thousand respondents provided these details. However to take account of the relatively small sample size, the estimate of the total cost of transaction failure was adjusted downwards. The estimate of £350 million assumes a cost of £750 per transaction failure—i.e. the total loss for buyer and seller at 1998 prices. The baseline research due to start shortly will provide more up to date and comprehensive data on the cost of transaction failure to consumers.

Rebranding

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what rebranding costs have been incurred by each of the agencies affiliated to her Department as a consequence of the transfer of responsibilities from the Office of the Deputy Prime Minister. [86828]

Angela E. Smith: Three of the four Executive Agencies affiliated to the Department incurred no material costs associated with the change of Department.

The Planning Inspectorate (PINS) had to make changes both to its publicity material, which it would have had to do in the normal course of business as such material is regularly updated and revised, and to the electronic templates that Inspectors and others use for the issuing of decision letters. The estimated total cost of carrying out the necessary changes is £11,000.

Retail Developments

Kate Hoey: To ask the Secretary of State for Communities and Local Government if she will ensure that the presumption is that large shops should be built in town centres rather than out of town continues; and if she will make a statement. [91253]

Yvette Cooper: The Government remain committed to promoting the vitality and viability of town centres and a town-centre first policy approach. "Planning Policy Statement 6: Planning for town centres", published in March 2005, applies to all main town centre uses, including large retail development.

Supporting People Strategy

Sandra Gidley: To ask the Secretary of State for Communities and Local Government what estimate her Department has made of the cost of administering Supporting People payments for older people living in sheltered housing; and if she will make a statement. [86117]

Mr. Woolas: The Department for Communities and Local Government (DCLG) does not have a specific estimate for the administrative costs of Supporting People with regard to older people living in sheltered housing.

DCLG provides a grant to top-tier local authorities as a contribution to their costs in administering the Supporting People programme; this grant totals £40 million for England in the current year. Administrative costs to service providers of supported housing will be covered within the contracts they hold with local authorities, and are not therefore identifiable within the information held by central Government.

Tenant Deposit Scheme

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the potential impact of the tenant deposit scheme on smaller residential landlords. [91271]

Yvette Cooper: The regulatory impact assessment for the Tenancy Deposit Protection Scheme was published in September 2004. The assessment took account of the views of stakeholders including the small residential landlords. The Department subsequently established a stakeholder steering group, which includes landlord representatives, to progress the development and introduction of the scheme.

WORK AND PENSIONS

Benefit Payments

Andrew Selous: To ask the Secretary of State for Work and Pensions how many methods of calculation are available to decision makers in his Department making decisions on overpayment of benefits; and if he will make a statement. [91118]

Mr. Plaskitt: There is one method of calculation that can occur at a number of stages throughout the decision making process.

There are two elements to a decision on an overpayment of benefit.

Initially, where it becomes apparent to the Department that the information on which entitlement to a benefit is based is incorrect, a review of that entitlement is carried out. A calculation is then made comparing what the entitlement should have been based on the correct facts, and compared with what was actually paid.

If an overpayment has occurred, a decision maker then determines whether that overpayment can be recovered under Social Security legislation. When reaching that decision, the decision maker must be satisfied that the customer or their representative has failed to disclose or has misrepresented a material fact, including a change in their circumstances. Where an overpayment has arisen as a result of a customer's misrepresentation or failure to disclose, Section 71 of the Social Security Administration Act 1992 allows the recovery of that overpayment.

The decision can be disputed by the customer and automatically provides a right of appeal on the grounds of whether there has been misrepresentation or failure to disclose and the amount determined. Where a decision is disputed, a decision maker can review a decision and make a fresh decision, either on the amount of the overpayment, or on the basis of its recoverability. A fresh decision is then issued against which further rights of appeal are provided.

This legislation covers the vast majority of overpayments that are determined to be recoverable under Social Security legislation.

Citizens Advice Bureaux

Ben Chapman: To ask the Secretary of State for Work and Pensions what funding his Department provides to citizens advice bureaux. [91139]

Mr. Plaskitt: The Department for Work and Pensions does not provide core funding to citizens advice bureaux. We do however, on occasion, provide funding for specific initiatives that support the Department's aims and objectives. Most recently, £1.65 million in funding has been provided to 24 bureaux, for the period March 2005 to February 2007, from the Department's Partnership Fund, which is aimed at encouraging initiatives to support the take-up of Pension Credit.

Disability Equality

Mr. Marsden: To ask the Secretary of State for Work and Pensions what *(a)* information gathering and *(b)* other actions (i) his Department and (ii) other bodies are taking to inform the production of the report on progress towards disability equality within the work and pensions policy sector. [91184]

Mr. Plaskitt: All relevant areas of DWP policy will be considered in the report on progress. We will seek an assessment of progress from the principal authorities which deliver services funded or regulated by the Secretary of State including local authorities administering housing benefit, as well as the executive agencies and non-departmental public bodies of the Department for Work and Pensions.

We are considering what specific information needs to be collected to be able to publish our report on 1 December 2008.

Housing Benefit

Mr. Love: To ask the Secretary of State for Work and Pensions what the single room rent restriction on housing benefit was in each locality in *(a)* Wyre, *(b)* Lancaster, *(c)* Eastbourne, *(d)* Hastings, (e) Flintshire, *(f)* Leicester, *(g)* Sheffield, *(h)* Greenwich, *(i)* Southwark, *(j)* North Lincolnshire, *(k)* Kingston-upon-Hull and *(l)* East Devon in each year between 1996-97 and 2004-05. [85604]

Mr. Plaskitt: The available information is in the following table.

Single room rents in each of the specified local authorities

£

Local authority	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*
Wyre	41	41	45	45	46	50	50	53
Lancaster	37.50	37.50	40	40	42.50	45	45	50
Eastbourne	42.50	45	49	52	55	55	56.50	60
Hastings	41	41.50	49	52	55	55	56	56.50
Flintshire	42.50	40	40	38	38.50	40	45	50
Leicester	30	33.50	37.75	43.75	46.50	51.38	52.75	55
Sheffield	40	37.50	40	40	42.50	45	47.50	50
Greenwich	50	57.50	57.50	82.50	77.50	77.50	80	80
Southwark	62	65	65	77.50	85	83.75	82.50	87.50
North Lines	38	33	38.50	37.50	38	40	40	40
Kingston upon Hull	32	31	34	35	35	41	42	42
East Devon	41.50	40.50	45	46.50	52.50	57.50	57.50	60

Notes

1. Information source: The Rent Service except Flintshire which was provided by Rent Officer service Wales.
2. No central records of single room rents exist for the years prior to the establishment of The Rent Service on 1 October 1999.
3. The figures shown are the average of single room rents, of all localities within the local authorities, as at 31 December in each year.

Pensions

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how many solvent companies have starting winding up pension schemes since 1997. [66483]

James Purnell: The information is not available.

Pensions schemes that start to wind up are required to advise the pensions regulator, as it maintains a register of pension schemes. However, the status of the employer that sponsors an occupational pension scheme is not registrable information, which means that the regulator is unable to identify how many schemes in the process of winding up have a solvent employer.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions if he will estimate the number of *(a)* male pensioners currently aged over 65 years and *(b)* female pensioners currently aged over 60 years who will be claiming (i) the guarantee credit only, (ii) savings credit and guarantee credit and (iii) savings credit only in *(A)* 2010 and *(B)* 2012 under the proposals in the White Paper Security in Retirement, Towards a New Pensions System; and what estimate he has made of what these numbers would be under the current system. [77995]

James Purnell: Under our reforms, more people will be receiving state pensions based on their national insurance records, and there will be a more generous basic state pension due to the restoration of the earnings link. This provides a solid foundation for private saving. Incentives are further enhanced by reducing the growth of the savings credit.

Table 1 shows the estimates of the number of males and females that may receive pension credit by component in the years 2010 and 2012 assuming that the standard guarantee credit is uprated in line with prices from 2008.

Table 2 shows the projected numbers under the proposals contained in the White Paper "Security in retirement: towards a new pensions system."

Table 1: Projected number of males and females that may be in receipt of pension credit in selected years assuming the standard guarantee credit is uprated in line with prices from 2008

	GC only	*GC+SC*	*SC only*
Males currently aged 65 or over			
2010	50,000	450,000	400,000
2012	50,000	350,000	350,000
Females currently aged 60 or over			
2010	550,000	1,000,000	600,000
2012	450,000	900,000	550,000

Table 2: Projected number of males and females that may be in receipt of pension credit in selected years under the White Paper proposals

	GC only	*GC+SC*	*SC only*
Males currently aged 65 or over			
2010	150,000	400,000	450,000
2012	100,000	350,000	400,000
Females currently aged 60 or over			
2010	700,000	900,000	650,000
2012	650,000	800,000	650,000

Notes:
1. Projections of numbers receiving pension credit in the future are subject to a range of uncertainties and a number of factors including policies on uprating different benefits and assumptions on rates of take-up. The assumptions applied here are consistent with those that underpin published long-run expenditure projections, and are applied to projections of the number of pensioner households estimated to be eligible for pension credit.
2. Care should be taken when interpreting these projections. In particular data deficiencies make it difficult to be confident in the split between the number of people who may be in receipt of only the guarantee credit and those who may be in receipt of both the guarantee credit and the savings credit. Also the projections are sensitive to the assumed take-up rates (the same assumptions on the rate of take-up are applied to the current and reform projections).
3. Estimates of the proportion of pensioners eligible for pension credit are the mid-points of projections taken from two separate micro-simulation models.
4. The projections of the number of pensioners eligible for pension credit are sensitive to modelling assumptions and to projected changes in the distribution of pensioner incomes.
5. The projections of the number of male pensioners currently aged over 65 years who may be eligible for pension credit in 2010 have been derived from projections of the proportion of males aged 69+ in 2010 who may be eligible and projections of the number of males aged 69+ in Great Britain in 2010. A similar procedure was followed in estimating the number who may be eligible in 2012 and the number of females currently aged over 60 years who may be eligible in 2010 and 2012.
6. The reform projections assume: continued earnings uprating of the standard guarantee credit; the savings credit maximum is uprated by earnings from 2008 and then by prices from 2015; earnings uprating of the basic state pension from 2012; measures to improve coverage of the basic state pension described in the White Paper.
7. The projections in Table 1 assume that basic state pension is uprated in line with prices and the standard guarantee credit with prices each year after 2008. It should be noted that there is a Government commitment to uprate the standard guarantee credit with earnings until 2008. Treasury projections for the current system assume price uprating of the standard guarantee credit beyond 2008.
8. Estimates are calibrated to the mid-points of the 2004-5 National Statistics range estimates of non-eligibility to pension credit, which adjust 2004-5 Family Resources Survey data to take account of possible biases in reporting. Although the estimates here are not presented as ranges, they are subject to a margin of uncertainty.
9. The projections are rounded to the nearest 50,000.
10. Qualifying age for the guarantee credit will increase with women's state pension age between 2010 and 2020, from 60 to 65.

Post Office Card Accounts

Nick Harvey: To ask the Secretary of State for Work and Pensions how many people who use post office card accounts to receive benefits and pensions are aged *(a)* under 60, *(b)* 60 to 69, *(c)* 70 to 79 and *(d)* 80 and above. [57785]

Mr. Plaskitt: The information is not available in the format requested.

The following table shows the number of DWP benefit and pension payment accounts being paid by direct payment into a Post Office card account at 10 June 2006.

These figures do not include Post Office card accounts used by other Government Departments to pay benefits and tax credits.

Age	*Benefit and pension accounts*
Under 60	1,271,360
60-69	925,300
70-79	1,286,220
80 and over	954,090

Notes:
1. Figures are rounded to the nearest 10.
2. Figures refer to benefit and pension payment accounts live and in payment on the specified date. People in receipt of more than one benefit/pension have been counted for each separate benefit/pension in payment. People who have their benefit/pension combined and paid at the same time have only been counted through the paying benefit.

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions if he will ensure that pensioners whose pension credit is paid via a Post Office card account are not advised that they must have a bank account to receive their awards in the future. [87948]

Mr. Plaskitt: Pensioners do not have to have a bank account to receive pension credit. However, we have always made it clear that payment into a bank account is the best option for the overwhelming majority of customers, and so it is only right that we alert customers to the fact that there are accounts that may better meet their needs. For example, many are missing out on the savings that direct debits can bring and on interest paid on balances. Around 25 different bank accounts can be accessed at Post Office branches now. The Post Office has already introduced one new account—the Instant Saver—and plans to introduce more new accounts in the future.

Redundancies

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what average redundancy payment has been made to staff declared redundant within his Department and the agencies for which it is responsible since 6 April 2004. [82517]

Mrs. McGuire: As part of its Efficiency Programme the Department has run a number of staff early release schemes since April 2004. All but one early release under these schemes has been on a voluntary basis.

To the end of March 2006, the average full cost of early releases under all these schemes was around £56,000.

Welfare Reform Bill

Lynne Jones: To ask the Secretary of State for Work and Pensions what advice he has received from the Health Professionals Advisory Group on the likely effect of sanctions proposed in the Welfare Reform Bill which could result in disabled people losing benefit. [90608]

Mr. Jim Murphy *[holding answer 11 September 2006]:* The Health Professionals Advisory Group is a body of senior healthcare professionals, set up to advise Ministers and officials on the Department's work to help people with health conditions or disabilities to enter, remain in or return to work.

The Group has not discussed benefit sanctions or the likely impact of any such sanctions.

FOREIGN AND COMMONWEALTH OFFICE

Convention on Certain Conventional Weapons

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans she has to ratify Protocol V of the Convention on Certain Conventional Weapons Treaty prior to the Review Conference to the Convention on Certain Conventional Weapons in November. [91191]

Dr. Howells: The UK aims to complete ratification of Protocol V, concerning explosive remnants of war, of the Convention on Certain Conventional Weapons (CCW) by the CCW Review Conference in November.

EU Maritime Policy

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the EU Commission Green Paper, Towards a Future Maritime Policy for the Union, what her policy is on the applicability of EU policy and legislation to the territorial waters of overseas territories of member states. [91179]

Mr. McCartney: The EC Treaty, other than Part IV on the Association of Overseas Countries and Territories, does not apply to the Overseas Territories of the United Kingdom, except to Gibraltar to which it applies by virtue of Article 299 (4) EC Treaty. As the legal base for any legislation arising out of the Maritime Green Paper would be likely to be under Article 175 (1), an environmental legal base, it would not apply to the majority of the United Kingdom's Overseas Territories. However, the Government and the Governments of the other Overseas Territories would want to consider whether it would be appropriate and feasible to apply similar measures based on EC legislation through the Territories' domestic legislation.

European Parliament

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what her policy is on the maintenance of a seat of the European Parliament in Strasbourg. [91180]

Mr. Hoon: The splitting of the European Parliament site between Strasbourg and Brussels is far from ideal. However, there is an historical and legal basis for the siting of the European Parliament in Strasbourg, as agreed at the Edinburgh summit 1992, and any changes would require the unanimous support of all 25 EU member states. Unfortunately, we do not believe that the necessary political unanimity for such a change currently exists.

International Criminal Court

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if she will review the operating procedures of the International Criminal Court following the pleas by some Governments and organisations to seek clemency in the case of those Lords Resistance Army bodies who have been indicted. [91204]

Dr. Howells: The UK has long worked for a peaceful solution to the long running conflict in Northern Uganda. The recent cessation of hostilities and ongoing negotiations relating to Northern Uganda are a promising step. However, it is clear that there is much work still to be done to bring a sustainable peace to the region.

The UK, along with the rest of the EU, is a strong supporter—in principle and in practice—of the International Criminal Court (ICC), which was established to prosecute the most serious crimes of international concern. In July 2004, the ICC launched an investigation into the situation in Northern Uganda, following referral of the situation by the Government of Uganda. In October 2005, the ICC unsealed warrants for the arrest of five senior members of the Lord's Resistance Army.

The operating procedures of the ICC, including the issue of warrants, are a matter for the Court and we respect its independence. We urge all parties to fulfil their obligations under the Statute of the Court. The ICC has made clear that it is following developments closely and remains in close contact with the Government of Uganda and the wider international community.

Iran

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions she has had with her *(a)* United Nations, *(b)* European Union and *(c)* United States counterparts on the Iranian nuclear dispute; whether the issue of possible United Nations sanctions against Iran was raised during these discussions; and whether the UK Government will support the application of such sanctions if Iran fails to comply with United Nations Security Council Resolution 1690. [91048]

Margaret Beckett *[holding answer 13 September 2006]:* I have discussed Iran many times with my counterparts in the EU, US and other countries, both in the run-up to the adoption of UN Security Council Resolution 1696 on 31 July and subsequently.

Resolution 1696 called on Iran to take the steps required by the International Atomic Energy Agency (IAEA) Board of Governors and made mandatory on Iran a full suspension of all uranium enrichment related and reprocessing activities. The Security Council asked the IAEA Director-General, Dr. Mohammed El-Baradei, to report on Iranian compliance by 31 August. The Council expressed its intention to "adopt appropriate measures under Article 41 of Chapter VII of the Charter of the United Nations" if Iran did not comply.

Dr. El-Baradei's report makes clear that Iran has not suspended its enrichment related and reprocessing activities, nor taken the other steps required by the IAEA Board. We are now discussing next steps with our EU and Security Council partners.

We remain committed to a diplomatic solution, and continue to urge Iran to take the steps required by the Security Council and the IAEA Board, reinstate a full suspension and return to negotiations on the basis of the proposals presented by the "E3+3" (France, Germany, UK + China, Russia, US) on 6 June.

Middle East

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance she *(a)* has given and *(b)* plans to offer to the state of Israel to assist that country in fighting (i) Hezbollah terrorists and (ii) other terrorism; and if she will make a statement. [87101]

Dr. Howells: The Government are engaged in building bilateral and multilateral relationships and work closely with a wide range of countries on counter-terrorism. There is close co-operation between many UK organisations, including the police, security and intelligence agencies and Whitehall Departments, with many other countries. It is not the normal practice of the Government to comment on the specifics of such matters. To do so can harm operational effectiveness, assist the terrorists and damage co-operative relationships beneficial to the UK's own security.

UN General Assembly

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs which officials from her Department will be attending the opening session of the 61st UN General Assembly in New York on 12 September. [91193]

Dr. Howells: Officials from the UK Permanent Mission to the UN attended the first meeting of the 61st UN General Assembly on 12 September.

My right hon. Friend the Foreign Secretary, my noble Friend the Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs, Lord Triesman of Tottenham, my right hon. Friend the Minister for Europe and I plan to attend UN General Assembly (UNGA) Ministerial Week (19-22 September). Most of the UN's 192 member states are sending their Head of Government, State or Foreign Minister. As the largest annual gathering of senior foreign policy makers, it is an important opportunity to take forward the Government's foreign policy priorities.

There will be a large number of multilateral events in the margins of the main UNGA Plenary. Foreign and Commonwealth Office (FCO) Ministers will participate in all the major events, and will also hold more than 60 separate bilateral meetings with key UN partners. As is usual, Ministers will be supported by FCO officials from the UK Permanent Mission to the UN and from London.

UN Human Rights Council

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs if she will place in the Library a draft of the next report by the UK to UN Human Rights Council. [91078]

Mr. McCartney *[holding answer 13 September 2006]:* The new UN Human Rights Council is in the early stages of discussing a new system of Universal Periodic Review. The details of this Review—including whether and how states might submit reports—are still under discussion.

The UK's next periodic report to the UN Human Rights Committee, under the International Covenant on Civil and Political Rights, is due in November 2006. Following its submission to the Committee, the Department for Constitutional Affairs will make the report available on its website: http://www.dca.gov.uk/peoples-rights/hunian-rights/int-human-rights.htm.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

CFC Recovery Rates

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if he will publish the figures for CFC recovery from domestic and commercial appliances for each of the last 10 years; and what estimate he has made of performance in 2006; [91144]

(2) how many tonnes of the CFCs recovered by UK licensed facilities have been *(a)* destroyed and *(b)* processed to render them harmless to the environment in each year since 1990. [91145]

Ian Pearson: The following information is available on the recovery of chlorofluorocarbons (CFC) from all equipment:

	Tonnes
2002	387
2003	494
2004	427
2005	467

Figures for 2006 are unavailable at present.

The following information is available on the destruction of chlorofluorocarbons (CFC) from all equipment:

	Tonnes
2002	387
2003	494
2004	583
2005	476

Figures for 2006 are unavailable at present.

I refer the hon. Member to the answer given to him on 20 April 2006, *Official Report*, column 750W, which provides further information on CFC recovery rates.

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the adequacy of his Department's guidance on the recovery of controlled substances in refrigerators and freezers; and what assessment he has made of its impact on falling CFC recovery rates in the UK. [91146]

Ian Pearson: I refer the hon. Member to the reply given to him on 20 April 2006, *Official Report*, column 751W.

Discovering Lost Ways Project

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many lost ways have been identified under the Discovering Lost Ways project; and how many of these go through private property; [91248]

(2) what the cost to date is of the Discovering Lost Ways project. [91250]

Barry Gardiner: The Discovering Lost Ways project is currently in its pilot phase. Research methods are being tested in Cheshire, Wiltshire, Dorset and Shropshire, with a view to determining whether the approach works well, and can be rolled out across the country. Because no lost ways will be identified until the pilot phase is complete, I cannot advise on the number passing through private property. If a lost way were to prove problematic for a landowner, a process already exists whereby the local authority may effect a suitable diversion or extinguish the right of way.

The results for Cheshire and Shropshire, which will provide strong documentary evidence, will be available in spring and autumn 2007 respectively.

The estimated total cost of the project over 19 years is £15 million, including the additional resources needed to facilitate the process of recording the rights of way on the definitive map and statement (the local authorities' legal record of rights of way).

English Nature

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs how much English Nature spent on *(a)* conservation and nature management programmes and *(b)* salaries in (i) 2004-05 and (ii) 2005-06; and what estimates have been made of expenditure in each category in 2006-07. [91120]

Barry Gardiner: English Nature's entire expenditure effectively supports conservation and nature management, including salary costs, so it is not possible to meaningfully separate out an amount spent on conservation and nature management. The Grant in Aid paid to English Nature over the period concerned was £68.6 million in 2004-05, £73.1 million in 2005-06 and the planned amount for 2006-07 is £74.4 million.

English Nature advises that its salary costs for each year are £30.6 million for 2004-05, £34.9 million for 2005-06 and £34.7 million expected for 2006-07.

The 2006-07 figures are subject to change following the transition to Natural England in mid-year.

EU Emissions Trading Scheme

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the impact of the EU Emissions Trading Scheme on the profitability of the power generation sector in Phase 1 of the EU Emissions Trading Scheme. [91147]

Ian Pearson: A report, "Implications of the EU Emissions Trading Scheme for the UK Power Generation Sector", commissioned by the Government, was published in 2005 by IPA Energy Consulting Ltd on the DTI website: http://www.dti.gov.uk/files/file33199.pdf

Further analysis conducted by the DTI has suggested that this report may overestimate the profits to electricity generators. This is because some power suppliers have not been passing the full costs of the EU ETS on to retail industrial and domestic customers, indicating that generators who have both wholesale and retail customers could be using some of their windfall profits to subsidise their retail customers.

Flood Defences (Essex)

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what special measures will be taken during the extraordinary high tides expected in autumn 2006 to protect low lying areas of the Essex coastline and islands lying off Essex. [91245]

Ian Pearson: This autumn, the lunar effect on the tides will be greater than average. However, this does not mean that there will be flooding. Weather conditions are critical in determining whether potential flood risk generated by high tides actually results in a flood.

Defences in Essex are already prepared for high tides. Tidal surges in the North Sea can lead to flooding throughout the year and the maintenance regime and operational procedures take this into account.

The Flood Warning system sends warnings to those at risk of flooding along the Essex coast and has recently been upgraded with the introduction of new technology. This allows flood warnings to be sent out in a timely and efficient manner to everyone in a flood risk area who has registered for this free service.

The Flood Warning system also links into the emergency planning and resilience structure for Essex. Regular meetings are held between the major response parties to ensure that, in a flooding situation, the response is co-ordinated and seamless. Extra meetings and briefings have taken place in Essex before the flood season to ensure that flood plans and procedures are in place to deal with any flooding that may occur.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs if he will undertake research to estimate whether there has been a change in the level of protection afforded by Canvey Island sea defences since they were first established; and if he will make a statement. [91246]

Ian Pearson: The Environment Agency has initiated a project, "Thames Estuary 2100 (TE2100)", to address the impacts of future climate change and sea level rise on the Thames estuary (including Canvey Island).

More accurate assessments of the standards of sea walls in the Thames estuary are being undertaken as part of this overall project. Once this work has been completed, the need for any greater protection can be assessed. The consultation document on the final TE2100 Plan should be available in 2008.

GM Organisms

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs when he last reviewed procedures to protect against unauthorised genetically modified organisms entering the UK; and if he will make a statement. [91158]

Ian Pearson: Importers of materials for use in food and animal feed are obliged to ensure that they do not place unauthorised genetically modified organisms on the market. The regulatory controls on GM food and feed, which are the responsibility of the Food Standards Agency, came into force in 2004 and are currently under review.

Pending the establishment of legislative thresholds at European Community level, DEFRA has contracted with the Central Science Laboratory to carry out voluntary audits of seed companies to monitor the steps they are taking to minimise the risk of adventitious GM presence in conventional seed. Procedures were reviewed earlier this year and a decision taken to augment the audit programme with improved risk assessment procedures. The new procedures are due to take effect from November this year.

Central Science Laboratory audit results are published annually and can be accessed at:

http://www.csl.gov.uk/prodserv/cons/gm_inspectorate.cfm

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs how many times unauthorised genetically modified organisms *(a)* entered the UK and *(b)* entered the food chain in the UK in each year since 1997; and what the (i) substance and (ii) country of origin was in each case. [91159]

Ms Rosie Winterton: I have been asked to reply.

Relevant cases since 1997 are as follows:

In 2000, a batch of rape seed from Canada supplied to United Kingdom farmers was found to contain a proportion of a genetically modified (GM) variety called GT73. The growing of GT73 rape was not authorised, although food ingredients derived from the rapeseed were permitted.

In 2000, a small sample of 25 tomato seeds from the United States was imported and grown in the UK but not for food or feed use. In 2003 it was discovered that this batch of seeds had been mislabelled by the US supplier and were of an unidentified GM variety. No GM tomato varieties are authorised to be grown in the UK.

In 2000 it was reported that UK field trials with GM sugar beet contained approximately 0.5 per cent. of a second, unauthorised, line of GM beet. None of the affected beet entered the food chain. The company concerned indicated that the unauthorised event was likely to be present due to cross-contamination during the production of beet seed in Germany.

In August 2006, the US Department of Agriculture announced that some commercial long grain rice on the US market had been found to contain traces of the unauthorised variety LLRICE601. This genetically modified rice could therefore have been present in imports of US rice to the UK. This incident is still under investigation in the US. Recent reports of rice products from China containing GM rice are under investigation.

Water Companies (Sewage)

Mr. Brady: To ask the Secretary of State for Environment, Food and Rural Affairs what powers his Department has to require water companies to take action to prevent repeated instances of sewage flooding in residential areas. [91176]

Ian Pearson: Water and sewerage companies are under a statutory duty to ensure effectual drainage of their respective areas, but this does not extend to an absolute duty to prevent sewer flooding under all circumstances. This would not be practicable. Ensuring compliance with the duty on companies is a matter for the economic regulator, Ofwat.

If a company fails to comply with this duty, Ofwat is required, with certain exceptions, to issue an enforcement order requiring the company to put matters right.

DEFENCE

Afghanistan

Mr. Lancaster: To ask the Secretary of State for Defence how many members of the Royal Navy not including Royal Marines are serving in Afghanistan, broken down by unit. [90730]

Mr. Ingram *[holding answer 11 September 2006]:* As at 29 August 2006 there were 35 Royal Navy personnel serving in Afghanistan. I am withholding information relating to individual units because to publish such information could compromise operational security as it would also reveal information on force capability and force laydown.

Aircraft

John Smith: To ask the Secretary of State for Defence what assessment he has made of the availability of components for the Harrier jets deployed in Afghanistan; and if he will make a statement. [90927]

Derek Twigg *[holding answer 13 September 2006]:* The equipment support for the Harrier aircraft in Afghanistan is routinely reviewed to ensure an effective supply chain and to maximise aircraft availability. The supply of equipment is afforded priority status and robust procedures are in place to ensure operational tempo is met. The latest review has confirmed that there is sufficient equipment support in theatre for our Harrier aircraft.

First World War Soldiers

Mr. Harper: To ask the Secretary of State for Defence how many of the executed first world war soldiers' records he has personally reviewed. [90936]

Des Browne *[holding answer 13 September 2006]:* I have considered the issue of pardons for world war one soldiers in the round, taking into account the difficult circumstances of that war and the spectrum of cases

involved. Given the lack of information in many cases, I believe that it would not be fair to consider each case on an individual basis. However, it is now appropriate to show compassion by seeking a statutory group pardon for those individuals executed for cowardice, desertion and similar offences.

Military Losses

Peter Bottomley: To ask the Secretary of State for Defence if he will make a statement on UK military losses in *(a)* Afghanistan and *(b)* Iraq. [90826]

Des Browne *[holding answer 11 September 2006]:* As at 12 September 2006, 40 British forces personnel have died serving on Operation Herrick, the UK military operation in Afghanistan, which began in November 2001 and 118 British forces personnel have died serving on Operation Telic, the UK military operation in Iraq, which began in March 2003.

Military Vehicles

Mr. Bone: To ask the Secretary of State for Defence if the Government will take urgent action to provide additional protection to Land Rovers being operated by the armed forces. [91015]

Des Browne *[holding answer 13 September 2006]:* The electronic counter-measures fitted to Land Rovers deployed in Iraq and Afghanistan, and the tactics employed in the use of the vehicles are updated as appropriate as the threat evolves. Weight constraints mean it is not possible to provide additional armour. I announced in my statement on 24 July 2006, *Official Report*, column 74WS the procurement of almost 400 vehicles with improved protection for deployment to Iraq and Afghanistan, including Mastiff (also known as Cougar), Vector and up-armoured FV430. These will provide commanders with a range of vehicles of varying protection, mobility and profile, to be used according to operational circumstances.

Nuclear Deterrent

Jeremy Corbyn: To ask the Secretary of State for Defence pursuant to his oral answer of 24 July 2006, *Official Report*, column 587, on the nuclear deterrent, whether his Department has completed its assessment relating to the future of Trident including non-replacement; and whether he expects to issue a White Paper on the future of the nuclear deterrent. [90839]

Des Browne *[holding answer 11 September 2006]:* I have nothing further to add to the answers I gave on 24 July 2006, *Official Report*, column 586, to the hon. Member for Cheadle (Mark Hunter), and to my hon. Friend the Member for Tamworth (Mr. Jenkins), *Official Report*, column 592.

Nick Harvey: To ask the Secretary of State for Defence what plans he has to initiate a public consultation regarding the future of the Trident weapons system. [91011]

Des Browne *[holding answer 13 September 2006]:* I have nothing further to add to the answer I gave on 24 July 2006, *Official Report*, columns 592-93, to the hon. Member for Inverness, Nairn, Badenoch and Strathspey (Danny Alexander) and my hon. Friend the Member for Tamworth (Mr. Jenkins).

Jeremy Corbyn: To ask the Secretary of State for Defence what the latest estimate is of the cost of the replacement of the Trident nuclear missile system. [91076]

Des Browne *[holding answer 13 September 2006]:* I have nothing further to add to the answer I gave on 24 July 2006, *Official Report*, column 586W, to the hon. Member for Cheadle (Mark Hunter).

HOME DEPARTMENT

Asylum/Immigration

Tony Baldry: To ask the Secretary of State for the Home Department when the Department will reach a decision on the immigration application of Fouzia Ilyas, ref. no. J1071072668. [90546]

Mr. Byrne: *[holding answer 12 September 2006]:* I refer to my written answer on 5 September 2006 confirming that Ms Ilyas was notified of a decision on her application on 18 January 2005 when at the same time her documents were returned to her home address.

British Crime Survey

Justine Greening: To ask the Secretary of State for the Home Department what estimate his Department has made of the number of crimes which may be omitted from the British Crime Survey due to crimes defined as victimless being excluded; and if he will make a statement. [90570]

Mr. McNulty *[holding answer 12 September 2006]:* The recorded crime statistics collect details of certain victimless crimes which come to the attention of the police and are recorded by them but which are not included in the British Crime Survey. Specific examples of offences are possession of weapons, threat or possession with intent to commit criminal damage and Drug offences. In addition, there are certain victimless crimes in various offence classifications but they cannot be separately identified from other crimes where there is a victim. For example, a breach of a sex offender order can be deemed to be victimless but cannot be separately identified from other offences involving a victim which are also recorded under the crime classification 'Offences against the State and Public Order'. For this reason, it is not possible to provide an estimate of victimless crimes.

Correspondence

Mr. Malins: To ask the Secretary of State for the Home Department when he will reply to the letters from the hon. Member for Woking concerning Mr. B. Fensome, ref M27866/5. [91165]

Joan Ryan: A reply was sent to the hon. Member for Woking on 14 September 2006 from Kevin Sheehan, deputy director of service delivery for the Identity and Passport Service (IPS) under delegated authority. Mr. Sheehan has apologised for this lengthy delay.

The original correspondence dated 14 November 2005 was received in the Home Office on 16 November but was then mislaid due to an administrative error.

Departmental Staff

Lynne Featherstone: To ask the Secretary of State for the Home Department what percentage of the senior civil service in his Department in pay band *(a)* one, *(b)* two and *(c)* three were (i) women and (ii) from ethnic minorities in each of the last five years. [88912]

Mr. Byrne: The percentage of senior civil service in the Department in pay band *(a)* one *(b)* two and *(c)* three were women (i) women and (ii) from ethnic minorities in the last five years is given in the following tables.

Recorded female staff in the SCS

As at:	Pay band 1	Pay band 2	Percentage Pay band 3
1 April 2006	30.70	25.50	54.50
16 March 2005	28.50	24.50	30
19 April 2004	28.10	27.50	40
15 January 2003	27.80	25	40
17 April 2002	25.40	27.30	40

Breakdown for staff from ethnic minorities in the SCS

Area[1]	Year	(a) Pay band 1	(b) Pay band 2	Percentage (c) Pay band 3
Central HO—including Immigration and Nationality Directorate	31 March 2006	3.06	4.30	25
	31 March 2005	4.48	11.50	0
	31 March 2004		[4]10	
	31 March 2003		[4]2.74	
	31 March 2002		[4]1.32	
	31 March 2001		[4]0.84	
HM Prison Service	30 June 2006	8	0	0
	30 June 2005	5	0	0
	30 June 2004	0	8	0
	30 June 2003	5	7	0
	30 June 2002	[2]5	[3]7	0
	20 June 2002	[2]—	[3]—	0

[1] Ethnicity data is calculated in different ways for the two areas of the Home Office.
[2] Total 5 per cent.
[3] Total 7 per cent. *Note:* The scope of Prison Service data includes all staff in the pay band the rest of the Home Office includes only staff whose ethnicity is known. Ethnicity data is not available for SCS staff in Identity and Passport Service or the Criminal Records Bureau.
[4] This figure is based on all 3 Pay Bands.

Parliamentary Questions

Damian Green: To ask the Secretary of State for the Home Department (1) when he will reply to Question 73534, on holding in open prisons of those awaiting deportation, tabled by the hon. Member for Ashford for answer on 24 May 2006; [88267]

(2) when he will reply to Question *(a)* 73532, on those awaiting deportation, *(b)* 73533, on people awaiting deportation in open prisons, *(c)* 73531, on deportation of asylum seekers and *(d)* 73526 on the costs of tracking and detaining foreign criminals tabled by the hon. Member for Ashford for answer on 24 May 2006. [88239]

Mr. Byrne: The hon. Member has received replies to all of these questions.

Police

Mr. Gauke: To ask the Secretary of State for the Home Department whether the Government would permit the voluntary amalgamation of two police forces located in different English regions. [90589]

Mr. McNulty *[holding answer 12 September 2006]:* My right hon. Friend the Home Secretary announced on 19 June that we would not be proceeding with the mergers of police forces planned by my predecessor and this position has not changed. On 31 July, I invited police forces and police authorities, in the absence of plans to create strategic forces through amalgamation, to investigate further opportunities for greater collaboration and he made it clear that Government regional office boundaries should be respected but they should not be seen as inviolate in that context.

Mr. Paterson: To ask the Secretary of State for the Home Department what costs were incurred by West Mercia Police Authority (WMPA) in its work on the proposed amalgamation of West Mercia into a West Midlands Regional Force; and if he will reimburse WMPA for the costs incurred. [90664]

Mr. McNulty *[holding answer 12 September 2006]:* West Mercia Police Authority has submitted a claim to the Home Office for £89,060.59 for the additional expenditure it incurred in relation to the consideration of the options for restructuring in the West Midlands region. We are currently considering this claim, and those received from other forces and authorities, and will respond as soon as possible.

Bob Russell: To ask the Secretary of State for the Home Department how many officers transferred to the Metropolitan police from each other police force in each of the last three years; and how many transferred from the Metropolitan police force to other police forces in each year. [91208]

Mr. McNulty: The available information is provided in the following table.

It is not possible to identify from which forces officers have transferred from or which forces they transfer to once they leave the Metropolitan police.

Police officers (full-time equivalent) transfers into and out of the Metropolitan police service by year, 2004 to 2006

As at 31 March	Transferring in[1]	Transferring out[2]
2004	319	388
2005	351	257
2006	182	475

[1] Includes transfers from NCIS/NCS and from non-Home Office forces e.g. BTP.
[2] Includes transfers to NCIS/NCS and to non-Home Office forces in England, Wales or abroad.

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department how many full-time police officers there were serving in the northern division of Cambridgeshire constabulary on 31 March *(a)* 2004, *(b)* 2005 and *(c)* 2006; and if he will make a statement. [91086]

Mr. McNulty *[holding answer 11 September 2006]:* The information requested is set out in the following table. It additionally shows the number of police community support officers for the northern division. The deployment to divisions and to other specialist operational units is a matter for the chief constable of Cambridgeshire. I understand from the chief constable that in 2004-05 the force established a major investigations team and officers reporting lines were transferred from northern division to the investigations directorate. Also due to boundary changes officers transferred from the northern division to the central division with the realignment of Yaxley.

Cambridgeshire constabulary—northern division

As at 31 March	Number of police officers	Number of police community support officers
2004	356	Not available
2005	308	28
2006	317	36

Prisons

Mr. Lidington: To ask the Secretary of State for the Home Department how many places at *(a)* closed prisons and *(b)* young offender institutions will be temporarily unavailable for accommodation during the 2006-07 financial year because of maintenance and refurbishment works; and if he will make a statement. [74795]

Mr. Sutcliffe: The National Offender Management Service plans a rolling refurbishment and maintenance programme for the whole prison estate. This results in between 1,500 and 2,000 places being taken out of use at any one time across the estate as individual projects are initiated and completed. This also includes open prisons.

Mr. Garnier: To ask the Secretary of State for the Home Department how many young offenders he plans to release early from young offender institutions following the request from the Youth Justice Board; which offences those to be released early have committed; and what plans he has to ease overcrowding in the long-term. [90857]

Mr. Sutcliffe *[holding answer 7 September 2006]:* The Youth Justice Board has not requested any change in the early release arrangements for young offenders under 18. Jointly with the Prison Service, the Board wrote to governors of young offender institutions on 27 July, asking them to ensure that young people who qualify for early release under the existing guidance are considered and approved as quickly as possible.

The Youth Justice Board is working with sentencers and youth offending teams to achieve greater consistency in sentencing practice across the country, which should reduce the number of young people sentenced to custody.

Public Enquiry Office (Croydon)

David Davis: To ask the Secretary of State for the Home Department what advice he received from *(a)* officials and *(b)* Government Ministers on the terms of reference for the Report on Investigation into Allegations about the Public Enquiry Office in Croydon. [73697]

John Reid: The Minister for Immigration, Citizenship and Nationality set out the terms of reference for the investigation on 9 January 2006 following advice from officials.

David Davis: To ask the Secretary of State for the Home Department when the investigation by the Immigration and Nationality Directorate's Security and Anti-Corruption Unit into allegations made by Mr. Anthony Pamnani will report; and whether the report will be published. [73699]

John Reid: I refer the right hon. Member to Mr. Gbedemah's report on the investigation into allegations about practices within the Public Enquiry Office in Croydon, which was published on 14 March.

Recruitment (Police and Community Support Officers)

Mrs. May: To ask the Secretary of State for the Home Department what representations he has received on the recruitment process for police community support officers; and if he will make a statement. [90951]

Mr. McNulty *[holding answer 11 September 2006]:* We have consulted widely on the recruitment process for police community support officers, including the following organisations: the Association of Chief Police Officers, police forces, police staff associations, the central police training and development authority (Centrex), and the Association of Police Authorities. We have taken their comments into account in designing a national assessment process and agreeing national recruitment standards for PCSOs. These are being rolled out across forces during 2006-07.

Mrs. May: To ask the Secretary of State for the Home Department what assessment his Department has made of the impact of the recruitment campaigns by the Metropolitan Police of *(a)* police officers and *(b)* police community support officers on staffing levels in neighbouring police authorities. [90955]

Mr. McNulty *[holding answer 11 September 2006]:* The Home Office has not made any such assessments.

Mr. Evennett: To ask the Secretary of State for the Home Department what the average waiting time is for consideration of *(a)* police community support officer and *(b)* police officer applications. [90981]

Mr. McNulty *[holding answer 11 September 2006]:* This information is not held centrally.

Sudbury Open Prison

Mr. McLoughlin: To ask the Secretary of State for the Home Department what the average length of *(a)* stay and *(b)* sentence was of detainees in Sudbury Open Prison in each of the last five years for which figures are available; and if he will make a statement. [91027]

Mr. Sutcliffe *[holding answer 11 September 2006]:* Information on the average length of stay at Sudbury prison is not centrally available, and providing information based on manually stored records could be achieved only at disproportionate cost. The following table gives the population in Sudbury prison by sentence length band at 30 June in each year since 2002. These figures have been drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system and although shown to the last individual the figure may not be accurate to that level.

Sentence lengths of prisoners in Sudbury open prison as at 30 June each year

	< 12 months	*12 months <4 years*	*4 years +*	*Total*
2002	14	124	369	507
2003	2	117	396	515
2004	5	106	438	549
2005	28	123	374	525
2006	7	113	425	545

Mr. McLoughlin: To ask the Secretary of State for the Home Department how many people were detained in Sudbury Open Prison on the latest date for which figures are available; how many had been convicted of *(a)* murder, *(b)* grievous bodily harm, *(c)* sexual offences and *(d)* rape; and if he will make a statement. [91028]

Mr. Sutcliffe *[holding answer 11 September 2006]:* From data held on the prison IT system, there were 531 prisoners detained in Sudbury Open Prison on 31 July 2006, of whom 172 were held for offences of violence against the person. Information by individual category of offence is not available because the figures are small and the accuracy at this level of detail cannot be guaranteed. There were no prisoners held in Sudbury Open Prison for sexual offences including rape on that date. These figures have been drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system and although shown to the last individual may not be accurate to that level.

Terrorism

Mr. Vara: To ask the Secretary of State for the Home Department how many people were arrested in the UK under anti-terrorism legislation in each year since 1 January 2001; how many were charged; for which offences; under which legislation; on which day into the period of their detention each of those charged were charged; how many of those arrested were released without charge; and on which day into the period of their detention of those released without charge were released. [90558]

Mr. McNulty *[holding answer 12 September 2006]:* Statistics compiled from police records show that between 11 September 2001 and 31 March 2006, 997 people were arrested under the Terrorism Act 2000 (TACT). Of these people, 154 were charged with offences under TACT and 79 of these were also charged under other legislation.

A further 175 were charged with offences under other legislation. During this period 570 people were released without charge. The Home Office does not collate information on the length of time an individual is detained prior to being charged or released and this could not be obtained without disproportionate cost.

Yarl's Wood

Alistair Burt: To ask the Secretary of State for the Home Department what the *(a)* nationality, *(b)* sex, *(c)* date of birth and *(d)* immigration status is of each of the seven detainees who escaped from Yarl's Wood following the fire on 14 February 2002 and whose whereabouts remain uncertain and what their current status within the UK is. [79191]

Mr. Byrne: I am advised that the information requested about the seven detainees who escaped and who remain out of touch with IND from Yarl's Wood, following the fire on the night of 14 February 2002 is set out in the following table.

Nationality	*Sex*	*DOB*	*Status at time of escape*	*Current status*
Sri Lanka	M	27 April 1982	Illegal entrant. Appeal rights exhausted 19 April 2001	Appeal rights exhausted
Yugoslavia/Serbia	M	1 February 1971	Asylum refused 11 January 2001	Asylum refused
Ukraine	M	22 May 1976	Asylum pending	Asylum refused 14 February 2005
Algeria	M	15 July 1974	Illegal entrant. Appeal rights exhausted 9 February 2001	Appeal rights exhausted
India	M	9 February 1966	Overstayer-Asylum refused 19 August 2001—appeal pending	Appeal rights exhausted on 12 April 2002
Yugoslavia/Albania	M	18 June 1983	Illegal entrant—Asylum refused 21 June 2001	Asylum refused
Bulgaria	M	21 April 1979	No details available	No details available

HEALTH

Acute Hospital Budgets

Andrew George: To ask the Secretary of State for Health how much and what proportion of the overall budget for acute hospital expenditure for each primary care trust has been spent purchasing *(a)* procedures and treatment from independent providers operating within the UK and *(b)* for patients who have travelled outside the UK for treatment in the last five years. [87659]

Mr. Ivan Lewis: The expenditure is not separately identified from the annual financial returns of primary care trusts.

Advertising Campaigns

Lynne Featherstone: To ask the Secretary of State for Health what advertising campaigns the Department has run between 2000 and June 2004; and what the *(a)* date and *(b)* cost was of each. [87062]

Mr. Ivan Lewis: The following tables set out the advertising campaigns commissioned by the Department's Communications Directorate for the financial years 2000-01 to 2003-04, showing the date and cost.

2000-01

Campaign	*Date*	*Advertising cost (£ million)*
Antibiotics		—
CALM		—
Drugs (Joint campaign with HO)	February 2001	0.5
Flu	September 2000	2.01

Ambulance Services

Tim Loughton: To ask the Secretary of State for Health how many ambulances are employed by the Sussex Ambulance Service; and what projections she has made about the number of ambulances which will be required if Worthing hospital accident and emergency department were to close. [91169]

Ms Rosie Winterton: The information requested is not collected centrally.

Care Homes

Mr. Burstow: To ask the Secretary of State for Health how many care homes *(a)* exceeded, *(b)* met, *(c)* almost met and *(d)* failed to meet (i) the national minimum standard for complaints procedures and (ii) Regulation (A) 5 and (B) 6 of the Care Homes Regulations 2001 in 2005-06. [88511]

Mr. Ivan Lewis: I am informed by the Chair of the Commission for Social Care Inspection (CSCI) that data are collected on how care homes are meeting national minimum standards (NMS). CSCI inspects homes against the NMS to determine compliance with the Care Homes Regulations. Where the NMS are not met, this could indicate a breach of regulations and trigger a proportionate response from CSCI to ensure compliance.

CSCI has a range of enforcement powers it can use against homes that fail to meet the regulations. Ultimately, it can bring about the closure of homes that continually provide poor care.

Care Homes Regulations 5 and 6 set out requirements on information to be provided to people who use care homes. Regulation 22 sets out the requirements for complaints procedures. Compliance with these regulations is enforceable, subject to the following NMS being taken into account.

NMS—Care homes for Older People

Standard 1 (Information)

Standard 2 (Contracts)

Standard 16 (Complaints)

NMS—Care homes for Younger Adults (18-65)

Standard 1 (Information)

Standard 5 (Contracts)

Standard 22 (Concerns and Complaints)

The following table shows the performance of care homes against the relevant standards in 2005-06.

	Exceeded		*Met*		*Almost met*		*Failed to meet*	
2005-06	*Number*	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*
Care homes for older people								
Standard 1—Information	217	2	7769	76	1922	19	277	3

Standard 16—Complaints	111	1	9054	86	1228	12	162	2

2005-06	Exceeded		Met		Almost met		Failed to meet	
	Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage
Care homes for younger adults								
Standard 1—Information	213	3	5275	74	1427	20	188	3
Standard 5—Needs Assessment	90	1	5383	77	1265	18	261	4
Standard 22—Concerns and Complaints	131	2	6181	84	936	13	85	1

Note:
The information in the table does not cover all care homes, as not all care homes are inspected against every standard in a given year.

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 5 July 2006, *Official Report*, column 1210W, on care homes, where the work of the organisations mentioned overlaps. [88543]

Mr. Ivan Lewis: The Commission for Social Care Inspection (CSCI) inspects services against the national minimum standards (NMS) and regulations under the Care Standards Act 2000 and the Care Homes Regulations 2001. There is no overlap of CSCI inspections against these regulations with any other organisation.

However, the Health and Social Care (Community Health and Standards) Act 2003 allows for joint working between CSCI and the Audit Commission and requires that CSCI co-operates and consults with the Healthcare Commission.

The Care Homes Regulations and NMS include requirements relating to the health and safety of residents, staff and visitors. Some of these requirements may complement those in other regulations, for example, those governing fire safety and environmental health inspections. These requirements are clearly set out in guidance under each respective organisation responsible for making inspections.

If there is concern over a particular service, CSCI may plan a joint inspection with another agency. However, inspection against and enforcement of other regulations is the statutory duty of the organisations responsible for them, not CSCI.

Mr. Burstow: To ask the Secretary of State for Health how many care homes for older people *(a)* exceeded, *(b)* met, *(c)* almost met and *(d)* failed to meet (i) Standard 12 and (ii) Standard 15 of the National Minimum Standards in 2005-06. [88836]

Mr. Ivan Lewis: I understand from the Chair of the Commission for Social Care Inspection that the number of care homes for older people that exceeded, met, almost met and failed to meet Standard 12 and Standard 15 of the National Minimum Standards—Care Homes for Older People in 2005-06, is as shown in the following table.

2005-06	Standard 12—contact and activities	Standard 15—meals and mealtimes
Exceeded		
Number	987	956
Percentage	9	9
Met		
Number	7,349	8,025
Percentage	70	76
Almost met		
Number	1,945	1,415
Percentage	18	13
Failed to meet		
Number	270	133
Percentage	3	1

Note:
The information in the table does not cover all care homes for older people, as not all care homes are inspected against every standard in a given year.

Child Behavioural Problems (Treatment)

Tim Loughton: To ask the Secretary of State for Health what assessment she has made of the early intervention procedures for children with challenging behavioural problems at Bedfordshire and Luton Community NHS Trust learning disability service. [88024]

Mr. Ivan Lewis: It is for primary care trusts to assess and commission services to meet the needs of the population that they serve.

Choose and Book

Andrew George: To ask the Secretary of State for Health (1) pursuant to the answer of 16 May 2006, *Official Report*, column 935W, on the Choose and Book system, what budget has been set to cover the administrative costs of the *(a)* Choose and Book, *(b)* Choice and *(c)* whole direct enhanced service system for (i) its introduction and (ii) each projected year it is planned to operate; [75198]

(2) pursuant to the answer of 8 May 2006, *Official Report*, column 634W, on the Choose and Book system, what central departmental budget has been set for the *(a)* Choice and *(b)* Choose and Book expected costs (i) for administrative and other staff, (ii) incurred

by consultants and acute trusts, (iii) for other computer software and hardware not directly associated with the NHS Connecting for Health Agency and (iv) for other administrative infrastructure for each year the programme is budgeted to operate. [85217]

Mr. Ivan Lewis: No such budgets have been set by the Department. The setting of local budgets for the administration of Choose and Book, Choice and the direct enhanced service system is a matter for local decision making.

Colchester General Hospital

Bob Russell: To ask the Secretary of State for Health what proposals she has to fund the planned expansion of Colchester general hospital; and if she will make a statement. [90996]

Ms Rosie Winterton *[holding answer 13 September 2006]:* Essex Rivers Hospital NHS Trust Board considered revised proposals for the development of the Colchester general hospital site when it met on 11 September. The Department has not yet been approached by the Trust with any revised plans.

Bob Russell: To ask the Secretary of State for Health which hon. Members have made representations to her about the decision not to proceed with the proposed private finance initiative expansion of Colchester general hospital. [90997]

Ms Rosie Winterton *[holding answer 13 September 2006]:* Representations have been received from the hon. Member for Colchester in the form of parliamentary questions.

Computing Equipment

Mr. Weir: To ask the Secretary of State for Health how many *(a)* USB (i) flash drives and (ii) memory sticks, *(b)* compact discs, *(c)* DVD-ROM discs, *(d)* laptop computers, *(e)* external computer hard drives, *(f)* internal computer hard drives and *(g)* desktop computers were purchased for use in her Department in each month since March 2005. [88759]

Mr. Ivan Lewis: The information provided does not cover executive agencies, other arms length bodies or NHS Connecting for Health.

The information requested is contained in the following table.

	Universal serial bus Memory stick/flash drives	*(d) Laptop computers*	*(e) External computer hard drives*	*(f) Internal computer hard drives*	*(g) Desktop computers*
March 2005	32	50	0	0	313
April 2005	133	9	0	0	4
May 2005	15	37	0	15	5
June 2005	38	59	0	30	6
July 2005	11	43	0	6	18
August 2005	38	23	0	22	0
September 2005	45	56	0	0	5
October 2005	76	4	2	20	17
November 2005	33	6	0	0	3
December 2005	36	15	0	62	2
January 2006	31	16	0	96	60
February 2006	63	16	6	30	31
March 2006	272	712	1	10	754
April 2006	10	2	0	8	1
May 2006	27	1	0	8	30
June 2006	5	0	0	18	4

The Department's purchasing records do not differentiate between flash drives and memory sticks and therefore the figures provided are a combination of both.

Purchases of Compact Discs (CD) and DVD-ROM discs are made from stationery suppliers and are regarded as consumable items and not as assets. Therefore these figures are not available.

Criminal Offences

Mr. Clegg: To ask the Secretary of State for Health how many criminal offences her Department has created by Orders in Council in each year since 1997. [88471]

Mr. Ivan Lewis: There is power in section 60 of the Health Act 1999 to make provision in relation to the regulation of the health care professions by Order in Council, including an implicit power, under paragraph 6 of Schedule 3 to that Act, to create a criminal offence punishable on summary conviction by a fine not exceeding the amount specified as level 5 on the standard scale. However, such an Order may only be made after a draft of the Order has been subject to a period of three months public consultation and then approved by a vote of each House of Parliament and, if the Order covers matters within the legislative competence of the Scottish Parliament, of the Scottish Parliament.

This power has been exercised, using the procedure described above, to create 13 new criminal offences. The years in which this was done are shown as follows:

	Number
1997-98	[1]0
1999	0
2000	0
2001	0
2002	[2]10
2003	0
2004	0
2005	3
2006	0

[1] The power was not in existence
[2] One of which is not yet in force

Of the 13 provisions containing new offences, seven were expressed in similar terms to earlier offences in legislation that the Orders in Council revoked. In addition, the Orders in Council under section 60 contained a further eight modifications to existing offences.

Dentistry

Ben Chapman: To ask the Secretary of State for Health what representations she has received regarding the availability of NHS dentists in Wirral South. [91142]

Ms Rosie Winterton: The Department has received 11 letters from hon. Members and members of the public relating to access to NHS dental services in the Wirral in the last 12 months.

Ben Chapman: To ask the Secretary of State for Health what representations she has received regarding the role of Denplan in relation to the availability of NHS dentists in *(a)* Wirral South, *(b)* the North West and *(c)* England. [91143]

Ms Rosie Winterton: The Department does not keep data on the precise number of representations received on a specific issue.

Departmental Initiatives

Lynne Jones: To ask the Secretary of State for Health if she will list the departmental initiatives for each year since 2000 which required bids for funding from *(a)* voluntary organisations and *(b)* local authorities together with the total resource allocated to each initiative in each year; how many successful bids there were in each year; what proportion this figure represents of the total bids received; and what assessment she has made of the costs of (i) preparing bids for each initiative and (ii) assessing those bids. [66018]

Mr. Ivan Lewis: For 2006-07, the Department will make available a total of just over £1,590 million of revenue funding through specific formula grants. Of this, £1,583 million will be allocated directly by the Department, and £7.5 million by other Government Departments.

The vast majority of personal social services grants are allocated on a formula basis to local authorities. The table sets out those revenue grants for which the Department has responsibility which have required bids for funding from local authorities with social service responsibilities. There are only two, both of which started in 2006-07:

£ million

	Grant	
	Partnerships for Older People Projects (POPP)	*Individual budget pilots*
2000-01	—	—
2001-02	—	—
2002-03	—	—
2003-04	—	—
2004-05	—	—
2005-06	—	—
2006-07	[1]20	[2]6
2007-08	[3, 4]40	[4]6

[1] 144 applicants, 19 successful.
[2] 75 applicants, 13 successful.
[3] Of which £21,291,195 already announced to be allocated to the 19 round 1 POPP local authorities for the second year of 2-year projects.
[4] Allocation tbc.

Note:
No formal assessment has been made of either the cost of submitting or assessment of these bids.

The information for the voluntary sector is not readily available and could not be obtained without incurring disproportionate costs. The only information that is readily available since 2000 is the annual total value of approved section 64 General Scheme of Grants and I refer the hon. Member to the answer given to the hon. Member for North-West Cambridgeshire (Mr. Vara) on 3 May 2006, *Official Report*, column 1710W.

Departmental Staff (Criminal Activity)

Simon Hughes: To ask the Secretary of State for Health how many of her Department's employees have been *(a)* dismissed, *(b)* suspended and *(c)* subject to disciplinary action for criminal activity in each year since 1997. [88462]

Mr. Ivan Lewis: The information requested is not held centrally.

Disability Equality

Mr. Marsden: To ask the Secretary of State for Health (1) what *(a)* information gathering and *(b)* other actions (i) her Department and (ii) other bodies are taking to inform the production of the report on progress towards disability equality within the health policy sector; [91181]

(2) whether she has made an assessment of which policy areas will be considered in her report on progress towards disability equality within the health policy sector due to be published in December 2008; [91182]

(3) what steps were taken to involve disabled people in the production of her Department's disability equality scheme. [91183]

Mr. Ivan Lewis: The Department will publish its disability equality scheme in December this year, and disabled members of staff will be involved as it is

prepared. We are considering the policy areas that will be considered in the report on progress towards disability equality that will be published in 2008, and the information-gathering and other actions the Department or other bodies will take to inform the content of that report.

Disabled Staff

Danny Alexander: To ask the Secretary of State for Health how much was paid to her Department from the access to work scheme for adjustments for disabled staff in the last year for which figures are available; from what budget she plans to meet the costs of reasonable adjustments for disabled staff following withdrawal of access to work funding for central Government Departments; and if she will make a statement. [89007]

Mr. Ivan Lewis: The Department does not collect the numbers of disabled staff receiving adaptations and equipment paid for by access to work.

Experimental Treatments

Mrs. Dunwoody: To ask the Secretary of State for Health how many NHS trust hospitals have rented *(a)* all and *(b)* part of their wards to pharmaceutical companies for experimental treatments in the last 12 months. [91226]

Mr. Ivan Lewis: The information requested is not held centrally.

Mrs. Dunwoody: To ask the Secretary of State for Health how many trust hospitals have taken part in Phase III trials of pharmaceuticals; which *(a)* hospitals and *(b)* pharmaceutical companies were involved; and what income was received by each trust. [91227]

Mr. Ivan Lewis: For the period from September 2004 to September 2006, 260 United Kingdom hospitals have taken part in Phase III clinical trials of medicinal products. A table listing these hospitals has been placed in the Library. The number of pharmaceutical companies sponsoring Phase III clinical trials in the same time period is 215. These include companies based in the UK, other European Union member states and in non-European countries. A table listing these companies has been placed in the Library. Income accruing from the participation of trust hospitals in commercial clinical trials of medicinal products is not held centrally.

Mrs. Dunwoody: To ask the Secretary of State for Health what insurance an NHS hospital trust holds for compensation claims incurred by private companies renting NHS wards. [91228]

Mr. Ivan Lewis: National health service hospital trusts do not obtain commercial insurance cover for compensation claims incurred by private companies renting NHS wards. However, it is normal for the NHS to ask private companies in these circumstances to obtain their own indemnity cover.

Mrs. Dunwoody: To ask the Secretary of State for Health what the total cost to the NHS was of treating patients at Northwick Park who took part in the experimental testing set up by Parexel. [91280]

Ms Rosie Winterton: This information is not held centrally.

General Hospitals

Peter Bottomley: To ask the Secretary of State for Health which of each county's largest town or city does not have a general hospital. [91201]

Ms Rosie Winterton: All of the largest towns for each county in England, as defined by their urban population, have a general acute hospital locally with the exception of Rutland which has access to one close by in the neighbouring county.

The location of all health care services depends on many factors including population density, service need, value for money, geography and transport links. Any decisions on the location of health care services will be taken locally and will be reviewed over time to ensure they remain optimal.

Health Care Procedures

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the average cost was of health care procedures in *(a)* independent sector treatment centres and *(b)* on the NHS tariff in 2005-06. [79677]

Mr. Ivan Lewis: The national tariff is a price indicator to be paid to national health service organisations for health care procedures and not a cost indicator. The national tariff is published on the Department's website at www.dh.gov.uk.

Across the full period of the wave one independent sector treatment centre (ISTC) contracts, the average percentage cost above the NHS equivalent cost of all wave one ISTCs is 11.2 per cent. and compares favourably with the historical cost of the NHS of spot purchasing from the independent sector.

Health Information Campaigns

Steve Webb: To ask the Secretary of State for Health how much her Department has spent on public health information campaigns on *(a)* sexual health and *(b)* safe alcohol consumption in each year from 1997 to 2005. [89090]

Caroline Flint: The following table sets out the cost of public health information campaigns and publicity on sexual health, teenage pregnancy and alcohol in each year from 1997 to 2005.

£ million

	Sexual Health	*Teenage Pregnancy*	*Alcohol*
1997-98	0	0.79	—
1998-99	0	0.84	—
1999-2000	0	1.18	—
2000-01	0	5.35	—
2001-02	0.3	2.74	—

£ million

	Sexual Health	Teenage Pregnancy	Alcohol[1]
2002-03	1.5	1.97	0.097
2003-04	1.6	2.15	0.045
2004-05	1.27	0	0.342
2005-06	0.62	0	0.064

[1] There has been no major campaign expenditure on alcohol consumption in the financial years 1997-2005, so costs given relate to literature and website activity only. However the Department of Health and Home Office are developing a joint alcohol communications campaign for launch in October 2006. The Department is contributing £2 million to the cost of this campaign.

We only have financial information on alcohol expenditure for the last four years, as figures pre-2002-03 were held on an old financial system, which is no longer accessible.

Home Oxygen Provision

Damian Green: To ask the Secretary of State for Health if she will make a statement on the provision of home oxygen cylinders in Kent. [91041]

Ms Rosie Winterton *[holding answer 13 September 2006]*: Following difficulties experienced in meeting the demand for home oxygen cylinders, especially standard and lightweight ambulatory cylinders, arrangements have now been made to make more cylinders available. The majority of patients in the two regions in the South East of England serviced by Allied Respiratory have transferred to the new supplier. Remaining patients are continuing to receive their oxygen cylinders through community pharmacies and are expected to transfer to Allied Respiratory over the next few weeks. Strategic health authorities and primary care trusts continue to monitor the situation and work with the supplier and clinicians to ensure patient's needs are met.

Hospital Meals

Mr. Lansley: To ask the Secretary of State for Health how many hospital meals were left untouched in each year since 2001-02; and what this figure represents as a percentage of the total number of patient main meals in each year. [91116]

Ms Rosie Winterton: The total number of patient meals reported untouched in each year since 2001-02 together with the percentage of the total number of patient meals are as follows:

	Untouched meals (Number)	Untouched meals (Percentage of total meals)
2001-02	12,498,786	8.86
2002-03	15,501,471	10.44
2003-04	17,396,869	10.71
2004-05	13,128,964	10.21
2005-06	13,622,984	9.75

These data are derived from the estates return information collection returns provided by trusts in England.

The percentage of untouched meals is defined as:

plated meal systems: the number (calculated over the full menu cycle or seven days where no menu cycle is used) of untouched/unserved patient meals remaining at the end of the meals service period expressed as a percentage of the total number of meals provided and available at the commencement of the meal service period; and

bulk systems: an apportionment of remaining meals based on visual inspection expressed as percentage of the total number of meals able to be served.

A patient meal is defined as either a breakfast, midday or evening meal order (or any substitute or alternative for any such meals) received from a patient (wards and departments) or the number of similar meals provided to wards and departments as an estimate of need where order systems are not in use.

The data provided have not been amended centrally and the accuracy of the data is the responsibility of the provider organisation.

Hospitality Expenses

David Simpson: To ask the Secretary of State for Health if she will keep a separate record of the amount spent annually by her Department on alcohol for hospitality purposes. [77265]

Mr. Ivan Lewis: The Department does not collect this information at present, and has no need to do so. All expenditure by the Department is conducted in accordance with the principles of the Treasury manual "Government Accounting".

Intravenous Adrenaline

Mr. Lansley: To ask the Secretary of State for Health what recent representations she has received on supplies to the NHS of intravenous adrenaline; what the content of these representations was; which companies supply intravenous adrenaline to the NHS; and if she will make a statement on the supply of intravenous adrenaline to NHS organisations. [91114]

Mr. Ivan Lewis: The Department and National Health Service Purchasing and Supply Agency are aware that there have been problems with the supply of adrenaline injection in pre-filled syringes, and have had representations from NHS pharmacists alerting them to the problem.

Adrenaline injection in pre-filled syringes is available from Cardinal Health and UCB Pharma Ltd., and in ampoules from Cardinal Health, Hameln Pharmaceuticals Ltd. and Goldshield Pharmaceuticals Ltd.

The shortage of adrenaline in pre-filled syringes arose due to a packaging problem with one of Cardinal's other products, which had a knock-on effect. The problem has been resolved, and Cardinal say that stocks of adrenaline in pre-filled syringes will be fully replenished within the next two months. Adrenaline in pre-filled syringes is also available from UCB Pharma Ltd. There is no shortage of adrenaline injection in ampoules.

IT Contracts

Mr. Weir: To ask the Secretary of State for Health what the value was of each IT contract awarded by her Department in each of the last five years; and who the contractor was in each case. [88988]

Mr. Ivan Lewis: The information provided does not cover executive agencies, other arm's length bodies or NHS Connecting for Health.

The names of the contractors and value of each information technology contract awarded by the Department in each of the last five years are:

1. Computer Sciences Corporation (CSC)—The information management services agreement, outsourced support for the Department's IT desktop services and infrastructure

	Value (£ million)
2002-03	7.65
2003-04	8.85
2004-05	8.77
2005-06	7.47
2006-07	[1]7.60

[1] Forecast charges

Transformation of the infrastructure formed a separate part of the agreement. The outturn cost was a further £12.6 million.

CSC also undertake IT infrastructure project work in support of the integrity, enhancement and resilience of the infrastructure in line with changing technologies. They also administer expenditure for IT services on behalf of the Department, for example British Telecom costs for the wide area network and business ports, and audio conferencing and mobile telephone costs. These project and pass-through costs are listed as follows.

	Value (£ million)
2002-03	12.88
2003-04	18.32
2004-05	20.06
2005-06	21.82
2006-07	[1]21

[1] Forecast charges

2. Cap Gemini—Finance system agreement

2004-05: £5.6 million.

3. IBM—Corporate software agreement

2004-05: A three year contract with three annual payments totalling £1.4 million.

4. Xansa—Web content management and hosting service

2006-07: The value of this contract over the next five years is £6 million.

5. BT—External applications hosting

This annually renewable contract is for an application hosting provision designed to be scaleable to meet the requirements of the Department. The charges represent the fluctuation in these requirements. The annual charges were:

	Value (£ million)
2002-03	0.306
2003-04	0.5
2004-05	0.374
2005-06	0.3
2006-07	0.3

6. EDS—Web and application hosting services

	Value (£000)
2002-03	162
2003-04	202
2004-05	229

Mr. Weir: To ask the Secretary of State for Health which IT contracts awarded by her Department in each of the last five years have been abandoned; and what the value was in each case. [88989]

Mr. Ivan Lewis: The Department has not abandoned any IT contracts in the last five years.

Maternity Services

Peter Bottomley: To ask the Secretary of State for Health (1) how many hospitals had more than 4,000 births in the last year for which figures are available; [91198]

(2) whether it is her policy that maternity hospitals should plan for over 4,000 births a year. [91199]

Mr. Ivan Lewis: The national health service maternity statistics for the year 2004-05 indicate that there were 51 hospitals with over 4,000 deliveries registered.

It is for local NHS trusts to decide on the best pattern of maternity service provision, taking into account their local population needs, evidence of effectiveness and available resources, and having followed appropriate procedures including consultation locally.

Mental Health

Tim Loughton: To ask the Secretary of State for Health how much was spent by her Department on providing information and literature to patients suffering from mental illness about the linked dangers of drugs in the last period for which figures are available. [88013]

Caroline Flint: The cross-government drugs information campaign, FRANK, funded by the Department, Home Office and Department for Education and Skills communicates, primarily to young people aged 11-24, all the known harmful effects of illegal drugs including potential effects on mental health.

The FRANK helpline, website www.talktofrank.com, television and radio advertising and information literature all include reference to substances for which there is evidence that mental health could be adversely affected, although the campaign does not specifically target people suffering from mental health problems. We are therefore

unable to isolate and provide specific costings for delivery of mental health messages within the totality of FRANK messaging.

Ministerial Meetings

Mr. Weir: To ask the Secretary of State for Health when she last met her Scottish counterpart; and what subjects were discussed. [88766]

Mr. Ivan Lewis: Ministers have regular dialogues with ministerial colleagues in the Scottish Executive, discussing a wide range of issues of mutual interest. It is not our practice to disclose details of such meetings, however, my right hon. Friend the Secretary of State last met the Scottish Health Minister on 11 October 2005.

New Hospitals

Mr. Lansley: To ask the Secretary of State for Health pursuant to her Department's press release of 18 August 2006, "Go-ahead for billion pound-plus wave of new NHS Hospitals", when she expects each of the schemes mentioned in the press release to reach financial close. [90990]

Ms Rosie Winterton *[holding answer 13 September 2006]*: It is currently anticipated that the schemes announced on 18 August will reach financial close by the following time periods:

University Hospital of North Staffordshire NHS Trust, spring 2007

South Devon Healthcare NHS Trust, autumn 2008

Salford Royal Hospitals NHS Trust, spring 2007

Tameside and Glossop Acute Services NHS Trust, spring 2007

Walsall Hospitals NHS Trust, autumn 2007

University Hospital Leicester NHS Trust, spring 2008

Dates for financial close cannot be predicted with absolute certainty and the estimates given here may change as the projects develop.

NHS Finance

Mr. Lansley: To ask the Secretary of State for Health whether her Department received earlier estimates from each strategic health authority (SHA) regarding the forecast year-end financial position of each SHA's health community in 2006-07 as at month three of 2006-07, which were different from those which were published in the quarter one financial data for 2006-07 on 11 August 2006. [91186]

Mr. Ivan Lewis: The 2006-07 quarter one report published the estimated forecast year-end position for the national health service, as at the end of June 2006.

Reflecting both good financial practice and our performance management regime, NHS financial data are subject to review and quality assurance as part of the normal data collection process.

Simon Hughes: To ask the Secretary of State for Health what the total budgeted spend of each NHS trust was for *(a)* 2004-05, *(b)* 2005-06, *(c)* 2006-07 and *(d)* the latest proposed budgeted spend for 2007-08. [91239]

Mr. Ivan Lewis: The Department does not collect budget information from national health service trusts. On the basis of information that is available, we have provided the following tables which have been placed in the Library:

Table 1: NHS trusts' final accounts surplus/deficit position for 2004-05;

Table 2: NHS trusts' provisional outturn for 2005-06; and,

Table 3: NHS trusts' forecast outturn for 2006-07 as at quarter 1 (end of June 2006).

No data are available for 2007-08.

NHS Outsourcing

Mr. Truswell: To ask the Secretary of State for Health which NHS organisations outsource administrative services to overseas providers; from where such services are provided; what their total cost was in 2005-06; what steps her Department has taken to promote quality controls in respect of those that involve the inputting of patient data and the drafting of letters to patients; and if she will review the operation of such contracts. [91266]

Ms Rosie Winterton: Information is not collected centrally in the form requested. However, I refer the hon. Member to the reply given to my hon. Friend the Member for Sittingbourne and Sheppey (Derek Wyatt) on 29 June 2006, *Official Report*, column 620W.

NHS Service Provision (Changes)

Mr. Evennett: To ask the Secretary of State for Health what recent representations she has received regarding proposed service provision changes at *(a)* Queen Mary's hospital, Sidcup, *(b)* Queen Elizabeth hospital, Woolwich and *(c)* Bexley Care Trust. [87767]

Mr. Ivan Lewis: In the last six months, two letters have been received by the Department about the future of paediatric diabetes services at Queen Mary's hospital, Sidcup. No other representations have been received about proposed service provision changes at Queen Elizabeth hospital or Bexley Care Trust.

Nurses

Andrew Selous: To ask the Secretary of State for Health how many nurses completed their training in *(a)* 2005 and *(b)* 2006; and how many have not been able to find jobs. [91249]

Ms Rosie Winterton: This information is not collected centrally.

Parliamentary Papers

Mr. Amess: To ask the Secretary of State for Health if she will make it her policy to make copies of deposited papers available in the *(a)* Vote Office and *(b)* Printed Paper Office at the same time as copies are deposited in the Library; and if she will make a statement. [81178]

Mr. Ivan Lewis: I refer the hon. Member to the answer given to him by my right hon. Friend the Leader of the House on 3 July 2006, *Official Report*, column 729W.

PCT (Leeds)

Mr. Truswell: To ask the Secretary of State for Health if she will ensure that savings released by the amalgamation of primary care trusts (PCT) in Leeds are reinvested in services in the new Leeds PCT area. [91265]

Ms Rosie Winterton: After completion, the reconfiguration is expected to deliver savings of £250 million every year for reinvestment in frontline services. Primary care trusts are likely to prioritise investments in the manifesto commitments such as additional palliative care services, improving access to cancer services and developments in mental health services.

The savings are expected to be realised by the end of 2007 and then every year for reinvestment beginning in 2008-09. Strategic health authorities (SHAs) have been asked to oversee the generation of the savings locally. Each SHA has a cost envelope that it should realise but it is for local determination to work out the best way of achieving these savings.

Pharmacies

Mr. Boswell: To ask the Secretary of State for Health what steps the Department is taking in conjunction with the medicines and health regulatory authority to introduce risk-based regulation for *(a)* wholesale and *(b)* dispensing pharmacies. [90987]

Ms Rosie Winterton *[holding answer 13 September 2006]:* The European Commission in conjunction with the European Parliament and the Council of the European Union regulate the production and distribution of medicinal products within the European Economic Area with measures contained in Directive 2001/83/EC as amended relating to medicinal products for human use and their guidelines on good practices.

The Medicines and Healthcare products Regulatory Agency (MHRA), the Government body responsible for the safety and licensing of medicines in the United Kingdom has transposed the regulatory measures contained in Directive 2001/83/EC as amended in respect of the wholesale distribution of medicinal products for human use into the United Kingdom's national legislation for medicines for human use.

The MHRA inspects the facilities of licensed wholesale dealers of medicines to confirm compliance with the European Commission's guideline on good distribution practice and the United Kingdom's medicines regulations. As the risks associated with the distribution of some categories of medicines are significantly higher than others, different inspection frequencies are applied.

The approach taken to the regulation and inspection of pharmacies and the dispensing of medicines under the Medicines Act 1968 as amended, including the extent to which it is risk based, is the responsibility of the Royal Pharmaceutical Society of Great Britain.

Prescription Charges

Mrs. May: To ask the Secretary of State for Health what assessment she has made of the cost of extending the list of medical conditions which are exempt from prescription charges to include mental illness. [91277]

Ms Rosie Winterton: No such assessment has been made. Many people suffering from mental illness will already be entitled to free prescriptions through the extensive exemption arrangements. Patients who are not exempt may purchase a prescription pre-payment certificate.

The charging arrangements have recently been examined by the Health Select Committee which has made a number of recommendations. We are considering these and will respond formally in due course.

Residential Rehabilitation (Drug Treatment)

Mr. Malins: To ask the Secretary of State for Health how much money was provided to each London borough for the purpose of funding drug residential rehabilitation places in each of the last five years. [91164]

Ms Rosie Winterton: Residential drug rehabilitation is one of a number of different structured drug treatment interventions provided to meet the range of needs of drug users, with the remainder being: community-based general practitioner prescribing; community-based specialist prescribing; structured psychosocial interventions; structured day programmes; in-patient drug treatment; and other structured treatment. Drug Action Teams (DATs), have responsibility for commissioning drug treatment services based on assessment of local need. Drug treatment funding available to local DATs, including funding provided via the pooled drug treatment budget (PTB), is not divided between treatment types. Therefore, we are not able to provide the information requested.

Details of PTB allocations to all London boroughs between 2002-03 and 2006-07 are in the table.

£000

	PTB channelled through PCT				
DAT	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*

London total[1]	43,801	55,195	60,371	72,741	93,590

[1] These figures do not include funding from local authority community care budgets, which fund many of the drug residential rehabilitation places. Local funding allocations are not collected at a national level so we are not able to provide a breakdown of this spend.

Security Passes

Simon Hughes: To ask the Secretary of State for Health how many security passes have been reported *(a)* lost and *(b)* stolen by staff in her Department by year since February 2004. [88564]

Mr. Ivan Lewis: In the Department, the following number of security passes have been reported lost or stolen:

2004-05: nil

2005-06: lost totalling 56, and

stolen totalling: 13.

St. Helier Hospital

Mr. Burstow: To ask the Secretary of State for Health what inquiries her Department made concerning the *(a)* town and country planning advice on, *(b)* legal obstacles to and *(c)* affordability of the St. Helier option for siting a critical care hospital in coming to her decision set out in her letters of (i) 19 December 2005 and (ii) 16 August 2006; and if she will make a statement. [91125]

Mr. Ivan Lewis: My right hon. Friend the Secretary of State considered advice from the local NHS and from officials, including from the solicitor's branch.

In August 2006 the chief executive of NHS London wrote to the Secretary of State outlining developments affecting the proposals for the new hospital at St. Helier. These included the financial position of the local primary care trusts and planning and legal restrictions affecting land at St. Helier. As a consequence, the Secretary of State withdrew her decision of 19 December 2005 and replied asking for a review of the proposals for the new critical care hospital, including the model of care and issues of affordability.

Mr. Lansley: To ask the Secretary of State for Health what progress has been made following her decision in December 2005 to site a new hospital at St. Helier, Carshalton; and if she will make a statement. [91187]

Mr. Ivan Lewis: In August 2006 the chief executive of NHS London wrote to my right hon. Friend the Secretary of State outlining developments affecting the proposals for the new hospital at St. Helier. These included a change to the financial position of local primary care trusts and planning and legal restrictions affecting land at St. Helier. In consequence of these developments, the Secretary of State has withdrawn her decision of 19 December 2005 and has written to the chief executive of the London strategic health authority accepting his request for a review of the proposals for a new critical care hospital and the model of care for the area, including issues of affordability.

Staff Bonuses

Mr. Burstow: To ask the Secretary of State for Health how many performance-related bonuses were paid to staff in her Department in each year since 1997; and how much was spent by her Department on performance-related bonuses in each year. [91126]

Mr. Ivan Lewis: The Department has spent £1,065,069 on performance bonus payments to 690 staff in 2004-05. For 2005-06, the Department spent £1,065,759 on 589 employees and in 2006-07 £1,108,586 has been paid to 262 members of staff to the end of August.

Worthing and Southlands NHS Trust

Peter Bottomley: To ask the Secretary of State for Health if she will visit the Worthing and Southlands NHS Trust. [91200]

Mr. Ivan Lewis: An invitation inviting the Secretary of State for Health to Worthing was received by the Department's ministerial visits unit on 14 September and is currently being processed. The invitation will be duly submitted to the Secretary of State for Health for consideration regarding availability.

TRADE AND INDUSTRY

Business Support

Mr. Prisk: To ask the Secretary of State for Trade and Industry what the 10 largest schemes were in monetary terms on the Small Business Service's Grants and Support Directory in 2005-06; what arrangements are in place to measure each scheme's *(a)* impact and *(b)* effectiveness; and if he will make a statement. [91224]

Jim Fitzpatrick: As part of the last Budget, the Government announced a cross-Government Business Support Simplification Programme to improve the provision of publicly funded business support. The programme will deliver easy-to-access Government support for business—targeted where it will have greatest impact and delivered to get best value for money. Part of the programme's work is to identify the funding across Government from which existing business support schemes flow.

The impact and effectiveness of existing schemes is monitored and evaluated by individual Departments, Agencies and local government. The programme will draw on this evidence, using a screening tool, which is currently being piloted by central Government and regional development agencies, to assess Government business support. This work will allow us to ensure that publicly funded support for small business is easier to access and continues to support the growth in start-ups and improve survival rates which are higher than a decade ago.

Mr. Prisk: To ask the Secretary of State for Trade and Industry what support the Government provide for small businesses in addition to the schemes listed on the Small Business Service's Grants and Support Directory. [91256]

Jim Fitzpatrick: The Small Business Service's Grants and Support Directory lists all central Government support schemes for business. It also lists the majority, but not all, of the support that is provided by regional and local government, and support that is available from voluntary and not-for-profit organisations.

The Government announced in this year's Budget statement (March 2006) that it has initiated a Business Support Simplification programme to reduce the number of central, regional and local schemes to less than 100 by 2010 thereby making it easier for small businesses to access the support they need while continuing the Government's commitment to support the entrepreneurial economy.

Cellulosic Ethanol

Mr. Djanogly: To ask the Secretary of State for Trade and Industry (1) what cost analysis he has undertaken on the development of cellulosic ethanol as an alternative fuel source; [91196]

(2) what steps he is taking to further the development of cellulosic ethanol as an alternative fuel source. [91197]

Jim Fitzpatrick: Cellulosic ethanol is a longer term option for transport biofuels.

The Renewable Transport Fuel Obligation (RTFO) will provide significant support to the biofuels industry by ensuring a stable, long-term market for the best biofuels. In designing and consulting on the RTFO the Government published supporting evidence on the costs and benefits of the proposed obligation. The obligation will also support innovation and help develop the lowest-carbon biofuels production methods.

In the longer term, we intend the RTFO to be able to encourage and reward the development and use of those biofuels (including cellulosic ethanol) which deliver the maximum carbon savings with the minimum environmental impact.

The Low Carbon Transport Innovations Strategy announced in the Energy Review will also act as a spur to low carbon transport technologies.

The Department's Technology Programme is also supporting next generation transport biofuels and has supported the following projects to date.

Contractor	*Title*	*DTI value (£)*
Imperial College of Science, Technology and Medicine	Technology Status Review and Carbon Abatement Potential for Renewable Transport Fuels in the UK	50,731
BLC Leather Technology Centre Ltd.	Hyperthermophilic Proteolytic Fermentation to Generate Ethanol as a Transport Fuel	110,087

Contractor	Title	DTI value (£)
BLC Leather Technology Centre Ltd.	Lipase Alcoholysis of Triglycerides to Produce Biodiesel	93,025
TMO Biotec Ltd.	Biofuel production from plant biomass derived sugars	234,080.00

The Department has also supported two Global Watch Missions on bioenergy and biofuels which have included work on next generation biofuels and been published in 2006. Both are available from the DTI Publications Unit.

Bioenergy: a scoping mission to the USA and Canada. (URN 06/829)

Global watch mission report: an overview of the current status and future trends of technology development in the area of bioenergy in the USA and Canada, and the relationships with the strategic direction of the US and Canadian federal state/ provincial governments

Next generation transport biofuels—a mission to the Netherlands, Germany and Finland. (URN 06/1112)

Global watch mission report to identify and evaluate new process technologies and feedstocks that offer the potential for improvements in the production of biofuels for diesel engine applications.

The UK is also a member of the International Energy Agency's collaboration on liquid biofuels (Task 39 of IEA Bioenergy)—with DTI funding the membership of British Sugar. The task brings together leading international researchers and industry pioneers looking to increase the penetration of biofuels for transportation into the commercial marketplace. The activities include the technical challenges of biofuel production, as well as the policy and regulatory issues that must be addressed in commercialisation.

Companies Bill

Mr. Djanogly: To ask the Secretary of State for Trade and Industry (1) which *(a)* business and *(b)* trade organisations his Department has met to discuss the Companies Bill in the last 12 months; [91189]

(2) which *(a)* charities, *(b)* trade unions and *(c)* non-governmental organisations his Department has met to discuss the Companies Bill in the last 12 months. [91195]

Jim Fitzpatrick: The Companies Bill covers a large number of issues, and it would be disproportionate to seek to identify all those organisations with whom the Department has held discussions on different aspects of the Bill over the past 12 months. This has included a very wide range of bodies, including business organisations such as the CBI and Institute of Directors, experts and practitioners such as the Law Society, and other organisations such as the TUC and members of the Corporate Responsibility Coalition.

Default Costs

Mr. Truswell: To ask the Secretary of State for Trade and Industry if he will publish responses received by his Department from industry to the report on default charges relating to credit cards and other contracts; and what action he plans to take in reply to the report. [90925]

Mr. McCartney: The report on default charges is being conducted by the Office of Fair Trading. The OFT has already stated that it believed that credit card default charges had been generally set at a significantly higher level than was considered fair and set a £12 threshold for OFT intervention unless there were exceptional business factors. In response to this, credit card issuers have agreed to reduce their default charges—the majority by almost half.

As a result of subsequent reduction in charges across the market, the OFT is satisfied that no further intervention is warranted in this area at this time and that this change has brought about substantial benefits for consumers. The OFT remains of the view that the broad principles do read across to the retail banking area and has decided to undertake further work on the application of these principles to bank current accounts. This fact-finding exercise is expected to take between three to six months, at which stage the OFT will consider whether a further detailed investigation of the fairness of individual bank default charges is needed.

Design Council

Mr. Sheerman: To ask the Secretary of State for Trade and Industry what steps he is taking to ensure an appropriate level of funding for the work of the Design Council. [91175]

Jim Fitzpatrick: The Design Council is a non-departmental public body co-sponsored by the Department of Trade and Industry, and the Department for Culture Media and Sport. It is funded by a grant in aid from the Department of Trade and Industry to enable it to deliver on its business plan. Funding under the Spending Review 2004 was set at over £6 million a year for the three years to 2007-08. In addition a further £2.5 million has been provided in the last three years to fund a pilot project on improving business performance through better use of design by businesses. The regional development agencies are contributing towards the roll-out of this programme in some regions. We are also encouraging the council to develop new revenue streams to enhance its income to support its skills, creative industries and design promotion programmes.

Energy Infrastructure

Mr. Crabb: To ask the Secretary of State for Trade and Industry (1) how often the security of the principal domestic energy infrastructure is reviewed; [90583]

(2) when he last met the Home Secretary to discuss the adequacy of security measures to protect domestic energy infrastructure; and if he will make a statement. [90584]

Malcolm Wicks *[holding answers 11 September 2006]:* The Government have an ongoing programme of work relating to the protection of the UK's Critical National Infrastructure, including the energy sector. This work is overseen by the Protective Security and Resilience Sub-Committee of the Ministerial Committee on Defence and Overseas Policy (DOP(IT)(PSR)), which meets regularly under the chairmanship of the Home Secretary and is attended by my right hon. Friend the Secretary of State for Trade and Industry.

Export Licences

Mr. Andrew Turner: To ask the Secretary of State for Trade and Industry what the target time is within which decisions on export licences should be reached; and how many, and what proportion of applications were decided upon within the target period in each of the last three years for which information is available. [91260]

Malcolm Wicks: The Government publish information on the number of export licence applications they have processed, and their performance against target in doing so, in their annual reports on Strategic Export Controls. The Government also publish quarterly licensing and performance information on the Export Control Organisation website at http://www.dti.gov.uk/europeandtrade/strategic-export-control/.

Gas Imports

Mr. Grogan: To ask the Secretary of State for Trade and Industry if he will require owners of interconnector capacity and of storage facilities to publish planned levels of utilisation of imported gas three months in advance. [90617]

Malcolm Wicks *[holding answer 11 September 2006]:* It is the responsibility of Ofgem, as independent regulator, to determine the information required for the effective operation of the market, working within the legislative framework set by Government.

Against this background, the following information is currently available, which balances the commercial needs of the companies concerned and the needs of the wider market.

Regulations are in place to ensure capacity holders on the interconnector release unutilised capacity to the secondary traded market as and when available. National Grid publishes storage levels with a one day lag. Utilisation of storage facilities, as with other supply sources, is the commercial decision of the capacity holders.

Ofgem also publish National Grid's Winter Outlook Report which contains aggregated supply and demand data, collected in consultation with industry, by supply source. This includes, but is not limited to, imported gas and storage capacities.

Intellectual Property

Mr. Djanogly: To ask the Secretary of State for Trade and Industry whether the Government have plans to introduce a new position of Minister for Intellectual Property. [90995]

Margaret Hodge *[holding answer 13 September 2006]:* The Government have no plans, at present, to introduce a new Minister for Intellectual Property. Lord Sainsbury is the Minister with responsibility.

Oil and Gas Reserves

Mr. Salmond: To ask the Secretary of State for Trade and Industry what the latest estimate is for total UK Continental Shelf oil and gas reserves; and what estimate he has made of the value of these reserves at *(a)* Budget forecast and *(b)* current world prices. [90565]

Malcolm Wicks *[holding answer 11 September 2006]:* The Department of Trade and Industry publishes estimates of remaining UK Continental Shelf oil and gas reserves on its oil and gas website at http://www.og.dti.gov.uk/information/bb_updates/chapters/reserves_index.htm. The latest published estimate, of total proven plus probable plus possible reserves as at 1 January 2005, was 17.1 billion barrels of oil equivalent. The Department does not produce estimates of the value of these reserves.

Post Office

Mrs. May: To ask the Secretary of State for Trade and Industry when the Government expect to conclude their review of the future of the Post Office; and if he will make a statement. [91278]

Jim Fitzpatrick: We are at present carefully considering options for the network beyond 2008, though we are not working to a fixed timetable.

Private Limited Companies

Mr. Djanogly: To ask the Secretary of State for Trade and Industry how many private limited companies there are in the UK with over 1,000 shareholders. [90645]

Mr. McCartney *[holding answer 11 September 2006]:* Companies provide information on their shareholders to Companies House. However, information on the number of shareholders which they have is not held in a form which would allow for an answer to this question to be provided except at disproportionate cost.

UK Accounting Firms

Mr. Djanogly: To ask the Secretary of State for Trade and Industry what steps he has taken to review the governance regime for the four largest UK accounting firms. [91188]

Jim Fitzpatrick: The Government published their review of the regulatory regime for the accounting profession in January 2003 alongside the report of the Co-ordinating Group on Audit and Accounting Issues. As a result of this review a new system of independent regulation was established under the Financial Reporting Council. Under these reforms, the Professional Oversight Board, a part of the Financial Reporting Council, has responsibility for the oversight of the regulation of the accountancy and audit professions as well as for monitoring the quality of audits of public interest entities, including those by the four largest UK accounting firms.

The new eighth Company Law Directive (2006/43/EC) on statutory audits was adopted on 17 May 2006. The DTI will be consulting in due course on the implementation of the directive.

The Companies Bill currently before Parliament includes a range of new measures relating to statutory auditors and audits.

TREASURY

Arms Imports

John Barrett: To ask the Chancellor of the Exchequer how many *(a)* assault rifles and *(b)* other long-barrelled weapons sharing the same section 5 classifications originating from Bosnia and Herzegovina and entering the UK through the port of Immingham were declared to UK customs in (i) July 2005 and (ii) August 2005. [91113]

Dawn Primarolo: Due to taxpayer confidentiality HM Revenue and Customs cannot provide information about any specific imports.

Capital Gains Tax

Julia Goldsworthy: To ask the Chancellor of the Exchequer (1) what estimate he has made of the cost to the Treasury of extending capital gains tax rollover relief to residential landlords; [91268]

(2) what assessment he has made of the merits of extending capital gains tax rollover relief to residential landlords; [91269]

(3) what assessment his Department has made of the impact of capital gains tax rollover relief being available for holiday lets but not residential landlords in areas where there is high demand for holiday accommodation as well as residential letting; [91270]

(4) what estimate he has made of the cost of extending capital gains tax rollover relief to residential landlords as well as to those owning holiday lets. [91276]

Dawn Primarolo: The Government keep all aspects of the tax system under review.

There have been no estimates produced of the cost of extending capital gains tax rollover relief to residential landlords, or the impact of capital gains tax rollover relief being available for holiday lets but not residential landlords. Estimates could be produced only at a disproportionate cost.

Carbon Emissions Tax

Mr. Brady: To ask the Chancellor of the Exchequer if he will veto the European Parliament proposal for an EU-wide tax on cars according to their carbon emissions. [91178]

John Healey: The Government will not agree to the proposal on passenger car related taxes, as amended by the European Parliament.

Cash Machines

Ben Chapman: To ask the Chancellor of the Exchequer how many fee-charging cash machines were installed in Wirral in the last year for which figures are available; and if he will make a statement. [91140]

John Healey: According to data from LINK, an additional 21 fee-charging cash machines were installed in the Wirral over the 12 months to August 2006. However, an additional 26 free cash machines were also installed in the Wirral during the same period.

Tax Credits

Mr. Frank Field: To ask the Chancellor of the Exchequer how many people from the new EU accession countries *(a)* have claimed and *(b)* are claiming tax credits at the latest available date. [91131]

John Healey: I refer the hon. Member to the answer I gave on 11 September 2006 to question 90547 from the hon. Member for Rayleigh (Mr. Francois).

Bob Russell: To ask the Chancellor of the Exchequer what estimate he has made of the value of fraudulent tax credits paid in each of the last three years; and if he will make a statement. [91209]

Dawn Primarolo: I refer the hon. Member to the statement I made to the House on 11 July 2006, *Official Report*, columns 1281-82, and to the HMRC publications "Child and Working Tax Credits: Error and fraud statistics 2003-04" and "Tackling error and fraud in the Child and Working Tax Credits" available on the HMRC website at: http://www.hmrc.gov.uk/menus/techmenu.htm

TRANSPORT

Aircraft Hand Luggage

Jeremy Wright: To ask the Secretary of State for Transport what representations his Department is making to the Civil Aviation Authority on the application to the instruments of professional musicians of the recent security restrictions on aircraft hand luggage. [91138]

Gillian Merron: The Department for Transport regulates aviation security in the UK. My officials have met representatives of professional musicians with the aim of working together to identify a way forward on this specific matter.

Kate Hoey: To ask the Secretary of State for Transport why musicians are not permitted to take their instruments on to aeroplanes. [91257]

Gillian Merron: My officials have met representatives of professional musicians to discuss their concerns and will be presenting new proposals to representatives of the aviation industry later this week aimed at lessening the burden on both passengers and operators.

Kate Hoey: To ask the Secretary of State for Transport when he expects the normal hand luggage rules for aeroplanes to be restored. [91258]

Gillian Merron: We continue to discuss with the aviation industry at all levels the operational implications of the current security measures and are working to identify as quickly as possible any practical steps that can be taken to lessen the operational burden while not compromising security. We will be presenting new proposals to industry representatives this week with the aim of lessening the burden on both passengers and operators.

Kate Hoey: To ask the Secretary of State for Transport what assessment has been made of the effect of the ban on normal size hand luggage from aeroplanes. [91259]

Gillian Merron: All measures are under constant review and we are gathering data on the current measures through our ongoing compliance activity. This is informing our urgent consideration of how the present arrangements might be adjusted.

Channel Tunnel (Freight Trains)

Mrs. Dunwoody: To ask the Secretary of State for Transport what estimate his Department has made of the number of jobs that would be lost in freight yards at Crewe and Dollands Moor if subsidies for freight operating companies using the Channel Tunnel are withdrawn; what the cost for freight trains using the Channel Tunnel *(a)* is until 30 November and *(b)* will be after 30 November; and if he will make a statement on the plan to withdraw their subsidies. [91229]

Mr. Tom Harris: The Department has made no estimate of the number of jobs that would be lost at Crewe and Dollands Moor rail freight yards if subsidies for freight operating companies using the Channel Tunnel are withdrawn.

Under agreements signed between 1994 and 1996 and extended in June 2005 until 30 November 2006, the British Railways Board is responsible for paying Eurotunnel approximately £26 million per year on behalf of the rail freight company English Welsh and Scottish Railway International (EWSI) for guaranteed Minimum Usage Charges in respect of rail freight flows through the Channel Tunnel.

If EWSI continues to run freight trains through the Channel Tunnel under the terms of the existing usage contract after the funding agreement expires on 30 November 2006 it will be obliged to pay Eurotunnel usage tolls and operating expenses for the trains it operates. The charges for this will vary according to the number and type of services run each year.

Cycling

Mr. Bone: To ask the Secretary of State for Transport if he will bring forward proposals to make it compulsory for children to wear safety helmets when riding bicycles. [91214]

Dr. Ladyman: We believe that it is sensible for cyclists, and especially children, to protect themselves by wearing a cycle helmet and it is our policy to encourage helmet wearing on a voluntary basis.

At current helmet wearing rates, making them compulsory would cause enforcement difficulties and, without greater public acceptance, could have an adverse effect on the levels of cycling. However, compulsion remains an option that we keep under review.

Mr. Bone: To ask the Secretary of State for Transport how many *(a)* adult and *(b)* child cyclists were (i) injured and (ii) killed in each of the last 10 years. [91217]

Dr. Ladyman: The number of adult and child cyclists, injured and killed, in the years up to 2004 are published in table 8.2 of Transport Statistics Great Britain: 2005. Cyclist casualties for 2005 are published in table 2 of Road Casualties Great Britain: Main results 2005.

Copies of these publications are in the Libraries of the House.

Disused Railways

Mr. Greg Knight: To ask the Secretary of State for Transport (1) what feasibility studies he has carried out to investigate whether any stretch of disused railway could be utilised as a highway to reduce congestion; and if he will make a statement; [91161]

(2) how many miles of disused railway track bed are undeveloped and available for sale or for an alternative use; [91162]

(3) what trials *(a)* have taken place and *(b)* are scheduled to take place on the feasibility of allowing cars to use disused rail lines; where such trials are taking place; and when he expects an evaluation to be carried out. [91163]

Mr. Tom Harris: We estimate that there are fewer than 100 miles of redundant trackbed that has not been either retained for possible future use or sold. Much of what remains comprises small parcels of land unsuitable for conversion into roads. The Department has not therefore carried out any recent studies into the possibility of using any of this land in this way.

Rail Services

Bob Russell: To ask the Secretary of State for Transport if he will hold an inquiry into *(a)* incidents in (i) late August and (ii) early September involving lengthy delays for passengers using rail services between London Liverpool Street and Colchester and *(b)* the condition and maintenance of the railway track between London Liverpool Street and Colchester; and if he will make a statement. [91210]

Mr. Tom Harris: One, the Train Operator concerned, and Network Rail have advised that investigations so far indicate the delays were caused by failures of the overhead power lines. They have taken a number of immediate steps to ensure the failures do not recur. Meanwhile they are continuing their investigations with a view to identifying any further measures necessary to achieve a permanent solution.

Road Schemes

Mr. Hollobone: To ask the Secretary of State for Transport if he will meet *(a)* the Transport Chair of the East Midlands Regional Assembly, *(b)* the hon. Member for Kettering and *(c)* a small delegation of other interested parties from Northamptonshire to discuss the prioritisation of major road schemes and the working of the Regional Funding Allocation Mechanism. [91108]

Dr. Ladyman: The hon. Member should contact my office and a meeting will be arranged.

Rural Speed Limits

Mr. Drew: To ask the Secretary of State for Transport what plans he has to reduce maximum speeds on rural roads. [91205]

Dr. Ladyman: There are no plans to reduce the national maximum speed limit on rural roads. However the Department published new guidance on setting local speed limits on 8 August 2006. This asks local traffic authorities to review speed limits on their A and B roads, and implement any necessary changes by 2011.

Lower speed limits are encouraged where the safety evidence or characteristics of the road warrant them. But equally local traffic authorities should consider increasing limits if it is warranted and can be done safely.

Taxi/Private Vehicle Licensing

Mr. Sanders: To ask the Secretary of State for Transport when the guidance will be published in response to the taxi and private vehicle licensing consultation which closed in October 2005. [91106]

Gillian Merron: Best practice guidance will be issued to taxi and private hire vehicle licensing authorities in due course, following completion of consideration of the results of last year's consultation.

Traffic Accidents

Andrew Selous: To ask the Secretary of State for Transport what proportion of all traffic accidents in England and Wales involved foreign registered lorries in each of the last three years. [91117]

Dr. Ladyman: In England and Wales in 2005 the proportion of personal injury road accidents reported to the police involving foreign registered lorries is 0.58 per cent. Data on foreign registered vehicles were not collected prior to 2005.

Vehicle Insurance

Mr. Stewart Jackson: To ask the Secretary of State for Transport what estimate he has made of the number of uninsured vehicles in the United Kingdom since May *(a)* 2004, *(b)* 2005 and *(c)* 2006; and if he will make a statement. [91085]

Dr. Ladyman *[holding answer 13 September 2006]*: Our latest estimate (2005) is based on a comparison of the Vehicle register, maintained by the Driver and Vehicle Licensing Agency (DVLA), and the Motor Insurance Database. It is that there are about 2 million vehicles (about 6 per cent. of the UK vehicle fleet) being driven by uninsured drivers. There are no similar comparisons for earlier years.

In order to strengthen enforcement activity to tackle motor insurance evaders we introduced two new measures last year. First, to give the police improved access to the Motor Insurance Database to enhance their capability to detect uninsured driving by using Automatic Number Plate Recognition (ANPR) equipment.

Second, powers to allow the police to seize vehicles being driven uninsured. Both these measures are proving effective with the police seizing nearly 600 uninsured vehicles a week.

In addition we are seeking powers in the Road Safety Bill to introduce a scheme of Continuous Insurance Enforcement which would enable us to enforce the requirement for motor insurance from the record. This means that rather than having to rely on spotting an uninsured vehicle on-road we can identify, from the database, vehicles where insurance policies have lapsed and not been renewed. This will enable us to target all such evaders, rather than just the necessarily smaller numbers that it is possible to identify on-road.

Yorkshire and Humber Regional Transport Board

Mr. Greg Knight: To ask the Secretary of State for Transport when he next expects to meet members of the Yorkshire and Humber Regional Transport Board; and what matters he plans to discuss. [91160]

Gillian Merron: The Secretary of State has no plans to meet members of the Yorkshire and Humber Regional Transport Board.

Written Answers to Questions

The following answers were received between Tuesday 19 September and Friday 29 September 2006

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions she has had with her NATO counterparts on the situation in Afghanistan; and what requests have been made for additional support from NATO allies for the International Security Assistance Force in Afghanistan. [91222]

Dr. Howells *[holding answer 13 September 2006]:* My right hon. Friend the Foreign Secretary has had regular and wide ranging discussion with colleagues from a number of NATO member states. These discussions have included the situation in Afghanistan. As a NATO-led operation, it is for the Alliance to find collectively the forces the International Security Assistance Force (ISAF) needs. As the NATO Secretary-General has said, nations should deliver what they have all agreed ISAF ought to have. Work is of course ongoing to ensure that the necessary capabilities are in place.

Convention on Certain Conventional Weapons

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs whether officials from her Department will be seeking agreement on a mandate for future negotiations on cluster munitions at the Review Conference to the Convention on Certain Conventional Weapons in November. [91192]

Mr. McCartney *[holding answer 18 September 2006]:* No. The UK's priority for the 3rd Review Conference to the Convention on Certain Conventional Weapons (CCW) in November is to finalise a Protocol on Mines Other Than Anti-Personnel Mines (Anti-vehicle mines). We believe that the work on Explosive Remnants of War should continue on the basis of the current mandate. If achieved, progress on these two areas should ensure the continued success of the CCW. On cluster munitions, a recent study commissioned by CCW member states concluded that International Humanitarian Law is adequate.

Falkland Islands

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government have taken to meet its commitment under article 5 of the Mine Ban treaty to clear minefields in the Falkland Islands by 1 March 2009. [91190]

Mr. McCartney *[holding answer 18 September 2006]:* The UK is committed to its obligations under the Ottawa convention (Mine Ban treaty). In 1999 the United Kingdom and Argentine Governments agreed as a confidence-building measure to

"work together to evaluate the feasibility and cost of clearing the land mines still present in the Falkland Islands".

This co-operation has been welcomed by other states parties to the treaty. The feasibility study is largely to be funded by Argentina, on the principle that almost all the mines are theirs. Against the background of the sovereignty dispute and the Argentine financial crisis in 2001, the negotiations have been long and complex. After much hard work they resulted in July 2006 in agreement on the modalities for completing a survey of the Falkland Islands and the final report of the feasibility study during the next austral summer. Only when the feasibility study has been completed will we be in a position to decide on the best option available to enable us to meet our Ottawa obligations.

Iraq

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment she has *(a)* made and *(b)* received from coalition partners of the likelihood of a civil war in Iraq. [91219]

Margaret Beckett *[holding answer 18 September 2006]:* The potential danger of a slide into civil war in Iraq is something that concerns us all, but while there is a high level of sectarian conflict in the country, civil war is neither imminent nor inevitable. Our coalition partners and the Government of Iraq agree with this assessment.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment she has made of progress in the political, economic and social conditions in the Iraqi provinces of *(a)* Al Basra, *(b)* Al Muthanna, *(c)* Dhi Qar and *(d)* Maysan. [91220]

Dr. Howells *[holding answer 13 September 2006]:* Progress is being made on the political, economic and social fronts in the four southern provinces but is inevitably linked to and dependent on progress in security.

The handover of security responsibility to Iraqi security forces has started in the South, demonstrating Iraq's progress in building up its political institutions, its security capacity and its commitment to economic development and delivery of basic services. Transition to Provincial Iraqi control took place in Al Muthanna on 13 July 2006, and the Governor and elected local authorities in Dhi Qar will take over responsibility for security before the end of this month. The political situation in Maysan has improved, with the Governor and Provincial Council working with the multi-national force to ensure the province is ready to transition as soon as possible.

In Basra, despite some difficulties in relations with the Governor, co-operation with the Provincial Council and the Governor himself has continued, particularly in building the capacity of the security forces and the civil authorities. We are working with the Iraqi security forces to implement Prime Minister Maliki's Basra

Security Plan, led by General Ali Hammadi. The training and mentoring of the Iraqi Police Service remains a priority in Basra with a focus on developing better leadership capacity, Command and Control structures, and specialist skills. The Basra Provincial Reconstruction Team is working with the Basra authorities to develop and implement economic, governance and reconstruction projects. Improved security would help deliver a range of investment, employment and economic opportunities.

Data on social conditions in Iraq are patchy and often only available at a national level. Major surveys due shortly from the UN and from the World Bank will add to our understanding. However the UK is working closely with the Government of Iraq and international organisations to improve the infrastructure, including electricity and water supply. Further information can be found on the Foreign and Commonwealth Office website at: http://www.fco.gov.uk/servlet/Front?pagename=OpenMarket/Xcelerate/ShowPage&c=Page&cid=1057782556187.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 25 July 2006, *Official Report*, column 1267W, on Iraq, what further progress has been made by the Joint Committee to transfer security responsibility in Iraq; and what discussions the Government have had with *(a)* United States and *(b)* Iraqi counterparts on the withdrawal of British troops from Iraq. [91221]

Margaret Beckett *[holding answer 18 September 2006]:* Following the transfer of security of Al Muthanna province to Iraqi control on 13 July, the Joint Committee to Transfer Security Responsibility recommended to the Prime Minister of Iraq and the Iraqi Ministerial Committee on National Security, that the Province of Dhi Qar transfer to Iraqi security responsibility. On 31 August 2006, the Government of Iraq announced that this transfer would go ahead. We expect a formal handover ceremony before the end of this month. The assessment process continues and the committee makes regular recommendations in respect of the transfer of further areas to Iraqi provincial control.

The UK has regular discussions with all coalition partners in the Multinational Force (MNF), including the US, and meets regularly to discuss all aspects of MNF issues with the Iraqi Government. UK troops will remain in Iraq until the conditions for drawdown are right.

Israel

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions she has had with the *(a)* Israeli Government and *(b)* US Administration about the use of (i) cluster munitions and (ii) other weapons, components and military equipment in the (A) recent conflict in Israel and Lebanon and (B) Occupied Territories over the past three months. [91194]

Mr. McCartney *[holding answer 18 September 2006]:* My right hon. Friend the Foreign Secretary has not had discussions with the Israeli or US Governments about the use of cluster munitions or other military equipment in Lebanon, Israel or the Occupied Territories. Our embassy in Tel Aviv has recently sought clarification from the Israeli Government about their current policy on the use of cluster munitions. All countries must ensure their usage of all weapons is consistent with International Humanitarian Law.

Sudan

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions she has had with her *(a)* United Nations, *(b)* European Union and *(c)* United States counterparts on the situation in Darfur; what assistance the UK has offered in support of the implementation of United Nations Security Council resolution 1706; what representations she has made to the Sudanese authorities on accepting resolution 1706; and if she will make a statement. [91047]

Margaret Beckett *[holding answer 13 September 2006]:* The UK played a leading role in the UN Security Council's decision to adopt UN Security Council resolution (UNSCR) 1706 on 31 August. A UK military officer has been seconded to the UN Secretariat to assist in planning for the deployment of a UN force. My noble Friend the Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs, Lord Triesman of Tottenham, has spoken to the Sudanese Foreign Minister and publicly called on the Sudanese Government to accept UNSCR 1706. Both my right hon. Friend the Secretary of State for International Development and our ambassador in Khartoum have met with representatives from the Sudanese Government to press them to accept a UN force for Darfur. We have discussed the situation in Darfur with other members of the Security Council, the EU, the African Union, the Arab League and other key international actors, and urge all those with influence over the Sudanese Government to help persuade Khartoum to accept UNSCR 1706. I raised this personally with the Egyptian Government and the Secretary-General of the Arab League during my recent visit to Cairo.

UN Small Arms & Light Weapons Review Conference

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions she has had with representatives from the Canadian Government regarding an inter-sessional meeting of states next year following this year's UN Small Arms and Light Weapons Review conference. [87175]

Dr. Howells: My right hon. Friend the Foreign Secretary has had no discussion with the Canadian Government about their proposal for an informal inter-sessional meeting of states next year on Small Arms and Light Weapons transfer controls. However, we are ready to consider proposals that strengthen implementation of the UN Programme of Action.

HEALTH

Civil Servants

John Mann: To ask the Secretary of State for Health how many civil servants are employed by the Department *(a)* in and *(b)* outside London. [73186]

Mr. Ivan Lewis: The information requested is shown in the following table, as at 1 April 2005.

Full-time equivalent

	Number
London	1,460
Outside	840

Road Accidents (Compensation)

Mr. Amess: To ask the Secretary of State for Health how much money was recovered by hospitals from insurers towards the cost of treatment of persons injured in road accidents in each of the last 10 years for which figures are available. [83767]

Ms Rosie Winterton *[pursuant to the reply, 24 July 2006, Official Report, c. 1122W]:* I regret the costs of providing treatment to victims of road traffic accidents recovered in 2005-06 given in my previous reply is incorrect. It should read £121,500,568 not £121,500.

Letter from Rosie Winterton, dated 23 September 2006:

I regret that the information in my reply to your Parliamentary Question on 24 July 2006 (UIN 83767) about the costs of providing treatment to victims of road traffic accidents (Official Report Volume 449 Column 1122W - copy attached) was incorrect. This was due to an administrative error.

The table in the answer indicated that the amount recovered for the cost of providing treatment to victims of road traffic accidents for 2005-06 was £121,500. This figure should read £121,500,568.

I attach the correct table and am arranging for the Official Report to be amended.

I apologise for the inconvenience caused.

	Amount recovered (£)
1999-2000	30,046,572
2000-01	75,847,629
2001-02	98,278,603
2002-03	105,025,336
2003-04	105,654,936
2004-05	117,504,738
2005-06	121,500,568

Sexually Transmitted Diseases

Mr. Lansley: To ask the Secretary of State for Health how many cases of *(a)* HIV, *(b)* chlamydia, *(c)* gonorrhoea, *(d)* syphilis, *(e)* genital warts and *(f)* genital herpes there have been in England in each year since 1979. [90991]

Mr. Ivan Lewis *[holding answer September 2006]:* The number of cases of chlamydia, gonorrhoea, syphilis, genital warts and genital herpes diagnosed in genitourinary medicine (GUM) clinics in England from 1979 to 2005, are shown in table one. The numbers of individuals newly diagnosed with HIV in England, by year of diagnosis, are shown in table two. HIV diagnoses include those made in GUM clinics as well as other settings such as infectious disease units and general practice. The following documents have also been placed in the Library:

Communicable Disease Report: Sexually transmitted diseases in England and Wales: 1981-1990;

Trends in sexually transmitted infections in the United Kingdom 1990-1999: New episodes seen at genitourinary medicine clinics; and

Sexually Transmitted Infections in the UK: New episodes seen at Genitourinary Medicine Clinics 1991-2001.

Table 1: Number of diagnoses for selected conditions made at genitourinary medicine (GUM) clinics in England: 1979-2005

	Condition				
	Syphilis[1]	Gonorrhoea	Chlamydia[2]	Herpes[3]	Warts[3]
1979	*2,488	54,466			
1980	*2,512	53,783			
1981	*2,279	51,663			
1982	*2,145	51,615			
1983	*1,934	47,911

1989	*391	17,694	30,446	12,403	50,954
1990	*335	17,054	30,364	12,547	49,517
1991	*348	16,483	30,504	13,274	52,674
1992	*338	12,369	28,554	14,017	51,124
1993	*337	9,926	26,381	14,621	48,893
1994	*304	9,644	27,698	15,347	49,052
1995	132	9,962	29,286	15,044	51,289
1996	116	11,929	32,521	15,192	54,652
1997	147	12,399	38,839	15,079	58,711
1998	131	12,535	43,912	15,815	59,681
1999	211	15,549	50,960	15,880	61,157
2000	322	20,494	61,370	16,147	60,661
2001	717	22,398	68,180	17,054	62,423
2002	1,196	24,357	78,117	17,510	63,938
2003	1,532	23,489	85,399	17,127	65,185
2004	2,033	20,779	92,948	16,952	68,217
2005	2,578	17,880	96,204	17,589	68,824

[1] Data for 1979 to 1994, marked with * are for primary, secondary and early latent syphilis and cannot be separated. From 1995, data are for primary and secondary syphilis only.
[2] Data for chlamydia is available from 1988 onwards. Prior to 1988, chlamydia was recorded as part of the non-specific genital infections
[3] The numbers for genital warts and herpes infections from 1988 are for first attack cases. Prior to 1988 data was collected for first attack and recurrent cases together.

Vaccines (Sleeping Contracts)

Mr. Lansley: To ask the Secretary of State for Health what progress has been made on the placing of sleeping contracts for vaccines for use in the event of an influenza pandemic since her Department's chief medical officer issued tenders for the sleeping contracts on 19 October 2005. [91115]

Ms Rosie Winterton *[holding answer 18 September 2006]*: Considerable progress has been made on the subject of sleeping contracts, and the Department is still within the time available to us. Under the procurement directives, before negotiations are required to be completed.

MINISTER FOR WOMEN

Official Visits

David Simpson: To ask the Minister for Women and Equality on how many occasions she has visited each region in an official capacity in the last 12 months. [83908]

Meg Munn: Since being appointed in May 2006 the Minister for Women and Equality has visited Yorkshire and the Humber once, the east of England once and the south west once.

COMMUNITIES AND LOCAL GOVERNMENT

Arm's Length Management Organisations

Mr. Rogerson: To ask the Secretary of State for Communities and Local Government how much of each of the grants for arm's length management organisations has been spent. [71026]

Yvette Cooper: Funding under the arm's length management organisation (ALMO) programme is allocated in the form of borrowing approvals to enable local authorities to bring their housing stock up to the decent homes standard. This funding is additional to the local authority's existing resources and is allocated in two year tranches. An ALMO must attain a 2* inspection rating from the Housing Inspectorate in order to qualify for funding.

Since 2001 there have been five bidding rounds for ALMO funding. Funding is confirmed in two year tranches. Most ALMOs accepted onto the first bidding round have received and spent all their allocations. ALMOs on subsequent bidding rounds have yet to receive all their allocations. ALMOs on the most recent bidding round are not yet in receipt of funding as they have hitherto not been inspected by the Housing Inspectorate.

The following table sets out how much ALMO funding each ALMO has spent up to the end of the last financial year and total funding confirmed to date.

Arms length management of local authority housing

£

Wear Valley	—	11,817,000
Total	—	465,251,000
Programme total	1,805,650,730	3,343,087,809

Brownfield Sites (London)

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government how many brownfield sites there are in each London borough. [87243]

Yvette Cooper: The information requested is not available centrally and could be provided only at disproportionate cost. The National Land Use Database of Previously-Developed Land provides estimates of total amounts of previously-developed land. The local authorities which provide the data make an allowance for small sites but these are not recorded individually, so that it is not possible to give an estimate of the total number of sites.

Business Rates

Andrew George: To ask the Secretary of State for Communities and Local Government how many *(a)* second and *(b)* holiday homes were liable for business rates in each collecting local authority area in (i) 1995, (ii) 2000, (iii) 2005 and (iv) 2006. [71604]

Mr. Woolas: I have placed in the Library of the House a table showing the number of properties in the rating lists described as "self catering holiday accommodation" at March each year from 2000 to 2005. Equivalent data for the period before 2000 are not readily available and figures for 2006 are not yet available.

Empty Dwellings

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what advice her Department has taken on whether Empty Dwelling Management Orders would breach Article 1 of the First Protocol of the European Convention on Human Rights. [83027]

Yvette Cooper: During the drafting of all legislation the Government has available to it legal resources and the Housing Bill was no different. The Bill was scrutinised by the Joint Committee on Human Rights and the appendix to that Committee's 20th report published on 20 October 2004 contains a memorandum at appendix 2a from the right hon. Lord Rooker in which he explains how the Government consider the provisions on empty dwelling management orders are consistent with the European Convention on Human Rights, and in particular, to Article 1 of the First Protocol and to Article 6. The Government are satisfied that the provisions on empty dwelling management orders are fully compatible with the Convention. A statement as to compatibility was made in both Houses and the Government's view has not changed.

Euro-preparation Group

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the minutes of the local authorities' euro preparation group of 21 February 2006. [70590]

Mr. Woolas: The meeting of the local authorities' euro preparation group held on 21 February 2006 was a private meeting arranged jointly by HM Treasury and the Chartered Institute of Public Finance and Accountancy's (CIPFA) Euro Advisory Service. The minutes are only available to the attendees and the local authority subscribers to the CIPFA Euro Advisory Service.

High Bickington Community Property Trust

Mr. Cox: To ask the Secretary of State for Communities and Local Government what account she took of the Government's declared aim in respect of affordable housing in rejecting the application of High Bickington Community Property Trust for consent to build affordable homes in that village. [74635]

Yvette Cooper: The Secretary of State's decision letter of 9 May sets out in detail the reasoning behind the decision. I know that the hon. Member already has a copy of this letter—I have also placed a copy in the House Libraries. Now that this decision has been issued, the Secretary of State has no further jurisdiction in the matter and it would not be appropriate to comment further on the particular merits of the proposal.

Home Information Packs

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the penalty will be for marketing a home without a home information pack. [83075]

Yvette Cooper: Where enforcement officers decide to take action following a breach of the home information pack duties, they will have the option of serving a penalty charge notice. The penalty charge is set at £200 in the Home Information Pack Regulations 2006 and could be repeated for an on-going breach. Where the breach is committed by an estate agent, the case could be referred to the Office of Fair Trading (OFT). The OFT may then consider using existing powers to issue a banning order requiring the agent to cease trading and we regard this as the main deterrent.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assessment the Government has made of the cost of a Home Condition Report in London for a *(a)* three bedroom semi-detached house, *(b)* two bedroom flat and *(c)* four bedroom house (i) including and (ii) excluding VAT. [85713]

Yvette Cooper: The Home Condition Report (HCR) is similar to the existing mid-range survey on the market, The Homebuyers Survey and Valuation. In the current market these cost £400 on average (or £484.85 including VAT). The cost of the HCR will be determined by the market and this will depend, as now, on the size, condition and location of the property. However, we expect competition will push prices down. One provider has said they intend to provide Home Information Packs, including the Home condition Report, free of charge.

Housing

Michael Gove: To ask the Secretary of State for Communities and Local Government if she will take steps to ensure high aesthetic standards in new housing developments; and what discussions she had with the Commission on Architecture and the Built Environment on this issue. [72424]

Yvette Cooper: The Government have taken a number of steps to raise design standards, including for new housing developments. Planning policy and guidance has been strengthened to require good design. This has been backed by additional work to encourage innovation, to provide capacity building and support and to promote the take-up of good practice. We are now looking to see better delivery at the local level.

Our policy in "Planning Policy Statement 1: Delivering Sustainable Development" (PPS1) sets out general principles and policies for planning, and makes it clear that good design is indivisible from good planning. PPS1 needs to be taken into account by all planning authorities in the preparation of development plans and it may also be material to decisions on individual planning applications. The policy is supported by good practice guidance such as "By Design—better places to live and Safer Places—the Planning System and Crime Prevention". We have also tested out new tools to help deliver quality developments, including piloting the use of Design Coding.

On 12 April 2006 I also announced additional measures to encourage good design. Most types of planning application will now have to be accompanied by a design and access statement. This will explain how high quality design and issues such as disabled access have been addressed in the proposal and more importantly help local planning authorities ensure new developments are of a high quality. This will give local communities a greater understanding of what is proposed, what might eventually be built and therefore a greater opportunity to contribute to the planning process.

The Government are also promoting innovation through a series of schemes, such as the Millennium Communities programme and the Design for Manufacture competition which has resulted in practical lessons for the house-building industry, including how to reduce construction costs while retaining high standards of quality as well as how to build houses at a high density. The competition also suggests further opportunities to cut costs and improve design for social housing, making it possible to build more homes.

Work continues to provide support and reward success, particularly through spreading of best practice and improving design skills. The Government support the Commission for Architecture and the Built Environment (CABE). Their work to promote the adoption of design champions within local authorities and at a senior level within the mass house builders, the design training programmes which they deliver, and their advice on specific development proposals are all making an important contribution to raising standards. The Department for Communities and Local Government (DCLG) Housing Design Awards recognises those partnerships that have delivered exemplary housing developments, large and small.

To overcome skills barriers, the Government have recently established a new Academy for Sustainable Communities. This is working with others to deliver the cutting edge skills and knowledge to make better places for people now and in the future.

CABE is the Government's advisor and champion for improving urban design, and therefore DCLG Ministers and officials meet with CABE for a variety of reasons. I hosted a seminar in February 2006 to discuss improving housing design quality, where CABE presented the findings of their recent Housing Audits. CABE are also closely involved in the development of the Thames Gateway Strategic Framework and presented progress on their work at a meeting I chaired on 13 July 2006.

Mr. Love: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 30 March 2006, *Official Report*, column 1214W, on housing, if she will list the funding streams contributing to the figure of £4.1 billion spent on housing capital investment in 2004-05. [73458]

Yvette Cooper: The £4.1 billion includes funding for: Arms Length Management Organisations, Disabled Facilities Grant, Major Repairs Allowance, Private Sector Housing Renewal, Local Authority Supported Capital Expenditure, Local Authority Capital Grants, Estate Action, Housing Action Trusts, Gap Funding, Housing Market Renewal Pathfinders and the Housing Corporation's Affordable Housing Programme.

Joan Ruddock: To ask the Secretary of State for Communities and Local Government (1) how many households were registered homeless in *(a)* Lewisham, Deptford constituency and *(b)* Lewisham borough in 1997; and how many households are registered homeless in (i) Lewisham, Deptford constituency and (ii) Lewisham borough; [79160]

(2) how many households were in temporary accommodation in 1997 in *(a)* Lewisham, Deptford constituency and *(b)* Lewisham borough; and how many households are currently in temporary accommodation in (i) Lewisham, Deptford constituency and (ii) Lewisham borough; [79161]

(3) how many individuals are sleeping rough in *(a)* Lewisham, Deptford constituency and *(b)* Lewisham borough. [79162]

Yvette Cooper: Information about local authorities' actions under homelessness legislation is collected quarterly, at local authority level. The constituency of Lewisham, Deptford is wholly contained within the London borough of Lewisham.

Only partial information was reported by Lewisham during 1997-98. The number of households reported as eligible for assistance, unintentionally homeless and in priority need between 1998-99, and 2005-06, along with the reported number of households in temporary accommodation arranged by the council under homelessness legislation as the end of those years, is tabled as follows.

Information is also collected on the number of people who sleep rough—that is, those who are literally roofless on a single night. No count was undertaken by Lewisham prior to 1999, but figures for June 1999 and the latest available figures, for 2005, are also presented in the table.

The duty owed to a person accepted as eligible for assistance, unintentionally homeless and in priority need is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available. As an alternative to the provision of temporary accommodation some authorities arrange for households to remain in their current accommodation (homeless at home), until a settled solution becomes available.

Households accepted as homeless during the quarter, and households in temporary accommodation at the end of the quarter, in the London borough of Lewisham

	Accepted as homeless[1]	*In temporary accommodation*[2]	*Rough sleeping (persons)*[3]
1998-99	1,085	613	Not available
1999-2000	1,248	775	[4]2
2000-01	Not complete	Not available	[5]6
2001-02	1,102	Not available	[6]3
2002-03	1,170	1,243	[7]1
2003-04	1,502	1,640	[8]0
2004-05	1,245	1,847	[8]0
2005-06	1,097	2,284	[9]3

[1] All households eligible under homelessness legislation, found to be unintentionally homeless and in a priority need category, and consequently owed a main homelessness duty.

[2] Households in accommodation at the end of the year (March) either pending a decision on their homelessness application or awaiting allocation of a settled home following acceptance. Excludes those households designated as "homeless at home" that have remained in their existing accommodation and have the same rights to suitable alternative accommodation as those in accommodation arranged by the authority.

[3] Number of persons sleeping rough are based on local authority counts during the year and presented as a mid-year estimate. If no count takes place during the year an estimate is given by the local authority.

[4] Mid-year 1999.

[5] Mid-year 2000.

[6] Mid-year 2001.

[7] Mid-year 2002.

[8] Estimate.

[9] Mid-year 2005.

Source:
DCLG P1E Homelessness (quarterly) and HSSA (annual) returns.

Mr. Laws: To ask the Secretary of State for Communities and Local Government how much was allocated per head of population by the Housing Corporation to *(a)* Yeovil constituency, *(b)* Somerset and *(c)* the south west in the last period for which figures are available. [82134]

Yvette Cooper: The table shows the funding per head based on allocations through the Housing Corporation's Affordable Housing programme for 2006 to 2008 in relation to 2004 mid year population estimates for the south west region and Somerset from the Office of National Statistics. Allocating within regions follow the recommendations of the Regional Housing Board as well as reflecting the quality of bids which come in from individual areas.

Region	2004 mid year population estimates (ONS)	Affordable housing programme allocated funding 2006 to 2008 (£ million)	Funding per head (£)
South West	5,038,000	281	55.78
Somerset[1]	512,500	20.8	40.51

[1] Somerset includes Mendip district council, Sedgemoor district council, South Somerset district council, Taunton Deane borough council and West Somerset district council.

Information is not available at constituency level.

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government how many psychiatric patients have been discharged from hospital into *(a)* temporary accommodation and *(b)* council housing in each London borough in each of the last five years. [87245]

Yvette Cooper: Although psychiatric patients should not be discharged as homeless, some may nevertheless self-discharge and not have accommodation available to them. People may be discharged to temporary accommodation as part of a plan agreed between mental health services and housing departments, but this is not recorded as part of routine monitoring.

Information collected by my Department about households accepted by local authorities as unintentionally homeless and in a priority need group identifies those where the applicant or a household member was vulnerable as a result of mental illness or disability. National results for years since 1997 are presented in table 4 of the quarterly Statistical Release on homelessness, first quarter of 2006, published on 12 June. However, information on the number of these who had been former psychiatric patients, and whether they were subsequently allocated temporary accommodation or a settled tenancy, is not available centrally.

Andrew George: To ask the Secretary of State for Communities and Local Government when she plans to respond to the recommendations of the Affordable Rural Housing Commission. [91083]

Yvette Cooper *[holding answer 13 September 2006]:* The Government are already taking forward many of the recommendations of the Affordable Rural Housing Commission. Its proposals are being fed into a series of progress of work including the Comprehensive Spending Review and the forthcoming planning policy statement on housing. We will also shortly be setting up a website on which we will post progress we are making towards improving access to affordable housing in rural areas and examples of best practice in the light of the Affordable Rural Housing Commissions report.

Hugh Bayley: To ask the Deputy Prime Minister how much the Government has spent on building social housing; and how many new social housing units were completed in each of the last 20 years. [62115]

Yvette Cooper I have been asked to reply.

Government capital provision through local authorities and the Housing Corporation for both new and existing housing since 1986 is as follows:

	£ million
1986-87	2,296
1987-88	2,327
1888-89	2,252
1989-90	2,330
1990-91	3,031
1991-92	3,708
1992-93	4,267
1993-94	3,765
1994-95	3,169
1995-96	2,720
1996-97	2,432
1997-98	1,894
1998-99	2,098
1999-2000	2,173
2000-01	2,866
2001-02	3,312
2002-03	3,598
2003-04	4,685
2004-05	4,767
2005-06	5,213
2006-07	5,266
2007-08	5,628

Of this, expenditure through the Housing Corporation's Approved Development Programme on the provision of social rented housing is shown in the following table:

Expenditure on Social Rent Provision

	£ million
1992-93	1,492
1993-94	1,395
1994-95	1,106
1995-96	819
1996-97	707
1997-98	458
1998-99	451
1999-2000	525
2000-01	577
2001-02	647
2002-03	762
2003-04	1,175
2004-05	1,045
2005-06 (provisional)	933
2006-08 (estimate)	2,684

Source:
Housing Corporation.

Expenditure on social rent provision includes both new build and additions to the stock which are acquired and refurbished. Information is not available prior to 1992-93.

Information on the provision to local authorities cannot be sub-divided between new supply and other support for housing.

For the number of social housing units made available I refer the hon. Member to the answer given to the hon. Member for Yeovil, on 21 March 2006, *Official Report*, column 279W (Mr. Laws).

Hugh Bayley: To ask the Deputy Prime Minister how much has been spent on building new social housing for rent in each year since 1990. [62371]

Yvette Cooper: I have been asked to reply.

I refer the hon. Member to the answer to PQ no. 62115.

Sustainable Communities Conference

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the budgeted total cost to public funds was of the 2007 Sustainable Communities Conference. [86780]

Yvette Cooper: The 2007 Sustainable Communities Summit was planned as a self funding event. Forecast expenditures and revenues were both £4.3 million. Expenditures were to be recouped through exhibitor and sponsorship revenues and delegate fees.

Mr. Paice: To ask the Secretary of State for Communities and Local Government how many units of affordable housing were provided in rural areas in each year since 1997. [85130]

Yvette Cooper: The numbers of units of affordable housing provided to rural areas in each financial year since 1997-98 are in the table. Affordable housing supply data is available at local authority level therefore it is only possible to measure how many dwellings have been built in local authorities classified as rural using the Department for Environment, Food and Rural Affairs (DEFRA) rural definitions. This will include dwellings built in towns that are within a local authority classified as rural, but will not include dwellings built in small towns or villages within local authorities classified as urban.

Affordable dwellings provided in rural areas[1]

	Number
1997-98	14,466
1998-99	13,100
1999-2000	11,459
2000-01	11,259
2001-02	10,923
2002-03	11,056
2003-04	12,206
2004-05	11,901

[1] Figures prior to 2000-01 exclude dwellings provided solely through Section 106 'planning' agreements.

Source:
Housing Corporation, returns from local authorities to the Department for Communities and Local Government (HSSA and P2).

For further information on the DEFRA Rural Definition and Local Authority Classification please see: http://statistics.defra.gov.uk/esg/rural_resd/rural_definition.asp

Land Classification

Chris Huhne: To ask the Secretary of State for Communities and Local Government what estimate she has made of the *(a)* number and *(b)* area of sites designated as derelict land, broken down by region; and what the figures were (i) five and (ii) 10 years ago. [84058]

Yvette Cooper: The information available is from the National Land Use Database of Previously-Developed Land, which was carried out on an experimental basis in 1998 and annually from 2001. The estimates of area are shown in the following table. The local authorities which provide the data make an allowance for small sites but these are not recorded individually, so that it is not possible to give an estimate of the total number of sites.

Trends in amounts of derelict land and buildings

hectares

	1998	*2001*	*2002*	*2003*	*2004*
North East	1,660	1,860	1,630	1,520	1,430
North West	3,400	5,690	5,610	5,700	5,690
Yorkshire and the Humber	3,850	3,720	3,270	3,160	2,960
East Midlands	2,330	2,070	2,470	1,950	2,040
West Midlands	1,560	1,640	1,710	1,730	1,840
East of England	2,460	2,610	1,740	2,420	2,310
London	530	630	460	370	290
South East	1,310	1,310	1,430	1,440	1,410
South West	2,240	1,870	1,630	2,250	1,900
England	19,340	21,410	19,960	20,550	19,870

Source:
National Land Use Database of Previously-Developed Land

James Duddridge: To ask the Secretary of State for Communities and Local Government how much land was designated as *(a)* brownfield and *(b)* greenfield site in (i) Rochford district council area, (ii) Southend-on-Sea borough council and (iii) Rochford and Southend East constituency in each year since 1997. [84249]

Yvette Cooper: Information on amounts of brownfield land in each local authority is available from the National Land Use Database of Previously-Developed Land. There were data collections in 1998 and annually from 2001. The amounts of land reported by the local authorities are shown in the table attached. Information for the constituency, which cuts across

local authority boundaries, is not available except at disproportionate cost. Information on greenfield land available for development is not held centrally and could be provided only at disproportionate cost.

Amount of brownfield land by land type: Southend-on-Sea and Rochford 1998, 2001, 2002, 2003, and 2004

hectares

Land/building type	*1998*[1]	*2001*	*2002*	*2003*	*2004*
Rochford					
Vacant and derelict land and buildings	13	[2]	19	16	16
Currently in use with potential for redevelopment	2	[2]	5	3	4
Total	15	[2]	23	20	18
Southend-on-Sea					
Vacant and derelict land and buildings	5	82	79	3	0
Currently in use with potential for redevelopment	23	19	11	12	5
Total	28	101	90	15	5

[1] The 1998 specification of land currently in use allocated in the local plan or with planning permission included only housing sites.
[2] Not available.

Planning

Colin Challen: To ask the Secretary of State for Communities and Local Government when she plans to consult on reforms to Article 4 of the Town and Country Planning (General Permitted Development) Order 1995 better to protect land threatened with division into small plots; and if she will make a statement. [86275]

Yvette Cooper: The Government issued a consultation paper on this issue on the 1 August.

Relative Need

John Hemming: To ask the Deputy Prime Minister what the relative need factors are; and what value they have for the financial year 2006-07. [65414]

Mr. Woolas: I have been asked to reply.

The Relative Needs Formula are, based on the demographic, physical and social characteristics of each area, used in the calculation of Formula Grant. Formula Grant comprises Revenue Support Grant, Redistributed Business Rates and principal formula Police Grant.

In 2006-07, the total of all the Relative Needs Formula is factor of 0.67811309347259. The total for each of the separate Relative Needs Formula are given in Annex E of the Local Government Finance Report (England) 2006-07.

The Relative Needs Formula for each local authority can be found on the Department for Communities and Local Government website at:

http://www.local.communities.gov.uk/finance/0607/g:rant.htm

Water Conservation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer from the then Minister for the Environment to the hon. Member for Brentwood and Ongar (Mr. Pickles) of 4 May 2006, *Official Report*, columns 1732-3W, on water conservation resources, when a copy of the sustainability impacts study of additional house building scenarios in England will be placed in the Library. [85446]

Yvette Cooper: Copies of the sustainability impacts study of additional housing scenarios in England were placed in the Library on 27 April 2006. The report is also available on the Department for Communities and Local Government website at: http://www.communities.gov.uk/index.asp?id=1162086.

TREASURY

Poverty

Tim Farron: To ask the Chancellor of the Exchequer how many households in *(a)* England and Wales, *(b)* Cumbria, *(c)* Westmorland and Lonsdale, *(d)* urban areas and *(e)* rural areas were below the poverty line in each year since 1997. [88638]

Mr. Jim Murphy: I have been asked to reply.

Reliable information is not available below Government Office Region; the available information is in the tables.

Number of households in England and Wales living with less than 60 per cent. of the contemporary median household income, for the years 1996-97 to 2004-05

	Number of households (million)	
	Before housing costs	*After housing costs*
1996-97	3.8	5.5
1997-98	3.9	5.3
1998-99	3.9	5.4
1999-2000	3.9	5.3
2000-01	3.8	5.2
2000-02	3.8	4.9
2002-03	3.8	4.8

Number of households in England and Wales living with less than 60 per cent. of the contemporary median household income, for the years 1996-97 to 2004-05

	Number of households (million)	
	Before housing costs	*After housing costs*
2003-04	3.8	4.7
2004-05	3.7	4.4

Note:
All results shown for England and Wales are single-year values as sample sizes for England and Wales are large enough to support a robust single-year time-series.

Family Resources Survey

Scottish Transport Projects

Jo Swinson: To ask the Chancellor of the Exchequer what the current arrangements are regarding the accounting for value added tax by local authorities in Scotland for *(a)* road and *(b)* rail building projects. [91064]

John Healey: Where a local authority has responsibility for building or maintaining a road, any VAT incurred can be reclaimed from HM Revenue and Customs (HMRC).

Where the statutory obligations for road building are legally delegated to a local authority by the Scottish Executive, the local authority can recover from HMRC the VAT it pays to a road builder on the cost of the construction of the road, and the local authority does not charge VAT on any funding it receives from the Executive for the project.

However, if the local authority is engaged by the Executive as a contractor to supply the road, this is a service provided by the local authority to the Executive and VAT is chargeable by the local authority to the Executive.

The same principles would apply to railway building projects insofar as these involve local authorities.

VAT

Mr. Drew: To ask the Chancellor of the Exchequer if he will *(a)* reduce and *(b)* remove VAT on fruit drinks. [91206]

John Healey: Most foodstuffs are VAT zero-rated, saving consumers approximately £10.6 billion in the last financial year. This zero rate does not however extend to certain beverages, including fruit drinks, which have been subject to VAT since the decision to apply the standards of VAT in 1993. Under our agreements with our European partners, we are not able to extend existing VAT zero rates or introduce any new ones. It is therefore not possible to remove VAT from fruit drinks and other beverages.

These same agreements do allow the UK to introduce a reduced rate of VAT of not less than 5 per cent. for foodstuffs that are not already VAT zero-rated. While all taxes are kept under review, to date we have been sparing in our use of VAT reduced rates and have only applied them where the tax system offers the most effective and best-targeted support for our social objectives, when compared with other policy instruments. The 2004 Wanless report on public health highlighted difficulties in principle and practice in using the tax system to promote public health. To date, the Government have therefore focused resources to encourage healthy eating choices outside the tax system. This includes action and resources to provide classroom teaching of the benefits of good nutrition and a £235 million package to transform the quality of school meals, reflecting new nutritional standards for primary and secondary schools. Under the School Fruit and Vegetable Scheme all 4-6 year olds in LEA schools are entitled to a free piece of fruit or vegetable each school day. In 2007 a new telephone, online and digital television service is being introduced to support people of all ages in making healthier lifestyle choices.

INTERNATIONAL DEVELOPMENT

Angola

Andrew George: To ask the Secretary of State for International Development what *(a)* level of UK public investment and *(b)* plans for support his Department has in respect of the future reconstruction of Angola. [91082]

Hilary Benn *[pursuant to the reply, 13 September 2006, Official Report, c. 2358W]:* DFID was quoted as contributing £3.5 million to a UNICEF £18 million Southern Africa programme. This should have read:

"DFID's £18 million contribution to UNICEF for vulnerable children and orphans affected by HIV/AIDS in Southern Africa (of which Angola will receive around £3 million)."

I apologise for this error in the original answer.

Developing Countries

Andrew George: To ask the Secretary of State for International Development what assessment he has made of the merits of reforming the *(a)* World Trade Organisation and *(b)* International Monetary Fund to give developing countries more influence over the body's decision-making and policy formulation. [88794]

Hilary Benn: The World Trade Organisation (WTO) operates on a "one member, one vote" basis, and takes decisions by consensus. In effect, any country can veto

any decision. Developing countries also make up the majority of the WTO membership. While this gives developing countries more influence over the WTO's decision making process, the negotiating process is more complex in an organisation of just under 150 members.

We support the need to strengthen developing country voice and participation at the International Monetary Fund (IMF). We welcome the current debate on the governance of the IMF in the context of the Managing Director's Report on the Fund's Medium Term Strategy. This recognises the importance of governance reform for the continued effectiveness and credibility of the IMF. We support the central objectives of this reform to adjust the shares of member countries to reflect global economic changes and to strengthen the participation and voice of low income countries. We believe the influence of developing countries within the IMF can be bolstered by measures including strengthening their voting rights, increasing support for their representatives at the IMF Executive Board and by increasing discussion and debate at the international and country level. We look forward to continuing discussion on these issues at the Annual Meetings in Singapore.

EDUCATION AND SKILLS

Apprenticeships

Andrew Selous: To ask the Secretary of State for Education and Skills how many people applied for an electrical apprenticeship in the last year for which figures are available; and how many were accepted. [91119]

Mr. Dhanda *[holding answer 18 September 2006]*: Data on numbers of applications for each framework are not held centrally. The following table shows 2004/05 Apprenticeship starts for those frameworks with an electrical component in then

Sector framework title	*Total (starts)*
Electrical & Electronic Servicing	71
Electricity Industry	232
Electrotechnical	6,119
Heating, Ventilation, Air Conditioning and Refrigeration	992
Plumbing	4,621
Grand Total	12,035

Source:
WBL 2004/05 ILR, Learning & Skills Council.

Disability Equality Scheme

Mr. Marsden: To ask the Secretary of State for Education and Skills when he plans to publish the disability equality scheme for his Department; and in what formats it will be published. [91185]

Mr. Dhanda *[holding answer 18 September 2006]*: The Government are committed to improving the position of disabled people in society and believes that public bodies should take the lead in promoting equality of opportunity for all. In compliance with the Disability Discrimination Act 2005 my Department will publish its Disability Equality Scheme on 4 December 2006. It is our intention to publish the Scheme on our departmental website. Additionally we will provide versions in a range of formats including hard copy, large print, word with minimal tables, and Easyread. We will also respond to requests to reproduce the Scheme in Braille, Audio and other formats.

Identity Fraud

Mr. Evans: To ask the Secretary of State for Education and Skills what internal training courses on tackling identity fraud are provided to departmental staff who have access to members of the public's personal information. [86647]

Mr. Dhanda: I refer the hon. Member to the Written Answer I gave the hon. Member for Hemel Hempstead (Mike Penning) on 2 February 2006, *Official Report*, column 680W.

Plimsolls

Bob Spink: To ask the Secretary of State for Education and Skills (1) if he will issue advice to schools to enable children with medical needs to use special, rather than standard, plimsoll type footwear while at school; and if he will make a statement; [91242]

(2) if he will carry out research into *(a)* how many schools seek to enforce the use of standard plimsoll type footwear by pupils and *(b)* the impact of such enforcement on children with foot, knee and hip problems; and if he will make a statement; [91243]

(3) what guidance he issues to schools on that duty of care in respect of children with foot, knee and hip problems with regard to the footwear they are allowed to use while in school. [91244]

Mr. Dhanda *[holding answer 18 September 2006]*: Governing bodies determine school uniform and dress codes under powers conferred by the 1998 School Standards and Framework Act. In doing so they must comply with their duties under the Disability Discrimination Acts and consider what reasonable adjustments should be made for disabled pupils, some of whom will have medical conditions.

Schools and employers (either the local authority in the case of community and voluntary controlled schools or the school governing body in the case of a foundation or voluntary aided school) are responsible for developing their own policies on supporting individual children with medical needs. The Department has published a training resource for schools and local authorities "Implementing the Disability Discrimination Act in schools and early years settings" that provides schools and local authorities with practical tools to improve their effectiveness—both in making reasonable adjustments to include disabled pupils in all aspects of school life, and in reviewing and revising their plans for increasing access for disabled pupils to school premises and facilities, and the curriculum.

Pupil Performance

Mr. Brady: To ask the Secretary of State for Education and Skills if he will list the local education authorities in England in order of percentage of pupils achieving Level 7 in Key Stage 3 SATS in the 2005-06 academic year, stating in each case whether the local authority is selective, partially selective or comprehensive. [91068]

Mr. Dhanda *[holding answer 13 September 2006]:* The information requested has been placed in the House Libraries.

Student Transport Grants

Simon Hughes: To ask the Secretary of State for Education and Skills (1) what the *(a)* average and *(b)* maximum subsidy per student paid was to local education authorities for post-16 student transport grants for each local education authority for each year between 2001-02 and 2006-07; [91240]

(2) for how much each local education authority in England bid in respect of resources for transport grants for school and college students over the age of 16 years; and how much each received for each year between 2001-02 and 2006-07. [91241]

Mr. Dhanda *[holding answer 18 September 2006]:* No specific grants are provided by central Government to fund post 16 transport. Local authorities' responsibilities for transport provision and concessionary fares is funded through formula grant from central government (comprised in the main of Revenue Support Grant and National Non-Domestic Rates) and through income generated by councils, including council tax. Formula grant is not hypothecated to a particular service and councils are free to use the funding in line with the wishes of their electorate and taking into account their statutory responsibilities.

Amendments were made to the Education Act 2002 that placed a duty on local authorities to ensure that transport was not a barrier to students of sixth form age wanting to participate in FE. DfES does not provide direct funding for post 16 transport but has made available a small amount of funding to each local authority to enable them to meet their statutory duties by forming transport partnership groups and developing their local transport policies and transport arrangements. The overall DfES funding for each year is 2003/04 £14 million, 2004/05 £13 million, 2005/06 £12 million, 2006/07 £12 million.

Individual post-16 students are also able to access hardship funds from their school or college to help with costs of further education, including transport, and individual learners who receive education maintenance allowance may use an element of the allowance to contribute towards transport costs.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Avian Influenza

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what the Department's budget for preparation for an outbreak of avian influenza was in each year since 1997; and what outturn expenditure was in each such year. [91052]

Barry Gardiner *[holding answer 13 September 2006]:* Prior to 2005, preparedness costs for AI were not recorded separately from preparedness costs for other exotic animal health diseases.

For 2005-06 the outturn on AI preparedness was £9 million.

The forecast expenditure for AI preparedness in 2006-07 is currently £18 million.

Bovine Tuberculosis

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to control the impact of the spread of bovine tuberculosis on the British dairy and beef industry. [91080]

Mr. Bradshaw *[holding answer 13 September 2006]:* In line with the 'Government strategic framework for the sustainable control of bovine tuberculosis in Great Britain', we have made a commitment, to work in partnership with dairy and beef farmers, and with others, to reduce the geographic spread of bovine TB and achieve a sustained reduction in decrease in high incidence areas.

In March we introduced compulsory pre-movement testing of cattle in England to reduce the risk of spreading TB through cattle movements. The current legislation applies to cattle over 15 months of age moving from one and two year tested herds. Farmers are generally complying with the policy and TB reactors are being identified, so there is emerging evidence that the policy is helping to prevent disease spread. The policy is being kept under review to enable modifications, if necessary, prior to the planned implementation of phase 2 in March 2007 which will extend pre-movement testing to movements of cattle over 42 days old. DEFRA will continue to work closely with interested organisations during the introduction of phase 2.

To enhance our existing, and comprehensive, cattle testing programme we recently announced that from October 2006 the gamma interferon test will be used more extensively in England and Wales, alongside the skin test, in certain prescribed circumstances. Using both tests in this way can help to speed up the resolution of confirmed TB breakdowns by identifying as many infected cattle as possible at the earliest opportunity. Compensation is payable for animals which are caused to be slaughtered under section 32 of the Animal Health Act 1981.

We continue to make progress with our research on vaccine development. We have started testing candidate vaccines in naturally infected cattle and badgers, as well as work on developing novel vaccine delivery systems, and we have committed to future funding of approximately £5.5 million per annum for this.

No decisions have yet been made about badger culling to control bovine TB. Any decision needs to have a sound scientific and practical foundation and we do not yet have this. The evidence base is complex and a number of practical delivery issues need to be resolved. The strength of feeling on badger culling, as demonstrated by the 47,000 responses to the recent badger culling consultation, combined with the range of evidence, mean it is crucial that our decision is not rushed. My officials and I have been discussing the issue with interested groups to try to establish a shared understanding of the facts before we can make progress. We are not ruling anything in or out at this stage.

Finally, farmers also have a crucial role to play in preventing bovine TB—not only by complying with statutory policies designed to limit the spread of the disease but by ensuring they apply good biosecurity measures and suitable husbandry practices on their holdings.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment he has made of the incidence of bovine tuberculosis in cattle; what research he has conducted on the reasons for the trend; and how this research has been used to develop the strategy for tackling the disease. [90756]

Mr. Bradshaw *[holding answer 11 September 2006]:* Following a steady increase in the total number of new bovine tuberculosis (bTB) incidents over recent years, there has been a provisional 15 per cent. reduction in the number of new incidents in Great Britain from January to July 2006 compared with the same period in 2005.

The chief veterinary officer (CVO) has undertaken a review of the apparent reduction, drawing on detailed analyses carried out by epidemiologists from the Veterinary Laboratories Agency and DEFRA officials, comments from a group of independent experts convened by the chief scientific adviser, and views from farmers, practising vets and the state veterinary service. She concluded that whilst there has been a real reduction in the number of new TB incidents, it is too early to draw firm conclusions as to whether this is a temporary change or the start of a sustained trend. She also recognised that the reduction is likely to be caused by a complex combination of factors.

A summary of the analysis is included in a recent report by the CVO, which is available on the DEFRA website at:

http://www.defra.gov.uk/animalh/tb/pdf/cvo-tbstatement.pdf.

Further analysis will be carried out to try to reduce the level of uncertainty around these conclusions. Emerging findings will be used to inform policy development.

Cattle Valuations

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs by what means market valuations are derived for the purpose of cattle compensation. [91247]

Mr. Bradshaw *[holding answer 18 September 2006]:* Cattle compensation for four notifiable diseases (bovine tuberculosis, brucellosis, bovine spongiform encephalopathy and enzootic bovine leukosis) in England is determined each month. This is done primarily using table valuations based on average sales prices achieved for pre-determined cattle categories, drawn up in consultation with the industry. To support the system, sales data is continuously collected by an independent service provider from a large number and wide range of sources across Great Britain . These sources include 'regular' markets, dispersal sales, and breed sales.

Table valuations are based on real sales prices achieved at market; the compensation payable in respect of an individual animal is the average market price for its category. There are 47 categories in total and these are split into non-pedigree and pedigree. At the end of each month, the average sales figure is determined. For non-pedigree categories the average is calculated from one month's data, and for pedigree categories six month's data are used.

Departmental Budget

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what alterations have been made to the 2006-07 budget allocations to bodies funded by his Department; and what the value of the change was in each case; [91050]

(2) when the last review of the departmental internal budget allocations took place; and if he will publish the budget alterations that were agreed as a result. [91051]

Barry Gardiner *[holding answer 13 September 2006]:* As a matter of good financial management we keep our budgets and spending under regular review and challenge, and adjust them as new pressures and demands arise. Bodies funded by this Department are included in this process. Following the most recent review Ministers have agreed updated budgets for 2006-07. The financial performance of the Department for this year will be set out in the published departmental report.

Farmer Prosecutions

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many farmers were *(a)* prosecuted and *(b)* convicted in each year since 1997 under laws which have since been repealed, updated or replaced. [88503]

Barry Gardiner: The Cattle Identification Regulations 1998 ("CIR"), the Cattle Database Regulations 1998 ("CDR") and the Eggs (Marketing Standards) Regulations 1995 ("the EMSR") made it an offence to fail to comply with or breach certain EC regulations. These EC Regulations have subsequently been repealed and replaced by new EC regulations.

Neither the CIR, CDR nor the ESMR were updated to reflect this. Each new EC Regulation contained a provision stating that references to the repealed Regulation shall be construed as references to the new Regulation. On this basis Defra believed it was not necessary to update the domestic regulations. The dates of the relevant repeals are 14 August 2000 in respect of the CIR and CDR and 1 January 2004 for the EMSR. Only convictions obtained after these dates will be affected by the failure to up-date the relevant domestic regulations. The Secretary of State made a written ministerial statement about the matter on 15 June 2006, *Official Report*, column 67WS.

Under the Cattle Identification Regulations 1998 ("CIR"), the Cattle Database Regulations 1998 ("CDR"), 51 prosecutions were carried out which resulted in 45 convictions. The breakdown year by year is as follows (these figures include England and Wales):

	Number
2000	1
2001	5
2002	4
2003	6
2004	9
2005	17
2006	3

Under The Eggs (Marketing Standards) Regulations 1995, nine prosecutions were undertaken which resulted in six convictions. The breakdown year by year is as follows (these figures include England and Wales):

	Number
2004	3
2005	2
2006	1

While all these convictions may be considered to be unsafe because of the technical defect the convictions will have been obtained in respect of actions that breached the EU legislation designed to protect public health. I am satisfied that our enforcement procedures have been, and will continue to be, rigorous. Public and animal health has been protected by the work of our inspectors, and will continue to be so.

Home Composting

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he is taking to encourage greater home composting; and if he will seek to persuade local authorities to remove putrescible waste from landfill. [91202]

Mr. Bradshaw *[holding answer 18 September 2006]*: Composting is high up the waste hierarchy and is supported by a range of policies that promote sustainable waste management. National and local targets for composting and recycling are currently being reviewed as part of the wider review of the Waste Strategy.

The Waste and Resources Action Programme (WRAP) estimates that over 34 per cent. of households already participate in home composting schemes, with 23 percent of British households composting both kitchen and garden waste. WRAP is working with local authorities and other partners to increase this further through websites, a dedicated helpline and the distribution of one million home composting bins to households across the country.

Local authorities are strictly limited in the amount of biodegradable waste they can landfill by their allocations under the Landfill Allowance Trading Scheme. A further incentive is provided by the annually increasing landfill tax, which currently stands at £21 per tonne.

IT Expenditure

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* projected budget and *(b)* actual expenditure was on information technology in each Directorate in his Department in each year since 1997. [90652]

Barry Gardiner *[holding answer 11 September 2006]*: Information technology budgets are managed centrally with only small items of expenditure, such as consumables, delegated to directorates. The overall investment in information technology is published each year in the departmental resource accounts.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs which directorates in his Department have overspent on their information technology budgets in each year since 1997; how much in each case; and what the reasons were in each case. [90654]

Barry Gardiner *[holding answer 11 September 2006]*: Information technology budgets are managed centrally with only small items of expenditure, such as consumables, delegated to directorates. The nature of this control means that overspends are avoided.

Marine Environment

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs how many enforcement actions there were under the powers of the Marine Fisheries Agency concerning the marine environment in each of the last five years; and how many *(a)* prosecutions were brought and *(b)* convictions were attained in each year. [91089]

Mr. Bradshaw *[holding answer 13 September 2006]*: The following table summarises the Marine Fisheries Agency (previously Sea Fisheries Inspectorate) enforcement action under the provisions of the Food and Environment Protection Act 1985 (FEPA) as at 12 September 2006.

	Inspections of licensed construction and disposal operations	Infringements of FEPA licence requirements	Investigations arising from licensed and unlicensed operations	Official warnings	Prosecutions	Convictions
2006	172	4	1	1	0	0
2005	153	14	5	3	3	3
2004	128	16	4	0	0	0
2003	142	8	2	11	2	2
2002	226	28	25	7	2	2
2001	220	5	10	2	0	0

The following table is a summary of other Marine Fisheries Agency enforcement actions including prosecutions and convictions for the years 2003, 2004 and 2005.

	2003	2004	Number 2005
Inspections of fishing vessels in port by MFA staff	4,137	3,654	2,842
Boardings of fishing vessels at sea	1,704	1,712	1,466
Infringements detected by surveillance aircraft	9	6	1
Infringements investigated[1]	259	218	253
Infringements resulting in official written warnings	69	101	140
Infringements prosecuted, (including Master and Owner combined figures)[2]	84	62	57
Convictions obtained (including Master and Owner combined figures)[2]	82	61	56

[1] Documentation checks, satellite tracking data, transport checks, and market premises inspections will contribute to the number of investigations.

[2] In cases where the Master and Owner of a fishing vessel are different both will usually be prosecuted for the same offences, as required by the legislation. The figures combine these separate infringements for the same offences as one.

Notes

1. Results are based on the date of the offence, there are ongoing investigations yet to be concluded.
2. Inspections may result in the detection of more than one infringement. Each infringement contributes to the results.

Non-human Primates

Jeremy Corbyn: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what steps have been taken towards reducing the risks to non-human primates from the *(a)* trade in bushmeat, *(b)* laboratory trade, *(c)* trade in exotic pets and *(d)* use of primates in entertainment; [90837]

(2) what response he has made to the dossier submitted by Animal Defenders International to the Prime Minister's office on 1 September; and if he will publish that response. [90840]

Mr. Bradshaw *[holding answer 11 September 2006]:* The UK cannot intervene directly in sovereign matters of other countries, and bushmeat has been a legitimate and acceptable food source for domestic consumption in many countries for generations. While some bushmeat may be entering the UK, it is understood not to be in significant quantities. Moreover, of the limited amount which may be entering the country, we consider the endangered-species element, including that of non-human primates, is likely to be at a very low level.

The use of animals in experiments and other scientific procedures is strictly regulated by the Animals (Scientific Procedures) Act 1986, for which the Home Office has the lead responsibility. Non-human primates are afforded special protection under the Act and there are stringent requirements regarding their use in scientific experiments. The use of wild-caught non-human primates is subject to supplementary additional considerations.

The Home Office announced in 1997 that there are no foreseen circumstances under which licences under the 1986 Act for programmes of work involving the use of Great Apes (chimpanzees, pygmy chimpanzees, gorillas and orang-utans) would be issued. In addition, exceptional justification would be required for the licensed use of other types of non-human primates taken from the wild.

The 1986 Act provides that non-human primates, whether captive bred or wild-caught, can only be used when no other species are suitable for the purposes of the programme to be specified in the licence, or that it is not practicable to obtain animals of any other species that are suitable for those purposes. For the use of wild-caught primates to be exceptionally authorised, there must be no appropriate alternative, no suitable captive-bred animals available and the likely benefits of the programme of work would have to fully justify their use.

The Animals (Scientific Procedures) Inspectorate and the Animal Procedures Committee provide advice on a case-by-case basis on whether, and on what terms, such use should be licensed. Application of these stringent criteria has meant that first time use of wild-caught non-human primates in scientific procedures has not been licensed in the UK for some years.

The import, export and re-export of primates is strictly regulated under Council Regulation 338/97, which implements the Convention on International Trade in Endangered Species (CITES) of Wild Fauna and Flora within the EU. The Government's view is that primates are not suitable for the general pet trade. We currently limit imports of these species to specialist keepers who must be able to demonstrate that they are sufficiently well equipped and experienced to house and care for them. In July last year, Defra launched a public consultation regarding the use of powers under Article 8.2 of Council Regulation 338/97, which sought

views on proposals designed to further restrict the keeping of certain CITES listed species, including primates.

We propose to introduce a regulation under the Animal Welfare Bill to ban the use, in travelling circuses, of certain non-domesticated species whose welfare needs cannot be satisfactorily met in that environment. A Circus Working Group has been set up to advise on this proposal. We also intend to introduce Codes of Practice to cover all performing animals, not just those in circuses. This will address issues such as training activities, trainer competences and accommodation needs for animals when travelling.

I would like to thank Animal Defenders International for their dossier "Primate Nations." The use of animals, including non-human primates, in research and testing is an issue for which the Home Office has responsibility.

A copy of the dossier will be placed in the Libraries of the House.

Packaging

Mr. Moore: To ask the Secretary of State for Environment, Food and Rural Affairs what the Government's policy is on the non-mandatory status of European Commission Decision 97/129/EC which provides for numbering and abbreviations to identify different packaging materials, including plastics; and if he will make a statement. [91020]

Mr. Bradshaw *[holding answer 13 September 2006]:* The Government have no plans to make the marking of plastic household products mandatory. However, while the marking system is voluntary, we would encourage manufacturers to use the markings where possible, in order to aid the process of sorting and recycling plastic packaging waste.

Questionnaires

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* questionnaires, *(b)* statistical inquiries and *(c)* investigations have been carried out wholly or partly at public expense on behalf of or by his Department or public bodies for which he is responsible in each year since 1997; and what the (i) nature, (ii) purpose and (iii) cost was in each case. [83183]

Barry Gardiner: The Defra website provides information on the type of statistical surveys and research conducted by the Department.

It is intended to start to publish a review of surveys conducted , including the costs . This will begin with the review of surveys conducted in 2005 which is expected to be published on the website shortly.

A full list of Government surveys and other sources of official statistics is available in the Guide to Official Statistics published by the Government Statistical Service (http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=1551&Pos=&ColRank=1&Rank=422).

Recycling

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to improve the level of recycling of waste electrical and electronic materials. [90963]

Mr. Bradshaw *[holding answer 13 September 2006]:* The Government are in the process of implementing the waste electrical and electronic equipment (WEEE) directive, which aims to reduce the quantity of waste from electrical and electronic equipment and increase re-use, recovery and recycling. The directive requires member states to ensure that producers (or third parties acting on their behalf) set up systems to provide for the collection, treatment, recovery and environmentally sound disposal of WEEE.

The Department of Trade and Industry (the department with the lead responsibility for implementing the directive) is currently carrying out a consultation on draft regulations which transpose the directive into UK legislation, and accompanying guidance. The closing date for the consultation is 17 October 2006.

Single Farm Payments

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he took to ensure all farmers were paid by the June deadline by the Rural Payments Agency. [83719]

Barry Gardiner: Following the announcement by my right hon. Friend the Member for Derby South on 16 March 2006, *Official Report*, column 104WS, a number of measures were put in place to expedite claims.

The House has subsequently been kept informed of these measures on 27 March 2006, *Official Report*, column 543; 29 March 2006, *Official Report*, column 305WH; 19 April 2006, *Official Report*, column 13WS; 9 May 2006, *Official Report*, column 10WS; 22 June 2006, *Official Report*, column 1478; and, 5 July 2006, *Official Report*, column 42WS.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of previously outstanding payments under the single farm payment scheme have been paid in full in North Yorkshire. [91046]

Barry Gardiner *[holding answer 13 September 2006]:* As of 30 June 2006 the total value of single payment scheme payments made to customers in North Yorkshire amounted to £105,445,055.

The value of payments made to customers in North Yorkshire from 1 July 2006 through to 8 September 2006 amounted to £3,275,952.19.

The payment value includes partial payments made.

Tony Baldry: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects Peter Brown to receive his single payment from the Rural Payments Agency (Holding number 33/186/0003 and single business identification 106326473). [85770]

Barry Gardiner: Mr. Brown received a Single Payment Scheme payment on 8 May 2006.

All work on Mr. Brown's 2005 claim has been completed.

Mr. Brown was paid only flat rate. It has been stated that this is a full payment. After further inspection it appears that his historic entitlements have been omitted from payment.

An emergency change request has now been implemented onto the system and a manual payment was made on 4 August 2006.

DEFENCE

Afghanistan

Mr. Harper: To ask the Secretary of State for Defence what requests for *(a)* more helicopters, *(b)* other equipment and *(c)* more personnel from field commanders in Afghanistan have been received by (i) Permanent Joint HQ, (ii) Defence Chiefs of Staff and (iii) Ministers since 25 July 2006. [90949]

Mr. Moore: To ask the Secretary of State for Defence whether he has received any requests from British commanders for *(a)* more troops and *(b)* extra munitions or equipment to support the British deployment in Afghanistan. [91171]

Des Browne *[holding answers 13 and 18 September 2006]:* Both the Ministry of Defence and the Permanent Joint Headquarters regularly receive requests from Theatre for changes to the military capabilities and equipment deployed, as part of the routine process of evaluating our force structure. The more substantial changes in personnel levels or equipment are incorporated into periodic Force Level Reviews. I announced the outcome of the most recent such review on 10 July 2006, *Official Report*, columns 1131-35 and, for its helicopters, on 24 July 2006, *Official Report*, columns 74-76WS. More minor changes, such as my recent decision to deploy an additional Harrier GR7a to Kandahar, are made as soon as practicable.

Reports from British commanders in Theatre since 25 July have informed the UK's position towards the NATO Force Generation process: minor adjustments aside, they have not sought to reinforce 16 Air Assault Brigade and its supporting units.

Mr. Bone: To ask the Secretary of State for Defence how many troops have been committed by each country to the conflict in Afghanistan; and if he will make statement on the availability of troops from other NATO countries. [91014]

Des Browne *[holding answer 13 September 2006]:* ISAF currently comprises around 20,000 troops from 37 NATO and non-NATO nations:

Albania, Australia, Austria, Azerbaijan, Belgium, Bulgaria, Canada, Croatia, Czech Republic, Denmark, Estonia, Finland, France, the former Yugoslav Republic of Macedonia, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxemburg, Netherlands, New Zealand, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey, United Kingdom, and United States of America.

The precise numbers of forces deployed by each nation fluctuates. At present the largest ISAF troop contributors are the following: the UK (around 5,000), Germany (around 2,750), Canada and the Netherlands (around 2,000), Italy (around 1,600), US (around 1,300), and France (almost 1,000); and many nations are also contributing essential enablers and capabilities such as helicopters, air support and medical facilities.

Identification of additional forces and capabilities for deployment is a matter for the NATO force generation process. We are working with NATO Allies and non-NATO troop contributors to ensure that commanders on the ground have access to the resources they need to carry out the ISAF mission.

There are also around 18,600 international troops in and around Afghanistan under the coalition-led Operation Enduring Freedom. The bulk of these are from the US, but this also includes forces from a number of NATO Allies.

Mr. Harper: To ask the Secretary of State for Defence which *(a)* Ministers, *(b)* hon. Members and *(c)* Members of the House of Lords visited British troops in Afghanistan in (i) July and (ii) August 2006. [91156]

Derek Twigg *[holding answer 18 September 2006]:* In July, the following Members of the House of Commons Defence Committee visited Afghanistan:

James Arbuthnot MP
David Borrow MP
Dai Havard MP
David Hamilton MP
Adam Holloway MP
Brian Jenkins MP
Kevan Jones MP
Mark Lancaster MP
Willie Rennie MP
John Smith MP

The right hon. David Cameron MP, Leader of the Opposition, and Liam Fox MP, also visited in July as did the noble and gallant Lord Boyce.

In August, my right hon. Friend the Secretary of State for International Development visited British troops.

Aircraft

John Smith: To ask the Secretary of State for Defence how many Harrier jets are grounded in Afghanistan because they are being used as sources of spare parts. [90918]

Mr. Ingram *[holding answer 13 September 2006]:* None of the GR7 Harrier Jets deployed on operations in Afghanistan are grounded as a result of being used as a source for spare parts.

Armed Services (Training)

Mrs. Humble: To ask the Secretary of State for Defence if he will list the topics covered on induction courses for civilian medical staff taking up post at Army initial training establishments; and what advice is given concerning *(a)* the detection of bullying and *(b)* confidential reporting procedures. [26287]

Derek Twigg: Civilian medical staff attend induction training at their respective place of employment within the initial training organisation. They receive further induction training specific to their medical facility and the Army Primary Health Care Service (APHCS). Induction training covers broadly the following topics:

Unit organisation and personalities

Chain of command and lines of communication

Pay and personnel procedures

Health and Safety

Fraud and Theft

Training and development

Equality and diversity

Harassment and how to deal with it

Code of Practice for Instructors, for all military and civilian staff

Practice administration.

Equality and diversity, and harassment and how to deal with it cover advice during the induction process on the detection of bullying. Annual mandatory Equal Opportunities and Diversity Awareness training further enhance this. All staff have a number of MOD publications available to them which include The MOD Harassment Complaints Procedures, The Civil Service Bullying and Harassment Leaflet and the Adjutant General's Joint Equality and Diversity Directive.

Confidential reporting procedures are covered by the Army Primary Health Care Service guide on Confidentiality which refers to the Data Protection Act 1998, Human Rights Act 2000, and Department of Health guidelines on Protecting and Using Patient Information. All civilian medical practitioners are governed by General Medical Council Good Medical Practice, which includes matters of confidentiality and guidance on protecting and providing information.

Army Personnel

David T.C. Davies: To ask the Secretary of State for Defence (1) how many serving Regular Army personnel have *(a)* left and *(b)* given notice of their intention to leave the army within 12 months of completing service in Iraq since 2003. [91262]

(2) how many serving Territorial Army personnel have *(a)* left and *(b)* given notice of their intention to leave the army within 12 months of completing service in Iraq since 2003. [91263]

Derek Twigg *[holding answers 18 September 2006]:* The data is not held centrally and could be provided only at disproportionate cost.

David T.C. Davies: To ask the Secretary of State for Defence how many people left the army in each of the last five years. [90749]

Derek Twigg *[holding answer 11 September 2006]:* Figures for "Outflow from UK Regular Forces" are published monthly in Tri-Service Publication 1 (TSP1), a copy of which is held in the Library of the House.

AWE Aldermaston

Jeremy Corbyn: To ask the Secretary of State for Defence what the latest estimate is of total capital spending on AWE Aldermaston *(a)* in 2006-07 and *(b)* in each of the next three years. [91077]

Des Browne *[holding answer 13 September 2006]:* The currently planned capital expenditure at the two AWE sites at Aldermaston and Burghfield is in the order of £340 million in 2006-07 and £420 million for 2007-08, both at outturn prices. Spending plans for subsequent years have yet to be finalised.

Body Armour

Mr. Maples: To ask the Secretary of State for Defence whether all serving military personnel in *(a)* Iraq and *(b)* Afghanistan are provided with body armour which protects vital organs in addition to the heart; and whether soldiers being sent to each country will be issued with the old body armour which protects the heart only. [91223]

Des Browne: Military personnel serving in Iraq and Afghanistan are provided with appropriate body armour for the tasks that they are undertaking. All troops deploying to Iraq and Afghanistan are issued with Enhanced Combat Body Armour (ECBA) as standard. This contains protective ceramic plates at the front and rear, which protect the heart and other organs in the upper thorax of the body. Two other body armour sets are available in theatre: Enhanced Personal Protective Equipment, known as 'Kestrel'; and Improved Performance Body Armour, known as 'Osprey' which provides additional protection, for example to the neck and shoulders.

Osprey sets will shortly replace ECBA as the minimum standard in both Afghanistan and Iraq. Delivery of Osprey to both theatres is expected to be substantially complete by late autumn.

Whether ECBA, Kestrel, Osprey or indeed, whether any body armour is worn, is determined by the commander's assessment of the nature of the task, the current threat, and the environment in which they are operating in.

Christmas Cards

Mr. Hands: To ask the Secretary of State for Defence if he will estimate the cost to his Department of sending Christmas cards in 2005. [45920]

Derek Twigg: The Ministry of Defence spent approximately £3,200 on the printing, purchase and posting of Christmas cards in 2005. This excludes a small amount spent by Defence Attachés (for representational purposes) which is not identifiable without disproportionate cost.

Defence Information Infrastructure Project

Mr. Gerald Howarth: To ask the Secretary of State for Defence what the latest estimates are of the savings made by his Department arising from the EDS contract for the Defence Information Infrastructure project for each of the first three years. [90932]

Mr. Ingram: *[holding answer 13 September 2006]:* The estimate of savings to be made by the Department for each of the first three years of the Defence Information Infrastructure Project is shown in the following table:

Financial year	*Savings (£ million)*
2005-06	[1]30
2006-07	[2]31
2007-08	[2]32

[1] Actual
[2] Estimated

Defence Sector Employment

John Smith: To ask the Secretary of State for Defence (1) what assessment he has made of the degree to which Transfer of Undertakings (Protection of Employment) provisions were incorporated into the business case for the End 2 End (E2E) Logistics Review Air Depth Support Recommendation 40; and if he will make a statement; [90919]

(2) what assessment he has made of the application of the Transfer of Undertakings (Protection of Employment) Regulations (TUPE) in the awarding of contracts for *(a)* Tornado RB199 Operational Contract for Engine Transformation (ROCET), *(b)* Tornado CMU, *(c)* Harrier Joint Upgrade and Maintenance Programme (JUMP) and *(d)* Tornado Tiger Team 1, VC10 Javelin Red; and what estimate he has made of the costs of TUPE-related activity in each case; [90921]

(3) what provision was made for the cost of the TUPE obligations in the *(a)* Tornado RB199 Operational Contract for Engine Transformation (ROCET) and *(b)* Tornado CMU and Harrier Joint Upgrade and Maintenance Programme; and what the resultant costs were. [91232]

Mr. Ingram *[holding answers 13 September 2006 and 18 September 2006]:* The AMICUS trade union presented a claim against the Ministry of Defence, BAE Systems plc and Rolls Royce plc in the Cardiff employment tribunal on 26 July 2006, seeking, on behalf of affected employees, a declaration and an award for an alleged failure to consult under the Transfer of Undertakings (Protection of Employment) Regulations 1981/2006 (TUPE) for certain transfers of work which may be linked to the Tornado ROCET, Tornado Combined Maintenance and Upgrade and Harrier JUMP contracts.

At present, it is not appropriate to comment in detail on the applicability of the aforementioned regulations and related costs to these contracts as we are still considering our response to the employment tribunal to avoid prejudicing the proceedings.

As I made clear in my letter to my hon. Friend of 25 July 2006, now placed in the Library of the House, it is clear that the overall costs of DARA work force restructuring/redundancy would have been broadly comparable irrespective of whether or not the provision of TUPE apply.

We are considering the application of TUPE regulations as it relates to the study carried out by Tornado Tiger Team 1. I will write to my hon. Friend when this work has been completed. Under the 'Red' and 'Amber' phases of the VC10 Javelin programme, no work which had been undertaken by the DARA work force was transferred to either industry or a new owner. TUPE regulations therefore did not apply.

John Smith: To ask the Secretary of State for Defence what the cost of *(a)* voluntary and compulsory redundancies and *(b)* compulsory early retirement measures were at DARA St. Athan in each financial year between 2002-03 and 2005-06, broken down by contract; and what the estimated costs for 2006-07 are on the same basis. [90920]

Mr. Ingram *[holding answer 13 September 2006]:* The voluntary and compulsory redundancy costs and compulsory early retirement costs for each financial year from 2002-03 at DARA St. Athan were as follows:

	Voluntary/ Compulsory	*£ million Early Retirement*
2002-03	[1]3,040	—
2003-04	[1]4,125	—
2004-05	4,656	1,358
2005-06	6,221	2,071
2006-07 (estimated)	7,663	2,109

[1] Figures for redundancy costs for DARA St. Athan during 2002-03 and 2003-04 were not collected separately and are shown as totals.

The costs broken down by or attributed to the various aircraft contracts are not available and could only be provided at disproportionate cost.

Demobilised Reservists (Mental Health Services)

Mr. Harper: To ask the Secretary of State for Defence where the planned new mental health provision for demobilised reservists will be located; what services will be provided; how much it is expected to cost; when the service is expected to commence; and if he will make a statement. [91157]

Derek Twigg *[holding answer 18 September 2006]:* I refer the Member to the statement made to the House on 16 May 2006, *Official Report*, columns 43-46WS, to my hon. Friend the Member for West Bromwich, East (Mr. Watson).

David T.C. Davies: To ask the Secretary of State for Defence what arrangements are in place to ensure that ex-Territorial Army soldiers who served in Iraq receive assistance from his Department if they become subject to post traumatic stress disorder. [91264]

Derek Twigg *[holding answer 18 September 2006]:* The responsibility for the medical care of ex-service personnel, whether regular or reserve, lies with the NHS. This has been the established practice since 1948 under successive Governments. Where an individual is also a war pensioner, he or she is entitled to priority treatment for his or her accepted condition within the NHS. Priority is decided by the clinician in charge and applies to physical and mental health problems. For conditions that are due to service where treatment is not available under the NHS, the Government also funds care at the specialist mental health charity Combat Stress facilities, which last year cost £2.8 million.

The health needs of the majority of veterans will be met by current NHS provisions. However, MOD has work in hand to ensure that there is a coherent response to veterans' mental health issues, co-ordinating inputs from the NHS, Health Departments throughout the UK, the services and ex-service organisations, including Combat Stress. The MOD is also working on a number of further measures for the prevention and management of operational stress, and has work in hand to ensure that service leavers can recognise the signs of stress and know where to go for help, using suitable magazine-style material.

The MOD is currently developing detailed arrangements for the enhanced post-operational mental healthcare programme for recently demobilised reservists. The programme will offer a mental health assessment, conducted by appropriately qualified members of the Defence Medical Services (DMS). This will be available to any member of the reserve forces who has been demobilised since January 2003 following deployment on any operation overseas and who has a concern about their mental health as a result. If individuals are then assessed as having a mental health problem that is categorised primarily as Post-Traumatic Stress Disorder or a related traumatic adjustment disorder, and that is directly related to their operational deployment and of a nature that can be treated within the resources of the DMS, then they will be offered out-patient treatment by the DMS.

If the assessment identifies cases that fall outside the parameters set out above, such as complex multi-disorder diagnoses or acute cases requiring in-patient care, the DMS will refer them—with our assessment results—back to their civilian GP in order to assist their access to NHS treatment, as well as encouraging contact with the relevant welfare organisations to ensure follow-up.

As my predecessor, the hon. Member for West Bromwich, East (Mr. Watson) said in his statement on 16 May, a further announcement will be made later this year to confirm the details of the programme, including the location(s) at which the assessments will be provided, and the date on which the service will commence.

Departmental Annual Report

Mr. Harper: To ask the Secretary of State for Defence pursuant to paragraph 44 of the Ministry of Defence Annual Report and Accounts 2005-06, what training exercises were cancelled; what the reasons were for cancellation in each case; and what steps his Department is taking to reduce the cancellation rate. [90577]

Mr. Ingram *[holding answer 11 September 2006]:* During the period 1 April 2005 to 31 March 2006, a total of 58 training events recorded on the Defence Exercise Programme were cancelled. In summary, 30 exercises were cancelled due to operational commitments, 13 were removed as savings measures and 10 were cancelled by other nations. The remaining five events were cancelled in response to changing priorities or rescheduling.

A number of measures are being taken to reduce exercise cancellations. Chief among these is a rebalancing of the Defence Exercise Programme to enable training to focus on fewer, more comprehensive, exercises.

Deployment

Mr. Bone: To ask the Secretary of State for Defence how many and what proportion of the armed forces were engaged in operations overseas and in Northern Ireland in each of the last 10 years; and what proportion and number were not so engaged in each year. [91017]

Mr. Ingram *[holding answer 13 September 2006]:* The most current figures collected from manual records show that on 5 September 2006 the deployment of UK Service personnel on operations overseas was:

	Number
All Services	14,140
Naval Service	680
Army	11,220
RAF	2,240

Notes:
1. Data are rounded to the nearest 10.
2. Figures include mobilised Reservists.

Figures for the number of UK Service personnel deployed overseas are not available in a consistent time series. Percentages of Service personnel undertaking operations and other military tasks are, however, published in the Ministry of Defence Annual Report and Accounts.

Figures from 2001-02 to 2005-06 are shown in the following tables, which have been extracted from each annual report. Summary information for 1998-99 and 1999-2000 was published in the respective Ministry of Defence Performance Reports (CM4520, CM5000), copies of which can be found in the Library of the House. This information was not compiled on a comparable basis to those set out in the following tables.

Quarterly information for years predating the 1998 Strategic Defence Review is not held centrally.

The following figures report the percentage of Regular Armed Forces undertaking operations and other military tasks. These figures are quarterly averages and are calculated by comparing the number of personnel undertaking operations and other military tasks against the total strength of the Armed Forces. Figures for 2005-06 are collated using a different methodology, and are therefore not comparable.

Percentage of Regular Armed Forces undertaking operations and other military tasks[1] during 2005-06

	April to June	*July to September*	*October to December*	*January to March*
Naval Service	11.6	9.3	12.1	13.5
Army	21.0	22.0	22.8	25.1

Percentage of Regular Armed Forces undertaking operations and other military tasks[1] during 2005-06

	April to June	July to September	October to December	January to March
RAF	13.3	11.9	12.3	13.4

[1] Includes activities such as nuclear deterrence, Military Aid to the Civil Authorities and to the Civil Powers in Northern Ireland, integrity of UK waters and airspace, defence and security of the Overseas Territories and of the Cyprus Sovereign Base Areas and Defence Relations, Alliances and support to Wider British Interests.

Notes:

2. These figures are quarterly averages and reflect the burden of activity imposed by the operations and military tasks undertaken by each service. Figures are based on man-day equivalents.

3. Notes 1 and 2 apply to the following four tables.

4. Percentages include personnel in preparation for and recovering from operations (e.g. in the case of the Army it takes account of those on pre-operational training and post-operational leave).

Percentage of trained strength of Regular Forces deployed on operations and other military tasks[1] during 2004-05

	April to June	July to September	October to December	January to March
Naval Service	16.8	13.2	13.3	11.6
Army	23.7	22.1	21.4	21.2
RAF	11.8	12.0	13.5	13.4

Note:

Percentages exclude those either preparing for, or recovering from, deployments.

Percentage of trained strength of Regular Forces deployed on operations and other military tasks[1] during 2003-04

	April to June	July to September	October to December	January to March
Naval Service	18.7	12.8	14.0	17.7
Army	46.9	23.2	22.9	22.6
RAF	16.5	13.0	12.9	12.1

Note:

1. Percentages exclude those either preparing for, or recovering from, deployments.

Percentage of trained strength of Regular Forces deployed on operations and other military tasks[1] during 2002-03

	April to June	July to September	October to December	January to March
Naval Service	17.5	13.0	16.5	28.5
Army	24.6	23.9	32.5	55.6
RAF	12.6	10.9	19.1	21.8

Note:

1. Percentages exclude those either preparing for, or recovering from, deployments.

Percentage of trained strength of Regular Forces deployed on operations and other military tasks[1] during 2001-02

	April to June	July to September	October to December	January to March
Naval Service	9.5	8.4	16.7	15.7
Army	21.8	25.6	26.3	23.9
RAF	11.9	12.2	13.6	13.1

Notes:

1. 2001-02 figures include personnel on Exercise SAIF SAREEA II.

2. Percentages exclude those either preparing for, or recovering from, deployments.

Figures for the number of Service personnel deployed in Northern Ireland at 1 April each year since 1999 are shown in the following table. The figures given for the number of Army personnel differ from those published in Table 7.4 of UK Defence Statistics 2005; during the completion of an in-depth analysis of Northern Ireland Forces Levels for the International Monitoring Commission, certain anomalies became apparent which necessitated a revision of previously published figures. Figures for years prior to 1999 are unavailable.

	All Services	Naval Service	Army[1]	RAF
1999	15,110	180	[3]13,780	1,150
2000	14,310	180	[3]13,070	1,060
2001	13,570	180	12,310	1,080
2002	13,750	180	12,530	1,050
2003	13,690	30	[3]12,270	1,390
2004	12,090	[2]430	[3]10,360	1,300
2005	10,570	30	9,630	900
2006	9,090	10	8,160	920

[1] Army figures include the Royal Irish Regiment (Home Service).

[2] Naval Service figure at April 2004 includes personnel from 45 Commando Royal Marines.

[3] Denotes revised.

Eurofighter Exports

Nick Harvey: To ask the Secretary of State for Defence what assessment he has made of the possible implications of *(a)* the sale to Saudi Arabia of Eurofighter Typhoon and *(b)* associated training support on the planned dates for Royal Air Force operational declarations; and what level of contribution will be given by his Department in order to facilitate the deal and for training purposes. [91010]

Mr. Ingram: The sale of Typhoon aircraft to the Royal Saudi Air Force (RSAF) and the provision of a training support package will not affect Typhoon's operational employment dates with the RAF. Negotiations are ongoing concerning the training support package for the RSAF.

Explosive Remnants

Mr. Drew: To ask the Secretary of State for Defence what budget he has allocated to dealing with explosive remnants of war in each of the last three years, broken down by theatre of operation. [58612]

Des Browne *[holding answer 17 March 2006]:* We do not allocate a discrete budget for dealing with explosive remnants of war. This activity is a routine part of any military operation to ensure that friendly forces are protected and that normality is restored to the local civilian population as quickly as possible. Explosive Ordnance Disposal teams have deployed as an integral part of UK forces in Iraq, Afghanistan and the Balkans.

The costs are included in that provided for operations from the Treasury.

Harrier Fleet

John Smith: To ask the Secretary of State for Defence what assessment he has made of the impact of further extended deployment of Harrier jets in Afghanistan beyond March 2007 on the deep maintenance and upgrade programme of the Harrier fleet. [91234]

Mr. Ingram: The Harrier 'depth' facility at RAF Cottesmore is specifically designed to provide the flexibility to absorb urgent tasking in addition to scheduled maintenance and future upgrade work. It has been assessed that there will be no impact on the joint maintenance and upgrade programme if a further extension to Harrier deployment in Afghanistan beyond March 2007 becomes an approved operational requirement.

John Smith: To ask the Secretary of State for Defence what the availability rate is of the Harrier jets deployed in Afghanistan. [91235]

Mr. Ingram: The planned availability rate for the six Harrier GR7s currently deployed in Afghanistan has, and continues to be, met. It would not be appropriate to reveal the amount of hours or tasking this includes, as to do so could compromise the safety of coalition forces.

Iraq

Mr. Moore: To ask the Secretary of State for Defence pursuant to his answer of 22 May 2006, *Official Report*, column 1321W, on Iraq, how many *(a)* UK and *(b)* coalition (i) civilian and (ii) military personnel have been (A) killed and (B) injured in each attack in the Iraqi provinces of Al Basrah, Al Muthanna, Dhi Qar and Maysan since January 2006. [85619]

Des Browne: The following table shows the number of Coalition military personnel who have died in Multi-National Division (South East) and been classed as killed in action, including as a result of hostile action, between January and June 2006, broken down by province.

	Basra	*Maysan*	*Muthanna*	*Dhi Qar*
January	1	1	—	—
February	—	2	—	—
March	[1]1	—	—	—
April	1	—	—	[1]4
May	9	—	—	[1]1
June	—	—	—	[1]1

[1] Non-UK fatality.

The following table shows the number of Coalition military and civilian personnel wounded as a result of hostile action and treated at the Shaibah Role 3 facility in Iraq in between January and June 2006. These records are kept for operational medical planning and do not include information on where each injury occurred and in what incident nor on the nationality of non-UK personnel treated.

	UK military	*UK civilian*	*Non-UK military*	*Non-UK civilian*
January	5	—	2	—
February	1	—	—	1
March	2	—	3	5
April	7	2	1	—
May	11	—	1	—
June	2	—	3	—

Information on numbers of UK military and civilian personnel casualties in Iraq is published on the Ministry of Defence website at:

http://www.mod.uk/DefenceInternet/FactSheets/OperationsFactsheets/OperationsInIraqBritishCasualties.htm

Norman Baker: To ask the Secretary of State for Defence which companies applied to run the Occupational Authority's Media Network in Iraq; and what criteria were used in deciding who would be awarded the contract. [87571]

Des Browne: This is a matter for the United States Government.

David T.C. Davies: To ask the Secretary of State for Defence how many soldiers who have served in Iraq since 2003 have subsequently resigned from the armed forces in each of the last three years. [90748]

Derek Twigg *[holding answer 11 September 2006]:* The data is not held centrally and could be provided only at disproportionate cost.

Iraq/Afghanistan

Mr. Bone: To ask the Secretary of State for Defence what contingency plans have been made by the Government in case the level of conflict involving British troops in Iraq and Afghanistan escalates. [91013]

Des Browne *[holding answer 13 September 2006]:* As a matter of course, the Government, with their international partners where appropriate maintains a range of contingency plans for all operational theatres where UK troops are deployed, including Iraq and Afghanistan.

Joint Personnel Administration

Nick Harvey: To ask the Secretary of State for Defence how many RAF personnel were affected by pay inaccuracies in June 2006. [88162]

Derek Twigg: In the June 2006 pay run 485 RAF personnel, just over one per cent. of the RAF population were affected by inaccuracies, primarily in respect of specialist pay.

Mr. Harper: To ask the Secretary of State for Defence pursuant to the answer of 25 July 2006, *Official Report*, column 1538W, on Joint Personnel Administration, how many complaints the Armed Forces Joint Personnel Administration Agency's internal complaints system received in each month since March 2006 in regard to mispayment under the system; and how many *(a)* are still outstanding and *(b)* have been resolved. [90950]

Derek Twigg *[holding answer 13 September 2006]:* The following table contains the number of complaints received, resolved and outstanding, under the Armed Forces Joint Personnel Administration Agency's internal complaints system, for each month since April 2006. There are no figures for March as the first JPA Pay Run was in April. Additional resources have been

allocated to address the outstanding complaints with a target date of 1 October 2006 for their reduction of the backlog to a normal level of work in hand.

Month	Total[1]	Resolved	Outstanding
April	18	18	0
May	48	41	7
June	120	70	50
July	139	46	93
August	78	8	70
September[2]	16	2	14
Total	419	185	234

[1] The vast majority of complaints involve mispayments. At present it is not possible to differentiate between the types of complaint and therefore there may be some included that do not fall into this category.
[2] As at 8 September 2006.

Landing Ships Dock (Auxiliary) Project

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether he plans to publish the findings of his Department's lessons learned study following the decision to terminate the contract with Swan Hunter for the Landing Ships Dock (Auxiliary) Project. [90934]

Mr. Ingram *[holding answer 13 September 2006]:* Preparations have begun for the lessons learned review into the Landing Ships Dock (Auxiliary) project. It is intended to make the outcome of the findings publicly available, after the National Audit Office have conducted their value for money study into the project.

Low Flying Aircraft

Mr. Walter: To ask the Secretary of State for Defence how many complaints concerning low flying aircraft activity in North Dorset have been recorded in the last 12 months; and what plans he has to minimise the disturbance caused by low flying military aircraft. [90928]

Derek Twigg *[holding answer 13 September 2006]:* Over the period 1 September 2005 to 31 August 2006, 143 complaints have been recorded with the location given as "Dorset".

Low flying training is always conducted in such a way as to minimise, as far as possible, disturbance to those on the ground. To this end operations by fast jet aircraft in the low flying system are restricted in terms of both minimum height and maximum speed, and transit flying by helicopters is conducted at a minimum of 100 feet, unless specially authorised.

Medals

Dr. Julian Lewis: To ask the Secretary of State for Defence (1) which *(a)* individual and *(b)* organisation was responsible for deciding that the qualifying period for the award of the Naval General Service Medal and/or clasp for Canal Zone service would not be fulfilled by 30 days' aggregated service; and when that decision was taken; [65386]

(2) for what reasons the criterion for awarding the Suez Canal Zone Naval General Service Medal and/or clasp requires the 30-day qualifying period of service in the zone to have been continuous. [65389]

Derek Twigg *[holding answer 27 April 2006]:* A sub-committee of the Committee on the Grant of Honours Decorations and Medals, which is an inter-departmental committee administered on behalf of the Government by the ceremonial Secretariat of the Cabinet Office, took the decision on the qualifying service required for an award of the Naval General Service Medal and/or clasp for Canal Zone service. It is not possible to respond to the detailed questions, as MOD is not the holder of this committee's records.

Middle East

Norman Baker: To ask the Secretary of State for Defence what categories of military material have been transported from the US to Israel via the UK since 1 January; and whether these included depleted uranium material. [90969]

Des Browne *[holding answer 13 September 2006]:* The Government routinely withholds details of Dangerous Air Cargo transported as this would be prejudicial to international relations and UK Defence interests.

Mr. Drew: To ask the Secretary of State for Defence what discussions he has had with the UN on the possibility of the UK providing manpower to the multilateral force in the Lebanon. [91007]

Des Browne *[holding answer 13 September 2006]:* We have been in continual discussion with the UN regarding UK contributions to the United Nations Interim Force in Lebanon (UNIFIL).

At a United Nations meeting held in New York on 17 August 2006 to scope support for an expanded UNIFIL, attended by over 50 countries, we identified a range of UK air and maritime assets and other military facilities, which could potentially be called on to support UN operations in Lebanon, depending on the UN's requirements. On 7 September 2006 we received a letter from Kofi Annan formally requesting UK maritime assistance for the interim maritime task force. HMS York is now assisting the Italian-led interim maritime taskforce.

Subject to the approval of the Government of Lebanon, there is strong international support for the UK to lead an interim cell in Lebanon to co-ordinate support to the Lebanese armed forces and Security Sector Reform (SSR). In parallel, there will be a need to work with international partners to establish a longer term international SSR structure.

Mr. Hollobone: To ask the Secretary of State for Defence what *(a)* nature and *(b)* extent of UK armed forces involvement is in the international peacekeeping force in southern Lebanon. [91021]

Des Browne *[holding answer 13 September 2006]:* The UK is contributing HMS York to the Temporary Naval Task Force requested by the UN, which is patrolling off the coast of Lebanon. The force, led by the Italians, will remain in place until relieved by a German led UN Task Force in four weeks time.

Subject to the approval of the Government of Lebanon, there is strong international support for the UK to lead an interim cell in Lebanon to co-ordinate support to the Lebanese armed forces and Security Sector Reform.

There are no plans for further contributions.

Military Equipment

Norman Baker: To ask the Secretary of State for Defence what equipment belonging to the UK armed forces was positioned within five miles of the village of Southmoor, Oxfordshire on *(a)* 17 and *(b)* 18 July 2003. [85523]

Des Browne *[holding answer 14 July 2006]:* We do not maintain records of the location of individual pieces of military equipment with a precision sufficient to answer the Question. There are no defence establishments located within a five mile radius of Southmoor, although there is an Army site at Abingdon, around seven miles by road from the village. 612 Volunteer Gliding School is also based at Abingdon and provides cadets with gliding instruction, usually at the weekend; records indicate that flying did not take place on the dates in question.

Military Material (Shipment Costs)

Dr. Julian Lewis: To ask the Secretary of State for Defence (1) what the cost is of shipping a given amount of military material in containers to a given United Kingdom destination by *(a)* military train and *(b)* a fleet of container lorries; [91148]

(2) what criteria are used when deciding whether to send military container shipments by *(a)* rail and *(b)* road to destinations within the United Kingdom. [91152]

Mr. Ingram: There is no standard comparable unit cost of transporting military material by road or rail. Actual cost will vary substantially according to the route taken, the distance travelled, the nature of the cargo and the size of the consignment. The choice of movement by rail or road will depend not just on cost but on a number of factors including the priority of the requirement and the availability of suitable road and rail infrastructure.

Dr. Julian Lewis: To ask the Secretary of State for Defence what proportion of military containers shipped from the United Kingdom for Operation Telic were sent to their ports of embarkation by *(a)* rail and *(b)* road; and what the average cost per unit was for these internal United Kingdom journeys. [91149]

Mr. Ingram *[holding answer 18 September 2006]:* Over the past 12 months, approximately 30 per cent. of military containers for Operation Telic (Op Telic) were moved to the port of embarkation by rail and 70 per cent. by road. Details for the earlier years of Op Telic could be provided only at disproportionate cost.

Transportation costs vary substantially according to the route taken, the distance travelled, the nature of the cargo and the size of the consignment. The choice of movement by rail or road depends, however, not just on cost, but also other factors such as the priority of the requirement and the availability of suitable road and rail infrastructure: for example, the majority of journeys in support of Op Telic were to Southampton docks which does not have the network capacity to offer the MOD a rail service.

In simple terms, over the last 12 months, the average price per container for journeys using rail services from the original location to the ports of embarkation was £63 and similarly using road services, £227. However, this cost does not include any allowance for the additional costs of using rail paid by the MOD under its enabling contract with English, Welsh and Scottish Railways.

Dr. Julian Lewis: To ask the Secretary of State for Defence what arrangements are in place to ensure that the internal United Kingdom transportation of military containers by *(a)* rail and *(b)* road is carried out by the most economical means. [91150]

Mr. Ingram: The Ministry of Defence has an enabling contract for the movement of military containers by rail and another for their movement by road. Military containers are also moved using ad-hoc commercial road arrangements. The best value-for-money solution is selected depending on the individual circumstances of each requirement.

Dr. Julian Lewis: To ask the Secretary of State for Defence what his policy is on Defence Storage and Distribution Agency rail operations in respect of *(a)* keeping them in-house and *(b)* out-sourcing them to private contractors. [91151]

Mr. Ingram: The Department currently has no plans to outsource rail operations on Defence Storage and Distribution Agency sites to private contractors, although the situation is kept under review to ensure best value for money for the taxpayer.

Operation Telic

Mr. Lancaster: To ask the Secretary of State for Defence how many casualties have been recorded on Operation Telic whilst using *(a)* Warrior and *(b)* Snatch armoured vehicles. [77606]

Des Browne *[holding answer 15 June 2006]:* Centrally available records on casualties on Operation Telic capture the nature and seriousness of the injuries incurred, but do not always record whether the injuries were incurred while using Snatch or Warrior armoured vehicles. The circumstances surrounding each significant incident involving personnel using Warrior and Snatch armoured vehicles are, however, subject to immediate scrutiny at Unit level. This includes an analysis of the protection offered by the equipment involved and the effectiveness of current tactics, techniques and procedures. Where appropriate, lessons related to equipment are passed to the Chain of Command.

Information on fatalities and casualties incurred by UK forces on Operation Telic is published on the MOD website at:

http://www.mod.uk/DefenceInternet/DefenceNews/InDepth/UkMilitaryOperationsInIraq.htm.

Pardons

Mr. Harper: To ask the Secretary of State for Defence whether he plans to grant pardons for those First World War soldiers that were convicted of capital crimes, but not executed. [91153]

Derek Twigg: It is intended that the proposed statutory pardon will remove the particular dishonour that execution for crimes such as cowardice and desertion brought to individuals and their families. There are no plans to extend the pardons to those soldiers convicted of capital crimes but not executed or to those executed for crimes such as murder and treason.

Private Military Companies

Nick Harvey: To ask the Secretary of State for Defence what guidelines have been given to members of UK armed forces in their dealings with private military companies in *(a)* Iraq and *(b)* Afghanistan contracted by (i) coalition states and (ii) non-governmental organisations. [88107]

Des Browne: UK armed forces in Iraq and Afghanistan are reminded, through the Ministry of Defence in-theatre guidance of the need to regulate, limit and report contact with Private Military Companies (PMCs). We do recognise, however, that a wide range of PMCs operate in Iraq and Afghanistan, including those contracted by members of the coalition and non-governmental organisations, and that their employees are unavoidably encountered by our military personnel during the course of their duties. We also recognise that, to minimise risk, our forces need to be aware of where PMCs operate.

RAF

Mr. Bone: To ask the Secretary of State for Defence what the average age was of each type of aircraft flown by the RAF in each of the last 10 years. [91215]

Mr. Ingram: This information is not held centrally and could be provided only at disproportionate cost.

Mr. Bone: To ask the Secretary of State for Defence what the planned level of trained RAF personnel was in each of the last 10 years; and what the planned levels are for each of the next five years. [91216]

Mr. Ingram: The requirement for trained Royal Air Force personnel in each of the last 10 years was:

As at 1 April	*Number*
1997	56,450
1998	54,530
1999	53,020
2000	51,900
2001	51,360
2002	49,720
2003	49,370
2004	49,570
2005	48,400
2006	46,910

As previously announced to the House, the Royal Air Force is currently drawing down to around 41,000 by April 2008. Future forecast trained manpower requirement figures beyond that date are not published because they are subject to constant change. The figures for each of the next two years are:

As at 1 April	*Number*
2007	44,610
2008	41,440

Notes:
1. Figures are for UK Regular Forces and therefore exclude full-time reservists and mobilised reservists.
2. All figures have been rounded to the nearest 10.

Royal Irish Regiment

Mr. Harper: To ask the Secretary of State for Defence what the troop levels are for each battalion in the Royal Irish Regiment; what the planned numbers are for each of the next three years; and if he will make a statement. [91155]

Mr. Ingram *[holding answer 18 September 2006]:* The Royal Irish Regiment (R IRISH) currently has one General Service battalion (1 R IRISH) earmarked for world-wide duties and three Home Service Battalions (2, 3 and 4 R IRISH), which serve only in Northern Ireland.

As at 1 September 2006, there were some 500 personnel in 1 R IRISH, some 880 personnel in 2 R IRISH, some 910 personnel in 3 R IRISH and some 930 personnel in 4 R IRISH. In addition to the Battalions there are also some 290 R IRISH Home Service personnel who work at the Regimental Headquarters, Depot or attached to other units within the Province.

The Home Service battalions were specifically raised for operations in support of the police in Northern Ireland. As announced by the Secretary of State for Defence in August 2005, the Home Service battalions will disband by 31 July 2007, having successfully completed the task for which they were raised. The General Service Battalion (1 R IRISH) is unaffected and they (and the Royal Irish element of the Territorial Army (The Royal Irish Rangers)) will continue the traditions of the Regiment.

Self-harm

Mrs. Humble: To ask the Secretary of State for Defence what the terms of reference are for his study on the causal factors of self-harm; what tendering process was undertaken to employ independent experts to conduct the study; and what his target dates for *(a)* completion and *(b)* publication of the report are. [26298]

Derek Twigg: The study was split into three consecutive phases, each one dependent on the successful completion of the preceding phase. Phase One, to identify precipitating factors for deliberate

self-harm among soldiers, with an overall objective to provide a structured interview protocol to investigate self-harm in the military community. Phase Two, to retrospectively match each identified case with an appropriately matched control group, and Phase Three, to evaluate the extent to which risk factors and risk profiles identified in Phases One and Two could be used as a marker for deliberate self-harm.

All three phases were to include military community psychiatric workers, under the direction of the Army Suicide Prevention Working Group (ASPWG), supported by suitable external subject matter expertise. The Directorate of Army Personnel Strategy commissioned the provision of external experts from research funds.

The statement of requirement for Phase One of the Study and an invitation to tender for the work was sent to three independent academic experts. Only two bids were received, one from Imperial College and the other from King's College. The bids were assessed in accordance with current MOD competitive tendering guidelines, and the contract was awarded to Imperial College.

Phase One of the study began in April 2004, with an expected completion date of June 2005. However, as there were far fewer cases of deliberate self harm over the period than statistically predicted, this resulted in insufficient numbers of volunteers coming forward to be interviewed, the completion date of Phase One was extended until December 2005. Despite this extension, the numbers of those interviewed was considered to be insufficient for the purpose of the study.

The results were presented to the ASPWG in December 2005 where it was decided that the study could not progress on the basis that there were too few cases of self-harm over the period to provide a credible result for Phase One. Therefore there was insufficient data to inform the subsequent Phases.

A summary of the findings of Phase One was submitted to the British Medical Journal (BMJ) and presented to the Royal Society of Medicine Symposium in January. The BMJ have since declined to publish these findings, due to the size of the sample used.

Special Forces Jump Course

Mr. Gerald Howarth: To ask the Secretary of State for Defence (1) whether he plans to provide radio equipment for all students on the Special Forces Jump Course at Brize Norton; [90930]

(2) whether he has received any requests from any members of staff at Integrated Project Teams for the purchase of radios for the students on the Special Forces Jump Course at Brize Norton before November 2005. [90931]

Mr. Ingram *[holding answer 13 September 2006]:* There are currently no plans to provide military trainees undertaking parachute training at RAF Brize Norton with radio equipment, but my officials are investigating the feasibility of radio use for the transmission of routine information. It is expected that if radios were used, they would not be used in emergency situations due to the risk of confusion when more than one parachutist is involved.

Details of requests made by members of staff at Integrated Project Teams for the purchase of radios are not recorded centrally. I am aware of two working level requests that have been made previously, in July 2000 and November 2003, for the provision of radios to support some early stage parachute training. Competing priorities on the defence equipment budget meant that funding was not available.

Submarines

Willie Rennie: To ask the Secretary of State for Defence what consideration is being given to improving the night vision capabilities of Trafalgar class submarines. [91038]

Mr. Ingram *[holding answer 13 September 2006]:* There are no current plans to improve the night vision capability of Trafalgar Class submarines, though the requirement is kept under review.

Suez Campaign

Dr. Julian Lewis: To ask the Secretary of State for Defence (1) why *(a)* questions (i) 65386 and (ii) 65389, on the Suez Canal Zone campaign, tabled for named day answer on 27 April and *(b)* question 72193, on those questions, tabled for named day answer on 23 May, has not been substantively answered; [82485]

(2) when he will reply to the question *(a)* 65386 and *(b)* 65389, on the Suez Canal Zone campaign, tabled for named day answer on 27 April 2006. [72193]

Derek Twigg *[holding answers 4 July 2006 and 23 May 2006]:* I replied to the hon. Member earlier. It is regretted that it has taken so long to respond to the hon. Member's questions.

Trident

Keith Vaz: To ask the Secretary of State for Defence how much it will cost to maintain the Trident weapons system between 2007 and 2020. [61580]

Des Browne: The annual expenditure on capital and running costs of the Trident nuclear deterrent, including costs for the Atomic Weapons Establishment, is expected to be between 5 and 5.5 per cent. of the Defence budget in 2006-07 and 2007-08. Spending plans for subsequent years will be set as part of the Government's Spending Review process.

TUPE Obligations

John Smith: To ask the Secretary of State for Defence if he will suspend *(a)* the round of redundancies at the Defence Aviation Repair Agency and *(b)* the transfer of Tornado work to RAF Marham until the implications of compliance with TUPE regulations have been assessed. [91233]

Mr. Ingram *[holding answer 18 September 2006]:* In my letter of 25 July 2006 I explained to you that CE DARA had temporarily suspended the current redundancy programme pending clarity on the TUPE

issues, and that the drawdown of DARA's Fast jet business at St. Athan would continue as planned. This remains the position. I have now placed a copy of that letter in the Library of the House.

VC Programme

John Smith: To ask the Secretary of State for Defence what progress there has been on the market testing of the VC10 programme at St. Athan; and whether this took into account the full application of the Two Tier Workforce Regulations. [91231]

Mr. Ingram *[holding answer 18 September 2006]:* Good progress has been made in work to market test the VC10 operating unit at St. Athan; MOD's intentions, in line with legal requirements and the Government's policy, are that industry will need to consider the implications of the TUPE Regulations and the Code of Practice on Workforce Matters (the Cabinet Office document setting out the policy for addressing the so called "two tier workforce issues") in their purchase proposals.

CONSTITUTIONAL AFFAIRS

Judicial Review

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 6 July 2006, *Official Report*, column 1345W, on judicial review, where information is held indicating on what occasions individuals and organisations have applied for a judicial review of decisions of her Department; and how *(a)* hon. Members and *(b)* members of the public may have access to that information. [85466]

Ms Harman: The Department does not hold the information referred to centrally. It is contained on individual case files. Those files pre-dating 2000 are likely to have been destroyed in accordance with the Department's policy. The costs of locating and retrieving files would be disproportionate.

The Administrative Court maintains an electronic database of all applications made for judicial review. This may be searched against the name of any party to the proceedings.

Any person may request such information from the Administrative Court and the request will be considered under the Freedom of Information Act.

WORK AND PENSIONS

Benefit Payments

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how much *(a)* pension credit, *(b)* disability living allowance and *(c)* carer's allowance was underpaid due to *(a)* fraud, *(b)* customer error and *(c)* official error in each year for which figures are available. [77990]

Mr. Plaskitt: Information is not available for carer's allowance. The available information is in the following table.

Estimates of underpayments of pension credit and disability living allowance 2004-05

	Fraud		*Customer error*		*Official error*		*Total fraud and error*	
	£ million	*Percentage*	*£ million*	*Percentage*	*£ million*	*Percentage*	*£ million*	*Percentage*
Pension credit	0	0.0	33	0.5	88	1.4	121	2.0
Disability living allowance	0	0.0	190	2.4	10	0.1	200	2.5

Notes:
1. Figures in brackets are underpayments expressed as a proportion of expenditure for that benefit. They are rounded to the nearest 0.1 per cent.
2. Pension credit estimates are rounded to the nearest £1 million, and disability living allowance estimates are rounded to the nearest £10 million (to be consistent with how they were originally published).
3. Estimates are based on sampling exercises and so are subject to sampling and other uncertainties. Sampling uncertainty is expressed in the form of confidence intervals—these have not been provided in these tables.
4. The methodology used does not capture underpayments due to an incorrect decision being made that the claimant was not entitled to benefit. Expenditure that would be paid out to people who have not applied to benefit they would be entitled to is not included as underpayments.
5. Pension credit was introduced in October 2003, so 2004-05 is the only complete year for which pension credit figures are currently available.
6. The most recent review for disability living allowance was carried out for 2004-05—estimates from this review are provided in this table. Results from the previous review in 1996 were carried out under a different methodology so are not considered comparable.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how much benefit was underpaid in income support to *(a)* lone parents and *(b)* disabled people in each year for which figures are available; and what amount was underpaid due to (i) fraud, (ii) customer error and (iii) official error in each year. [77992]

Mr. Plaskitt: The available information is in the following tables.

Estimates of underpayments for income support disabled/sick and others

	Fraud		*Customer error*		*Official error*		*Total fraud and error*	
	£ million	*Percentage*	*£ million*	*Percentage*	*£ million*	*Percentage*	*£ million*	*Percentage*
2004-05	1	0.0	23	0.4	44	0.8	68	1.2
2003-04	8	0.1	24	0.4	51	0.9	83	1.5

Estimates of underpayments for income support disabled/sick and others

	Fraud		Customer error		Official error		Total fraud and error	
	£ million	Percentage	£ million	Percentage	£ million	Percentage	£ million	Percentage
2002-03	12	0.2	24	0.5	41	0.8	77	1.5
2001-02	12	0.2	25	0.5	41	0.8	79	1.5

Estimates of underpayments for income support lone parents

	Fraud		Customer error		Official error		Total fraud and error	
	£ million	Percentage	£ million	Percentage	£ million	Percentage	£ million	Percentage
2004-05	1	0.0	18	0.4	23	0.5	42	0.9
2003-04	3	0.1	23	0.5	29	0.6	54	1.1
2002-03	2	0.0	20	0.4	20	0.4	42	0.9
2001-02	3	0.1	17	0.4	18	0.4	38	0.8

Notes:

1. All figures are underpayments rounded to the nearest £1 million or nearest 0.1 per cent. of expenditure. They are based on sampling exercises and so are subject to sampling and other uncertainties. Sampling uncertainty is expressed in the form of confidence intervals—these have not been provided in these tables.
2. The methodology used does not capture underpayments due to an incorrect decision being made that the claimant was not entitled to benefit. Expenditure that would be paid out to people who have not applied to benefit they would be entitled to is not included as underpayments.
3. Figures are unavailable for disabled people in income support on their own. Figures presented here cover all income support claimants who are not lone parents (mostly disabled and sick claimants).
4. Figures earlier than 2001-02 were not published in the same format as they were produced from two separate samples—one for official error checks, and one for fraud and customer error checks. These have not been provided.

Child Support

Miss McIntosh: To ask the Secretary of State for Work and Pensions how many staff are employed by the Child Support Agency; and how many were employed as of 1 July *(a)* 1997, *(b)* 2000 and *(c)* 2005. [83427]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many staff are employed by the Child Support Agency; and how many were employed as of 1st July (a) 1997 (b) 2000 and (c) 2005.

The information requested can be seen in the attached table.

I hope this information is helpful.

Number of people employed by the Child Support Agency

Date	Number of people in post[1]
1997-98	[2]8,445
1 July	
2000	9,460
2005	10,285
2006	11,545

[1] The figures provided show the actual number of people in post, some of whom may be part-time.

[2] Data is not held for 1 July 1997. The figure provided is taken from the 1997-98 Annual Report and Accounts, which shows the average number of employees over the financial year using DATAVIEW method of counting. This method shows the actual numbers of people in post but excludes those on special leave without pay (including career break, maternity leave and other reasons).

Danny Alexander: To ask the Secretary of State for Work and Pensions in what proportion of Child Support Agency cases *(a)* the non-resident parent is not paying maintenance and has no know current address and *(b)* a maintenance decision has not been made as the non-resident has not been traced. [87546]

Mr. Plaskitt: The information requested is not available.

Jim Cousins: To ask the Secretary of State for Work and Pensions what conditions and requirements apply to existing *(a)* Child Support Agency (CSA) claimants and *(b)* parents making payments migrating to the new rules for CSA payments. [86569]

Mr. Plaskitt: Child Support legislation allows an old scheme case to transfer to the new scheme where there are prescribed links to a new scheme application. A prescribed link is one in which:

the non-resident parent or parent with care in a new scheme application is the non-resident parent or parent with care in an old scheme maintenance assessment; or

in benefit cases: where the partner of a non-resident parent in a new scheme application is a non-resident parent in an old scheme maintenance assessment; or

the partner of a parent with care in a new scheme application is a parent with care in an old scheme maintenance assessment.

Correspondence

Mr. Winnick: To ask the Secretary of State for Work and Pensions if he will arrange for a reply to the letter dated 5 July 2006 to the Child Support Agency from the hon. Member for Walsall North, reference 1002609585. [90635]

Mr. Plaskitt *[holding answer 11 September 2006]:* The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions if he would arrange for a reply to the letter dated 5th July 2006 to the Child Support Agency from the hon. Member for Walsall North, reference 1002609585.

Jackie Laughton, Head of Client Relations for the Child Support Agency replied to your letter dated 5 July 2006 on 31 August 2006. For ease of reference I have sent copy of her recent letter to you separately and hope you found this response helpful.

Disability Equality

Mr. Marsden: To ask the Secretary of State for Work and Pensions whether he has made an assessment of which policy areas will be considered in his report on progress towards disability equality within the work and pensions policy sectors due to be published in December 2008. [90982]

Mrs. McGuire: All relevant areas of DWP policy will be considered in the report on progress. We will seek an assessment of progress from the principal authorities which deliver services funded or regulated by the Secretary of State including local authorities administering housing benefit, as well as the executive agencies and non-departmental public bodies of the Department for Work and Pensions.

To inform the report we will gather evidence from survey data, performance indicators and statistics and from further research.

Mr. Marsden: To ask the Secretary of State for Work and Pensions what steps were taken to involve disabled people in the production of his Department's disability equality scheme. [90983]

Mrs. McGuire: My Department has involved disabled people and organisations representing disabled people in the production of its disability equality scheme. Officials in my Department invited seven major organisations (Leonard Cheshire Foundation, MENCAP, MIND, RADAR, RNIB, RNID, SCOPE) to help develop our disability equality scheme. DWP, at both a corporate and agency level, has used existing customer channels and specific events to consult individual customers and organisations, and has a representative from the Disability Rights Commission on its Equality Schemes Working Group. In relation to its employees, DWP has consulted them through internal communications, its staff network group and the departmental trade union.

Disability Living Allowance

Mr. Kemp: To ask the Secretary of State for Work and Pensions how many households in the Sunderland City Council area include a person with a learning disability who receives the care component of disability living allowance at the *(a)* highest, *(b)* middle and *(c)* lowest rate. [85422]

Mrs. McGuire: The administration of disability living allowance is a matter for the Chief Executive of the Disability and Carers Service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

Letter from Vivien Hopkins:

You asked the Secretary of State for Work and Pensions, how many households in the Sunderland City Council area include a person with a learning disability who receives the care component of disability living allowance at the (a) highest (b) middle and (c) lowest rate.

The Minister for Disabled People, Anne McGuire MP, promised you a substantive reply from the Chief Executive of the Disability and Carers Service. In his absence, I am replying.

The information available is in the following table:

Recipients of disability living allowance with learning difficulties by rate of care award as at November 2005 in the Sunderland local authority

Care component	*Number*
Total with care component	1,210
Highest rate	410
Middle rate	200
Lowest rate	610

Notes:
1. Figures are rounded to the nearest 10.
2. Sunderland city council is the same as Sunderland local authority.
3. Local authorities are assigned by matching postcodes against the relevant ONS postcode directory.
4. Figures are based on the care component condition only.
5. The number of claimants does not equate to the number of households as there may be more than one person in a household with learning difficulties claiming DLA.
6. Figures include cases where the payment has been suspended, for example if they are in hospital.

Source:
DWP Information Directorate: Work and Pensions Longitudinal Study 100 per cent. Data.

Identity Fraud

Mr. Ruffley: To ask the Secretary of State for Work and Pensions what steps he is taking to reduce identity fraud in the benefits system; and what discussions he has had with *(a)* the Home Office and *(b)* related Government agencies on the subject. [73449]

Mr. Plaskitt: The Department for Work and Pensions' (DWP) overall aim is to always establish the correct identity of a person prior to providing a benefit or service.

Before entitlement to benefit can be considered, an individual and their partner need to satisfy Section 1(1b) of the Social Security Administration Act 1992. This requires the customer to provide enough information and evidence to confirm that a national insurance number (NINO) quoted on the claim is their own. Where a customer does not know their NINO, they are required to provide enough information and evidence in order that the correct NINO can be traced. If the customer does not have a NINO, they are required to verify their identity and provide enough information in order that a NINO can be issued.

We have established secure procedures for the allocation of national insurance numbers to adults, conducting rigorous checks to ensure that adult national insurance numbers are only issued to those who have undergone an evidence of identity interview.

DWP staff are trained in preventing identity fraud and refer any suspected cases for investigation. DWP prosecutes for identity fraud offences, including

attempts to obtain national insurance numbers using false documentation. This forms a useful deterrence against those fraudsters who attempt to infiltrate DWP systems.

DWP expects to maximise the use of the proposed Identity Card across its businesses when ascertaining an individual's right to benefit and we are working with the Home Office to develop such future applications.

DWP is represented on the Home Office Identity Fraud Steering Committee which has a remit to implement measures to counter identity fraud. Other representatives of this group include the private sector and other Government Departments such as HMRC with whom we work closely.

Work is ongoing through this Committee to implement measures against identity fraud that can be put in place in advance of the proposed National Identity Scheme.

Identity Verification

Mr. Ruffley: To ask the Secretary of State for Work and Pensions what procedures are in place to verify an individual's identity *(a)* before he or she is allocated a national insurance number and *(b)* before he or she has access to the benefit system. [73445]

Mr. Plaskitt: The Department follows a robust process to verify the individual's identity prior to the allocation of a national insurance number (NINO). This process includes a check to ensure that the applicant does not already hold a NINO, and if appropriate will be followed by a face-to-face interview designed to build up a picture of the individual's circumstances. This will involve document examination checks to ensure the authenticity of any documentary evidence provided in support of the application; and corroborative checks with third parties (including other Government Departments) to verify information supplied during the interview.

Only when Jobcentre Plus is satisfied as to the individual's identity will a NINO be allocated.

Before entitlement to benefit can be considered an individual and their partner need to satisfy section 1(1B) of the Social Security Administration Act 1992 regarding NINO provision. This requires the customer to provide enough information and evidence to confirm that the NINO quoted on the claim is their own. Rigorous checking procedures are built into benefit processes to ensure that the gateway to the benefits system is secure. Anyone who has acquired a NINO does not have automatic access to the benefits system and the use of a NINO in isolation is not sufficient to obtain benefits.

Where a customer does not know their NINO, they are required to provide enough information and evidence in order that the correct NINO can be traced. If the customer does not have a NINO, they are required to verify their identity and provide enough information in order that a NINO can be issued.

Incapacity Benefit

Mr. Gerrard: To ask the Secretary of State for Work and Pensions what percentage of people leaving incapacity benefit began claiming again within a year of leaving the benefit in each of the last five years for which figures are available; what that percentage was *(a)* in Pathways to Work pilot areas and *(b)* in the rest of the country in each year; and what percentage were aged (i) over 50 and (ii) under 50 years in each year. [88001]

Mrs. McGuire: Pathways was launched in October 2003, in three Jobcentre Plus districts and had rolled out to a further four districts by the end of 2004. The table shows the available information on those who reclaimed incapacity benefit within a year of terminating their previous claim.

Incapacity benefit (IB) terminations in years ending November, where a further claim to IB was made within 52 weeks of termination, by age and area and as a percentage of all reclaims

	2000	2001	2002	2003	2004
All areas	21,700	22,500	21,500	21,100	19,100
Percentage of all areas	100	100	100	10	100
50+	700	700	700	600	[1]400
Percentage of all areas	3	3	3	3	2
Under 50	21,000	21,700	20,800	20,600	18,700
Percentage of all areas	97	96	97	98	98
All Pathways areas	2,300	2,200	2,200	2,400	1,800
Percentage of all areas	11	10	10	11	9
50+	[1]100	[1]100	[2]__	[1]100	[2]__
Percentage of all areas	[2]__	[2]__	[2]__	[2]__	[2]__
Under 50	2,200	2,200	2,200	2,300	1,800
Percentage of all areas	10	10	10	11	9
All other areas	19,400	20,200	19,300	18,700	17,300
Percentage of all areas	89	90	90	89	91
50+	600	600	700	500	[1]400
Percentage of all areas	3	3	3	2	2

Incapacity benefit (IB) terminations in years ending November, where a further claim to IB was made within 52 weeks of termination, by age and area and as a percentage of all reclaims

	2000	2001	2002	2003	2004
Under 50	18,800	19,600	18,700	18,200	16,900
Percentage of all areas	87	87	87	86	88

[1] Numbers are based on very few sample cases and subject to a high degree of sampling variation. These should be used as a guide to the current situation only.
[2] Denotes nil negligible.
Notes:
1. Figures are rounded to the nearest hundred.
2. Totals may not sum due to rounding.
Source:
DWP Information Centre, five per cent data.

Tim Loughton: To ask the Secretary of State for Work and Pensions how many people have been disqualified from receiving incapacity benefit under section 171 of the Social Security Contributions and Benefits Act 1992 in each year between 2000 and 2005, broken down by condition of the claimant. [90971]

Mrs. McGuire: Section 171 of the Social Security Contributions and Benefits Act 1992 relates to statutory maternity pay (SMP). Disallowances of incapacity benefit due to receipt of SMP are not recorded centrally and the information could be obtained only at disproportionate cost.

IT Contracts

Mr. Weir: To ask the Secretary of State for Work and Pensions what the value was of each IT contract awarded by his Department in each of the last five years; and who the contractor was in each case. [88968]

James Purnell: Over the last five years the IT contracts awarded by the DWP with associated value is as follows:

	Projects	2005-06	2004-05	2003-04	2002-03	2001-02	£ million Total
Accenture	Customer Information System	17.370	11.600	2.300	—	—	31.270

Jobcentre Plus

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions how many Jobcentre Plus offices have reduced their opening hours in each parliamentary constituency in the last 12 months. [78547]

Mr. Jim Murphy: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your question asking how many Jobcentre Plus offices have reduced their opening hours in each parliamentary constituency in the last 12 months. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

A total of 73 Jobcentre Plus sites have had a reduction in opening hours since 31 May 2005. For approximately half of these sites, the reduction in hours amounts to less than one day per week. It is not possible to provide information broken down by parliamentary constituency, this information is gathered at a district level. The information available is set out in the attached table, a copy of which has been placed in the Library.

Jobcentre Plus Offices will normally open from 9.00 am to 5.00 pm every working day with a later opening one day per week to support staff development. The day of the week will vary from office to office depending on local circumstances. (There are a small number of offices, which operate fewer hours meeting local needs, and these are gradually being phased out). Key stakeholders are consulted on how customer services will be delivered when major changes of opening hours are proposed.

Danny Alexander: To ask the Secretary of State for Work and Pensions what was *(a)* the staffing bill and *(b)* the overtime bill for Jobcentre Plus in each year of its operation to date. [87539]

Mr. Jim Murphy: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie:

The Secretary of State has asked me to reply to your question asking what was the (a) staffing bill and (b) the overtime bill for Jobcentre Plus in each year of its operation to date. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The figures for total staff costs from 2002-03 to 2004-05 are taken from the published Jobcentre Plus Annual Report and Accounts, copies of which can be found in the House of Commons library.

The total staff costs recorded in the annual accounts and the overtime figures in the supporting records for the period 2002-2005 are shown below. The figures for 2005/06 are the unaudited staff and overtime costs from the draft Agency accounts.

£000

	2002-03	2003-04	2004-05	2005-06
Staff costs	1,712,111	1,669,766	1,757,687	1,878,128
of which:				
Overtime costs	24,373	22,853	18,577	23,583

The total staff costs include the salaries of permanent and casual staff, temporary duties allowance, overtime, superannuation costs and payment for early release schemes. There was an increase in staff costs from 2004-05 to 2005-06 of £120 million despite a headcount reduction of over 3,500 whole time equivalents. The main reasons for this were the increase in employer's pension contributions of £65 million and £60 million to fund early retirements to reduce headcount.

Ministerial Offices

Sarah Teather: To ask the Secretary of State for Work and Pensions how many times his ministerial office has been decorated in each of the last five years. [87639]

Mrs. McGuire: The ministerial office has been redecorated once in the last five years as part of a planned maintenance programme. Part of the ministerial office was redecorated in 2004-05, with the remainder being redecorated in 2005-06. The redecoration covered painting and decorating of the office and did not include replacement of fixtures and fittings.

National Insurance

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how much time per applicant is allocated for interviews with applicants for national insurance numbers; and what changes to this time allocation *(a)* have occurred within the last 12 months and *(b)* are planned within the next 12 months. [82626]

Mr. Plaskitt: Jobcentre Plus is currently in the process of rolling out a standard model for the Secure National Insurance Number Allocation Process which allocates 40 minutes per applicant.

Prior to the introduction of this model, there was no fixed allocation of time per applicant.

The whole of Jobcentre Plus will be using this Secure National Insurance Number Allocation process from the end of July 2006.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what percentage of applicants for national insurance numbers were called for face-to-face interviews in the last 12 months for which data are available. [82627]

Mr. Plaskitt: Jobcentre Plus conducted face-to-face interviews for 93 per cent. of national insurance number applicants between June 2005 and May 2006, the last 12 months for which data are available

The remaining 7 per cent. were fast path applicants. Fast path is used for HM Forces, NHS professionals, employers with Home Office approved work permits and people who have sought and been granted asylum

in the UK. NINOs are issued to the latter group without interview because the Home Office provide relevant information gathered during IND interviews with asylum seekers to Jobcentre Plus.

Mr. Clegg: To ask the Secretary of State for Work and Pensions how many people in the UK are recorded as eligible for a national insurance number; and how many are in issue. [79032]

Mr. Plaskitt: No figures are recorded on the number of people in the UK who are eligible to receive a national insurance number. As at July 2006, there are 76.8 million national insurance numbers (NINOs) held on the Departmental Central Index (DCI) (now the Customer Information System (CIS)).

In order to maintain the integrity of the system (and for benefit purposes) NINOs are not removed. For example, they are retained after a person dies or moves abroad. This is because individuals who move abroad may at some point have a call upon contributions paid while in the UK. In the case of deceased individuals, a partner may make a claim for a contributory benefit, which is dependant on the contribution record of the deceased individual. This means that the number of accounts held on the system accrues as NINOs are allocated each year to all UK children who reach 16 years and persons from abroad requiring a NINO are added.

Lynne Jones: To ask the Secretary of State for Work and Pensions how many national insurance numbers are held on the Department's system; how many of these are active; how many of the remainder relate to deceased persons; and what measures are being taken to identify, monitor and close inactive accounts where appropriate. [75337]

Mr. Plaskitt: As at July 2006 there are 76.8 million national insurance numbers (NINOs) held on the Department's Customer Information System (CIS).

In order to maintain the integrity of the system (and for benefit purposes) NINOs are not removed. For example, they are retained after a person dies or moves abroad. This is because individuals who move abroad may at some point have a call upon contributions paid while in the UK. In the case of deceased individuals, a partner may make a claim for a contributory benefit, which is dependant on the contribution record of the deceased individual. This means that the number of accounts held on the system accrues as NINOs are allocated each year to all UK children who reach 16 years and persons from abroad requiring a NINO are added.

Deceased persons accounts and those of people aged over 82 years where there has been no activity on the account for the previous three years are classified as inactive and "flagged" so that any activity on those accounts will automatically prompt internal checks to ensure legitimate access.

The latest available information in respect of deceased persons is for 2003 and was estimated to be 16.5 million.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many cases of suspected illegal immigrants granted national insurance numbers were passed to the Immigration and Nationality Directorate in each quarter since April 1997; and if he will make a statement. [75799]

Mr. Plaskitt *[holding answer 8 June 2006]:* The requested information is only available from April 2005 and is unavailable broken down by quarter. From April 2005 to March 2006, the Department for Work and Pensions (DWP) notified the Immigration and Nationality Directorate of 2,537 cases where national insurance numbers were allocated to suspected immigration offenders. In addition, 772 cases involving suspect documents that have been refused a NINO were notified to the Immigration and Nationality Directorate by DWP.

Dr. Cable: To ask the Secretary of State for Work and Pensions how many national insurance numbers there have been on *(a)* the Departmental Central Index and *(b)* National Insurance Recording Systems 1 and 2 in each year since 1997. [77524]

Mr. Plaskitt: The National Insurance Recording Systems are administered by HM Revenue and Customs, and are a matter for my right hon. Friend, the Chancellor of the Exchequer.

As at July 2006, there are 76.8 million national insurance numbers (NINOs) held on the Departmental Central Index (DCI) (now the Customer Information System (CIS)). Prior to this, only approximate figures can be provided. The available information is in the following table.

Approximate number of NINOs held on DCI/CIS

	million
	Number
1997	66
1998	67
1999	68
2000	69
2001	70
2002	71
2003	72
2004	73
2005	74.5

Note:
DCI/CIS holds both NINOs and Child Reference Numbers (CRNs). The proportion of NINOs to CRNs is not available in precise detail for those years. However, a recent scan of CIS has shown that the precise number of NINOs is 76.8 million (July 2006). The precise number of CRNs is 11.7 million. The figures are rounded to the nearest 100,000.

Mr. Marshall-Andrews: To ask the Secretary of State for Work and Pensions how many national insurance numbers are in operation for persons over 16 years old in England and Wales. [77928]

Mr. Plaskitt: As at July 2006, there are 76.8 million national insurance numbers (NINOs) held on the Departmental Central Index (DCI) (now the Customer Information System (CIS)). These figures relate to the UK, as we are unable to specify separately the numbers for England and Wales.

In order to maintain the integrity of the system (and for benefit purposes) NINOs are not removed. For example, they are retained after a person dies or moves abroad. This is because individuals who move abroad may at some point have a call upon contributions paid while in the UK. In the case of deceased individuals, a partner may make a claim for a contributory benefit, which is dependant on the contribution record of the deceased individual. This means that the number of accounts held on the system accrues as NINOs are allocated each year to all UK children who reach 16 years and persons from abroad requiring a NINO are added.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many temporary national insurance numbers have been issued in each *(a)* month and *(b)* quarter since April 2003; and if he will make a statement. [78393]

Mr. Clegg: To ask the Secretary of State for Work and Pensions what steps the Government have taken to ensure that temporary national insurance numbers are not used to gain access to *(a)* services, *(b)* benefits and *(c)* forms of identification to which the holder is not entitled; and if he will make a statement. [79034]

Mr. Plaskitt: The Department for Work and Pensions (DWP) does not issue temporary national insurance numbers (NINO).

There are exceptional situations where DWP use internal reference numbers in the same format as a NINO to facilitate benefit administration prior to the allocation of a NINO. However, such numbers are not issued to customers. They cannot be used to enter the benefits system, or be used for identification purposes or to gain access to any other services.

Neurological Conditions

Danny Alexander: To ask the Secretary of State for Work and Pensions if he will make a statement on the progression into work of people with neurological conditions and the progression into work of incapacity benefit claimants. [87542]

Mrs. McGuire: 11 per cent. of people with neurological conditions who have joined Pathways to Work between October 2003 and February 2006 have progressed into work.

Information on the number of people with neurological conditions who have progressed into work in the last three years without participating in Pathways is not available.

We know that a large proportion want to work and so we want to ensure that they are given the opportunity to do so. We do not believe in writing anyone off—one of the key principles of our successful Pathways to Work programme is inclusion and support for all.

Personal advisers tailor packages of help and support for individuals with a range of health problems, including neurological conditions. In Pathways to Work areas, Condition Management Programmes aim to help people manage their health condition or disability more effectively, so that they can get the jobs they want.

Notes:

1. The statistics quoted in this response are taken from the Pathways to Work Evaluation Database.
2. Data are to the end of February 2006.
3. Data include information for the extension to existing customers.

Danny Alexander: To ask the Secretary of State for Work and Pensions if he will make a statement about percentage rates of people with neurological conditions who had been claiming incapacity benefit for over 12 months when starting work-focused interviews, compared to other people claiming incapacity benefit for over 12 months. [87543]

Mrs. McGuire: Mandatory work-focused interviews for incapacity benefit customers occur eight weeks after the start of their benefit claim. Therefore no one who started the mandatory work-focused interview process has been in receipt of incapacity benefits for over 12 months.

The exception to this is participants in the mandatory extension of Pathways to Work. They are identified as those being in receipt of benefit between one and three years at the time the mandatory extension commenced. Therefore they have all been in receipt of incapacity benefits for over 12 months.

Only in the first 12 months after roll out would voluntary participants in Pathways to Work have been in receipt of incapacity benefits for less than 12 months. After that period they will all have been in receipt of incapacity benefits for over 12 months as all fresh claims will have been captured by work-focused interviews through Pathways to Work.

Establishing percentage rates of people with neurological conditions who had been claiming incapacity benefit for over 12 months when volunteering for work-focused interviews compared to other people claiming incapacity benefit for over 12 months in that initial period can be obtained only at disproportionate cost.

New Deal

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what percentage of known job entrants from *(a)* new deal for young people and *(b)* new deal 25 plus started jobs that were not sustained beyond 13 weeks duration in each year since the programmes began. [56972]

Mr. Jim Murphy: The information is in the following table.

Percentage of known job entrants who started jobs that were not sustained beyond 13 weeks

	Percentage	
	New deal for young people	*New deal 25 plus*
1998	13	21
1999	18	20
2000	17	16
2001	18	17
2002	19	20

Percentage of known job entrants who started jobs that were not sustained beyond 13 weeks

	New deal for young people	Percentage New deal 25 plus
2003	19	20
2004	22	21
2005	24	23

Notes:
1. Annual data refer to January to December each year, except new deal 25 plus data for 1998 which are from July to December. For both programmes data for 2005 are from January to November.
2. A sustained job is measured as one where there is no subsequent jobseeker's allowance claim within 13 weeks of the job start.

Source:
Information Directorate, DWP

Pathways to Work

Mr. Andrew Smith: To ask the Secretary of State for Work and Pensions what consultation there will be on local partnership arrangements in preparation for the start of provider-led Pathways to Work provision in *(a)* Oxfordshire, *(b)* Berkshire and *(c)* Buckinghamshire from April 2008. [86329]

Mr. Jim Murphy: Provider-led Pathways is scheduled to start in the Oxfordshire, Buckinghamshire and Berkshire district, along with 15 other districts, as part of the final phase of rollout in April 2008.

The Jobcentre Plus Pathways to Work team will hold provider events following the publication of the pre-qualification questionnaire and the invitation to tender to promote local partnership working later this year. They will also work with districts to promote Pathways with local strategic partners in order to encourage them to work in partnership with Pathways providers. They will then run a series of joint workshops with providers, local strategic partners and each district. Partnership working will also be encouraged as part of the local start-up arrangements prior to go-live in April 2008.

Post Office Card Account

Jim Cousins: To ask the Secretary of State for Work and Pensions how many post office card accounts (POCAs) there were in each local authority area in Tyne and Wear in April *(a)* 2004, *(b)* 2005 and *(c)* 2006; and what percentage of customers receiving (i) non-contributory jobseeker's allowance, (ii) the basic state pension and (iii) pension credit did so via the POCA in each area at each date. [86858]

Mr. Plaskitt: Information is not available in the format requested. The following table shows the information which is available.

	Jobseeker's allowance			State pension			Pension credit		
		Accounts paid by POCA			Accounts paid by POCA			Accounts paid by POCA	
Local authority	Total accounts	Number	Percentage	Total accounts	Number	Percentage	Total accounts	Number	Percentage
April 2004									
Gateshead	3,230	80	2.6	31,030	1,260	4.1	12,280	1,210	9.8
Newcastle upon Tyne	5,530	70	1.2	34,840	1,050	3	15,130	1,180	7.8
North Tyneside	3,340	30	0.8	33,090	960	2.9	10,880	720	6.6
South Tyneside	3,900	100	2.5	24,220	990	4.1	10,180	1,110	10.9
Sunderland	5,280	390	7.4	39,980	1,820	4.6	17,640	2,010	11.4
April 2005									
Gateshead	3,300	480	14.6	31,230	9,020	28.9	13,410	6,010	44.8
Newcastle upon Tyne	5,100	1,130	22.2	34,740	9,260	26.7	16,440	7,260	44.1
North Tyneside	3,120	500	16.1	32,950	8,400	25 5	12,230	4,830	39.5
South Tyneside	4,040	760	18.8	24,030	7,780	32.4	11,260	5,230	46.4
Sunderland	4,900	1,080	22.1	40,570	13,500	33.3	19,290	9,290	48.2
April 2006									
Gateshead	3,360	680	20.2	31,240	8,660	27.7	13,350	6,020	45.1
Newcastle upon Tyne	5,540	1,330	24	34,520	8,990	26	16,350	7,350	45
North Tyneside	3,310	570	17.4	32,870	8,020	24.4	12,340	4,920	39.8
South Tyneside	3,930	810	20.5	23,750	7,360	31	11,320	5,300	46.8
Sunderland	6,070	1,230	20.3	40,380	12,990	32.2	19,410	9,400	48.4

Figures refer to benefit and pension payment accounts live and in payment on the specified date. People in receipt of more than one benefit/pension have been counted for each separate benefit/pension in payment. People who have their benefit/pension combined and paid at the same time have only been counted through the paying benefit.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what his latest estimate is of the number of Post Office card account holders who are undischarged bankrupts. [91061]

Mr. Plaskitt *[holding answer 13 September 2006]:* The Department for Work and Pensions has made no estimate of the number of Post Office card account holders who are undischarged bankrupts.

Poverty

Mr. Paice: To ask the Secretary of State for Work and Pensions what proportion of *(a)* children, *(b)* people and *(c)* elderly people in (i) rural areas and (ii) England live in poverty. [88928]

Mr. Jim Murphy: The information for 1996-97 and for 2004-05 is in the following tables.

Proportion of children, all individuals and pensioners falling below 60 per cent. of the contemporary median income, in rural areas: England, 1996-97

Percentages

	Before housing costs	After housing costs
Children	19	27
All individuals	16	21
Pensioners	23	27

Proportion of children, all individuals and pensioners falling below 60 per cent. of the contemporary median income, in rural areas: England, 2004/05

Percentages

	Before housing costs	After housing costs
Children	13	20
All individuals	13	16
Pensioners	20	17

Notes:
1. A pensioner is a person of state pension age or above (65 for men, 60 for women).
2. The urban/rural marker information is not available on a consistent basis on the data for Scotland and Wales.

Family Resource Survey

Questionnaires

Mr. Amess: To ask the Secretary of State for Work and Pensions how many *(a)* questionnaires, *(b)* statistical inquiries and *(c)* investigations have been carried out wholly or partly at public expense on behalf of or by his Department or public bodies for which he is responsible in each year since 1997; and what the (i) nature, (ii) purpose and (iii) cost was of each. [83168]

Mrs. McGuire: This information is not held centrally and could be provided only at disproportionate cost.

Taxation (Disabled People)

Tim Loughton: To ask the Secretary of State for Work and Pensions whether he plans to publish the Tax Benefit Model Tables showing marginal deduction rates for disabled people as part of his Disability Equality Scheme. [90972]

Mrs. McGuire *[holding answer 13 September 2006]:* The Department for Work and Pensions is due to publish its Disability Equality Scheme on 1 December 2006. We are currently considering the appropriate content of the scheme.

Workless Older People

Mr. Waterson: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of people below the state pension age who are not in work who are willing and able to work. [83033]

Mr. Jim Murphy: The most commonly used definition of people who are not in work who are willing and able to work is the International Labour Office (ILO) definition of unemployment. The ILO unemployed are people who are without a job; want a job; have actively sought work in the last four weeks; and are available to start work in the next two weeks.

The latest figures for ILO unemployment (seasonally adjusted) are from the Labour Force Survey and cover the period March to May 2006. This shows that there were 1,623,000 people below state pension age who are not in work who are willing and able to work.

The Government's ambition is to provide employment opportunities for all not only by helping the ILO unemployed get a job but also by helping the

economically inactive—generally those who are not looking for work—to consider work and help them into work.

The combination of macroeconomic stability and welfare to work policies has been successful in achieving high employment rates. The Organisation for Economic Co-operation and Development (OECD), in their re-assessment of their Jobs Strategy, identified the UK as a successful performer. Their latest (2006) Employment Outlook also shows that the UK has the best combination of low ILO unemployment and inactivity rates of all the major G8 countries.

HOME DEPARTMENT

Antisocial Behaviour Orders

Kerry McCarthy: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in Bristol since 1 June 2000; and how many are in force. [44136]

Ms Blears: A table giving a breakdown by the criminal justice system area and local government authority area in which prohibitions are imposed within antisocial behaviour orders (ASBOs) is available on the Crime Reduction website at www.crimereduction.gov.uk. This table gives data by year since ASBOs were introduced up to 30 June 2005 (latest available).

ASBO data are collected centrally on the number of orders issued. Information is not available on the number in force at any given time.

Association for Research (Voluntary & Community)

Mr. Hands: To ask the Secretary of State for the Home Department what funding his Department has given to the Association for Research in the Voluntary and Community Sector in each year since 1997; and what plans it has for further such funding. [88410]

Mr. Coaker: The Association for Research in the Voluntary and Community Sector has been a recipient of Home Office core funding since 1997, when it received £44,414 until 2005-06 when it received £42,033. The Active Communities Directorate (ACD) of the Home Office announced a new strategic funding programme in October 2005, for organisations that could provide a representative and effective 'voice' for the VCS at national level. ARVAC were unsuccessful in their bid for new funding, but as they had received funding in 2005-06 they received a transitional package of funding of £27,000 for 2006-07 to support them in managing the transition. Following the Cabinet reshuffle on 5 May, the Active Communities Directorate (ACD) now forms part of the Office of the Third Sector in the Cabinet Office.

Asylum Seekers

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department how many failed asylum seekers have been evicted from their homes in Coventry South before being deported from the UK in the last 12 months. [39741]

Mr. Byrne: Between 1 January and 31 December 2005, 186 people supported by the National Asylum Support Service (NASS) with addresses within the area of Coventry, South had their support stopped following a final negative decision on their claim for asylum.

The number of main applicants in receipt of section 4 support in Coventry, who had their claims discontinued during this period was 142.

Responsibility for eviction rests with accommodation providers. NASS does not keep a central record showing the number of evictions which are confirmed. However, NASS pays providers for accommodation occupied by asylum seekers only. Consequently providers are not paid for accommodation occupied without authority.

Information of the number of unsuccessful asylum seekers who are removed is provided in the quarterly statistics which can be found at:

http://www.homeoffice.gov.uk/rds/immigration1/html

The statistics do not show where a person was living prior to removal and this information could be obtained only at disproportionate cost.

John Battle: To ask the Secretary of State for the Home Department how many asylum seekers are detained in HM Prison Armley, Leeds. [49111]

Fiona Mactaggart: From the information available 11 prisoners in Leeds prison have either had an asylum application rejected, or have an asylum application outstanding.

Lynne Jones: To ask the Secretary of State for the Home Department how many failed asylum seekers are in receipt of the National Asylum Support Service section 4 support, broken down by *(a)* nationality, *(b)* accommodation provider, *(c)* region and *(d)* length of time on section 4 support. [65981]

Mr. McNulty: As at the end of December 2005 there were 5,181 failed asylum seekers in receipt of section four support. This figure is based on management information.

The breakdowns are presented in the following tables.

Section 4 support statistics are published on a quarterly basis. Figures relating to the first quarter of 2006 will be published on 23 May 2006. These will be available from the Libraries of the House and on the Home Office Research, Development and Statistics website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Figures provided for the breakdown of accommodation providers are a snapshot and contract provision is under review.

Average number of days in accommodation (rounded to the nearest whole) = 279.

Lyn Brown: To ask the Secretary of State for the Home Department (1) what assessment his Department has made of allegations of persecution of repatriated asylum seekers by the authorities in the Democratic Republic of Congo; [71417]

(2) whether his Department continues to regard the Democratic Republic of Congo as a country to which it is suitable to repatriate failed asylum seekers. [71418]

Mr. McNulty: We are aware of allegations such as those raised by the BBC in late 2005 that failed asylum seekers are subject to mistreatment on return. However, we have found that there is no objective evidence to support allegations outside of sources known to be sympathetic to the plight of asylum seekers or who specifically provide assistance to individual Congolese claimants. While it is impossible to rule out the potential for individual officials to act on their own account, we have seen no corroborated evidence that

they do so, nor that the Democratic Republic of Congo authorities have a policy of deliberately targeting failed asylum seekers for special attention.

In early 2006, the UNHCR's Kinshasa Office consulted a number of domestic and international human rights organisations and other relevant NGOs based in the capital about the authorities' treatment of returning failed asylum seekers. The UNHCR inquiries found that apart from encountering questioning and possibly temporary detention, there is no evidence to suggest that returning Congolese nationals face systematic mistreatment or that returning failed asylum seekers are at greater risk of scrutiny by the authorities than any other profile of Congolese national returning home.

Mr. Iain Wright: To ask the Secretary of State for the Home Department how many asylum seekers there are in each ward in Hartlepool constituency. [72596]

Mr. McNulty: The number of asylum seekers supported by the National Asylum Support Service (NASS) are published on a quarterly and annual basis, broken down by Government office region and local authority. The next publication covering the first quarter of 2006 will be published on 23 May 2006, and will be available on the Home Office Research Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Dr. Kumar: To ask the Secretary of State for the Home Department how many asylum seekers who claim to be fleeing persecution on the grounds of their sexual orientation have been *(a)* refused and *(b)* granted asylum in the UK in the last 10 years. [87967]

Mr. Byrne: The information requested is not available and could be obtained only by examination of individual case records.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many asylum claims have been deemed to be unfounded in each of the last five years. [88451]

Mr. Byrne: Information on the number of asylum claims deemed to be unfounded is available from 2004 and has been published as part of the public performance target: removing more failed asylum seekers than new anticipated unfounded applications. Copies of this report are available at the IND website:

http://www.ind.homeoffice.gov.uk/6353/aboutus/tippingpointsresults.pdf

The next report covering the second quarter of 2006 will be published on 22 August 2006.

Bail Act

Mr. Hollobone: To ask the Secretary of State for the Home Department what recent assessment he has made of the operation of the Bail Act 1976 in relation to persistent and prolific offenders. [91109]

Mr. Sutcliffe *[holding answer 18 September 2006]:* There has been no assessment of the operation of the Bail Act 1976 in relation to persistent and prolific offenders.

The Bail Act requires the courts to take into account, among other things, a defendant's previous criminal history when making the remand decision.

As part of the Prolific and other Priority Offender Programme, launched by the Prime Minister in 2004, the criminal justice agencies are all operating a Premium Service to ensure that those offenders are prioritised through every stage of the criminal justice system.

The National Premium Service Specification provides guidance that there should be a presumption against use of police bail for prolific and other priority offenders, and that remand or conditional bail should be sought for all such cases. It is, of course, a matter for the court to decide on the remand status of the defendant, based on all the circumstances of the case.

When a defendant is released on conditional bail, the National Premium Service Specification also requires that the defendant be carefully monitored and that any breach of bail be dealt with robustly.

Biometric Passports

Mr. McGovern: To ask the Secretary of State for the Home Department whether he has considered allowing people to pay for their passport in instalments when biometric passports are introduced. [66897]

Andy Burnham: There are currently no plans to introduce payment by instalments for biometric passports and there has been no pressure from customers to date to do so. In terms of the future fees strategy we will explore all aspects of charging including methods of fee collection but any changes will need to be focussed in terms of efficiency and minimising administrative costs.

British Crime Survey

Justine Greening: To ask the Secretary of State for the Home Department what estimate his Department has made of the number of crimes committed against under 16-year-olds which may have been omitted from the British Crime Survey due to it interviewing only those aged 16 years and over; and if he will make statement. [90571]

Mr. McNulty *[holding answer 7 September 2006]:* Information on the extent and nature of personal victimisation of young people, including those aged 10 to 15, is published in the Home Office Statistical bulletin 20/05 Young people and crime: findings from the 2004 Offending, Crime and Justice Survey (Appendix D), and in Home Office Findings 246 The victimisation of young people: findings from the 2003 Crime and Justice Survey, copies of which are available from the Library and from the Home Office website at: http://www.homeoffice.gov.uk/rds/offending_survey.html

Business Crime Group

Mr. Davey: To ask the Secretary of State for the Home Department what funding has been allocated to the British Retail Consortium to enable it to run the Action Against Business Crime Group beyond August 2006. [70772]

Mr. McNulty: The business crime strategy for 2006-07 has not yet been finalised.

Cannabis

Tim Loughton: To ask the Secretary of State for the Home Department how much has been spent on cannabis education programmes since the reclassification of cannabis; and if he will make a statement. [88015]

Mr. Coaker: The Government takes an integrated approach to educating young people on the harms of all illegal drugs, for example through the "Frank" campaign. However, since the reclassification of cannabis in 2004 a total of £1.5 million has been spent on specific cannabis communications.

Civil Servants (Overseas Visits)

Mr. Jenkins: To ask the Secretary of State for the Home Department what costs were incurred by his Department as a result of sending civil servants on overseas visits in each of the last 10 years. [46282]

John Reid: Overall expenditure figures for overseas travel and subsistence for Home Office civil servants for the years 1996 through 2006, where available, are recorded in the table.

Travel undertaken on Home Office business is compliant with the Civil Service Management Code, the code is available to all staff who undertake an approved visit abroad.

All figures are rounded to the nearest £1,000 and are presented by Financial Year.

Figures for Financial Year 1996-97 are not available due to a change of accounting system.

Figures for Financial Year 2005-06 are part year to date as at 25 January 2006.

Financial Year	£	*Percentage change*
1997-98	3,209,000	—
1998-99	2,321,000	-28
1999-2000	3,878,000	67
2000-01	2,982,000	-23
2001-02	4,836,000	62
2002-03	5,947,000	23
2003-04	10,147,000	71
2004-05	10,269,000	1.2
2005-06 (to date)	7,765,000	—

Community Orders

Mrs. Dean: To ask the Secretary of State for the Home Department what assessment has been made of the pilot schemes on withholding benefits from persons who are in breach of a community order; and whether the results will be published. [88308]

Mr. Sutcliffe: The Home Office and DWP jointly undertook to pilot a scheme to apply a benefits sanction to offenders found to be in breach of their community sentence. The scheme was piloted in four probation areas—Derbyshire, Hertfordshire, West Midlands, and Teesside from October 2001. An evaluation report published in February 2004 concluded the policy had a small impact on compliance (1.8 per cent.) suggesting that for every 50 community sentences given, one less resulted in breach initiation as a result of the policy. The results of a further monitoring period proved inconclusive with regards to improvement of offender compliance. This is because the period coincided with other initiatives to improve compliance some of which gave significantly higher improvement than the benefits sanctions pilot.

Consultations

David Simpson: To ask the Secretary of State for the Home Department how many public consultations his Department undertook in 2005; and what the cost was *(a)* in total and *(b)* of each consultation. [72876]

Mr. Byrne: Over the year 2005 the Home Office undertook 18 formal public consultations in order to inform the Department's policy development. Information on the cost of each consultation and the total cost of all consultations could be provided only at disproportionate cost.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he will to reply to the letter to him dated 15 June from the right hon. Member for Manchester, Gorton, with regard to Mr. Faiz Mohamed Choudry. [19509]

John Reid: My Department has no record of receiving your previous correspondence dated 15 June 2005. However, on 10 August 2006 I wrote a full reply to the right hon. Member regarding Mr. Choudry's wife, Ms Nusrat Bibi.

Lynne Featherstone: To ask the Secretary of State for the Home Department what the average time taken to respond to hon. Members' correspondence to *(a)* the immigration and nationality directorate (IND) and *(b)* the IND removals correspondence team was in the last period for which figures are available; and if he will make a statement. [41886]

John Reid: As of the first of January the average response time for letters received from Members during 2005 on immigration and nationality directorate (IND) related matters was 36 working days in respect of correspondence on enforcement and removals matters and 24 days for correspondence on IND matters as a whole. The final figure for the average response time to letters received in 2005 will not be available until all those letters have been answered.

Volumes of Members' letters on IND matters have grown considerably in recent years. In 2003 there were 24,700 letters and in 2004 35,800. The figure for 2005 will be reported shortly by the Cabinet Office in its annual report on performance on correspondence handling by all Government Departments. This will show a further substantial increase in letters for the IND.

The enforcement and removals directorate (ERD) is the business area within the IND which receives the most letters. In early December the ERD introduced

new ways of working which should result in significant improvements in its performance on handling Members' correspondence. This approach, which was already in place across the rest of the IND, draws a distinction between Members' letters which engage substantively with a case and those which are simply inquiring about case progress.

Mr. Sanders: To ask the Secretary of State for the Home Department when he expects to reply to the letter from the hon. Member for Torbay of 31 October 2005 regarding Dr. Winnie French. [64724]

Mr. McNulty: I wrote to the hon. Member for Torbay on 24 April 2006.

Tony Lloyd: To ask the Secretary of State for the Home Department what his target time is for responding to hon. Members' letters; how long it took to respond to the letter from the hon. Member for Manchester, Central concerning Ruth Kelly (Home Office Reference Number W1000680) of *(a)* 21 July 2005 and *(b)* 16 September 2005; and if he will make a statement. [64803]

John Reid: The target for responding to hon. Members' letters is to send a reply within 20 working days. I responded to my hon. Friend's letters concerning Ruth Kelly of *(a)* 21 July 2005 on 12 September 2005 and *(b)* 16 September 2005 on 14 March 2006.

Volumes of Members' letters on Immigration and Nationality Directorate (IND) matters have grown considerably in recent years. In 2003 there were 24,700 letters and in 2004 there were 35,800—a year on year increase of 45 per cent. In 2005 IND received 41,200 letters, an increase of a further 15 per cent.

The Enforcement and Removals Directorate (ERD) is the business area within the IND which receives the most letters. In December 2005 the ERD introduced new ways of working which should result in significant improvements in its performance on handling Members' correspondence. This approach, which was already in place across the rest of the IND, draws a distinction between Members' letters which engage substantively with a case and those which are simply inquiring about progress.

Court Production Orders

Mr. Crabb: To ask the Secretary of State for the Home Department (1) what his policy is on police refusing to obtain a court production order on the grounds *(a)* of cost and *(b)* that the victim has suffered small financial loss; [66636]

(2) whether there are Government guidelines on thresholds for the level of financial loss that a victim of crime needs to suffer before the police may pursue a court production order as part of their investigations. [66900]

Ms Blears: It is an operational matter for the police to decide in each case whether to apply to a court for a production order under the Proceeds of Crime Act 2002 or earlier legislation.

The Home Office published a code of practice in 2003 which includes guidance to the police and other agencies on obtaining production orders. Under the legislation and the code, the police need to ensure that an application for an order is fully and clearly justified. There also must be reasonable grounds for believing that the material or information requested is likely to be of substantial value to a confiscation investigation or money laundering investigation. The level of financial loss to a victim is likely to be one of a number of factors that the police take into account when considering whether to apply for an order.

The courts have powers to make compensation orders against convicted persons in respect of financial loss to victims.

Crime Statistics

Mr. Wills: To ask the Secretary of State for the Home Department how many incidents there have been of violent crime committed by people under 21 years in the Swindon area in each year since 1997. [50614]

Ms Blears: The information requested is not collected centrally. It is not possible to identify the age of victim or suspect from the recorded crime statistics.

Dr. Kumar: To ask the Secretary of State for the Home Department (1) how many people have been convicted of *(a)* (i) racist and (ii) homophobic crimes and *(b)* religiously aggravated crimes in each year since 1997 in (A) each region in England and (B) the Tees Valley; [67192]

(2) how many people have been convicted of crimes against *(a)* Jews, *(b)* Muslims, *(c)* Hindus, *(d)* Sikhs and *(e)* Christians in (i) each region in England and (ii) the Tees Valley in each year since 1997. [67193]

Mr. Sutcliffe: Data from the court proceedings database held by the Office for Criminal Justice Reform on the number of persons convicted at all courts for offences relating to race, or religion, by region in England, are contained in the following table. It is not possible to separately identify the Tees Valley, as the data are not collected at this level of detail, therefore data for Cleveland police force area have been provided in lieu of Tees Valley. It is not possible to separately identify the specific religion, race, or gender orientation of the victim from the data as information about the victim is not collected.

The Crime and Disorder Act 1998 Sections 4A, 29, 31, 32, and 47, came into effect in late 1998. There were no convictions pre 1999. Offences involving religious aggravation were separately identified in the data collected from the start of 2002.

Statistics for 2005 court proceedings will be available in the autumn of 2006.

Number of people found guilty at all courts, for offences relating to racism, and religious intolerance, in the north east region of England, 1999 to 2004[1]

Criminal Justice System (Employer Coalitions)

Mr. Bellingham: To ask the Secretary of State for the Home Department if he will make a statement on the role of employer coalitions in the criminal justice system. [62771]

Mr. Sutcliffe: Developing on the proposal in the Government's Green Paper on Reducing Re-offending Through Skills and Employment, the National Employment Panel will be piloting the role of Job Developers in up to six major cities. Job Developers will be recruited in the Autumn and will work with the National Offender Management Service's Regional Offender Managers, and employment and training agencies, to identify suitable jobs for offenders. Getting offenders into sustainable employment will contribute to the Home Office aim of reducing re-offending.

Criminal Records Bureau

Simon Hughes: To ask the Secretary of State for the Home Department what the average time between the receipt of an application for a Criminal Records Bureau check and the full formal response was in each year from 2000 to 2005; and what the average time was for applications submitted since the beginning of 2006. [91238]

Joan Ryan *[holding answer 18 September 2006]:* I refer the hon. Member to my written answer of 12 June 2006, *Official Report*, column 1025W. It is important to note that the Published Service Standards are measured from receipt of a fully and correctly completed application form to the despatch of the completed Disclosure.

Departmental Staff

Bob Spink: To ask the Secretary of State for the Home Department how many staff in his Department are paid on a performance-related basis. [50493]

John Reid: All staff in the Home Department are paid on a performance related basis. Staff must meet a minimum acceptable standard to receive a pay award. In Prison Service and non-agency Home Office, staff who achieve an exceptional standard will in addition receive a performance bonus. In UKPS, a corporate bonus is awarded to all staff depending on the targets achieved by their local office / HQ.

Deportation

Tony Baldry: To ask the Secretary of State for the Home Department when he expects Misha Goravoy, reference TA4581, who completed his prison sentence at Bullingdon Prison three months ago, to be deported. [76125]

Mr. Byrne: It is not the policy of the Department to comment on the specific details of individual cases in the public domain. However, if the hon. Gentleman wishes to write to me with detailed representations on this matter and sets out the basis of his interest in this case I will consider these further.

Mr. Weir: To ask the Secretary of State for the Home Department how many people from each Commonwealth country have been deported in each of the last five years. [89063]

Mr. Byrne: Up until 2002, published information is available on the total number of persons against whom deportation action was initiated, in the Control of Immigration: Statistics United Kingdom Command Paper. Published editions of this Command Paper and other information on immigration and asylum are available on the Home Office's Research Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Information on deportation action was not available for 2003 due to data quality issues in this area. Information for 2004 has been published provisionally and may be revised in the 2005 Control of Immigration: Statistics United Kingdom Command Paper publication. The Immigration and Nationality Directorate is currently putting in place new processes to improve its data collection systems for the future in this area.

Peter Luff: To ask the Secretary of State for the Home Department pursuant to his answer of 18 July to question 68798, what role his Department plays in setting the contractor's operating procedures for the treatment of foreign nationals being deported; how many such contractors there are; and if he will place in the Library the operating procedures for each contractor. [87901]

Mr. Byrne: The contractor's operating procedures follow the guidance given in a series of detention service orders, issued by this Department to establish standards for immigration removal centres and escorting. Detention service orders are publicly

available. In addition, we are in the process of developing escorting standards, which when published will also be publicly available. The contract for overseas escorting is held by G4S Justice Services Ltd. Two other companies are also approved to carry out overseas escorts. The operating procedures will be placed in the Library. However, it may be necessary to redact certain sections for the safety and security of detainees and staff.

Detention Estate Population Management Unit

Damian Green: To ask the Secretary of State for the Home Department whether the Detention Estate Population Management Unit plans to introduce a real time electronic database of those immigration offenders currently detained. [91251]

Mr. Byrne *[holding answer 18 September 2006]*: The Detention Estate Population Management Unit (DEPMU) maintains a record of all detainees in the custody of the escorting contractor and main Removal Centres. These records are in the process of transferring to the main casework information database (CID) used by the Immigration Nationality Directorate caseholders.

Drug Classification

Paul Flynn: To ask the Secretary of State for the Home Department what discussions his Department had with *(a)* outside bodies and experts and *(b)* the Advisory Council on the Misuse of Drugs before classifying (i) benzodiazepines, (ii) khat, (iii) ecstasy and (iv) magic mushrooms. [48709]

Paul Goggins: I will address each of the four substances in turn:

(i) Benzodiazepines

(a) The Home Office has not been in discussions with outside bodies other than occasional correspondence with members of the public and the lobby group "Beat the Benzos".

(b) Benzodiazepines were first brought under the controls of the Misuse of Drugs Act 1971 in 1986 following consultation with the Advisory Council on the Misuse of drugs (ACMD). The ACMD considered the classification of these drugs again in 2004 following representations from the "Beat the Benzos" group, but did not recommend any alteration to the classification.

(ii) Khat

(a) The Home Office commissioned two pieces of work on khat, by Turning Point and MACRO, in addition to receiving a number of pieces of correspondence from members of the public and community groups.

(b) The issue of Khat was referred to the ACMD in March 2005. They established a Khat working group to consider the issue in detail and report back to the full council. The council published its report and recommendations in January 2006 and their recommendations were accepted in full.

(iii) Ecstasy

(a) The Home Office as not been in discussions with any outside bodies about ecstasy.

(b) Ecstasy was placed in class A on the recommendation of the ACMD in 1977. In 1996 the ACMD convened a special meeting to discuss ecstasy following a number of deaths. They did not make any recommendation to change the classification.

(iv) Magic mushrooms

(a) The Home Office has not been in discussions with any outside bodies about magic mushrooms.

(b) The recent legal alteration to the position of magic mushrooms under the Misuse of Drugs Act 1971 was primarily a matter of legal clarification. We wrote to the ACMD, and asked for its views on our proposals, before the Drugs Bill was introduced. The ACMD agreed that a clarification of the legal position was necessary. In addition, they approved the associated regulations.

Drug Treatment Programmes

David Davis: To ask the Secretary of State for the Home Department how many inmates in prisons in England and Wales have *(a)* successfully completed and *(b)* started but failed to complete a drug treatment programme. [47700]

Fiona Mactaggart: Figures for 2004-05 showed that *(a)* 4,902 prisoners successfully completed a drug treatment programme and *(b)* 2,719 failed to complete—a completion rate of 64.3 per cent. During that year the target for successful completions was 60 per cent. The target for 2005-06 is 65 per cent. completion.

Electronic Borders

Mr. Andrew Turner: To ask the Secretary of State for the Home Department pursuant to the Prime Minister's oral answer of 17 May 2006 to the right hon. Member for Witney (Mr. Cameron), *Official Report*, column 991, what his timescale is for introducing electronic borders; and what proposals he has to introduce identity cards for foreign nationals. [73200]

Mr. Byrne *[holding answer 23 May 2006]*: The e-Borders programme is currently at the procurement stage. Implementation will take place thereafter with full e-Borders capability by 2014.

As outlined in the Immigration Nationality Directorate Review of 2006, biometric identity management for foreign nationals will be introduced from 2008.

Extreme Pornography

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the terms of reference were of the consultation on the possession of extreme pornography; and when he expects to publish a response to the consultation. [49855]

Fiona Mactaggart: The Consultation on the Possession of Extreme Pornographic Material, which we announced on 30 August, sought views on four options for creating a new offence of simple possession of extreme pornographic material containing explicit actual scenes or realistic depictions of:

i) intercourse or oral sex with an animal;

ii) sexual interference with a human corpse;

iii) serious violence in a sexual context;

iv) serious sexual violence.

By "serious violence" we mean violence in respect of which a prosecution of grievous bodily harm (GBH) could be brought in England and Wales.

One of the purposes of the consultation was to seek views on the categories and definitions which were outlined. The consultation period ended on 2 December 2005 and nearly 400 responses were received covering a wide spectrum of views. A Government response is due in March.

Foreign Nationals (UK Entry)

Paul Holmes: To ask the Secretary of State for the Home Department how many foreign nationals entered the United Kingdom for the purpose of *(a)* business, *(b)* tourism and *(c)* immigration in each year since 1997. [88241]

Mr. Byrne *[holding answer 24 July 2006]:* The requested figures are in the table from the Home Office Statistical Bulletin "Control of Immigration: Statistics United Kingdom" publication for the years 1997 to 2004. 2005 figures will be published on 22 August 2006 in the Command Paper "Control of Immigration: Statistics, United Kingdom 2005", and may be obtained from the Library of the House and from the Home Office website http://www.homeoffice.gov.uk/rds/immigration1.html

Foreign Prisoners

Jo Swinson: To ask the Secretary of State for the Home Department how many foreign nationals convicted of serious offences and serving sentences in Scottish prisons have been *(a)* recommended for deportation by a court, *(b)* considered for deportation by his Department, *(c)* deported by his Department and *(d)* released without deportation at the end of their sentence since January 1999. [67593]

Mr. Byrne: I refer the hon. Member to the most recent written ministerial statement of 23 May 2006, *Official Report*, column 77WS. My right hon. Friend the Home Secretary set out in this statement the eight priority areas for management action to deliver our long term agenda for change on radically improving the system for deporting foreign national prisoners. The sixth point deals specifically with the position in Scotland and Northern Ireland concerning foreign national prisoners. We shall update the House with our progress on this point shortly.

Anne Main: To ask the Secretary of State for the Home Department how many of the released foreign prisoners being sought by the police are on the Sex Offenders Register. [69655]

Joan Ryan *[holding answer 9 May 2006]:* My right hon. Friend the Home Secretary has updated the House on this matter today in a written ministerial statement, and the Director General of the Immigration and Nationality Department (IND) has written to the Chairman of the Home Affairs Select Committee today on the number of cases where foreign national prisoners were released without proper deportation consideration. A copy of the letter has been placed in both Libraries.

Mr. Spellar: To ask the Secretary of State for the Home Department pursuant to his answer of 18 April 2006, *Official Report*, column 337W, on prisons, how many cases of *(a)* foreign nationals and *(b)* dual nationals have been referred to the Immigration and Nationality Directorate by the Prison Service in each of the last three years. [67004]

Mr. Byrne: My right hon. Friend the Home Secretary and his predecessor have provided regular statistical updates to the House on the number of cases where foreign national prisoners were released without proper deportation consideration. In particular I refer my right hon. Friend to the most recent written ministerial statements of 15 and 23 May 2006. We will continue to update the House on the 1,019 cases as we work through these and urgently recheck the information we hold to ensure that any further information we provide to the House is as accurate as possible. We aim to provide a further update to the House by the end of June.

Ms Abbott: To ask the Secretary of State for the Home Department what steps the Immigration and Nationality Directorate is taking to encourage the voluntary return of failed asylum applicants in detention for criminal offences. [67494]

Mr. Byrne: The Voluntary Assisted Return and Reintegration Programme (VARRP) is the voluntary return programme for all failed asylum seekers and is currently open to convicted prisoners who are subject to control under the Immigration Act, and who have finished serving sentences of less than 12 months.

David T.C. Davies: To ask the Secretary of State for the Home Department how many prisoners have been deported *(a)* before their non-parole release date (NPD) and *(b)* on, or shortly after, their NPD, in each of the last five years. [45873]

Fiona Mactaggart: Information in the form requested is not available without disproportionate cost.

Ian Missing

Mr. Burns: To ask the Secretary of State for the Home Department if he will make a statement on the conclusion of the review commissioned by Essex Police and Essex Probation Services, on the case of Mr. Ian Missing, that their new enhanced measures of sharing information are in breach of national guidelines; and if he will make the necessary changes to national guidelines to address the situation. [46269]

Fiona Mactaggart: The guidance on information sharing referred to in the review accompanies the national standards for the probation service in the production of pre-sentence reports. It is for use by the Crown Prosecution Service. While it does not specify any police-held information that should be excluded, it only stipulates what must be included. Providing additional information, such as previous arrests, would not, technically, be in breach of agreed guidelines. As a result of the report the NPD will involve the national Police and the CPS in clarifying the guidance.

Identity Cards

Mr. Hayes: To ask the Secretary of State for the Home Department how much funding his Department allocated to the London School of Economics for research into identity cards. [68570]

Joan Ryan: The Home Office has not provided funding to the London School of Economics for research into identity cards.

Identity Databases

Bob Spink: To ask the Secretary of State for the Home Department what estimate he has made of the number of people in each ethnic group who will be registered on the national DNA database by January 2007. [42908]

Andy Burnham: The Home Office estimates are based on financial years, running April to March. The estimated numbers of people from England and Wales in each ethnic appearance group recorded on the National DNA Database by April 2007 are shown in the following table.

Estimate at April 2007

Ethnic appearance	*Number*
Afro-Caribbean	257,099
Arab	36,728
Asian	183,642
Dark skinned European	55,093
Oriental	22,037
White skinned European	3,008,063
Other	110,185

Immigration and Nationality Directorate

Mr. David Jones: To ask the Secretary of State for the Home Department how many officers of the immigration and nationality directorate are stationed permanently at the port of Holyhead. [88324]

Mr. Byrne: As all ferry services to Holyhead are from the Republic of Ireland (within the common travel area), no officers are based permanently there.

David Davis: To ask the Secretary of State for the Home Department what extra resources have been recently allocated to the immigration and nationality directorate security and anti-corruption unit's data mining capability; and when those resources were allocated. [73707]

John Reid: We do not comment on operational security issues.

Immigration Officers

Damian Green: To ask the Secretary of State for the Home Department what assessments are undertaken at point of entry to the UK to check the performance of *(a)* assistant immigration officers, *(b)* immigration officers and *(c)* chief immigration officers; and if he will make a statement. [91274]

Mr. Byrne *[holding answer 18 September 2006]:* Managers within the Immigration Service are required to complete performance and development reviews in conjunction with members of their team (including chief immigration officers, immigration officers and assistant immigration officers) in order to assess their competencies and performance. Jobholders are given the opportunity to comment on assessment of their performance and the process is completed by the countersigning manager or head of unit.

Immigration Removal Centres

Damian Green: To ask the Secretary of State for the Home Department pursuant to the answer to the hon. Member for Walthamstow, of 16 June 2006, *Official Report*, column 1423W, on immigration removal centres, what the average cost was, including overheads, of holding a *(a)* man and *(b)* woman at an immigration removal centre for one week in 2005-06. [88183]

Mr. Byrne: The average estimated cost of holding a person in immigration removal centres, including overheads, for one week in 2005-06 was £1,230. It is not possible to distinguish costs between male, female and family detainees. Overheads include the costs of escorting, Immigration Nationality Directorate (IND) Detention Services staff and an allocation of IND and central Home Office overheads.

This average cost calculation excludes the three centres operated by Her Majesty's Prison Service (HMPS), as those HMPS/National Offender Management Service overheads which are not relevant to removal centres are not readily discernible.

Damian Green: To ask the Secretary of State for the Home Department what the average cost was including overheads, of transporting *(a)* a man and *(b)* a woman between immigration removal centres. [88232]

Mr. Byrne: The information is not held in the form requested and could be provided only at disproportionate cost.

Immigration Report 2004

Damian Green: To ask the Secretary of State for the Home Department pursuant to the answer of 4 September 2006, *Official Report*, column 1841W, on the Review of Resourcing and Management of Immigration Final Report 2004, which of the 20 recommendations he considers to be no longer relevant. [91273]

Mr. Byrne *[holding answer 18 September 2006]:* The report, "The Review of Resourcing and Management of Immigration Enforcement", made 20 recommendations.

19 of the 20 recommendations have been actioned and one (no further change projects or reviews for at least one year) is no longer considered relevant.

Immigration Stamps

Justine Greening: To ask the Secretary of State for the Home Department what processes are undertaken when transferring long-held immigration stamps. [91135]

Mr. Byrne *[holding answer 18 September 2006]:* Individuals who request the transfer of long-held immigration stamps need to complete a form and pay a fee of £160 for a postal application or £500 for a same day premium service. In certain limited circumstances no fee is payable. Checks for previous grants of leave, proof of identity and any further inquiries are then made.

Provided all criteria are met, IND will place a No Time Limit or Transfer of Conditions stamp into the individual's new passport.

Information Technology

Mr. Weir: To ask the Secretary of State for the Home Department which IT contracts awarded by his Department in each of the last five years have been abandoned; and what the value was in each case. [88987]

Mr. Byrne: In the last five years there has been only one IT contract abandoned by the Home Department. This was cancelled in 2006 and was a contract for an Electronic Document Records Management (EDRM) system. The value of this contract was £32 000.

Inmate Information System

John Hemming: To ask the Secretary of State for the Home Department what fields of data are stored in the Inmate Information System (IIS); for what reason information on deportation order recommendations were not stored in the IIS; and if he will ensure that such information is stored in the IIS in the future. [69867]

Mr. Byrne: The Inmate Information System (IIS) records a large number of fields covering personal, offence and sentence details and disciplinary adjudications. It can identify a prisoner as a deportee but only when they are not also serving a custodial sentence. When IIS was introduced, the numbers of foreign national prisoners recommended for deportation were relatively small. IIS is to be replaced by the C-NOMIS system from 2007 and this will record recommendations for deportation.

Lebanese Nationals

Mr. Walter: To ask the Secretary of State for the Home Department how many Lebanese nationals are residing in the United Kingdom under tourist visas; and what provisions are in place for their future stay if their visas run out while hostilities in Lebanon continue. [90600]

Mr. Byrne *[holding answer 11 September 2006]:* The available, provisional, information is that in the first six months of 2006 around 7,000 Lebanese nationals entered the United Kingdom as visitors. The maximum permissible stay for a visitor is six months.

During the conflict, provision was made for Lebanese nationals to apply to remain on human rights grounds and none were forcibly removed. Those who wish to remain on humanitarian grounds despite the ceasefire of 2 August are still free to apply.

Licensing Act

Mr. Moss: To ask the Secretary of State for the Home Department how much additional funding was made available to police forces specifically to tackle binge drinking and alcohol misuse at the time the Licensing Act 2003 came into force; what the timescale was for such funding; and what the take-up was by each police force, including the Metropolitan Police. [51183]

Ms Blears: During the period from November to January a total of £2.6 million was made available to police forces and Trading Standards Authorities to tackle alcohol binge drinking and alcohol misuse. The breakdown for the individual forces is in the following table:

Force	*Funding allocated[1] by PSU (£)*
Avon and Somerset	62,000
Bedfordshire	30,000
British Transport Police	30,000
Cambridgeshire	30,000
Cumbria	9,000
Cheshire	23,000
Cleveland	20,000
Derbyshire	19,000
Devon and Cornwall	33,000
Dorset	9,000
Durham	13,000
Dyfed-Powys	19,000
Essex	42,000
Gloucestershire	20,000
Greater Manchester	210,000
Gwent	30,000
Hampshire	51,000
Hertfordshire	30,000
Humberside	55,000
Kent	41,000
Lancashire	60,000
Leicestershire	40,000
Lincolnshire	23,000
Merseyside	105,000
Metropolitan Police Service	428,000
Norfolk	9,000
North Wales	23,000
North Yorkshire	16,000
Northamptonshire	34,000
Northumbria	62,000
Nottinghamshire	72,000
South Wales	123,000
South Yorkshire	36,000
Staffordshire	33,000
Suffolk	18,000
Surrey	12,000
Sussex	40,000
Thames Valley	43,000
Warwickshire	13,000
West Mercia	15,000
West Midlands	189,000
West Yorkshire	94,000

Force	Funding allocated[1] by PSU (£)
Wiltshire	6,000
City of London	6,000
Total	[2]2,269,000

[1] Amount actually paid will depend on satisfactory data returns, etc.
[2] In addition to this, £350,000 was allocated to Trading Standards Authorities by PSU, making a total of £2,619,000.

The funding was allocated for activity between 14 November and 8 January.

Methylamphetamine

Bob Spink: To ask the Secretary of State for the Home Department what research he has *(a)* commissioned and *(b)* evaluated on the misuse of methylamphetamine. [49293]

Paul Goggins: The Government primarily takes their advice on controlled drugs from the Advisory Council on the Misuse of Drugs (ACMD).

The key evidence commissioned and considered by the Government on Methylamphetamine is the ACMD Methylamphetamine Report published in November 2005 and is available at www.drugs.gov.uk via the ACMD web-pages.

We have not specifically commissioned any other work, although we do take a close interest in other reports that are published.

Motoring Offences (Women)

Mr. Amess: To ask the Secretary of State for the Home Department what the 10 most common motoring offences were for which women were *(a)* prosecuted, *(b)* convicted, *(c)* fined and *(d)* sent to prison in England and Wales in 2005-06, broken down by age group. [71078]

Mr. Sutcliffe: Information is not yet available.

Since it takes several months for court proceedings data to be received by the Office for Criminal Justice Reform, 2005 motoring offences data will not be available until early in 2007. Data for 2006 will not be available until early in 2008.

Parliamentary Questions

Damian Green: To ask the Secretary of State for the Home Department when he will reply to Question 78420, on suicide attempts at Colnbrook Detention Centre, tabled by the hon. Member for Ashford for answer on 16 June 2006. [88243]

Mr. Byrne: Between 1 January 2006 and 30 June 2006 there have been 461 cases where detainees at Colnbrook Removal Centre have been placed on Formal Self Harm At Risk procedures. 49 detainees required medical treatment during this period as a result of self-harm incidents. Detainee Custody Officers in all removal centres are trained to the standard delivered within the Prison Service to help identify and prevent suicide and self harm. They are also trained in accordance with their particular centre's own suicide and self-harm prevention strategy and procedures. Additionally, notices in various languages are displayed in all centres setting out that, where a detainee has a concern about a fellow detainee, this should be brought to the attention of a member of staff.

Damian Green: To ask the Secretary of State for the Home Department when he will reply to Question *(a)* 75778 and *(b)* 75781, on biometric cards, tabled by the hon. Member for Ashford for answer on 7 June 2006. [88246]

Joan Ryan: I replied to the hon. Member on 1 August, printed on 4 September 2006, *Official Report*, column 1750W.

Passports (Loss and Theft)

Danny Alexander: To ask the Secretary of State for the Home Department what the average cost per customer is of a call to report a lost or stolen passport. [91093]

Joan Ryan *[holding answer 13 September 2006]:* The Identity and Passport Service (IPS) do not accept reports of the loss or theft of a passport by telephone only on submission of the appropriate form. This is to guard against malicious reports of theft, and enables IPS to ensure the report originates from the genuine holder of the document.

A caller to the IPS Adviceline will be advised on how to obtain the appropriate report form. Calls to the Adviceline are charged at a national rate.

Danny Alexander: To ask the Secretary of State for the Home Department how many complaints have been received over the last 12 months about the system for reporting lost or stolen passports; what steps he has taken in response to such complaints; and if he will make a statement. [91094]

Joan Ryan *[holding answer 13 September 2006]:* The Identity and Passport Service (IPS) received 34 complaints from 1 September 2005 to 31 August 2006 relating to lost, stolen and recovered passports. A range of issues are recorded within this category; the issue of the system for reporting lost or stolen passports represents a small proportion of this number.

IPS procedure is to send a full response to each complaint received, with a consideration for reimbursement of expenses in accordance with IPS compensation policy, where appropriate. Any identified shortcomings are fed back to the relevant policy area to inform policy reviews and instigate change where necessary.

Police

Mr. Streeter: To ask the Secretary of State for the Home Department what the average number of hours was expended by police officers in investigating a burglary in 2005-06. [74669]

Mr. McNulty: The information requested is not collected centrally.

Bob Russell: To ask the Secretary of State for the Home Department if he will reimburse the Essex Police Authority for the full costs incurred by the authority in considering proposals for the merger of Essex police with other police forces. [91211]

Mr. McNulty *[holding answer 18 September 2006]:* We are currently considering the claim from Essex police, and those received from other forces and authorities, and will respond as soon as possible.

Police Community Support Officers

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department how many police community support officers have been introduced in Coventry, South since the scheme began. [58906]

Ms Blears: Information on the number of police community support officers (PCSOs) is not collected on a constituency basis. The following table sets out the number of PCSOs employed by West Midlands police up to September 2005. Information on PCSO numbers has only been collected at basic command unit (BCD) level since June 2005. In June 2005 there were 24 PCSOs deployed in the three operational command units covering the city of Coventry.

Police community support officers

Strength as at	*West Midlands*
September 2004	40
March 2005	219
September 2005	247

Mr. Burstow: To ask the Secretary of State for the Home Department if he will make it his policy to collect data routinely on assaults on police community services officers; and if he will make a statement. [91127]

Mr. McNulty *[holding answer 18 September 2006]:* Assaults on police community support officers (PCSOs) are not identified separately by the Home Office in the recorded crime data. They are recorded under the more general category of common assault if no injury results. If injury is involved they are recorded under the appropriate category of Violence against the Person (defined in terms of sections of the Offences against the Person Act 1861).

Within the police personnel data collection, assaults data are collected on behalf of Her Majesty's Inspectorate of Constabulary's (HMIC's). Assaults on all police officers and police staff (including PCSOs) are published in HMIC's annual report.

Assaults data from the police personnel data collection are not available by number of assaults per head of population.

Prison/Court Escort Service

Mr. Clegg: To ask the Secretary of State for the Home Department what penalties have been imposed on the companies responsible for prisoner escorts in each of the last five years; and what the reason for the penalty was in each case. [85401]

John Reid: Penalties for the two main performance measures of failing to deliver prisoners to court on time and escapes from contractors responsible for prisoner escorts are set out in the following table. This information dates from 29 August 2004, when the current contract started.

Information on penalties imposed on contractors under the previous court escort contracts could be provided only at disproportionate cost.

Court escort contracts—details of penalties imposed

£

	29 August 2004 to 31 March 2005	*1 April 2005 to 31 March 2006*
Total penalties imposed on court escort contractors	1,194,843	2,170,424
Penalties imposed for escapes from the custody of the contractors	222,500	326,000
Penalties imposed for failing to deliver prisoners to court on time	656,225	1,060,505
Other	316,118	783,919

Prisons

Mr. Bellingham: To ask the Secretary of State for the Home Department what assessment he has made of the effect of ear acupuncture in the high security prison estate; what plans he has to extend the availability of ear acupuncture in prisons; and if he will make a statement. [44374]

Fiona Mactaggart: There has been one study of the effect of ear acupuncture in the high security prison estate. The recent study undertaken in six high security prisons found positive effects associated with auricular acupuncture among prisoners, including reductions in worry, muscle tension, cravings and stress and improved psychological and physical well-being. There are presently no plans to extend the availability of ear acupuncture in prisons.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what steps he is taking to reduce overcrowding in prisons. [44960]

Fiona Mactaggart: The Government have introduced credible, intensive community sentences, which courts can tailor to individual offenders who might have otherwise receive ineffective short prison sentences. We have also alerted courts to the availability of electronic monitoring to support a curfew imposed as a condition of bail. Courts are being encouraged to use this option instead of a remand in custody in appropriate cases. We are increasing useable operational capacity in prisons by building additional places as part of an ongoing funded building programme, as well as carefully managing accommodation at existing prisons.

Lynne Featherstone: To ask the Secretary of State for the Home Department (1) how many incidents of self-harm *(a)* occurred and *(b)* gave rise to the need for resuscitation in each prison in each of the last five years for which figures are available; [45851]

(2) how many self-inflicted deaths occurred during the first *(a)* 24 hours and *(b)* seven days in custody in each prison for each of the last five years; [45852]

(3) what percentage of self-inflicted deaths in prison occurred during the first *(a)* 24 hours in custody, *(b)* seven days, *(c)* 14 days, *(d)* 28 days, *(e)* three months, *(f)* six months and *(g)* year in custody, broken down by (i) males and (ii) females in each of the last five years. [45853]

Fiona Mactaggart: The number of recorded incidents of self-harm that occurred in each prison in each of the last five calendar years is shown in table A. The table includes all incidents of self-harm, however serious. Some individuals are responsible for multiple incidents.

The number of recorded resuscitations following self-harm incidents that occurred in each prison in each of the last five calendar years is shown in the table B.

As prisoners often arrive in prison during the second half of the day, their first day in prison (Day 1) is typically less than 16 hours; some of the day is spent in the custody of PECS (Prisoner Escort and Custody Services).

The number of apparent self-inflicted deaths that occurred on Day 1 in each of the last five calendar years, and where the deaths occurred, is shown in table C. The number of apparent self-inflicted deaths that occurred on a prisoner's first complete day in prison (Day 2), and the prisons in which the deaths occurred, is shown in the table D. (Please note that these figures do not include those in the 'Day 1' chart.) The number of apparent self-inflicted deaths that occurred during a prisoner's first week in prison (Days 1-7), and where the deaths occurred, is shown in the table E.

The numbers and percentages of male prisoner self-inflicted deaths for each of the last five calendar years, broken down by days following reception, are shown in tables F.

The numbers and percentages of female prisoner self-inflicted deaths for each of the last five calendar years, broken down by days following reception, are shown in tables G.

The Government recognise that prisoners are particularly at risk of self-harm in their early period in custody, coping with issues of fear of imprisonment, detoxification and/or the impact of arrest on their family. Prisoners in early custody are therefore subject to a number of policies and practices designed to enhance their safety. These include health screening upon arrival, the use of peer supporters ('Insiders') to offer information and support to new prisoners, and First Night and Induction procedures.

Mr. Garnier: To ask the Secretary of State for the Home Department (1) how many inmates escaped from each prison in each of the last eight years; how many were recaptured within *(a)* one hour, *(b)* 12 hours, *(c)* 24 hours, *(d)* seven days, *(e)* 28 days, *(f)* six calendar months, *(g)* one year and *(h)* more than one year, broken down by category of prison from which they escaped; and how many in each category have not been recaptured; [77442]

(2) how many inmates have escaped from each category of prison in each of the last eight years; and how many in each category who escaped were *(a)* British citizens and *(b)* foreign nationals who had been recommended to the Home Secretary for deportation by the sentencing court on completion of their sentence. [77443]

Mr. Sutcliffe: A total of 114 prisoners have escaped from prisons in the last eight years, there have been no category A escapes and, as at 13 July 2006, 13 escapees remain unlawfully at large. Centrally available records indicate that none of the escapees were foreign nationals who had been recommended for deportation on completion of their sentence. One was an illegal immigrant. Time to recapture is not routinely recorded centrally and could be obtained only by examination of individual records.

Total escapes from all prisons in England and Wales 1998-99 to 2005-06 and numbers remaining unlawfully at large

Mr. Clegg: To ask the Secretary of State for the Home Department what estimate he has made of the capital value of each public sector prison. [88943]

John Reid: The capital values of public sector prisons are provided in the following table. The values are as at 31 March 2006 (subject to audit) and are valued in accordance with the Home Office accounting policy on the basis of depreciated replacement cost. Property on short-term lease is not capitalised and is not included. Staff residential accommodation is not included.

Mr. McLoughlin: To ask the Secretary of State for the Home Department how many absconders there were from Sudbury Open Prison in each of the last five years for which figures are available; what they were convicted of; what the length of their sentence was; how long they had actually served in Sudbury Open Prison prior to absconding; and if he will make a statement. [91026]

Mr. Sutcliffe *[holding answer 13 September 2006]:* The total number of absconds from Sudbury open prison for each of the last five financial years is given in the following table. Details about the sentence being served and the length of time left to serve could be obtained only by examination of individual prisoner records at a disproportionate cost

Number of absconds from Sudbury open prison for each of the last five financial years

Financial Year	Total
2001-02	81
2002-03	68
2003-04	75
2004-05	77
2005-06	76
Overall Total	377

Probation Service

Rosie Cooper: To ask the Secretary of State for the Home Department what recent representations he has received on the planned changes to the structure and role of the Probation Service in West Lancashire. [83489]

Mr. Sutcliffe: In October 2005 we published a consultation document, "Restructuring Probation to Reduce Re-offending". 47 responses were received from interests in Lancashire, including the Lancashire Probation Board. All commented on the proposals in general rather than on issues specific to West Lancashire.

Public Order

Mr. Wills: To ask the Secretary of State for the Home Department (1) how many antisocial behaviour orders have been issued in the Wiltshire Police Authority area; how many have been breached; how many people received a custodial sentence for a breach; and how many people have been taken to court for a breach; [54567]

(2) how many breaches of antisocial behaviour orders have *(a)* resulted in and *(b)* not resulted in court action in Swindon since they were introduced. [54568]

Ms Blears: The number of antisocial behaviour orders (ASBOs) issued, as reported to the Home Office, is currently available up to 30 June 2005. In the Wiltshire Criminal Justice System (CJS) Area which is co-terminous with the police force area there have been 26 ASBOs issued. Of these four show prohibitions imposed within the Swindon borough council area.

ASBO breach data held centrally only cover breach proceedings where there has been a conviction and are currently available from one June 2000 to 31 December 2003 for ASBOs issued since 1 June 2000.

During this period, within the Wiltshire criminal justice system area, notification has been received of three persons having breached their ASBO on one or more occasions. Two received a custodial sentence for the breach. Breach data are available at criminal justice system area level only and are therefore not available for Swindon.

Anne Snelgrove: To ask the Secretary of State for the Home Department how many *(a)* acceptable behaviour contracts, *(b)* parenting contracts, *(c)* parenting orders, *(d)* full injunctions, *(e)* evictions, *(f)* dispersal orders and *(g)* closure orders have been issued in each (i) constituency and (ii) local authority in England since 2001. [58022]

Ms Blears: The data are not available in the form requested. However, for the last two years the Home Office Antisocial Behaviour Unit has carried out a survey of Crime and Disorder Reduction Partnerships in England and Community Safety Partnerships in Wales asking about their actions taken to tackle antisocial behaviour. From those who responded to the surveys the results are as follows:

This is for the period 20 January 2004 to 30 September 2004. The crack house closure power was introduced in the Anti-social Behaviour Act 2003 and came into force on 20 January 2004.

In relation to dispersal orders from a Home Office data collection exercise in July 2005, we estimate that between January 2004 and June 2005:

809 areas were designated; and

Police officers and community support officers dispersed 14,375 people from the 293 areas where data was available.

Re-offending Action Plan

Mr. Llwyd: To ask the Secretary of State for the Home Department (1) which regional organisations will be involved in the delivery of individual pathways in Wales under the re-offending action plan; [58507]

Mr. Llwyd: To ask the Secretary of State for the Home Department what organisations will be involved in the implementation of the NOMS plan for Wales; and what funds have been allocated to them for the implementation. [58506]

Fiona Mactaggart: A Pathfinder Project was commissioned by the Home Office with the agreement of the Welsh Assembly Government to examine ways of delivering a reducing re-offending strategy within the specific Welsh context. The outcome has led to the joint launch of Joining Together in Wales: an Adult and Young People's Strategy to Reduce Re-offending on 1 February by the Welsh Assembly Government and Home Office Ministers. The strategy identifies the issues that need to be addressed and forms the basis of a consultation to develop a reducing re-offending action plan for Wales.

Following the outcome of the consultation, there will be a joint action plan to reflect the roles and responsibilities of the Welsh Assembly Government, the National Offender Management Service and other key stakeholders in Wales.

Seat Belts

Mr. Sheerman: To ask the Secretary of State for the Home Department how many vehicle occupants have been fined for non-wearing of seat belts in each of the last 10 years. [91172]

Mr. McNulty *[holding answer 18 September 2006]:* Available information on court imposed fines taken from the Court Proceedings Database held by the Office for Criminal Justice Reform, from 1995 to 2004 (latest available), is given in the following table. As the majority of seat belt offences are dealt with by the issue of a fixed penalty notice these are also included.

2005 data will be available early in 2007.

Driving or riding in a motor vehicle while not wearing a seat belt[1] England and Wales, 1995-2004

	Total number of court imposed fines[2]	Total number of fixed penalties	Total dealt with
1995	5,192	126,251	131,443
1996	5,309	154,345	159,654
1997	5,027	175,334	180,361
1998	5,207	193,879	199,086
1999	4,144	180,698	184,842
2000	3,227	155,301	158,528
2001	2,792	144,391	147,183
2002	2,406	126,419	128,825
2003	2,651	145,589	148,240
2004	2,960	201,914	204,874

[1] Offences under sections 14(3), 15(2) and 15(4) of the Road Traffic Act 1988.

[2] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.

Note:

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their limitations are taken into account when those data are used.

Skilled Migrant Workers

Stephen Pound: To ask the Secretary of State for the Home Department if he will introduce a transitional period for skilled and highly skilled migrant workers affected by the February implementation of the change in the minimum qualifying period for settlement. [88867]

Mr. Byrne: The Government looked closely at the merits of introducing a transitional period for those affected by the increase in the minimum qualifying period for settlement. In deciding not to introduce a transitional period, consideration was given to the following factors: this change does not prevent anyone from doing anything that they are currently doing; it does not limit anyone's time with any employer or reduce their stay in the United Kingdom—if they meet the conditions necessary to be in the UK under the Work Permit or Highly Skilled Migrants Programmes they will be granted an extra year's leave before settlement. If they do not meet these conditions they would in any case not have qualified for settlement at four years. To introduce a transitional period for those

who arrived when the qualifying period was four years would mean that a desirable policy would not take effect until 2011.

Stephen Pound: To ask the Secretary of State for the Home Department what discussions he has had with representatives of *(a)* Indian and *(b)* Chinese skilled and highly skilled migrant workers affected by the change in the minimum qualifying period for settlement. [88868]

Mr. Byrne: The change in the minimum qualifying period for settlement affects all those coming to the UK for employment including work permit holders and those entering under the Highly Skilled Migrants Programme. Our discussion of the change has, therefore, reflected this and has been principally with organisations that represent employees irrespective of their nationality.

Small Change Big Difference Campaign

Anne Milton: To ask the Secretary of State for the Home Department what steps his Department and its agencies have taken following the launch of the Government's Small Change Big Difference Campaign. [72013]

Mr. Byrne: The Home Office with its Executive Agencies has already put in place a range of measures to promote staff well-being. These include initiatives on healthy diet and nutrition, physical exercise, mental health and well-being.

Snares

Mr. Sheerman: To ask the Secretary of State for the Home Department, what action he is taking to discourage the use of snares for catching birds and small mammals. [91173]

Barry Gardiner *[holding answer 18 September 2006]:* I have been asked to reply.

The use of any snare to catch birds is prohibited under the Wildlife and Countryside Act 1981.

The Government are committed to working to make more humane the legal use of snares to catch certain mammals. On 18 October 2005 Defra published an independent working group's report on snares together with DEFRA's "Snares Action Plan" and "Code of Good Practice on the use of Snares in Fox and Rabbit Control in England". These are available on the Defra website: http://www.defra.gov.uk/WILDLIFE-COUNTRYSIDE/vertebrates/snares/.

Statutory Instruments

John Bercow: To ask the Secretary of State for the Home Department if he will list the statutory instruments introduced by his Department since 6 May 2005. [46198]

John Reid: Please find the statutory instruments introduced by the Home Office since 6 May 2005 up to and including 27 January 2006 listed as follows. Full texts can be found on the OPSI website at www.opsi.gov.uk

The Displaced Persons (Temporary Protection) Regulations 2005 (No. 1379)

The Police Pensions (Part-time Service) Regulations 2005 (No. 1439)

DRAFT Community Order (Review by Specified Courts in Liverpool and Salford) Order 2006

(L) DRAFT Charities (Cheadle Royal Hospital, Manchester) Order 2006

[1] Orders in Council.

[2] Order in Council laid as a 2005 Order, to be made as a 2006 Order.

Local instruments.

Stolen Property (Recovery Costs)

Mr. Paice: To ask the Secretary of State for the Home Department what estimate he has made of the cost to police forces of removing the charge to victims of car theft for the return of their vehicle. [57979]

Hazel Blears: No such estimate has been made. We believe it would be in the order of several million pounds.

Terrorism Act

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people have been arrested under the Terrorism Act 2000; how many were *(a)* held for the maximum 14 days, *(b)* charged and *(c)* convicted; and in how many cases trials are pending. [79054]

Mr. McNulty: Statistics compiled from police records show that between 11 September 2001 and 31 March 2006 997 people were arrested under the Terrorism Act 2000 (TACT). Of these people, 154 were charged with offences under TACT and 79 of these were also charged with offences under other legislation. A further 175 individuals were charged under different legislation. A total of 25 people were convicted under TACT during this period.

The maximum period of detention pre-charge was extended to 14 days with effect from 20 January 2004. Our records show that from 20 January 2004 to 31 March 2006, which are the most recent statistics available, 14 people have been held for 13-14 days.

The Home Office does not publish statistics on the number of cases awaiting trial.

Vandalism

David T.C. Davies: To ask the Secretary of State for the Home Department if he will list the acts of vandalism which have been perpetrated *(a)* inside and *(b)* on the outside of his Department's buildings in the last 12 months. [49503]

John Reid: The Department does not hold central records of the acts of vandalism perpetrated against its buildings and to retrieve this information would be at disproportionate cost. Many of the Departments buildings are covered by CCTV and other measures are used to reduce vandalism and the effects of vandalism upon the estate.

Work Permits

Mr. Burstow: To ask the Secretary of State for the Home Department how many work permits were issued to individuals working in *(a)* health care and *(b)* social care in 2005. [88960]

Mr. Byrne: In 2005, 40,296 work permits were approved for posts in the Health and Medical sector for overseas nationals both in the UK and overseas. All successful applicants have to apply separately for a visa or leave to remain. The Health and Medical sector includes both health care and social care occupations. Work Permits (UK) does not record separate information on Health and Care. These figures include all work permits approved for the Health and Medical sector, and therefore include both medical and non-medical posts. The figures quoted are not provided under National Statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

Young Offenders

David Davis: To ask the Secretary of State for the Home Department how many people have left a young offenders institution without *(a)* employment and *(b)* accommodation in each of the past eight years. [42165]

Fiona Mactaggart: The information is as follows:

(a) It is a disproportionate cost to separate Employment from Education and Training outcomes for prisoners released prior to April 2005.

Education Training and Employment (ETE) outcomes also include those who attended Freshstart appointments at Jobcentre Plus.

Freshstart is the initiative whereby prisoners who do not have a job or training place to go to on release are linked into employment, training and benefits advice and support immediately after release.

Information on the number of those leaving young offender institutions without ETE outcomes has been collected since 2002 and is given in the following table:

Table (a)

	2002-03	*2003-04*	*2004-05*
Discharges	12,206	11,974	12,611
Number discharged with no recorded education, training or employment place	9,631	7,710	6,853
Percentage discharged with no recorded education, training or employment place	79	64	54

(b) Information on the numbers leaving young offender institutions with no accommodation is available from 2003 onwards, and is given in the following table:

Table (b)

	2003-04	*2004-05*
Discharges	11,974	12,611
Number discharged with no recorded accommodation	2,664	1,673
Percentage discharged with no recorded accommodation	22	13
